PROXY STATEMENT

ANNUAL MEETING AND VOTING INFORMATION

Why am I receiving this proxy statement and proxy card?

You are receiving this proxy statement and a proxy card, which are being mailed beginning on or about April 2, 2004, because you were the owner of shares of common stock of FirstEnergy Corp. (later referred to as the Company) at the close of business on March 23, 2004 (later referred to as the record date). The Board of Directors (later referred to as the Board) set the record date to determine shareholders entitled to vote at the 2004 Annual Meeting (later referred to as the Meeting). This proxy statement describes issues expected to be voted upon and gives you information about the Meeting and the Company. The Company's address is 76 South Main Street, Akron, Ohio 44308-1890.

How do I vote?

If your shares are held in "Street Name" by a broker or bank, you will receive specific voting instructions for voting those shares.

If you are a registered shareholder, you may vote your shares through a proxy appointed by telephone, Internet, or mail, or you may vote your shares in person at the Meeting. To appoint a proxy and vote:

1.
By telephone (do not return your proxy card)
 - a.
Call the toll-free number indicated on your proxy card using a touch-tone telephone. Telephone voting is available at any time until 10 a.m., Eastern time, on May 18, 2004.
 - b.
Have your proxy card in hand and follow the simple recorded instructions.
2.
By Internet (do not return your proxy card)
 - a.
Go to the Web site indicated on your proxy card. Internet voting is available at any time until 10 a.m., Eastern time, on May 18, 2004.
 - b.
Have your proxy card in hand and follow the simple instructions.
3.
By mail
 - a.
Mark your choices on your proxy card. If you properly execute your proxy card but do not specify your choices, your shares will be voted as recommended by your Board of Directors.
 - b.
Date and sign your proxy card.
 - c.
Mail your proxy card in the enclosed postage-paid envelope. If your envelope is misplaced, send your proxy card to FirstEnergy Corp., c/o IVS Associates, 111 Continental Drive, Suite 210, Newark, Delaware 19713.

4.

At the Meeting

You may vote in person at the Meeting, even if you previously appointed a proxy by telephone, Internet, or mail.

You may revoke your appointment of a proxy or change your voting instructions before the Meeting commences by sending a proxy card that revises your previous appointment and voting instructions; by appointing a proxy and voting by telephone or Internet after the date of your previous appointment; by voting in person at the Meeting; or by notifying the Corporate Secretary of the Company in writing prior to the Meeting. If a proxy card is received by the proxy tabulator after the date that a telephone or Internet appointment is made, the tabulator will treat the proxy card as your final instruction. For that reason, it is important to allow

2

sufficient time for your voting instructions on a mailed proxy card to reach the tabulator before changing them by telephone or Internet.

How does the Board of Directors recommend that I vote?

Your Board recommends that you vote as follows:

"For" the five nominees to the Board who are listed in this proxy statement (Item 1);

"For" the ratification of PricewaterhouseCoopers LLP as our independent auditor (Item 2);

"For" the approval of amendments to the Amended Code of Regulations (later referred to as the Code of Regulations) to declassify the Board of Directors (Item 3);

"For" the approval of amendments to the Amended Articles of Incorporation (later referred to as the Articles of Incorporation) and Code of Regulations to change certain voting requirements (Item 4);

"For" the approval of the currently existing FirstEnergy Corp. Executive Deferred Compensation Plan (later referred to as the Executive Deferred Compensation Plan) (Item 5);

"For" the approval of the currently existing FirstEnergy Corp. Deferred Compensation Plan for Outside Directors (later referred to as the Director Deferred Compensation Plan) (Item 6); and

"Against" all five shareholder proposals (Items 7-11).

What is a quorum and what other voting information should I be aware of?

As of the record date, 329,836,276 shares of common stock were outstanding. A majority of these shares, represented at the Meeting either in person or by proxy, constitutes a quorum. A quorum is required to conduct business at the Meeting. All shares represented at the Meeting are counted for the purpose of determining a quorum, without regard to abstentions or broker non-votes. You are entitled to one vote for each share that you owned on the record date. You do not have rights of appraisal in regard to any item presented if you are a dissenting shareholder.

If your shares are held by a broker or bank in "Street Name," we encourage you to provide instructions to your broker or bank by executing the voting form supplied to you. We expect that your broker will be permitted to vote your shares on Items 1, 2, and 3 without your instructions. However, your broker cannot vote your shares on Items 4-11 unless you provide instructions; therefore, your failure to give voting instructions means that your shares will not be voted on these items, and your unvoted shares will be referred to as broker non-votes.

An item to be voted on may require a percent of votes cast, rather than a percent of shares outstanding, to determine passage or failure. Votes cast is defined to include both for and against votes, and excludes abstentions and broker non-votes. Abstentions and broker non-votes are the equivalent of negative votes when passage or failure is measured by a percent of shares outstanding. If your proxy card is not voted properly, such as marking more than one box for an item, your vote for that particular item will be treated as an abstention.

How are proxy cards being solicited, and what is the cost?

The Board is soliciting your vote. We have arranged for the services of Innisfree M&A Incorporated to solicit votes personally or by telephone, mail, or other electronic means for a fee not expected to exceed \$12,500 plus reimbursement of expenses. Votes also may be solicited in a similar manner, without additional compensation, by officers and employees of the Company. The Company will pay all solicitation costs and will reimburse brokers and banks for postage and expenses incurred by them for sending proxy material to beneficial owners.

Will any other matters be voted on other than those described in this proxy statement?

We do not know of any business that will be considered other than the matters described in this proxy statement. However, if any other matters are presented properly, your executed appointment of a proxy, as

3

outlined above, will give authority to the appointed proxies to vote on those matters at their discretion, unless you indicate otherwise in writing.

Do I need an admission ticket to attend the Annual Meeting?

An admission ticket is not necessary, but you will be asked to register upon arrival at the Meeting. If your shares are held in "Street Name" by a broker or bank, upon arrival at the Meeting, you will need to present a letter or statement from your broker or bank indicating your ownership of FirstEnergy common stock on the record date of March 23, 2004.

Where can I find the voting results of the Meeting?

We will announce the preliminary voting results at the Meeting. Final voting results will be posted on our Internet site at www.firstenergycorp.com/ir and also will be published in our second quarter Form 10-Q report which will be filed with the Securities and Exchange Commission.

Can I view the Company's proxy statement and annual report on the Internet instead of receiving paper copies?

Yes. If you are a registered shareholder, you can elect to view proxy statements and annual reports on the Internet by marking the appropriate box on your proxy card or by following the instructions when voting by Internet or by telephone. If you choose this option, you will be mailed a proxy card along with instructions on how to access the proxy statement and annual report on the Internet, and your choice will remain in effect until you notify the Company that you wish to resume mail delivery of these documents. If you hold your stock through a broker or bank, refer to the information provided by that entity for instructions on how to elect this option.

Why did we receive just one copy of the proxy statement and annual report when we have more than one stock account in our household?

The Company is following a Securities and Exchange Commission rule that permits us to send a single copy of the proxy statement and annual report to a household if the shareholders provide written or implied consent. The Company previously mailed a notice to eligible registered shareholders stating our intent to utilize this rule unless the shareholder provided an objection. Shareholders continue to receive a separate proxy card for each stock account. If you are a registered shareholder and received only one copy of the proxy statement and annual report in your household, we will deliver multiple copies for some or all accounts upon your request, either by calling FirstEnergy Investor Services at 1-800-736-3402 or by writing to FirstEnergy Corp., Investor Services, 76 South Main Street, Akron, Ohio 44308-1890. You also may contact us in the same manner if you are receiving multiple copies of the proxy statement and annual report in your household and desire to receive a single copy. If you are not a registered shareholder and your shares are held by a broker or bank, you will need to call that entity to revoke your election and receive multiple copies of these documents.

When are shareholder proposals for the year 2005 Annual Meeting due?

A shareholder who wishes to offer a proposal for inclusion in the Company's proxy statement and proxy card for the year 2005 Annual Meeting must submit the proposal and any supporting statement by December 3, 2004 to the Corporate Secretary, FirstEnergy Corp., 76 South Main Street, Akron, Ohio 44308-1890. Any proposal received after that date will not be eligible for inclusion in the year 2005 proxy statement and proxy card.

7

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

A shareholder who wishes to offer a proposal for consideration at the year 2005 Annual Meeting after December 3, 2004, and who wants the proposal referenced in the Company's proxy statement (such proposal would not be included on the proxy card), must submit the proposal by February 16, 2005 to the Corporate Secretary, FirstEnergy Corp., 76 South Main Street, Akron, Ohio 44308-1890. However, in order to raise the matter at the meeting, the shareholder also will need to comply with the notice provisions contained in the Company's Code of Regulations.

4

How can I learn more about the operations of the Company?

You can learn more about the operations of the Company by reviewing the annual report to shareholders for the year ended December 31, 2003, which is included with the mailing of this proxy statement. You also can view the annual report and other information by visiting the Company's Internet site at www.firstenergycorp.com/ir.

The Company has a Code of Business Conduct that applies equally to all employees, including the Chief Executive Officer, Chief Financial Officer, and Chief Accounting Officer. In addition, the Board of Directors has its own Code of Business Conduct. These Codes can be viewed on the Company's Internet site provided in the previous paragraph, or copies are available upon written request to the Corporate Secretary.

A copy of our latest Form 10-K Annual Report filed with the Securities and Exchange Commission, including the financial statements and the financial statement schedules, will be sent to you, without charge, upon written request to David W. Whitehead, Corporate Secretary, FirstEnergy Corp., 76 South Main Street, Akron, Ohio 44308-1890.

BOARD OF DIRECTORS INFORMATION

What function does your Board of Directors perform?

Your Board of Directors has the responsibility for establishing broad corporate policies and for the overall performance of your Company. However, the Board is not involved in day-to-day operations. The directors are kept informed of the Company's business by various reports and documents sent to them each month, as well as by operating and financial presentations made at Board and committee meetings by Company management. The Board has established the committees described below to assist in performing its responsibilities.

The Board believes that the policies and practices adopted by the Company should enhance the Board's ability to represent the interests of the Company's shareholders. In support of this philosophy, the Board adopted Corporate Governance Policies, which, along with charters of the various Board committees, serve as a framework for meeting its duties and responsibilities with respect to the governance of FirstEnergy. Our Corporate Governance Policies and Board committee charters can be viewed by visiting our Internet site at www.firstenergycorp.com/ir, and copies are available upon written request to the Corporate Secretary.

The Board recognizes the importance of its members' keeping current on Company and industry issues and their responsibilities as directors. In this regard, all new directors attend orientation training soon after being elected to the Board. In addition, the Board encourages continuing education programs for Board members which may include internal strategy meetings, third-party presentations, and externally offered programs. During the past year, all directors participated in an eight-hour, accredited training program.

How many meetings did the Board hold in 2003?

Your Board held 14 regularly scheduled and special meetings during 2003. In 2003, during the period of their membership, all directors attended 75 percent or more of the meetings of the Board and of the committees on which they served, except Robert C. Savage who attended 70 percent of such meetings. Mr. Savage was unable to attend special Board and committee meetings that were held in September of 2003 due to prior commitments.

An executive session of non-management directors is scheduled in conjunction with each regularly scheduled meeting of the Board. Prior to January 20, 2004, the chairs of the Audit, Compensation, and Corporate Governance Committees of the Board presided over these executive sessions on a rotating basis. On January 20, 2004, George M. Smart was elected non-executive chairman of the Board and shall preside over all such executive sessions. During 2003, eight executive sessions were held.

What action has the Board taken to determine the independence of directors?

The Board annually reviews the independence of each of its members in order to make the affirmative determination of independence that is called for pursuant to the Company's Corporate Governance Policies and the listing standards of the New York Stock Exchange. Based on its most recent review, the Board determined

that all directors are independent, except Anthony J. Alexander who is President and Chief Executive Officer of the Company.

The Board, in its Corporate Governance Policies, has adopted a policy of adhering to the definition of an "independent" director as promulgated from time to time by the New York Stock Exchange (NYSE) and the Securities and Exchange Commission (SEC). As currently defined by such organizations, an independent director is one for whom the Board has determined affirmatively that, individually or through a member of his or her immediate family, he or she does not or has not had management responsibility with the Company or otherwise been affiliated with the Company for three years prior to his or her directorship and who has no material relationship with the Company, either directly or as a partner, shareholder or officer of an organization with such a relationship with the Company. This definition generally leaves to the Board the discretion to determine, on a case-by-case basis, what constitutes a "material relationship" with the Company. The Board will exercise this discretion in a manner that is consistent with applicable SEC and NYSE rules and regulations.

What committees has the Board of Directors established?

The Board has established the committees listed below. All committees are comprised of independent directors as determined by the Board in accordance with the Company's Corporate Governance Policies which incorporate the New York Stock Exchange listing standards. The Biographical Information On Nominees And Directors section includes committee memberships.

Audit Committee

The Audit Committee (whose members are independent as defined in the Company's Corporate Governance Policies) meets with management, internal auditors, and the independent auditor to review the adequacy of the internal controls of the Company and the objectivity of financial reporting. The Audit Committee periodically meets separately with executive officers, the internal auditors, the independent auditor, and the general counsel. The Audit Committee acts under a written charter adopted by the Board, which is attached to this proxy statement as Appendix A.

This committee is directly responsible for the appointment of the Company's independent auditor (subject to shareholder ratification, if such ratification is required) and is charged with reviewing and approving all services performed for the Company by the independent auditor and for reviewing the related fees. The committee reviews the independent auditor's internal quality control procedures, reviews all relationships between the independent auditor and the Company in order to assess the auditor's independence, and monitors compliance with the Company's policy regarding non-audit services, if any, rendered by the independent auditor. In addition, the committee ensures the regular rotation of the lead audit partner and concurring partner every five years and considers whether it would be appropriate to implement a regular rotation of the independent auditor firm. The committee also reviews management's programs to monitor compliance with the Company's policies on business ethics and risk management. The committee establishes procedures to receive and respond to complaints received by the Company regarding accounting, internal accounting controls, or auditing matters and allows for the confidential, anonymous submission of concerns by employees.

Robert N. Pokelwaldt, a member of the Audit Committee who is an independent director (as such term is defined in the Corporate Governance Policies), simultaneously serves on the audit committees of three other public companies. The charter of the Audit Committee permits a member of the Audit Committee to serve on the audit committees of more than two other public companies only with the permission of the Board. Having carefully considered Mr. Pokelwaldt's service on the committees described above, the Board is of the view that such service does not impair the ability of Mr. Pokelwaldt to effectively serve on the Audit Committee.

