China Automotive Systems, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
Three Months Ended March 31, 2003 and 2002

1. Organization and Basis of Presentation

Organization - Effective March 5, 2003, Visions-In-Glass, Inc., a United States public company incorporated in the State of Delaware ("Visions"), entered into a Share Exchange Agreement to acquire 100% of the shareholder interest in Great Genesis Holding Limited, a company incorporated on January 3, 2003 under The Companies Ordinance in Hong Kong as a limited liability company ("Great Genesis"), as a result of which Great Genesis became a wholly-owned subsidiary of Visions. At the closing, the old directors and officers of Visions resigned, and new directors and officers were appointed. Visions subsequently changed its name to China Automotive Systems, Inc.

China Automotive Systems, Inc., including, when the context so requires, its subsidiaries and the subsidiaries' interests in the sino-foreign joint ventures described below, is referred to herein as the "Company".

Ji Long Enterprise Investment Limited was incorporated on October 8, 1992 under the Companies Ordinance in Hong Kong as a limited liability company ("Ji Long"). Ji Long is an investment holding company. Effective March 4, 2003, all of the shareholders of Ji Long exchanged their 100% shareholder interest for a 100% shareholder interest in Great Genesis, as a result of which Ji Long became a wholly-owned subsidiary of Great Genesis.

In exchange for the acquisition of 100% of the shareholder interest in Great Genesis, the shareholders of Great Genesis were issued 20,914,250 shares of common stock of Visions. In addition, the shareholders of Great Genesis paid \$250,000 to the former officer, director and controlling shareholder of Visions for the cancellation of 17,424,750 shares of common stock (see Note 5), and have agreed to pay an additional \$70,000, subject to certain conditions.

The acquisition of Great Genesis by the Company was accounted for as a recapitalization of Great Genesis, pursuant to which the accounting basis of

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

Great Genesis continued unchanged subsequent to the transaction date. Accordingly, the pre-transaction financial statements of Great Genesis are the historical financial statements of the Company.

Jilong owns the following aggregate net interests in four sino-foreign joint ventures organized in the People's Republic of China as of and for the three months ended March 31, 2003:

Name of Entity -----	Percentage Interest -----
Jingzhou Henglong Automotive Parts Co. Limited ("Henglong")	42.0%
Shashi Jiulong Power Steering Co. Limited ("Jiulong")	81.0%
Shenyang Jinbei Henglong Automotive Steering System Co. Limited ("Shenyang")	37.6%
Zhejiang Henglong & Vie Pump-Manu Co. Limited ("Zhejiang")	51.0%

7

At December 31, 2002, the investors in Shenyang were Jilong, Henglong, Shenyang Automotor Industry Investment Corporation and Shenyang Jinbei Automotor Industry Co., Ltd. On December 12, 2002, according to a decision made at the meeting of the board of directors, 30% of the stock rights in Shenyang held by Henglong were to be transferred to Jilong, and 17% of the stock rights in Shenyang held by Shenyang Automotor Industry Investment Corporation were to be transferred to Shenyang Jinbei Automotor Industry Co., Ltd. On January 8, 2003, Jilong and Henglong signed an agreement for the transfer of stock rights, which the Company expects will be completed within approximately six months, pending approval by the applicable authorities in the People's Republic of China. The Company currently owns 25% of Shenyang directly and 12.6% of Shenyang indirectly through its ownership in Henglong, for a combined ownership of 37.6%. Upon approval of the above transaction by the applicable authorities in the People's Republic of China, the Company will own 55.0% of Shenyang directly. The Company will account for this increase in ownership in Shenyang from the date of approval by the applicable authorities in the People's Republic of China.

Basis of Presentation - For the three months ended March 31, 2003, the accompanying condensed consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries and sino-foreign joint ventures. For the three months ended March 31, 2002, the accompanying condensed financial statements include the accounts of the Company, with the Company's investments in sino-foreign joint ventures recorded under the equity method of accounting. All significant intercompany accounts and transactions have been eliminated in consolidation. The condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States.

