Notes to the Consolidated Financial Statements

December 31, 2012

(Unaudited)

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

The consolidated financial statements presented are those of PCS Edventures!.com, Inc., an Idaho corporation, and its wholly owned subsidiary, PCS LabMentors, Ltd., a Canadian company (collectively, the Company).

On August 3, 1994, PCS Education Systems, Inc. was incorporated under the laws of Idaho to develop and operate stand-alone learning labs.

In October 1994, PCS exchanged common stock on a one-for-one basis for common stock of PCS Schools, Inc. As a result of this exchange, PCS Schools, Inc. became a wholly owned subsidiary of PCS. In the late 1990s, the Company divested the stand-alone learning labs to focus more on a hands-on module coupled with web-based technology for use in the classroom.

On March 27, 2000, PCS changed its name from PCS Education Systems, Inc. to PCS Edventures!.com, Inc.

On November 30, 2005, PCS entered into an agreement with 511092 N.B. LTD., a Canadian corporation (LabMentors) to exchange PCS common stock for common stock of 511092 N.B. LTD. as disclosed in the 8-K as filed with the Securities and Exchange Commission (the SEC) on December 9, 2005 and amended on February 15, 2006. As a result of the definitive Share Exchange Agreement, 511092 N.B. LTD. became a wholly owned subsidiary of the Company. In December 2005, the name of this subsidiary was formally changed to PCS LabMentors, Ltd. It remains a Canadian corporation.

On January 31, 2013, PCS Edventures!.com, Inc. formed a subsidiary called Premiere Science Inc. incorporated and registered in the State of Idaho. The subsidiary is 100% wholly owned by PCS Edventures!.com, Inc. and was formed to use as an additional sales and marketing tool to gain other business opportunities.

NOTE 2 - UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

The December 31, 2012, consolidated financial statements presented herein are unaudited, and in the opinion of management, include all adjustments (consisting of only normal recurring accruals) necessary for a fair presentation of financial position, results of operations and cash flows. Such financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America. This Quarterly Report on Form 10-Q should be read in conjunction with the Annual Report on Form 10-K for PCS Edventures!.com for the fiscal year ended March 31, 2012. The March 31, 2012, consolidated balance sheet is derived from the audited balance sheet included therein.

The operating results for the three and nine-month periods ended December 31, 2012, are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2013.

NOTE 3 - GOING CONCERN

The Company's consolidated financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. The established sources of revenues are not sufficient to cover the Company's operating costs. The Company has accumulated significant losses and payables and generated negative cash flows. The combination of these items raises substantial doubt about its ability to continue as a going concern. Management's plans with respect to alleviating this adverse position are as follows:

During the fiscal year ended March 31, 2012, PCS began the transition to a new marketing model that would address the challenges presented by the current budgetary cuts in the educational market. First, PCS has focused its primary development and marketing resources on the afterschool market where funding is more predictable and available than traditional school budgets, many of which are undergoing significant cuts. Second, PCS recognizes that its experience in operating learning centers creates a unique opportunity to supplement the current PCS business model through opening learning centers in partnership with schools. This approach combines PCS expertise in experiential learning with its considerable store of intellectual property comprised of learning frameworks, content, proprietary hardware, and software developed over the past two decades while increasing the throughput of our existing direct sales efforts. This marketing approach will incorporate the large body of PCS intellectual property into an afterschool program that families will pay tuition to attend. PCS developed a relationship with Sage International, an International Baccalaureate charter school based in Boise, to provide the facility and classroom for the afterschool program, and PCS, in exchange, provides the equipment and support. The school uses the material during the day as part of the curriculum, and PCS operates for-profit afterschool classes on weekends, evenings, during breaks and after the close of the school day. PCS conducted market tests of holiday camps during November and December of 2011 and in March of 2012, refining and confirming basic assumptions related to the business plan, and opened for afterschool and summer programs in April of 2012. The PCS Learning Center at Sage generated \$22,702 and \$43,131 of revenue in the three and six months ended December 31, 2012, respectively.

The business plan proposes the continued promotion and growth of the PCS Learning Center at Sage to further demonstrate proof of the concept, and the opening of one additional learning center in FY2013, to be located in the Boise market, partnering with another local school. A third Learning Center is proposed to open in a market of strategic importance yet to be determined in Q2 of FY2014. The premise of the business plan is two-fold: 1) learning center revenues will be more consistent and predictable for the Company to plan and manage cash and growth; and 2) an established network of learning centers will serve as highly effective showrooms for sales of PCS products and services into neighboring districts. Also of note, close partnerships with schools provide an opportunity to test and improve PCS products on a regular basis.

Also related to the learning center business, PCS signed a license and royalty agreement with Creya Learning of India (CL). CL will use PCS content and support services to implement experiential learning curriculums into Indian schools and to build out a network of experiential learning centers in India that will function as premier afterschool locations as well as product showrooms. PCS, as part of the agreement, will receive ongoing royalties on the tuition charged to students attending PCS based programs. In Q1, FY2013, PCS also executed a STEM consulting agreement with Cultural Innovations for science center and STEM consulting services in the Kingdom of Saudi Arabia and concluded work associated with a tender competition contract initiated in Q2 of FY2012 with Tatweer Holding Company of Saudi Arabia. PCS will continue to pursue additional international opportunities to offset the continued challenges to the domestic economy and to take advantage of global market needs for PCS type products and services.

Product development in FY2013 has focused on continued improvements and refinements to PCS products and curriculum, primarily PCS Robotics related materials. Executive management continues in its conviction that the K12 educational robotics market represents a viable market opportunity for PCS.

In addition, Murali Ranganathan was appointed to the Board of Directors on January 11, 2013 and will act as Audit Committee Chairman. Mr. Ranganathan is the Senior Manager of Finance Strategy for Micron, and is the financial

lead for evaluating, negotiating, and conducting due diligence on Micron's M&A and venture investment opportunities. Mr. Ranganathan has a long and impressive career in both engineering and finance, with a Masters in Industrial and Systems Engineering from Ohio State, and an MBA from the Booth School of Business at the University of Chicago. Mr. Ranganathan's experience and financial knowledge will be an extraordinary asset to the team as PCS continues to refine its business plan.

The Company continues to report improved results during FY2013. During the quarter ended December 31, 2012, revenue was \$602,739 up 63% from the same quarter last year, and net loss of (\$146,026), compared to a loss of (\$433,182) in the same quarter last year. Offsetting the income effect of the increase in sales was a charge of \$154,812 due to the change in fair value of the derivatives related to a portion of our debt (see Note 7). Revenue for the nine months ended December 31, 2012, were \$2,476,281, an increase of 47% compared to the same period in the prior year. Net loss for the nine-month period ended December 31, 2012 was (\$402,217) after the charge of \$(50,459) for the change in fair value of the derivatives related to a portion of our debt (see Note 7). Net loss for the

same period of the prior year, during which time there was no derivative charge, was (\$1,351,357), thus showing a marked improvement in the results of operations. Cash flow from operations for the nine months ended was \$29,075.

