PROXY STATEMENT

FOR 2012 ANNUAL MEETING OF STOCKHOLDERS

To be held on June 18, 2012

April 30, 2012

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Affiliated Managers Group, Inc. ("AMG", the "Company", "we" or "us") for use at our 2012 Annual Meeting of Stockholders to be held on Monday, June 18, 2012 at 10:00 a.m. Eastern time, at our offices, 600 Hale Street, Prides Crossing, Massachusetts 01965, and at any adjournments or postponements thereof (the "Annual Meeting"). At the Annual Meeting, stockholders will be asked to elect nine directors, approve, by a non-binding advisory vote, the compensation of the Company's named executive officers (as defined below in the Executive Compensation Tables section), ratify the selection of PricewaterhouseCoopers LLP ("PricewaterhouseCoopers") as our independent registered public accounting firm for the current fiscal year, and consider and act upon any other matters properly brought before them.

Important Notice Regarding the Internet Availability of Proxy Materials. This year, we have again saved significant mailing and printing costs by providing proxy materials to you over the Internet in accordance with Securities and Exchange Commission ("SEC") rules. On or about May 1, 2012, we will mail to our stockholders a Notice of Internet Availability of Proxy Materials (the "Notice") containing instructions on how to access this Proxy Statement and our 2011 Annual Report on Form 10-K online. The Notice, which cannot itself be used to vote your shares, also provides instructions on how to vote by Internet or by telephone and how to request a paper copy of the proxy materials, if you so desire. Whether you received the Notice or paper copies of our proxy materials, the Proxy Statement and 2011 Annual Report on Form 10-K are available to you at www.proxyvote.com.

Stockholders of record of the Company's common stock at the close of business on the record date of April 20, 2012 will be entitled to notice of the Annual Meeting and to one vote per share on each matter presented at the Annual Meeting. As of the record date, there were 51,360,976 shares of common stock outstanding and entitled to vote at the Annual Meeting.

The presence, in person or by proxy, of holders of at least a majority of the total number of shares of common stock outstanding and entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Both abstentions and broker non-votes will be counted as present in determining the presence of a quorum.

A "broker non-vote" is a proxy from a broker or other nominee indicating that such person has not received instructions from the beneficial owner on a particular matter with respect to which the broker or other nominee does not have discretionary voting power. Brokers have the discretion to vote their clients' proxies only on routine matters.

At this year's Annual Meeting, the election of directors (Proposal 1) and the advisory vote on executive compensation (Proposal 2) are non-routine items, and only the ratification of our auditors (Proposal 3) is a routine item. It is important that you instruct your broker as to how you wish to have your shares voted on these proposals, even if you wish to vote as recommended by the Board of Directors.

Stockholders are requested to submit a proxy by Internet or telephone, or by returning a completed, signed, and dated proxy card or voting instruction form. If you vote by Internet or telephone, you should not return a proxy card or voting instruction form. Shares represented by a properly submitted proxy received prior to the vote at the Annual Meeting and not revoked will be voted at the Annual Meeting as directed by the proxy. If a properly executed proxy or voting instruction form is submitted without any

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

instructions indicated, the proxy will be voted FOR the election of each of the nominees for director, FOR the approval of the advisory vote on executive compensation, and FOR ratification of the selection of PricewaterhouseCoopers as our independent registered public accounting firm for the current fiscal year. If other matters are presented, proxies will be voted in accordance with the discretion of the proxy holders on such other matters.

A stockholder of record may revoke a proxy at any time before it has been voted by filing a written revocation with the Secretary of the Company at the address of the Company set forth above; by submitting a duly executed proxy bearing a later date; or by appearing in person and voting by ballot at the Annual Meeting. A stockholder of record who voted by Internet or by telephone may also change his or her vote with a timely and valid later Internet or telephone vote, as the case may be. Any stockholder of record as of the record date may attend the Annual Meeting whether or not a proxy has previously been given, but the presence (without further action) of a stockholder at the Annual Meeting will not constitute revocation of a previously given proxy. If you hold your shares in street name and would like to change your voting instructions, please follow the instructions provided to you by your broker, bank or other intermediary.

A stockholder may vote in person at the Annual Meeting upon presenting picture identification and an account statement, Notice of Internet Availability of Proxy Materials, proxy card or voting instruction form. If you hold your shares in street name, you will need to obtain a proxy from your bank or broker in order to vote in person, and you must bring a brokerage statement or letter from your broker, bank or other intermediary reflecting stock ownership. The address of the Company is available on the Company's website, www.amg.com, for stockholders who plan to vote in person at the Annual Meeting.

PROPOSAL 1: ELECTION OF DIRECTORS

Introduction

Our Board of Directors currently consists of nine members. At the Annual Meeting, nine directors will be elected to serve until the 2013 Annual Meeting of Stockholders and until their respective successors are duly elected and qualified. The Board of Directors and the Nominating and Governance Committee have nominated Messrs. Samuel T. Byrne, Dwight D. Churchill, Sean M. Healey, Harold J. Meyerman, William J. Nutt, Patrick T. Ryan, and Jide J. Zeitlin, Ms. Tracy P. Palandjian and Dr. Rita M. Rodriguez (collectively, the "Nominees") to serve as directors. Each of the Nominees is currently serving as a director of the Company. As more fully discussed below under "Meetings of the Board of Directors and Committees and Corporate Governance Matters," the Board of Directors has determined that eight of its nine Nominees, Messrs. Byrne, Churchill, Meyerman, Nutt, Ryan and Zeitlin, Ms. Palandjian and Dr. Rodriguez, have no material relationship with the Company and are "independent" for purposes of New York Stock Exchange (the "NYSE") listing standards. The Board of Directors expects that each of the Nominees will, if elected, serve as a director for the new term. However, if any person nominated by the Board of Directors is unable to accept election, the proxies will be voted for the election of such other person or persons as the Board of Directors may recommend.

In 2012, we amended and restated our By-laws to provide for majority voting in uncontested director elections. Under the majority voting standard, directors are elected by a majority of the votes cast, which means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director. Abstentions and broker non-votes will have no effect on the outcome of the election of directors.

Under our Corporate Governance Guidelines, the Nominating and Governance Committee has established procedures for any director who is not elected to tender his or her offer to resign. Upon receiving the director's offer to resign, the Nominating and Governance Committee will recommend to the Board whether to accept or reject the offer to resign, or whether other action should be taken. The Nominating and Governance Committee and the Board, in making their decisions, may consider any factor or information that they deem relevant. The Board, taking into account the Nominating and Governance Committee's recommendation, will act on the tendered resignation within ninety days following certification of the election results. A director whose resignation is under consideration shall abstain from participating in any recommendation or decision regarding that resignation.

Recommendation of the Board of Directors

The Board of Directors believes that the election of each of the Nominees is in the best interests of the Company and its stockholders, and, therefore, unanimously recommends that stockholders vote **FOR** the election of each of the Nominees.

Information Regarding the Nominees

The name, age (as of April 1, 2012) and a description of the business experience, principal occupation and past employment and directorships of each of the Nominees during at least the last five years is set forth below. In addition, we have summarized the particular experience, qualifications, attributes and/or

Meetings of the Board of Directors and Committees and Corporate Governance Matters

During 2011, the Board of Directors met seven times. Each member of the Board of Directors in 2011 attended at least 75% of the total number of meetings of (i) the Board of Directors and (ii) all standing committees of the Board of Directors on which such director served. We do not have a formal policy regarding director attendance at an annual meeting of stockholders. Three directors were in attendance at the 2011 Annual Meeting of Stockholders.

