4. To elect five directors to the Company's Board of Directors, to hold office until their successors are elected and qualified or until their earlier resignation or removal; and

OUTSTANDING SHARES AND VOTING RIGHTS

As of the Record Date, the Company's authorized capitalization consisted of 100,000,000 shares of Common Stock, of which * shares were issued and outstanding as of the Record Date. Holders of Common Stock of the Company have no preemptive rights to acquire or subscribe to any of the additional shares of Common Stock.

Each share of Common Stock entitles its holder to one vote on each matter submitted to the stockholders. However, because stockholders holding at least a majority of the voting rights of all outstanding shares of capital stock as of February 14, 2005 have voted in favor of the foregoing proposals by resolution dated February 14, 2005; and having sufficient voting power to approve such proposals through their ownership of capital stock, no other stockholder consents will be solicited in connection with this Information Statement.

Pursuant to Rule 14c-2 under the Securities Exchange Act of 1934, as amended, the proposals will not be adopted until a date at least 20 days after the date on which this Information Statement has been mailed to the stockholders. The Company anticipates that the actions contemplated herein will be effected on or about the close of business on *, 2005.

The Company has asked brokers and other custodians, nominees and fiduciaries to forward this Information Statement to the beneficial owners of the Common Stock held of record by such persons and will reimburse such persons for out-of-pocket expenses incurred in forwarding such material.

This Information Statement will serve as written notice to stockholders pursuant to Section 78.370 of the Nevada General Corporation Law.

3

AMENDMENT TO THE ARTICLES OF INCORPORATION

On February 14, 2005, the majority stockholders of the Company approved an amendment to the Company's Articles of Incorporation, as amended, to increase the number of authorized shares of Common Stock from 100,000,000 to 250,000,000. The Company currently has authorized capital stock of 100,000,000 shares and approximately * shares of Common Stock are outstanding as of the Record Date. The Board believes that the increase in authorized common shares would provide the Company greater flexibility with respect to the Company's capital structure for such purposes as additional equity financing, and stock based acquisitions.

INCREASE IN AUTHORIZED COMMON STOCK

The terms of the additional shares of Common Stock will be identical to those of the currently outstanding shares of Common Stock. However, because holders of Common Stock have no preemptive rights to purchase or subscribe for any unissued stock of the Company, the issuance of additional shares of Common Stock will reduce the current stockholders' percentage ownership interest in the total outstanding shares of Common Stock. This amendment and the creation of additional shares of authorized common stock will not alter the current number of issued shares. The relative rights and limitations of the shares of Common

Edgar Filing: APPLIED DNA SCIENCES INC - Form PRER14C

Stock will remain unchanged under this amendment.

As of the Record Date, a total of * shares of the Company's currently authorized 100,000,000 shares of Common Stock are issued and outstanding. The increase in the number of authorized but unissued shares of Common Stock would enable the Company, without further stockholder approval, to issue shares from time to time as may be required for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes.

The proposed increase in the authorized number of shares of Common Stock could have a number of effects on the Company's stockholders depending upon the exact nature and circumstances of any actual issuances of authorized but unissued shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of the Company more difficult. For example, additional shares could be issued by the Company so as to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company, even if the persons seeking to obtain control of the Company offer an above-market premium that is favored by a majority of the independent shareholders. Similarly, the issuance of additional shares to certain persons allied with the Company's management could have the effect of making it more difficult to remove the Company's current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. The Company does not have any other provisions in its articles or incorporation, by-laws, employment agreements, credit agreements or any other documents that have material anti-takeover consequences. Additionally, the Company has no plans or proposals to adopt other provisions or enter into other arrangements, except as disclosed below, that may have material anti-takeover consequences. The Board of Directors is not aware of any attempt, or contemplated attempt, to acquire control of the Company, and this proposal is not being presented with the intent that it be utilized as a type of anti-takeover device.

Except for the following, there are currently no plans, arrangements, commitments or understandings for the issuance of the additional shares of Common Stock which are proposed to be authorized:

- o Acquisition of Biowell Technology, Inc.