All members of this committee are financially literate. The Board appoints at least one member of the Audit Committee who, in the Board's business judgment, is an "Audit Committee Financial Expert," as such term is defined by the SEC. The Board has determined that Robert L. Loughhead meets this definition. See the Board Audit Committee Report in this proxy statement for additional information regarding the committee. This committee is comprised of six members and met ten times in 2003.

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

Compensation Committee

The Compensation Committee (whose members are independent as defined in the Company's Corporate Governance Policies) is responsible for determining and recommending to the Board the compensation for the five highest paid executive officers, reviewing and endorsing a compensation philosophy that supports competitive pay for performance and is consistent with the corporate strategy, and assisting the Board in establishing appropriate incentive compensation and equity-based plans. It also is responsible for administering such plans in order to attract, retain and motivate skilled and talented executives, for aligning such plans with Company and business unit performance, business strategies, and growth in shareholder value, and for evaluating the Chief Executive Officer's performance in light of such goals. The Board Compensation Committee Report On Executive Compensation can be found later in this proxy statement. This committee is comprised of five members and met three times in 2003.

Corporate Governance Committee

The Corporate Governance Committee (whose members are independent as defined in the Company's Corporate Governance Policies) develops, administers, and recommends corporate governance policies to the Board, and performs the functions of a nominating committee by making recommendations to the Board concerning possible candidates to fill vacancies on the Board. The committee is responsible for assessing the size, composition, and current makeup of the Board in light of the operating requirements of the Company and for developing, monitoring, and recommending membership qualifications for the Board and all Board committees, including assessing director independence in light of the Company's Corporate Governance Policies. Finally, the committee oversees the evaluation of the Board and management. The committee acts under a written charter adopted by the Board, which is available on the Company's Internet site at www.firstenergycorp.com/ir. This committee is comprised of five members and met four times in 2003. The current members of this committee are Carol A. Cartwright, William T. Cottle, Robert B. Heisler, Jr., Jesse T. Williams, Sr., and Patricia K. Woolf.

In consultation with the Chief Executive Officer and the full Board, the committee searches for, recruits, screens, interviews and recommends prospective directors, as required, to provide an appropriate balance of knowledge, experience, and capability on the Board. The committee is guided by its charter, the Corporate Governance Policies, and other applicable laws and regulations in recruiting and selecting director candidates and develops membership qualifications for the Board and all Board committees. Any assessment of a prospective Board or committee candidate should include, at a minimum, issues of diversity, age, background and training, business or administrative experience and skills, dedication and commitment, business judgment, analytical skills, problem-solving abilities and familiarity with the regulatory environment. In addition, the committee may consider such other attributes as it deems appropriate, all in the context of the perceived needs of the Board or applicable committee at that point in time.

The committee investigates and considers suggestions for candidates for membership on the Board, including shareholder nominations for the Board. So long as shareholders nominating director candidates have complied with the procedural requirements set forth in the charter of the Corporate Governance Committee, the committee applies the same criteria and employs substantially similar procedures for evaluating shareholder nominees for the Board as it would for evaluating any other Board nominee. The charter requires that shareholder recommendations be submitted in writing to the committee, in care of the Corporate Secretary of

7

the Company, at least 120 days before the publication of the Company's annual proxy statement from a shareholder or group of shareholders owning .5 percent of the voting stock for at least one year, and such shareholder recommendations should be accompanied by a description of the proposed nominee's qualifications and other relevant biographical information, together with the written consent of the proposed nominee to be named in the proxy statement and to serve on the Board.

Finance Committee

The Finance Committee (whose members are all independent as defined in the Company's Corporate Governance Policies) is responsible for monitoring and overseeing the Company's financial resources and strategies, reviewing dividend policy, capital structure policies, long- and short-term debt levels, the issuance of securities and other appropriate financial matters, and approving terms of sales of Company securities when the Board does not exercise such powers. The committee also reviews the Company's financial forecasts, budgets, and pension fund investments. This committee is comprised of six members and met six times in 2003.

Nuclear Committee

The Nuclear Committee (whose members are all independent as defined in the Company's Corporate Governance Policies) is authorized and directed to monitor and make recommendations to both management and the Board regarding nuclear matters, including the operation of all nuclear units in which any subsidiary of the Company has an ownership or leasehold interest. The committee reviews the safety, reliability and

quality of nuclear operations and the effectiveness of management systems for the identification of problems and potential problems. The Nuclear Committee is comprised of five members and met eleven times in 2003.

What is the current compensation of directors?

A director who is also an employee of the Company receives no additional compensation for serving as a director. Directors who are not employees receive an annual retainer consisting of \$30,000 in cash, which a director may elect to receive in common stock or to defer into either cash or stock, and \$40,000 in equity in the form of common stock, which may be deferred; \$1,500 for each Board and committee meeting which he/she attends; a fee of up to \$1,500 for each day that he/she visits a Company office or facility, other than an office or facility at which a meeting of the Board or committee of which he/she is a member is held on such day, or attendance at an industry meeting at the request of the Company in connection with fulfilling his/her responsibilities as a director or member of a committee; and reimbursement for expenses related to attending meetings. In addition, the chair of each committee receives an additional annual retainer of \$5,000, except the chair of the Audit Committee who receives an additional annual retainer of \$15,000. The non-executive chairman of the Board receives additional compensation, above that paid to regular Board members, in the amount of \$100,000 annually which may be deferred.

Under the Director Deferred Compensation Plan, directors can elect to allocate all or a portion of their cash retainers, meeting fees and chair fees to deferred stock or deferred cash accounts. If a director elects the deferred stock option, at the time of deferral, a 20 percent match is added to the funds allocated. Funds deferred into the stock account are used to purchase FirstEnergy common stock, and dividends on shares in this account are reinvested. Payouts are made in FirstEnergy common stock. The 20 percent match and any appreciation on it are forfeited if the director leaves the Board within three years from the date of deferral for any reason other than retirement, disability, death, upon an actual or potential change of control, or in situations where the director is ineligible to stand for re-election due to circumstances unrelated to his or her performance as a director. Directors may elect to defer their equity retainers to deferred stock accounts; however, directors do not receive a 20 percent match on the portion of their equity retainers allocated to deferred stock accounts. The Director Deferred Compensation Plan is being submitted for shareholder approval at this year's Annual Meeting. Please see Item 6 below for more details.

Based on programs in effect at GPU, Inc. at the time of our merger on November 7, 2001, directors who served on the GPU Board of Directors were eligible to receive benefits in the form of personal excess liability

8

insurance, personal accident insurance, medical insurance and an estate enhancement program. As of November 7, 2001, no new participants could receive these benefits. In aggregate, the Company paid in 2003 a total of \$3,612 for the insurance coverages for John M. Pietruski, Robert N. Pokelwaldt, Catherine A. Rein and Patricia K. Woolf. In 2000, Mr. Pietruski elected to participate in the estate enhancement program. This program involved a one-time outlay by GPU for Mr. Pietruski for the purchase of a life insurance policy, which outlay will be repaid from the future death benefits under the policy. As a result, the Company does not expect to incur any significant additional costs associated with this program. In addition, in 1997, GPU discontinued a board of directors pension program. Directors who served prior to the discontinuation are entitled to receive benefits under the program. Dr. Woolf is the only current director receiving pension payments, which amounted to \$30,931 in 2003. Mr. Pietruski and Ms. Rein elected to defer receiving their pension until they retire from the FirstEnergy Board.

Do the directors have share ownership guidelines?

Yes. The Board approved share ownership guidelines for directors recommending the ownership of shares in an amount equal to five times their annual equity retainer. A majority of the directors is currently at the recommended ownership level.

Does the Board have a policy in regard to the number of boards that a director can serve on?

Yes. The Corporate Governance Policies provide that directors will not, without the Board's approval, serve on the board of directors of more than four other non-affiliated companies having securities registered under the Securities Exchange Act of 1934.

What is the Board's policy regarding Board members' attendance at the annual shareholders' meeting?

The Board believes that regular attendance by all directors and all nominees for directors at the Company's annual shareholders' meeting is appropriate and desirable, and that all such persons should make diligent efforts to attend such meeting. All Board members attended the 2003 Annual Meeting held on May 20, 2003.

How can shareholders communicate to the Board?

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

The Board provides a process for shareholders to send communications to the Board and non-management directors. Shareholders may send written communications to the Board by mailing any such communications to the FirstEnergy Board of Directors, c/o Corporate Secretary, FirstEnergy Corp., 76 South Main Street, Akron, Ohio 44308-1890, or by sending an e-mail to directors@firstenergycorp.com.

The Corporate Secretary or a member of his or her staff shall review all such communications promptly and relay them directly to a member of the Board, provided that such communications (i) bear relevance to the Company and the interests of the shareholder, (ii) are capable of being implemented by the Board, (iii) do not contain any obscene or offensive remarks, (iv) are of a reasonable length, and (v) are not from a shareholder who already has sent two such communications to the Board in the last year. The Board may modify procedures for sorting shareholders' communications or adopt any additional procedures provided that they are approved by a majority of independent directors.

SHAREHOLDER RIGHTS PLAN

The Board reviewed the Company's Shareholder Rights Plan (the "Plan") adopted by the Board in November 1997. Based on its current review, and the amount of support received at the 2003 Annual Meeting of Shareholders by a shareholder proposal to redeem our plan, the Board has elected, subject to SEC approval, to terminate the Plan through the acceleration of the expiration date to March 31, 2004, or when approval is received from the SEC, if later. The Plan was originally set to expire on November 28, 2007.

ITEMS TO BE VOTED ON

Item 1 Election of Directors

You are being asked to vote for **Paul T. Addison, Ernest J. Novak, Jr., John M. Pietruski, Catherine A. Rein, and Robert C. Savage** to serve on the Board of Directors for a three-year term, or until their successors are duly elected and qualified. Mr. Novak, who was recommended as a nominee by a non-management director, is a first-time nominee to serve on the Board.

The Board of Directors currently consists of 15 members divided into three groups. In connection with the changes in the composition of the Board of Directors discussed below, the class of directors with terms expiring in 2006 will be reduced from six members to five members, resulting in a reduction in the size of the Board from 15 members to 14 members. Five nominees will be elected at this Annual Meeting to serve for a three-year term. The remaining directors will continue to serve as indicated in the section entitled "Biographical Information On Nominees And Directors", with four directors having terms expiring in 2005 and five directors having terms expiring in 2006.

Robert L. Loughhead, a director of FirstEnergy or Ohio Edison since 1980 and current member of the Audit Committee and Finance Committee, is retiring from the Board in accordance with current Board membership rules and will not be a candidate for reelection at the Annual Meeting. In addition, Robert B. Heisler, Jr., a director of the Company since 1998 and current member of the Compensation Committee and Corporate Governance Committee, is not standing for reelection at the Annual Meeting. We are grateful for the leadership both gentlemen have provided during their years of service to the Company; their wisdom, knowledge, and judgment will be missed. In an effort to keep the three director class sizes as nearly equal as possible, as required under the Code of Regulations, the Board has nominated Paul T. Addison, who is currently a director in the class with terms expiring in 2006, to serve on the class of directors being elected this year. Mr. Addison will resign from the class of directors with terms expiring in 2006 effective as of the Annual Meeting. Lastly, for specific business needs that necessitate his continuance as a director in order to maintain continuity of the Board as a whole, the Board has elected to nominate John M. Pietruski as a nominee for director this year, as permitted by Board membership rules in regard to retirement.

Under the Code of Regulations, at any election of directors, the persons receiving the greatest number of votes are elected to the vacancies to be filled. Your Board has no reason to believe that the persons nominated will not be available to serve after being elected. If any of these nominees would not be available to serve for any reason after being elected, shares represented by the appointed proxies will be voted either for a lesser number of directors or for another person selected by the Board. However, if the inability to serve is believed to be temporary in nature, the shares represented by the appointed proxies will be voted for that person who, if elected, will serve when able to do so.

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" ITEM 1.

Item 2 Ratification of the Appointment of Auditor

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

You are being asked to ratify the Board's appointment of PricewaterhouseCoopers LLP, independent public accountants, as auditor to examine the books and accounts of the Company for the year 2004. A representative is expected to attend the meeting and will have an opportunity to make a statement and respond to appropriate questions. Refer to the Board Audit Committee Report found later in this proxy statement for information regarding services performed by, and fees paid to, PricewaterhouseCoopers LLP during the years 2003 and 2002.

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" ITEM 2.

Effective with the completion of the year 2001 audits and related regulatory filings, Arthur Andersen LLP was dismissed as the independent accountant for the Company and its wholly-owned subsidiaries, Ohio Edison Company, Pennsylvania Power Company, The Cleveland Electric Illuminating Company, The Toledo Edison Company, Jersey Central Power & Light Company, Metropolitan Edison Company, and Pennsylvania Electric

10

Company. On April 11, 2002, the Board approved the decision to change independent accountants upon the recommendation of its Audit Committee.

The report of Arthur Andersen LLP on the financial statements of the Company for 2001 contained no adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principle, other than the reference in the audit report identifying a change in accounting principle for the adoption of Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended, effective January 1, 2001. In connection with the audit for the year 2001, there have been no disagreements with Arthur Andersen LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Arthur Andersen LLP, would have caused them to make reference thereto in their report on the financial statements. During the two most recent fiscal years preceding the dismissal of Arthur Andersen LLP and through April 11, 2002, there were no reportable events as defined in SEC Regulation S-K Item 304(a)(1)(v). The Company requested that Arthur Andersen LLP furnish it with a letter addressed to the SEC stating whether or not they agree with the above statements. A copy of such letter, as amended and dated May 9, 2002, is attached as Appendix B to this proxy statement.

On April 11, 2002, the Board appointed PricewaterhouseCoopers LLP as its new independent accountant effective for the first quarter of 2002. During the two most recent fiscal years and through April 11, 2002, the Company has not consulted with PricewaterhouseCoopers LLP regarding either:

- (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, and neither a written report was provided to the Company or oral advice was provided that PricewaterhouseCoopers LLP concluded was an important factor considered by the Company in reaching a decision as to the accounting, auditing, or financial reporting issue; nor
- (ii) any matter that was either the subject of a disagreement, as that term is defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, or a reportable event, as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

Item 3 Approval of Amendments to the Amended Code of Regulations to Declassify the Board of Directors

You are being asked to approve amendments to the Code of Regulations to elect each director annually and phase out the classified board, beginning at the Company's 2005 Annual Meeting of shareholders. Adoption of this proposal is subject to approval of the SEC under the Public Utility Holding Company Act of 1935 (later referred to as PUHCA), and the Company has an application for SEC authorization pending. Approval of this proposal requires the affirmative vote of 80 percent of the shares entitled to vote. Abstentions and broker non-votes, if any, will have the same effect as a negative vote. However, we expect brokers will be permitted to vote shares on Item 3 absent beneficial owner instructions. **YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THIS PROPOSAL.**

The Code of Regulations provides in Regulation 11 that the Board of Directors be divided into three classes with members of each class serving three-year terms. Each director currently serves a three-year term, and directors for one of the three classes are elected each year.