At least annually, the Board of Directors evaluates the independence of our directors in light of the standards established by the NYSE. A majority of our Board of Directors must be "independent" within the meaning of the NYSE listing standards. After its most recent evaluation of director independence, the Board of Directors affirmatively determined that eight of our nine directors, Messrs. Byrne, Churchill, Meyerman, Nutt, Ryan and Zeitlin, Ms. Palandjian and Dr. Rodriguez, are "independent" for purposes of the NYSE listing standards. The Board of Directors made these determinations based upon questionnaires completed by each director and individual evaluations of a director's employment or Board of Directors affiliations, and any commercial, family or other relationships. There were no such transactions for consideration in determining the independence of any director.

The standing committees of the Board of Directors are the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Only independent directors within the meaning of the NYSE listing standards serve on these committees. Each such committee acts pursuant to a written charter adopted by the respective committee. A description of each committee is set forth below.

Audit Committee. The Audit Committee currently consists of Messrs. Churchill and Meyerman, Ms. Palandjian and Dr. Rodriguez, with Dr. Rodriguez serving as Chair. Mr. Nutt served on the Audit Committee from January 2011 through March 2012, and Mr. Ryan served on the Audit Committee from July 2005 through March 2012. Each of the members meets the independence standards applicable to audit committees under the Sarbanes-Oxley Act of 2002 and the NYSE listing standards and is an audit committee financial expert as defined by the SEC. The Audit Committee's purpose is to assist the Board of Directors in oversight of our internal controls and financial statements and the audit process. The Audit Committee met nine times during 2011. Other members of the Board of Directors attend Audit Committee meetings from time to time at the invitation of the Audit Committee.

Compensation Committee. The Compensation Committee currently consists of Messrs. Byrne, Meyerman, Ryan and Zeitlin, with Mr. Ryan serving as Chair. The Compensation Committee is responsible for overseeing our general compensation policies and establishing and reviewing the compensation plans and benefit programs applicable to our executive officers. In that capacity, the Compensation Committee also administers our stock option and incentive plans. The Compensation Committee met five times during 2011. Other members of the Board of Directors attend Compensation Committee meetings from time to time at the invitation of the Compensation Committee.

Nominating and Governance Committee. The Nominating and Governance Committee currently consists of Messrs. Byrne, Meyerman and Zeitlin and Dr. Rodriguez, with Mr. Meyerman serving as Chair. The Nominating and Governance Committee is primarily responsible for recommending criteria to the Board of Directors for board and committee membership, identifying and evaluating director candidates, overseeing the annual evaluation of the Board of Directors and its committees, and maintaining our Corporate Governance Guidelines. The Nominating and Governance Committee met four times during 2011. Other members of the Board of Directors attend Nominating and Governance Committee meetings from time to time at the invitation of the Nominating and Governance Committee.

The Nominating and Governance Committee may solicit director candidate recommendations from a number of sources, including directors, executive officers and third party search firms. The Nominating and Governance Committee will consider for nomination any director candidates, including director candidates recommended by our stockholders, who are deemed qualified by the Nominating and

Governance Committee in light of the qualifications and criteria for Board of Directors membership described below, or such other criteria as approved by the Board of Directors or a committee thereof from time to time. Stockholder recommendations must be submitted to the Nominating and Governance Committee in accordance with the requirements set forth in our By-laws, including those discussed below under the caption "Other Matters Stockholder Proposals," and any procedures established from time to time by the Nominating and Governance Committee. The Nominating and Governance Committee does not have a specific policy regarding the consideration of stockholder recommendations for director candidates and considers this appropriate because it evaluates recommendations without regard to their source. The Nominating and Governance Committee evaluates any potential conflicts of interest on a case by case basis, to the extent they may arise.

When considering candidates for directorship, the Nominating and Governance Committee takes into account a number of factors, including the following qualifications: the nominee shall have the highest personal and professional integrity and have demonstrated exceptional ability and judgment and the attributes necessary (in conjunction with the other members of the Board of Directors) to best serve the long-term interests of the Company and its stockholders. In addition, the Nominating and Governance Committee reviews from time to time the skills and characteristics necessary and appropriate for directors in light of the then current composition of the Board of Directors, including such factors as business experience, international background, diversity and knowledge of the financial services industry in general and the asset management industry in particular. In considering diversity, the Nominating and Governance Committee considers diversity of background and experience as well as ethnic and other forms of diversity. We do not, however, have a formal policy regarding diversity in identifying nominees for a directorship, but rather, consider it among the various factors relevant to the consideration of any particular nominee. The Nominating and Governance Committee reviews at least annually our Corporate Governance Guidelines to ensure that we continue to meet best corporate governance practice standards.

Executive Sessions of Non-management Directors. Our non-management directors meet in regularly scheduled executive sessions. In accordance with the charter of the Nominating and Governance Committee and the By-laws of the Company, Mr. Meyerman, the Chair of the Nominating and Governance Committee, also serves as the lead independent director calling and chairing the executive sessions, including during the annual Board of Directors offsite, and communicating with Mr. Healey, the Chairman and Chief Executive Officer.

Leadership Structure. Mr. Healey serves as Chairman and Chief Executive Officer, and Mr. Meyerman serves as lead director. The Board of Directors believes that having the same person serve as Chief Executive Officer and Chairman focuses leadership, responsibility and accountability in a single person and that having a lead director provides for effective checks and balances and the ability of the independent directors to work effectively in the board setting.

Recognizing the importance of the lead director position to the Company, in 2010 the Board of Directors amended the By-laws of the Company to provide that the lead director will perform many of the functions that an independent chairman would perform. The Board of Directors has appointed Mr. Meyerman as lead director because of his qualifications, including his extensive service in the financial services and banking industries, mergers and acquisitions experience, and international management and advisory experience. Mr. Meyerman's principal responsibilities include serving as a key source of communication between the independent directors and the Chief Executive Officer, and coordinating the agenda for and leading meetings of the independent directors.

Risk Oversight. It is a key responsibility of our Chief Executive Officer, President, Chief Financial Officer, General Counsel, and other members of our senior management team to identify, assess, and manage the Company's exposure to risk. The Board of Directors plays an important role in overseeing management's performance of these functions. The Board of Directors has approved the charter of the Audit Committee, which provides that one of the primary responsibilities of the Audit Committee is the

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

discussion of the Company's major financial risk exposures and steps management has taken to monitor and control such exposures, including with respect to risk assessment and risk management policies. The Audit Committee regularly discusses with management and the Company's independent auditors the Company's risk assessment and risk management processes, including major risk exposures, risk mitigants and the design and effectiveness of the Company's processes and controls to prevent and detect fraudulent activity. Furthermore, the Audit Committee and the Board as a whole receive regular reports from management and our independent auditors on prevailing material risks and the actions being taken to mitigate them. Management also reports to the Audit Committee and the Board on steps being taken to enhance our risk management processes and controls in light of evolving market, business, regulatory, and other conditions.

Related Person Transaction Oversight. Pursuant to its charter, the Audit Committee is responsible for reviewing any related person transaction identified by management and, in accordance with this authority, has determined that there have been no related person transactions requiring disclosure under Item 404(a) of Regulation S-K.

Stockholder and Interested Party Communications with Non-management Directors or the Board of Directors. A stockholder or other interested party may communicate directly with Mr. Meyerman, the lead director, by sending a confidential letter addressed to his attention at Affiliated Managers Group, Inc., 600 Hale Street, Prides Crossing, Massachusetts 01965. Any communications to the full Board of Directors may be directed to John Kingston, III, Vice Chairman, General Counsel and Secretary of the Company, who would, in his discretion, discuss the communications with the Board of Directors at a regular meeting of the Board of Directors.