On January 28, 2005, the Company entered into a stock purchase agreement (the "Agreement") with Biowell Technology Inc., a Taiwan corporation ("Biowell"), whereby a to-be-formed wholly-owned subsidiary of the Company would acquire a company to be formed which would own all of the intellectual property of Biowell (the "Acquired Assets") in exchange for 36,000,000 shares of the Company's common stock (the "Acquisition Shares") to be issued to the shareholders of Biowell. The Acquisition Shares represent 50% of the total shares issued and outstanding on a fully diluted basis on the date of execution of the Agreement. The closing of the acquisition ("Closing") is subject to numerous terms and conditions, including:

- 1) due diligence review of Biowell's intellectual property by intellectual property counsel to the Company and the issuance of a report and opinion by such counsel satisfactory to the Company;
- 2) release of encumbrances on the Acquired Assets;
- 3) the formation of and sale of the Acquired Assets from Biowell to

Edgar Filing: APPLIED DNA SCIENCES INC - Form PRER14C

a British Virgin Islands company;

- 4) amendments to an agreement between Company and Giuliani Partners LLC, dated as of August 3, 2004;
- 5) reorganization of the Board of Directors of the Company;
- 6) formation of a wholly-owned subsidiary of the Company in the British Virgin Islands; and
- 7) such other customary representations, warranties and conditions customary to transactions of this nature.

In the event that the Closing has not occurred on or prior to July 31, 2005, either party may terminate the Agreement. In addition, the Agreement may be terminated by the written consent of both parties or unilaterally by either party upon a material violation or breach by the other party that has not been cured within 10 business days of notice of such violation or breach.

In connection with the Closing, the parties will also enter into a license agreement, whereby the Company will grant Biowell an exclusive license to market and sell the Company's products in selected Asian countries, employment agreements for key employees of Biowell, non-competition agreements and a pledge agreement by the Company.

Biowell owns proprietary DNA-embedded biotechnology solutions that protect corporate and intellectual property from counterfeiting, fraud, piracy, product diversion and unauthorized intrusion. Biowell offers a cost effective method to detect, deter, interdict and prosecute global counterfeiting organizations. Biowell provides proprietary DNA-embedded biotechnology solutions to companies to protect corporate and intellectual property from counterfeiting, fraud, piracy, product diversion and unauthorized intrusion. Biowell uses synthetically created DNA fragments that have unique characteristics and one-of-a-kind sequences. Using various anti-counterfeit technologies, such as ink, microchips, glue, paints and DNA-Holograms, Biowell can authenticate the DNA fragments to ensure that the product has not been counterfeited or tampered with.

The Company currently has the exclusive license to sell, market, and sub-license all of Biowell Technology, Inc.'s DNA anti-counterfeit and fraud prevention biotechnology and products in the United States, the European Union, Canada, Mexico, Colombia, Saudi Arabia and the United Arab Emirates. The exclusive license for a period of 15 year, also gives the Company the initial rights to future anti-fraud biotechnologies developed by Biowell and also new applications for the existing technology that may be developed for the marketplace as long as the license agreement remains in effect. The Company and Biowell have filed one joint provisional patent application (60/463215) with the USPTO. In consideration for the granting of the exclusive license, Biowell received 1.5 million shares of the Company's common stock, with the option to purchase another 500,000 shares. In return, the Company received the option to purchase 500,000 shares of Biowell common stock.

o 2005 Incentive Stock Plan

On February 14, 2005, the majority stockholders approved the 2005 Incentive Stock Plan and authorized 16,000,000 shares of common stock for issuance of stock awards and stock options thereunder. See "2005 Incentive Stock Plan."

AMENDMENT TO THE ARTICLES OF INCORPORATION

On February 14, 2005, the majority stockholders of the Company approved an amendment to the Company's Articles of Incorporation, as amended, to decrease the par value of the common stock of the Company from \$.50 per share to \$.001 per share. The Company currently has authorized capital stock of 100,000,000 shares and approximately 36,505,691 shares of Common Stock are outstanding as of the Record Date.

