**PROXY STATEMENT
2014 ANNUAL MEETING OF STOCKHOLDERS**

The Board of Directors (the "Board") of Bonanza Creek Energy, Inc. ("we," "us," "our," "Bonanza Creek" or the "Company") requests your proxy for the 2014 Annual Meeting of Stockholders (the "2014 Annual Meeting"), which will be held on Thursday, June 5, 2014, 9:00 a.m. local time, at the Sheraton Denver Downtown Hotel, 1550 Court Place, Denver, Colorado 80202. Distribution of these proxy solicitation materials is scheduled to begin on or about May 3, 2014. By granting the proxy, you authorize the persons named in the proxy to represent you and vote your shares at the 2014 Annual Meeting. Those persons will also be authorized to vote your shares to adjourn the 2014 Annual Meeting from time to time and to vote your shares at any adjournments or postponements of the 2014 Annual Meeting.

GENERAL INFORMATION

If you attend the 2014 Annual Meeting, you may vote in person. If you are not present at the 2014 Annual Meeting, your shares may be voted only by a person to whom you have given a proper proxy. You may revoke the proxy in writing at any time before it is exercised at the 2014 Annual Meeting by delivering to the Company's Secretary a written notice of the revocation, by submitting your vote electronically through the internet or by phone after the grant of the proxy or by signing and delivering to the Company's Secretary a proxy with a later date. Your attendance at the 2014 Annual Meeting will not revoke the proxy unless you give written notice of revocation to the Secretary of the Company before the proxy is exercised or unless you vote your shares in person at the 2014 Annual Meeting.

Stockholders of Record and Beneficial Owners

Most of the Company's stockholders hold their shares through a broker, bank or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholders of Record. If your shares are registered directly in your name with the Company's transfer agent, you are considered the stockholder of record with respect to those shares, and proxy materials are being sent by our transfer agent directly to you. As a stockholder of record, you have the right to vote by proxy or to vote in person at the 2014 Annual Meeting. The proxy materials include a proxy card for the 2014 Annual Meeting.

Beneficial Owners. If your shares are held in a brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in "street name," and proxy materials will be forwarded to you by your broker or nominee. The broker or nominee is considered the stockholder of record with respect to those shares. As the beneficial owner, you have the right to direct your broker how to vote. The proxy materials should include a proxy card or a voting instruction card for the 2014 Annual Meeting.

Quorum and Voting

Voting Stock. The Company's common stock, par value \$0.001 per share, is the only class of securities that entitles holders to vote generally at meetings of the Company's stockholders. Each share of common stock outstanding on the record date is entitled to one vote.

Record Date. The record date for stockholders entitled to notice of and to vote at the 2014 Annual Meeting was the close of business on April 28, 2014. As of the record date, 40,389,991 shares of the Company's common stock were outstanding and are entitled to be voted at the 2014 Annual Meeting.

Quorum and Adjournments. The presence, in person or by proxy, of the holders of a majority of the outstanding shares entitled to vote at the 2014 Annual Meeting is necessary to constitute a quorum at the 2014 Annual Meeting.

If a quorum is not present, the chair of the meeting or a majority of the stockholders entitled to vote who are present in person or by proxy at the 2014 Annual Meeting have the power to adjourn the 2014 Annual Meeting from time to time, without notice other than an announcement at the 2014 Annual Meeting, until a quorum is present. At any adjourned 2014 Annual Meeting at which a quorum is present, any business may be transacted that might have been transacted at the 2014 Annual Meeting as originally notified.

Vote Required. The director will be elected (Item One) by a plurality of the votes of the shares present, in person or by proxy, and entitled to vote on the election of the director. Ratification of the selection of the Company's independent registered public accountant (Item Two) and approval of the compensation of the Company's named executive officers (Item Three) will require the affirmative vote of the holders of a majority of the shares present and entitled to vote with respect to the matter. An automated system will tabulate the votes. Brokers who hold shares in street name for customers are required to vote shares in accordance with instructions received from the beneficial owners. Brokers are permitted to vote on discretionary items if they have not received instructions from the beneficial owners, but they are not permitted to vote (a "broker non-vote") on non-discretionary items absent instructions from the beneficial owner. Non-discretionary items include the election of directors and approval of the compensation of the Company's named executive officers. For ratification of the selection of the Company's independent registered public accountant, brokers will have discretionary authority in the absence of timely instructions from their customers. Abstentions and broker non-votes will count in determining whether a quorum is present at the 2014 Annual Meeting. Broker non-votes will not have any effect on the outcome of voting on the director election or the advisory vote on compensation of our named executive officers. For purposes of voting on the ratification of the selection of the Company's independent registered public accountant, abstentions will be included in the number of shares voting and will have the effect of a vote against the proposal.

