Dear Stockholder:

Stockholders of record as of August 1, 2008 are cordially invited to attend a Special Meeting of Stockholders which will be held at the Courtyard Marriott, 4994 Verdugo Way, Camarillo, California 93012 on Tuesday, September 9, 2008, at 8:00 a.m., local time.

On June 17, 2008, we issued \$75 million of our 8% Senior Secured Convertible Notes due 2013 to institutional investors. We used a portion of the net proceeds from the offering to retire approximately \$50.2 million of previously incurred acquisition indebtedness (including interest) provided by PWER Bridge LLC, and we intend to use the balance for general corporate purposes. The notes are convertible into shares of our common stock, initially based on a conversion rate of 304.8780 shares per \$1,000 in principal amount of the notes (equivalent to an initial conversion price of approximately \$3.28 per share), at any time on or prior to the close of business on the business day immediately preceding June 17, 2013, the maturity date of the notes.

At the Special Meeting, you will be asked to approve, for purposes of NASDAQ Marketplace Rule 4350(i)(1)(D)(ii), an increase in the number of shares of our common stock that are potentially issuable upon conversion of the notes. The Board of Directors has approved this increase, subject to stockholder approval, and recommends stockholders to vote "FOR" this increase.

The attached Proxy Statement contains information about these matters. Whether or not you plan to attend the Special Meeting, please promptly execute and return your proxy card to ensure that your shares are represented at the meeting. Your vote is important. We urge you to read the Proxy Statement carefully, and to vote by proxy for the proposal described therein, by marking, signing, dating, and returning the enclosed proxy card in the postage-paid envelope.

The Proxy Statement and the accompanying proxy card are being mailed to our stockholders on or about August 5, 2008. Whether you plan to attend the meeting or not, I encourage you to vote promptly so your shares will be represented at the meeting.

Thank you for your cooperation and continued support.

Sincerely,

Randall H. Holliday
Secretary

GENERAL INFORMATION

The Board of Directors of Power-One, Inc. seeks your Proxy for use at our Special Meeting of Stockholders. We will hold the meeting according to our Notice of Special Meeting, unless we adjourn to a later date and/or time.

This Proxy Statement and the accompanying Notice of Special Meeting discuss the purpose of the Special Meeting. This Proxy Statement, the accompanying Notice of Special Meeting and enclosed proxy card first will be sent to stockholders on or about August 5, 2008.

*** VOTING AND SOLICITATION**

Each share of our common stock has one vote on all matters submitted to our stockholders at the Special Meeting. Stockholders of record as of the close of business on August 1, 2008 will receive notice of and may vote at the Special Meeting. Eligible stockholders may vote by marking, signing, dating and returning the proxy card.

There were 87,766,168 shares of our common stock outstanding as of July 20, 2008. The closing sale price on that date was \$1.89 per share. Our common stock is quoted on the NASDAQ Global Market® under the symbol "PWER."

We have not hired a firm to assist in the proxy solicitation process but may do so if we determine that such assistance is necessary or advisable. If we retain such a firm, we will pay all fees and reasonable out-of-pocket expenses related to the retention of any such proxy solicitation firm. We may also reimburse brokerage firms and other persons representing beneficial owners of shares for their reasonable expenses in sending solicitation materials to beneficial owners.

Voting Matters. The presence at the Special Meeting, in person or by proxy, of the holders of a majority of the outstanding shares of our common stock will constitute a quorum for the meeting. If we do not obtain a quorum at the Special Meeting, we may or may not decide to adjourn the meeting.

The affirmative vote of the holders of a majority of our common stock having voting power present, in person or represented by proxy at the Special Meeting is required for approval of the proposal to approve an increase in the number of shares of common stock that are potentially issuable upon conversion of our 8% Senior Secured Convertible Notes due 2013, referred to as the notes. For purposes of this proposal, abstentions will have the same effect as a negative vote.

Under NASDAQ rules, if you hold your shares in "street name" through a broker or other nominee, and you do not give your broker or nominee specific instructions on how to vote your shares, your broker or nominee will not be permitted to exercise voting discretion with respect to non-routine matters, including the proposal to approve an increase in the number of shares of common stock issuable upon conversion of the notes. "Broker non-votes" will result when a broker or nominee is not instructed to vote for the proposal for which they do not have voting discretion. Broker non-votes with respect to the proposal to approve an increase in the number of shares of common stock that are potentially issuable upon conversion of the notes will not be counted as shares present and entitled to vote on the proposal and, accordingly, will not have any effect with respect to the approval of the proposal (other than to reduce the number of affirmative votes required to approve the proposal).

