FLEXXTECH CORPORATION NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PREPARATION:

The accompanying unaudited condensed interim financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission for the presentation of interim financial information, but do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. The audited financial statements for the two years ended December 31, 2001 and 2000 was filed on April 16, 2002 with the Securities and Exchange Commission and is hereby referenced. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three-month and nine-month periods ended September 30, 2002 are not necessarily indicative of the results that may be expected for the year ended December 31, 2002.

BASIC AND DILUTED NET LOSS PER SHARE

Net loss per share is calculated in accordance with the Statement of financial accounting standards No. 128 (SFAS No. 128), "Earnings per share". SFAS No. 128 superseded Accounting Principles Board Opinion No.15 (APB 15). Net loss per share for all periods presented has been restated to reflect the adoption of SFAS No. 128. Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

ISSUANCE OF SHARES FOR SERVICE

The Company accounts for the issuance of equity instruments to acquire goods and services based on the fair value of the goods and services or the fair value of the equity instrument at the time of issuance,

Edgar Filing: FLEXXTECH CORP - Form 10QSB

whichever is more reliably measurable.

RECLASSIFICATIONS

For comparative purposes, prior years' consolidated financial statements have been reclassified to conform with report classifications of the current year.

2. RECENT PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 143, "Accounting for Asset Retirement Obligations". SFAS 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. This Statement is effective for financial statements issued for fiscal years beginning after June 15, 2002.

5

SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," was issued in August 2001. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001, and addresses financial accounting and reporting for the impairment or disposal of long-lived assets. This statement supersedes SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," for the disposal of a segment of a business.

In May 2002, the Board issued SFAS No. 145, Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections ("SFAS 145"). SFAS 145 rescinds the automatic treatment of gains or losses from extinguishments of debt as extraordinary unless they meet the criteria for extraordinary items as outlined in APB Opinion No. 30, Reporting the Results of Operations, Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. SFAS 145 also requires sale-leaseback accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions and makes various technical corrections to existing pronouncements. The provisions of SFAS 145 related to the rescission of FASB Statement 4 are effective for fiscal years beginning after May 15, 2002, with early adoption encouraged. All other provisions of SFAS 145 are effective for transactions occurring after May 15, 2002, with early adoption encouraged.

In June 2002, the FASB issued SFAS No. 146 " Accounting for Costs Associated with exit or Disposal Activities." This Statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." This Statement requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under Issue 94-3 a liability for an exit cost as defined, was recognized at the date of an entity's commitment to an exit plan.

Edgar Filing: FLEXXTECH CORP - Form 10QSB

The Company does not anticipate that adoption of above pronouncements will have a material effect on our earnings or financial position.

3. PRINCIPLES OF CONSOLIDATION:

The accompanying consolidated financial statements include the accounts of Flexxtech Corporation (the "Parent"), and its 100% owned subsidiary, Flexxtech Holdings, Inc., collectively referred to as the "Company". Flexxtech Holdings, Inc.'s has a 100% owned subsidiary, Primavera Corporation, a Texas Corporation. All significant inter-company accounts and transactions have been eliminated in consolidation.

6

4. GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles which contemplate continuation of the Company as a going concern. However, the Company has accumulated deficit of \$16,935,158 including a net loss of \$2,700,149 for the period ended September 30, 2002. The continuing losses have adversely affected the liquidity of the Company. The Company faces continuing significant business risks, including but not limited to, its ability to maintain vendor and supplier relationships by making timely payments when due.

In view of the matters described in the preceding paragraph, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain financing and to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management has taken the following steps to revise its operating and financial requirements, which it believes are sufficient to provide the Company with the ability to continue as a going concern. Management devoted considerable effort during the period ended September 30, 2002, towards (i) obtaining additional equity financing through various private placements (ii) reduction of salaries and general and administrative expenses (iii) disposal of some of the non-profitable subsidiaries and (iv) evaluation of its distribution and marketing methods. In that regard, during the nine-month period ended September 30, 2002, the Company disposed off a subsidiary in Texas, which was incurring losses to the Company.

