Stockholders are entitled to one vote per share.

Shares of Common Stock represented in person or by proxy (including shares which abstain or do not vote for any reason with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum is present at the Annual Meeting. The affirmative vote of the holders of a plurality of the shares of Common Stock present or represented and voting at the Annual Meeting is required for the election of the Class I Directors. The affirmative vote of the holders of a majority of the shares of Common Stock present or represented and voting at the Annual Meeting is required to ratify the selection of PricewaterhouseCoopers LLP as the Company's independent accountants for the current fiscal year.

Shares that abstain from voting as to a particular matter, and shares held in "street name" by brokers or nominees who indicate on their proxies that they do not have discretionary authority to vote such shares as to a particular matter ("broker non-votes"), will not be counted as votes in favor of such matter, and will also not be counted as votes cast or shares voting on such matter. 1998 Stock Option Plan

The Company's 1998 Stock Option Plan was adopted by the Company's Board of Directors in December 1998 and provides for the grant of non-statutory stock options to employees for up to 1,500,000 shares of the Company's Common Stock. As of December 31, 2002, there were 966,880 shares reserved for issuance upon exercise of outstanding options and 247,596 shares available for future grant under the plan.

1998 Avid-Softimage Plan

The Company's 1998 Avid-Softimage Stock Option Plan was adopted by the Company's Board of Directors in June 1998 in conjunction with the Company's acquisition of Softimage Inc. and provides for the grant of non-statutory stock options for up to 2,000,000 shares of the Company's Common Stock. As of December 31, 2002, there were 156,359 shares reserved for issuance upon exercise of outstanding options under the plan. No additional shares will be issued under this plan.

Amended and Restated 1999 Stock Option Plan

The Company's 1999 Stock Option Plan was adopted by the Company's Board of Directors in November 1999 and originally provided for the grant of non-statutory stock options for up to 1,250,000 shares of the Company's Common Stock. The plan was amended by the Company's Board of Directors in February 2000, February 2001 and December 2001 to increase the number of shares authorized for issuance. In addition, in May 2000, the Company's Board of Directors amended and restated the plan to allow for the issuance of grants of restricted stock and to increase the number of shares authorized for issuance under the plan. As a result of the various amendments, there are currently an aggregate of 4,750,000 shares of the Company's Common Stock authorized for issuance, of which 500,000 shares are reserved for issuance as restricted stock. As of December 31, 2002, there were 2,798,335 shares reserved for issuance upon exercise of outstanding options, 214,315 shares reserved for issuance as restricted stock and 860,082 shares available for future grant as options under the plan.

Description of Plan Terms

Except as specifically noted, the Company's 1997, 1998, Avid-Softimage and 1999 plans have substantially similar terms. Each plan is administered by the Company's Board of Directors or a committee of the Board of Directors. Under each of the 1997, 1998, Avid-Softimage and 1999 plans, the Company may grant options and, under the 1999 plan, restricted stock, to any employee other than an executive officer or director.

When it grants an option, the Board of Directors sets forth the terms of the option. Specifically, it determines (a) who receives the option, (b) the number of shares of the Company's Common Stock covered by the option, (c) the exercise price of the option (which may be less than, equal to or greater than the fair market value of the Common Stock on the date of grant) and (d) the duration of the option.

The 1997, 1998, Avid-Softimage and 1999 plans contain provisions addressing the consequences of a change in control of the Company. If the Company undergoes a change of control, the Company must provide that all outstanding options are either assumed or substituted for by the acquiring or succeeding corporation. If the acquiring or succeeding corporation does not assume, or substitute for, the outstanding options, then the Board of Directors must either cash out or accelerate the options to make them fully exercisable prior to the change of control.

