Notes to Condensed Financial Statements March 31, 2005

PRELIMINARY NOTE

The accompanying condensed financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These interim financial statements include all adjustments, which in the opinion of management, are necessary in order to make the financial statements not misleading. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations in the period ending March 31, 2005, or since before approximately 1989. The Company intends to continue to seek out the acquisition of assets, property or business that may be beneficial to the Company and its stockholders.

The Company's only foreseeable cash requirements during the next 12 months will relate to maintaining the Company in good standing in the State of Utah, keeping its reports "current" with the Securities and Exchange Commission or the payment of expenses associated with reviewing or investigating any potential business venture. Management does not anticipate that the Company will have to raise additional funds during the next 12 months, however, if additional moneys

are needed, they may be advanced by management or principal stockholders as loans to the Company. Because the Company has not identified any such venture as of the date of this Report, it is impossible to predict the amount of any such loan. However, any such loan will not exceed \$25,000 and will be on terms no less favorable to the Company than would be available from a commercial lender in an arm's length transaction. As of the date of this Report, the Company has not begun seeking any acquisition.

Results of Operations.

The Company has had no operations during the quarterly period ended March 31, 2005, or since on or before approximately 1989. During the quarterly period covered by this Report, the Company received no revenue and incurred expenses of \$1,541, stemming from general and administrative expenses.

Liquidity.

At March 31, 2005, the Company had total current assets of \$0 and total liabilities of \$14,711.

An evaluation was performed under the supervision and with the participation of the Company's management, including the President and Treasurer, regarding the effectiveness of the design and operation of the Company's disclosure controls and procedures within 90 days before the filing date of this quarterly report. Based on that evaluation, the Company's management, including the President and Treasurer, concluded that the Company's disclosure controls and procedures were effective.
