INDEPENDENT AUDITORS' REPORT

To the Board of Directors
VISIJET, INC.
(A Development Stage Company)
Irvine, California

We have audited the accompanying balance sheet of VisiJet, Inc. (a development stage company) as of December 31, 2002, and the related statements of operations, shareholders' deficit and cash flows for the year then ended and for the period from February 2, 1996 (inception) to December 31, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of VisiJet, Inc. for the period from February 2, 1996 (inception) to December 31, 2001, before the restatement described in Note 10 of the 2002 financial statements, were audited by other auditors whose report dated October 25, 2002, except Note 10, which is November 12, 2002, expressed an unqualified opinion.

Edgar Filing: VISIJET INC - Form 8-K/A

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of VisiJet, Inc. (a development stage company) as of December 31, 2002, and the results of its operations and its cash flows for the year then ended and for the period from February 2, 1996 (inception) to December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

We also audited the adjustments described in Note 10 that were applied to restate the financial statements for the period from February 2, 1996 (inception) to December 31, 2001. In our opinion, such adjustments are appropriate and have been properly applied.

As discussed in Note 1 to the financial statements, VisiJet, Inc. (a development stage company) has reported accumulated losses during the development stage aggregating \$5,817,067 and without additional financing, lacks sufficient working capital to fund operations beyond May 2003, which raises substantial doubt about its ability to continue as a going concern. Management's plans as to these matters are described in Note 1. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

NOTE 1 - NATURE OF OPERATIONS

VisiJet, Inc. (the Company), a California corporation in the development stage, was incorporated on February 2, 1996, to develop and distribute medical products. The Company is developing a line of surgical equipment for use in the field of ophthalmology based on waterjet technology. Potential customers include physicians, surgical centers and hospitals.

Prior to 1999, the Company was a wholly owned subsidiary of SurgiJet, Inc. In May 1999, the Company spun its operations off from SurgiJet, Inc. SurgiJet, Inc. distributed shares of VisiJet, Inc. common stock to its shareholders. Upon the completion of this distribution, SurgiJet, Inc. had no ownership interest in VisiJet, Inc. Certain operating assets and liabilities were assumed by VisiJet, Inc. in connection with this spin-off.

The Company is in the development stage and its efforts through December 31, 2002, have been principally devoted to organizational activities, raising capital and research and development efforts. Management intends to continue developing and testing its waterjet technologies. The Company received approval in October 2000 from the Food and Drug Administration (FDA) for one of its products. To date, the Company has not received any revenues from product sales.

GOING CONCERN

The Company has incurred net operating losses since inception, has generated no revenue, and has working capital and stockholders' deficits. The Company is likely to incur substantial and increasing operating losses as it continues its research and development efforts until such time, if ever, as product sales, royalties, license and development and other fees can generate sufficient revenue to fund its continuing operations. The Company's future capital requirements will depend on many factors, including but not limited to the Company's ability to successfully market its waterjet technology to third parties, overall product development costs including the cost of clinical trials and competing technological and market developments.

MERGER

On February 11, 2003, the Company completed its pending merger with Ponte Nossa Acquisition Corp., ("PNAC"). As a result of this transaction, the Company became a wholly owned subsidiary of PNAC. Since this transaction resulted in the shareholders of the Company acquiring control of PNAC, for financial reporting purposes the business combination was accounted for as a recapitalization of PNAC (a reverse acquisition with the Company as the accounting acquirer). Subsequently, PNAC changed its name to VisiJet, Inc.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

RESEARCH AND DEVELOPMENT COSTS

Research and development costs are charged to expense as incurred. Certain corporate overhead expenses, such as professional fees, salaries, rent and travel are allocated to research and development based on estimates made by management.