Employment and Other Agreements

The Company has employment agreements with each of its Named Executive Officers, as well as with several other senior executives, which provide for severance benefits. The agreements can be terminated by either the Company or the officer upon 12 months prior notice, provided, however, that the Company may not give such notice until July 24, 2004. If the Company terminates the officer's employment other than for cause, or if the officer terminates for good reason, the Company must pay the officer his or her base salary and provide the officer with comparable benefits for 12 months following his or her termination. The Company must also pay the officer his or her target incentive compensation for the year of termination, multiplied by the actual plan pay-out factor and prorated for the number of months that the officer actually worked for the Company. Furthermore, any stock options and shares of restricted stock that were due to vest within 12 months of the officer's date of termination will be vested immediately. Finally, pursuant to the Company's agreement with Mr. Krall, in addition to the benefits described above, the Company must pay Mr. Krall the amount by which his monthly base salary at the time of termination exceeds the monthly compensation from any new employer for the period from the first to the second anniversary of his termination.

The Company also has change of control agreements with each Named Executive Officer, as well as with several other senior executives. These agreements provide that, if the officer is terminated by the Company without cause or if the officer terminates his or her employment with the Company for good reason within two years following a change in control of the Company, the officer will receive any earned but unpaid salary and a bonus payment for the year of termination equal to the highest bonus targeted or received in the current year or preceding two years prorated for the number of days the officer worked for the Company during the year of termination, and a lump sum severance payment equal to one and one-half times the sum of his or her annual base salary plus the highest bonus payment targeted or received in the then current or preceding two years. In addition, the officer is entitled to receive benefits comparable to those he or she received while employed by the Company for 24 months following the date of termination. The change of control agreements also require that the Company gross up the severance payment to compensate the officer for the effects of any excise tax imposed by Section 4999 of the Internal Revenue Code. Finally, all unvested stock options and shares of restricted stock then held by the officer will vest immediately and be exercisable for a period of 24 months following the officer's termination.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee in 2002 were Messrs. Halperin and Brumback and Ms. Lenehan, none of whom is an employee of the Company. No executive officer of the Company is a member of the compensation committee of another corporation or other

entity (or other persons serving an equivalent function for such entity) whose executive officers served on the Company's Board of Directors.

Report of the Compensation Committee

During 2002, the Compensation Committee of the Board of Directors (the "Committee") consisted of Messrs. Brumback and Halperin and Ms. Lenehan. Ms. Lenehan was named a member of the Committee in July 2002. Each member of the Committee is a non-employee director. The Committee is responsible for establishing and administering the policies that govern annual compensation, equity ownership and other forms of compensation for the Company's executive officers. The Committee also administers the Company's overall stock-based compensation plans. This report is submitted by the Committee and addresses the Company's policies as they apply to the executive officers and Chief Executive Officer of the Company.

10

The Company uses its compensation program to achieve the following objectives:

provide compensation that attracts, motivates and retains talented, high caliber people who can achieve the Company's strategic objectives; and

align management's interests with those of stockholders.

Overview. The Committee believes that its executive compensation program provides an overall level of compensation that is competitive in the computer-based digital editing industry and among companies of comparable size and complexity. At the beginning of each fiscal year, the Company establishes an annual compensation plan for the Company's executive officers based on its review of compensation data for executive officers at comparable companies. The Company's executive compensation program consists of base salary, annual cash incentive compensation, long-term equity incentives in the form of stock options, and other benefits which are generally available to all U.S.-based employees of the Company, such as the Company's employee stock purchase program, medical and life insurance, and 401(k) savings plans. A significant portion of the compensation for executive officers is expected to be in the form of performance-based compensation, both annual cash incentive compensation and long-term equity compensation, that depends upon the Company's successful achievement of its business objectives.

Salary. Base salary compensation is targeted at the median of salaries of executive officers with comparable qualifications, experience and responsibilities at other companies in the same or similar business and of comparable size. In addition to external market data, salary is determined by the individual's performance and contribution to the Company. Base salary is not intended to be a method for significant, long-term wealth accumulation for executive officers.

Annual Incentive Compensation. The Executive Variable Compensation Program was the Company's incentive program for executive officers in 2002. The primary purpose of the program was to provide cash incentives to executives to achieve the financial goals established by the Company at the beginning of 2002. The annual cash incentive compensation provides a payout scale that is intended to provide high rewards for high performance and low or no payout for low performance.

Excluding Digidesign, the professional audio segment of the business, the Company failed to meet its financial targets for the 2002 fiscal year. As a consequence, with one exception, the Company did not pay cash bonuses to its executive officers. The sole exception was Mr. Lebolt, who received a cash bonus based on the performance of the professional audio segment. Additional details regarding the bonus compensation are contained in the Summary Compensation Table under "Executive Compensation" above.