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

The Board of Directors has unanimously adopted resolutions, subject to shareholder and regulatory approval, amending the Code of Regulations to declassify the Board. The proposal would require the annual election of directors beginning with the director slate to be voted upon at the Company's 2005 Annual Meeting.

Proponents of classified boards assert they promote the independence of directors because directors elected for multi-year terms would be less subject to outside influence. Proponents also believe they provide continuity and stability in the management of the business and affairs of a company since a majority of directors always will have prior experience as directors of the company. This continuity may assist a company in long-term strategic planning. These proponents further assert classified boards may enhance shareholder value by forcing an entity

11

seeking control of a target company to initiate arm's length discussions with the board of a target company because the entity would be unable to replace the entire board in a relatively short period of time.

On the other hand, some investors have stated that the very characteristics of classified boards that promote stability also have the effect of reducing accountability to shareholders because classified boards limit the ability of shareholders to elect all directors on an annual basis. A staggered board structure also may discourage proxy contests in which shareholders have an opportunity to vote for a competing slate of nominees. In addition, opponents of a classified board assert that it may deter some tender offers or substantial purchases of stock that might give shareholders the opportunity to sell their shares at a price in excess of what they would otherwise receive.

A shareholder proposal to declassify the Board of Directors has been received by the Company and included in its proxy materials each year since 1998. Each year, the Board of Directors has considered carefully the advantages and disadvantages of maintaining a classified board. While the Board of Directors still believes that there are compelling reasons to maintain a classified board, in furtherance of its goal of ensuring sound corporate governance policies, this year, after further consideration of the various arguments for and against a classified board and in light of the amount of shareholder support for a similar proposal at last year's Annual Meeting, the Board of Directors has decided to propose declassifying the Board.

A shareholder submitted a proposal for the 2004 Annual Meeting of Shareholders requesting that the Board of Directors take the steps necessary so that each director is elected annually. The shareholder withdrew the proposal based on the Board's decision to submit a proposal to shareholders at the 2004 Annual Meeting to declassify the Board. This proponent's name, address, and number of shares held will be furnished upon written or oral request to the Company.

Approval of the proposal requires the affirmative vote of the holders of at least 80 percent of the voting power of the Corporation, voting as a single class, and the approval of the SEC, as noted above. If the proposal is approved as set forth above, it would be effective as of the Company's 2005 Annual Meeting of shareholders. Directors who had been elected previously for three-year terms expiring beyond the 2005 Annual Meeting would serve out the balance of their terms so that no director previously elected to a multiyear term would have his or her term shortened. Consequently, under the proposed amendments, the first class of directors to be elected to one-year terms would be in 2005. Directors standing for election in 2006 and 2007 would likewise be elected to one-year terms so that upon the conclusion of the Annual Meeting in 2007, the declassification of the Board would be complete and all directors would be subject to annual election. Directors who are elected at the 2004 Annual Meeting will serve a three-year term. Any director elected to fill a vacancy that does not result from a newly created directorship will hold office for the remainder of the full term of the director he or she is replacing.

The proposed amendments to the Code of Regulations are set forth in Appendix C to this proxy statement with deletions indicated by strike-outs and additions indicated by underlining. The Board of Directors urges shareholders to carefully read Appendix C.

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" ITEM 3

Item 4 Approval of Amendments to the Amended Articles of Incorporation and Amended Code of Regulations (together the "Governing Documents") to Change Certain Voting Requirements

You are being asked to consider and vote upon a proposal to amend Regulation 36 of the Code of Regulations and to repeal Article X of the Articles of Incorporation. These provisions relate to the voting requirements for amending or repealing certain provisions in the Governing Documents. Currently, the affirmative vote of 80 percent of the shares entitled to vote, voting as a single class (together, an "80 percent Supermajority") is required to make certain amendments to the Governing Documents. The Board of Directors is proposing that these special 80 percent Supermajority voting requirements be changed in the Governing Documents to reduce the voting requirements from 80 percent of the shares entitled to vote to two-thirds.

14

Approval of this proposal requires the affirmative vote of 80 percent of the shares entitled to vote. Abstentions and broker non-votes will have the same effect as a negative vote. Adoption of this proposal is subject to the approval of the SEC under the PUHCA. The Company's application to approve these amendments, subject to shareholder approval, is pending with the SEC. **YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THIS PROPOSAL.**

Ohio law generally requires the affirmative vote of two-thirds of the shares entitled to vote, voting as a single class, in order for shareholders to amend the Articles of Incorporation. In most instances, however, shareholders may adopt higher or lower voting requirements (See section 1701.71 (A)(1) of the Ohio General Corporation Law for amendments to the Articles).

Article X of the Articles of Incorporation establishes an 80 percent Supermajority requirement to amend or repeal the following provisions: Article V the fixing or changing of the terms of unissued or treasury shares; Article VI the absence of cumulative voting rights in the election of directors; Article VII the absence of preemptive rights to acquire unissued shares; and, Article VIII the ability of the company to repurchase its shares. Similarly, Regulation 36 of the Code of Regulations also establishes an 80 percent Supermajority requirement to amend or repeal certain regulations: Regulation 1 the time and place of shareholder meetings; Regulation 3(a) the calling of special shareholder meetings; Regulation 9 the order of business at shareholder meetings; Regulation 11 the number, election and term of directors; Regulation 12 the manner of filling vacancies on the Board of Directors; Regulation 13 the removal of directors; Regulation 14 the nomination of directors and elections; and, Regulation 31 the indemnification of directors and officers. Both Article X and Regulation 36 require an 80 percent Supermajority vote to be amended or repealed.

The Board of Directors has unanimously adopted resolutions, subject to shareholder and regulatory approval, amending the Articles of Incorporation and the Code of Regulations to change these special 80 percent Supermajority voting requirements. The 80 percent Supermajority voting requirement would in effect be reduced generally to two-thirds.

In addition, the Board of Directors proposes to change the 80 percent Supermajority voting requirement in Regulations 11 and 13 of the Code or Regulations. Currently, Regulation 11 of the Code of Regulations enables a change in the number of Directors of the Company, and Regulation 13 provides that any Director or the entire Board of Directors may be removed, in each case only by the affirmative vote of the holders of at least 80 percent of the voting power of the Corporation, voting together as a single class. The Board of Directors proposes to reduce this 80 percent Supermajority in both cases to two-thirds.

The adoption by the shareholders of the Company and those of many other public corporations of an 80 percent Supermajority voting requirement reflects the desire that decisions affecting the most important aspects of the Company's existence and operation be fair to all shareholders. The requirement of such broad consensus only applies to provisions that are very significant to the Company. In addition, an 80 percent Supermajority voting requirement encourages potential acquirers to negotiate with the Board of Directors rather than just a few large shareholders, thereby enhancing the Board of Directors' ability to maximize value for all shareholders. Furthermore, while 80 percent Supermajority provisions do not preclude an unsolicited takeover offer, they can make it more likely that all shareholders will be treated fairly in the takeover process.

While these protective measures are beneficial, there are also compelling arguments for having a lower threshold for shareholder amendments to the Governing Documents. For example, in recent years some investors have expressed the view that a lower threshold for shareholder amendments in the Governing Documents may improve the corporate governance profile of a company in that it allows increased flexibility in responding to unforeseen challenges and increases shareholders' ability to effectively participate in the company's governance.

Similar amendments seeking to remove the 80 percent Supermajority voting requirement from the Code of Regulations and the Articles of Incorporation have been proposed by the Company's shareholders in the past and have received support at Annual Meetings. Given the amount of shareholder support for this proposal and following careful assessment, the Board of Directors has decided to propose the elimination of the 80 percent

Supermajority voting requirement. While the Board of Directors believes that the 80 percent Supermajority provision can be an important tool for protecting shareholders, it also believes that there are compelling arguments, at this point, for changing the Company's 80 percent Supermajority voting requirement. The Board of Directors is dedicated to ensuring that the Company's corporate governance policies provide overall benefits to its shareholders and believes that it is in the best interest of the Company and its shareholders to change the 80 percent

Supermajority voting requirement.

The proposed amendments to the Company's Articles of Incorporation and Code of Regulations are set forth in Appendix D, with deletions indicated by strike-outs and additions indicated by underlining. The Board of Directors urges shareholders to carefully read Appendix D.

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" ITEM 4

Item 5 Approval of Currently Existing FirstEnergy Corp. Executive Deferred Compensation Plan

You are being asked to approve the FirstEnergy Corp. Executive Deferred Compensation Plan (the "Executive Deferred Compensation Plan"). The Executive Deferred Compensation Plan was established in 1985 and most recently was amended by FirstEnergy's Board of Directors effective February 17, 2004, to impose a ten-year term and a share reserve on certain features of the Executive Deferred Compensation Plan and to make other clarifying changes. None of these changes represent an enhancement to executive compensation. Approval of this proposal requires the affirmative vote of a majority of the votes cast. **YOUR BOARD RECOMMENDS THAT YOU VOTE "FOR" THIS PROPOSAL.**

PURPOSE OF THE PROPOSAL

The Executive Deferred Compensation Plan permits eligible employees to defer payment of salary and incentive payments. The employees are permitted to have certain deferrals treated as though they were invested in FirstEnergy common stock as well. Employees who choose the FirstEnergy common stock deferral option are credited with an additional amount equal to 20 percent of their deferral. This additional 20 percent is treated as invested in FirstEnergy common stock. Further, dividend equivalents are credited to the stock account. These features are included to encourage executive investment in FirstEnergy common stock. A copy of the Executive Deferred Compensation Plan may be obtained electronically by visiting the Company's Internet site at www.firstenergycorp.com/ir.

In 2003 the New York Stock Exchange (the "Exchange") approved a new listing standard requiring shareholder approval of certain "equity compensation plans." While the Exchange has long required shareholder approval of certain types of stock option plans and other equity compensation plans, the new listing standard requires shareholder approval of a broader variety of plans. Deferred compensation plans containing a "matching" or "bonus" formula that credits additional shares of stock to an employee's account based on the amount of his or her deferrals are now required to be approved by shareholders.

The 20 percent match and the dividend equivalent features under the Executive Deferred Compensation Plan are considered to be a "formula plan" under the Exchange listing standard. As such, these features are required to contain either a fixed term of no more than ten years or a maximum share reserve, and they must be approved by shareholders. The Board of Directors has imposed a ten-year term and a maximum reserve of 1,000,000 shares on these features in the Executive Deferred Compensation Plan that becomes effective as of the date of this meeting if shareholders approve the Plan (the term would expire on May 17, 2014). If shareholders do not approve the Executive Deferred Compensation Plan at this year's meeting, the Board of Directors will remove the 20 percent match and the dividend equivalent features in their current form and may provide either for no match credits and no dividend equivalents or for match credits and dividend equivalents that are paid in cash or otherwise not deemed invested in FirstEnergy common stock. In either event the Executive Deferred Compensation Plan would continue to allow employees to defer salary and incentive payments and to have those deferrals deemed to be invested in FirstEnergy common stock.

14

Material Features of the Plan

Eligible Employees. Key employees of FirstEnergy or one of its subsidiaries or affiliates, as designated by FirstEnergy's Chief Executive Officer, are eligible to participate in the Executive Deferred Compensation Plan. As of December 31, 2003, approximately 372 employees were participating in the Plan.

Deferral Elections. Eligible employees who wish to participate must make an election to defer salary or incentive payments on or before December 15 of the year preceding the year in which the compensation will be deferred. Under applicable law, all deferrals are into recordkeeping accounts only. Elections are irrevocable except in cases of unforeseen and sudden financial emergency. Participants can defer between 1 percent and 50 percent of base salary, and any amount (1 percent or greater) of their annual incentive award and/or long-term incentive award.

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

Investment Return. Salary deferrals may be credited only to a "Retirement Account." The Retirement Account earns a rate of return derived from the average of Moody's Average Corporate Bond Yield Index. Deferrals of annual incentive awards are credited, at the participant's election, either to his or her Retirement Account or to a FirstEnergy Common Stock Account. Deferrals of long-term incentive awards may only be credited to the FirstEnergy Common Stock Account. The FirstEnergy Common Stock Account is adjusted as though the deferrals are invested in FirstEnergy common stock. Dividend equivalents are credited to the FirstEnergy Stock Account and are deemed invested in additional shares of FirstEnergy common stock.

20 Percent Match Feature. If a Participant defers his or her annual or long-term incentive awards into the First Energy Stock Account, the amounts deferred are credited with a 20 percent match. This 20 percent match vests and becomes payable only if it remains in the account for three years following the date it was credited and, at the end of those three years, the participant either remains employed with FirstEnergy or one of its subsidiaries or affiliates or the participant has retired after reaching age 60. However, the match will vest immediately during the three-year period if the participant dies, becomes disabled, or is involuntarily terminated under circumstances that qualify him or her for severance benefits and such benefits are so elected, or if there is a change in control of FirstEnergy.

Payment of FirstEnergy Common Stock Account. All payments to participants from the FirstEnergy Common Stock Account are made in the form of FirstEnergy common stock, after deduction of withholding taxes. Payment is made at the time specified in the participant's election, but cannot be later than three years after the date of deferral. The participant can elect, however, to defer the payment beyond the three-year period by having the fair market value of the payment transferred from the FirstEnergy Common Stock Account to a "Retirement Stock Account." The Retirement Stock Account may be paid out in stock or the account value may be transferred to the participant's Retirement Account based upon his or her prior irrevocable election and circumstances of employment separation.

Payment of Retirement Account. All payments from the Retirement Account are made in cash, after deduction of withholding taxes. Participants who retire at or after age 55 at a time when they are entitled to a benefit under the FirstEnergy Corp. Pension Plan can elect to have their Retirement Account paid in a lump sum or in monthly installments over a period not exceeding 25 years, or they can defer payments to a later date (but not beyond the first of the month following their 70th birthday). Participants who terminate employment on account of disability have the same payment options. If a participant dies before his or her Retirement Account has been paid in full, the account will be paid out (or continue to be paid out) in accordance with the participant's payment election, except that any election to further defer payment will be cancelled. Participants who terminate employment prior to retirement, death or disability generally receive payment of their Retirement Account in a lump sum immediately after termination. However, participants who are involuntarily terminated under circumstances that qualify for severance benefits and such benefits are so elected may have their Retirement Account paid out immediately or, based upon prior election, may receive the proceeds of their Retirement Accounts over a three-year period.

