Certain information included in this Form 10-Q may include forward-looking statements under federal securities laws, and we intend that such forward-looking statements be subject to the safe-harbor created thereby. Such statements include: (i) the expectation that the adoption of SFAS No. 145 and SFAS No. 146 will not have a material impact on our balance sheet or results of operations, (ii) the assumptions used to value our residual securities, including the assumptions relating to prepayment rates, losses, delinquencies and the discount rates, (iii) the expectation that we will begin recording additions to our mortgage servicing assets in the fourth quarter of 2002, (iv) the belief that the goodwill reflected on our balance sheet is not impaired, (v) the assumptions used to project cash flow, (vi) the expectation that we will continue to complete net interest margin security transactions in connection with our securitizations in order to realize higher cash proceeds, (vii) the expectation that the residual cash flows will be a significant source of liquidity and working capital to support future operations for the foreseeable future, (viii) the expectation that our liquidity, credit facilities and capital resources will be sufficient to fund our operations, (ix) the expectations regarding the sensitivity of our residual securities to interest rate changes, (x) the assumptions underlying our hedging strategy, (xi) the expectation that we will continue to pay a quarterly dividend, (xii) the expectation that we will continue to fund repurchases pursuant to our Stock Repurchase Program with available corporate liquidity, (xiii) the expectation that the number of shares to be purchased pursuant to our Stock Repurchase Program and the time of the purchase will be based upon the level of cash balances, general business conditions and other factors including alternative investment opportunities, (xiv) the estimates regarding earnings per share for 2002 and 2003, (xv) the expectation that our production volume will be \$16 billion and our operating margin will be 2.00% in 2003, (xvi) the expectation that our litigation will not have a material adverse effect on our business, results of operation or financial position, (xvii) the expectation that we will renew and expand the Salomon Aggregation Facility, the Salomon Warehouse Facility, the Salomon Loan Agreement for Delinquent and Problem Loans and the Mortgage Stanley Aggregation Facility prior to their expiration in December 2002 and (xviii) the expectation that we will increase the UBS Warburg Warehouse and Aggregation Facility from \$400 million to \$750 million before the end of 2002.

There are many factors that could cause our actual results to differ materially from expected results in the forward-looking statements. Such factors include, but are not limited to: (i) our ability to sustain and manage our growth, (ii) our ability to maintain, replace or add to our existing credit facilities on terms comparable to the current terms, (iii) our ability to maintain low loan acquisition costs, (iv) the condition of the whole loan and securitization markets, (v) the initiation of a margin call under any of our warehouse or aggregation facilities, (vi) the effect of competitive pressures from other lenders or suppliers of credit in our market, (vii) the general level of interest rates in the economy, (viii) our ability to ramp up and manage the growth of our servicing platform, (ix) decreases in the value of residential real property in the markets we serve, (x) our ability to maintain credit quality and compliance with legal and underwriting requirements during a period of rapid growth, (xi) the effect of proposed legislation and regulations that could restrict our business, (xii) the outcome of our pending litigation and regulatory inquiries and (xiii) the other risks identified in our Annual Report on Form 10-K for the year ending December 31, 2001 and our other filings with the Securities and Exchange Commission.

NEW CENTURY FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

September 30, 2002 and 2001

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months ended September 30, 2002 are not necessarily indicative of the results that may be expected for the year ending December 31, 2002.

Recent accounting developments In July 2001, FASB issued SFAS No. 141, *Accounting for Business Combinations* and SFAS No. 142, *Accounting for Goodwill and Intangible Assets*. SFAS 142 eliminates the existing requirement to amortize goodwill through a periodic charge to earnings. For existing goodwill, the elimination of the amortization requirement was effective for the Company beginning January 1, 2002. As of that date, and at least annually thereafter, goodwill must be evaluated for impairment based on estimated fair value. As of September 30, 2002, the Company had goodwill of \$13.7 million. Since the goodwill and related amortization has not been significant to the consolidated balance sheet and results of operations, the implementation of this standard did not have a material effect on the consolidated balance sheet or results of operations.

In August 2001, FASB issued Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144), which supersedes both FASB Statement No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of* (SFAS No. 121) and the accounting and reporting provisions of APB Opinion No. 30, *Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions* (Opinion 30), for the disposal of a segment of a business (as previously defined in that Opinion). SFAS No. 144 retains the fundamental provisions in SFAS No. 121 for recognizing and measuring impairment losses on long-lived assets held for use and long-lived assets to be disposed of by sale, while also resolving significant implementation issues associated with SFAS No. 121. For example, SFAS No. 144 provides guidance on how a long-lived asset that is used as part of a group should be evaluated for impairment, establishes criteria for when a long-lived asset is held for sale, and prescribes the accounting for a long-lived asset that will be disposed of other than by sale. SFAS No. 144 retains the basic provisions of Opinion 30 on how to present discontinued operations in the income statement but broadens that presentation to include a component of an entity (rather than a segment of a business).

The Company adopted SFAS No. 144 on January 1, 2002. Adoption of SFAS No. 144 did not have a material impact on the Company's financial statements.

In April 2002, the FASB issued SFAS No. 145, *Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections* (SFAS No. 145). SFAS No. 145 will rescind SFAS No. 4, which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. As a result of SFAS No. 145, the criteria in APB Opinion No. 30, *Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions* will now be used to classify those gains and losses. SFAS No. 64 amended SFAS No. 4, and is no longer necessary because SFAS

Table of Contents

No. 4 has been rescinded. SFAS No. 44 was issued to establish accounting requirements for the effects of transition to the provisions of the Motor Carrier Act of 1980. Since the transition has been completed, SFAS No. 44 is no longer necessary. SFAS No. 145 amends SFAS No. 13 to require that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. The Company expects that the adoption of SFAS No. 145 on January 1, 2003 will not have a material impact on the consolidated balance sheet or results of operations.

In July 2002, FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, which addresses financial accounting and reporting for costs associated with exit or disposal activities. It nullifies EITF Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. The principal difference between Statement 146 and Issue 94-3 relates to the recognition of a liability for a cost associated with an exit or disposal activity. Statement 146 requires that a liability be recognized for those costs only when the liability is incurred, that is, when it meets the definition of a liability in the FASB's conceptual framework. In contrast, under Issue 94-3, a company recognized a liability for an exit cost when it committed to an exit plan. Statement 146 also establishes fair value as the objective for initial measurement of liabilities related to exit or disposal activities. Thus, the Statement affirms the Financial Accounting Standards Board's view that fair value is the most relevant and faithful representation of the economics of a transaction. The Company expects that the adoption of SFAS No. 146 on January 1, 2003 will not have a material impact on the consolidated balance sheet or results of operations.

Residual interests in securitizations - Residual interests in securitizations (Residuals) are recorded as a result of the sale of loans through securitizations and the sale of residual interests in securitizations through what are sometimes referred to as net interest margin securities (NIMS).

The loan securitizations are generally structured as follows: First, the Company sells a portfolio of mortgage loans to a qualifying special purpose entity (QSPE) which has been established for the limited purpose of buying and reselling mortgage loans. The QSPE then transfers the same mortgage loans to a real estate mortgage investment conduit or Owners Trust (the REMIC or Trust), and the Trust in turn issues interest-bearing asset-backed securities (the Certificates) generally in an amount equal to the aggregate principal balance of the mortgage loans. The Certificates are typically sold at face value and without recourse except that representations and warranties customary to the mortgage banking industry are provided by the Company to the Trust. One or more investors purchase these Certificates for cash. The Trust uses the cash proceeds to pay the Company the cash portion of the purchase price for the mortgage loans. The Trust also issues a certificate representing a residual interest in the payments on the securitized loans. In addition, the Company may provide a credit enhancement for the benefit of the investors in the form of additional collateral (over-collateralization account or OC Account) held by the Trust. The servicing agreement typically requires that the OC Account is maintained at certain levels.