While the efforts put in by management and the entire employee team are beginning to be realized, as illustrated by the improved results for the first, second and third quarters of this fiscal year, the ability of the Company to continue as a going concern is dependent upon our ability to successfully accomplish the plans described in the preceding paragraphs, to raise capital as needed, to continue to monitor and reduce overhead costs, and to attain profitable operations. The accompanying consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Notes Payable

On December 30, 2011, the Company entered into a Promissory Note payable in the amount of \$30,000. The Promissory Note bears interest at 10% per annum and was due on February 28, 2012. This Promissory note was subsequently extended to July 31, 2012. A second extension was issued on this Promissory Note, under the same terms and conditions, with a new maturity date of December 31, 2012. The company negotiated a third extension for this Promissory Note from the lender with a maturity date of March 31, 2013.

On January 6, 2012, the Company entered into a Promissory Note in the amount of \$35,000. The note paid interest at 10% per annum. The note was due and payable with accrued interest on or before March 6, 2012, and was secured by certain accounts receivable of the Company. Upon collection of the pledged receivables the amount was rolled into a new Promissory Note dated January 26, 2012, in the aggregate amount of \$175,000 with interest payable at 15% per annum. This note was due and payable on or before April 10, 2012. The aggregate amount of \$175,000 plus accrued interest was paid in full on April 18, 2012, upon receipt of the receivable related to the pledged purchase order used to secure the January 26, 2012 note. The January 26, 2012 note included attached warrants to purchase 175,000 shares of restricted Rule 144 common stock at a rate of \$0.12 per share for the first 18 months and \$0.18 per share for the remaining 18 months. The warrants expire 36 months from the date of the agreement. The warrants attached to the note were valued using the Black Scholes Valuation Model, resulting in a fair value of \$8,006, the balance of which was fully amortized as of March 31, 2012.

On January 13, 2012, the Company entered into two separate promissory notes in the amount of \$35,000 each for an aggregate amount of \$70,000. The notes bear interest at 9% per annum and are due and payable on or before January 10, 2013. Minimum monthly payments of 1.5% of the loan balances are required and are submitted to Lenders financial institution. Principal payments of \$5,800 had been paid as of December 31, 2012. The Lender s and Company are in the process of negotiating the terms of the loan with the Lender s financial institution.

On March 14, 2012, the Company entered into a promissory note for \$10,000. The note bears interest at 10% per annum and was due and payable on or before April 30, 2012. This note was subsequently extended and was due and payable on or before July 31, 2012. On July 30, 2012, the Company repaid this note in the amount of \$10,380.83. The payment consisted of \$10,000 in principal and \$380.83 in accrued interest. The interest paid included \$46.58 that was accrued in Interest Payable and expensed as of March 31, 2012.

On April 18, 2012, we entered into a long term promissory note with Anthony A. Maher for \$25,000 with an interest rate of 7.5% per annum. The balance is due in full on or before April 18, 2017.

On June 14, 2012, we executed a Promissory Note with one of our shareholders, for \$60,000 at 15% interest per annum, secured by seven of our sales orders to finance inventory purchases. The Promissory Note was due on or before August 14, 2012. There is no conversion feature associated with this Promissory Note. This Promissory Note was subsequently rolled into a \$560,000 note dated July 17, 2012. This transaction involved the issuance of a Promissory Note, which was payable with interest of 15% per annum, in cash on or before September 30, 2012. The \$60,000 due August 14, 2012 was rolled in-to the new Promissory Note agreement as part of the amount borrowed. The Company issued 100,000 warrants with a 36 month term at \$0.15 per share exercise price as part of this agreement. The Promissory Note was secured by a purchase order in the amount of \$741,780 dated July 16, 2012. The loan proceeds were utilized to purchase inventory to fulfill the Purchase Order, bring certain vendors

and payable accounts current, and finance the operations and logistics required to fulfill and support the order. This loan was repaid in full, including accrued interest of \$11,277, on September 4, 2012.

On October 12, 2012, we entered into a loan transaction in the amount of \$75,000 with an accredited investor as that term is defined in Rule 501 of Regulation D of the SEC. The transaction involved the issuance of a Promissory Note, which is payable with interest of 12.5% per annum, in cash on or before December 14, 2012. The Promissory Note is secured by a Purchase Order in the amount of \$220,405 dated August 1, 2012 and by the proceeds from the Accounts Receivable, after shipping to and receipt by the customer. The loan proceeds will be utilized to finance operations and logistics required to fulfill and support the remaining unshipped portion of the order. This note was paid in full with all accrued interest in the amount of \$1,413 on December 7, 2012.

On October 23, 2012, we entered into a loan transaction in the amount of \$25,000 with an accredited investor as that term is defined in Rule 501 of Regulation D of the SEC. The transaction involved the issuance of a Promissory Note, which is payable with interest of 12.5% per annum, in cash on or before December 23, 2012. The Promissory Note is secured by a Purchase Order in the amount of \$220,405 dated August 1, 2012 and by the proceeds from the Accounts Receivable, after shipping to and receipt by the customer. The loan proceeds will be utilized to finance operations and logistics required to fulfill and support the remaining unshipped portion of the order. This note was paid in full with all accrued interest in the amount of \$368 on December 7, 2012.

On November 16, 2012, we entered into a loan transaction in the amount of \$40,000 with an accredited investor as that term is defined in Rule 501 of Regulation D of the SEC. The transaction involved the issuance of a Promissory Note, which is payable with interest of 12.5% per annum, in cash on or before December 14, 2012. The Promissory Note is secured by a Purchase Order in the amount of \$220,405 dated August 1, 2012 and by the proceeds from the Accounts Receivable, after shipping to and receipt by the customer. The loan proceeds will be utilized to finance operations and logistics required to fulfill and support the remaining unshipped portion of the order. This note was paid in full with all accrued interest in the amount of \$274 on December 7, 2012.

On December 26, 2012 we entered into a loan transaction in the amount of \$63,000 with an accredited investor as that term is defined in Rule 501 of Regulation D of the SEC. The transaction involved the issuance of a Promissory Note, which is payable with interest of 12.5% per annum, in cash on or before February 18, 2013. The Promissory Note is secured by a Purchase Order in the amount of \$63,600 and by the proceeds from the Accounts Receivable, after shipping to and receipt by the customer. The loan proceeds will be utilized to finance operations and logistics required to fulfill and support the remaining unshipped portion of the order.

Line of Credit

On September 13, 2011, the Company drew down a line of credit at a financial institution in the amount of \$39,050. The line of credit bears interest at 17.5% per annum. The Company makes variable monthly payments. As of December 31, 2012, the Company has paid \$5,989 in principal leaving a balance of \$33,102 payable.

