Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included in this Report, including, without limitation, statements regarding the Company's future financial position, business strategy, budgets, projected costs and plans and objectives of Management for future operations, are forward-looking statements. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate" or "believe" or the negative thereof or variations thereon or similar terminology. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Such statements are based upon numerous assumptions about future conditions which may ultimately prove to be inaccurate and actual events and results may materially differ from anticipated results described in such statements. Important factors that could cause actual results to differ materially from the Company's expectations ("cautionary statements") include the risks inherent generally in the insurance and financial services industries, the impact of competition and product pricing, changing market conditions, the risks disclosed in the Company's Annual Report on Form 10-KSB for the Year Ended December 31, 2002 under "ITEM 6--MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION," as well as the risks disclosed in this Report. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on its behalf, are expressly qualified in their entirety by these cautionary statements. The Company assumes no duty to update or revise its forward-looking statements based on changes in internal estimates or expectations or otherwise. As a result, the reader is cautioned not to place reliance on these forward-looking statements.

### Liquidity and Capital Resources

Total assets were \$7,068,259 at June 30, 2003, compared to \$6,866,247 at June 30, 2002, an increase of 3%. The increase was due to the acquisition of Security General.

Total liabilities (primarily insurance reserves for future policyholder benefits) were \$6,257,904 at June 30, 2003, compared to \$5,630,283 at June 30, 2002, an increase of 11%. The increase was due primarily to acquisition of business from Presidential Life in the last half of 2002.

Total stockholders' equity was \$810,355 at June 30, 2003, compared to \$1,235,964 at June 30, 2002, a decrease of 34%. The decrease was attributable to the Company's operating losses.

The principal requirements for liquidity in connection with the Company's operations are its contractual obligations to policyholders and annuitants. The Company's contractual obligations include payments of surrender benefits, contract withdrawals, policy loans and claims under outstanding insurance policies and annuities. Payment of surrender benefits is a function of "persistence," which is the extent to which insurance policies are maintained by the policyholder. Policyholders sometimes do not pay premiums, thus causing their policies to lapse, or policyholders may choose to surrender their policies for their cash surrender value. If actual experience of a policy or block of policies is different from the initial or acquisition date assumptions, a gain or loss could result. Depending on the nature of the underlying policy, a lapse or surrender may result in surrender charge revenue or surrender benefit expense. Such amounts may be less than, or greater than, unamortized acquisition expenses and/or the related policy reserves; accordingly, current period earnings may either increase or decrease. Additionally, policy lapses and surrenders may result in lost future revenues and profits associated with those policies that are lapsed or surrendered.

The Company currently funds most of its activity directly from cash flow from operations and cash flow from activities, which includes deposits to policyholders' account balances.

## Edgar Filing: SUMMIT LIFE CORP - Form 10QSB

The Company has made and intends to make substantial expenditures in connection with its subsidiary's acquisition and marketing programs. Historically, the Company has funded these expenditures from cash flow from operations.

On February 14, 2003, the Company acquired Security General, an Oklahoma-domiciled life insurance company, for a net purchase price of \$495,000. Security General is licensed to operate as a life insurance company in multiple states. The purpose of the acquisition was to acquire these licenses, which constituted substantially all of the assets of Security General on the closing date. As a result of the acquisition, Security General has become the Company's primary operating subsidiary. In connection therewith, the Company obtained the necessary regulatory approval to transfer the entire block of insurance policies of Great Midwest to Security General and to thereafter liquidate the remaining assets of Great Midwest through a distribution to the Company as its sole shareholder. As of the date of this report, the insurance policies of Great Midwest have been transferred to Security General and the remaining assets of Great Midwest have been liquidated. Security General is now the sole insurance subsidiary of the Company and operates in approximately 15 states throughout the southeastern and western United States.

11

Because the acquisition of Security General was structured so that the only assets to be retained by Security General were the regulatory licenses held by it, under the terms of the acquisition agreement the Company agreed to reimburse the seller for the statutory capital and surplus required to be retained by Security General. In connection with this provision, the Company obtained a three-month bridge loan in the amount of \$1,500,000 to reimburse the seller for the approximately \$1.5 million of statutory capital and surplus in Security General. The Company repaid the loan in April 2003 with proceeds from the liquidation of Great Midwest and with funds in the amount of approximately \$440,058, which the Company borrowed from Security General. The Company advised the Oklahoma Insurance Department during the acquisition of Security General that such transactions might occur as part of the liquidation of Great Midwest and agreed to advise the Department with the appropriate filings, which have been made.

The Company believes that the liquidity resulting from the transactions described above, together with anticipated cash from continuing operations, should be sufficient to fund its operations and the annual 10% dividend on the Series A Preferred Stock, for at least the next 12 months. The Company may not, however, generate sufficient cash flow for these purposes. The Company's ability to fund its operations will depend on its future performance, which, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond its control.

### Item 3. Controls and Procedures

The Company's principal executive officers and principal financial officers have concluded, based on their evaluation as of a date within 90 days of the filing of this Form 10-QSB, that its disclosure controls and procedures (as defined in Rules 13a-14 and 15d-14 under the Securities Exchange Act of 1934) are effective. There have been no significant changes in internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

### Item 4. Submission of Matters to Vote of Security Holders

## Edgar Filing: SUMMIT LIFE CORP - Form 10QSB