The proposed reduction in the par value per share of the Company's capital stock is intended to bring the Company in line with the practice of other corporations that already have reduced par value stock. The proposed reduction in par value for the common stock would be effected by a reduction in the capital stock account on the Company's balance sheet and a corresponding increase in the additional paid-in (or surplus) capital account and thus would have no impact on the Company's capital structure. The reduction in par value would not reduce the ownership interests of stockholders, nor would it have any other impact on the rights and privileges of the holders of common stock (other than in the reduction of par value). The reduction in par value per share reduces the amount required to be carried by the Company as capital, thereby potentially increasing the Company's surplus capital available for dividends and other distributions and for other corporate purposes.

APPOINTMENT OF RUSSELL BEDFORD STEFANOU MIRCHANDANI LLP

The Audit Committee of the Board of Directors has appointed the firm of Russell Bedford Stefanou Mirchandani LLP as the independent registered public accounting firm of the Company for the year ending September 30, 2005. On February 14, 2005, the majority stockholders ratified the selection of Russell Bedford Stefanou Mirchandani LLP as the independent registered public accounting firm of the Company for the year ending September 30, 2005.

2005 INCENTIVE STOCK PLAN

On February 14, 2005, the majority stockholders approved the 2005 Incentive Stock Plan (the "2005 Incentive Plan") and authorized 16,000,000 shares of Common Stock for issuance of stock awards and stock options thereunder. The following is a summary of principal features of the 2005 Incentive Plan. The summary, however, does not purport to be a complete description of all the provisions of the 2005 Incentive Plan. Any stockholder of the Company who wishes to obtain a copy of the actual plan document may do so upon written request to the Company's Secretary at the Company's principal offices, Applied DNA Sciences, Inc., 9229 Sunset Boulevard, Suite 830, Los Angeles, California 90069.

General

The 2005 Incentive Plan was adopted by the Board of Directors. The Board of Directors has initially reserved 16,000,000 shares of Common Stock for issuance under the 2005 Incentive Plan. Under the Plan, options may be granted which are intended to qualify as Incentive Stock Options ("ISOs") under Section 422 of the Internal Revenue Code of 1986 (the "Code") or which are not ("Non-ISOs") intended to qualify as Incentive Stock Options thereunder.

The 2005 Incentive Plan and the right of participants to make purchases thereunder are intended to qualify as an "employee stock purchase plan" under Section 423 of the Internal Revenue Code of 1986, as amended (the "Code"). The 2005 Incentive Plan is not a qualified deferred compensation plan under Section 401(a) of the Internal Revenue Code and is not subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Purpose

The primary purpose of the 2005 Incentive Plan is to attract and retain the best available personnel for the Company by granting stock awards and stock options in order to promote the success of the Company's business and to facilitate the ownership of the Company's stock by employees. In the event that the 2005 Incentive Plan is not adopted the Company may have considerable difficulty in attracting and retaining qualified personnel, officers, directors and consultants.

Edgar Filing: APPLIED DNA SCIENCES INC - Form PRER14C

Administration

The 2005 Incentive Plan will be administered by the Company's Board of Directors, as the Board of Directors may be composed from time to time. All questions of interpretation of the 2005 Incentive Plan are determined by the Board, and its decisions are final and binding upon all participants. Any determination by a majority of the members of the Board of Directors at any meeting, or by written consent in lieu of a meeting, shall be deemed to have been made by the whole Board of Directors.

Notwithstanding the foregoing, the Board of Directors may at any time, or from time to time, appoint a committee (the "Committee") of at least two members of the Board of Directors, and delegate to the Committee the authority of the Board of Directors to administer the Plan. Upon such appointment and delegation, the Committee shall have all the powers, privileges and duties of the Board of Directors, and shall be substituted for the Board of Directors, in the administration of the Plan, subject to certain limitations.

Members of the Board of Directors who are eligible employees are permitted to participate in the 2005 Incentive Plan, provided that any such eligible member may not vote on any matter affecting the administration of the 2005 Incentive Plan or the grant of any stock award or option pursuant to it, or serve on a committee appointed to administer the 2005 Incentive Plan. In the event that any member of the Board of Directors is at any time not a "disinterested person", as defined in Rule 16b-3(c)(3)(i) promulgated pursuant to the Securities Exchange Act of 1934, the Plan shall not be administered by the Board of Directors, and may only be administered by a Committee, all the members of which are disinterested persons, as so defined.