Default Voting. A proxy that is properly completed and submitted will be voted at the 2014 Annual Meeting in accordance with the instructions on the proxy. If you properly complete and submit a proxy, but do not indicate any contrary voting instructions, your shares will be voted as follows:

FOR the nominee for Class II director named in this proxy statement;

FOR the ratification of the selection of Hein & Associates, LLP as the Company's independent registered public accountant for 2014; and

FOR the approval (on an advisory basis) of the compensation of our named executive officers, as disclosed in this proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission (the "SEC").

CORPORATE GOVERNANCE

Our Company

Bonanza Creek Energy, Inc. is an independent energy company engaged in the acquisition, exploration, development and production of onshore oil and associated liquids-rich natural gas in the United States. Our oil and liquids-weighted assets are concentrated primarily in the Wattenberg Field in Colorado (Rocky Mountain region) and the Dorcheat Macedonia Field in southern Arkansas (Mid-Continent region). Our management team has extensive experience acquiring and operating oil and gas properties and significant expertise in horizontal drilling and fracture stimulation, which we believe contributes significantly to the development of our sizable inventory of projects.

Corporate Governance Guidelines

The Board believes that sound governance practices and policies provide an important framework to assist it in fulfilling its duty to stockholders. The Company's Corporate Governance Guidelines cover the following principal subjects:

Qualifications and Responsibilities of Directors;

Committees of the Board;

Director Access to Management and Independent Advisors;

Director Compensation;

Director Orientation and Continuing Education;

Chief Executive Officer Evaluation and Management Succession;

Annual Performance Evaluations;

The Company's Code of Ethics;

Table of Contents

Term Limits for Directors; and

Changed Circumstances of the Company's Directors.

Our Corporate Governance Guidelines, including a copy of the current "Code of Business Conduct and Ethics," are posted on our website at www.bonanzacrk.com. Our Corporate Governance Guidelines are reviewed periodically and as necessary by our Nominating and Corporate Governance Committee, and any proposed additions to or amendments of the Corporate Governance Guidelines will be presented to the Board for its approval.

The New York Stock Exchange (the "NYSE") has adopted rules that require listed companies to adopt governance guidelines covering certain matters. The Company believes our Corporate Governance Guidelines comply with the NYSE rules.

Board Leadership

Our Board has separated the chairman and chief executive officer roles. This leadership structure permits the chief executive officer to focus his attention on managing our business and allows the chairman to function as an important liaison between management and the Board, enhancing the ability of the Board to provide oversight of the Company's management and affairs. Our chairman provides input to the chief executive officer and is responsible for presiding over the meetings of the Board and executive sessions of the non-employee directors. In 2014, we expect that an executive session will be held at every regularly scheduled Board meeting. Our chief executive officer is responsible for setting the Company's strategic direction and for the day-to-day leadership performance of the Company. Based on the current circumstances and direction of the Company and the experienced membership of our Board, our Board believes that separate roles for our chairman and our chief executive officer, coupled with a majority of independent directors and strong corporate governance guidelines, is the most appropriate leadership structure for our Company and its stockholders at this time.

Communications with the Board

Stockholders or other interested parties can contact any director (including Mr. Carty, the Chairman of the Board), any committee of the Board or our non-employee directors as a group, by writing to them at 410 17th Street, Suite 1400, Denver, Colorado 80202, Attention: Secretary. All such communications will be forwarded to the appropriate member(s) of the Board. Comments or concerns relating to the Company's accounting, internal accounting controls or auditing matters will also be referred to members of the Audit Committee.

Director Independence

The Company's standards for determining director independence require the assessment of our directors' independence each year. A director cannot be considered independent unless the Board affirmatively determines that such director does not have any relationship with management or the Company that may interfere with the exercise of such director's independent judgment, including any of the relationships that would disqualify the director from being independent under the rules of the NYSE. The Board assesses the independence of each non-employee director and each non-employee nominee for director under the Company's guidelines and the independence standards of the NYSE and has determined that Messrs. Carty, Neveu, Watt and Raih are independent. Although classified as independent in 2013, Mr. Chronister is not currently considered an independent director due to his appointment as the Company's Interim President and Chief Executive Officer on January 31, 2014.

All members of the Company's Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are considered independent, thus satisfying NYSE listing standards.