Availability of Corporate Governance Documents. We maintain a Company website that includes, among other items, the Board of Directors' Corporate Governance Guidelines; the Code of Business Conduct and Ethics applicable to all directors, officers and employees; the Code of Ethics applicable to our Chief Executive Officer, Chief Financial Officer and other senior financial officers; the Insider Trading Policy and Procedures applicable to all directors, officers and employees; and the charters for the Audit, Compensation and Nominating and Governance Committees. Compensation Discussion and Analysis

Introduction

Our executive compensation program has been structured over the long-term to further two basic objectives: first, that executive compensation should be closely aligned with stockholder value creation and our performance as measured by our Economic Net Income per share, or "Economic earnings"; and second, that executive compensation should be designed to attract, motivate and retain the services of key members of our senior management.

The Compensation Committee recognizes that key members of AMG's senior management team have served the Company and its stockholders together for over fifteen years, establishing an outstanding track record of strong Economic earnings and stock price performance throughout that period. From the Company's initial public offering (in 1997) through March 31, 2012, AMG's cumulative stockholder return is 614%, exceeding the 191% return of its asset management peers, the 47% return for the Standard & Poor's 500 Index, and the -23% return for the Standard & Poor's 500 Financial Sector Index. The Company leads its peer group in stockholder return for the 1 and 3 year periods, as well as for the period since its initial public offering. Mr. Healey (the Company's Chairman and Chief Executive Officer) and Mr. Dalton (the Company's President and Chief Operating Officer) have been the cornerstones of that success, given their strategic vision, leadership and execution over that period.

The Committee believes that the strength of this senior management team and the continuity of their tenure together have provided the foundation for AMG's success, and, therefore, retaining key team members is an important Committee priority. With these objectives, in any given year, the Compensation Committee reviews and primarily considers the increases in stockholder value and Economic earnings performance over the short and long run, and makes determinations about compensation to motivate and retain the services of senior management to best ensure the future success of the Company.

2011 Highlights

In 2011, AMG's financial performance on an absolute basis was strong, and performance relative to its publicly traded asset management industry peer group was particularly strong, with AMG's stockholder return leading our peer group, and AMG's Economic earnings in its top quartile. In making its compensation determinations, the Compensation Committee reviewed and considered AMG's financial

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

performance and growth during the year across all areas of its business, as well as the positioning of the business for future growth around the globe. Specifically, the Compensation Committee considered that:

Notwithstanding considerable market volatility throughout the year, and a decline in the MSCI EAFE and Emerging Markets Indices of 15% and 20% for the year, respectively (AMG has 67% of its total assets under management in Global and Emerging Markets strategies):

AMG's Economic earnings increased 17% over 2010, and Economic earnings per share increased 9% to \$6.62;

AMG's assets under management grew 2% to approximately \$327 billion at year end, and have since increased by 20% to \$392 billion as of March 31, 2012 (pro forma for pending investments);

While AMG's stock price ended 2011 down by 3% to \$95.95, the stock performance led our peer group, which on average was down 26% during 2011, and our stock has since increased by nearly 17% (to \$111.81 as of March 31, 2012); and

Over the three year period, AMG's stock price was up 129%, leading our peer group over that period, which on average was up 28%.

AMG's global distribution efforts continued to expand, with Andrew Dyson joining the Company in the newly created position of Head of Global Distribution, and the launch of new distribution offices (Hong Kong, Dubai) and expansion into new regions (Greater China, Korea, and the Nordics).

AMG generated industry-leading organic growth with net client cash flows of \$22.9 billion for 2011, resulting in 7% organic growth for the year, as compared to an average of -1% for our industry peers.

AMG continued to integrate the four investments made in 2010 into its global operations, which further increased the Company's diversification and exposure to Global and Emerging Markets equity and Alternative products.

AMG launched AMG Wealth Partners, an initiative to extend and tailor AMG's model of investing in asset management firms to the unique attributes of wealth management firms, leading to the announcement of an investment in Veritable, LP, an \$11 billion wealth management firm, in March 2012.

Stockholder and Proxy Advisory Firm Survey

AMG's 2011 proxy statement contained the initial stockholder "say on pay" advisory voting requests, as newly required by the Dodd-Frank Act. Stockholders voted in favor of the Board of Directors' recommended annual say on pay frequency and in favor of AMG's executive officer compensation arrangements. Nevertheless, recognizing the importance of responsive and responsible executive compensation governance, the Compensation Committee and Board of Directors requested that senior management survey the leading proxy advisory firms as well as the Company's largest 150 stockholders regarding the Company's executive compensation programs.

In our discussions with various constituencies, the following points were highlighted:

Proxy advisory firms assign peer groups based on broad financial services Global Industry Classifications Standards Codes ("GICS Codes") (including companies with much different business models) and balance sheet comparisons, rather than directly comparable publicly traded asset management firms recognized by AMG (as discussed on page 13), the analyst community following AMG, AMG's stockholders, as well as many peer asset management firms who include AMG as peers in their public disclosure.

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

That valuation methodology for stock option grants used by a proxy advisory firm resulted in significantly higher hypothetical values as compared to the pricing model used by the Company in accordance with generally accepted accounting principles. As a consequence, the value in the proxy advisory firm compensation analysis was approximately 2.3 times that recognized by traditional valuation methods.

When meeting with its largest stockholders, the Company found that stockholders understood and supported the Company's executive compensation philosophy and its execution, which aligns compensation with stockholder value creation and the Company's financial performance, as well as the importance of retaining and motivating Mr. Healey and the other key members of senior management, who have been the cornerstones of AMG's superior earnings and stock price growth over the past 15 years.

2011 Compensation Decisions

The Committee recognized that AMG's growth record in 2011, while strong on a basis relative to its peers, was less than the Committee's objectives for the Company, and was down from the growth rates of 2010. (In 2010, the Company had achieved Economic earnings growth of 61%, and Economic earnings per share growth of 39%, in comparison to the 17% growth in Economic earnings and 9% growth in Economic earnings per share in 2011.) In light of the Committee's philosophy that executive compensation should be aligned with financial performance and stockholder value creation, the Committee determined to:

Maintain base salaries at the same level for the seventh straight year.

Reduce the 2011 annual incentive plan payouts to the Chairman and Chief Executive Officer and to other named executive officers to below the pre-set incentive profit pool amount, and, in the case of Mr. Healey, to a level approximately 29% below the 2010 levels.

Reduce stock option grants from prior year levels given relatively higher option-pricing model expenses attributed to them by a proxy advisory firm, and implement a performance threshold to be achieved in the option grant year.

Continue AMG's evolution to making Long-Term Equity Interests Plan grants, with smaller awards than 2010.

Eliminate the financial planning prerequisite for senior management.

The Committee's decisions resulted in a reduction in aggregate compensation for the Chairman and Chief Executive Officer of 26% from 2010 levels. The Company's named executive officers' 2011 compensation determinations are discussed in greater detail in the following sections, and in the Executive Compensation Tables section.

Our Executive Compensation Program

We believe that an executive officer's total compensation should be comprised principally of equity and performance-based cash compensation to best align compensation with increases in stockholder value. Our Compensation Committee believes that in order to retain key management team members with a long-term track record of success, total compensation should be appropriate relative to the marketplace for the services of our named executive officers.