Revoking Your Proxy. Any Proxy may be revoked at any time before it is actually voted at the Special Meeting. Regardless of the method of voting used, you may revoke your Proxy by:

Delivering a written notice of revocation, dated later than the Proxy, before the vote is taken at the Special Meeting.

Edgar Filing: POWER ONE INC - Form PRE 14A

Executing a later dated Proxy before the vote is taken at the Special Meeting.

Voting in person at the Special Meeting (your attendance at the meeting, by itself, does *not* revoke your earlier Proxy).

Any written notice of revocation, or later Proxy, should be delivered to our principal executive offices at Power-One, Inc., 740 Calle Plano, Camarillo, CA 93012, Attention: Secretary.

*** DEADLINE FOR STOCKHOLDER PROPOSALS FOR THE FISCAL 2008 ANNUAL MEETING**

Any stockholder who intends to present a proposal at our Annual Meeting for fiscal year 2008 must deliver the proposal to us at our principal executive offices not later than November 14, 2008 for inclusion in our Proxy Statement and form of Proxy relating to the meeting.

Stockholder proposals to be presented at an Annual Meeting of Stockholders but *not* submitted for inclusion in our Proxy Statement for that meeting must be received by our Secretary at our principal executive offices not less than 90, nor more than 120 days prior to the meeting. However, if less than 100 days' notice from the date of the meeting is given to stockholders, then notice by the stockholder of any proposal need only be received within 10 days from the date on which notice of the meeting is given. Stockholder proposals must contain information required by Section 2.10 of our bylaws and comply with applicable legal requirements.

Our bylaws are available via the "Governance Introduction" link found under our main "Investors" link at our website located at www.power-one.com. Alternatively, any stockholder may obtain a copy of our bylaws by submitting a request to our Secretary at our principal executive offices. The contents of our website are not part of our Proxy Statement.

PROPOSAL 1
PROPOSAL TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK ISSUABLE
UPON CONVERSION OF OUR 8% SENIOR SECURED CONVERTIBLE NOTES DUE 2013

*** BACKGROUND**

On June 12, 2008, we entered into a purchase agreement under which we agreed to sell \$75 million aggregate principal amount of our 8% Senior Secured Convertible Notes due 2013, referred to as the notes, to Lehman Brothers Inc., as initial purchaser for resale to certain qualified institutional buyers in compliance with Rule 144A under the Securities Act of 1933, as amended. We issued the notes on June 17, 2008. We also granted the initial purchaser an option to purchase up to an additional \$5 million aggregate principal amount of the notes, which was exercised by the initial purchaser, with the additional notes issued on July 16, 2008. The net proceeds from the sale of the notes were approximately \$70.5 million, after deducting the initial purchaser's discount and estimated offering expenses. We used a portion of the net proceeds from the offering to retire approximately \$50.2 million of previously incurred acquisition indebtedness (including interest) provided by PWER Bridge LLC, and we intend to use the balance for general corporate purposes. The notes are governed by an indenture, dated as of June 17, 2008 between us and The Bank of New York Trust Company, N.A., as trustee. The notes bear interest at a rate of 8% per annum, payable in cash in arrears on March 31, June 30, September 30 and December 31 of each year, beginning September 30, 2008 and the notes will mature on June 17, 2013. The notes will rank equal in right of payment with all of our existing and future senior unsecured indebtedness that is not subordinated by its terms.

Under the indenture for the notes, the conversion rate on the notes is initially 304.8780 shares of common stock per \$1,000 in principal amount of the notes, which is equivalent to an initial price of approximately \$3.28 per share. The conversion rate is subject to reset on June 18, 2009 if our average common stock price is lower than \$3.28 during the five trading days preceding June 18, 2009 (assuming no other adjustments to the conversion price prior to June 18, 2009). If, on June 18, 2009 our average common stock price is equal to, or higher than, \$3.28, there will be no adjustment to the conversion rate on that date. On June 18, 2009, if our average common stock price is lower than \$3.28 during the five trading days preceding such date, the conversion rate will increase to a conversion rate that is equivalent to a conversion price equal to the average common stock price during such five trading day period, subject to a cap of 362.3188 shares per \$1,000 in principal amount of the notes, which is equivalent to a conversion price of \$2.76 per share. Throughout this proxy statement, we generally refer to this restriction on the issuance of shares underlying the notes as the "share cap." We are seeking stockholder approval to remove the share cap, which would have the effect of increasing the number of shares of common stock that are potentially issuable upon conversion of the notes in the event the conversion rate is reset on June 18, 2009.