At the closing of each securitization, the Company removes from its consolidated balance sheet the mortgage loans held for sale and adds to its consolidated balance sheet (i) the cash received, (ii) the estimated fair value of the Residuals, which consist of (a) the OC Account and (b) the net interest receivable (NIR), and (iii) the estimated fair value of the servicing asset. The NIR represents the discounted estimated cash flows to be received by the Company in the future. The excess of the cash received and the assets retained by the Company over the carrying value of the loans sold, less transaction costs, equals the net gain on sale of mortgage loans recorded by the Company.

The NIMS are generally structured as follows: First, the Company sells or contributes the Residuals to a QSPE which has been established for the limited purpose of receiving and selling asset-backed residual interests in securitization certificates. Next, the QSPE transfers the Residuals to an owner trust (the Trust) and the Trust in turn issues interest-bearing asset-backed securities (the Bonds and Certificates). The Company sells these Residuals without recourse except that normal representations and warranties are provided by the Company to the Trust. One or more investors purchase the Bonds and

Table of Contents

Certificates and the proceeds from the sale of the Bonds and Certificates, along with a residual interest certificate that is subordinate to the Bonds and Certificates, represent the consideration to the Company for the sale of the Residuals.

At the closing of each NIMS, the Company removes from its consolidated balance sheet the carrying value of the Residuals sold and adds to its consolidated balance sheet (i) the cash received and (ii) the estimated fair value of the portion of the Residuals retained, which consists of the NIR and the OC Account. The excess of the cash received and assets retained over the carrying value of the Residuals sold, less transaction costs, equals the net gain or loss on the sale of Residuals recorded by the Company.

The Company allocates its basis in the mortgage loans and residual interests between the portion of the mortgage loans and residual interests sold through the Certificates and the portion retained (the Residuals and servicing assets) based on the relative fair values of those portions on the date of sale. The Company may recognize gains or losses attributable to the changes in the fair value of the Residuals, which are recorded at estimated fair value and accounted for as held-for-trading securities. The Company is not aware of an active market for the purchase or sale of Residuals and, accordingly, the Company determines the estimated fair value of the Residuals by discounting the expected cash flows released from the OC Account (the cash out method) using a discount rate commensurate with the risks involved. As of September 30, 2002 the Company utilizes an effective discount rate of 12.0% on the estimated cash flows released from the OC Account to value the Residuals through securitization and a 14.0% discount rate on the estimated cash flows released from the Trust to value Residuals through NIMS transactions.

The Company is entitled to the cash flows from the Residuals that represent collections on the mortgage loans in excess of the amounts required to pay the Certificate principal and interest, the servicing fees and certain other fees such as trustee and custodial fees. At the end of each collection period, the aggregate cash collections from the mortgage loans are allocated first to the base servicing fees and certain other fees such as trustee and custodial fees for the period, then to the Certificateholders for interest at the pass-through rate on the Certificates plus principal as defined in the servicing agreements. If the amount of cash required for the above allocations exceeds the amount collected during the collection period, the shortfall is drawn from the OC Account. If the cash collected during the period exceeds the amount necessary for the above allocations, and there is no shortfall in the related OC Account, the excess is released to the Company. If the OC Account balance is not at the required credit enhancement level, the excess cash collected is retained in the OC Account until the specified level is achieved. The cash and collateral in the OC Account is restricted from use by the Company. Pursuant to certain servicing agreements, cash held in the OC Accounts may be used to make accelerated principal paydowns on the Certificates to create additional excess collateral in the OC Account which is held by the Trusts on behalf of the Company as the Residual holder. The specified credit enhancement levels are defined in the servicing agreements as the OC Account balance expressed generally as a percentage of the current collateral principal balance.

For NIMS transactions, the Company will receive cash flows once the holders of the Bonds and Certificates created in the NIMS transaction are fully repaid.

The Annual Percentage Rate (APR) on the mortgage loans is relatively high in comparison to the pass-through rate on the Certificates. Accordingly, the Residuals described above are a significant asset of the Company. In determining the value of the Residuals, the Company must estimate the future rates of prepayments, prepayment penalties to be received by the Company, delinquencies, defaults and default loss severity as they affect the amount and timing of the estimated cash flows. The Company estimates average cumulative losses as a percentage of the original principal balance of the mortgage loans of 1.85% to 3.56% for adjustable-rate securities and 2.31% to 4.74% for fixed-rate securities. These estimates are based on historical loss data and comparable loans, the specific characteristics of the loans originated by the Company, and the existence of mortgage insurance. The Company estimates prepayments by evaluating historical prepayment performance of comparable mortgage loans and the impact of trends in the industry. The Company uses a prepayment curve to estimate the prepayment characteristics of the mortgage loans. The rate of increase, duration, severity and decrease of the curve depends on the age and nature of the mortgage loans, primarily whether the mortgage loans are fixed or adjustable and the interest rate adjustment characteristics of the mortgage loans (6 month, 1 year, 2 year, 3 year or

Table of Contents

5 year adjustment periods). The Company's prepayment curve and default estimates have resulted in weighted average lives of between 2.58 to 3.00 years for its adjustable-rate securities and 2.72 to 3.79 years for its fixed-rate securities.

Historically, the Company performs a quarterly evaluation of its Residuals, which takes into consideration trends in actual cash flow performance, industry and economic developments, as well as other relevant factors.

The Bondholders and Certificateholders and the securitization trusts have no recourse to the Company for the failure of mortgage loan borrowers to pay when due. The Company's Residuals are subordinate to the Bonds and Certificates until the Bondholders and Certificateholders are fully paid.

2. Loans Receivable Held for Sale, Net

A summary of loans receivable held for sale, at the lower of cost or market at September 30, 2002 and December 31, 2001 follows (dollars in thousands):

	September 30, 2002	December 31, 2001
Mortgage loans receivable	\$ 1,390,155	\$ 1,011,122
Net deferred origination costs	2,200	
Mortgage loans receivable, net	\$ 1,392,355	\$ 1,011,122

3. Residual Interests in Securitizations

Residual interests in securitizations consist of the following components at September 30, 2002 and December 31, 2001 (dollars in thousands):

	September 30, 2002	December 31, 2001
Over-collateralization account	\$ 187,425	\$ 206,935
Net interest receivable (NIR)	72,544	99,973
	\$ 259,969	\$ 306,908

The following table summarizes activity in the NIR amounts for the nine months ended September 30, 2002 and 2001 (dollars in thousands):

	2002	2001
Balance, beginning of period	\$ 99,973	\$ 119,010
NIR premiums (discounts)	(12,050)	15,894
Cash received from NIRs	(50,267)	(56,923)
Accretion of NIR	25,333	27,665
Increase in NIR through call transactions		3,160
Fair value adjustment	9,555	
Balance, end of period	\$ 72,544	\$ 108,806

Edgar Filing: NEW CENTURY FINANCIAL CORP - Form 10-Q

The \$9.6 million fair value adjustment is a result of changes in the assumptions used to value the residual interests. Please refer to the residual interests section of Management's Discussion and Analysis for further discussion.

10

Table of Contents

The call transactions in 2001 represent the effect of the January 2001 exercise of the call option for the Company's 1998-NC5 securitization transaction, as well as the clean-up calls for the Company's 1997-NC1, 1997-NC2, and 1997-NC3 securitization transactions.