We assess this marketplace by reviewing the compensation paid to executive officers performing similar functions at other companies in the investment management industry. In particular, executive officer compensation is reviewed against our peer group of publicly traded asset management companies comprised of AllianceBernstein Holding L.P., Ameriprise Financial, Inc., BlackRock, Inc., Eaton Vance Corp., Federated Investors, Inc., Franklin Resources, Inc., Invesco Ltd., Janus Capital Group Inc., Legg Mason Inc., T. Rowe Price Group, Inc., and Waddell & Reed Financial, Inc., as well as against a range of alternative investment and other investment management firms comprising the marketplace for the

services of our executive officers. In reviewing this universe, we give consideration to the fact that certain of these companies are more closely comparable to the Company, and accordingly consider the relative comparability of the companies in our assessment of various compensation structures and arrangements. Specifically, we consider which companies are most comparable with respect to size (market capitalization and assets under management) and general business profile (those companies that have similarly specialized equities and alternative investment management capabilities, or with similar business strategies). We also consider the senior management profile of a company in determining compensation comparability (for example, the extent to which founders serve in key senior management roles). While the Compensation Committee reviews peer compensation for comparison purposes, this review is not the determining factor and is only one of many factors that are considered by the Compensation Committee in setting compensation. In light of the Committee's objective to align compensation with increases in stockholder value, the Committee generally intends that the most substantial portion of compensation be equity-based, with the second largest component being performance-based cash compensation. When determining performance-based cash compensation levels, we consider our Economic earnings performance in the short-term and long-term. We consider Economic earnings the most important measure of our financial performance, as it represents operating performance before non-cash expenses relating to the acquisition of interests in our affiliated investment management firms. (See page 28 of our 2011 Annual Report on Form 10-K *Supplemental Performance Measures* for further detail on the calculation of Economic earnings.) In addition to our equity and performance-based cash compensation, we also utilize competitive base salaries and some limited perquisite compensation tools that the Committee deems appropriate to meet the objective of retaining key members of senior management.

Our Compensation Committee

The Compensation Committee oversees our general compensation policies, establishes and reviews the compensation plans and benefit programs applicable to our executive officers, and administers our stock option and equity incentive plans.

The Compensation Committee currently consists of Messrs. Byrne, Meyerman, Ryan and Zeitlin, with Mr. Ryan serving as the Chair. Each member of the Committee has significant experience in compensation matters as a result of their service as executive officers or advisors to various public and private companies. The Committee's agenda and meeting calendar is determined by the Committee, with input as appropriate from Mr. Healey, who attends meetings at the request of the Committee. In his capacity as Chairman and Chief Executive Officer, Mr. Healey participates in discussions with the Committee concerning the compensation of other members of executive management and the design of long-term and equity incentive plans, but does not participate in discussions regarding his own performance goals, contributions or compensation, which occur in executive sessions of the Committee and in meetings of the Committee with our independent compensation consultant. The Committee also invites Mr. Kingston, Vice Chairman and General Counsel, to attend certain meetings to discuss the design, implementation and administration of long-term incentive, equity incentive and deferred compensation plans. The Committee has the sole authority for approving the compensation of our executive officers and the performance goals related to such plans and programs.

The Committee regularly meets without management team members present, and the Chair from time to time requests that all other independent directors meet with the Committee in executive session. The Committee's independent compensation consultant participates in conference calls and meetings without management present at key points throughout the year, including conference calls and meetings with the Chair of the Committee.

Compensation Consultants

In 2011, the Committee again engaged an independent outside executive compensation consulting firm, Thomas E. Shea & Associates, LLC ("Shea & Associates"), to assist the Committee with

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

compensation matters, including providing peer universe benchmarking information and an independent analysis of how our executive and board compensation policies and practices compared to those of the peer universe. In addition to a review of cash and equity compensation and perquisite arrangements across the industry, the analysis provided by Shea & Associates also considered financial metrics for our peers, including market capitalization, assets under management, various measures of profitability, and stock price performance. In order to prepare its analysis for the Committee, Shea & Associates met from time to time with management.

Shea & Associates, which provides no other services to us, reported its findings directly to the Committee. In setting executive officer compensation levels, the Committee considered the comparative compensation analyses provided by Shea & Associates, and then applied the collective experience and judgment of the Committee to such data (and the relative significance of the various comparative universe components) to make compensation determinations. A representative of Shea & Associates met with the Committee in formal Committee meetings, as well as outside Committee meetings in sessions with Committee members, particularly with the Committee Chair, at key points throughout the year to update the Committee on the status of compensation surveys, and make recommendations regarding executive officer and director compensation programs and levels.

Compensation Governance Practices

AMG's strong governance procedures and practices with respect to employment and compensation include the following:

No employment agreements with the Chairman and Chief Executive Officer, President and Chief Operating Officer, or Chief Financial Officer.

No change in control agreements with our executives.

The base salaries for our executive officers generally comprise less than 10% of total compensation.

No tax reimbursements for any perquisites.

No supplemental retirement benefits for any executive officer.

An insider trading policy that prohibits hedging of AMG securities.

Equity ownership guidelines for our executive officers.

Thorough risk assessment process, as described under "Risk Considerations in our Compensation Programs" below.

"Double-trigger" vesting upon change in control. Awards granted on or after January 1, 2013 will only accelerate upon a change in control followed by termination within two years.

A clawback policy that allows for the recoupment of performance-based compensation from executive officers.

2011 Compensation Process and Elements

2011 Compensation Process

Executive retention is a matter of great significance for the Compensation Committee, given the strong performance of the Company since going public in 1997 and the increasing visibility of Mr. Healey and the other members of the executive team in the marketplace. The Compensation Committee considers the recruitment efforts directed at our executive officers by other companies within the asset management industry given their individual and collective performance, their tenure and the long term success of the Company. In addition, the Compensation Committee considers the marketplace for senior executives at its peers, and particularly focused on the compensation marketplace

in connection with the hiring of Mr. Dyson in 2011.

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

The Compensation Committee worked with Shea & Associates throughout 2009 and 2010 to explore a variety of additional long-term equity ownership plan alternatives to balance AMG's historical reliance on stock options with competitive and affordable retention tools. After a review of possible alternatives, the Committee developed, in April 2009, a long-term retention plan (under the Executive Incentive Plan) in which awards were notionally invested in shares of the Company's common stock and, in December 2010, implemented a long-term equity interests plan (the "Long-Term Equity Interests Plan") to provide additional long-term tools to retain management, while aligning incentives with the creation of stockholder value. The Compensation Committee determined to employ the Long-Term Equity Interests Plan again in 2011. In addition, consistent with the Compensation Committee's long-standing use of stock options as an equity compensation tool, in July 2011 the Committee granted options to executive officers under the 2011 Stock Option and Incentive Plan (the "2011 Option Plan"). Consistent with the Committee's determination to reduce stock option grants from prior years, and to continue an evolution to other equity awards, the Committee did not grant options at year end, as it had in 2010 and prior years.

In 2011, as over the past decade, a meaningful portion of our total compensation continued to be performance-based, because we believe that senior management compensation should be tied to our financial performance and increases in stockholder value. The Committee initiated the annual process for establishing appropriate compensation targets and benchmarks for 2011 during the final Committee meetings of 2010, as the Committee reviewed the principles and continuing effectiveness of the compensation program with the assistance of Shea & Associates. At its January 2011 meeting, the Committee evaluated the appropriate target Economic earnings per share growth rate for 2011, reviewing historical growth rates, prevailing business conditions, and expectations for continuing growth. In evaluating our most recent performance to determine the baseline growth target for the upcoming year, the Committee applies its judgment to make adjustments for specific factors that influenced recent growth rates, including market conditions, the timing of transactions, new financing arrangements and changes in the corporate capital structure, the relative levels of management and performance fees, and any recent or anticipated one-time events.

With the assistance of Shea & Associates, the Compensation Committee carefully considered the stockholder survey and proxy advisory firm feedback, and determined that its executive compensation philosophy and programs remained appropriate for the Company and its business.

In light of stockholder feedback and to continue to improve our executive officer pay alignment, cost effectiveness and governance, the Compensation Committee implemented the following changes in 2011:

Reduced executive officer stock option grants to approximately 65% of 2010 grants, and generally intends to reduce the relative emphasis on stock options.

Added a performance metric to the July 2011 stock option grants, which it intends to apply to future option grants.