Long-Term Incentive Compensation. Long-term incentive compensation has been in the form of stock options and grants of restricted stock, and is intended to be the largest portion of total compensation. The goal of the long-term incentive compensation is to align the interests of management with those of the stockholders and enable executives to develop a long-term equity ownership position in the Company. In determining stock option grants, the Company considers the executive's individual performance, past stock option grants, and the challenges necessary for the Company to achieve its strategic objectives.

During the 2002 fiscal year, 1,528 employees received stock options, including the Company's Named Executive Officers, who received 185,000 stock option grants under the Company's stock option plans, or 14.35% of the total options awarded. The options were granted with an exercise price equal to the fair market value of the Company's Common Stock on the date of grant and vest over a four-year period. Unless

otherwise specified in the applicable option agreement, all options granted expire ten years from the date of grant or earlier if the grantee's employment with the Company is terminated.

Employee Stock Purchase Plan. The Company's employee stock purchase program, which is available to virtually all employees, including executive officers, allows participants to purchase shares of the Company's Common Stock at a 15 percent discount from the fair market value of the Common Stock at the beginning or end of the applicable purchase period (whichever is lower).

Compensation of Chief Executive Officer. As the Company's President and Chief Executive Officer from January 2002 to December 2002, David A. Krall received salary compensation of \$420,000. Mr. Krall's annual salary for 2002 was determined based on an assessment of comparative industry salaries using established executive compensation surveys and is targeted at the median of this group. In accordance with the terms of the Company's Executive Variable Compensation Program and based on the Company performance in 2002, Mr. Krall did not receive a cash bonus for 2002.

In 2002, the Company granted Mr. Krall options to purchase up to 50,000 shares of Common Stock at \$14.13 per share. Twelve and one-half percent of the shares of each option vest and become exercisable six months after the date of grant, and the remaining shares vest in equal monthly installments over the following three and one-half years. The Committee believes that these options provide an appropriate long-term incentive for continued efforts on behalf of the Company.

Impact of Section 162(m) of the Internal Revenue Code. Section 162(m) of the Code generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to a corporation's chief executive officer or any of its other four most highly compensated executive officers. Certain compensation, including qualified performance-based compensation will not be subject to the deduction limit if specific requirements are met. The Committee's primary objective is to establish compensation programs that maximize the creation of long-term shareholder value. However, the Committee reviews the potential effect of Section 162(m) periodically and if consistent with its goal of increasing shareholder value, seeks to structure the stock options granted to its executive officers under the Company's stock option plans in a manner that is intended to avoid disallowances of deductions under Section 162(m). Nevertheless, there can be no assurance that compensation attributable to awards under the Company's stock option plans will be treated as qualified performance-based compensation under Section 162(m). The Committee reserves the right to use its judgment to authorize compensation payments which may be subject to the Section 162(m) limitation when the Committee believes such payments are appropriate and in the best interests of the stockholders, after taking into consideration changing business conditions and the performance of the employees receiving the compensation.

Report of the Audit Committee

For the fiscal year ended December 31, 2002, the Audit Committee of the Company's Board of Directors was composed of three members and acted under a written charter approved by the Board in December 2000. The Board of Directors adopted a new Audit Committee Charter on February 24, 2003. A copy of the new charter is attached to this proxy as Appendix A. The members of the Audit Committee were independent directors as defined by its charter and the rules of the Nasdaq National Market.

The Audit Committee reviewed the Company's audited financial statements for the fiscal year ended December 31, 2002 and discussed these financial statements with the Company's management. The Company's management represented to the Audit Committee that the Company's financial statements had been prepared in accordance with accounting principles generally accepted in the United States of America. Management is responsible for the Company's internal controls and the financial reporting process. The Company's independent accountants, PricewaterhouseCoopers LLP, are responsible for performing an independent audit of the Company's financial statements in accordance with auditing standards generally accepted in the United States of America and for issuing a report on those financial statements. As appropriate, the Audit Committee reviews and evaluates, and discusses with the Company's management, internal accounting and financial personnel and the independent accountants, the following:

Edgar Filing: AVID TECHNOLOGY INC - Form DEF 14A

the plan for, and the independent accountants' report on, the annual audit of the Company's financial statements;

the Company's financial disclosure documents, including all financial statements and reports filed with the Securities and Exchange Commission or sent to shareholders;

management's selection, application and disclosure of critical accounting policies;

changes in the Company's accounting practices, principles, controls or methodologies;

significant developments or changes in accounting rules applicable to the Company; and

the adequacy of the Company's internal controls and accounting, financial and auditing personnel.

From time to time, the Audit Committee meets in private sessions with the Company's independent accountants, at which discussions of financial management, accounting and internal control issues take place.

The Audit Committee also reviewed and discussed the audited financial statements and the matters required by Statement on Auditing Standards 61 (Communication with Audit Committees) with PricewaterhouseCoopers LLP, the Company's independent accountants. SAS 61 requires the Company's independent accountants to discuss with the Company's Audit Committee, among other things, the following:

methods to account for significant unusual transactions;

the initial selection of and changes in significant accounting policies;

the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;

the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of those estimates;

adjustments arising from the audit that, in the auditors' judgment, have a significant effect on the entity's financial reporting; and

13

disagreements, of which there were none, with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

The Company's independent accountants also provided the Audit Committee with the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). This standard requires auditors to disclose annually in writing all relationships that in the auditors' professional opinion may reasonably be thought to bear on independence, confirm their perceived independence and engage in a discussion of their independence. The Audit Committee discussed with the independent accountants the matters disclosed in this letter and their independence from the Company. The Audit Committee also considered whether the independent accountants' provision of the other, non-audit related services to the Company, which are referred to in "Independent Accountant's Fees and Other Matters" below, is compatible with maintaining such auditors' independence.

It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with

Edgar Filing: AVID TECHNOLOGY INC - Form DEF 14A

integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the report of PricewaterhouseCoopers LLP on its audit of the Company's financial statements.

Based on its discussions with management and the independent accountants, its review of the representations and information provided by management, and the report of the Company's independent accountants, the Audit Committee recommended to the Company's Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

RATIFICATION OF SELECTION OF INDEPENDENT ACCOUNTANTS

The Audit Committee has selected the firm of PricewaterhouseCoopers LLP ("PwC") as the Company's independent accountants for the current fiscal year. PwC has served as the Company's independent accountants since 1992. Although stockholder ratification of the selection of PwC is not required by law, the Board of Directors believes that it is advisable to give stockholders the opportunity to ratify this selection. If this proposal is not approved at the Annual Meeting, the Company will reconsider the selection of PwC.

Representatives of PwC are expected to be present at the Annual Meeting. They will have the opportunity to make a statement, if they so desire, and will also be available to respond to appropriate questions from stockholders.

OTHER MATTERS

Management does not know of any other matters that may come before the Annual Meeting. However, if any other matters are properly presented to the Annual Meeting, it is the intention of the

persons named in the accompanying proxy to vote, or otherwise act, in accordance with their judgment on such matters.

All costs of solicitation of proxies will be borne by the Company. In addition to solicitations by mail, the Company's directors, officers and regular employees, without additional remuneration, may solicit proxies by telephone, facsimile and personal interviews. Brokers, custodians and fiduciaries will be requested to forward proxy soliciting material to the owners of shares held in their names and the Company will reimburse them for out-of-pocket expenses incurred on behalf of the Company.

Householding Annual Meeting Materials

Some banks, brokers and other nominee record holders may be participating in the practice of "householding" proxy statements and annual reports. This means that only one copy of the Company's proxy statement and annual report to stockholders may have been sent to multiple stockholders in a given household. The Company will promptly deliver a separate copy of either document upon request to: Avid Technology, Inc., Avid Technology Park, One Park West, Tewksbury, Massachusetts 01876, Attn: Investor Relations Department, telephone: (978) 640-6789. Requests for separate copies of future proxy statements or annual reports (or multiple copies to the same address) may be made either through the stockholder's bank, broker or other nominee record holder, or directly at the address or telephone number listed above.