The following table summarizes activity in the over-collateralization, or OC, accounts for the nine months ended September 30, 2002 and 2001 (dollars in thousands):

	2002	2001
Balance, beginning of period	\$ 206,935	\$ 242,636
Initial deposit to OC accounts	17,879	6,738
Call transactions		(51,261)
Additional deposits to OC accounts	8,232	63,418
Release of cash from OC accounts	(45,621)	(51,013)
Balance, end of period	\$ 187,425	\$ 210,518

4. Mortgage Servicing Assets

Mortgage servicing assets represent the carrying value of the Company's portfolio of mortgage servicing rights. The following table summarizes activity in mortgage servicing assets for the nine months ended September 30, 2002 and 2001 (dollars in thousands):

	September 30, 2002	September 30, 2001
Balance, beginning of period	\$	\$ 22,945
Additions	4,611	4,938
Sales of servicing rights	(4,561)	(25,748)
Amortization	(50)	(1,638)
Balance, end of period	\$	\$ 497

In the first quarter of 2001, the Company sold the majority of its mortgage servicing portfolio to Ocwen Federal Bank. The Company engaged Ocwen to sub-service its loans receivable held for sale, as well as any loans that it sells servicing-retained. In October 2002, the Company recommenced its own servicing operation. Consequently, the Company expects to begin recording additions to its servicing assets in the fourth quarter of 2002.

5. Goodwill

Goodwill is recorded pursuant to acquisitions of new subsidiaries and is included in prepaid expenses and other assets. As of December 31, 2001, the Company had goodwill of \$3.3 million. During 2002, the Company entered into two transactions, which resulted in goodwill of \$13.7 million as of September 30, 2002: (i) the Company made the final earn-out payment of \$9.4 million for its acquisition of Worth Funding in 2000; and (ii) \$1.0 million of goodwill was recorded in connection with the May 2002 acquisition of eConduit. Goodwill is reviewed for possible impairment when events or changed circumstances may affect the underlying basis of the asset. Impairment is measured by discounting the operating income at an appropriate discount rate. The Company believes that its goodwill is not impaired as of September 30, 2002.

Table of Contents**6. Warehouse and Aggregation Lines of Credit**

Warehouse and aggregation lines of credit consist of the following at September 30, 2002 and December 31, 2001 (dollars in thousands):

	<u>September 30, 2002</u>	<u>December 31, 2001</u>
A \$800 million aggregation facility from Salomon Brothers Realty expiring in December 2002, secured by loans receivable held for sale, bearing interest based on one-month LIBOR plus 0.90% (rate was 2.71% at September 30, 2002)	\$ 275,271	\$ 228,771
A \$500 million line of credit from Bank of America, N.A. expiring in May 2003, secured by loans receivable held for sale, bearing interest based on one-month LIBOR plus a range of 0.90% to 1.10% (blended rate was 2.84% at September 30, 2002)	216,309	
A \$410 million line of credit from US Bank which expired in May 2002, secured by loans receivable held for sale		307,833
A \$400 million line of credit from UBS Warburg Real Estate Securities expiring in May 2004, secured by loans receivable held for sale, bearing interest based on one-month LIBOR plus a range of 1.00% or 1.15% (blended rate was 2.93% at September 30, 2002)	381,337	
A \$470 million line of credit from CDC Mortgage Capital expiring in March 2003, secured by loans receivable held for sale, bearing interest based on one-month LIBOR plus a range of 0.95% or 1.25% (blended rate was 2.91% at September 30, 2002)	320,919	198,975
A \$500 million loan and security agreement from Morgan Stanley Dean Witter Mortgage Capital expiring in December 2002, secured by loans receivable held for sale, bearing interest generally based on one-month LIBOR plus 1.00% (rate was 2.81% at September 30, 2002)	156,824	246,253
A \$150 million line of credit from Salomon Brothers Realty expiring in December 2003, secured by loans receivable held for sale, bearing interest based on one-month LIBOR plus 1.10% (rate was 2.91% at September 30, 2002)		
A \$25 million master loan and security agreement from Salomon Brothers Realty expiring in December 2002, secured by delinquent loans and REO properties, bearing interest based on one-month LIBOR plus 2.0% (rate was 3.81% at September 30, 2002)	11,743	5,736
	<u>\$ 1,362,403</u>	<u>\$ 987,568</u>

The warehouse and aggregation line of credit agreements contain certain restrictive financial and other covenants which require the Company to, among other things, restrict dividends, maintain certain net worth and liquidity.

Table of Contents

levels, remain below specified debt-to-net-worth ratios and comply with regulatory and investor requirements. At September 30, 2002, the Company was in compliance with all financial and other material covenants in its warehouse and aggregation facilities.

7. Earnings per Share

The following table illustrates the computation of basic and diluted earnings per share for the periods indicated (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002	2001	2002	2001
Basic:				
Net earnings	\$ 51,518	\$ 16,714	\$ 125,353	\$ 24,755
Less: dividends declared on preferred stock		(725)	(442)	(2,175)
Earnings available to common stockholders	51,518	15,989	124,911	22,580
Weighted average common shares outstanding	24,326	16,123	22,790	15,359
Earnings per share	\$ 2.12	\$ 0.99	\$ 5.48	\$ 1.47
Diluted:				
Net earnings	\$ 51,518	\$ 16,714	\$ 125,353	\$ 24,755
Weighted average number of common and common equivalent shares outstanding	24,326	16,123	22,790	15,359
Dilutive effect of convertible preferred stock, stock options and warrants	2,099	4,586	3,487	4,530
	26,425	20,709	26,277	19,889
Earnings per share	\$ 1.95	\$ 0.81	\$ 4.77	\$ 1.24

For the three months ended September 30, 2002, 141,750 stock options were excluded from the calculation of diluted earnings per share because their effect is anti-dilutive. For the nine months ended September 30, 2002, 181,750 stock options were excluded from the calculation of diluted earnings per share because their effect is anti-dilutive.

For the three months ended September 30, 2001, 836,054 stock options and 50,000 warrants were excluded from the calculation of diluted earnings per share because their effect is anti-dilutive. For the nine months ended September 30, 2001, 1,584,550 stock options and 50,000 warrants were excluded from the calculation of diluted earnings per share because their effect is anti-dilutive.

8. Litigation

We have previously disclosed our material litigation and regulatory issues in our 2001 Annual Report on Form 10-K, and our Quarterly Reports on Form 10-Q for the first and second quarters of 2002. Below we have provided updates on those matters for which there were material developments during the third quarter of 2002.

Edgar Filing: NEW CENTURY FINANCIAL CORP - Form 10-Q

Grimes. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in June 2001, we were served with a class action complaint filed by Richard L. Grimes and Rosa L. Grimes against New Century Mortgage Corporation. The action was filed in the U.S. District Court for the Northern District of California, San Francisco Division, and seeks rescission, restitution and damages on behalf of the two plaintiffs, others similarly situated and on behalf of the general public. The complaint alleges a violation of TILA and Business & Professions Code § 17200. Specifically, the complaint alleges that we gave the borrowers the required three-day notice of their right to rescind before the loan transaction had technically been consummated. Our Motion for Summary Judgment was granted on January 25, 2002; the judge held that New Century had not violated TILA and dismissed the 17200 claim without prejudice. Plaintiff filed a notice of appeal; their opening brief was filed on July 1, 2002 and our responsive brief was filed in mid-August, 2002.

Perry. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in July 2001, Charles Perry Jr. filed a class action complaint against New Century Mortgage Corporation and Noreast Mortgage Company, Inc. in the U.S. District Court for the District of Massachusetts. The complaint alleges that certain payments made to mortgage brokers, sometimes referred to as yield spread premiums, violate the federal Real Estate Settlement Procedures Act. The complaint also alleges that we induced mortgage brokers to breach their fiduciary duties to borrowers. The complaint was amended twice to add new plaintiffs, Eugene and Margaret Flood. Plaintiffs filed an Unopposed Motion to Strike Class Allegations on July 23, 2002 which was granted by the court on August 14, 2002.

