SCHEDULE XIV

NOTES TO FINANCIAL STATEMENTS

INSTRUCTIONS: The space below is provided for important notes regarding the financial statements or any account thereof. Furnish particulars as to any significant contingent assets or liabilities existing at the end of the year. Notes relating to financial statements shown elsewhere in this report may be indicated here by reference.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Organization

FirstEnergy Service Company (the Company or FECO) is a wholly-owned subsidiary of FirstEnergy Corp.(FirstEnergy), a public utility holding company.

Merger

On October 15, 2002, FirstEnergy filed with the Securities & Exchange Commission (SEC) requesting authorization to consolidate all common corporate services under FECO, to occur not later than June 1, 2003. On June 1, 2003, GPU Service, Inc. (GPUS) merged into FECO. Personnel of GPUS who provided corporate services to associate companies were

Edgar Filing: FIRSTENERGY CORP - Form U-13-60

transferred to and became employees of FECO. Certain employees who provided services only to one Utility Subsidiary were transferred from GPUS to the appropriate Utility Subsidiary.

Regulation and Basis of Accounting

As a subsidiary of FirstEnergy Corp., FECO is subject to regulation by the SEC under the Public Utility Holding Company Act of 1935 (1935 Act).

The Company follows the Uniform System of Accounts for Mutual and Subsidiary Service Companies prescribed by the SEC as amended effective January 1, 1980.

The Company has no earnings since it primarily renders services at cost to its parent company, FirstEnergy Corp. and other affiliates.

Use of Estimates

The financial statements are prepared in conformity with accounting principles generally accepted in the United States (GAAP) which requires management to make periodic estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

ANNUAL REPORT OF FIRSTENERGY SERVICE COMPANY

For the Year Ended December 31, 2003

SCHEDULE XIV

NOTES TO FINANCIAL STATEMENTS

INSTRUCTIONS: The space below is provided for important notes regarding the financial statements or any account thereof. Furnish particulars as to any significant contingent assets or liabilities existing at the end of the year. Notes relating to financial statements shown elsewhere in this report may be indicated here by reference.

Operating Revenues and Expenses

Services rendered to both affiliated and unaffiliated companies are provided at cost. The charges for services include no compensation for the use of equity capital. The cost of services are determined on a direct charge basis to the extent practicable and where not practicable, on a reasonable basis of allocation for indirect costs.

Edgar Filing: FIRSTENERGY CORP - Form U-13-60

Income Taxes

The Company is included in the consolidated federal income tax return with FirstEnergy Corp. and its subsidiaries. The Company records income taxes in accordance with the liability method of accounting. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. Investment tax credits, which were deferred when utilized, are being amortized over the recovery period of the related property. Deferred income tax liabilities related to tax and accounting basis differences and tax credit carry-forward items are recognized at the statutory income tax rates in effect when the liabilities are expected to be paid.

Property, Equipment and Depreciation

Prop Property and equipment are recorded at cost. Depreciation is provided on a straight-line basis at various rates over the estimated lives of property included in plant in service (ranging from 2.6% to 3.0%).

2. SERVICE AGREEMENT

The Company has entered into agreements under which it renders services at cost to FirstEnergy Corp. and its subsidiaries. The Company's services include general executive, administrative services, business development, call center, claims, communications, controllers, corporate and shareholder services, corporate affairs and community involvement, credit management, energy delivery and customer service, economic development, enterprise risk management, governmental affairs, human resources, industrial relations, information services, insurance services, internal audit, investment management, investor relations, legal, performance planning, rates and regulatory affairs, real estate, supply chain, transmission & distribution technical services, treasury and workforce development.

NOTES TO FINANCIAL STATEMENTS

INSTRUCTIONS: The space below is provided for important notes regarding the financial statements or any account thereof. Furnish

Edgar Filing: FIRSTENERGY CORP - Form U-13-60

particulars as to any significant contingent assets or liabilities existing at the end of the year. Notes relating to financial statements shown elsewhere in this report may be indicated here by reference.