15

Earlier Payments of Accounts. Employees who have participated in the Executive Deferred Compensation Plan for at least five calendar years can request an in-service withdrawal of a portion of their Retirement Account and Retirement Stock Account. Such withdrawals can be paid no earlier than the first of the month in the second calendar year following the calendar year in which the withdrawal request is made. In addition, a participant can elect an accelerated payment of his or her Retirement Account and/or FirstEnergy Stock Account, subject to a 10 percent penalty and forfeiture of any 20 percent match amounts (and related earnings) that have not been held in the FirstEnergy Stock Account for at least three years. Active employees who receive an accelerated distribution cannot resume further deferrals under the Executive Deferred Compensation Plan until January 1 of the second calendar year following the calendar year in which they receive the distribution.

Supplemental Pension Benefit. Eligible employees who participate in the FirstEnergy Corp. Pension Plan at the time they terminate employment can receive a supplemental pension benefit from the Executive Deferred Compensation Plan. This supplemental benefit is designed to compensate the participant for any reduction in his or her Pension Plan benefit because of any deferral elections made under the Executive Deferred Plan, the exclusion of annual incentive awards from the Pension Plan benefit calculation, and certain restrictions under Sections 401(a)(17) and 415 of the Internal Revenue Code. The supplemental pension benefit is paid in the same form and over the same period as the participant's Pension Plan benefits.

Plan Administration, Amendment and Termination

An Administrative Committee consisting of three or more persons appointed by FirstEnergy's Chief Executive Officer administers the Executive Deferred Compensation Plan. FirstEnergy's Board of Directors or the Compensation Committee of the Board of Directors can terminate or amend the Executive Deferred Compensation Plan at any time. No termination or amendment can decrease or restrict any balance in a Retirement Account, restrict the right to receive a lump sum payment from a Retirement Account, decrease the interest rate credited to a Retirement Account below the Moody's Average Corporate Bond Yield Index less one percent (unless the balance of the Retirement Account is

17

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

paid to the participant within 60 days of that amendment), or decrease or restrict any participant's supplemental pension benefit.

Unless terminated earlier by the Board of Directors, or unless the maximum share reserve is depleted, the 20 percent match and dividend equivalent features will terminate on May 17, 2014, unless shareholders reapprove these features prior to that date. Any outstanding 20 percent match and dividend equivalent credits would be unaffected by termination.

PLAN BENEFITS FOR 2003

The following table summarizes the 20 percent match and dividend equivalents that were credited in 2003 under the Executive Deferred Compensation Plan to the FirstEnergy Stock Accounts of the executive officers shown in the Summary Compensation Table and of other employees. Deferred amounts of salary and bonuses in 2003 are included in the salary, bonus and long-term incentive plan columns of the Summary Compensation Table. Non-employee members of the Board of Directors cannot participate in the Executive Deferred Compensation Plan. They participate solely in the Director Deferred Compensation Plan described in Item 6.

16

Item 6 Approval of Currently Existing FirstEnergy Corp. Deferred Compensation Plan for Outside Directors

You are being asked to approve the FirstEnergy Corp. Deferred Compensation Plan for Outside Directors (the "Director Deferred Compensation Plan"). The Director Deferred Compensation Plan was established in 1997 and most recently was amended by FirstEnergy's Board of Directors effective February 17, 2004, to impose a ten-year term and a share reserve on certain features of the Plan and to make other clarifying changes. None of these changes represent an enhancement to director compensation. Approval of this proposal requires the affirmative vote of a majority of the votes cast. **YOUR BOARD RECOMMENDS THAT YOU VOTE "FOR" THIS PROPOSAL.**

PURPOSE OF THE PROPOSAL

As discussed under "What is the current compensation of directors?" on page 8, members of FirstEnergy's Board of Directors receive a portion of their annual retainer in the form of FirstEnergy common stock and a portion in cash. Fees for attending meetings, visiting facilities and chairing committees are payable in cash. The Director Deferred Compensation Plan permits members of FirstEnergy's Board of Directors to defer payment of these retainers and fees. Deferrals of the portion of the annual retainer payable in FirstEnergy common stock are treated as though they were invested in FirstEnergy common stock. Directors can choose how their cash deferrals are deemed invested, including an investment in FirstEnergy common stock. Directors who choose the FirstEnergy common stock investment for their cash deferrals are credited with a 20 percent match, that is, an additional amount equal to 20 percent of their cash deferral is treated as invested in FirstEnergy common stock. In addition, dividend equivalents are credited to all deferral accounts deemed invested in FirstEnergy common stock. These features are included to encourage director investment in FirstEnergy common stock. A copy of the Director Deferred Compensation Plan may be obtained electronically by visiting the Company's Internet site at www.firstenergycorp.com/ir.

In 2003 the Exchange approved a new listing standard requiring shareholder approval of certain "equity compensation plans." While the Exchange has long required shareholder approval of certain types of stock option plans and other equity compensation plans, the new listing standard requires shareholder approval of a broader variety of plans. Deferred compensation plans containing mandatory payments in company stock or a "matching" or "bonus" formula that credits additional shares of stock to an individual's account based on the amount of his or her deferrals now are required to be approved by shareholders.

The mandatory payment of a portion of the annual retainer in the form of FirstEnergy common stock and the 20 percent match and dividend equivalent features of the Director Deferred Compensation Plan are considered to be a "formula plan" under the Exchange listing standard. As such, these features are required to contain either a fixed term of no more than ten years or a maximum share reserve and must be approved by shareholders. The Board of Directors has imposed a ten-year term and a maximum reserve of 500,000 shares on these features in the Director Deferred Compensation Plan that becomes effective as of the date of this meeting if shareholders approve the Director Deferred Compensation Plan (the term would expire on May 17, 2014). If shareholders do not approve the Director Deferred Compensation Plan at this year's meeting, the Board of Directors will no longer require the mandatory payment of a portion of the annual retainer in FirstEnergy common stock but may permit directors to choose to have their cash retainers invested in FirstEnergy shares. Similarly, if the Director Deferred Compensation Plan is not approved at this year's meeting, the Board of Directors will remove the 20 percent match and dividend equivalent features in their current form and may provide either for no match or dividend equivalent credits or for match or dividend equivalent credits that are paid in cash or otherwise not deemed invested in FirstEnergy common stock. In either event the Director Deferred Compensation Plan would continue to allow directors to defer their director's fees and to have those deferrals deemed to be invested in FirstEnergy common stock.

Material Features of the Plan

Eligibility. Any member of FirstEnergy's Board of Directors is eligible to participate in the Director Deferred Compensation Plan. As of December 31, 2003, 20 current and former directors were participating in the Plan.

Mandatory Payment of Portion of Annual Retainer in FirstEnergy Common Stock. As discussed under "What is the current compensation of directors?" on page 8, directors receive annual retainers of \$30,000 in cash and \$40,000 in the form of FirstEnergy common stock. Additional fees are payable in cash for attending meetings, visiting facilities and chairing committees. Payment of all or any portion of these retainers and fees can be deferred under the Director Deferred Compensation Plan.

Deferral Elections. Directors automatically participate in the portion of the Director Deferred Compensation Plan providing for the payment of \$40,000 of the annual retainer in the form of FirstEnergy common stock. To defer payment of that retainer or of any other retainer or fees payable in cash, however, directors must make an initial election to defer all or a portion of their director's fees and retainers on or before December 15 of the year preceding the year in which the fees and retainers will be deferred. New directors can provide their initial election within thirty days of becoming a director. Elections are irrevocable and continue from year to year, provided that the director can elect to amend or terminate his or her election before December 15 of the year preceding the year of any deferral.

Investment Return. Deferred director's fees and cash retainers are credited to either a Deferred Fee Account or a Deferred Stock Account as of the date the fees would otherwise be payable. Both accounts are recordkeeping accounts. The portion of the annual retainer that is paid each quarter automatically in the form of FirstEnergy common stock can be deferred only into the Deferred Stock Account. The portion of the annual retainer that is payable in cash and the annual fees for chairing a committee, attending committee meetings or visiting facilities, can be deferred, at the director's election, either into the Deferred Stock Account or the Deferred Fee Account. The Deferred Stock Account is credited with investment returns as though it were invested in shares of FirstEnergy common stock. Dividend equivalents are credited to the Deferred Stock Account and are deemed invested in additional shares of FirstEnergy common stock. The Deferred Fee Account is credited with investment returns based on either a deemed interest rate or deemed investment gains and losses for other investment vehicles, as selected by the Compensation Committee of the Board of Directors. If a deemed interest rate is used, the rate will be the "prime rate" then in effect at the bank selected by the Compensation Committee.

20 Percent Match Feature. When cash fees and retainers are credited to a director's Deferred Stock Account, the account is credited with a 20 percent match. No match is credited with respect to the portion of the annual retainer that is payable in the form of FirstEnergy common stock. This 20 percent match vests and becomes payable only if it remains in the account for three years following the January 1 of the year of deferral. However, the match will vest immediately during the three-year period if the director dies, becomes disabled, or retires, upon an actual or potential change in control of FirstEnergy, or in situations where the director is ineligible to stand for reelection due to circumstances unrelated to his or her performance as a director.

Payment of Accounts. Amounts credited to the Deferred Fee Account and Deferred Stock Account are paid to the director on the first January 1 following the date he or she ceases to be a director, unless the director has elected a later payment date at least 120 days prior to the day he or she ceases to be a director. Payment cannot be deferred beyond the first January 1 following the day the director reaches age 72. Amounts credited to the Deferred Fee Account, including deemed interest and earnings, can be paid either in a cash lump sum or in annual cash installments over not more than ten years. Amounts credited to the Deferred Stock Account are paid solely in the form of FirstEnergy common stock. Upon a director's death, the unpaid balances in his or her Deferred Fee Account and Deferred Stock Account will be paid in a lump sum

or a designated number of equal annual installments selected in the director's beneficiary designation.

18

Earlier Payments of Accounts. Directors who have participated in the Director Deferred Compensation Plan for at least five calendar years can request an in-service withdrawal of all or a portion of their Deferred Fee Account and, once that account balance has been exhausted, from their Deferred Stock Account. Upon a change in control, the cash balance of the director's Deferred Fee Account will be paid immediately as a lump sum, and the balance of his or her Deferred Stock Account will be paid in the form of FirstEnergy common stock as soon as possible. In the absence of a change in control, a director can elect an accelerated payment of his or her Deferred Fee Account and/or Deferred Stock Account, subject to a 10 percent penalty and forfeiture of any 20 percent match amounts (and related earnings) that have not been held in the FirstEnergy Stock Account for at least three years. Active directors who receive an accelerated distribution cannot resume further deferrals under the Director Deferred Compensation Plan until January 1 of the second calendar year following the calendar year in which they receive the distribution.

Plan Administration, Amendment and Termination

The Compensation Committee of FirstEnergy's Board of Directors administers the Director Deferred Compensation Plan. FirstEnergy's Board of Directors can terminate or amend the Director Deferred Compensation Plan at any time. No termination or amendment can adversely affect a director's deferred retainers and fees without his or her consent. Unless terminated earlier by the Board of Directors, or unless the maximum share reserve is depleted, the mandatory payment of a portion of the annual retainer in the form of FirstEnergy common stock and the 20 percent match and dividend equivalent features of the Director Deferred Compensation Plan will terminate on May 17, 2014, unless shareholders reapprove these features prior to that date. The outstanding deferrals of retainers payable in FirstEnergy common stock and any outstanding 20 percent match and dividend equivalent credits would be unaffected by termination.

PLAN BENEFITS FOR 2003

The following table summarizes the portion of the annual retainer payable in the form of FirstEnergy common stock and the 20 percent match and dividend equivalent credits that were credited in 2003 under the Director Deferred Compensation Plan to the accounts of non-executive members of FirstEnergy's Board of Directors. None of the directors who are executive officers of FirstEnergy participated in the Director Deferred Compensation Plan in 2003. They participated solely in the Executive Deferred Compensation Plan described in Item 5.

Item 7 Shareholder Proposal

A shareholder has indicated its intention to present a proposal at the Annual Meeting requesting that the Board amend the Articles of Incorporation and the Code of Regulations (together the "Governing Documents") to eliminate an alleged double standard in voting for proposals, to change the requirement to pass a shareholder proposal to a plurality of the shares represented and to require that the Board of Directors abide by the decisions of the shareholders. Approval of this proposal requires the affirmative vote of at least 80 percent of the shares entitled to vote. In addition, implementation of these proposed amendments would require prior approval of the SEC under the PUHCA. Abstentions and broker non-votes will have the same effect as a negative vote. **YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "AGAINST" THIS PROPOSAL.**

The Company was formed in 1997 as a holding company under Ohio law (not Delaware as the shareholder states) as a result of the merger of Ohio Edison and Centerior Energy. At that time, the Company adopted its Governing Documents with the approval of shareholders. Among other things, the Governing Documents

19

20

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

contained the requirement that certain aspects of the governance and organization of the Company would require the vote of 80 percent of the shares of the Company's voting stock to amend or modify.

The Board first notes that, in Item 4 of the proxy statement, it has submitted for shareholder approval proposed amendments to the Company's Governing Documents which would replace the current 80 percent Supermajority voting requirement with a two-thirds voting requirement. Second, contrary to what is alleged by the proponent, there is nothing in the Governing Documents which subjects shareholder proposals and Board proposals to different voting requirements. In most instances, proposals require a simple majority of the votes cast in order to pass. Depending on the substance of the proposal, a higher voting threshold may be imposed regardless of whether the proposal was initiated by a shareholder or the Board. The higher threshold is imposed when the proposal requires an amendment to a provision in one of the Governing Documents. For example, in some very specific instances, when the proposal requires an amendment to certain aspects of the Company's existence and operation, such as provisions which impact voting requirements or the capital structure of the Company, the affirmative vote of 80 percent of the shares entitled to vote is currently required under the Governing Documents. Consequently, the underlying premise for this proposal rests on the false assertion that the Governing Documents impose a double standard with regard to voting for shareholder or Board proposals. Accordingly, it would be impossible to implement this proposal if it were to pass.