Continued the evolution away from stock option grants to other forms of equity awards, and in 2011, to grants under the Long-Term Equity Interests Plan.

Eliminated the financial planning prerequisite for senior management.

Adopted "double-trigger" vesting upon change in control, applicable to awards granted on or after January 1, 2013.

Adopted a clawback policy that allows for the recoupment of performance-based compensation.

In preparation for the determinations to be made by the Committee at the end of the year, various members of the Committee (and particularly the Committee Chair) conducted a series of conference calls with Shea & Associates outside of formal meetings to consider cash bonus compensation of our peer universe and potential bonus arrangements. The Committee also met in December 2011 and reviewed updated estimates concerning our performance, as well as potential bonus arrangements for each executive

officer (since the Committee always retains discretion to pay less than the amount available for payment under our Executive Incentive Plan formula). In that review and consideration, the Committee was not constrained by any particular performance targets for the Company or for any particular named executive officer. In determining how much bonus to pay, the Committee considered a market cash bonus compensation analysis of our peer universe as part of developing a total compensation package that was competitive relative to the marketplace for our named executive officers. In addition, although the Committee does not have specific targets that it applies to such evaluation, the Committee also considered our performance and the various factors that may have affected such performance in that year (including market conditions, the possible timing of transactions and new financing arrangements, and the relative levels of management and performance fees), as well as the performance relative to the peer universe. Finally, the Committee also evaluated final compensation determinations in the context of its objective to maximize financial performance and realize appropriate growth returns for our stockholders.

At the end of 2011, based upon our performance and the most current peer universe compensation information, the Committee then reviewed 2011 compensation arrangements and made final performance-based cash compensation and equity grant determinations.

2011 Compensation Elements Cash Base Salary

We pay cash base salary because it forms the foundation of any competitive total compensation package. In determining base salary levels for our executive officers, the Committee takes into account the executive's scope of responsibility, performance and salary history as well as internal consistency within our salary structure. In addition, the Committee annually reviews the base salary being paid to executive officers of other public companies in the peer universe.

Because the Committee believes that equity and performance-based cash compensation should constitute the substantial majority of compensation paid to our named executive officers, we target the level of cash base salary at the median for comparable positions in our public company peer group. In light of the Committee's philosophy and the factors stated above, the Committee determined that 2012 base salaries would again remain unchanged from 2006 levels.

2011 Compensation Elements Performance-based Cash Compensation

The substantial majority of our total compensation is performance-based, because we believe that senior management compensation should be tied to our financial performance and increases in stockholder value. In designing our performance-based cash compensation arrangements, the Committee believes that such compensation should be awarded in the event that we meet the Committee's expectations for Economic earnings and its objective that a certain level of financial performance and returns for our stockholders be achieved, along with maintaining the financial strength of the Company. Under these arrangements, baseline levels of Economic earnings must be achieved before executive officers are entitled to earn performance-based cash compensation, and higher growth rates in any given year may result in relatively higher compensation payouts.

Our annual cash incentives are awarded under our Executive Incentive Plan. At its January 2011 meetings, the Committee evaluated the appropriate target Economic earnings per share growth rate for 2011, reviewing historical growth rates, prevailing business conditions, and expectations for growth. In evaluating our most recent performance to determine the baseline growth target for 2011, the Committee applied its judgment to make adjustments for specific factors that influenced recent growth rates, including market conditions, the timing of transactions, new financing arrangements and changes in the corporate capital structure, the relative levels of management and performance fees, and any recent or anticipated one-time events. At this meeting, the Committee established the Economic earnings per share growth rate target for 2011 and the formula by which the incentive pool under that plan would be determined. In

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

addition to a baseline earnings target (for 2011, this target was \$4.00 of Economic earnings per share), which would establish an initial discretionary bonus pool of \$15.0 million, achievement of a secondary growth target (in 2011, this secondary target was 15% Economic earnings growth), would increase the potential pool for executive officers with Economic earnings above this growth level.

The Committee also established for each participant in the plan the percentage share of the pool that could be earned if the performance target were met, as required under Section 162(m) of the Internal Revenue Code. In 2011, the maximum percentage share allocable to each executive officer was as follows: Sean M. Healey, 42%; Nathaniel Dalton, 25%; Jay C. Horgen, 20%; Andrew Dyson, 6.5%; and John Kingston, III, 6.5%.

In 2011, we achieved growth of 17% in Economic earnings and 9% in Economic earnings on a per share basis; given that growth, under the Executive Incentive Plan formula \$15.4 million was available for payment. Under the Compensation Committee's approach to performance-based compensation, although the performance targets determine the amount *available* for the payment of bonuses (or, a ceiling for such payments), the Committee uses its independent judgment (guided by the analyses provided by the Committee's independent compensation consultant) to determine the amount of bonus actually *paid* to each named executive officer, without being constrained by any particular formula (except to the extent of the ceiling of the total pool, or for individual executive officers). The Committee always retains discretion to decrease the amount to be paid to executive officers, and has regularly applied that discretion to reduce executive compensation payments, both in 2011 and in prior years.

In determining the amount of the bonus to pay, the Committee considered a market cash bonus compensation analysis of our peer universe in developing a total compensation package that was competitive relative to the marketplace for our named executive officers. In making this assessment, the Committee considered Shea & Associates' 2011 peer group review.

In addition, the Committee evaluates the application and effectiveness of its "pay for performance" principles over the longer term, and in 2011 the fact that AMG has outperformed its peers on a longer term basis (see chart reflecting long-term outperformance on page 11). Furthermore, the Committee also takes into consideration the strategic vision, leadership and execution of the Company's strategy by Mr. Healey and the other executive officers since the Company's initial public offering in 1997, and views the longevity and continuity of management as a strategic advantage creating stockholder value.

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

Shea & Associates also provided our Compensation Committee with our peer group salary, cash incentive bonus, and long-term equity and total direct compensation pay data for the prior three years, along with analyses of AMG's historical pay levels relative to the comparators' 25th percentile, median and 75th percentile pay levels. Finally, the independent compensation consultant provided projections of compensation activity across the financial services industry for 2011, based upon survey and financial press data.

In addition, although the Committee does not have specific targets that it applies to such evaluation, the Committee also considered our financial performance and the various factors that may have affected such performance in that year (including market conditions, the possible timing of transactions and new financing arrangements, and the relative levels of management and performance fees), as well as the 2011 financial performance relative to the peer universe. Finally, the Committee also evaluated final compensation determinations in the context of its objective to maximize financial performance and realize appropriate growth returns for our stockholders.

The Committee determined to reduce the cash incentive pool payable to our executive officers to \$12.0 million, leaving \$3.4 million in additional cash incentive pool the Committee determined should not be issued.

The Committee's determinations regarding the amount of performance-based cash compensation to be paid to each executive officer are set forth in the Summary Compensation Table.

2011 Compensation Elements Equity-based Compensation Awards

We believe that equity-based compensation awards provide long-term incentives that further the Committee's objective to increase stockholder value and retain our senior management team. Given the Committee's objective to align compensation with increases in stockholder value, the Committee generally intends that the most substantial portion of total compensation be equity-based. Furthermore, since the Committee believes the longevity and continuity of management is a strategic advantage creating stockholder value over the long-term, in granting equity awards the Committee ensures that awards have a long-term focus, and vest over multiple years, and, in many cases, have liquidity restrictions, over multiple years.

The Committee grants equity-based incentive compensation awards on the basis of our historical performance (both in terms of Economic earnings growth and increase in stockholder value) and the individual executive officer's contributions to that performance, as well as the expected contribution of the executive officer to our future performance. The Committee also considers the relationship of equity-based compensation awards to the performance-based cash compensation to be paid to each executive officer in any particular year. The Committee further considers equity ownership, including the relative size and structure of historical grants and the portions of an award that are not yet vested, of our executive officers. In addition, the Committee considers the performance and equity-based compensation levels of the Company and our individual executive officers in relationship to the peer group universe, as well as the comparative levels of equity ownership of individual officers at such companies.

