**TARA GOLD RESOURCES CORP. AND SUBSIDIARIES**

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

**Note 5.**

**Short-term convertible debt, net and non-convertible debt**

In May 2005, the Company entered into a short-term convertible debt agreement with an independent third party for \$15,000 and in July 2005 for \$10,000 (for a total of \$25,000). The debt carries simple interest of 6% per annum from the date of advance and the debt, plus any accrued interest, may be converted into common stock of the Company at \$0.03 per share at the option of the holder for one year from the date of advance. After the conversion rights to this debt expired the debt holder attempted to convert his notes but was advised by the Company that his conversion rights had expired. Principle and interest have not been paid to date.

In January 2007, the Company filed suit against the debt holder from its May 2005 convertible debt issuance. After the conversion feature expired, the debt holder attempted conversion of the debt to shares. The Company is seeking a ruling that there are no shares owed this debt holder.

In June 2005, the Company entered into a short-term convertible debt agreement with an independent third party for \$5,000. The debt carries simple interest of 8% per annum from the date of advance and the debt, plus any accrued interest, may be converted into common stock of the Company at \$0.03 per share at the option of the holder for one year from the date of advance. The debt, plus accrued interest, was converted to common stock in 2006.

In June 2005, the Company entered into a short-term convertible debt agreement with an independent third party for \$20,000. The debt does not carry a stated interest amount, but the debt, plus any agreed upon interest, may be converted into common stock of the Company at an effective rate of \$0.04 per share at the option of the holder. The debt, plus accrued interest, was converted to common stock in 2006.

The Company recognized \$31,883 in discount on debt due to the beneficial conversion feature of the debt described above. As of September 30, 2005, the Company had accreted \$9,527 of the debt discount as additional interest for the debt described above.

In June 2005, the Company also entered into short-term a debt agreement with an independent third party for \$5,000 that was not convertible. The Company added to this debt \$12,000 in July 2005. The total debt of \$17,000, plus accrued interest of \$200, was repaid in July 2005.

**Note 6. Discontinued Operations**

In 2005, the Company determined that its oil and gas properties, primarily in Texas, were not providing the return on investment necessary to achieve a satisfactory growth rate. We have presented these assets as of December 31, 2004 in these financial statements as held for sale. In August 2005, the Company entered into an agreement to sell its working interest in the Corsicana Filed Project for consideration of \$175,000 which was reduced

for early payment to \$165,000. All proceeds from the sale were received by September 30, 2005; there are no other expenditures, other contingent liabilities or activities are expected for this property.

Revenue since inception for the property above and the property disclosed in Note 7 below, totaled \$32,418 as of September 30, 2005 with expenses since inception of \$12,147. Loss on the disposal totaled \$14,262 as of September 30, 2005.

The resulting income from operations of these discontinued properties, adjusted for the total loss on the disposal, are pre-tax as the Company has reoccurring net losses and determined that there would not be an effective tax result.

**Note 7. Subsequent Events**

In January 2005 the Company paid \$31,700 for a 45% working interest in property called the Hill Lease . In November 2005 the Company entered into an agreement to sell its interest in the Hill Lease for \$37,000. All proceeds from the sale were received by November 30, 2005. There are no other expenditures, other contingent liabilities or activities are expected for this property.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATION**

In March 2002 Tara Gold s discontinued its software development business and was inactive until early 2004 when it began acquiring and developing oil and gas properties. In 2005 Tara Gold sold its oil and gas properties after it determined that these properties were not economical.

In May 2005 Tara Gold began acquiring mining properties. General and administrative expenses increased during the quarter ended June 30, 2005 as a result of this activity. As of May 15, 2007 Tara Gold had an interest in eleven mining properties in Mexico, including three properties owned by Tara Minerals, a subsidiary of Tara Gold.

During the nine months ended September 30, 2005 and 2004 Tara Gold did not have any revenues.

As of May 15, 2007 Tara Gold did not have any off balance sheet arrangements.

Tara Gold anticipates that its capital requirements for the twelve months ending December 31, 2007 will be:

Payments for mining properties

\$ 300,000

Mining exploration and development

\$1,000,000

General and administrative expenses

\$ 700,000

Total

\$2,000,000

The capital requirements shown above do not include any capital required by Tara Minerals, Tara Gold's subsidiary.

Tara Gold does not anticipate that it will need to hire any additional employees during the twelve month period ending December 31, 2007.

Tara Gold does not have any commitments or arrangements from any person to provide Tara Gold with any additional capital. If additional financing is not available when needed, Tara Gold may continue to operate in its present mode or it may need to cease operations.

**ITEM 3.**

**CONTROLS AND PROCEDURES**

Francis Richard Biscan, Jr., Tara Gold's President and Chief Executive Officer and Clifford A. Brown Tara Gold's Principal Financial and Accounting Officer, have evaluated the effectiveness of Tara Gold's disclosure controls and procedures as of the end of the period covered by this report and in their opinion, Tara Gold's disclosure controls and procedures ensure that material information relating to Tara Gold is made known to them by others within those entities, particularly during the period in which this report is being prepared, so as to allow timely decisions regarding required disclosure. To the knowledge of Mr. Biscan and Mr. Brown there has not been any change in Tara Gold's internal controls over financial reporting during the quarter ended September 30, 2005 that has materially affected, or is reasonably likely to materially affect, Tara Gold's controls.