The proposal also requests that the Board of Directors "...change the requirement to pass a shareholder proposal to a plurality of the shares represented...." Such a wholesale removal of a higher voting requirement for certain provisions ignores the reality that some decisions on which shareholders must vote relate to fundamental aspects of the Company, which should require a broader consensus. This higher voting requirement is especially important in the context of an unsolicited takeover attempt, making potential acquirers more likely to negotiate with the Board of Directors rather than just a few large shareholders, thereby enhancing the Board's ability to maximize value for all shareholders. Furthermore, while the provisions with a higher voting requirement do not preclude an unsolicited takeover offer, they can make it more likely that all shareholders will be treated fairly during a takeover process.

The proposal also asks that the Board of Directors "...be required to abide by the decision of the shareholders" if a shareholder proposal received a plurality of votes. Under principles of corporate law, including Ohio law, the Board of Directors is charged with managing the affairs of a company and is bound by a fiduciary duty towards shareholders, which it treats with great seriousness. This proposal, if adopted, could result in the Company being required to take actions which are supported by only a minority of shares entitled to vote. The Board does not believe this would be appropriate or consistent with the fiduciary obligations to act in the best interests of all shareholders.

Article IX of the Articles enables the Board of Directors to adopt resolutions to lower the voting requirements to approve a proposal to a majority of the shares entitled to vote rather than two-thirds in very limited situations, in order to amend the Articles, to adopt a plan of merger, to authorize the sale of all or substantially all of the assets of the Company, or to dissolve the Company. Thus, the Board of Directors already has the flexibility to exercise its discretion, where it determines appropriate, to lower the voting threshold in some situations so as to enable certain changes that are essential to the interests of shareholders.

The proposal wrongly states that there is a double standard with regard to voting for proposals based on whether they are initiated by shareholders or by the Board. As noted above, the Governing Documents make no such distinction. The proposal also seeks to eliminate any voting threshold above a plurality of the shares voted and require the Board of Directors to abide by the decisions of the shareholders. The Board of Directors strongly opposes these measures as they would reduce its ability to fully protect and represent the interest of all shareholders, as is required by its fiduciary duty. **YOUR BOARD OF DIRECTORS ENCOURAGES YOU TO VOTE "AGAINST" THIS PROPOSAL.**

The following is the substance of the proposal as submitted. The proponent's name, address, and number of shares held will be furnished upon written or oral request to the Company.

20

Beginning of Shareholder Proposal

The shareholders of First Energy request that the Board of Directors change the by-laws as they effect shareholder approval of shareholder proposals.

When First Energy reincorporated in Delaware, they automatically took away some shareholder rights. They sent out a 200 or more page document, written in legalese, with a lot of verbosity and redundancy. It was easy for a shareholder to miss some important changes:

1. Changing to a classified Board, with three year rather than one year terms

2. Taking away the right of cumulative voting, which is automatic in Ohio (with a 48 hour notice)
3. Of greatest importance, they created a double standard: requiring a simple majority of represented shares to OK a management proposal, but **requiring 80% of the outstanding shares to approve a shareholder proposal**. This is simply un-American. Even the Supreme Court decides complicated issues by a simple majority.

In Huntington Bank's report to shareholders about their 2003 annual meeting, they were elated that 85% of the outstanding shares were represented in person or by proxy. Dell Computer has a 65% requirement to pass a shareholder proposal, but Mr. Dell owns a vast number of shares, again making it virtually impossible. Most other corporations require a simple majority.

More than ever, shareholders are distrustful of management's seemingly self-interests and although management always says "increasing shareholder value is our greatest concern" and "your vote is very important to us", their actions often do not reflect this. Anyone who has ever attended an annual meeting and reflected upon the non-answers given to shareholder questions can reflect upon this.

Corporate law (which may not be democratic) says that the directors don't have to listen to the shareholders and this is supported by the many companies refusing to act following a large acceptance of shareholder proposals, which often are contrary to the self interests of management. Your company will say that you can replace directors with whom you are dissatisfied, but can you?

Last year at First Energy, a shareholder proposal received 65% of the represented proxies. The CEO stated that they were not required to abide by that vote, but they would look into it. Many of us are anxious to know what they did.

The shareholders of First Energy request that the Board of Directors amend their by-laws to eliminate the double standard and change the requirement to pass a shareholder proposal to a plurality of the shares represented and that they be required to abide by the decision of the shareholders.

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "AGAINST" ITEM 7

Item 8 Shareholder Proposal

A shareholder has indicated its intention to present a proposal at the Annual Meeting that seeks to change the way the Company accounts for stock option grants to employees in its financial statements. In accordance with applicable law and accounting standards, the Company currently reports the impact of stock option programs in the notes to its Consolidated Annual Financial Statements. The shareholder proposal would require that all future stock options be expensed in the Company's annual income statement. Approval of this proposal requires the affirmative vote of a majority of votes cast. **YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "AGAINST" THIS PROPOSAL.**

The shareholder proposal does not seek to eliminate stock options as a legitimate form of compensation. Indeed, the shareholder proposal recognizes that stock options serve as an important component of the Company's overall compensation package. Your Board of Directors certainly shares this view as it has long

21

considered stock option grants to be an important means of attracting, motivating and retaining its talented employees. While the shareholder proposal does not seek to eliminate this valuable compensation tool, it does seek to change how the Company accounts for these options by suggesting that the Company's current practice obscures true operational results. Your Board of Directors disagrees.

Current Generally Accepted Accounting Principles in the United States ("GAAP"), which are based in part on statements issued by the Financial Accounting Standards Board ("FASB"), permit companies to either "expense" stock options in their income statements or disclose the effect of expensing stock options in the notes to their financial statements. The Company has utilized the method of disclosing the options in notes to the Consolidated Financial Statements since Statement No. 123 Accounting for Stock-Based Compensation was issued by the FASB in November 1995. This is the most commonly used method for disclosing options. The notes set forth a detailed summary of stock option activity for the previous three years, including the number of options granted and exercised during such period and the number outstanding as of the end

22

of such period. The disclosures also set forth the weighted average exercise price of stock options and the fair value of outstanding options and calculates for investors the effect of such options on net income and earnings per share. This gives our shareholders timely, factual information devoid of the speculation that now occurs for shareholders and investors of those companies that expense their options using one of many methods.

There is yet to be a uniform methodology for valuing stock options. The FASB gives those companies that decide to expense their stock options a choice of stock option pricing models that take into account various factors. In addition, companies have a choice of underlying assumptions when employing these methodologies. These choices have created a degree of inconsistency and irregularity in valuing stock options for the purpose of expensing them in the income statement. The use of inconsistent valuation methodologies and underlying assumptions will result in financial statements that do not allow accurate comparisons between companies of similar sizes or within similar industries and will affect the reliability of compensation expense estimates. Thus, after careful consideration of the Company's policy regarding the accounting for stock options, the Company still believes that the expensing of options in its annual income statement would fail to advance the interests of investors at this time.

The FASB has recognized the shortcomings with current methods of expensing stock options, particularly the problematic result that similarly situated companies may use different methodologies or rely on different assumptions when calculating the cost of options. Consequently, the FASB has extended an open invitation to comment on option valuation methods in an effort to bring forth a consensus. (See the FASB's Invitation to Comment ACCOUNTING FOR STOCK-BASED COMPENSATION November 18, 2002). The FASB acknowledged in this Invitation to Comment that the inconsistent use of methodologies and key assumptions impairs the comparability of financial results of different companies and further acknowledges that such inconsistent use affects the reliability of compensation expense estimates (See pages 10, 20 and 21 of the Invitation to Comment).

In view of the FASB's ongoing consideration of the valuation and accounting for stock options, your Board of Directors believes that it would be premature for the Company to begin expensing options at this time. Until an appropriate uniform methodology for valuing stock options is developed in a manner that achieves comparability and reliability of compensation expense estimates, that financial information would have limited usefulness to investors. We also strongly believe that the Company would be placed at a relative disadvantage as the accounting treatment has not been standardized or widely adopted and is not required of our competitors. The FASB's process should be allowed to run its course.

Your Board of Directors believes that in this instance it is in the best interest of shareholders for the Company to follow the most widely used industry practice when given a choice under accounting rules and, to the extent there is uncertainty and debate, to await consensus and/or direction from the FASB prior to implementing any material change. However, the Board of Directors will closely monitor the actions of the FASB to ensure that the Company is in full compliance with accounting standards when a uniform methodology emerges. In the meantime, your Board of Directors continues to believe that the current method of accounting

22

for options is in the best interest of all shareholders. **YOUR BOARD OF DIRECTORS ENCOURAGES YOU TO VOTE "AGAINST" THIS PROPOSAL.**

The following is the substance of the proposal as submitted. The proponent's name, address, and number of shares held will be furnished upon written or oral request to the Company.

Beginning of Shareholder Proposal

Stock Option Expensing Proposal

Resolved, that the stockholders of FirstEnergy Corp. ("Company") hereby request that the Company's Board of Directors establish a policy of expensing in the Company's annual income statement the costs of all future stock options issued by the Company.

Supporting Statement: Current accounting rules give companies the choice of reporting stock option expenses annually in the company income statement or as a footnote in the annual report (See: Financial Accounting Standards Board Statement 123). Many companies, including ours, report the cost of stock options as a footnote in the annual report, rather than include the option costs in determining operating income. We believe that expensing stock options would more accurately reflect a company's operational earnings.

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

Stock options are an important component of our Company's executive compensation program. We believe that the lack of option expensing can promote excessive use of options in a company's compensation plans, obscure and understate the cost of executive compensation and promote the pursuit of corporate strategies designed to promote short-term stock price rather than long-term corporate value.

"The failure to expense stock option grants has introduced a significant distortion in reported earnings," stated Federal Reserve Board Chairman Greenspan. "Reporting stock options as expenses is a sensible and positive step toward a clearer and more precise accounting of a company's worth." *Globe and Mail*, "Expensing Options is a Bandwagon Worth Joining," Aug. 16, 2002.

Warren Buffet wrote in a *New York Times* Op-Ed piece on July 24, 2002:

There is a crisis of confidence today about corporate earnings reports and the credibility of chief executives. And it's justified.

For many years, I've had little confidence in the earnings numbers reported by most corporations. I'm not talking about Enron and Worldcom examples of outright crookedness. Rather, I am referring to the legal, but improper, accounting methods used by chief executives to inflate reported earnings.

Options are a huge cost for many corporations and a huge benefit to executives. No wonder, then, that they have fought ferociously to avoid making a change against their earnings. Without blushing, almost all CEOs have told their shareholders that options are cost-free

When a company gives something of value to its employees in return for their services, it is clearly a compensation expense. And if expenses don't belong in the earnings statement, where in the world do they belong?

Bear Stearns recently reported that more than 356 companies are expensing stock options or have indicated their intention to do so. 101 of these companies are S&P 500 companies, representing 39% of the index based on market capitalization. See Bear Stearns Equity Research, Sept. 4, 2003, "More Companies Voluntarily Adopt Fair Value Expensing of Employee Stock Options."

This Fund, along with other Building Trades' union pension funds, sponsored this expensing proposal last proxy season and received majority votes at 26 companies, including Fluor, Calpine, Georgia-Pacific, U.S. Bancorp, Thermo Electron, Veritas Software, Apple Computer and Kohl's. We urge your support for this important reform.

Also once this proposal is adopted, any dilution or removal of this proposal is requested to be submitted to a shareholder vote as a separate ballot item at the earliest possible shareholder election.

We as shareholders voted in support of this topic:

Year	Yes Vote
2003	65%

This percentage is based on yes and no votes cast. I believe this result is more significant because of our directors' objection. The 35%, which voted with our directors objection, equals only 26% of our stock outstanding.

The Council of Institutional Investors www.cii.org formally recommends adoption of this proposal topic and also proposals which are supported by a majority of votes cast (both points apply to FirstEnergy). Institutional investors in general owned 68% of our stock in 2003.

This topic also won an overall 60% yes-vote at 79 companies in 2003. I do not see how our Directors could object to this proposal because it gives our Directors the flexibility to ignore our shareholder input if our Directors seriously believe they have a good reason.

Political Disclosure Resolution

Resolved, that the shareholders of FirstEnergy Corporation ("Company") hereby request that the Company prepare and submit to the shareholders of the Company:

1. A report, updated annually, disclosing its policies for political contributions (both direct and indirect) made with corporate funds. The reports shall include, but not be limited to, contributions and donations to political candidates, political parties, political committees and other political entities organized and operating under 26 USC Sec. 527. This Report shall be disclosed to shareholders through the Company's web site or to shareholders in published form.
2. A semi-annual report of political contributions, disclosing monetary and non-monetary contributions to candidates, parties, political committees and other organizations and individuals described in paragraph 1. This report shall contain the

26

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

following information:

- a. An accounting of the Company's funds contributed or donated to any of the persons described above;
- b. A business rationale for each of the Company's political contributions or donations; and
- c. Identification of the person or persons in the Company who participated in making the decisions to contribute or donate.

Statement of Support: As long-term shareholders of FirstEnergy Corporation, we support policies that apply transparency and accountability to corporate political giving. In our view, such disclosure is consistent with public policy in regard to public company disclosure.

Currently, FirstEnergy Corporation is not required to disclose political contributions made with corporate funds in any Securities and Exchange Commission (SEC) reports to shareholders. Company executives and lobbyists exercise unbridled discretion over the use of corporate resources for political purposes. In addition, there is no SEC requirement for disclosing the business rationale for such donations.

The result is that shareholders are unaware of how and why the Company chooses to make corporate contributions and the political ends that are being furthered by the gift of corporate funds. Company officials may, in fact, be funding groups and candidates whose agendas are antithetical to the interests of it, its shareholders and its stakeholders.

This is the case with FirstEnergy Corporation. The Center for Responsive Politics, a campaign finance watchdog organization, reported that the Company donated \$700,000 in the 2002 election cycle to major party committees and congressional campaign dinners. However, further investigation shows that \$50,000 of the Company's money also went to political committees associated with certain political figures. Those committees, in turn, used the Company's money in ways not generally known to the public that could pose reputational problems and legal risks for the Company.

Absent a system of accountability, corporate executives will be free to use the Company's assets for political objectives not shared by and may be inimical to the interests of shareholders. There is currently no single source of information providing disclosure to the Company's shareholders on this issue. That is why we urge your support for this critical governance reform.

End of Shareholder Proposal

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "AGAINST" ITEM 10

Item 11 Shareholder Proposal

A shareholder has indicated its intention to present at the Annual Meeting a proposal that seeks to change the way the Company administers future severance agreements with its senior executives. The shareholder

26

proposal urges that the Board of Directors seek shareholder approval for future severance agreements with senior executives that provide benefits in an amount exceeding 2.99 times the sum of the executives' base salary plus bonus. Approval of this proposal requires the affirmative vote of a majority of the votes cast. **YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "AGAINST" THIS PROPOSAL.**

The Board of Directors believes that this proposal would not enhance shareholder value and would not be in the best interest of its shareholders. To the contrary, your Board believes it could hinder the Board's ability to attract and hire highly qualified executives.

