ITEM 9. INFORMATION FURNISHED UNDER ITEM 12 (RESULTS OF OPERATIONS AND FINANCIAL CONDITION).

The information contained in this Item 9 of this Current Report is being furnished pursuant to "Item 12. Results of Operations and Financial Condition" of Form 8-K in accordance with SEC Release Nos. 33-8216; 34-47583 (March 27, 2003).

The information in this Current Report is being furnished and shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. The information in this Current Report shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended.

On May 6, 2003, the registrant issued an earnings release announcing its financial results for the quarter ended March 31, 2003. A copy of the earnings release is attached as Exhibit 99.1.

Exhibit 99.1 to the report may contain a "non-GAAP financial measure" as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended. The possible non-GAAP financial measure is "managed receivables." This possible non-GAAP financial measure is discussed below, including the most directly comparable financial measure calculated and presented in accordance with Generally Accepted Accounting Principles in the United States ("GAAP"), a reconciliation of managed receivables to the most directly comparable GAAP financial measure, and the reasons why the Company believes the presentation of managed receivables provides useful information to management and to investors. Managed receivables should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.

On page 1 of the earnings release included in Exhibit 99.1, the Company indicated that managed receivables were \$595.6 million at March 31, 2003. The most directly comparable financial measure calculated and presented in accordance with GAAP to the managed receivables measure is finance receivables on the consolidated balance sheet. The managed receivables measure also includes (i) the finance receivables held by unconsolidated subsidiaries off balance sheet pursuant to statement on financial accounting standards No. 140 and (ii) repossessed vehicles included in other assets in the Company's balance sheet.

The following table reconciles the Company's finance receivables, prepared on the basis of GAAP, to managed receivables as of March 31, 2003:

	March 31, 2003
	(in millions)
Finance receivables per balance sheet	\$ 81.7
Finance receivables held by unconsolidated subsidiaries	511.9
Repossessed vehicles included in other assets per balance sheet	2.0

	\$ 595.6
	=====

The managed receivables measure is useful to management and investors because it provides a basis for estimating (i) the Company's servicing fee revenue and (ii) the Company's servicing personnel requirements. The managed receivables measure is primarily used by investors and analysts, for those purposes.