Convertible Notes

On March 31, 2011, the Company entered into several Convertible Promissory Notes in the aggregate amount of \$215,000. The notes are convertible into common stock at a rate of \$0.15 per share. The notes bear interest at 10% per annum and include attached warrants to purchase two shares of restricted Rule 144 common stock for every dollar loaned, at a rate of \$0.15 per share, for an aggregate total of 430,000 restricted Rule 144 common shares. The notes were due on June 29, 2011, and are secured by that portion or percentage of the Borrower's Intellectual Property which the principal amount of the note bears to the fair market value of all Intellectual Property of the Borrower. Intellectual Property of the Borrower is defined to mean all trademarks, registered or unregistered, marks, logos, business names, proprietary computer software, curriculum, copyrighted material, registered or unregistered, trade names, patents and patent applications, and all general intangibles relating to the foregoing. Notwithstanding the foregoing, Intellectual Property shall not include any license, property or contract right the granting of a security in which would be prohibited by law or contract. The warrants expire 36 months from date of agreements. The Company recognized a discount on the debt issued, which was composed of an embedded beneficial conversion feature and attached warrants. The Company measured the beneficial conversion feature by allocating a portion of the proceeds equal to the intrinsic value of the feature to additional paid-in-capital. The intrinsic value of the feature was calculated on the commitment date using the effective conversion price of the notes. This intrinsic value is

limited to the portion of the proceeds allocated to the notes, and was calculated as \$58,000. The warrants attached to the Promissory Notes were valued using the Black Scholes Valuation Model, resulting in a fair value of \$63,479, the balance of which was fully amortized as of June 30, 2011.

The Company extended the due date on the Convertible Promissory Notes payable dated March 31, 2011 in the aggregate amount of \$215,000. These Promissory Notes were originally due on June 29, 2011 and subsequently extended. In consideration for the first note extension, the Company issued an additional 430,000 restricted Rule 144 common stock warrants. The restricted Rule 144 common stock warrants allow for the purchase of one share of restricted Rule 144 common stock at \$0.15 per restricted Rule 144 common stock warrant. The warrants expire 36 months from the date of the original warrant agreement. The fair market value of these warrants was calculated using the Black Scholes Valuation Model, resulting in an expense of \$61,995 during the quarter ended June 30, 2011. On February 10, 2012, the notes were extended to August 25, 2013, with repayments to be made quarterly beginning in May, 2012, in the amount of \$40,000 per quarter, with the remaining balance due in August 2013. No additional warrants were issued in connection with subsequent extensions.

On August 1, 2012, the Company issued amendments to the Convertible Promissory Note agreements and extended the due date with the repayments in the amount of \$40,000 per quarter to begin April, 2013, and the final payments due in August, 2014, with any remaining balance due at that time. In consideration for extending the due date of the Promissory Notes, the expiration dates on the warrants issued on March 31, 2011 and June 27, 2011, were amended and extended an additional three years, making the new expiration dates August 1, 2017. At the Lender's sole option, Lenders may elect to receive payment of their respective note and all accrued interest in restricted common stock of the Borrower at the price per share of said common stock at same rate as the warrants.

On February 29, 2012, the Company entered into three separate Convertible Promissory Notes in the aggregate amount of \$100,000. The Promissory Notes bear interest at 10% per annum and were due on May 30, 2012. At the sole option each respective Lender, the outstanding balance of the notes may be converted into shares of restricted Rule 144 common stock of the Borrower at a price per share of \$0.05. In the event Lender elects to convert any outstanding balance due under this note into such shares, Lender shall give written notice to the Borrower seven (7) days prior to the effective date of such exercise. At Borrower's sole option, Borrower may elect to pay Lender in cash up to one-half (1/2) of the then principal and interest due under the note. In such event, the remaining balance of principal and interest shall be converted as provided under the note agreement. On June 14, 2012, one of the notes, in the amount of \$50,000, was converted into 1,028,770 shares of our restricted common stock in accordance with the terms of the Convertible Promissory Note. A second extension was issued for the remaining two notes in an aggregate amount of \$50,000, under the same terms and conditions, with a new maturity date of October 31, 2012. These two notes were subsequently extended, with no changes to the terms, and are now due and payable on or before December 31, 2012. The company negotiated a new maturity date with the lender and issued extensions on the two Convertible Promissory Notes with due dates of March 31, 2013.

On April 23, 2012, we entered into a Securities Purchase Agreement whereby we issued an 8% Convertible Promissory Note in an aggregate amount of \$32,500, convertible into shares of common stock of the Company at the expiration of six months, at a discount to market of 42% of the Market Price, which means the average of the lowest three (3) Closing Bid Prices for the common stock during the ten (10) Trading Day period ending on the latest complete Trading Day prior to the Conversion Date. The Company recognized a discount on the debt issued related

to the derivative liability. The Company measured the derivative liability using a lattice model as described in Note 8, of which it was fully amortized during the nine months ended December 31, 2012 due to conversion. On October 31, 2012, the lender exercised their right and converted the principal amount of \$10,000 into 215,517 shares of Common Stock. On November 8, 2012, \$8,000 of principal was converted and 225,989 shares of Common Stock were issued, leaving a principal balance of \$14,500. The final transaction occurred on November 20, 2012 when the lender converted the remaining balance of \$14,500 in principal and \$1,300 in accrued interest into 763,285 shares of common stock, fully converting the Promissory Note of \$32,500. Due to conversion within the terms of the note, no gain or loss was recognized.

The Convertible Promissory Note has a due date of January 26, 2013; can be pre-paid, subject to varying Optional Prepayment Date payments ranging from 125% if prepaid during the first 30 days to 150% if prepaid prior to the expiration of 180 days. Conversion is restricted so that conversions will not result in an ownership of more than 4.99% of the outstanding common stock of the Company by the note holder. The Company is at all times required to reserve at least four times the amount of shares that may be subject to conversion at any time for issuance on conversion. The note holder also has a first right of refusal on any additional funding of up to \$100,000. All Promissory Notes under this agreement have been converted or pre-paid as discussed below.

The agreements contain customary representations and warranties, customary affirmative and negative covenants, customary anti-dilution provisions, and customary events of default that entitle the note holder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the Convertible Promissory Note.

On June 4, 2012, we entered into a second Securities Purchase Agreement with the same party as the April 23, 2012 agreement, whereby we issued an 8% Convertible Promissory Note in an aggregate amount of \$28,750, convertible into shares of common stock of the Company under the same terms as the first note dated April 23, 2012. The Company recognized a discount on the debt issued related to the derivative liability. This debt discount was calculated as \$28,750, of which it was fully amortized during the nine months ended December 31, 2012 due to repayment of the note. On December 04, 2012, the company elected and submitted payment to pre-pay the Promissory Note in full. The payment consisted of the principal amount of \$28,750 along with \$1,150 in accrued interest and the payoff penalty amount of \$14,359.

