Item 2.05 Cost Associated with Exit or Disposal Activities.

On May 20, 2015, Open Text Corporation (“OpenText” or the “Company”) announced that it is initiating a restructuring program, approved by its board of directors, in conjunction with organizational changes to support its Cloud strategy and drive further operational efficiencies.

The restructuring program costs are expected to be primarily related to employee severance arrangements and facility expenses, and are expected to result in a pre-tax restructuring charge of approximately \$25 million, of which approximately \$16 million is related to employee severance arrangements and approximately \$9 million is related to facility exit costs, total cash payments in the same amounts, and a reduction in the Company’s workforce by approximately 5 percent. The Company expects these charges to be incurred, and the employee severance costs to be paid out, substantially in the First Quarter of Fiscal Year 2016, with the remainder of costs to be paid out thereafter. The amount of restructuring charges and other expected impacts from the restructuring program described above are all estimates, and the actual results could vary materially.