*** QUESTIONS AND ANSWERS ON THE PROPOSAL**

The following questions and answers address briefly some questions you may have regarding the proposal. These questions and answers may not address all questions that may be important to you as a stockholder. For additional information regarding the notes, please refer to our Current Report on Form 8-K filed with the Securities and Exchange Commission on June 18, 2008, and the full text of the indenture and the form of the notes, each of which is attached as an exhibit to such Current Report on Form 8-K.

Q: Why are we convening a Special Meeting to consider a proposal to allow an increase in the number of shares of common stock issuable upon conversion of the notes?

A: As described above, there is a potential for the conversion rate on the notes to reset on June 18, 2009, if our average common stock price is lower than \$3.28 during the five trading days preceding June 18, 2009, except that any increase in the conversion rate is subject to the share cap. Under the terms of the indenture, we agreed to submit for approval by our stockholders a proposal to remove the share cap, and therefore to increase the number of shares of our common stock that are potentially issuable upon conversion of our notes.

Q: What is the purpose of the share cap and why do we need stockholder approval to remove it?

A: We are subject to the Marketplace Rules of The NASDAQ Stock Market because our common stock is listed on the NASDAQ Global Market. NASDAQ Marketplace Rule 4350(i)(1)(D)(ii) requires stockholder approval of any sale, issuance or potential issuance of common stock (or securities convertible into or exercisable for common stock) equal to 20% or more of the common stock outstanding or 20% or more of the voting power outstanding before such issuance for a price less than the greater of book or market value of the common stock at the time of such issuance. To ensure compliance with the NASDAQ Marketplace Rule, we put in place the share cap to ensure that the notes are not convertible into more than 362.3188 shares per \$1,000 in principal amount of the notes, which is equivalent to a conversion price of \$2.76 per share (which is a \$0.01 more than the closing sale price of our common stock as of the date of the offering memorandum for the notes), without stockholder approval. If the conversion rate resets on June 18, 2009, the contemplated increase in the number of shares of our common stock into which the notes may convert would constitute a potential below-market issuance of over 20% of our common stock, in breach of NASDAQ Marketplace Rule 4350(i)(1)(D)(ii), unless we obtain stockholder approval.

Q: If stockholder approval is obtained, is there a limit on the number of shares of common stock issuable upon conversion of the notes?

A: Yes. Even if stockholder approval is obtained, the maximum conversion rate would be 500 shares of common stock per \$1,000 in principal amount of the notes, which is equivalent to a conversion price of \$2.00 (assuming no other adjustments to the conversion price prior to June 18, 2009).

Q: If stockholder approval is obtained, what will be the impact on the rights of existing stockholders?

A: If stockholder approval is obtained, the number of shares of common stock that are potentially issuable through conversion of the notes will increase. Such increase will potentially increase the dilution of our existing common stockholders' ownership interests in us, through conversion of the notes. As a comparison, under the initial conversion rate of 304.8780 shares per \$1,000 in principal amount of the notes, we may issue up to a total of 24,390,240 shares of common stock (assuming no other adjustments to the conversion price prior to June 18, 2009), which represents approximately 27.8% of the total number of shares of common stock outstanding as of July 20, 2008. If stockholder approval is obtained, under the maximum conversion rate of 500 shares per \$1,000 in principal amount of the notes, we may issue up to a total of 40,000,000 shares of common stock

Edgar Filing: POWER ONE INC - Form PRE 14A

(assuming no other adjustments to the conversion price prior to June 18, 2009), which represents approximately 45.6% of the total number of shares of common stock outstanding as of July 20, 2008. The rights and privileges associated with the common stock potentially issuable through conversion of the notes will be identical to the rights and privileges associated with the common stock held by our existing stockholders, including voting rights. Our common stock has no preemptive or conversion rights or other subscription rights. The outstanding shares of our common stock are, and the shares of common stock issuable upon conversion of the notes will be, fully paid and non-assessable.