VISIJET, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

STOCK-BASED COMPENSATION

The Company accounts for equity instruments issued to employees for services based on the fair value of the equity instruments issued and accounts for equity instruments issued to other than employees based on the fair value of the consideration received or the fair value of the equity instruments, whichever is more reliably measurable. The Company accounts for stock based compensation in accordance with SFAS 123, "Accounting for Stock-Based Compensation." The provisions of SFAS 123 allow companies to either expense the estimated fair value of stock options or to continue to follow the intrinsic value method set forth in APB Opinion 25, "Accounting for Stock Issued to Employees" (APB 25) but disclose the pro forma effects on net income (loss) had the fair value of the options been expensed. The Company has elected to continue to apply APB 25 in accounting for its stock option incentive plans.

DEPRECIATION

Depreciation of property and equipment is computed using the straight-line method over estimated useful lives ranging from three to five years.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews long-lived assets and certain identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

RECLASSIFICATIONS

Certain reclassifications have been made to the financial statements of the prior year and for the period February 2, 1996 (inception) to December 31, 2001 in order to conform to current year presentation.

Edgar Filing: VISIJET INC - Form 8-K/A

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES

The Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141, BUSINESS COMBINATIONS and SFAS No. 142, GOODWILL AND OTHER INTANGIBLE ASSETS. SFAS No. 141 provides guidance on the accounting for a business combination at the date a business combination is completed. The statement requires the use of the purchase method of accounting for all business combinations initiated after June 30, 2001, thereby eliminating the use of the pooling-of-interests method. The Company adopted SFAS No. 141 on July 1, 2001. The adoption did not have an effect on the financial statements. SFAS No. 142 provides guidance on how to account for goodwill and intangible assets after an acquisition is completed. The most substantive change is that goodwill will no longer be amortized but instead will be tested periodically for impairment. The Company adopted SFAS No. 142 as of the beginning of fiscal 2002 and the effect of adoption did not have an effect on the financial statements.

In June 2001, the Financial Accounting Standards Board issued SFAS No. 143, ACCOUNTING FOR ASSET RETIREMENT OBLIGATIONS. SFAS No. 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long lived assets and the associated asset retirement costs. The Company is currently analyzing this statement and has not yet determined its impact on the financial statements. This Statement will be effective for fiscal 2003.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144, ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS, which replaces SFAS No. 121, ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS AND FOR LONG-LIVED ASSETS TO BE DISPOSED OF. Although SFAS No. 144 retains the basic requirements of SFAS No. 121 regarding when and how to measure an impairment loss, it provides additional implementation guidance. SFAS No. 144 also supercedes the provisions of APB Opinion No. 30, Reporting Results of Operations, pertaining to discontinued operations. Separate reporting of discontinued operations is still required, but SFAS No. 144 expands presentation to include a component of an entity, rather than strictly a business segment. The

Edgar Filing: VISIJET INC - Form 8-K/A

Company is currently analyzing this statement and has not yet determined its impact on the financial statements. This statement will be effective for fiscal 2003.

In April 2002, the Financial Accounting Standards Board issued SFAS No. 145, RESCISSION OF FASB STATEMENTS NO.4, 44, 64, AMENDMENT OF FASB NO. 13, AND TECHNICAL CORRECTIONS. Among other provisions, SFAS No. 145 rescinds SFAS No.4, REPORTING GAINS AND LOSSES FROM

9

VISIJET, INC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

EXTINGUISHMENT OF DEBT. Accordingly, gains or losses from extinguishment of debt shall not be reported as extraordinary items unless the extinguishment qualifies as an extraordinary item under the criteria of APB No. 30. Gains or losses from extinguishment of debt that do not meet the criteria of APB No. 30 should be reclassified to income from continuing operations in all prior periods presented. This statement will be effective for fiscal 2003. The Company does not expect the adoption of SFAS 145 to have a material impact on its financial position or results of operations.