3. PENSION AND OTHER POSTRETIREMENT BENEFIT PLANS

The FirstEnergy System companies, including FECO, participate in a noncontributory defined benefit pension plan that covers substantially all of its employees. The trustee plans provide defined benefits based on years of service and compensation levels.

FirstEnergy provides a minimum amount of noncontributory life insurance to retired employees in addition to optional contributory insurance. Health care benefits, which include certain employee contributions, deductibles and copayments, are also available to retired employees, their dependents and under certain circumstances, their survivors. The Company recognizes the expected cost of providing other postretirement benefits to employees and their beneficiaries and covered dependents from the time employees are hired until they become eligible to receive those benefits.

4. NOTES RECEIVABLE/NOTES PAYABLE

FECO administers the FirstEnergy Utility and Nonutility Money Pool. The money pool is reported on FECO with a corresponding intercompany receivable/payable to the appropriate company. The Money Pool balance on FECO at any point in time primarily represents timing differences between the disbursement of funds from the money pool and the funds clearing the bank. An adjustment is not made to the appropriate company until the funds have cleared. Under the Utility Money Pool agreement, short-term funds are available from the following sources for short-term loans to the Utility Subsidiaries from time to time: (1) surplus funds in the treasuries of the Utility Money Pool participants other than FirstEnergy; (2) surplus funds in the treasury of FirstEnergy; and (3) proceeds from bank borrowings by Utility Money Pool participants the Utility Subsidiaries for loan to the Utility Money Pool. Utility Money Pool participants that borrow would borrow pro rata from each company that lends, in the proportion that the total amount loaned by each such lending company bears to the total amount then loaned through the Utility Money Pool.

The Nonutility Money Pool is operated on the same terms and conditions as the Utility Money Pool, except that FirstEnergy funds made available to the two pools are made available to the Utility Money Pool first and thereafter to the Nonutility Money Pool.

The interest rate charged for the Utility Money Pool and the Nonutility Money Pool at December 31, 2003 were 1.6529% and 1.44162%, respectively. Rates are calculated as outlined in the June 30, 2003 FirstEnergy Corp. order on intrasystem financing and related transactions. Loan balances under the Money Pool agreement as of December 31, 2003 are as follows (dollars in thousands):

METHODS OF ALLOCATION -----

1. Multiple Factor - All

- A. FirstEnergy will bear 5% of these Indirect Allocations.
- B. A subsequent allocation step will then occur. Among the Utility Subsidiaries, allocations will be based upon the "Multiple Factor - Utility" method. Among the Non-Utility Subsidiaries, allocations will be based upon the "Multiple Factor - Non-Utility" method.

2. Multiple Factor - Utility

Based on the sum of the weighted averages of the following factors:

- A. Gross transmission and/or distribution plant
- B. Operating and maintenance expense excluding purchase power and fuel costs
- C. Transmission and/or distribution revenues, excluding transactions with affiliates

3. Multiple Factor - Non-Utility

Based upon the total assets of each Non-Utility Subsidiary, including the generating assets under operating leases from the Utility Subsidiaries.

4. Multiple Factor - Utility and Non-Utility

- A. First assigned a distribution ratio that is in proportion to the Indirect Costs based on FirstEnergy's equity investment in the respective groups.
- B. Among the Utility Subsidiaries, allocations will be based upon the "Multiple Factor - Utility" method. Among the Non-Utility Subsidiaries, allocations will be based upon the "Multiple Factor - Non-Utility" method.

5. Direct Charge Ratio

The ratio of direct charges for a particular product or service to an individual Subsidiary as a percentage of the total direct charges for a particular product or service to all Subsidiaries benefiting from such services. Indirect Costs are then allocated to each Subsidiary based on the calculated ratios.

6. Number of Customers Ratio

Based on the number of Utility customers for the respective Utility Subsidiary receiving the product or service divided by the total number of Utility customers.

7. Number of Shopping Customers Ratio

Based on the number of shopping customers for the respective Utility
Subsidiary receiving the product or service divided by the total
number of shopping customers.