On July 16, 2012, we entered into a third Securities Purchase Agreement with the same party as our April 23 and June 4, 2012 agreements, whereby we issued an 8% Convertible Promissory Note in an aggregate amount of \$13,750, convertible into shares of common stock of the Company under the same terms as the first note dated April 23, 2012. The Company recognized a discount on the debt issued related to the derivative liability. This debt discount was calculated as \$13,750, of which \$4,547 was amortized during the nine months ended December 31, 2012. This Promissory Note has the option of being pre-paid on or before January 14, 2013. Subsequently, on January 11, 2013, the company paid the principal amount along with all accrued interest and penalties for a total amount of \$21,173.

On June 7, 2012, Leann R. Gilberg, Robert O. Grover and Brett A. Newbold, three of our officers, as well as one employee shareholder, and one additional shareholder, each converted his/her respective \$2,400 Convertible Promissory Note dated May 3, 2012, into 60,288 shares of our restricted common stock in accordance with the terms of said Convertible Promissory Notes. Forms 4 were filed for the three officers on June 12, 2012. The Company recognized a discount on the debt issued related to the embedded beneficial conversion feature. The Company measured the beneficial conversion feature by allocating a portion of the proceeds equal to the intrinsic value of the feature to additional paid-in-capital. The intrinsic value of the feature was calculated on the commitment date using the effective conversion price of the notes. This intrinsic value was calculated as \$9,889, of which \$7,184 was amortized during the three months ended June 30, 2012, at the time of conversion with the remaining balance included in the gain on redemption at conversion.

The above transactions were entered into with parties who meet the definition of an accredited investor as that term is defined in Rule 501 of Regulation D of the SEC. The securities were offered and sold pursuant to an exemption from registration under the Securities Act of 1933, as amended (the Securities Act), pursuant Section 4(2) thereof.

On December 3, 2012, the Company entered into a long term Convertible Promissory Note with board member and shareholder Todd Hackett in the amount of \$45,000. The note is convertible into common stock at a rate of \$0.04 per share. The note bears interest at 8% per annum and is due 36 months from the date of the agreement, on or before December 3, 2015. The note is secured by a secondary security interest in all of the Company's intellectual property. The proceeds from the note were used by the company to pay off the Security Purchase Agreement (tranche 2) issued on June 4, 2012, along with any accrued interest, penalties and administrative costs. The Company recognized a discount on the debt issued related to the derivative liability. This debt discount was calculated to be \$18,255 of

which \$358 was amortized during the nine months ended December 31, 2012.

NOTE 8 DERIVATIVE FINANCIAL INSTRUMENTS

The Company generally does not use derivative financial instruments to hedge exposures to cash-flow risks or market-risks that may affect the fair values of its financial instruments. The Company utilizes various types of financing to fund our business needs, including convertible debts with conversion features and other instruments not indexed to our stock. The convertible notes include fluctuating conversion rates. The Company uses a lattice model for valuation of the derivative. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and then re-valued at each reporting date, with changes in the fair value reported in income in accordance with ASC 815. The classification of derivative instruments, including

whether such instruments should be recorded as liabilities or as equity, is reassessed at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether net cash settlement of the derivative instrument could be required within the 12 months of the balance sheet date.

As discussed in Note 7 under convertible notes, the Company issued convertible notes payable that provide for the issuance of convertible notes with variable conversion provisions. The conversion terms of the convertible notes are variable based on certain factors, such as the future price of the Company's common stock. The number of shares of common stock to be issued is based on the future price of the Company's common stock. As of December 31, 2012, the number of shares of common stock issuable upon conversion of promissory notes and warrants could exceed the Company's maximum number of authorized common shares. Due to the fact that the number of shares of common stock issuable is not able to be determined definitively, the equity environment is tainted and all additional convertible debentures and warrants are included in the value of the derivative. Pursuant to ASC 815-15 Derivatives, the fair values of the variable conversion option and warrants and shares to be issued were recorded as derivative liabilities on the issuance date. The fair values of the Company's derivative liabilities were estimated at the issuance date and are revalued at each subsequent reporting date, using a lattice model. The Company recorded current derivative liabilities of \$72,101 at December 31, 2012. The change in fair value of the derivative liabilities for the three and nine months ended December 31, 2012 resulted in a gain of \$154,812 and a loss of (\$50,459), respectively, which was reported as other income/(expense) in the consolidated statements of operations.

The following presents the derivative liability value by instrument type at December 31, 2012:

	December 31, 2012
Convertible Notes	67,006
Common Stock Warrants	5,095
	\$ 72,101

The fair market value determined for the derivative liability is \$72,101. A total of \$103,144 was recorded as a debt discount up to the face value of the notes and the excess of \$4,254 was expensed.

The following is a summary of changes in the fair market value of the derivative liability during the nine months ended December 31, 2012:

Key inputs and assumptions used to value the convertible debentures and warrants issued during the nine months ended December 31, 2012:

.

The projected volatility curve for each valuation period was based on the historical volatility of the Company.

.

The stock price would fluctuate with the Company projected volatility.

An event of default for the convertible note would occur 5% of the time, increasing 1% per month to a maximum of 10%.

Alternative financing for the convertible note would be initially available to redeem the note 0% of the time and increase monthly by 1% to a maximum of 10%.

The monthly trading volume would average \$200,000 in the period and would increase at 5% per month.

The Holder would automatically convert the notes at the greater of two times the conversion price or stock price if the registration was effective and the Company was not in default.

The Holder would exercise the warrant at maturity if the stock price was above the exercise price.

The Holder would exercise the warrant at target prices starting at the greater of two times the exercise price or the stock price; and lowering such target as the warrants approached maturity.

The Holder would automatically convert all of the shares at a stock price of price equal to the target price.

The Holder would convert on a monthly basis in amounts not to exceed the average quarters trading volume based on historical performance, assuming the volume would increase by 5% each month.

NOTE 9 FAIR VALUE OF FINANCIAL INSTRUMENTS

On January 1, 2008, the Company adopted guidance which defines fair value, establishes a framework for using fair value to measure financial assets and liabilities on a recurring basis, and expands disclosures about fair value measurements. Beginning on January 1, 2009, the Company also applied the guidance to non-financial assets and liabilities measured at fair value on a non-recurring basis, which includes goodwill and intangible assets. The guidance establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the

Company's assumptions of what market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of the inputs as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 - Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 - Unobservable inputs that reflect our assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following schedule summarizes the valuation of financial instruments at fair value on a recurring basis in the balance sheets as of December 31, 2012:

<u>Liabilities</u>	Fair Value Measurements at December 31, 2012					
	<u>Level 1</u>		<u>Level 2</u>		<u>Level 3</u>	<u>Gain/(loss)</u>
Derivative Liabilities	\$	-	\$	-	\$ 72,101	\$(50,459)

NOTE 10 - COMMITMENTS AND CONTINGENCIES

a. Operating Lease Obligation

The Company leases its main office under a non-cancelable lease agreement accounted for as an operating lease. The lease expired in May 2012. This lease was extended for 13 months beginning June 1, 2012. Rent expense for the corporate offices was \$26,041 and \$32,791 for the quarter ended December 31, 2012 and 2011, and \$81,673 and \$95,960 for the nine months ended December 31, 2012 and 2011, respectively, under this lease arrangement.