The Company's executive compensation program, including severance agreements, is overseen by the Board through the Compensation Committee, which is comprised exclusively of independent directors as defined in the Company's Corporate Governance Policies. The Compensation Committee is charged by the Board of Directors with the responsibility of ensuring that executive compensation decisions are made in a manner it believes to be in the best interests of the Company and its shareholders. Periodically, the Compensation Committee utilizes

consultants to ensure that the Company's executive benefit programs, including its severance programs, are in line with industry standards. The Company has agreements with a limited number of its senior executives that provide severance benefits if the individual's employment with the Company or its subsidiaries is terminated under specified circumstances within three years after a change in control of the Company. Such severance benefits include a payment equal to 2.99 times the sum of the individual's base salary plus the average of his/her annual incentive compensation awards over the past three years. The Company has had such agreements with its executives for several years. The Board believes that these arrangements are comparable to plans at similar companies.

Such severance agreements are intended to ensure that the affected individuals are free from personal distractions in the context of a potential change of control, when the Board needs the objective assessment and advice of these executives to determine whether a bid is in the best interests of the Company and its shareholders. The agreements also are designed to attract and retain highly qualified executives and to motivate executives to maximize shareholder returns. Like many other large corporations, the Board of Directors believes that such severance agreements are reasonable, appropriate and necessary.

The proponent suggests that shareholder approval for future severance agreements could be obtained after the material terms were agreed upon. The Board of Directors believes this is impractical and counterproductive. This proposal would place the Company at a competitive disadvantage in recruiting and retaining executive talent because severance agreements offered by the Company would be uncertain and therefore less valuable than those provided by other companies, whose arrangements would not be contingent upon shareholder approval. In addition, implementation of this proposal would be costly and disruptive for the Company. The adoption of the proposal would require the Company to either incur significant expense in calling a special shareholders' meeting for the sole purpose of voting on this type of agreement or delay finalizing such an agreement until after its approval at the annual meeting of shareholders, harming the Company's ability to recruit.

The Compensation Committee, on an ongoing basis, devotes considerable time and effort to compensation issues, including finding the balance to be struck among various objectives of that program. The Board believes that it is ultimately in the shareholders' best interests that the responsibility for this ongoing process continue to be vested in the Compensation Committee rather than being preempted and inhibited by rigid and arbitrary limitations such as that reflected in the proposed resolution.

Because the proposal would limit the Company's ability to offer the competitive employment arrangements required to attract and retain its executives, the Board believes it is not in the best interests of the Company and its shareholders to adopt the proposal. **YOUR BOARD OF DIRECTORS ENCOURAGES YOU TO VOTE "AGAINST" THIS PROPOSAL.**

The following is the substance of the proposal as submitted. The proponent's name, address, and number of shares held will be furnished upon written or oral request to the Company.

27

Beginning of Shareholder Proposal

RESOLVED: that the shareholders of First Energy ("the Company") urge the Board of Directors to seek shareholder approval of future severance agreements with senior executives that provide benefits in an amount exceeding 2.99 times the sum of the executives' base salary plus bonus. "Future severance agreements" include employment agreements containing severance provisions, retirement agreements and agreements renewing, modifying or extending existing such agreements. "Benefits" include lump-sum cash payments and the estimated present value of periodic retirement payments, fringe benefits, perquisites and consulting fees to be paid to the executive.

SUPPORTING STATEMENT:

In our opinion, severance agreements as described in the resolution; commonly known as "golden parachutes", are excessive in light of the high levels of compensation enjoyed by senior executives at the Company and U.S. corporations in general.

We believe that requiring shareholder approval of such agreements may have the beneficial effect of insulating the Board of Directors from manipulation in the event a senior executive's employment must be terminated by the Company. Because it is not always practical to obtain prior shareholder approval, the Company would have the option if this proposal were implemented of seeking shareholder approval after the material terms of the agreement were agreed upon.

The California Public Employees Retirement System, the Council of Institutional Investors and Institutional Shareholder Services generally favor shareholder approval of these types of severance agreements.

28

For those reasons, we urge shareholders to vote for this proposal.

(1) Shares beneficially owned include (a) any shares with respect to which the person has a direct or indirect pecuniary interest, and (b) shares that the person has the right to acquire beneficial ownership within 60 days of February 28, 2004 (Alexander - shares; Burg - shares; Heisler - shares; Maier - shares; Marsh - shares; Savage - shares; Vespoli - shares; and all directors and executive officers as a group - shares). The percentage of shares beneficially owned by any director or nominee, or by all directors and executive officers as a group, does not exceed one percent of the class owned.

(2) Common stock equivalents represent the cumulative number of performance and phantom shares credited to each executive officer. The value of these equivalents is measured in part by the market price of the Company's common stock. Because final payments may vary due to performance factors (see the narrative under the Long-Term Incentive Plan Table), the value of an executive's common stock equivalents may not correlate directly with the stock's market price. Performance, phantom, and deferred shares do not have voting rights or other rights associated with ownership of common stock.

(1) Reimbursement for income tax obligations on perquisites.

(2) Reflects the dollar value of any restricted common stock award on the date of the award, determined by multiplying the number of shares awarded by the closing market price of the Company's common stock on the award date. At December 31, 2003, the total number of all restricted stock holdings and values determined by multiplying the total number of restricted shares by the closing market price of the Company's common stock on December 31, 2003, were as follows: Burg 127,781 shares (\$4,497,891); Alexander 86,995 shares (\$3,062,224); Marsh 1,083 shares (\$38,121); Vespoli 3,250 shares (\$114,400); Keough 0 shares. Dividends on restricted shares are reinvested into additional shares which also are restricted. Restricted shares cannot be sold by the executive during the restricted period, and these shares can be forfeited if the executive leaves the Company prior to the end of the restricted period.

(3) Represent payouts of long-term incentive opportunities under the Executive Incentive Compensation Plan.

(4) Amounts shown in the Bonus and Long-Term Incentive Plan (later referred to as the LTIP) Payouts columns include bonus and LTIP payouts deferred under the Executive Deferred Compensation Plan (later referred to as the EDCP). Under the terms of the EDCP, an executive may defer all or a portion of his/her bonus and/or long-term incentive payment into common stock equivalents in a Stock Account at the then current FirstEnergy stock price. As an incentive to executives to increase their ownership in the Company, any amounts deferred into the Stock Account are increased by 20 percent. During the three-year period following deferral, dividend equivalents are credited to the Stock Account and are converted to additional common stock equivalents. At the end of the three-year period, the common stock equivalents are valued based on the then current FirstEnergy common stock price, and the Stock Account is paid out as stock unless the executive has elected to defer the proceeds further into a Retirement Stock Account within the EDCP. If the executive resigns or is terminated for cause during the three-year period following deferral, the 20 percent incentive amount and any appreciation on it are forfeited. The EDCP is being submitted for shareholder approval at this year's Annual Meeting (see Item 5 in this proxy

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

R. H. Marsh	4,629	3 years	\$ 0	\$ 76,000	\$ 152,000	\$ 228,000
L. L. Vespoli	4,385	3 years	\$ 0	\$ 72,000	\$ 144,000	\$ 216,000
K. J. Keough	4,385	3 years	\$ 0	\$ 72,000	\$ 144,000	\$ 216,000

Each executive's target long-term award was converted into the number of performance shares shown above, calculated using the average of the high and low stock prices of the common stock on the last trading day in 2002. These shares were placed into an account in the executive's name for a three-year period that will end on December 31, 2005. During this three-year performance period, an amount equal to the dividend for a share of common stock will be credited to this account for each performance share in the account on the date that the common stock dividends are paid. These dividend equivalents will be converted into additional performance shares based on the closing price of FirstEnergy common stock on that day. At the end of the three-year performance period, the executive's account will be valued based on the average of the high and low prices on the last trading day in 2005.

The final account value may be adjusted upward or downward based upon the total shareholder return of FirstEnergy common stock relative to an energy services company index during this three-year period. If the total shareholder return ranking is below the 40th percentile, no long-term award will be paid. If the total shareholder return ranking is at or above the 86th percentile, the award payout will be 150 percent of the account value. Award payouts for a ranking between the 40th and 86th percentile will be interpolated between 50 and 150 percent.

The final value of an executive's account, if any, will be paid to the executive in cash early in the year 2006. Executives also may elect to defer the receipt of any Long-Term Incentive Program award in accordance with the provisions of the Executive Deferred Compensation Plan. If an executive retires, dies, separates due to disability, or separates for a reason that the executive qualifies for and elects severance prior to the end of the three-year period, the value of the account will be decreased based on the number of months worked during the period. However, an executive must work at least twelve months during the three-year period to be eligible for an award payout.

For a description of this plan, see "What is the current compensation of directors?" on page 8 and Item 6 on page 17 of this proxy statement.

SEVERANCE AGREEMENTS AND OTHER CONTRACTS

For the executives listed in the Summary Executive Compensation Table, separate severance agreements are currently in effect with Anthony J. Alexander, Richard H. Marsh, Leila L. Vespoli, and Kevin J. Keough. These agreements provide for the payment of severance benefits if the individual's employment with FirstEnergy or its subsidiaries is terminated under specified circumstances within three years after a change in control of FirstEnergy. A change in control includes the acquisition of the beneficial ownership of 50 percent or more of the outstanding shares of common stock or other voting stock of the Company, a change in the majority of the members of the Board of Directors, or a reorganization, merger, or dissolution of the Company. The agreements are intended to ensure that the individuals are free from personal distractions in the context of a potential change in control, when the Board needs the objective assessment and advice of these executives to determine whether an offer is in the best interests of the Company and its shareholders. The principal severance benefits under each agreement include payment of the following when the individual is terminated or resigns for good reason, which generally is defined as a material change, following a change of control, inconsistent with the individual's previous job duties or compensation:

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

The individual's base salary and accrued benefits through the date of termination, including a pro-rata portion of the annual and all deferred long-term incentive awards earned;

2.99 times the sum of the individual's base salary plus the average of his/her annual incentive compensation awards over the past three years;

Supplemental Executive Retirement Plan (later referred to as the SERP) benefits as follows: if the individual is less than age 55 at termination, the benefit is calculated as if he/she were age 55, offset by compensation earned from subsequent employers until age 55, at which time it then will be offset by pension benefits and, at age 62, further offset by Social Security payments; if the individual is between age 55 and 62 at termination, the benefit is calculated in accordance with the SERP and will be offset by Social Security payments beginning at age 62; if the individual is age 62 or more at termination, the benefit is calculated in accordance with the SERP;

Continuation of group health and life insurance, as if the individual had retired at the greater of his/her current age or age 55, and the greater of his/her current years of service or actual years of service at age 55; and

Payment of legal fees and expenses as well as any excise taxes resulting from the agreement.

The severance agreements have initial three-year terms and will terminate on December 31, 2005. In 2003, the Compensation Committee retained an outside consultant to review the current provisions of the severance agreements. As a result of the consultant's findings, the Compensation Committee chose not to extend the current agreements. Instead, the Compensation Committee executed new agreements with the above executives and others that are effective in the case of Mr. Alexander, on February 17, 2004, and on January 1, 2006 for the others. The principal changes relate to the retirement, health care, and life insurance benefits payable to such executives if their employment is terminated under specified circumstances within three years after a change in

36

control of the Company. The following changes apply to all the executives named above except Mr. Keough. In regard to retirement plans, (a) three years will be added to the executive's age and service at termination, (b) pension benefits will be calculated with the enhanced age and service, and (c) benefits will be paid out no earlier than an adjusted age of 55. In regard to health care, an executive will receive health care benefits on the same terms as an active employee for three years. Lastly, in regard to life insurance, an executive will receive life insurance benefits on the same terms as an active employee for three years. In the case of Mr. Keough, his benefits, where applicable, will be enhanced by two years instead of three years; and his cash severance will be two times the sum of his base salary plus his average annual incentive over the past three years. An executive would be prohibited for two years from working for or with competing entities after receiving severance benefits from this change in control agreement.

EXECUTIVE RETIREMENT PLAN

The FirstEnergy Supplemental Executive Retirement Plan is limited to eligible executives. At normal retirement, eligible senior executives who participated in the SERP prior to 1999 and have five or more years of service with the Company or its subsidiaries, or eligible senior executives who began participation in the SERP in 1999 or later and have ten or more years of service, are provided a retirement benefit from the SERP. This benefit is equal to the greater of 65 percent of the executive's highest annual salary, or 55 percent of the average of the executive's highest three consecutive years of salary plus annual incentive awards paid after January 1, 1996, and paid prior to retirement. The SERP benefit is reduced by the executive's pensions under tax-qualified pension plans of the Company or other employers, any supplemental pension under the Company's Executive Deferred Compensation Plan, and Social Security benefits. In some cases, the executive's tax-qualified pension and supplemental pension may exceed the SERP benefit. Subject to exceptions that might be made in specific cases, senior executives retiring prior to age 65, or with less than five years of service, or both, may receive a similar but reduced benefit. The SERP also provides for disability and surviving spouse benefits. As of the end of 2003, the estimated annual retirement benefits of the executive officers listed in the Summary Executive Compensation Table at age 65 from these sources were: Alexander-\$480,523; Marsh-\$262,734; Vespoli-\$238,569, and Keough-\$242,008. The annual retirement benefit from all the above sources that will be paid to the beneficiary of Mr. Burg is \$558,055.

BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

The Compensation Committee of the Board of Directors (later referred to in this report as the Committee) has responsibility for monitoring the executive compensation programs of the Company to determine whether they are coordinated properly and achieving their intended purpose. The Committee comprises five directors listed at the end of this report, none of whom is an employee of the Company, and each of whom qualifies as a non-employee director for the purpose of Rule 16b-3 under the Securities Exchange Act of 1934 and an outside director for the purposes of Section 162(m) of the Internal Revenue Code. Also, as provided for in the Company's Corporate Governance Policies, each member qualifies as independent as defined from time to time by regulations of the New York Stock Exchange and the Securities and Exchange Commission.

In 2003, the Company reviewed its compensation practices surrounding executives and directors, reviewed the Committee charter which reflects the criticality of its role in aligning executive and director pay with shareholders' interests, implemented a formal CEO evaluation process and reviewed its compensation philosophy to address the current business environment.