5. INCOME TAXES

No provision was made for Federal income tax since the Company has significant net operating loss carryforwards. Through September 30, 2002, the Company incurred net operating losses for tax purposes of approximately \$16,400,000. The net operating loss carryforwards may be used to reduce taxable income through the year 2017. Net operating loss for carryforwards for the State of California are generally available to reduce taxable income through the year 2007. The availability of the Company's net operating loss carryforwards are subject to limitation if there is a 50% or more positive change in the ownership of the state Company's stock. The provision for income taxes consists of the state

Edgar Filing: FLEXXTECH CORP - Form 10QSB

minimum tax imposed on corporations.

Temporary differences which give rise to deferred tax assets and liabilities at September 30, 2002 comprised of depreciation and amortization and net operating loss carry forward. The gross deferred tax asset balance as of September 30, 2002 was approximately \$6,560,000. A 100% valuation allowance has been established against the deferred tax assets, as the utilization of the loss carryforwards cannot reasonably be assured.

7

The following is a reconciliation of the provision for income taxes at the U.S. federal income tax rate to the income taxes reflected in the Consolidated Statements of Operations:

	September 30, 2002	September 30, 2001
	-----	-----

9. DISPOSAL OF SUBSIDIARY

DISPOSAL IN THE PERIOD ENDED SEPTEMBER 30, 2002:

On August 20, 2002, the Company sold North Texas Circuit Board. North Texas Circuit Board (NTCB), a Texas Company which was 100% owned by Primavera, a 100% owned subsidiary of Flexxtech Holdings, Inc. The Company owns 100% ownership of Flexxtech Holdings, Inc. NTCB manufactures printed circuit boards. Per the Share-purchase agreement between the Company and the purchaser (P), the following facts are related to the transaction:

NTCB executed certain promissory notes payable to a bank in Texas. The notes were secured by the assets and 100% of the outstanding shares of NTCB. In June 2002, the Company signed an agreement with a non-related party to borrow money on various promissory notes, payable in sixty days after the signing of the notes and bearing an interest rate of 7% per annum. The Notes were secured by the properties of NTCB. Total outstanding amount on such promissory notes amounted to \$576,000 at June 30, 2002. Subsequent to June 30, 2002, NTCB borrowed additional amount on promissory notes amounting \$1,122,188. In July 2002, "P" purchased all the right, title and interest of bank in the bank notes amounting \$557,672. "P" also acquired security interest held by bank as collateral. At the date of the agreement, total sum of \$2,255,860 was

Edgar Filing: FLEXXTECH CORP - Form 10QSB

11

owed to "P" by NTCB. Since NTCB was in default in the payments of its obligations, "P" exercised its option under the notes and the security agreements. At the Closing of the transaction, Primavera sold all of the duly issued fully paid capital stock of NTCB in consideration of the amount equal to outstanding debt to "P". It was also, agreed between the parties that "P" will pay 10% of the after tax profit of NTCB to the Company for a period of five years subsequent to the consummation of the transaction. As further consideration to "P", the Company and its subsidiaries released "P" from all debts and obligations otherwise owed by NTCB to the Company. Edgar Filing: FLEXXTECH CORP - Form 10QSB

Joint Venture No. 1 amounting \$76,595.

c) On October 31, 2002, \$2,000,000 in debt owed by the Company to Western Cottonwood Corporation, a related entity, was agreed to be converted to 200 shares of Series A Preferred Stock of the Company.

d) On November 5, 2002 Western Cottonwood Corp was issued 15,000,000 shares of common stock in exchange for \$75,000 in Promissory Notes.

e) On October 29, 2001, the Company acquired 80% of the outstanding Common Shares of W3M, Inc. (dba "Paradigm Cabling Systems"), a privately held California corporation ("Paradigm"), in a stock for stock exchange. Pursuant to the terms of the acquisition, 80% of the outstanding capital stock of Paradigm was transferred to the Company on said date. In exchange, the Company agreed as soon as practical to issue 142.5 shares of a new Series A Convertible Preferred Stock of Flexxtech Corporation (hereinafter the "Series A Preferred"), to the exchanging shareholders of Paradigm.

Paradigm was incorporated in California in May of 1998, under its current corporate name, W3M, Inc. Paradigm is a full service computer cabling, networking and telecommunications integrator contractor, providing networks from stem to stern in house, for larger, medium and smaller industrial, educational and residential complexes.