The Company leases additional warehouse space in Boise, Idaho. This warehouse space consists of approximately 2,880 square feet. The lease expired in June 2012. This lease was extended for 24 months, beginning July 1, 2012. Rent expense for the warehouse was \$3,975 and \$4,200 for the quarter ended December 31, 2012 and 2011, and \$12,225 and \$12,600 for the nine months ended December 31, 2012 and 2011, respectively.

Effective March 31, 2010, the Company relinquished its leased space for the LabMentors subsidiary located in Fredericton, New Brunswick, Canada. For the period April 2010 through September 2010 the employees of LabMentors worked from their respective homes. There was no rent expense during that period. Effective October 2010 LabMentors entered into a five year office lease. This lease was cancelled effective July 1, 2012, which resulted in a penalty for early termination of the lease equal to three months rent. The Company was able to obtain a new, fully furnished office at the National Research Council facility effective July 1, 2012. The new lease is a three year commitment to be paid in Canadian dollars each month. Lease payments are \$395 per month CAD, before 13% tax, for the first nine months, then increases annually over the three-year term with payments for the final three months of the term being \$558 per month CAD, before tax. The move was initiated as part of cost savings efforts being implemented within LabMentors and reduces the monthly lease payments. Rent expense, converted to USD, for LabMentors was \$1,211 and \$4,459 for the quarter ended December 31, 2012 and 2011, and \$7,410 and \$13,733 for the nine months ended December 31, 2012, respectively.

b. Litigation

(i) On January 3, 2012, the U.S. District Court for the District of Idaho signed the Final Judgment in the SEC case pursuant to the Consent that the Company and Mr. Anthony Maher, its former CEO, had previously executed. Without admitting or denying the allegations of the Complaint, the Company and Mr. Maher consented to the entry of the Final Judgment. There were no monetary sanctions imposed against the Company.

(ii) **Class Action Lawsuit:** The Company, along with its former CEO and former Controller, was named in a class action lawsuit (Niederklein v. PCS Edventures!.com, Inc., et al., U.S. District Court for the District of Idaho, Case 1:10-cv-00479-CWD). The class action was brought on behalf of shareholders who purchased shares of the Company's common stock during the period between March 28, 2007 and August 15, 2007. The class action was

settled for \$665,000, with the Company's insurance carrier providing most of the settlement funds. In accordance with the Court ordered settlement, all settlement funds were paid on or before February 29, 2012.

c. Contingencies

During the year ended March 31, 2012, the Company worked with the State of California and a private consulting firm specializing in California State sales and use tax in relation to a review of sales and use tax for our California customers during the period April 1, 2002 through June 30, 2011. During this period, there was an estimated \$0.6 million in reportable sales in which the Company did not file or collect sales and use tax, as required by California State law. The review determined that approximately \$60,000 in prior period sales and use tax, including interest and late fees, was due to the California State Board of Equalization (BOE) as of June 30, 2011. Of this amount the Company was successful in collecting approximately \$41,000 from prior customers. A check in the amount of \$41,473 was mailed to the BOE on August 31, 2011 and applied against the liability leaving a balance of \$7,146 in sales and use tax and \$13,316 in interest. The Company was able to work with the BOE to have all penalties allotted, relieved from the account. The estimated recognized loss due to the inability to collect from

customers was decreased to adjust the reported loss during fiscal year 2011 from \$30,000 to approximately \$7,100 during the quarter ending September 30, 2011. The Company was able to establish a payment plan with the Board of Equalization to begin payments starting February 20, 2012 in the amount of \$3,542 per month until the remaining balance is paid in full. The final payment was paid in July 2012.

NOTE 11 - STOCKHOLDERS EQUITY

The Company is required to recognize expense of options or similar equity instruments issued to employees using the fair-value-based method of accounting for stock-based payments in compliance with the financial accounting standard pertaining to share-based payments. This standard covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. Application of this standard requires significant judgment regarding the assumptions used in the selected option pricing model, including stock price volatility and employee exercise behavior. Most of these inputs are either highly dependent on the current economic environment at the date of grant or forward-looking over the expected term of the award.

On April 4, 2012, the Company reconvened the Special Meeting of Shareholders which was adjourned on March 14, 2012, due to lack of a quorum present. Two proposals were submitted to and approved by the Company's shareholders. The holders of 24,537,546 shares of common stock, representing 55.16% of the outstanding shares entitled to vote as of the record date and which constituted a quorum, were represented at the meeting in person or by proxy. Proposal No. 1 increased our authorized no par value common stock from 60,000,000 to 90,000,000. Proposal No. 2 increased the shares of common stock available for grants, incentive or other purposes under our 2009 Equity Incentive Plan from 4,000,000 shares to 8,000,000.

The Articles of Amendment to the Second Amended and Restated Articles of Incorporation of the Company were filed with the Secretary of State, of the State of Idaho effective April 9, 2012.

On April 27, 2012, a Registration Statement on Form S-8 was filed adding the additional 4,000,000 shares to the 2009 Equity Compensation Plan (the Plan) of the Company and incorporated by reference all of the information contained in the Company's S-8 Registration Statement filed with the Securities and Exchange Commission on November 19, 2009 (SEC File No. 333-163232), related to the registration of the initial 4,000,000 shares authorized by the Company's Board of Directors and stockholders for grants, awards and stock issuances under the Plan.

On August 1, 2012, the Company issued amendments to the Convertible Promissory Note agreements dated March 31, 2011, and extended the due date. In consideration for extending the due date of the Promissory Notes, the expiration dates on the warrants issued on March 31, 2011, and June 27, 2011, were amended and extended an additional three years, making the new expiration dates August 1, 2017. The extension of the expiration date of the warrants resulted in a deemed dividend of \$8,236 consistent with current accounting guidance. The deemed dividend was valued using the Black-Scholes model.

During the nine months ended December 31, 2012, the Company issued 714,540 shares of common stock for services. The per share value ranged from \$0.038 to \$0.15 per share for a net value of \$35,864 based on the closing price of the Company's common stock on the date of grant. Of these 714,540 shares of common stock, 378,149 shares were issued for services prior to March 31, 2012. These shares were valued at \$18,908 and were included in Stock payable for the year ended March 31, 2012. During the period, \$17,045 has been accrued in Stock Payable related to shares subscribed for services performed that will be issued in future periods. The net reduction in Stock Payable for services during the nine month period was \$1,860.

During the nine month period ended December 31, 2012, the Company issued 200,000 shares of restricted Rule 144 common stock to an officer at \$0.11 per share. The total value of the award was \$22,000. The officer received the grant in fiscal year 2012 and the shares vested over six months. Stock Payable was accrued during the year ended March 31, 2012 in the amount of \$18,334

During the nine month period ended December 31, 2012, the Company issued 100,000 shares of restricted Rule 144 common stock to an officer at \$0.04 per share for a signing bonus. The total value of the award was \$4,000.