Eligibility

Under the 2005 Incentive Plan, stock awards and options may be granted to key employees, officers, directors or consultants of the Company, as provided in the 2005 Incentive Plan.

10

Terms of Options

The term of each Option granted under the Plan shall be contained in a stock option agreement between the Optionee and the Company and such terms shall be determined by the Board of Directors consistent with the provisions of the Plan, including the following:

(a) PURCHASE PRICE. The purchase price of the Common Shares subject to each ISO shall not be less than the fair market value (as set forth in the 2005 Incentive Plan), or in the case of the grant of an ISO to a Principal Stockholder, not less than 110% of fair market value of such Common Shares at the time such Option is granted. The purchase price of the Common Shares subject to each Non-ISO shall be determined at the time such Option is granted, but in no case less than 85% of the fair market value of such Common Shares at the time such Option is granted.

(b) VESTING. The dates on which each Option (or portion thereof) shall be exercisable and the conditions precedent to such exercise, if any, shall be fixed by the Board of Directors, in its discretion, at the time such Option is granted.

(c) EXPIRATION. The expiration of each Option shall be fixed by the Board of Directors, in its discretion, at the time such Option is granted; however, unless otherwise determined by the Board of Directors at the time such Option is granted, an Option shall be exercisable for ten (10) years after the date on

Edgar Filing: APPLIED DNA SCIENCES INC - Form PRER14C

which it was granted (the "Grant Date"). Each Option shall be subject to earlier termination as expressly provided in the 2005 Incentive Plan or as determined by the Board of Directors, in its discretion, at the time such Option is granted.

(d) TRANSFERABILITY. No Option shall be transferable, except by will or the laws of descent and distribution, and any Option may be exercised during the lifetime of the Optionee only by him. No Option granted under the Plan shall be subject to execution, attachment or other process.

(e) OPTION ADJUSTMENTS. The aggregate number and class of shares as to which Options may be granted under the Plan, the number and class shares covered by each outstanding Option and the exercise price per share thereof (but not the total price), and all such Options, shall each be proportionately adjusted for any increase decrease in the number of issued Common Shares resulting from split-up spin-off or consolidation of shares or any like Capital adjustment or the payment of any stock dividend.

Except as otherwise provided in the 2005 Incentive Plan, any Option granted hereunder shall terminate in the event of a merger, consolidation, acquisition of property or stock, separation, reorganization or liquidation of the Company. However, the Optionee shall have the right immediately prior to any such transaction to exercise his Option in whole or in part notwithstanding any otherwise applicable vesting requirements.

(f) TERMINATION, MODIFICATION AND AMENDMENT. The 2005 Incentive Plan (but not Options previously granted under the Plan) shall terminate ten (10) years from the earlier of the date of its adoption by the Board of Directors or the date on which the Plan is approved by the affirmative vote of the holders of a majority of the outstanding shares of capital stock of the Company entitled to vote thereon, and no Option shall be granted after termination of the Plan. Subject to certain restrictions, the Plan may at any time be terminated and from time to time be modified or amended by the affirmative vote of the holders of a majority of the outstanding shares of the capital stock of the Company present, or represented, and entitled to vote at a meeting duly held in accordance with the applicable laws of the State of Delaware.

FEDERAL INCOME TAX ASPECTS OF THE 2005 INCENTIVE PLAN

THE FOLLOWING IS A BRIEF SUMMARY OF THE EFFECT OF FEDERAL INCOME TAXATION UPON THE PARTICIPANTS AND THE COMPANY WITH RESPECT TO THE PURCHASE OF SHARES UNDER THE 2005 Incentive Plan. THIS SUMMARY DOES NOT PURPORT TO BE COMPLETE AND DOES NOT ADDRESS THE FEDERAL INCOME TAX CONSEQUENCES TO TAXPAYERS WITH SPECIAL TAX STATUS. IN ADDITION, THIS SUMMARY DOES NOT DISCUSS THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE

11

PARTICIPANT MAY RESIDE, AND DOES NOT DISCUSS ESTATE, GIFT OR OTHER TAX CONSEQUENCES OTHER THAN INCOME TAX CONSEQUENCES. THE COMPANY ADVISES EACH PARTICIPANT TO CONSULT HIS OR HER OWN TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF PARTICIPATION IN THE 2004 STOCK INCENTIVE PLAN AND FOR REFERENCE TO APPLICABLE PROVISIONS OF THE CODE.