During the three months ended March 31, 2003, the Company and all other joint venturers in the four sino-foreign joint ventures agreed to change the joint venture agreements, resulting in the Company having voting control in the four sino-foreign joint ventures. Consequently, effective January 1, 2003, the Company changed from equity accounting to consolidation accounting for its

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

investments in sino-foreign joint ventures for the three months ended March 31, 2003. Prior to January 1, 2003, the Company used the equity method pursuant to Emerging Issues Task Force Issue No. 96-16, which states that if a minority joint venture partner has the right to participate in management, the majority joint venture partner is required to account for its interest in the joint venture under the equity method of accounting.

The Company effected a 3.5 to 1 forward split of its outstanding shares of common stock during March 2003, prior to the transaction with Great Genesis described above. Unless otherwise indicated, all share and per share amounts presented herein have been adjusted to reflect the forward stock split.

Foreign Currencies - The Company maintains its books and records in Hong Kong Dollars ("HK Dollars"), its functional currency, and the joint ventures maintain their books and records in Renminbi ("RMB"), the currency of the People's Republic of China. Translation of amounts in United States dollars ("US\$") has been made at the single fixed rate of exchange of US\$1.00 to 7.8 HK Dollars and the translation of amounts in HK Dollars has been made at an approximate rate of 1 HK Dollar to 1.06 RMB.

Foreign currency transactions, in HK Dollars and RMB, are reflected using the temporal method. Under this method, all monetary items are translated into the functional currency at the rate of exchange prevailing at the balance sheet date. Non-monetary items are translated at historical rates. Income and expenses are translated at the rate in effect on the transaction dates. Transaction gains and losses, if any, are included in the determination of net income (loss) for the period.

8

In translating the financial statements of the Company from its functional currency into its reporting currency in United States dollars, balance sheet accounts are translated using the closing exchange rate in effect at the balance sheet date and income and expense accounts are translated using an average exchange rate prevailing during the reporting period. Adjustments resulting from the translation, if any, are included in cumulative other comprehensive income in stockholders' equity.

The RMB is not readily convertible into United States dollars or other foreign currencies. The foreign exchange rate between the United States dollar and the RMB is approximately 1 RMB to US\$0.1205, since inception through March 31, 2003. No representation is made that the RMB amounts could have been, or could be, converted into United States dollars at that rate or at any other rate.

Comments - The accompanying interim condensed consolidated financial statements are unaudited, but in the opinion of management of the Company, contain all adjustments, which include normal recurring adjustments, necessary to present fairly the financial position at March 31, 2003, the results of operations for the three months ended March 31, 2003 and 2002, and cash flows for the three months ended March 31, 2003 and 2002. The consolidated balance sheet as of December 31, 2002 is derived from the Company's audited financial statements.

Certain information and footnote disclosures normally included in financial statements that have been prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although management of the Company believes that the disclosures contained in these financial statements are adequate to make the information presented therein not misleading. For further information, refer to the financial statements and the notes thereto included in the Company's Current Report on Form 8-K/A dated May

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

19, 2003, as filed with the Securities and Exchange Commission.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The results of operations for the three months ended March 31, 2003 are not necessarily indicative of the results of operations to be expected for the full fiscal year ending December 31, 2003.

Business - The Company, through its four sino-foreign joint ventures, manufactures power steering systems and/or related products for different segments of the automobile industry in China.

Income Per Share - Basic income per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted income per share is calculated assuming the issuance of common shares, if dilutive, resulting from the exercise of stock options and warrants. The Company had potentially dilutive securities consisting of warrants to purchase 550,375 shares of common stock outstanding at March 31, 2003.

Comprehensive Income (Loss) - Since the Company had no items of comprehensive income (loss) during the three months ended March 31, 2003 and 2002, a statement of comprehensive income (loss) is not presented.