The Series A Preferred is to be convertible, in whole or in part at the option of the holder, into shares of the Common Stock of the Company. Each one share of Series A Preferred is to be convertible into the number of shares of the Company's Common Stock obtained by dividing \$10,000 by 85% of the average of the lowest three intra day bids for the Company's Common Stock on the primary exchange or public market in what the Company's Common Stock is listed, over the ten trading days immediately preceding the conversion date, and multiplying the result by 120%. Fractional common shares on conversion are rounded to the nearest whole share. The Series A Preferred is to have a liquidation preference equal to \$15,000 per Series A share, after which each share will share on a pro rata basis with the Common Stock, based upon the number of shares into which the Series A Preferred would have been convertible on the date of liquidation, distribution of assets, dissolution or winding up. The Series A Preferred is to also have various other anti-dilution protections.

The Company at its sole discretion, has the option to redeem all or part of the Series A Preferred at a redemption price equal to the greater of \$12,000 per share, or the market value of the Common Stock into which the Series A Preferred is convertible on the date of redemption.

16

Because the Company's Articles of Incorporation do not provide for Preferred Stock, before the Series A Preferred can be authorized and issued, the shareholders of the Company, by majority in capital interest, must adopt amendments to the company's Articles of Incorporation. In the event the Company has not obtained the necessary shareholder approvals amending its Articles to create the class of Series A Preferred Stock, and is unable to issue the required Series A Preferred shares and deliver the certificates evidencing said shares to the Paradigm exchanging shareholders by the close of business at 5 p.m. Pacific Standard Time, on January 31, 2003, then in such event the Paradigm exchanging shareholders' entitlement to Series A Preferred

Edgar Filing: FLEXXTECH CORP - Form 10QSB

Shares converts automatically and without further action on their part, into a right to immediately receive in lieu of said Series A Preferred Stock, that number of shares of the Company's Common Stock to which the Paradigm exchanging shareholders would have been entitled had they been previously issued the Series A Preferred Stock, and then elected on January 31, 2003 to have all of their Series A Preferred Stock converted into the Company's Common Stock in accord with the above described Series A Preferred conversion provisions.

As part of the transaction, the Company agreed to use its best efforts to arrange in the future for an infusion of \$250,000 in additional capital, either as debt or equity or some combination of both, to Paradigm, in order to increase its working capital.

In connection with the acquisition of Paradigm, one of the four existing vacancies on the Board of Directors of the Company was filled by the appointment on September 16, 2002, of the President of Paradigm to the Board of Directors of the Company to fill one of the existing Board vacancies.

For those statements, we assert the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. You should understand that various events could cause those results to differ materially from those expressed in such forward-looking statements: materially adverse changes in economic conditions in the markets that we and our subsidiaries serve; competition from others in the markets and industry segments occupied by us and our subsidiaries; the ability to enter, the timing of entry and the profitability of entering new markets; greater than expected costs or difficulties related to the integration of the businesses acquired by our subsidiaries; and other risks and uncertainties as may be detailed from time to time in our public announcements and SEC filings.

The discussion and financial statements contained herein are for the three months ended September 30, 2002 and September 30, 2001. The following discussion regarding the financial statements of the Company should be read in conjunction with the financial statements of the Company included herewith.

Overview:

Flexxtech Holdings, Inc. is a wholly-owned subsidiary of our Company. At September 30, 2002, the major holding for Flexxtech was Primavera Corporation, the parent company of North Texas Circuit Board (NTCB). On August 20, 2002 NTCB was sold to BC Electronics for the sum of \$2,255,859.99, which was the amount due and owing to BC Electronics by NTCB, such sum being the balance due under the Notes ("Purchaser's Debt"). In addition, Purchaser, as consideration for the Stock of NTCB, shall pay ten percent (10%) of the after tax profit of NTCB to Flexxtech, as the designee of Primavera, for a period of five (5) years. The direct settlement cost and related expenses I settlement of all liabilities of NTCB existing prior to June 19, 2002 will be treated as a reduction in amounts due under said Payments and will be deducted from payments. The five year

Edgar Filing: FLEXXTECH CORP - Form 10QSB

payment period shall begin January 1, 2003 and shall continue through December 31, 2007. Additional Nature, Amount and Payment of Consideration can be viewed in the Share Purchase Agreement, filed on Form 8-K on September 19, 2002 and amended and filed on Form 8K-A on October 28, 2002.