Director Qualifications

Our Board believes that individuals who serve as directors should have demonstrated notable or significant achievements in business, education or public service; should possess the requisite intelligence, education and experience to make a significant contribution to the Board and bring a range of skills, diverse perspectives and backgrounds to its deliberations; and should have the highest ethical standards, a strong sense of professionalism and intense dedication to serving the interests of the Company's stockholders. The following are qualifications, experience and skills for Board members which are important to the Company's business and its future:

Leadership Experience The Company seeks directors who demonstrate extraordinary leadership qualities. Strong leaders bring vision, strategic agility, diverse and global perspectives and broad business insight to the Company. They demonstrate practical management experience, skills for managing change and deep knowledge of industries, geographies and risk management strategies relevant to the Company. They have experience in identifying and developing the Company's current and future leaders. The relevant leadership experience the Company seeks includes a past or current leadership role in a major public company or recognized privately held entity; a past or current leadership role at a prominent educational institution or senior faculty position in an area of study important or relevant to the Company; a past elected or appointed senior government position; or a past or current senior managerial or advisory position with a highly visible nonprofit organization.

Finance Experience The Company believes that all directors should possess an understanding of finance and related reporting processes. The Company also seeks directors who qualify as an "audit committee financial expert" as defined in the SEC's rules.

Industry Experience The Company seeks directors who have relevant oil and gas industry experience.

Diversity of Backgrounds Although the Board has not established any formal diversity policy to be used to identify director nominees, it recognizes that a current strength of the Board stems from the diversity of perspective and understanding that arises from discussions involving individuals of diverse backgrounds and experience. When assessing a Board candidate's background and experience, the Nominating and Corporate Governance Committee takes into consideration a broad range of relevant factors, including a candidate's ethnic status, gender and geographic background.

Independent Director Share Ownership Requirements

Our Board has adopted stock ownership guidelines for our independent directors to further align the interests of our independent directors with the interests of our stockholders. Independent directors are required to hold shares of our common stock with a value equal to five times the amount of the annual cash retainer paid to such director for service on our Board. Independent directors are required to achieve the applicable level of ownership within five years of the date on which such independent director was appointed or elected and began participating in our Long-Term Incentive Plan (the "LTIP"). As of March 31, 2014, all of our directors were in compliance with the stock ownership requirements other than Mr. Carty and Mr. Watt who have until 2018 and 2017, respectively, to satisfy the required level of ownership.

Oversight of Risk Management

Except as discussed below, the Board as a whole oversees the Company's assessment of major risks and the measures taken to manage such risks. For example:

the Board provides governance and oversight for the financial and commodity risks assumed by the Company and approves the policies and periodically reviews and discusses with the members of management the procedures and systems in place to identify, review and mitigate the Company's exposure to such risks;

the Board reviews management's capital spending plans, approves the Company's capital budget and requires that management present for Board review significant departures from those plans; and

the Audit Committee on behalf of the Board reviews the Company's commodity price risk and hedging strategy with executive management at least quarterly and provides oversight of the Company's hedging policy.

The Company's Audit Committee is responsible for overseeing the Company's assessment and management of financial reporting and internal control risks, as well as other financial risks, such as the credit risks associated with counterparty exposure. Management and the Company's independent registered public accountants report regularly to the Audit Committee on those subjects.

Meetings and Committees of Directors

The Board held six regular and two special meetings during 2013, and its independent directors met in executive session eight times during 2013. The Board has five standing committees: the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee, the Reserve Committee and the Environmental Safety and Regulatory Compliance Committee. Each standing committee has adopted a formal charter detailing such committee's duties, functions and responsibilities. The charters for the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are posted on the Company's website, www.bonanzacrk.com, and such charters are drafted in a manner consistent with the regulations of the SEC and standards of the NYSE.

In addition to the five standing committees, the Board formed a Special Litigation Committee in July 2011 to conduct an investigation of allegations made by Frank H. Bennett, a co-manager of Bonanza Creek Oil Company, LLC ("BCOC"), a predecessor of the Company, against our former President and Chief Executive Officer, Michael Starzer. During 2011, the Special Litigation Committee concluded that the allegations made against Mr. Starzer were unsubstantiated and lacked merit. The matter was sent to arbitration in July 2011, and in November 2012, an arbitration panel found in favor of Mr. Starzer on all of Mr. Bennett's claims. In September 2013, the arbitration panel awarded certain attorneys' fees and other costs and expenses to Mr. Starzer which were ultimately recovered by the Company as a result of the Company's prior indemnification of Mr. Starzer. The Special Litigation Committee was dissolved on October 29, 2013. The Board has also established an Executive Search Committee on an *ad hoc* basis, which is leading the search for a permanent Chief Executive Officer.