Stock-Based Compensation - The Company accounts for stock options and warrants issued to consultants using the fair value method in accordance with Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"). Under the fair value method, compensation cost is measured based on the value of the award and is recognized over the service period. The Company continues to follow Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", in accounting for stock options

9

and warrants issued to employees and non-employee directors. Pro forma disclosures of the effect on net income (loss) and net income (loss) per common share, as if the Company had accounted for stock options and warrants issued to employees and non-employee directors under the fair value method prescribed by SFAS No. 123, are estimated on the grant date using the Black-Scholes option pricing model. The Company had not issued any stock options or warrants to employees or non-employee directors during the three months ended March 31, 2003 or 2002.

2. Certain Significant Risks and Uncertainties

The Company is subject to the consideration and risks of operating in the People's Republic of China (the "PRC"). These include risks associated with the political and economic environment, foreign currency exchange and the legal system in the PRC.

The economy of PRC differs significantly from the economies of the "western" industrialized nations in such respects as structure, level of development, gross national product, growth rate, capital reinvestment, resource allocation, self-sufficiency, rate of inflation and balance of payments position, among others. Only recently has the PRC government encouraged substantial private

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

economic activities. The Chinese economy has experienced significant growth in the past several years, but such growth has been uneven among various sectors of the economy and geographic regions. Actions by the PRC government to control inflation have significantly restrained economic expansion in the recent past. Similar actions by the PRC government in the future could have a significant adverse effect on economic conditions in PRC.

Many laws and regulations dealing with economic matters in general and foreign investment in particular have been enacted in the PRC. However, the PRC still does not have a comprehensive system of laws, and enforcement of existing laws may be uncertain and sporadic.

Any devaluation of the Renminbi (RMB) against the United States dollar would consequently have adverse effects on the Company's financial performance and asset values when measured in terms of the United States dollar. Should the RMB significantly devalue against the United States dollar, such devaluation could have a material adverse effect on the Company's earnings and the foreign currency equivalent of such earnings. The Company does not hedge its RMB - United States dollar exchange rate exposure.

On January 1, 1994, the PRC government introduced a single rate of exchange as quoted daily by the People's Bank of China (the "Unified Exchange Rate"). No representation is made that the RMB amounts have been, or could be, converted into US\$ at that rate. This quotation of exchange rates does not imply free convertibility of RMB to other foreign currencies. All foreign exchange transactions continue to take place either through the Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rate quoted by the People's Bank of China. Approval of foreign currency payments by the People's Bank of China or other institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

10

3. Inventories

Inventories at March 31, 2003 (unaudited) consisted of the following:

Raw materials	\$ 1,726,000
Work-in-process	1,138,000
Finished goods	7,392,000

	\$10,256,000
	=====

4. Amounts Due to Shareholders/Directors

During the three months ended March 31, 2003, amounts due to shareholders/directors aggregating approximately \$17,167,000 including dividends declared during such period of \$2,481,000 were cancelled. This transaction was accounted for as a contribution to capital.

5. Stockholders' Equity

During March 2003, prior to the transaction with Great Genesis described at Note 1, the Company effected a 3.5 to 1 forward split of its outstanding shares of

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

common stock, thus increasing the 5,293,000 shares of common stock outstanding at that time to 18,525,500 shares, of which 17,242,750 shares were then returned to the Company and cancelled.

During March 2003, in conjunction with the transaction with Great Genesis described at Note 1, the Company issued common stock purchase warrants to three consultants to acquire an aggregate of 550,375 shares of common stock, exercisable for a period of one year at \$1.20 per share. The aggregate fair value of these warrants, calculated pursuant to the Black-Scholes option pricing model, was estimated to be \$1,300,000 which was charged to operations at March 31, 2003.

6. Income Taxes

The Company's sino-foreign joint ventures are subject to income taxes based on income arising in or derived from the People's Republic of China, generally at an effective tax rate of 15%.

7. Recently Issued Accounting Pronouncements

In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations". SFAS No. 143 addresses the diverse accounting practices for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. The Company adopted SFAS No. 143 effective January 1, 2003. The adoption of SFAS No. 143 did not have a significant effect on the Company's financial statement presentation or disclosures.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," which requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Such costs covered by SFAS No. 146 include lease termination costs and certain employee severance costs that are associated with a restructuring, discontinued operation, plant closing, or other exit or disposal activity. SFAS No. 146 replaces the previous

11

accounting guidance provided by the EITF No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." SFAS No. 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The Company does not anticipate that the adoption of SFAS No. 146 will have a significant impact on the Company's financial statement presentation or disclosures.

