NOTE 2 - SALE OF SUBSIDIARY

In May 2003, Worldteq sold its Networld subsidiary to an entity owned by the majority stockholder and former president for \$1. Worldteq recorded the sale as a credit to additional paid in capital for the net liabilities totaling approximately \$435,000.

ITEM 1 - OTHER INFORMATION:

CHANGES TO THE BOARD OF DIRECTORS

We have undergone changes to our board of directors during the reporting period. On October 29, 2003 Mr. Donald Dea resigned from our Board of Directors. The resignation was not motivated in any way by a disagreement with the Company's operations. Mr. Dea served on the Finance Committee. Concurrently with his resignation, the Board appointed board member Mr. Brian Rosinski and Mr. Tim Carnahan

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RECENT DEVELOPMENTS

While our company has been somewhat stagnant during the last few quarters, we have continued on removing certain unprofitable long distance products and have recently refocused our long distance service to include new business customer

Edgar Filing: WORLDTEQ GROUP INTERNATIONAL INC - Form 10QSB

plans. We are currently focusing on the small and medium sized business market on the telecom side. With monthly revenues on the telecom business are growing, with the addition of three new agent contracts that are currently bringing in customers daily, the newly launched MonEcard product will only enhance this growth.

In order for the company to survive and have the opportunity to prosper we made many tough decisions in the last quarter. We decided to cut certain business segments that did not focus on our long-term growth plans and we cut costs that were not related to these growth plans. The company also felt it was important to reduce debt, both short term and long term. We reduced much of our long-term debt by converting some of the debt into equity. We reduced our monthly costs at WorldTeq Corp by 300% as we identified and dismissed personnel that were not needed for our new direction. We have also outsourced many of our daily functions to competent organizations that specialize in these areas.

RESULTS OF OPERATIONS

Total net sales for the three months ended September 30, 2003 were \$174,051, as compared to \$927,022 the same 3 months ended September 30, 2002. The decrease in sales were primarily attributable to the loss of revenue generated by NetWorld, which has been sold, market competition and the further increase in focusing away from wholesale customers. Gross profit as a percentage of revenue has increased to 66.9% of sales as compared to 42.4% of sales during the previous period in 2002. This increase in gross profits is due in part to cost cutting measures and lower costs from our vendors.

General and administrative expenses decreased significantly to \$103,504 from \$448,663 for the three months ended September 30, 2003, and September 30, 2002, respectively and to \$540,043 from \$1,543,306 for the nine months ended September 30, 2003 and 2002, respectively; this was primarily due to the continued reduction of support staff that were not used to concentrate on new growth plans. Additionally, the outsourcing of specific functions to specialized organizations helped to bring expenses down.

The recent benefit we have seen from the all around reduction of costs is the net profit of \$9,962 realized during the quarter ending September 30, 2003 as compared to a net loss of (\$32,603) realized during the prior quarter of this year ending June 30, 2003

LIQUIDITY AND CAPITAL RESOURCES

We are currently seeking additional capital so we may increase our operations and execute our business plan as intended, as outlined in the announcement of our recent agreement with Aero Financial. Although we have no current commitments for capital, we may raise additional funds through: public offerings of equity, securities convertible into equity or debt, private offerings of securities or debt, or other sources.

Our investors should assume that any additional funding will cause substantial dilution to current stockholders. In addition, we may not be able to raise additional funds on favorable terms, if at all.