Committee Charter

In accordance with the charter, the purpose of the Committee is

To discharge the responsibilities of the Board of Directors (the "Board") as specified in this Charter relating to compensation of certain senior-level officers of the Company, including the chief executive officer ("CEO"), the Chairman, if the Chairman is not the CEO, and other proxy-named individuals;

37

To review and endorse a compensation philosophy that supports competitive pay for performance and is consistent with the corporate strategy; and

To assist the Board in establishing the appropriate incentive compensation and equity-based plans for the Company's executive officers, to administer such plans in order to attract, retain and motivate skilled and talented executives and to align such plans with Company and business unit performance, business strategies and growth in shareholder value.

To assist the Committee in fulfilling its charter obligations, the Committee established an annual work plan and meeting agendas that include executive sessions, which are held without the presence of management.

Philosophy

The Company's compensation philosophy applies to all executives and reflects the following principles:

The total compensation will reflect a pay-for-performance orientation under which a significant portion of actual total compensation will reflect corporate, business unit and individual performance.

Base salaries will be generally targeted at or near the median competitive levels in the associated peer group. Variations above or below median levels will be used to reflect the relative responsibilities of the position within FirstEnergy to facilitate internal equity. Further, base salaries will reflect the individual qualifications, experience and sustained performance level of the individual.

Generally, the peer group used to define competitive levels of compensation will be the integrated energy services industry. In addition, consideration will be given to data from the competitive general industry in circumstances where that is the relevant pool in which we compete for talent.

Incentive opportunities for executives are targeted at median competitive levels for achievement of planned corporate goals but will allow executives to achieve total compensation in the 75th percentile of the relevant peer group if both corporate and individual performance are superior; however, there will be a significant downside if corporate and/or individual

39

performance is below standard (threshold).

The proportion of pay at risk will increase as an executive's level of responsibility increases. Incentive opportunities will be designed to align with the long-term interests of shareholders. An appropriate balance of annual, medium-term and longer-term incentives will facilitate the retention of talented executives, reward long-term strategic results and encourage stock ownership.

Short-term incentive opportunities will be based on a combination of corporate, business unit and individual goals. As an executive's level of responsibility increases, a greater percentage of the annual incentive will be based on corporate goals. Corporate goals should reflect the targeted performance objectives for the year and should be heavily weighted to financial targets.

Medium- and long-term incentive awards will reflect actual performance relative to a peer group for those measures that lend themselves to that approach.

Consistent with this philosophy, the compensation for the Company's outside directors will generally be targeted at or near the median competitive levels for the electric utility industry.

CEO Evaluation Process

As defined by the Charter, in 2003 the Committee established a process to obtain an evaluation of the CEO's performance from all independent directors. This process consists of both a written summary and an oral presentation by the CEO to the independent directors, discussion by independent directors and a written summarization of the consensus of the independent directors to the CEO.

38

Use of Outside Consultants

The Committee employs an outside consultant to assist it in accomplishing its charter. The consultant is an independent advisor to the Committee. The Committee is able to select, dismiss and approve any financial arrangement with the consultant. The consultant may also assist management in performing duties delegated from the Committee.

CEO Pay

The salary column in the Summary Executive Compensation Table (later referred to as the Table) lists the 2003 base salary of the late Mr. Burg, including salary deferred into the FirstEnergy Corp. Executive Deferred Compensation Plan and/or the FirstEnergy Savings Plan. In accordance with the Company's pay philosophy, Mr. Burg received a base salary similar to that of CEOs at similar-size energy service companies.

Under the Executive Incentive Compensation Plan (later referred to as the Incentive Plan), Mr. Burg, at the beginning of the year, received a target short-term incentive opportunity and a target long-term incentive opportunity. For 2003, 60 percent of Mr. Burg's total target compensation was put at risk in the form of incentive compensation. This amounted to a target short-term incentive opportunity of \$853,600 and a target performance share long-term opportunity of \$746,900.

The Committee approved five financial and operational objectives for Mr. Burg in 2003. These objectives related to the achievement of confidential target levels regarding earnings per share; shareholder value added, net debt reduction; overall safety performance, including nuclear safety as measured by an industry index; and customer service excellence. The financial measures received the heaviest weighting in Mr. Burg's target short-term incentive opportunity.

No awards are given for performance that is below threshold. Awards for operational performance range from 50 percent of target for performance at threshold to 150 percent of target for outstanding performance. Awards for financial performance range from 50 percent of target

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

for performance at threshold to 200 percent of target for outstanding performance.

Based on the shortfall of the 2003 financial targets, Mr. Burg received no short-term incentive award.

The Committee approved a long-term incentive opportunity with the payout based on the performance of the Company's common stock, both on an absolute basis and as compared to an index of peer companies, between January 1, 2003, and December 31, 2005. This award, which normally would have paid out in early 2006, matured by its terms on December 31, 2003, due to the death of Mr. Burg.

Based on the Company's 2003 performance, Mr. Burg received no long-term award.

Mr. Burg's 2002 long-term opportunity with the payout based on the performance of the Company's common stock, both on an absolute basis and as compared to an index of peer companies, between January 1, 2002, and December 31, 2004. This award, which normally would have paid out in early 2005, matured by its terms on December 31, 2003, due to the death of Mr. Burg.

Based on the Company's 2002 and 2003 performance, Mr. Burg received no long-term award.

The long-term program is described in the narrative under the Long-Term Incentive Plan Table.

The Committee approved grants of non-qualified stock options to Mr. Burg and other key executives in March of 2003. The details of the grants for Mr. Burg and the other named executive officers are listed in the Stock Options Granted in 2003 Table.

In accordance with the Incentive Plan in effect in 2001, Mr. Burg received an incentive opportunity with a term of three years from 2001 through 2003. Based on the level of achievement, Mr. Burg's payout under the 2001 long-term incentive program was \$775,492.

39

Share Ownership Guidelines

FirstEnergy believes it is critical that executives and shareholders interests are clearly aligned. As such, share ownership levels, defined as a multiple of salary, are in place for the executives at FirstEnergy as follows:

CEO	5 times
COO	4 times
Senior Vice Presidents and the Equivalent	3 times
Vice Presidents and the Equivalent	1-2 times

Preserving Tax Deductibility of Executive Compensation

Recognizing that competitive compensation levels for senior executive officers at a corporation the size of FirstEnergy may exceed the \$1 million deduction limit of Section 162(m) of the Internal Revenue Code, it is the Committee's policy to structure executive compensation plans to maximize the deductibility of executive compensation by minimizing the compensation subject to this limit.

BOARD AUDIT COMMITTEE REPORT

The Board Audit Committee (later referred to in this report as the Committee) oversees the Company's financial reporting process on behalf of the Board of Directors. In fulfilling its oversight responsibilities, the Committee reviewed and discussed with management the audited financial statements to be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003. In performing its review, the Committee discussed the propriety of the application of accounting principles by the Company, the reasonableness of significant judgments and estimates used in the preparation of the financial statements, and the clarity of disclosures in the financial statements. In addition, the Audit Committee closely monitored and evaluated the circumstances, processes and substance of the restatements of the Company's financial statements for 2002 and the restatements of the financial statements for certain public reporting subsidiaries for 2000, 2001, and 2002.

The Committee reviewed and discussed with the independent auditor, PricewaterhouseCoopers LLP, their opinion on the conformity of the audited financial statements with accounting principles generally accepted in the United States. Included in this discussion were the matters

41

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

required by Statement on Auditing Standards No. 61, "Communication With Audit Committees," as amended, by the Auditing Standards Board of the American Institute of Certified Public Accountants, which included their judgments as to the propriety of the application of accounting principles by the Company.

The Committee received the written communications from the independent auditors regarding their independence from the Company as required by the Independence Standards Board's Standard No. 1, "Independence Discussions With Audit Committees," and discussed that matter with the independent auditors.

The Committee discussed with the Company's internal and independent auditors the overall scope, plans and results of their respective audits. The Committee met with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting process.

Based on the above reviews and discussions conducted, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission.

The following is a summary of the fees paid by the Company to its independent auditor, PricewaterhouseCoopers LLP, for services provided during the years 2003 and 2002:

The Committee has considered whether the non-audit services rendered by the independent auditor are compatible with the auditor maintaining its independence. While it believes that the non-audit services rendered by the independent auditor during the year 2003 are compatible with the auditor maintaining its independence, the Committee, in accordance with its charter and in compliance with all applicable legal and regulatory requirements promulgated from time to time by the NYSE and SEC, has a policy under which the independent auditor cannot be engaged to perform non-audit services, other than services that require an expertise that is exclusive to that firm. The policy further states that any engagement of the independent auditor to perform other audit-related services must be approved in advance by the Vice President and Controller. Any engagement of the independent auditor for non-audit related services that is based on an expertise that is exclusive to them must be specifically approved in advance by the Committee. The Committee pre-approved all services provided by PricewaterhouseCoopers LLP in 2003 and all audit related fees for PricewaterhouseCoopers LLP in 2002.

4. The Committee shall establish the Company's hiring policies for employees or former employees of the Company's independent auditors.

5. At least annually, the Committee shall obtain and review a report by the independent auditor describing:

- (a) the independent auditor's internal quality control procedures;

16. The Committee shall meet separately, periodically, with management, with internal auditors, with independent auditors and with the general counsel.

17. The Committee shall review the scope and plan of the work to be done by the Company's internal audit function, and the results of such work. The review should also include discussion of the responsibilities, budget and staffing of the internal audit function.

18. The Committee shall periodically review with the director of the Internal Auditing Department the adequacy of the Company's internal controls including computerized information system controls and security. The Committee shall discuss with the independent auditors any significant matters regarding internal controls over financial reporting that have come to their attention during the conduct of the audit.

19. The Committee shall consider and review Directors', officers' and management's Company-funded expenses.

20. The Committee shall discuss generally the Company's policies with respect to risk assessment and risk management.

21. 25. The Committee shall prepare the report required by SEC rules to be included in the Company's annual proxy statement.

26. The Committee shall report regularly to the Board concerning its activities.

27. The Committee shall conduct an annual performance evaluation of the Committee.

28. The Committee shall ensure the minutes of each meeting be kept and filed with the minutes of the Company.

AUTHORITY TO RETAIN AND TERMINATE ADVISORS

In the course of its duties, the Committee shall have the authority, at the Company's expense, to retain, replace and terminate independent counsel and other advisors, as it deems necessary to carry out its duties.

The Committee shall have the sole authority to appoint, compensate, retain (subject to shareholder ratification, if such ratification is required) and oversee the work of any registered public accounting firm engaged (including resolution of disagreements between management and the auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company. The independent auditor shall report directly to the Committee.

The Committee shall determine the appropriate funding to be provided by the Company for payment of:

FIRSTENERGY CORP.
DEFERRED COMPENSATION PLAN
FOR OUTSIDE DIRECTORS

1. GENERAL

1.1 *Preamble.* The FirstEnergy Corp. Deferred Compensation Plan for Outside Directors (the "Plan") was initially established on December 31, 1997 as the FirstEnergy Corp. 1.3 *Payment Method.* Payment of an equity retainer is in the form of FirstEnergy common stock, which can be deferred into a Deferred Stock Account. Cash retainers, meeting fees, chairperson fees, and any additional annual cash retainer paid to a non-executive Chairman of the Board, will be paid in cash, but can be paid in stock or deferred into a cash or Deferred Stock Account based on an annual election made by the director. Meeting fees are paid monthly, all other fees and retainers are paid quarterly.

1.4 *Status under Laws.* The Plan does not provide benefits to employees of the Company or any Affiliate and, accordingly, is not subject to the provisions of the Employee Retirement Income Security Act. The Plan shall be unfunded for purposes of the Internal Revenue Code and is not intended to qualify under Internal Revenue Code Section 401(a).

Furthermore, a Participant shall be fully vested in the Bonus Credit and all associated earnings upon a Special Circumstance or in situations where they are ineligible to stand for re-election due to circumstances unrelated to their performance as a director.

(3) Forfeiture of Bonus Credit. If a Participant incurs a Separation, takes an accelerated distribution under Section 4.3 or withdraws a portion of his Accounts under Section 4.4, and the Bonus Credit has not been credited to the Deferred Stock Fund for a minimum of three (3) Years of Service from the date of crediting such amount to the Account until the date of Separation, accelerated distribution or withdraw, the Director shall forfeit all Bonus Credits not fully vested in accordance with Section 3.5(b)(2).

(c) *Amendment of Distribution Election.* A Participant may change his or her distribution election by filing a new superseding designation with the Company at any time prior to the 120 day period ending on the day prior to the day on which the Participant is entitled to distribution under this Plan. If a Participant requests any change in the date of the distribution of his Deferred Stock Fund, the request must be approved by the Committee.

If the request is approved by the Committee, the Company will distribute to the Participant the entire balance of his or her Accounts minus any forfeitures and minus the ten percent (10%) penalty as a lump sum within ninety (90) days after the end of the month in which the Committee receives the request. Such distribution shall completely discharge the Company and the applicable Affiliate from all liability with respect to the Participant's Accounts. 4.4 *Withdrawal.* A Participant who has deferred Director's Fees under this Plan for five (5) full years may request to withdraw a portion of the amounts credited to his or her Accounts subject to forfeiture of the Bonus Credit and associated deemed earnings and losses as provided by Section 3.5(b)(3). The requisite full years of deferral to request a withdrawal need not be consecutive but may be intermittent. Amounts credited to the Deferred Stock Fund will be distributed only after amounts credited to all other Investment Funds are distributed. Such request must be made in writing in a form and manner specified by the Committee and must specify the amount to be withdrawn and the future date or dates to be paid. The date(s) must be the first of a month in the second calendar year following the calendar year in which the request was made. The request will be irrevocable after December 31 of the calendar year in which it is made unless, prior to payment, the Participant separates from the Board or the board of directors of an Affiliate, or a Special Circumstance occurs. In these instances, the request will become null and void and the Account Balance will be paid as elected by the Participant pursuant to Section 4.2 or as provided in Section 4.5. A Participant shall designate his or her Beneficiary by completing and signing a Beneficiary designation form and returning it to the Committee. The Participant shall also designate the time and the manner of payment to the Beneficiary, which may be either (i) in a lump sum as soon as practicable after the date of death, (ii) in a lump sum on January 1 of the year following the year in which the death occurred or (iii) in one or more annual payments the last of which may occur no later than January 1 of the

In the event that a Participant fails to designate a Beneficiary or, if all designated Beneficiaries predecease the Participant or die prior to complete distribution of the Participant's benefits, then the Participant's benefits under this Plan shall be distributed to his or her surviving spouse. If the Participant has no surviving spouse, the benefits remaining under the Plan to be paid shall be paid to the executor or personal representative of the Participant's estate.