In October 2002, the FASB issued SFAS No. 147, "Acquisitions of Certain Financial Acquisitions of Financial Institutions, Except Transactions Between or More Mutual Enterprises". The Company does not expect that SFAS No. 147 will have any effect on its financial statement presentation or disclosures.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure". SFAS No. 148 amends SFAS No. 123, "Accounting for Stock-Based Compensation", to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

results. SFAS No. 148 is effective for fiscal years beginning after December 15, 2002. The interim disclosure provisions are effective for financial reports containing financial statements for interim periods beginning after December 15, 2002. The Company does not anticipate that the adoption of SFAS No. 148 will have a significant impact on the Company's financial statement presentation or disclosures.

In November 2002, the FASB issued FASB Interpretation ("FIN") No. 45, "Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others". FIN No. 45 clarifies disclosures that are required to be made for certain guarantees and establishes a requirement to record a liability at fair value for certain guarantees at the time of the guarantee's issuance. The disclosure requirements of FIN No. 45 have been applied in the Company's financial statements at December 31, 2002. The requirement to record a liability applies to guarantees issued or modified after December 31, 2002. The Company adopted the measurement and recording provisions of FIN No. 45 prospectively beginning January 1, 2003.

In January 2003, the FASB issued FIN No. 46, "Consolidation of Variable Interest Entities, an Interpretation of ARB 51". FIN No. 46 requires that the primary beneficiary in a variable interest entity consolidate the entity even if the primary beneficiary does not have a majority voting interest. The consolidation requirements of FIN No. 46 are required to be implemented for any variable interest entity created on or after January 31, 2003. In addition, FIN No. 46 requires disclosure of information regarding guarantees or exposures to loss relating to any variable interest entity existing prior to January 31, 2003 in financial statements issued after January 31, 2003. FIN No. 46 is effective for the Company on January 31, 2003, and is not expected to have a significant impact on the Company's financial statement presentation or disclosures.

Edgar Filing: CHINA AUTOMOTIVE SYSTEMS INC - Form 10QSB

General Overview:

Effective March 5, 2003, Visions-In-Glass, Inc., a United States public company incorporated in the State of Delaware ("Visions"), entered into a Share Exchange Agreement to acquire 100% of the shareholder interest in Great Genesis Holding Limited, a company incorporated on January 3, 2003 under The Companies Ordinance in Hong Kong as a limited liability company ("Great Genesis"), as a result of which Great Genesis became a wholly-owned subsidiary of Visions. At the closing, the old directors and officers of Visions resigned, and new directors and officers were appointed. Visions subsequently changed its name to China Automotive Systems, Inc.

China Automotive Systems, Inc., including, when the context so requires, its subsidiaries and the subsidiaries' interests in the sino-foreign joint ventures described below, is referred to herein as the "Company".

Ji Long Enterprise Investment Limited was incorporated on October 8, 1992 under the Companies Ordinance in Hong Kong as a limited liability company ("Ji Long"). Ji Long is an investment holding company. Effective March 4, 2003, all of the shareholders of Ji Long exchanged their 100% shareholder interest for a 100% shareholder interest in Great Genesis, as a result of which Ji Long became a wholly-owned subsidiary of Great Genesis.

In exchange for the acquisition of 100% of the shareholder interest in Great Genesis, the shareholders of Great Genesis were issued 20,914,250 shares of common stock of Visions. In addition, the shareholders of Great Genesis paid \$250,000 to the former officer, director and controlling shareholder of Visions for the cancellation of 17,424,750 shares of common stock, and have agreed to pay an additional \$70,000, subject to certain conditions.

The acquisition of Great Genesis by the Company was accounted for as a recapitalization of Great Genesis, pursuant to which the accounting basis of Great Genesis continued unchanged subsequent to the transaction date. Accordingly, the pre-transaction financial statements of Great Genesis are the historical financial statements of the Company.