During the nine months ended December 31, 2012, the Company accrued 298,343 shares of restricted Rule 144 common stock with a total value of \$17,400 for stock bonuses to be paid to two officers and one employee. The net change in stock payable for bonuses during the period was a decrease of \$22,335.

During the nine month period ended December 31, 2012, the Company recognized \$54,000 of restricted stock units payable to non-management directors for services rendered at a rate of one share of common stock for each restricted stock unit. Each restricted stock unit is valued at \$0.20, based on the closing price of the Company's common stock at the date of grant. These agreements call for payment of current year director fees via issuance of restricted stock units over a vesting period of not less than twelve months, and require continued service for twelve months and reelection at the next annual shareholder meeting. These directors were reelected at the Annual Meeting on September 28, 2012 and the shares are fully vested and have been issued to those directors who chose not to defer their compensation. RSU Payable was decreased by \$90,000. \$60,000 was recorded to common stock for the issuances in December 2012, which represent 300,000 shares of common stock. For the directors who chose to defer payment an entry was made to book fair market value of the RSU, in which \$21,000 was recorded to Common Stock and \$9,000 was reclassified to stock payable.

During the nine months ended December 31, 2012, the Company issued new RSU agreements for the active board members for the service period of September 2012 to August 2013. Each restricted stock unit is valued at \$0.10, based on the closing price of the Company's common stock at the date of grant. These agreements call for payment of current year director fees via issuance of restricted stock units over a vesting period of not less than twelve months, and require continued service for twelve months and reelection at the next annual shareholder meeting.

During the nine months ended December 31, 2012, the Company accrued \$97,296 representing 2,535,001 shares of common stock to be issued for conversion of notes payable. The notes were converted within the terms of the convertible note agreements, therefore, no gain or loss was recorded. The shares were issued to the lenders during the quarter ended December 31, 2012.

During the nine month period ended December 31, 2012, the Company expensed amounts related to stock options granted in the current period as well as prior periods valued at \$65,371.

During the nine months ended December 31, 2012, the Company recognized \$81,502 for the change in Derivative Liabilities due to conversion of convertible notes payable. See Note 8.

NOTE 12 - BASIC AND DILUTED NET LOSS PER COMMON SHARE

Basic and diluted net income (loss) per common share for the three-month periods ended December 31, 2012 and 2011, are based on 48,210,892 and 43,834,405, respectively, of weighted average common shares outstanding.

Basic and diluted net loss per common share for the nine month periods ended December 31, 2012 and 2011, are based on 46,784,238 and 43,224,154, respectively, of weighted average common shares outstanding. No adjustment has been made for any common stock equivalents outstanding because their effects would be antidilutive.

NOTE 13 - DILUTIVE INSTRUMENTS

Stock Options and Warrants

The Company is required to recognize expense of options or similar equity instruments issued to employees using the fair-value-based method of accounting for stock-based payments in compliance with the financial accounting standard pertaining to share-based payments. This standard covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. Application of this standard requires significant judgment regarding the assumptions used in the selected option pricing model, including stock price volatility and employee exercise behavior. Most of these inputs are either highly dependent on the current economic environment at the date of grant or forward-looking over the expected term of the award.

On March 16, 2012, the Company granted 150,000 incentive stock options to an officer. The incentive stock options are convertible to restricted Rule 144 common stock. The restricted Rule 144 shares have an expected volatility rate of 219.31% calculated using the Company stock price over the period beginning June 1, 2009 through the date of issue.

A risk free interest rate of 0.21% was used to value the options. The options were valued using the Black-Scholes valuation model. The total value of this option was \$5,915. The options vest over a 12-month period and are exercisable at \$0.04 per share which represents the fair market value at the date of grant in accordance with the 2009 Equity Incentive Plan. As of December 31, 2012, \$4,437 in value of the options was expensed.

On April 13, 2012, the Company granted 450,000 incentive stock options to an officer. The incentive stock options are convertible to restricted Rule 144 common stock. The restricted Rule 144 shares have an expected volatility rate of 220.15% calculated using the Company stock price over the period June 1, 2009 through date of issue. A risk free interest rate of 0.41% was used to value the options. The options were valued using the Black-Scholes valuation model. The total value of this option was \$22,192. The options vest over a two year period and are exercisable at \$0.05 per share which represents the fair market value at the date of grant in accordance with the 2009 Equity Incentive Plan. As of December 31, 2012, \$11,712 in value of the options was expensed.

On May 15, 2012, the Company granted 850,000 incentive stock options to an officer. The incentive stock options are convertible to restricted Rule 144 common stock. The restricted Rule 144 shares have an expected volatility rate of 223.62% calculated using the Company stock price over the period beginning June 1, 2009 through date of issue. A risk free interest rate of 0.38 % was used to value the options. The options were valued using the Black-Scholes valuation model. The total value of this option was \$46,175. The options vest over a three year period and are exercisable at \$0.06 per share which represents the fair market value at the date of grant in accordance with the 2009 Equity Incentive Plan. As of December 31, 2012, \$8,978 in value of the options was expensed.

On July 17, 2012, the Company issued 100,000 warrants with a 36 month term at \$0.15 per share exercise price in conjunction with a Promissory Note agreement.

NOTE 14 - SUBSEQUENT EVENTS

On January 11, 2013, we entered into an 8% Convertible Promissory Note with an accredited investor, in the amount of \$21,500, convertible into shares of common stock of the Company, at the market price of \$0.065. The note is due thirty six months from the date of note. The note is secured by a secondary security interest in all of the Company's intellectual property. The proceeds received by the Company from the sale of this note will be used by the Company for prepaying the Promissory Note dated June 5, 2012 (Tranche 3) issued to Asher Enterprises, Inc., as well as any administrative costs associated with the payment. This final payment completely pays off all outstanding notes with Asher Enterprises.

On January 11, 2013, we pre-paid the Securities Purchase Agreement dated July 16, 2012 with the same party as our April 23 and June 4, 2012 agreements, whereby we issued an 8% Convertible Promissory Note in an aggregate amount of \$13,750, convertible into shares of common stock of the Company under the same terms as the first note dated April 23, 2012. The Company paid the principal amount along with all accrued interest and penalties for a total amount of \$21,173.

On January 11, 2013, we appointed Murali Ranganathan to our Board of Directors. Mr. Ranganathan is 43 years of age, and he has no family relationships with anyone at PCS. Murali Ranganathan is the Senior Manager of Finance Strategy for Micron, where he is the financial lead for evaluating, negotiating, and conducting due diligence on Micron's M&A and venture investment opportunities. Mr. Ranganathan is a planning and financial expert who is well versed in due diligence. Mr. Ranganathan will be assuming the role of Chairman of the Audit Committee for PCS Edventures, replacing long time director, Michael McMurray, who resigned from the Board in November 2012. Mr. Ranganathan has a long and impressive career in both engineering and finance, with a Masters in Industrial and Systems Engineering from Ohio State, and an MBA from the Booth School of Business at the University of Chicago. Mr. Ranganathan was personally drawn to the experiential learning focus of the Company and the opportunities afforded both domestically and globally. He is a strong advocate for bringing educational opportunities to children to strengthen their knowledge in STEM education and hands on learning. Mr. Ranganathan currently has his son enrolled in one of our Learning Centers. Mr. Ranganathan will be eligible for compensation as an outside director in the amount of \$18,000 in Restricted Stock Units, subject to the terms of the standard Board approved awards for outside directors. Such units would not be vested until after one year of service on the Board and re-election at the Fiscal Year 2013 Annual Meeting. Mr. Ranganathan has not held a directorship position nor was he a directorship nominee for any other publicly-held company or investment company in the past five years.