The 2005 Incentive Plan and the right of participants to make purchases thereunder are intended to qualify under the provisions of Sections 421, 422 and 423 of the Code. Under these provisions, no income will be recognized by a participant prior to disposition of shares acquired under the 2005 Incentive Plan.

If the shares are sold or otherwise disposed of (including by way of gift) more than two years after the first day of the offering period during which shares were purchased (the "Offering Date"), a participant will recognize as

Edgar Filing: APPLIED DNA SCIENCES INC - Form PRER14C

ordinary income at the time of such disposition the lesser of (a) the excess of the fair market value of the shares at the time of such disposition over the purchase price of the shares or (b) 15% of the fair market value of the shares on the first day of the offering period. Any further gain or loss upon such disposition will be treated as long-term capital gain or loss. If the shares are sold for a sale price less than the purchase price, there is no ordinary income and the participant has a capital loss for the difference.

If the shares are sold or otherwise disposed of (including by way of gift) before the expiration of the two-year holding period described above, the excess of the fair market value of the shares on the purchase date over the purchase price will be treated as ordinary income to the participant. This excess will constitute ordinary income in the year of sale or other disposition even if no gain is realized on the sale or a gift of the shares is made. The balance of any gain or loss will be treated as capital gain or loss and will be treated as long-term capital gain or loss if the shares have been held more than one year.

In the case of a participant who is subject to Section 16(b) of the Exchange Act, the purchase date for purposes of calculating such participant's compensation income and beginning of the capital gain holding period may be deferred for up to six months under certain circumstances. Such individuals should consult with their personal tax advisors prior to buying or selling shares under the 2005 Incentive Plan.

The ordinary income reported under the rules described above, added to the actual purchase price of the shares, determines the tax basis of the shares for the purpose of determining capital gain or loss on a sale or exchange of the shares.

The Company is entitled to a deduction for amounts taxed as ordinary income to a participant only to the extent that ordinary income must be reported upon disposition of shares by the participant before the expiration of the two-year holding period described above.

Restrictions on Resale

Certain officers and directors of the Company may be deemed to be "affiliates" of the Company as that term is defined under the Securities Act. The Common Stock acquired under the 2005 Incentive Plan by an affiliate may be reoffered or resold only pursuant to an effective registration statement or pursuant to Rule 144 under the Securities Act or another exemption from the registration requirements of the Securities Act.

EQUITY COMPENSATION PLANS

In November of 2002, we created a special compensation plan to pay the founders, consultants and professionals that had been contributing valuable services to us during the previous nine months. The plan is called the Professional/Employee/ Consultant Compensation Plan (the "Plan"). Share and option issuances from the Plan were to be staggered over the following six to eight months, and consultants that were to continue providing services thereafter either became employees or received renewed contracts from us in July of 2003, which contracts contained a more traditional cash compensation component. The Plan was designed by the Board to meet our important team building objectives in our early stages, and to be temporary. As of December 31, 2004, a total of 1,440,003 shares have been issued from the Plan and 560,000 options, 264,000 of which were exercised as of as of December 31, 2004.

Each qualified and eligible recipient of shares and/or options under the Plan received securities in lieu of cash payment for services. Each recipient agreed, in his or her respective consulting contract with us, to sell a limited number of shares monthly. Management feels that this carefully designed Plan was successful in attracting and retaining a strong team at a time when we had no established revenue stream and limited or no outside financing. Because recipients sold their respective shares in a controlled manner, there was also no apparent negative impact to the market from sales of these unrestricted securities, which was an important objective of the Board when the Plan was contemplated.

In our financial statements, shares that were issued from November 2002 through June 30, 2003 that were valued at \$0.065 per share were shares issued from this Plan created in November of 2002 on the basis of contracts executed at that time for previously rendered services. Common Stock disclosed as being issued in exchange for cash at \$1.00 per share represents options that were exercised under this Plan. In December of 2004, we adjusted the exercise price to \$0.60 per share.

Any other unrestricted shares that were issued either before or after July 1, 2003 were valued at the fair market value.