Smith. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in August 2001, a former employee named Dean Smith filed a class action complaint against New Century Financial Corporation and New Century Mortgage Corporation for alleged unpaid overtime, penalties and damages on behalf of himself and other loan officers. The action is pending in the United States District Court for the Southern District of California, in Santa Ana. We filed our answer in September 2001. Notices to potential class members were sent in early 2002; approximately 50 individuals timely opted in to join the class action. The case was resolved at mediation on July 26, 2002; the court approved the settlement and the case has been dismissed. The amount of the settlement did not have a material adverse effect on our results of operations or financial position.

Barney. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in December, 2001, Sandra Barney filed a class action complaint against New Century Mortgage Corporation in the Circuit Court in Cook County, Chicago, Illinois. The complaint alleges the unauthorized practice of law and violation of the Illinois Consumer Fraud Act for performing document preparation services for a fee by non-lawyers, and seeks to recover the fees charged for the document preparation, compensatory and punitive damages, attorneys' fees and costs. We filed a motion to dismiss in February 2002; the case was then consolidated with other similar cases filed against other lenders. In late August, 2002, the court ordered plaintiffs to dismiss their cases with prejudice; our plaintiff filed her Notice of Appeal on September 1, 2002.

Bernstein. As previously disclosed in our Form 10-Q for the first quarter of 2002, Paul Bernstein filed a class action complaint against New Century Mortgage Corporation in the Circuit Court of Cook County, Chicago, Illinois. The complaint seeks damages for receiving unsolicited advertisements to telephone facsimile machines in violation of the Telephone Consumer Protection Act, 47 U.S.C. § 227, and the Illinois Consumer Fraud Act. We timely removed the case to federal court on May 9, 2002. Plaintiff filed a motion to remand the case to state court on May 13, 2002; additional authorities were filed by the parties in October, 2002 and we await a ruling.

Overman. In September, 2002, Robert E. Overman & Martin Lemp filed a class action complaint in the Superior Court for the Alameda County, California, against New Century Financial Corporation, New Century Mortgage Corporation, U.S. Bancorp, Loan Management Services, Inc., and certain individuals affiliated with Loan Management Services. The complaint alleges violations of California Consumers Legal Remedies Act, Unfair, Unlawful and Deceptive Business and Advertising Practices in violation of Business & Professions Code Sections 17200 and 17500, Fraud-Misrepresentation and Concealment and Constructive Trust/Breach of Fiduciary Duty and damages including restitution, compensatory and punitive damages, and attorneys' fees and costs. Our response is due in mid-November, 2002.

We are also a party to various legal proceedings arising out of the ordinary course of business. Management believes that any liability with respect to our legal actions, individually or in the aggregate, will not have a material adverse effect on our business, results of operation or financial position.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****General**

We are a leading nationwide specialty mortgage banking company that originates, purchases, sells and services residential mortgage loans secured primarily by first mortgages on single-family residences. Our borrowers generally have considerable equity in the property securing the loan, but have impaired or limited credit profiles or higher debt-to-income ratios than traditional mortgage lenders allow. Our borrowers also include individuals who, due to self-employment or other circumstances, have difficulty verifying their income, as well as individuals who prefer the prompt and personalized service we provide.

We originate and purchase loans through our wholesale and retail channels. Wholesale originations and purchases are through independent mortgage brokers who provide loans through the Wholesale Division of our wholly-owned subsidiary, New Century Mortgage Corporation. We do not purchase bulk loans. Retail originations are made through New Century Mortgage Corporation's network of branch offices and through its Central Retail Division. We also originate loans through customized business arrangements with mortgage companies and other financial institutions established by our subsidiary, The Anyloan Company. These relationships vary and include a combination of wholesale and retail elements. After originating or purchasing loans, we then sell those loans through whole loan sales or securitizations. We were incorporated in Delaware in November 1995 and commenced lending operations in February 1996.

Loan Originations and Purchases

As of September 30, 2002, our Wholesale Division operated in 16 states through 10 regional operating centers. Our Wholesale Division originated or purchased \$8.3 billion in loans during the nine months ended September 30, 2002. As of September 30, 2002, our Retail Branch Operations Division operated through 69 sales offices located in 26 states and our Central Retail Division and The Anyloan Company operated through their centralized offices. Retail originations, including The Anyloan Company, totaled \$1.4 billion in loans during the nine months ended September 30, 2002.

Loan Sales and Securitizations

One of our primary sources of revenue is the recognition of gain on sale of our loans through whole loan sales and securitizations. In a whole loan sale, we recognize and receive a cash gain upon sale. In a securitization, we recognize a gain on sale at the time the loans are sold, and receive cash flows over the actual life of the loans. The use of a net interest margin security, or NIM, transaction concurrently with or shortly after a securitization, allows us to receive a substantial portion of the gain in cash at the closing of the NIM transaction, rather than over the actual life of the loans.

The following table sets forth loan sales and securitizations for the periods indicated (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002	2001	2002	2001
Premium whole loan sales	\$ 3,491,613	\$ 1,050,755	\$ 8,300,478	\$ 2,699,630
Securitizations		518,002	845,477	898,244
Total premium sales	3,491,613	1,568,757	9,145,955	3,597,874
Discounted whole loan sales	71,282	17,237	181,632	207,868
Total loan sales	\$ 3,562,895	\$ 1,586,084	\$ 9,327,587	\$ 3,805,742

Table of Contents

Total loan sales for the nine months ended September 30, 2002 were \$9.3 billion, compared to \$3.8 billion for the nine months ended September 30, 2001. Whole loan sales represented 90.9% of total loan sales for the nine months ended September 30, 2002, compared to 77.3% for the same period last year.

Securitizations for the nine months ended September 30, 2002 were \$845.5 million, compared to \$898.2 million for the nine months ended September 30, 2001. During 2002 and 2001, concurrently with or shortly after each of the securitizations, we completed a NIM transaction. The combined securitization and accompanying NIM transactions yielded cash to us at closing of each NIM transaction comparable to cash received through whole loan sales during the respective periods.

Residual Interests

In a securitization transaction, we sell a portfolio of mortgage loans to a special purpose entity established for the limited purpose of buying and reselling mortgage loans. The special purpose entity transfers the mortgage loans to a trust that in turn issues interest-bearing asset-backed securities generally in an amount equal to the aggregate principal balance of the mortgage loans. One or more investors purchase these asset-backed securities for cash. The trust uses the cash proceeds to pay us for the mortgage loans. The trust also issues a certificate representing a residual interest in the payments on the securitized loans. In addition, we provide credit enhancement for the benefit of the investors in the form of additional collateral, referred to as the over-collateralization account, or OC Account.

The over-collateralization requirement ranges from 0.75% to 4.75% of the initial securitization bond debt principal balance, or 1.5% to 9.5% of the remaining principal balance after 30 to 36 months of principal amortization. The actual amount of the OC Account is determined by the rating agencies based upon their assessment of the loan pool characteristics. When funding all of the OC Account up front, we begin to receive cash flow from our residual securities immediately. When we do not fund the OC Account up front, we do not receive cash flow until the OC Account requirement is satisfied. It typically takes between 12 to 24 months to satisfy the OC Account requirement. Cash flows from our residual interests are subject to certain delinquency or credit loss tests, as defined by the rating agencies or the bond insurance companies. Over time, we receive distributions from the OC Account subject to the performance of the mortgage loans in each securitization. To date, we have elected to fund the required OC Account at the closing of most of our securitizations.