On January 11, 2013, it was approved by the Board of Directors to issue two employees Restricted Stock Grants in the total amount of 60,000 restricted shares. The total value of this stock is \$3,600 based on the closing price of \$0.06.

On January 11, 2013, it was approved that the Company issue a total of 185,000 warrants to certain lenders in consideration for extending promissory notes with the Company.

On January 17, 2013 we entered into a loan transaction in the amount of \$200,000 with an accredited investor as that term is defined in Rule 501 of Regulation D of the SEC, which \$107,000 was to be wired immediately. The remaining \$63,000 shall be considered advanced on the date that the receivable pledged under a previous Note between Borrower and Lender dated December 26, 2012. The note is payable with interest of 15% per annum, in cash on or before April 20, 2013. The Promissory Note is secured by a Purchase Order in the amount of \$228,275 and by the proceeds from the Accounts Receivable, after shipping to and receipt by the customer. The loan proceeds will be utilized to finance operations and logistics required to fulfill and support the remaining unshipped portion of the order. The Company issued 100,000 warrants with a 36 month term at \$0.07 per share exercise price in conjunction with the promissory note agreement.

On January 28, 2012, the Company successfully bound and acquired a 12 month renewal for its Directors & Officers Insurance.

On January 31, 2013, PCS Edventures!.com, Inc. formed a subsidiary called Premiere Science Inc. incorporated and registered in the State of Idaho. The subsidiary is 100% wholly owned by PCS Edventures!.com, Inc. and was formed to use as an additional sales and marketing tool to gain other business opportunities.

On February 11, 2013, PCS Edventures!.com, Inc (the Company) delivered notice to Brett A Newbold, the Chief Operations Officer of the Company, that his employment with the Company will terminate effective February 11, 2013.

Item 2. Management's Discussions and Analysis of Financial Condition and Results of Operations.

Cautionary Statements for Purposes of Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995:

Except for historical facts, all matters discussed in this report, which are forward-looking, involve a high degree of risk and uncertainty. Certain statements in this report set forth management's intentions, plans, beliefs, expectations, or predictions of the future based on current facts and analyses. When we use the words "believe", "expect", "anticipate", "estimate", "intend" or similar expressions, we intend to identify forward-looking statements. You should not place undue reliance on these forward-looking statements. Actual results may differ materially from those indicated in such statements, due to a variety of factors, risks and uncertainties. Potential risks and uncertainties include, but are not limited to, competitive pressures from other companies within the Educational Industries, economic conditions in the Company's primary markets, exchange rate fluctuation, reduced product demand, increased competition, inability to produce required capacity, unavailability of financing, government action, weather conditions and other uncertainties, including those detailed in the Company's Securities and Exchange Commission filings. The Company assumes no duty to update forward-looking statements to reflect events or circumstances after the date of such statements.

The following discussion should be read in conjunction with our audited consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") contained in our Form 10-K for the year ended March 31, 2012.

Plan of Operation

In fiscal year 2013, PCS will expand its commitment to the research and development of PreK-16, brain-based learning programs in Science, Technology, Engineering and Math (STEM) that embed 21st century thinking skills and new technologies through targeted sales to the US afterschool market and through the deployment of PCS Learning Centers starting in Boise, Idaho. PCS implemented a new Strategic Business Unit (SBU) and subsidiary structure in fiscal year 2011 that targeted sales efforts to the following markets:

- 1) K6 programs for the elementary classroom
- 2) Tech Ed programs for grades 6-12
- 3) Afterschool programs
- 4) Services that provide K-16 educational solutions for the international market
- 5) Virtual labs for community colleges and universities

Fiscal year 2012 was the second year of implementation of the K6 and Tech Ed SBUs and saw PCS programs becoming well accepted in the core classroom market as evidenced by our presence in over 350 Idaho classrooms, classroom deployments of our programs in Texas, Illinois Florida, California, Maryland, and many other states that we have established over the past five years. Despite the challenges presented by a discouraging economy and school budget landscape, we feel we have demonstrated our ability to move beyond the afterschool market, however the current economy and school budget climate makes this a challenging and slow moving marketplace For this reason, our executive management team has concluded that the best use for our resources is to target the afterschool market with the majority of our sales and marketing dollars. The afterschool market, represented by such large scale budgets as the 21st Century Community Learning Center federal grant program (\$1.15B budget in 2012) is more flexible, has more predictable funding patterns, and is already a market that PCS is well established in. We will continue to support the customers and presence we have in the classroom Tech-Ed space and the K6 space and envision organic growth in these areas, but we will target afterschool sales as our primary customer going forward.

During fiscal year 2013 we will continue to develop stronger marketing ties and support with our subsidiary, LabMentors. This will include a more focused approach to our web-based marketing efforts and tightened sales processes. The PCS Learning Centers are a key strategic addition to our plan for FY2013 as they will serve the following purposes: 1) R&D test bed for product improvement and refinement; 2) Revenue generation through afterschool and summer course fees. This course revenue stream will be more predictable and consistent compared to the seasonal revenues associated with education budgets; 3) The centers will serve as showrooms for PCS products in strategic locations and key districts around the country. We believe this will provide PCS with significant competitive advantages over other solution providers since administrators and educators can visit local

centers for support, training, and demonstrations of our products in action; and 4) Revenues from experiential retail. We believe e-commerce sales of kits associated with STEM learning targeting the families of students attending the courses will provide a boost in Q3 revenues to offset low education sales traditionally anticipated during this time frame.

To capitalize on the expansion of the Learning Centers, we are actively pursuing funding vehicles such as private financing on an individual center basis, EB5 foreign investment capital, and private equity and licensing arrangements. Our plan is to refine operations in our first center in Boise, then deploy a second program in Eagle, Idaho in Q3 of FY2013, and a third in a yet to be determined market in Q4 of FY2013. The establishment of this initial network of centers will enable more rapid expansion in FY2014 and beyond. We believe the strategic deployment of PCS Learning Centers to be a viable and sound approach based on our initial trial programs.

PCS continues to develop International opportunities in the Middle East and elsewhere through the development of strong partnerships such as the license agreement with Creya Learning in India. PCS will continue to pursue targeted International opportunities where we have developed presence and respond to unsolicited inquiries to explore potential opportunities.