7. ADMINISTRATION

7.1 Administration by Committee. Unless another Administrator is selected by the Board, this Plan shall be administered by the Committee. Except as otherwise provided by action of the Board or the terms of the Plan: (a) a majority of the members of the Committee shall constitute a quorum for the transaction of business, and (b) all resolutions or other actions taken by the Committee at a meeting shall be by the vote of the majority of the Committee members present, or, without a meeting, by an instrument in writing signed by all members of the Committee. A Committee member may not vote on any matter which directly affects only his or her benefit under the Plan.

7.2 Powers of Administrator. The Administrator shall have the full discretion and authority to administer the Plan including the discretion and authority to construe, interpret, and apply this Plan, and to render nondiscriminatory rulings or determinations. All questions regarding the Plan, as well as any dispute over accounting or administrative procedures or interpretation of the Plan, shall be resolved at the sole discretion of the Administrator. Constructions, interpretations, and decisions of the Committee shall be conclusive and binding on all persons. The Administrator shall also have the discretion and authority to make, amend, interpret, and enforce all appropriate rules and regulations for the administration of this Plan. Any individual serving on the Committee who is a Participant shall not vote or act on any matter relating solely to himself or herself. When making a determination or calculation, the Committee shall be entitled to rely on information furnished by a Participant or the Company.

7.3 Delegation. The Committee may delegate all or any duties, discretions and responsibilities under this Plan to the Corporate Secretary.

9

8. CLAIMS

8.1 Any Participant or Beneficiary of a deceased Participant (such Participant or Beneficiary being referred to below as a "Claimant") may deliver to the Committee a written claim for a determination with respect to the amounts distributable to such Claimant from the Plan. If such a claim relates to the contents of a notice received by the Claimant, the claim must be made within sixty (60) days after such notice was received by the Claimant. All other claims must be made within 180 days of the date on which the event that caused the claim to arise occurred. The claim must state with particularity the determination desired by the Claimant.

8.2 The Committee shall consider a Claimant's claim within a reasonable time, but no later than ninety (90) days after receiving the claim. If the Committee determines that special circumstances require an extension of time for processing the claim, written notice of the extension

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

shall be furnished to the Claimant prior to the termination of the initial ninety (90) day period. In no event shall such extension exceed a period of ninety (90) days from the end of the initial period. The extension notice shall indicate the special circumstances requiring an extension of time and the date by which the Committee expects to render the benefit determination. The Committee shall notify the Claimant in writing:

- (a) that the Claimant's requested determination has been made, and that the claim has been allowed in full; or
- (b) that the Committee has reached a conclusion contrary, in whole or in part, to the Claimant's requested determination, and such notice must set forth in a manner calculated to be understood by the Claimant:
 - (1) the specific reason(s) for the denial of the claim, or any part of it;
 - (2) specific reference(s) to pertinent provisions of the Plan upon which such denial was based;
 - (3) a description of any additional material or information necessary for the Claimant to perfect the claim, and an explanation of why such material or information is necessary; and
 - (4) an explanation of the claim review procedure set forth in Section 8.3 below.

8.3 Review of Denied Claim. The Board shall appoint the members of a Appeals Committee which shall consist of three (3) or more members. The Appeals Committee shall decide appeals of application denials as provided in this Section, have such other discretionary powers and authorities as provided by this Section, and shall have such other discretionary powers and duties as shall from time to time be assigned to the Appeals Committee by the Company. Prior to a Change in Control the members of the Appeals Committee shall remain in office at the will of the Board, and the Board may remove any of said members, from time to time, with or without cause. A member of the Appeals Committee may resign upon written notice to the remaining member or members of the Appeals Committee and to the Company respectively. The fact that a person is a prospective Participant, a Participant or a former Participant shall not disqualify him from acting as a member of the Appeals Committee. In case of the death, resignation or removal of any member of the Appeals Committee, the remaining members shall act until a successor-member is appointed. Upon request, the Company shall notify the Committee in writing of the names of the original members of the Appeals Committee, of any and all changes in the membership of the Appeals Committee, of the member designated as Chairman and the member designated as Secretary, and of any changes in either office. Until notified of a change, the Committee shall be protected in assuming that there has been no change in the membership of the Appeals Committee or the designation of Chairman or of Secretary since the last notification was filed with it. The Committee shall be under no obligation at any time to inquire into the membership of the Appeals Committee or its officers. All communications to the Appeals Committee shall be addressed to its secretary at the address of the Company. On or before sixty (60) days after receiving a notice from the Committee that a claim has been denied, in whole or in part, a Claimant (or the Claimant's duly authorized representative) may file with the Appeals Committee a

10

written request for a review of the denial of the claim. The Claimant (or the Claimant's duly authorized representative):

- (a) may, upon request and free of charge, have reasonable access to, and copies of, all documents, records and other information relevant to the claim for benefits;
- (b) may submit written comments or other documents; and/or
- (c) may request a hearing, which the Appeals Committee, in its sole discretion, may grant.

8.4 Decision on Review. The Appeals Committee shall render its decision on review promptly, and no later than sixty (60) days after the Appeals Committee receives the Claimant's written request for a review of the denial of the claim. If the Appeals Committee determines that special circumstances require an extension of time for processing the claim, written notice of the extension shall be furnished to the Claimant prior to the termination of the initial sixty (60) day period. In no event shall such extension exceed a period of sixty (60) days from the end of the initial period. The extension notice shall indicate the special circumstances requiring an extension of time and the date by which the Appeals Committee expects to render the benefit determination. In rendering its decision, the Appeals Committee shall take into account all comments, documents, records and other information submitted by the Claimant relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination. The decision must be written in a manner calculated to be understood by the Claimant, and it must contain:

- (a) specific reasons for the decision; and

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

- (b) specific reference(s) to the pertinent Plan provisions upon which the decision was based; and
- (c) an explanation of the claim review procedure set forth in the Trust.

9. AMENDMENT, TERMINATION AND PARTICIPATION

9.1 *Amendment by Board.* Prior to a Special Circumstance, the Board may from time to time, amend, suspend, terminate or reinstate any or all of the provisions of this Plan, except that no amendment, suspension, termination or reinstatement shall adversely affect the Accounts or benefits under this Plan of any Participant as they existed immediately before the amendment, suspension, termination, merger or reinstatement or the manner of payments, unless the Participant shall have consented in writing.

9.2 *Termination by the Company.* Prior to a Special Circumstance, the Board may at any time terminate this Plan and/or transfer its liabilities under this Plan to a similar plan it may establish. Upon the termination of this Plan, amounts credited to the Accounts of Participants and benefits transferred shall continue to be payable to those Participants in accordance with the terms of this Plan. Upon termination of this Plan, if the Board should transfer its liabilities to another plan, such transfer of liabilities shall not adversely affect the Accounts or benefits of any Participant as they existed immediately prior to a transfer authorized by the Board or the manner of payments, unless the Participant shall have consented in writing. In addition, any transfer of liabilities of this Plan shall not affect the liability of the Company or any Affiliate responsible to pay the benefit represented by the Account Balance.

9.3 *Automatic Termination.* Notwithstanding termination by the Board or by the Company, the mandatory payment of a portion of the annual retainer in the form of FirstEnergy common stock and the 20% bonus and dividend equivalent features of this Plan will automatically terminate on May 17, 2014 or earlier if the maximum share reserve of 500,000 shares is reached, unless shareholders re-approve these features the earlier of the prior date or prior to the depletion of the maximum share reserve.

9.4 *Effect of Plan Termination.* Notwithstanding any other provisions of the Plan, if the Plan is terminated, no subsequent Director's fees may be deferred under this Plan. Upon termination, if the liabilities of this Plan are not transferred to another plan, the Director's Accounts shall continue to be credited with deemed earnings as provided in Section 3.4, and the entire balance in the Account Balance shall become payable to the Participant in accordance with the provisions of this Plan in effect at the date of termination.

11

9.5 *Participation by Affiliates.* Affiliates may participate in this Plan as provided in this Section.

(a) A member of the affiliated group of corporations (as defined in Section 1504 of the Internal Revenue Code and the regulations thereunder) that includes the Company may adopt this Plan with the consent of the Company. The Affiliate shall be liable for the payment of any benefit of a Participant whose benefits under the Plan relate to Director's Fees deferred while serving on the board of directors of the Affiliate or which are transferred to this Plan by the Participant. Neither the Company nor any other Affiliate shall have any liability for such benefits.

(b) Each Affiliate, by adopting the Plan, appoints the Company as its agent and fully empowers the Company to act on behalf of all Affiliates as it may deem appropriate in maintaining or terminating the Plan. The adoption by the Company of any amendment to the Plan or the termination of all or any part of the Plan will constitute and represent, without further action on the part of any Affiliate, the approval, adoption, ratification or confirmation by each Affiliate of any such amendment or termination and each Affiliate shall be bound by such amendment or termination.

(c) An Affiliate may cease participation in the Plan only upon approval by the Company and only in accordance with such terms and conditions that may be required by the Company.

10. UNFUNDED PLAN

10.1 *Bookkeeping Entries.* The Accounts maintained for purposes of this Plan shall constitute bookkeeping records of the Company or the applicable Affiliate and shall not constitute any allocation of any assets of the Company or Affiliate or be deemed to create any trust or special deposit with respect to any of the assets of the Company or any Affiliate. Neither the Company nor any Affiliate shall be under any obligation to any Participant to acquire, segregate or reserve any funds or other assets for purposes relating to this Plan. No Participant shall have

Edgar Filing: FIRSTENERGY CORP - Form PRE 14A

any rights whatsoever in or with respect to any funds or other assets owned or held by the Company or any Affiliate. The rights of a Participant under this Plan are solely those of a general creditor of the Company or any Affiliate to the extent of the amount credited to his or her Accounts with the Company or the applicable Affiliate and this Plan is a mere promise to pay benefits to the Participants.

10.2 *Trusts, Insurance Contracts or Other Investment.* The Company or the Affiliates may, in their respective discretion, establish one or more trusts, purchase one or more insurance contracts or otherwise invest or segregate funds for purposes relating to this Plan, but the assets of such trusts, rights and assets of such insurance contracts or otherwise invested or held in segregated funds shall at all times remain subject to the claims of the general creditors of the Company and any Affiliate as provided in such trust or contract except to the extent and at the time any payment is made to a Participant under this Plan.

11. MISCELLANEOUS

11.1 *Severability.* The invalidity or unenforceability of any particular provision of this Plan shall not affect any other provision, and the Plan shall be construed in all respects as if invalid or unenforceable provisions were omitted.

11.2 *Applicable Law.* This Plan shall be construed and governed in accordance with the laws of the State of Ohio without giving effect to principles of conflicts of laws.

11.3 *Not a Contract.* The terms and conditions of this Plan shall not be deemed to constitute a contract for services between the Company or any Affiliate and the Participant. A Director is retained on an "at will" relationship that can be terminated at any time for any reason, or no reason, with or without cause, and with or without notice, unless expressly provided in a written agreement. Nothing in this Plan shall be deemed to give a Participant the right to be retained as a Director of the Company and any Affiliate.

12

11.4 *Successors.* The provisions of this Plan shall bind and inure to the benefit of the successors and assigns of the Company and each Affiliate.

11.5 *Distribution in the Event of Taxation.* If the Trust terminates in accordance with its terms and benefits are distributed from the Trust to a Participant in accordance therewith, the Participant's benefits under this Plan shall be reduced to the extent of such distributions.

(a) If, for any reason, all or any portion of a Participant's benefits under this Plan becomes taxable to the Participant prior to receipt, a Participant may petition the Committee before a Special Circumstance, or the trustee of the Trust after a Special Circumstance, for a distribution of that portion of his or her benefit that has become taxable. Upon the grant of such a petition, which grant shall not be unreasonably withheld (and, after a Special Circumstance, shall be granted), the Company or applicable Affiliate shall distribute to the Participant immediately available funds in an amount equal to the taxable portion of his or her benefit. If the petition is granted, the tax liability distribution shall be made within 90 days of the date when the Participant's petition is granted. Such a distribution shall affect and reduce the benefits to be paid under this Plan.

(b) If the Trust terminates in accordance with its terms and benefits are distributed from the Trust to a Participant in accordance therewith, the Participant's benefits under this Plan shall be reduced to the extent of such distributions.

11.6 *Insurance.* The Company and the Affiliates, on their own behalf or on behalf of the trustee of the Trust, and, in their sole discretion, may apply for and procure insurance on the life of the Participant, in such amounts and in such forms as the Trust may choose. The Company, the Affiliates or the trustee of the Trust, as the case may be, shall be the sole owner and beneficiary of any such insurance. The Participant shall have no interest whatsoever in any such policy or policies, and at the request of the Company or an Affiliate shall submit to medical examinations and supply such information and execute such documents as may be required by the insurance company or companies to whom the Company or Affiliate have applied for insurance.

11.7 *Legal Representation.* The Company and each Affiliate is aware that upon the occurrence of a Change in Control, the Board or the board of directors of a Participant's Employer (which might then be composed of new members) or a shareholder of the Company or the Participant's Employer, or of any successor corporation might then cause or attempt to cause the Company, an Affiliate or successor to refuse to comply with its obligations under the Plan and might cause or attempt to cause the Company or an Affiliate to institute, or may institute, litigation seeking to deny Participants the benefits intended under the Plan. In these circumstances, the purpose of the Plan could be frustrated.

Accordingly, if, following a Change in Control, it should appear to any Participant that the Company, an Affiliate or any successor corporation has failed to comply with any of its obligations under the Plan or, if the Company, an Affiliate or any other person takes any action to declare the Plan void or unenforceable or institutes any litigation or other legal action designed to deny, diminish or to recover from any Participant the benefits intended to be provided, then the Company and the applicable Affiliate irrevocably authorize such Participant to retain counsel of his or her choice at the expense of the Company and an Affiliate (who shall be jointly and severally liable) to represent such Participant in connection with the initiation or defense of any litigation or other legal action, whether by or against the Company, an Affiliate or any director, officer, shareholder or other person affiliated with the Company, an Affiliate or any successor thereto in any jurisdiction.

No part of the amounts payable shall, prior to actual payment, be subject to seizure or sequestration for the payment of any debts, judgments, alimony or separate maintenance owed by a Participant

or any other person, nor be transferable by operation of law in the event of a Participant's or any other person's bankruptcy or insolvency.

10.5
Not a Contract of Employment

The terms and conditions of this Plan shall not be deemed to constitute a contract of employment between the Employer and the Participant, and neither the Participant nor any Beneficiary shall have any rights against the Employer except as may otherwise be specifically provided herein.