At the closing of each securitization, we add to our balance sheet the residual interest retained based on our calculation of the present value of estimated future cash flows to be received by us. The residual interest we record consists of the OC Account and the net interest receivable, or NIR. Combined, these are referred to as the residual interests.

We review quarterly the underlying assumptions used to value each residual interest and adjust the carrying value of the securities based on actual experience and trends in the industry. To determine the residual asset value, we project cash flow for each security. To project cash flow, we use base assumptions for the constant prepayment rate, or CPR, and losses for each product type based on historical performance. We update each security to reflect actual performance to date and then use the base assumptions for CPR and loss to project the performance of the security from that date forward. If the actual performance of the security differs materially from the base assumptions with respect to CPR or loss, we adjust our assumptions of future performance. The London Interbank Offer Rate, or LIBOR, forward curve is then used to project future interest rates and finalize cash flow projections for each security. We then discount the projected cash flows at a rate commensurate with the risk involved. At September 30, 2002, we used discount rates of 12.0% for residual interests and 14.0% for residual interests through NIM transactions.

Although residual cash flow was comparable to modeled cash flow for the nine months ended September 30, 2002, during the second quarter we modified some of our assumptions used to project future cash flows to reflect recent trends. The changes included the following:

We increased our projected prepayment speeds on our 30-year fixed-rate product to 30% from 20% for the next nine months.

We increased our projected loss severities for the majority of the securitized portfolio, resulting in an increase in cumulative pool losses from 3.57% at March 31, 2002 to 3.83% at June 30, 2002 and September 30, 2002.

In response to the lower interest rate environment, we decreased our discount rates to those used prior to June 2002, resulting in a reduction in the average discount rate from 14.3% to 12.5%.

Year-to-date we have recorded \$26.0 million in losses on our euro futures contracts, offset by \$26.5 million in increases in our residual asset value. These euro futures contracts serve as an economic hedge of interest rate exposure in the residual interest. The losses were the result of a decrease in forward

Table of Contents

LIBOR rates, which also resulted in a comparable increase in the value of the residual interests, due to an increase in the net interest spread to the residual holder.

Discounted Loan Sales

The following table illustrates the composition of discounted loan sales for each of the periods indicated (dollars in thousands):

	Three Months Ended September 30,			
	2002		2001	
	Principal	Discount	Principal	Discount
Elective pool repurchases	\$ 11,860	(45.1)%		0.0%
Repurchases as a result of clean-up or other calls		0.0%	3,199	(0.3)%
Repurchases from whole loan sales and other discounted sales	59,422	(12.3)%	14,128	(11.0)%
Total discounted sales	\$ 71,282	(17.9)%	\$ 17,327	(9.0)%
	Nine Months Ended September 30,			
	2002		2001	
	Principal	Discount	Principal	Discount
Elective pool repurchases	\$ 80,043	(37.6)%		0.0%
Repurchases as a result of cleanup or other calls	985	(11.5)%	64,796	(3.1)%
Repurchases from whole loan sales and other discounted sales	100,604	(14.6)%	143,072	(13.8)%
Total discounted sales	\$ 181,632	(24.7)%	\$ 207,868	(10.5)%

For the quarter ended September 30, 2002, we sold \$71.3 million in loans at a discount, compared to \$17.3 million for the same period last year. For the nine months ended September 30, 2002, we sold \$181.6 million in loans at a discount, compared to \$207.9 million for the same period last year.

Elective pool repurchases totaled \$11.9 million for the quarter ended September 30, 2002 and \$80.0 million for the nine months ended September 30, 2002. These repurchases are discussed below.

Repurchases as a result of cleanup calls are repurchases from a securitization that typically occur when the principal balance of the securitization pool is less than 10% of the original principal balance of the pool. No repurchases as the result of cleanup calls are projected during the

remainder of 2002.

Repurchases from whole loan sales and other discounted sales are primarily 1) loans repurchased due to a first payment default, and 2) unsold loans with minor deficiencies (scratch and dent loans). These loans are typically sold directly to investors or securitized depending upon the economic circumstances. While the timing of sales impacts quarter-to-quarter comparisons, the year-to-date 2002 percentage of discounted loans sold within this category was approximately 1.1% of loan sales, an improvement from the 3.8% year-to-date percentage in 2001.

Elective Securitization Pool Repurchases

We periodically elect to repurchase loans in order to maximize cash flows from our residual interests that may otherwise be delayed due to loss or delinquency triggers. The pooling and servicing agreements typically require the repurchase of the most delinquent loans first. While the losses we recognize as a result of these repurchases

Table of Contents

are no less severe than if the loans had remained in the securitization trust, buying the loans from the pools allows us to accelerate cash flow from the residual interests.

Losses on the sale of loans repurchased from pools totaled \$30.0 million for the nine months ended September 30, 2002. As a result of the repurchases, we received \$51.8 million in cash flows. The difference in residual value with and without the repurchases was \$39.8 million, or \$9.8 million higher than the loss on the discounted sales. The \$9.8 million difference results from the immediate release of over-collateralization cash flows rather than delayed receipt that would have occurred absent the repurchases.

We evaluate each pool for the potential benefit of repurchasing loans, based on the economic merits of the particular transaction. If the anticipated loss on the sale of repurchased loans is less than the anticipated loss in value of the residual asset that would result from disruption of residual cash flow, we generally elect to repurchase the loans.

Table of Contents**Results of Operations**

The following table sets forth our results of operations as a percentage of total revenues for the periods indicated:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2002	2001	2002	2001
Revenues:				
Gain on sale of loans	77.3%	69.0%	74.0%	59.5%
Interest income	17.7%	22.2%	20.1%	21.2%
Residual interest income	5.0%	7.8%	5.9%	13.7%
Servicing and other income		1.0%		5.6%
Total revenues	100.0%	100.0%	100.0%	100.0%
Total expenses	47.3%	67.5%	49.1%	78.6%
Earnings before income taxes	52.7%	32.5%	50.9%	21.4%
Income taxes	21.7%	13.7%	21.0%	9.1%
Net earnings	31.0%	18.8%	29.9%	12.3%

Nine Months Ended September 30, 2002 Compared to Nine Months Ended September 30, 2001***Originations and Purchases***

We originated and purchased \$9.7 billion in loans for the nine months ended September 30, 2002, compared to \$4.2 billion for the nine months ended September 30, 2001. Wholesale loan originations and purchases were \$8.3 billion, or 85.5% of total originations and purchases for the nine months ended September 30, 2002. Retail loan originations were \$1.4 billion, or 14.5%, of total originations and purchases for the nine months ended September 30, 2002. For the same period in 2001, wholesale and retail originations and purchases totaled \$3.4 billion, or 80.6%, and \$821.4 million, or 19.4%, respectively, of total originations and purchases.

Loan Sales and Securitizations

Whole loan sales increased to \$8.3 billion for the nine months ended September 30, 2002, from \$2.7 billion for the corresponding period in 2001, an increase of 207.5%. This increase is the result of higher production volume. Securitizations totaled \$845.5 million for the nine months ended September 30, 2002, compared to \$898.2 million for the same period last year.

Revenues

Total revenues for the nine months ended September 30, 2002 increased by 107.9% to \$419.6 million, from \$201.8 million for the same period a year ago. This increase was primarily due to a 158.5% increase in gain on sale of loans and a 97.7% increase in interest income earned on loans held for sale, partially offset by a decrease of 11.2% in residual interest income and a 98.7% decrease in servicing income.

