Item 5.02 Departure of Directors or Principal Officers; Election of Directors; Appointment Of Principal Officers

Effective as of January 1, 2005, Bill L. Harbert resigned as a Director of the Company for personal reasons.

Item 8.01 Other Events

On December 23, 2004 the thirteen (13) holders of all of the Company's Series A 8% Cumulative Convertible Preferred Stock (the Series A Shares) having an aggregate face value of \$2,867,900 were offered options to exchange their Series A Shares. The exchange options were voluntary in that each holder also had a right to retain his current Series A Shares.

One option offered was to exchange the Series A shares for cash in an amount equal to 66.67% of the outstanding face value of the Series A shares, excluding accrued and unpaid dividends, in full satisfaction of the Company's obligations under the Series A Shares. An amount equal to the dividend for the quarter ending December 31, 2004 would be paid without discount. Seven of the thirteen existing holders selected this

option, exchanging \$1,085,000 of Series A Shares having a face value of \$1,085,00 for cash payments totaling \$749,069 including a dividend value of \$25,700. The Company obtained the funds for this exchange from cash on hand and the proceeds of a loan from Dolphin Offshore Partners, L.P. (Dolphin), the Company s largest shareholder. The loan from Dolphin was evidenced by a promissory note in the principal amount of \$550,000 bearing 12% interest per annum payable interest only until the principal amount of the note was due on May 20, 2005. The note is secured by a lien on the Company s assets in Tennessee and Kansas.

A second option offered was to exchange the face value of Series A Shares including accrued dividends, on a dollar for dollar basis, for up to eight unit interests in a drilling and development program to drill eight oil wells on properties leased by the Company in Kansas (the Program). The Company will act as operator of the Program, charging to the participants a turnkey fee of \$250,000 per unit. Participants will receive, pro rata to their unit interests, all net cash flow from the Program, until receipt of 80% of exchanged face value of the Series A shares. Thereafter, participants will pay the Company a management fee equal to 85% of all their net cash flow from the Program Wells. The Company has identified two (2) wells to be drilled in the first quarter of 2005, and is to drill the remaining wells by March 31, 2006. Five holders of the Series A Shares having an aggregate face value of \$1,582,900 plus an accrued dividend value of \$31,658 selected this option. The exchange of these Series A Shares was made on December 31, 2004 for approximately 6.5 units in the Program. The remaining 1.5 units in the Program are currently retained by the Company.

Only one Series A shareholder chose not to exercise any of the offered options and instead elected to retain its shares in current form. Consequently, as of January 1, 2005 the

2

Company has one Series A shareholder having shares with a face value of \$200,000.