Q: Are there other provisions of the indenture that may be affected by the stockholder vote at the Special Meeting ?

A: Under certain circumstances involving a "fundamental change" including certain mergers or consolidations into another person and certain recapitalizations, reclassifications and other corporate actions having a similar effect with respect to our common stock, the holders of the notes may receive additional shares of common stock if they convert their notes. The number of additional shares they will receive is limited by, among other things, the share cap. If stockholder approval is obtained at the Special Meeting, the share cap would be removed.

Q: Do the conversion rates and conversion prices discussed above assume no other adjustments to the conversion rate?

A: Yes. The conversion rates and conversion prices discussed above assume no other adjustments to the conversion rate. In addition to an adjustment in connection with a "fundamental change" as discussed above, the indenture provides for other adjustments, including adjustments in the event of any stock dividend, stock split, stock distribution or combination, subdivision, reclassification or other corporate action having the similar effect with respect to our common stock and adjustments for issuances of additional shares at a price less than the then applicable conversion price. If the conversion rate were adjusted pursuant to the other adjustment provisions of the indenture, the conversion rate and conversion prices would have to be adjusted accordingly. For example, if we effected a two-for-one stock split, the applicable conversion price on June 18, 2009 would be \$1.38 (as opposed to \$2.76). As of the date of this proxy statement, there have been no adjustments to the initial conversion rate or the initial conversion price.

Q: Are the other provisions of the indenture that provide for adjustment to the conversion rate affected by the stockholder vote at the Special Meeting?

A: Yes. To the extent the other adjustment provisions were limited by the share cap, the conversion rate will be able to adjust above the share cap if stockholder approval is obtained.

Q: What if stockholder approval is not obtained at the Special Meeting?

A: Unless we obtain stockholder approval of these potential issuances of shares of common stock above the share cap, the conversion rate on the notes cannot exceed 362.3188 shares per \$1,000 in principal amount of the notes, which is equivalent to a conversion price of \$2.76 per share. In addition under the terms of the indenture, if our stockholders do not approve the proposal submitted to them at this Special Meeting, we are required to re-submit the proposal for approval by our stockholders at

Edgar Filing: POWER ONE INC - Form PRE 14A

our next regular annual meeting of stockholders (which will be held no later than 230 days after the Special Meeting). If the proposal is not then approved, we are required, under the indenture, to resubmit the proposal for approval by our stockholders within successive 180 day intervals thereafter over the term of the notes until the proposal is either approved or the notes are no longer outstanding. If the proposal is resubmitted for approval by our stockholders, we will have to pay all the costs (including, but not limited to, legal fees, printing fees, mailing or distribution costs and other meeting costs) in connection with all such future meetings to reconsider the proposal until the proposal is either approved or the notes are no longer outstanding. In addition, we will be impacted by the continuing diversion of management resources needed to attend to all such future meetings.

Q:

Are there other penalties or costs to us besides the costs involved with any future meetings, if stockholder approval is not obtained?

A:

No. While the terms of the indenture for the notes provide for additional cash payments to be made to holders of the notes upon conversion if stockholder approval is not obtained and either of the following occurs:

after June 18, 2009, the price of our common stock is below \$2.76; or

the conversion price on the notes would have dropped below \$2.76 as a result of the additional shares issued pursuant to conversion in connection with a fundamental change but for the share cap,

such payments are, in each case, subject to compliance with the listing rules of the NASDAQ Global Market (and any other applicable eligible securities exchange on which our common stock is then listed or traded). The NASDAQ Global Market has told us that such payments would not be in compliance with its listing rules. Accordingly, we will not make such payments.

Q:

What is the vote required for approval of the proposal?

A:

The affirmative vote of the holders of a majority of our common stock having voting power present, in person or represented by proxy at the Special Meeting is required for approval of this proposal. For purposes of this proposal, abstentions will have the same effect as a negative vote and broker non-votes will not have any effect (other than to reduce the number of affirmative votes required to approve the proposal).

Q:

What is the recommendation of the Board of Directors?

A:

The Board of Directors recommends that you vote "FOR" the proposal.