Gain on Sale. Gain on sale of loans for the nine months ended September 30, 2002 increased by 158.5% to \$310.4 million from \$120.1 million for the same period a year ago. The increase in gain on sale of loans was the result of higher loan sale volume as well as improved whole loan sale prices. The components of the gain on sale of loans are illustrated in the following table (dollars in thousands):

Table of Contents

	For the Nine Months Ended September 30,	
	2002	2001
Gain from whole loan sale transactions	\$ 380,922	\$ 94,656
Gain from securitization of loans	45,030	48,296
Non-cash gain from servicing asset	4,611	4,938
Cash gain on sale of servicing rights	10,050	4,572
Securitization expenses	(2,706)	(3,820)
Accrued interest	(5,226)	(4,455)
Provision for losses	(34,884)	(8,004)
Fair value adjustment of residual securities	9,555	
Non-refundable loan fees (1)	80,446	47,298
Premiums paid (2)	(67,735)	(19,370)
Origination costs	(83,650)	(41,700)
Hedging losses	(25,992)	(2,335)
	<u>310,421</u>	<u>120,076</u>
Gain on sales of loans	\$ 310,421	\$ 120,076

- (1) Non-refundable loan fees represent points and fees collected from borrowers.
(2) Premiums paid represent fees paid to brokers for wholesale loan originations and purchases.

Interest Income. Interest income increased by 97.7% to \$84.4 million for the nine months ended September 30, 2002, compared to \$42.7 million for the same period in 2001. This increase was the result of higher average loan inventory during the first nine months of 2002. Loan inventory was higher due to increased production volume.

Residual Interest Income. Residual interest income decreased by 11.2% to \$24.6 million for the nine months ended September 30, 2002, from \$27.7 million for the corresponding period in 2001. This decrease was primarily due to the decrease in the average balance of residual interests in securitizations.

Servicing Income. Servicing income decreased to \$135,000 for the nine months ended September 30, 2002, from \$10.3 million for the nine months ended September 30, 2001. This decrease resulted from the sale of \$4.8 billion in mortgage loan servicing rights to Ocwen Federal Bank FSB during the first quarter of 2001, as well as periodic sales of servicing rights to Ocwen since March 2001.

Expenses

Operating expenses increased to \$205.9 million for the nine months ended September 30, 2002, from \$158.7 million for the comparable period in 2001, an increase of 29.7%. Personnel expenses increased to \$101.4 million for the nine months ended September 30, 2002, from \$61.6 million for the same period in 2001, an increase of 64.7% as a result of higher staffing to accommodate higher loan origination and purchase volume. Headcount was 2,271 on September 30, 2002, compared to 1,431 on September 30, 2001, an increase of 58.7%. Interest expense decreased to \$36.2 million for the nine months ended September 30, 2002, from \$43.3 million for the same period in 2001, primarily due to a significant decrease in interest rates on our warehouse and aggregation lines, partially offset by an increase in average outstanding balances. In addition, interest expense was lower in 2002 due to the repayment of our subordinated debt with U.S. Bank and the substantially lower residual financing balances in 2002.

Income Taxes

Edgar Filing: NEW CENTURY FINANCIAL CORP - Form 10-Q

Income taxes increased to \$88.3 million for the nine months ended September 30, 2002, from \$18.4 million for the comparable period in 2001. This increase resulted from a \$170.6 million increase in pretax income, partially

Table of Contents

offset by a 1.3% decrease from 42.6% to 41.3% in the effective tax rate for the nine months ended September 30, 2002. The effective tax rate decreased as a result of our 2002 initiative to structure operations in a more tax-efficient manner.

Three Months Ended September 30, 2002 Compared to Three Months Ended September 30, 2001

Originations and Purchases

We originated and purchased \$3.8 billion in loans for the three months ended September 30, 2002, compared to \$1.8 billion for the three months ended September 30, 2001. Wholesale loan originations and purchases were \$3.3 billion, or 86.1% of total originations and purchases for the three months ended September 30, 2002. Retail loan originations were \$529.4 million, or 13.9%, of total originations and purchases for the three months ended September 30, 2002. For the same period in 2001, wholesale and retail originations and purchases totaled \$1.5 billion, or 82.3%, and \$322.1 million, or 17.7%, respectively, of total originations and purchases.

Loan Sales and Securitizations

Whole loan sales increased to \$3.5 billion for the three months ended September 30, 2002, from \$1.1 billion for the corresponding period in 2001, an increase of 232.3%. This increase resulted from higher production volume and the decision to sell 100% of loans through whole loan sales in the third quarter of 2002. Securitizations totaled \$518.0 million for the three months ended September 30, 2001.

Revenues

Total revenues for the three months ended September 30, 2002 increased by 86.8% to \$166.4 million, from \$89.1 million for the same quarter a year ago. This increase was primarily due to a 109.1% increase in gain on sale of loans, a 20.2% increase in residual interest income, and a 49.6% increase in interest income earned on loans held for sale.

Gain on Sale. Gain on sale of loans for the three months ended September 30, 2002 increased by 109.1% to \$128.4 million, from \$61.4 million for the same period a year ago. The increase in gain on sale of loans was the result of higher loan sale volume as well as improved whole loan sale prices. The components of the gain on sale of loans are illustrated in the following table (dollars in thousands):

Table of Contents

	For the Three Months Ended September 30,	
	2002	2001
Gain from whole loan sale transactions	\$ 167,525	\$ 47,025
Gain from securitization of loans		29,193
Cash gain on sale of servicing rights		2,599
Securitization expenses		(2,311)
Accrued interest		(3,710)
Provision for losses	(4,581)	(2,563)
Fair value adjustment of residual securities	10,268	
Non-refundable loan fees (1)	28,719	18,590
Premiums paid (2)	(30,591)	(9,101)
Origination costs	(32,800)	(16,600)
Hedging losses	(10,139)	(1,725)
Gain on sales of loans	\$ 128,401	\$ 61,397

(1) Nonrefundable loan fees represent points and fees collected from borrowers.

(2) Premiums paid represent fees paid to brokers for wholesale loan originations and purchases.

Interest Income. Interest income increased by 49.6% to \$29.5 million for the three months ended September 30, 2002, compared to \$19.7 million for the same period in 2001. This increase was the result of higher average loan inventory during the third quarter of 2002. Loan inventory was higher due to increased production volume.

Residual Interest Income. Residual interest income increased to \$8.4 million for the three months ended September 30, 2002, from \$7.0 million for the corresponding period in 2001, an increase of 20.2%. This increase was primarily the result of lower accretion rates used on our residual assets during 2001.

Servicing Income. Servicing income decreased to \$73,000 for the three months ended September 30, 2002, from \$810,000 for the three months ended September 30, 2001. This decrease resulted from the sale of \$4.8 billion in mortgage loan servicing rights to Ocwen Federal Bank FSB during the first quarter of 2001, as well as periodic sales of servicing rights to Ocwen since March 2001.

Expenses

Operating expenses increased to \$78.7 million for the three months ended September 30, 2002, from \$60.1 million for the comparable period in 2001, an increase of 31.0%. Personnel expenses increased to \$41.2 million for the three months ended September 30, 2002, from \$24.6 million for the same period in 2001, an increase of 67.8%. This increase was the result of an increase in staff to accommodate the growth in production volume. Headcount was 2,271 on September 30, 2002, compared to 1,431 on September 30, 2001, an increase of 58.7%. Interest expense decreased slightly to \$12.7 million for the three months ended September 30, 2002, from \$14.2 million for the same period in 2001, primarily due to a significant decrease in interest rates on our warehouse and aggregation lines, partially offset by an increase in average outstanding borrowings. In addition, interest expense was lower for the three months ended September 30, 2002 due to the repayment of the subordinated debt and the substantially lower residual financing balances in 2002.