During 2013, each of our directors attended 100% of the Board meetings and no director attended fewer than 75% of the total number of meetings of the Board and meetings of the committee on which they served.

The Audit Committee oversees, reviews, acts on and reports on various auditing and accounting matters to our Board, including: the selection of our independent registered public accountants, the scope of our annual audits, fees to be paid to our independent accountants, the performance of our independent accountants and our accounting and reporting practices and processes. The Board has delegated to the Audit Committee all authority of the Board as may be required or advisable to fulfill the purposes of the Audit Committee as set forth in the Audit Committee's charter. The Audit Committee may form and delegate authority to subcommittees comprised of members of the Audit Committee. The Compensation Committee held thirteen meetings in 2013.

Based on the Compensation Committee's evaluation of the chief executive officer's performance in light of goals and objectives set and approved by the Nominating and Corporate Governance Committee and the Nominating and Corporate Governance Committee's evaluation of the chief executive officer's performance, the Compensation Committee recommends to the independent directors of the Board for their approval the total compensation of the chief executive officer. The chief executive officer makes compensation recommendations for all other executive officers, including salary and annual cash and equity compensation, to the Compensation Committee. The Compensation Committee then reviews such recommendations and makes its own compensation recommendations to the Board. The Compensation Committee also oversees our compensation and benefit plans. The Board has delegated to the Compensation Committee all authority of the Board as may be required or advisable to fulfill the purposes of the Compensation Committee as set forth in the Compensation Committee's charter. The Compensation Committee may form and delegate authority to subcommittees comprised of members of the Compensation Committee. The Compensation Committee has sole authority to retain and dismiss compensation consultants and other advisors that provide objective advice, information and analysis regarding executive and director compensation. These consultants report directly to and may meet separately with the Compensation Committee and may consult with the Compensation Committee Chairman between meetings. Meetings may, at the discretion of the Compensation Committee, include members of the Company's management, other members of the Board, consultants or advisors, and such other persons as the Compensation Committee or its Chairman may determine. Additional information regarding the functions performed by the Compensation Committee is set forth in the "*Compensation Discussion and Analysis*" section and the "*Compensation Committee Report*" included herein.

Features of Our Compensation Program. We strive to create a compensation program that encourages long-term value creation by tying individual compensation to the attainment of our annual performance targets while acknowledging and fostering the unique qualifications, skills, experience and responsibilities of each individual.

The following table summarizes the key features of our executive compensation program.

Best Practices in Our Executive Compensation Program

- ü **Pay for Performance** Our executives' total compensation is substantially weighted toward performance-based pay. Our annual cash incentive awards are based on performance against pre-set key financial, operational and strategic objectives. Our long-term equity compensation awards now include performance share units, which are earned based on our relative total shareholder return against our peers.
- ü **External Benchmarking** Our Compensation Committee reviews competitive compensation data based on an appropriate group of exploration and production peer companies prior to making annual compensation decisions.
- ü **Mitigation of Undue Risk** We conduct a risk assessment annually to carefully consider the degree to which compensation plans and decisions affect risk taking. We do not believe that any of the compensation arrangements in place are reasonably likely to have a material adverse impact on the Company.
- ü **Robust Stock Ownership** We have adopted robust stock ownership guidelines for our executives and directors.
- ü **Double-Trigger Equity Acceleration upon a Change in Control** Under our Executive Change in Control and Severance Plan (the "Severance Plan"), vesting acceleration of equity incentives following a change in control only occurs if the executive is terminated within 18 months following a change in control.
- ü **Independent Compensation Consultant** We have engaged an independent executive compensation advisor who reports directly to the Compensation Committee and provides no other services to the Company.
- ü **Focus on Total Compensation** Our Compensation Committee conducts a detailed analysis of total compensation prior to making annual executive compensation decisions.

Practices that We Do Not Engage in or Allow

No Excise Tax Gross-Ups Neither our Severance Plan nor our employment agreements provide for excise tax gross-ups.

No Hedging or Derivative Transactions in Company Stock We prohibit our executives from engaging in any short-term trading, short sales, option trading and hedging transactions related to our common stock. We also prohibit our executives from purchasing our common stock on margin.

No Perquisites We offer minimal perquisites to the Company's executives and no perquisites that are not offered to all of the Company's employees. The Company believes executive salary and short-term incentive program ("STIP") payments as well as LTIP grants fully compensate our executives.