Results of Operations

For the quarter ended December 31, 2012, the Company reported a net comprehensive loss of (\$146,371), as compared to a net comprehensive loss for the quarter ended December 31, 2012, of (\$427,520). For the nine months ended December 31, 2012, the Company reported a net comprehensive loss of (\$410,574), as compared to a net comprehensive loss of (\$1,351,357) for the nine months ended December 31, 2011, an improvement of 70%. An increase in revenue, reduced operating expenses, while there was an increase in interest and debt expense due to the discounting of debt and the issuance of warrants attached to financing, which was offset by the gain on the change in fair value of derivatives in the current year contributed to the improved results.

The Company issued convertible notes payable that provide for the issuance of convertible notes with variable conversion provisions. The conversion terms of the convertible notes are variable based on certain factors, such as the future price of the Company's common stock. The number of shares of common stock to be issued is based on the future price of the Company's common stock. Due to the fact that the number of shares of common stock issuable is not able to be determined definitively, the equity environment is tainted and all additional convertible debentures and warrants are included in the value of the derivative. Pursuant to ASC 815-15 Derivatives, the fair values of the variable conversion option and warrants and shares to be issued were recorded as derivative liabilities on the issuance date. The fair values of the Company's derivative liabilities were estimated at the issuance date and are revalued at each subsequent reporting date, using a lattice model. The Company recorded current derivative liabilities of \$72,101 at December 31, 2012. The change in fair value of the derivative liabilities for the three and nine months ended December 31, 2012 resulted in a gain of \$154,812 and a loss of (\$50,459), respectively, which was reported as other income/(expense) in the consolidated statements of operations.

Edgar Filing: PCS EDVENTURES COM INC - Form 10-Q

Revenue for the quarter ended December 31, 2012, was \$602,739, as compared to revenue during the quarter ended December 31, 2011 of \$368,743, an increase of 63% this quarter over the same quarter last year. Revenue for the nine months ended December 31, 2012, was \$2,476,281, an increase of 47% compared to the same period in the prior year. With this increase in sales, gross profit rose up \$411,966, an increase of 45% for the nine month period ended December 31, 2012 compared to the same period last year.

Operating expenses for the three and nine month periods ended December 31, 2012, decreased by \$124,600 (20%) and \$454,450 (22%) as compared to the same periods ended December 31, 2011. The table below identifies the period over period changes:

	Operating Expenses		
	3 months ended	9 months ended	
	December 31,	December 31,	
	2012	2012	
Option Warrant expense	(\$ 25,433)	(\$ 159,680)	(1)
Salaries	(93,681)	(133,446)	(2)
Contract labor	(14,459)	(70,808)	(3)
Employee Insurance Benefits	(4,555)	(25,857)	(4)
Depreciation	(6,476)	(64,241)	(5)
Marketing	(6,655)	(24,376)	(6)
Legal	(10,213)	(21,578)	(7)
Learning Center Overhead	23,513	43,277	(8)
Public Relations	11,740	24,906	(9)
Office Rent	(9,997)	(20,610)	(10)
Other, net	11,616	2,037	
	(\$ 124,600)	(\$ 454,450)	

1) Option Warrant expense decreased due to older grants expiring and fully vesting.

2)

Salaries decreased due to reduced headcount and lower salaries for positions that have turned over.

3)

Contract labor decreased due to termination of the relationship with the public relations firm and business development consultant.

4)

Employee insurance benefits decreased due to larger portions being paid by employees.

5)

Depreciation decreased due to full impairment recorded on LabMentors assets in Q4 FY2012.

6)

Marketing costs decreased due to fewer trade shows attended and fewer lead generation campaigns.

7)

Decrease in legal expense due to negotiated settlement with insurance carrier as related to the SEC investigation.

8)

Learning Center Overhead is related to the Learning Center that started up in spring 2012, thus no prior year expense.

9)

Public Relations expense increased due to the cost of a public relations firm that was retained on a contract basis during the period as well as additions such as Money TV.

10)

Rent expense decreased due to negotiations at lease expirations.

Total Other Income (Expense) for three months ended December 31, 2012 and 2011 was \$88,956 and (\$6,870), respectively. For the nine months ended December 31, 2012, Total Other Income (Expense) was (\$159,324) compared to (\$224,464). In the current quarter the Change in Fair Value of Derivatives made up the significant portion of the income, compared to the same periods in the prior year. Interest expense was higher during the quarter ended December 31, 2012 due to discounting of debt and issuance of warrants attached to financings, however it was lower during the nine months ended December 31, 2012 compared to the same period last year. This is mostly due to the accrued settlement costs related to a class action lawsuit, recoupment of previously accrued losses in the California sales tax matter and gain on issuance of stock for services during that time.

Liquidity

Cash provided by operations for the nine months ended December 31, 2012 was \$29,075, compared to cash used by operations of (\$172,169) in the same period last year. As of December 31, 2012, the Company had \$35,099 in cash, total current assets of \$356,869 and total current liabilities of \$1,223,947, resulting in a working capital deficit of (\$357,312) compared to a working capital deficit of (\$757,873) for the nine months ended December 31, 2011. The Company had a current ratio at December 31, 2012 and 2011 of 0.29 and 0.54, respectively. We have an accumulated deficit of (36,948,723) and shareholders' equity of (\$866,635).

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company is a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the Exchange Act) and is not required to provide the information required under this item.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting.

None.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as the Securities and Exchange Commission (SEC) defines such term. We have designed these controls and procedures to reasonably assure that information required to be disclosed in our reports filed under the Exchange Act, such as this Form 10-Q, is recorded, processed, summarized, and reported within the periods specified in the SEC 's rules and forms. We have also designed our disclosure controls to provide reasonable assurance that such information is accumulated and communicated to the Chief Executive Officer, and management, as appropriate, to allow them to make timely decisions regarding our required disclosures.

Our Chief Executive Officer, and Management, has evaluated the effectiveness of the disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) as of December 31, 2012. Based on this evaluation, management concluded that our Company 's disclosure controls and procedures, including the accumulation and communication of disclosures to the Company 's Chief Executive Officer and Controller as appropriate to allow timely decisions regarding required disclosure, were effective as of this date to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC 's rules and forms.

Management 's Report on Internal Control Over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2012. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework.

Management has concluded that the Company maintained effective internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control-Integrated Framework issued by the COSO.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

(i) On January 3, 2012, the U.S. District Court for the District of Idaho signed the Final Judgment in the SEC case pursuant to the Consent that the Company and Mr. Anthony Maher, its former CEO, had previously executed. Without admitting or denying the allegations of the Complaint, the Company and Mr. Maher consented to the entry of the Final Judgment. There were no monetary sanctions imposed against the Company.

(ii) Class Action Lawsuit: The Company, along with its former CEO and former Controller, was named in a class action lawsuit (Niederklein v. PCS Edventures!.com, Inc., et al., U.S. District Court for the District of Idaho, Case 1:10-cv-00479-CWD). The class action was brought on behalf of shareholders who purchased shares of the Company's common stock during the period between March 28, 2007 and August 15, 2007.