In 2011, the Committee made its determinations concerning total equity grants with the assistance of Shea & Associates, based on the analysis of AMG performance and compensation and equity ownership levels relative to our peer group and the consultant's projections concerning general executive compensation market trends among the universe of financial institutions who are relevant competitors for executive talent, as well as projected future management ownership levels relative to AMG's growth over multi-year time horizons. The Committee evaluates the application and effectiveness of its "pay for performance" principles over the longer term, and observed that AMG leads its peer group in stockholder return for the 1 and 3 year periods, and since the Company went public in 1997.

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

As noted above, our independent compensation consultant provided our Compensation Committee with comprehensive peer long-term equity and total direct compensation pay data for the prior three years, along with analyses of AMG's historical pay levels relative to the comparators' 25th percentile, median and 75th percentile pay levels. Finally, in its assessments of financial services compensation activity, the independent compensation consultant observed that the size and frequency of full value performance-based/restricted stock and long-term incentive awards would likely increase as many financial institutions continued to pay a larger portion of compensation in the form of equity awards, and that option grants would continue to decline as a compensation tool.

Given the evolving equity compensation environment, and the higher option-pricing model expenses attributed to options by a proxy advisory firm, the Committee determined to limit its option grants, in favor of continuing to evolve to grants of other forms of equity compensation. The Committee had implemented a Long-Term Equity Interests Plan in December 2010 to provide an additional long-term tool to align incentives with the creation of stockholder value, and to balance AMG's historical reliance on stock options. After reviewing possible alternatives, the Committee decided to use a Long-Term Equity Interests Plan again in 2011, given the relative stability of long-term equity interests as an equity compensation tool. Under the 2011 Long-Term Equity Interests Plan, equity interests may be granted to management from time to time, with vesting, forfeiture and repurchase agreements established under the plan and by the Compensation Committee at the time of grant. The equity interest structure is similar to the equity structure employed by AMG with Affiliate principals; a ratable portion of ownership interests in all Affiliates is transferred to a partnership, grants to management of equity interests vest 25% a year over multiple years, interests are only available for sale starting in 2016, and cash flow distributions begin in 2019. (The fair value of these awards is determined using a discounted cash flow analysis, with key valuation assumptions being projected assets under management, fee rates and discount rates.)

While the Compensation Committee granted options to executive officers under the stockholder-approved 2011 Stock Option Plan in July 2011 (which included a performance threshold to be achieved in the option grant year), in keeping with its ongoing evolution to the greater use of other equity compensation tools, it did not issue options in December 2011 (as it had in 2010 and in prior years), and (as the Committee always retains discretion to decrease awards) in aggregate reduced option grants by 35% from 2010 levels.

The Company's named executive officer 2011 equity compensation grants are discussed in greater detail in the Executive Compensation Tables section.

Other Incentive and Retention Programs

In 2006, the Committee established the Deferred Compensation Plan to provide additional retirement plan flexibility for our officers. The plan provides officers and directors the opportunity to voluntarily defer compensation on a pre-tax basis, and to notionally invest such deferred amounts in one or more specified measurement funds. In 2011, no executive officer or director elected to defer compensation under the Deferred Compensation Plan.

Other Elements of Compensation

We provide a 401(k) Profit Sharing Plan for all employees and generally contribute a percentage of compensation to such plans. We also provide other benefits such as medical, dental and life insurance and disability coverage to all eligible employees.

Perquisites

Our perquisite compensation is in the lowest quartile of our public company peer group, as we use only certain perquisite tools (such as medical services, and use of Company aircraft) deemed appropriate by the Committee to meet the objectives of retaining key members of senior management, and optimizing

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

the use of their time and services to the Company. In 2011, the Compensation Committee determined to eliminate the financial planning requisite for senior management. The Company does not provide tax reimbursements for any requisite.

Severance and Potential Change in Control Compensation and Benefits

We generally do not have employment or individual change in control agreements with our executive officers or directors, and possible changes in control are addressed through the acceleration of vesting of equity.

Upon our change in control, option vesting pursuant to our stock option and incentive plans and the payout of awards under the Executive Incentive Plan and the Long-Term Equity Interests Plans would be accelerated for our executive officers, as well as for any of our employees participating in such plans. Any awards issued on or after January 1, 2013 will be subject to a "double-trigger", requiring a termination of employment without cause or for good reason for accelerated vesting following a change in control.

In the event of our change in control, as of December 31, 2011, awards held by named executive officers would have accelerated as set forth below. The market value amounts in the table have been calculated using a share price of \$95.95, which was the closing price of a share of our common stock on December 31, 2011. The market value associated with the acceleration of options has been calculated by using the "spread" value of the options (\$95.95 minus the applicable option exercise price) and multiplying it by the number of shares underlying the option that would accelerate. The value associated with the acceleration of units of profits interests awarded under the Long-Term Equity Interests Plans represents the value of the unvested portion of the award as of December 31, 2011.

In 2011, we entered into a Transition and Advisory Services contract with Mr. Crate in connection with his resignation from his capacities as Executive Vice President, Chief Financial Officer and Treasurer. Mr. Crate has continued to serve as an employee providing advisory services on an on-going basis to the Company, and is expected to continue to do so through February 2016. The Compensation Committee reviewed and considered Mr. Crate's total compensation for 2011 with respect to his contributions to the Company through the year, most notably the Company's ongoing success while transitioning the offices of Chief Financial Officer and Treasurer to Mr. Horgen, and on that basis determined that total compensation of \$4.2 million, or a reduction of approximately 59% over 2010, was appropriate compensation for that period. While Mr. Crate will receive no additional cash or equity compensation for his continuing services to the Company, prior equity awards remain outstanding, and he will be subject to on-going non-competition and other customary covenants.

In July 2011, Mr. Dyson joined as an Executive Vice President and Head of Global Distribution and entered into an employment agreement with our wholly-owned subsidiary, Affiliated Managers Group Limited (FSA Reference Number 506689). Pursuant to the agreement, Mr. Dyson receives an annual base salary of £214,000 (\$340,495 U.S.), a minimum cash incentive bonus of £918,000 (\$1,460,630 U.S.) in each of 2011 and 2012, pro-rated for actual service time, as well as 137.27 units under the 2011 Long-Term Equity Interests Plan and 50,000 options to purchase shares of our common stock at a price of \$99.66 per

share under the 2011 Stock Option Plan. For one year following his separation from the Company, Mr. Dyson is prohibited from soliciting certain of our employees and from soliciting persons or entities who were clients or prospective clients in the year immediately prior to his termination.

Risk Considerations in our Compensation Programs

The Compensation Committee has discussed the concept of risk as it relates to our compensation programs with management and Shea & Associates. The Compensation Committee does not believe the goals or the underlying philosophy of our compensation programs encourage excessive or inappropriate risk taking, nor create risks that are reasonably likely to have a material adverse effect on the Company.

Throughout our compensation structure, compensation is aligned with increases in stockholder value, and therefore our compensation arrangements do not encourage inappropriate risk taking. The executive officers' salaries are fixed in amount, while bonuses are tied to overall corporate performance (since the Committee always retains discretion to pay less than the amount available for payment under our Executive Incentive Plan formula), and a substantial portion of compensation is in the form of long-term equity awards that further align executives' interests with those of the Company's stockholders. These awards do not encourage excessive or inappropriate risk-taking given that the value of the awards is tied to the Company's stock price, and the awards are subject to long-term vesting schedules to help ensure that executives have significant value tied to long-term stock price performance. In addition, to further ensure the alignment of compensation with long-term performance, the Company has adopted a clawback policy that allows for the recoupment of performance-based compensation from executive officers in the event of a material restatement of the Company's financial results due to a material error within three years of the original reporting.

Equity Ownership Guidelines

We believe that equity ownership guidelines (which are currently established by the Committee as a multiple of five times base salary, to be achieved over five years from the later of the implementation of these guidelines or becoming an executive officer of the Company) further align the interests of executive officers with those of our stockholders. All executive officers currently satisfy these equity ownership guidelines.

Equity Grant Policy

We grant all equity awards, including options, under the terms of an equity grant policy. Generally, we grant equity awards (other than new hire grants) at regularly scheduled meetings of the Committee, with new hire grants occurring at other meetings (or by written action of all Committee members) as appropriate.

The Committee will not approve any equity award grants on any date when it believes, in its reasonable judgment, that there is material non-public information that is reasonably likely to impact the price of our common stock.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended from time to time (the "Code") generally disallows a tax deduction for compensation in excess of \$1 million paid to any "covered employee" of a publicly held corporation (generally the corporation's chief executive officer and its next three most highly compensated executive officers, excluding the chief financial officer, in the year that the compensation is paid) unless such compensation qualifies as performance-based compensation. The Executive Incentive Plan was designed to permit performance-based compensation to be paid to such covered employees. In implementing our compensation programs during fiscal 2011, we considered, among other things, the Executive Incentive Plan and the opportunities it affords to provide awards that

are intended to meet the performance-based compensation exception under Section 162(m), as described above.

The Committee considers the availability of a tax deduction as one element in designing compensation programs that are intended to reward our executive officers for their contribution to the success of the Company, but the tax impact is not the only element it considers. As such, the Committee may grant awards that do not qualify for an exemption from the deduction limitations under Section 162(m) or that may otherwise be limited as to tax deductibility.

Compensation Committee Report

The Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on its review and discussions with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

(1) These figures represent performance-based cash incentive awards pursuant to the Executive Incentive Plan. The performance thresholds associated with these awards are discussed in the Compensation Discussion and Analysis.

(2) The grant date fair value of stock options was determined using the Black-Scholes option pricing model based on the assumptions discussed in Note 21 to the Company's financial statements for the year ended December 31, 2011 included in our Annual Report on Form 10-K. The stock option awards granted in 2011 were subject to a 100% performance vesting threshold and, following the achievement of the performance threshold, vest in four equal annual installments.

(3) For 2011, all other compensation consisted of (i) contributions by the Company under its 401(k) Profit Sharing Plan in the amount of \$24,500 on behalf of each of Messrs. Healey, Dalton, Horgen and Kingston, and contributions by the Company under its UK pension plan in the amount of \$13,236 on behalf of Mr. Dyson, (ii) financial service benefits (an allowance for financial planning and tax preparation advice) for Mr. Crate, in connection with his Transition and Advisory Services Agreement, (iii) personal physician benefits or medical benefits with respect to each of

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

Messrs. Healey, Dalton, Dyson, Horgen and Kingston, (iv) aircraft usage benefits with respect to each of Messrs. Healey, Dalton, and Horgen, and (v) insurance premiums paid by the Company with respect to term life and long-term disability insurance policies on behalf of each named executive officer. The Company does not provide tax reimbursements for any perquisite.

- (4) Reflects units of profits interests granted under the 2010 and 2011 Long-Term Equity Interests Plans. The December 2011 awards vest in 25% increments on each of December 31, 2011, 2012, 2013 and 2014, are only available for sale to the Company starting in 2016, and have cash flow distributions beginning in 2019. As discussed under "Share-Based Compensation" in the Company's financial statements for the year ended December 31, 2011 included in our Annual Report on Form 10-K, the fair value of these awards is determined using a discounted cash flow analysis, with key valuation assumptions being projected assets under management, fee rates and discount rates. The awards may or may not be settled in shares of the Company's common stock. Separately, in connection with a 2007 award under the Deferred Compensation Plan, Mr. Horgen also received a distribution in the amount of \$129,383 (in the form of 1,304 shares of the Company's common stock). As reported in the Company's 2008 Proxy Statement, Mr. Horgen's award was fully vested in 2007, is invested in shares of the Company's common stock at the election of Mr. Horgen, and is distributable in four annual 25% increments beginning in 2009. The remaining 1,304 shares, with a market value of \$125,119 as of December 31, 2011, will be distributed in 2012.
- (5) In April 2009 the Compensation Committee developed, under the Executive Incentive Plan, a long-term, highly back-loaded cumulative vesting five year retention plan for the Company's management, subject to meeting the performance target set by the Compensation Committee. To advance the retention and incentive objectives of the Committee, 80% of the grant vests at the end of years four and five of the program, and all pay-outs are deferred until January 2014, ensuring that participating management team members have a strong incentive to continue to serve the Company over a minimum five-year time horizon. In April 2009, each of the named executive officers of the Company at such time was granted a performance-based award that they elected to notionally invest in shares of the Company's common stock. The applicable performance target has been attained and, therefore, 10% of the award vested on each of December 31, 2010 and 2011, and 40% of the award will vest on each of December 31, 2012 and 2013, in each case, subject to the recipient remaining employed on such date (with an exception for terminations due to death or disability). To the extent vested, the awards will be settled in January 2014. The awards, in the discretion of the Compensation Committee, may or may not be settled in shares of the Company's common stock.
- (6) While he remains employed by the Company, Mr. Crate resigned from his position as Chief Financial Officer and Treasurer effective as of May 2, 2011. Mr. Crate continues to receive medical and other benefits, and his equity awards continue to remain outstanding.
- (7) Mr. Dyson joined as Executive Vice President and Head of Global Distribution in July 2011. Mr. Dyson received a prorated portion of his salary in 2011 (based on his period of employment). Mr. Dyson's annualized salary is \$340,495 U.S. As an employee of our wholly owned subsidiary, Affiliated Managers Group Limited (FSA Reference Number 506689), Mr. Dyson's compensation is denominated in British pounds and was translated to U.S. dollars for this Proxy Statement using the average daily exchange rate from July 1, 2011 through December 31, 2011 of 1.5911 US\$/GBP.

Director Compensation

At the request of the Compensation Committee, Shea & Associates regularly provides a review of director compensation in the broad peer universe and most comparable peer universe. This analysis includes data on total compensation for directors at such peer companies, as well as on the individual components of that compensation, such as annual retainers, meeting fees and equity awards. Shea & Associates also provides comparative data from time to time on compensation by board position (such as committee chairs and lead directors), and information on the nature of the service of particular directors in their various capacities (e.g., lead directors) at such companies. Shea & Associates also provides information from time to time to the Compensation Committee on trends in director compensation.

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

In determining current compensation levels for the Company's directors, the Compensation Committee's objective is that cash compensation be set at or near to the median in comparison to directors at public companies within our peer universe, while equity compensation linked to stockholder value be higher on a relative basis. The annual fee for service by non-management directors is \$80,000. Directors do not receive quarterly meeting fees. Committee fees are as follows: members of the Audit Committee receive an annual fee of \$20,000, with the Chair receiving an annual fee of \$35,000; members of the Compensation Committee receive an annual fee of \$17,000, with the Chair receiving an annual fee of \$20,000; and members of the Nominating and Governance Committee receive an annual fee of \$13,000, with the Chair receiving an annual fee of \$15,000. The Chair of each Committee receives the annual Chair fee in lieu of the Committee fee. In addition, the lead director receives a fee of \$100,000 for his active role as principal liaison with management of the Company and for his services as the principal contact on our Board of Directors for our stockholders and other interested parties. All directors of the Company are provided information technology and support by the Company and are reimbursed for travel expenses incurred in attending meetings of the Board of Directors and its committees as well as Board related activities.