Subsequent to September 30, 2002, we acquired 80% of W3M, Inc. (dba Paradigm Cabling Systems), the sole business of the Company as of November 1, 2002, became the business carried on by its 80%-owned subsidiary, Paradigm.

Paradigm was incorporated in California in May of 1998, under its current corporate name, W3M, Inc. It is a full service computer cabling, networking and telecommunications integrator contractor, providing networks from stem to stern in house, for larger, medium and smaller industrial, educational and residential complexes. During the 9-1/2 months through October 14, 2002, Paradigm booked in excess of \$1,000,000 in sales of products and services.

18

We continue to raise money for our operations and those of Paradigm. Funds are being raised on private placements pursuant to Regulation D, Rule 506, as amended and Regulation S, as amended.

While there is no assurance that we will be successful in raising additional capital, we are actively seeking private equity financing to assure that we will be capable of financing the continuation of our business. Any additional capital raised above and beyond what we need as our monthly expenditure would be used in increasing marketing and sales efforts and future investments and acquisitions. Should we fail to raise additional funding, we will be forced to curtail our growth, both through internal development and through investments and acquisitions. As only a holding company to date, we do not generate our own revenues, but we rely on additional financing to pay our operating expenses.

REGULATION D

Azad Capital	25,000	Adjustment from Stock Transfer Agent
--------------	--------	--------------------------------------

We continue to offer the Shares to persons who are "accredited investors," as defined under Rule 506 of Regulation D of the Securities Act of 1933 as amended (the "Act"). An additional thirty-five (35) non-accredited investors may participate in the Offering. Accredited investors must have a net worth or joint net worth with their spouse of \$1,000,000.00 or more, or have individual income in excess of \$200,000.00 (or \$300,000.00 joint income with a spouse) in each of the two most recent years and who reasonably expects an income of \$200,000.00 (or \$300,000.00 joint income with a spouse) in the current year.

23

The Offering is being conducted by us as a self underwriting. Shares in the Offering are available only through us. We have the option to extend the Offering indefinitely. We are making the Offering on a best efforts basis. This means that we have not established any minimum amount of proceeds that must be generated in the Offering. Accordingly, investors who subscribe for Shares in the earlier stages of the Offering will assume a substantially greater risk than investors who subscribe for Shares later in the Offering.

Even if we sell a substantial amount of the Shares covered by the Offering and raise maximum proceeds, such proceeds may be insufficient to implement our business plan. There is no guarantee that the funds generated by the Offering will be sufficient to cover the financial requirements for our growth.

We have arbitrarily set the price of the Shares in the Offering at a discount to the current trading market. The price of the Shares is based upon the amount of capital that we desire to raise and the percentage of our outstanding capital stock that we are willing to sell at this point in our development. We have established the price of the Shares and the value of our company without an independent appraisal. The price has no relationship to book value per share, current earnings or other generally accepted measurements of value. The Offering may involve immediate and substantial dilution.

Liquidity and Capital Resources

The Company must continue to raise capital to fulfill its plan. If the Company is unable to raise any additional capital its operations will be curtailed and it may have to liquidate its current investments for operating capital. Substantial Indebtedness

Edgar Filing: FLEXXTECH CORP - Form 10QSB

We have a substantial amount of indebtedness. As a result of our level of debt and the terms of our debt instruments:

- our vulnerability to adverse general economic conditions is heightened;
- we will be required to dedicate a substantial portion of our cash flow from operations to repayment of debt, limiting the availability of cash for other purposes;
- we are and will continue to be limited by financial and other restrictive covenants in our ability to borrow additional funds, consummate asset sales, enter into transactions with affiliates or conduct mergers and acquisitions;
- our flexibility in planning for, or reacting to, changes in its business and industry will be limited; o we are sensitive to fluctuations in interest rates because some of our debt obligations are subject to variable interest rates; and

25

- our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes may be impaired.

Our ability to pay principal and interest on our indebtedness and to satisfy our other debt obligations will depend upon our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, some of which are beyond our control. If we are unable to service our indebtedness, we will be forced to take actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing our indebtedness, or seeking additional equity capital. There is no assurance that we can effect any of these remedies on satisfactory terms, or at all.