Table of Contents

Income Taxes

Income taxes increased to \$36.2 million for the three months ended September 30, 2002 from \$12.3 million for the comparable period in 2001. This increase resulted from a \$58.7 million increase in pretax income, partially offset by a 1.1% decrease from 42.3% to 41.2% in the effective tax rate. The effective tax rate decreased as a result of our 2002 initiative to structure operations in a more tax-efficient manner.

Liquidity and Capital Resources

We need to borrow substantial sums of money each quarter to originate and purchase mortgage loans. We need separate credit arrangements to hold those loans until we have aggregated pools that we sell through securitizations or whole loan sales.

We use our warehouse and aggregation lines of credit provided by Bank of America, N.A., UBS Warburg Real Estate Securities, CDC Mortgage Capital and Salomon Brothers Realty to finance the actual funding of our loan originations and purchases. After we fund loans on these lines and all loan documentation is complete, we generally transfer the loans to one of our aggregation facilities. We then sell these loans through securitizations or whole loan sales within two to three months and pay down the aggregation facilities with the proceeds.

Before 2001, when we securitized loans we generally needed financing secured by the residual interests that we received in the transaction. The investment bank that underwrote the securitization typically provided this financing. Since the beginning of 2001, as a result of NIM transactions closed concurrently or shortly after with our securitizations, we generally realize net cash proceeds from the combined transactions in an amount similar to what we receive for whole loan sales. Subject to market conditions, we expect to continue to utilize this form of securitization in future periods.

Our credit facilities contain customary covenants including maintaining specified levels of liquidity and net worth, restricting indebtedness and investments and requiring compliance with applicable laws. If we fail to comply with any of these covenants, the lender has the right to terminate the facility and require immediate repayment. In addition, if we default under one facility, it would generally trigger default under our other facilities. The material terms and features of our various credit facilities are as follows:

Bank of America Warehouse and Aggregation Facility. We have a \$500 million repurchase agreement with Bank of America, N.A. that allows both funding of loans and aggregation of loans for up to four months pending their sale or securitization. The one-year committed facility expires in May 2003 and bears interest at either 0.90% or 1.10% above the one-month LIBOR. The advance rate on loans is a maximum of 100% of the outstanding principal balance. At September 30, 2002, the balance outstanding under the Bank of America facility was \$216.3 million.

CDC Warehouse and Aggregation Facility. We have a \$470 million repurchase agreement with CDC Mortgage Capital. The agreement allows for both funding of loan originations and aggregation of loans for up to nine months pending their sale or securitization. The facility expires in March 2003 and bears interest at rates of either 0.95% or 1.25% above the one-month LIBOR. The advance rate on loans is a maximum of 100% of the outstanding principal balance. At September 30, 2002, the balance outstanding under the CDC facility was \$320.9 million.

UBS Warburg Warehouse and Aggregation Facility. We have a \$400 million committed loan purchase agreement with UBS Warburg Real Estate Securities that also allows both funding of loans and aggregation for up to nine months. The two-year committed facility expires in May 2004 and bears interest at rates of either 1.00% or 1.15% above the one-month LIBOR. The advance rate on loans is a maximum of 100% of the outstanding principal balance. At September 30, 2002, the balance outstanding on the facility was \$381.3 million.

Table of Contents

Salomon Aggregation Facility. We have a \$800 million facility with Salomon Brothers Realty, which bears interest at a rate equal to the one-month LIBOR plus 0.90%. This facility expires in December 2002. The maximum advance rate on loans is 101.75% of the outstanding principal balance. At September 30, 2002, the balance outstanding on the facility was \$275.3 million.

Salomon Warehouse Facility. We have a \$150 million repurchase agreement with Salomon Brothers Realty that allows for funding of loan originations. The facility expires in December 2002 and bears interest at a rate equal to one-month LIBOR plus 1.10%. The advance rate on loans is a maximum of 100% of the outstanding principal balance. At September 30, 2002, the balance outstanding under the Salomon warehouse facility was zero.

Salomon Loan Agreement for Delinquent and Problem Loans. We have a \$25 million Master Loan and Security Agreement with Salomon Brothers Realty that is secured by delinquent or problem loans and by properties we obtained in foreclosures. The advance rate on loans is subject to the specific condition of the loans and ranges from 65% to 98% of the fair value of the loan or property. This facility expires in December 2002 and bears interest at a rate equal to the one-month LIBOR plus 2.00%. At September 30, 2002, the balance outstanding on this facility was \$11.7 million.

Morgan Stanley Aggregation Facility. We also have a \$500 million aggregation facility with Morgan Stanley Dean Witter Mortgage Capital. It expires in December 2002 and bears interest at a rate generally equal to the one-month LIBOR plus 1.00%. The advance rate on loans is a maximum of 101.00% of the outstanding principal of the loan. At September 30, 2002, the outstanding balance under this facility was \$156.8 million.

We expect to renew and expand the Salomon Aggregation Facility, the Salomon Warehouse Facility, the Salomon Loan Agreement for Delinquent and Problem Loans and the Morgan Stanley Aggregation Facility prior to their expiration in December 2002. In addition, we expect to increase the UBS Warburg Warehouse and Aggregation Facility from \$400 million to \$750 million before the end of 2002.

Other Borrowings

As of September 30, 2002, the balance of other borrowings was \$8.7 million. This balance includes a non-revolving \$4.9 million line of credit with an affiliate of U.S. Bank that is secured by our furniture and equipment. Advances under this facility are made periodically at the discretion of the lender and bear interest at a fixed rate established at the time of each advance for a term of three years. The remaining balance represents various lease transactions that meet the criteria to be recorded as capital leases.

Residual Cash Flows

We fully repaid the remaining balance on our residual financing during the third quarter of 2002. We anticipate that the residual cash flows will be a significant source of liquidity and working capital for us to support future operations.

Off-Balance Sheet Arrangements

In connection with our loans sold through securitization, as of September 30, 2002, there are \$3.6 billion in loans owned by off-balance sheet trusts. Under generally accepted accounting principles, we have included our residual interests in these loans on our balance sheet. Had these off-balance sheet trusts been included in our consolidated financial statements, total assets and liabilities as of September 30, 2002 would have increased by \$3.3 billion.

Cash Flow

For the nine months ended September 30, 2002, cash flow from operations provided \$199.7 million in cash. Positive cash flow from operations resulted primarily from the focus on a loan sale strategy that optimizes cash flow and from the strong secondary market for loans.

Our loan origination and purchase programs require significant cash investments, including the funding of: (i) fees paid to brokers and correspondents in connection with generating loans through wholesale lending activities, (ii) commissions paid to sales employees to originate loans, and (iii) any difference between the amount funded per loan and the amount advanced under the current warehouse facilities. We also require cash to fund

Table of Contents

ongoing operating and administrative expenses, including capital expenditures and debt service. Our sources of operating cash flow include: (i) the premium advance component of the aggregation facilities, (ii) cash premiums obtained in whole loan sales and securitizations, (iii) mortgage origination income and fees and (iv) cash flows from residual interests in securitizations. Additionally, hedge transactions may result in either positive or negative cash flows, based on changes in the interest rate environment.

Subject to the various uncertainties described above, we anticipate that our liquidity, credit facilities and capital resources will be sufficient to fund our operations for the foreseeable future.

Other Developments

Quarterly Dividend

In September 2002, we declared our fourth consecutive quarterly cash dividend on our common stock at the rate of \$0.05 per share. The dividend was paid on October 29, 2002 to stockholders of record on October 15, 2002. We expect to continue to declare and pay a quarterly dividend. However, any future dividend declaration will be subject to our earnings, financial position, capital requirements, contractual restrictions and other relevant factors.

Stock Repurchase Program

In October 2002, our Board approved the expansion of our Stock Repurchase Program from one million shares to two million shares. As of September 30, 2002, we have repurchased 533,300 shares.