In June 2002, the FASB issued SFAS No. 146, ACCOUNTING FOR COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES. SFAS No. 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Examples of costs covered by the standard include lease termination costs and certain employee severance costs that are associated with a restructuring, discontinued operation, plant closing, or other exit or disposal activities. SFAS No. 146 is effective prospectively for exit or disposal activities initiated after December 31, 2002, with earlier adoption encouraged. The Company elected not to adopt the provisions of SFAS No. 146 until the adoption date and since there are no planned exit or disposal activities for the periods after the adoption date, management does not believe that the adoption of SFAS No. 146 will have a material impact on the financial statements.

The Emerging Issues Task Force "EITF" recently reached a consensus on its tentative conclusions for EITF 00-21, REVENUE ARRANGEMENTS WITH MULTIPLE DELIVERABLES. EITF 00-21 provides accounting guidance for customer solutions where delivery or performance of products, services and/or performance may occur at different points in time or over different periods of time. Companies are required to adopt this consensus for fiscal periods beginning after June 15, 2003. The Company believes the adoption of EITF 00-21 will not have a material impact on the Company's financial position, results of operations, or liquidity.

In November 2002, FASB issued FASB Interpretation No. 45 GUARANTOR'S ACCOUNTING AND DISCLOSURE REQUIREMENTS FOR GUARANTEES, INCLUDING INDIRECT GUARANTEES OF INDEBTEDNESS OF OTHERS ("FIN 45"). FIN 45 elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain

Edgar Filing: VISIJET INC - Form 8-K/A

guarantees that it has issued. FIN 45 also clarifies that a guarantor is required to recognize a liability for the fair value, or market value, of the obligation undertaken in issuing a guarantee at the inception of the guarantee. The provisions of FIN 45 relating to liability recognition do not apply to certain obligations such as product warranties and guarantees accounted for as derivatives. The initial recognition and measurement provisions apply on a prospective basis to guarantees issued or modified subsequent to December 31, 2002. The disclosure requirements of FIN 45 are effective for interim or annual financial statement periods ending after December 15, 2002. The Company does not expect the adoption of the recognition and measurement provisions of FIN 45 will have a significant impact on its financial position or results of operations.

In December 2002, FASB issued SFAS No. 148, ACCOUNTING FOR STOCK-BASED COMPENSATION, TRANSITION AND DISCLOSURE ("SFAS 148"). SFAS 148 amends the disclosure requirements of SFAS No. 123 "Accounting for Stock-Based Compensation" ("SFAS 123") to require prominent

(A DEVELOPMENT STAGE COMPANY)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

disclosures in both interim and annual financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS 148 also amends SFAS 123 to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. The Company will commence quarterly footnote disclosure of the fair value based method of accounting for stock-based employee compensation beginning in the first quarter ending March 31, 2003. As the Company has decided not to voluntarily adopt the SFAS 123 fair value method of accounting for stock-based employee compensation, the new transition alternatives of SFAS 148 will not have a material impact on its financial position or results of operations.

On January 17, 2003, the FASB issued FASB Financial Interpretation No. 46, CONSOLIDATION OF VARIABLE INTEREST Entities which requires extensive disclosures (including disclosures that are applicable to December 31, 2002 financial statements) and will require companies to evaluate variable interest entities created after January 31, 2003 and existing entities to determine whether to apply the Interpretation's consolidation approach to them. Companies must apply the Interpretation to entities with which they are involved if the entity's equity has specified characteristics. If it is reasonably possible that a company will have a significant variable interest in a variable interest entity at the date the Interpretation's consolidation requirements become effective, the company must disclose the nature, purpose, size and activities of the variable interest entity and the consolidated enterprise's maximum exposure to loss resulting from its involvement with the variable interest entity in all financial statements issued after January 31, 2003 (as well as December 31, 2002 financial statements) regardless of when the variable interest entity was created. Since the Company has no interest in any variable interest

Edgar Filing: VISIJET INC - Form 8-K/A

entity, the Company believes that the adoption of this interpretation will not have a material impact on its financial position or results of operations.

NOTE 3 - PROPERTY AND EQUIPMENT

At December 31, property and equipment consist of:
