This current report includes forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events based upon knowledge of facts as of the date of this current report and our assumptions about future events. These forward-looking statements are subject to various risks and uncertainties that may be outside our control. We have no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 5. Other Events.

Moody's Downgrade

On May 14, 2003, Moody's Investors Service downgraded Edison Mission Energy's (EME's) senior unsecured credit rating to B2 from Ba3. Moody's also lowered its credit ratings of EME's parent, Mission Energy Holding Company (senior debt to Caa2 from B3), and EME's largest subsidiary, Edison Mission Midwest Holdings Co. (syndicated loan facility to Ba3 from Ba2). In addition, Moody's downgraded the credit ratings of Brooklyn Navy Yard Cogeneration Partners, L.P., a partnership in which a subsidiary owns a 50% interest (senior secured debt to Ba1 from Baa3), the pass-through bonds related to the sale-leaseback of the Homer City facilities (to Ba2 from Baa3), the pass-through certificates related to the sale-leaseback of Midwest Generation's Powerton Station and Joliet Station (to B2 from Ba3), the bank credit facility related to the sale-leaseback of Midwest Generation's Collins facility (to Ba3 from Ba2), and Mission Capital L.P. (monthly income preferred securities, to

Edgar Filing: EDISON MISSION ENERGY - Form 8-K

Caa1 from B2). The ratings are no longer under review for possible further downgrade. The outlook is stable for the ratings of Brooklyn Navy Yard Cogeneration Partners, L.P. and the pass-through bonds related to the sale-leaseback of the Homer City facilities. The outlook is negative for the ratings of EME, Mission Energy Holding Company, Edison Mission Midwest Holdings and the other affected entities.

These ratings actions do not trigger any defaults or prepayment obligations under EME's credit facilities or those of the other affected entities. In particular, these changes do not require any prepayment of indebtedness at Edison Mission Midwest Holdings. However, the changed ratings may affect the ability of EME to extend or replace its credit facilities upon expiration and the ability of Edison Mission Midwest Holdings to extend or refinance its \$911 million of debt maturing in December 2003.

In addition, sales of power from EME's First Hydro, Homer City and Midwest Generation projects require credit support, depending upon market conditions and the strategies adopted for the sale of this power. EME has previously projected the potential working capital support for this to be between \$100 million and \$200 million from time to time during 2003 and currently believes these projections to be unchanged.