Equity grant determinations for directors are made consistent with the Compensation Committee's philosophy that compensation should be directly linked to increases in stockholder value. Directors receive semi-annual option grants, with an aggregate annual grant date Black-Scholes value of \$120,000, and grants under the Deferred Compensation Plan, with an aggregate annual grant date fair market value of \$80,000, based on the closing stock price of the Company's common stock on the date of grant. Each of such grants will generally vest in 25% increments over four years, a vesting period that is longer than the 1-3 year vesting schedules employed by companies in our peer group, and across the market more generally.

PROPOSAL 2: ADVISORY VOTE ON EXECUTIVE COMPENSATION

In accordance with the requirements of Section 14A of the Exchange Act, we are again providing for a non-binding, advisory vote for stockholders to approve the compensation of our named executive officers as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K.

While this vote is advisory and not binding on the Company or the Board of Directors, the Board and the Compensation Committee value the opinions of our stockholders, and will continue to consider the outcome of the vote when making future compensation decisions for our named executive officers.

In considering your vote on the resolution below, please review the Compensation Discussion and Analysis beginning on page 11 of this Proxy Statement. The Compensation Discussion and Analysis describes the Company's executive compensation program and the compensation decisions that the Compensation Committee and Board of Directors made in 2011 with respect to the compensation of our named executive officers.

Our executive compensation program is designed to enable the Company to attract, motivate and retain key persons while, at the same time, creating a close relationship between performance and compensation. In addition, the Company regularly reviews its compensation program and the overall compensation package paid to each of its named executive officers, including through the engagement of an independent compensation consultant, to assess risk and to ensure that the program is structured appropriately in order to obtain the Company's strategic goals.

Approval of the advisory vote on executive compensation requires the affirmative vote of a majority of the shares of common stock present or represented at the Annual Meeting and entitled to vote on such proposal. Abstentions will have the same effect as a vote against this proposal, and broker non-votes will have no effect on this proposal.

Recommendation of the Board of Directors

For the above reasons, the Board of Directors unanimously recommends that the Company's stockholders vote **FOR** the approval, on an advisory basis, of the compensation paid to our named executive officers, as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K. Although the vote we are asking you to cast is non-binding, the Compensation Committee and the Board of Directors value the views of our stockholders and will consider, among other factors, the outcome of the vote when determining future compensation arrangements for our named executive officers.

**PROPOSAL 3: RATIFICATION OF THE
SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of the Board of Directors has selected PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the current fiscal year, subject to ratification by the Company's stockholders at the Annual Meeting. PricewaterhouseCoopers has acted as the Company's independent registered public accounting firm since the Company's inception. The Company has been advised by PricewaterhouseCoopers that it is a registered public accounting firm with the Public Company Accounting Oversight Board (the "PCAOB") and complies with the auditing, quality control, and independence standards and rules of the PCAOB and the SEC. A representative of PricewaterhouseCoopers is expected to be present at the Annual Meeting to respond to appropriate questions and to make a statement if he or she so desires.

Although stockholder ratification of the selection of PricewaterhouseCoopers is not required, the Board of Directors is nevertheless submitting the selection of PricewaterhouseCoopers to the stockholders for ratification. Should the selection of PricewaterhouseCoopers not be ratified by the stockholders, the Audit Committee will reconsider the matter. Even in the event the selection of PricewaterhouseCoopers is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change is in the best interests of the Company and its stockholders.

Ratification of the selection of PricewaterhouseCoopers as our independent registered public accounting firm for the current fiscal year requires the affirmative vote of a majority of the shares of common stock present or represented at the Annual Meeting and entitled to vote on such proposal. Abstentions will have the same effect as a vote against this proposal.

Recommendation of the Board of Directors

The Board of Directors believes that the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm is in the best interests of the Company and its stockholders and, therefore, unanimously recommends that the Company's stockholders vote **FOR** this proposal.

AUDIT COMMITTEE REPORT

During the fiscal year ended December 31, 2011, the Audit Committee consisted of Dr. Rodriguez and Messrs. Churchill, Meyerman, Nutt and Ryan, each an independent director of the Company, with Dr. Rodriguez serving as the Chair of the Audit Committee. Ms. Palandjian was appointed to, and Messrs. Nutt and Ryan resigned from, the Audit Committee in March 2012.

The Audit Committee's purpose is to assist the Board of Directors in oversight of the Company's internal controls and financial statements and the audit process. The Board of Directors has determined in its business judgment that all members of the Audit Committee are "independent" as is required by the listing standards of the NYSE and under the SEC rules.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent registered public accounting firm, PricewaterhouseCoopers LLP, is responsible for performing an independent audit of the consolidated financial statements in accordance with the standards of the PCAOB.

In performing its oversight role, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm the matters required to be discussed by Public Company Accounting Oversight Board AU Section 380, formerly Statement on Auditing Standards No. 61, as amended and as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm the independent registered public accounting firm's independence.

Based on the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to below and in its charter, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including with respect to auditor independence. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent registered public accounting firm. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with the standards of the PCAOB, that the financial statements are presented in accordance with generally accepted accounting principles or that PricewaterhouseCoopers is in fact "independent."

The Audit Committee operates pursuant to a charter that was most recently adopted by the Board of Directors in October 2011 and is available on the Company's website at www.amg.com.

Principal Accountant Fees and Services

The following table sets forth information regarding the fees for professional services rendered by the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, in each of the last two fiscal years:

Type of Fee	Year Ended	Year Ended
	December 31, 2010	December 31, 2011
Audit Fees(1)	\$4,141,900	\$4,728,864
Audit-Related Fees(2)	1,245,350	675,418
Tax Fees(3)	3,688,365	2,557,294
All Other Fees		

- (1) Represents fees for professional services rendered in connection with the audit of the Company's financial statements, reviews of the financial statements included in each of the Company's quarterly reports on Form 10-Q, issuances of consents and services related to the implementation of accounting standards.
- (2) Represents fees for due diligence procedures in connection with new investments, research assistance on accounting-related issues, benefit plan audits, issuances of the Global Investment Performance Standards (GIPS) performance verification and internal controls reports such as those pursuant to Statement on Standards for Attestation Engagements No. 16.
- (3) Represents fees for income tax compliance and domestic and international tax planning as well as tax due diligence procedures in connection with new investments.

In making its determination regarding the independence of PricewaterhouseCoopers, the Audit Committee considered whether the provision of the services covered in the sections entitled "Audit-Related Fees" and "Tax Fees" was compatible with maintaining such independence. All of the work performed by PricewaterhouseCoopers was performed by full-time employees of the firm.

The retention of the independent registered public accounting firm to audit the Company's financial statements is approved each year by the Audit Committee. At the beginning of the year, the Audit Committee also evaluates other potential engagements by the Company of the accounting firm and approves or rejects each service considering (among other factors) the possible impact of each non-audit service on the accounting firm's independence from management. In accordance with its charter, the Audit Committee pre-approves all auditing services and the terms thereof and any non-audit services provided by the independent registered public accounting firm unless an exception to such pre-approval exists under the Exchange Act or the rules of the SEC. The Audit Committee carefully considers the fees that are proposed to be paid in connection with the approval of audit and non-audit services, and then closely monitors the fees incurred in connection with the provision of such services throughout the year. At each meeting, the Audit Committee receives updates from management on the services that have been provided and fees incurred; from time to time, the Audit Committee may also consider and approve the provision of additional services. In the event that a need arises for the approval of additional services between meetings, the services would be considered and provisionally approved by a designated member of the Audit Committee who would present the scope and fees of the services provisionally pre-approved at the following meeting of the Audit Committee.