We expect to continue to fund these repurchases with available corporate liquidity. We anticipate that the number of shares to be purchased and the time of the purchase will be based upon the level of cash balances, general business conditions and other factors, including alternative investment opportunities. These purchases may be made in the open market, through block trades or in privately negotiated transactions.

Stock Options

We apply APB Opinion No. 25 to account for stock options. If on January 1, 2002, we had adopted the fair value based method of accounting for an employee stock option or similar instrument provision of Statement of Financial Accounting Standards No. 123, which would require us to expense the cost of stock options over their vesting period, our earnings per share for the nine months ended September 30, 2002 would have been reduced by \$0.04 per share.

Servicing Platform

In October 2002, we reestablished our servicing operations and started boarding loans. As of October 31, 2002, we have boarded 8,405 loans with a total principal balance of \$1.3 billion.

Earnings Guidance

On October 17, 2002, we reaffirmed our guidance of our 2002 diluted earnings per share of \$6.75 - \$6.85. We also announced our earnings per share guidance for 2003 of \$7.25. The 2003 estimate is based upon expected production volume of \$16 billion and a 2.00% operating margin.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We carry interest-sensitive assets on our balance sheet that are financed by interest-sensitive liabilities. Since the interval for re-pricing of the assets and liabilities is not matched, we are subject to interest-rate risk. A sudden, sustained increase or decrease in interest rates would impact our net interest income, as well as the fair value of our residual interests in securitizations. We employ hedging strategies from time to time to manage some of the interest-rate risks inherent in our assets and liabilities. These strategies are designed to create gains when movements in interest rates would cause the value of our assets to decline, and result in losses when movements in interest rates cause the value of our assets to increase.

We measured the sensitivity of the current value of our residual interests to changes in interest rates. Changes in interest rates are defined as instantaneous and sustained parallel interest rate movements in 50 basis point increments in the forward LIBOR curve. We estimated the fair value of our residual interests assuming there would be no changes in interest rates from those at period end. Once we established the base case, we projected cash flows for each of the defined interest rate scenarios. These projections were then compared with the base case to determine the estimated change to the fair value of our residual interests.

The following table summarizes the sensitivity analysis of changes in the fair value of our residual interests as of September 30, 2002 and December 31, 2001:

	Change in fair value(1) as of:	
	September 30, 2002	December 31, 2001
Increase of 100 basis points	(7.2)%	(7.4)%
Increase of 50 basis points	(4.2)%	(3.9)%
Decrease of 50 basis points	4.8%	4.4%
Decrease of 100 basis points	10.1%	8.4%

(1) Change in fair value is measured based on the increase or decrease in value assuming a parallel shift in the forward LIBOR curve only.

At September 30, 2002, we had entered into Euro futures contracts designed to mitigate the interest rate risk in the residual assets. Historically, gains or losses in these contracts have offset the change in residual value as interest rates have changed.

Item 4. Controls and Procedures

Within 90 days prior to the filing date of this report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date we carried out this evaluation.

Table of Contents

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We have previously disclosed our material litigation and regulatory issues in our 2001 Annual Report on Form 10-K, and our Quarterly Reports on Form 10-Q for the first and second quarters of 2002. Below we have provided updates on those matters for which there were material developments during the third quarter of 2002.

Grimes. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in June 2001, we were served with a class action complaint filed by Richard L. Grimes and Rosa L. Grimes against New Century Mortgage Corporation. The action was filed in the U.S. District Court for the Northern District of California, San Francisco Division, and seeks rescission, restitution and damages on behalf of the two plaintiffs, others similarly situated and on behalf of the general public. The complaint alleges a violation of TILA and Business & Professions Code § 17200. Specifically, the complaint alleges that we gave the borrowers the required three-day notice of their right to rescind before the loan transaction had technically been consummated. Our Motion for Summary Judgment was granted on January 25, 2002; the judge held that New Century had not violated TILA and dismissed the 17200 claim without prejudice. Plaintiff filed a notice of appeal; their opening brief was filed on July 1, 2002 and our responsive brief was filed in mid-August, 2002.

Perry. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in July 2001, Charles Perry Jr. filed a class action complaint against New Century Mortgage Corporation and Noreast Mortgage Company, Inc. in the U.S. District Court for the District of Massachusetts. The complaint alleges that certain payments made to mortgage brokers, sometimes referred to as yield spread premiums, violate the federal Real Estate Settlement Procedures Act. The complaint also alleges that we induced mortgage brokers to breach their fiduciary duties to borrowers. The complaint was amended twice to add new plaintiffs, Eugene and Margaret Flood. Plaintiffs filed an Unopposed Motion to Strike Class Allegations on July 23, 2002 which was granted by the court on August 14, 2002.

Smith. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in August 2001, a former employee named Dean Smith filed a class action complaint against New Century Financial Corporation and New Century Mortgage Corporation for alleged unpaid overtime, penalties and damages on behalf of himself and other loan officers. The action is pending in the United States District Court for the Southern District of California, in Santa Ana. We filed our answer in September 2001. Notices to potential class members were sent in early 2002; approximately 50 individuals timely opted in to join the class action. The case was resolved at mediation on July 26, 2002; the court approved the settlement and the case has been dismissed. The amount of the settlement did not have a material adverse effect on our results of operations or financial position.

Barney. As previously disclosed in our Form 10-K for the year ended December 31, 2001, in December, 2001, Sandra Barney filed a class action complaint against New Century Mortgage Corporation in the Circuit Court in Cook County, Chicago, Illinois. The complaint alleges the unauthorized practice of law and violation of the Illinois Consumer Fraud Act for performing document preparation services for a fee by non-lawyers, and seeks to recover the fees charged for the document preparation, compensatory and punitive damages, attorneys' fees and costs. We filed a motion to dismiss in February 2002; the case was then consolidated with other similar cases filed against other lenders. In late August, 2002, the court ordered plaintiffs to dismiss their cases with prejudice; our plaintiff filed her Notice of Appeal on September 1, 2002.

Bernstein. As previously disclosed in our Form 10-Q for the first quarter of 2002, Paul Bernstein filed a class action complaint against New Century Mortgage Corporation in the Circuit Court of Cook County, Chicago, Illinois. The complaint seeks damages for receiving unsolicited advertisements to telephone facsimile machines in violation of the Telephone Consumer Protection Act, 47 U.S.C. § 227, and the Illinois Consumer Fraud Act. We timely removed the case to federal court on May 9, 2002. Plaintiff filed a motion to remand the case to state court on May 13, 2002; additional authorities were filed by the parties in October, 2002 and we await a ruling.

Table of Contents

Overman. In September, 2002, Robert E. Overman & Martin Lemp filed a class action complaint in the Superior Court for the Alameda County, California, against New Century Financial Corporation, New Century Mortgage Corporation, U.S. Bancorp, Loan Management Services, Inc., and certain individuals affiliated with Loan Management Services. The complaint alleges violations of California Consumers Legal Remedies Act, Unfair, Unlawful and Deceptive Business and Advertising Practices in violation of Business & Professions Code Sections 17200 and 17500, Fraud-Misrepresentation and Concealment and Constructive Trust/Breach of Fiduciary Duty and damages including restitution, compensatory and punitive damages, and attorneys' fees and costs. Our response is due in mid-November 2002.

We are also a party to various legal proceedings arising out of the ordinary course of business. Management believes that any liability with respect to our legal actions, individually or in the aggregate, will not have a material adverse effect on our business, results of operation or financial position.

I, Robert K. Cole, certify that:

1. I have reviewed this quarterly report on Form 10-Q of New Century Financial Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

I, Edward F. Gotschall, certify that:

1. I have reviewed this quarterly report on Form 10-Q of New Century Financial Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