Compensation Committee Consideration of 2013 Stockholder Advisory Vote on Our Compensation Program. Our Compensation Committee is continuously mindful of our stockholders' views on executive compensation. We believe our stockholders' strong support of our executive compensation program at our 2013 Annual Meeting reaffirmed our compensation program. At our 2013 Annual Meeting, approximately ninety-eight percent (98%) of the advisory votes cast voted to approve our named executive officer compensation. The Company will hold an advisory vote on executive compensation every year until the next required advisory vote with respect to the frequency of advisory votes on executive compensation, which will occur at the Company's annual meeting of stockholders in 2018.

Changes to our Compensation Program in 2013. For the 2013 compensation cycle, we made changes to our executive compensation program, including introducing performance share units as a portion of our long-term equity incentive grants such that 2013 grants were comprised of 25% performance share units and 75% shares of restricted stock, increasing base salaries and adjusting our peer group. Additionally, we implemented the Severance Plan, which contains a double trigger severance obligation so that executive officers who have executed employment agreements are eligible to receive certain severance benefits only upon resignation or termination within 18 months following a change in control if such termination is initiated by our Company for any reason other than for Cause (as defined in the Severance Plan), or by the executive for Good Reason (as defined in the Severance Plan). Outside the context of a change in control, the Severance Plan provides similar benefits for termination without Cause, resignation for Good Reason, death or disability.

Recent Changes to our Compensation Program. Our Compensation Committee remains focused on structuring our compensation program to ensure proper alignment of pay with performance. For the 2014 compensation cycle, we made changes to our executive compensation program, including increasing the portion of our long-term equity incentive grants to be made in the form of performance share units from 25% to 50%, with the remainder to continue to be made in the form of restricted stock. These changes are designed to further align executive and stockholder interests.

Compensation Program Philosophy and Objectives

At Bonanza Creek, we view our employees as an investment for the future. We invest in our people to grow our business and deliver more value to our stockholders. The objectives of our compensation program are:

to attract, retain and motivate the most qualified individuals in the oil and gas industry whom we can identify and recruit;

to provide total compensation that is flexible enough to respond to changing market conditions and that also aligns compensation levels with performance; and

to align the interests of our executives with our stockholders' interests.

We design our compensation program to reward employees for performance that creates stockholder value, in that incentive compensation is only earned by successfully implementing our long-term strategy or by achieving our short-term goals. We strive to create a compensation program that rewards performance while acknowledging and fostering the unique qualifications, skills, experience and responsibilities of each individual.

Executive Compensation Risk

The Compensation Committee has designed our short-term and long-term compensation programs with features that reduce the likelihood of excessive risk-taking, including a balanced mix of cash and equity and short-term and long-term incentives, caps on short-term bonus program payouts, an appropriate balance of fixed and at-risk compensation components, an appropriate balance of operating and financial performance measures,

Table of Contents

significant stock ownership requirements for officers, extended vesting schedules on equity grants, caps on incentive awards and prohibitions on engaging in derivative transactions in our common stock. We do not believe that our current or proposed compensation policies and practices encourage excessive or unnecessary risk-taking and have determined that risks arising from our compensation policies and practices are not reasonably likely to have a material adverse effect on us.

Setting Executive Officer Compensation

Role of Our Compensation Committee. Our Compensation Committee (i) oversees our compensation programs on behalf of our Board; (ii) is responsible for proposing programs for approval by our Board that attract, retain and motivate qualified executive-level talent; (iii) monitors our compensation programs and strives to ensure that the total compensation paid to our executive officers is fair, reasonable and competitive with total compensation provided to executive officers serving in similar roles and with similar responsibilities in other U.S. publicly traded energy companies; and (iv) makes proposals to our independent directors regarding the compensation of our chief executive officer. Our chief executive officer makes proposals to our Compensation Committee regarding the compensation of our other executive officers. The Compensation Committee has the sole authority to retain, amend the engagement with and terminate any compensation consultant to be used to assist in the evaluation of director or executive officer compensation. The Compensation Committee has sole authority to approve the compensation consultant's fees and other retention terms and has authority to cause the Company to pay the fees and expenses of the compensation consultant.

Role of the Compensation Consultant. Since our initial public offering and again for 2013, the Compensation Committee selected Longnecker & Associates (the "Compensation Consultant") to serve as a consultant to the Compensation Committee on compensation related issues. Our Compensation Committee chose the Compensation Consultant because our Compensation Committee believes the Compensation Consultant has extensive experience in providing executive compensation advice, including specific experience in the oil and gas industry. Our Compensation Committee continues to believe it is beneficial to have an experienced, independent third-party assist it in evaluating and setting executive compensation. On an annual basis, the Compensation Consultant provides our Compensation Committee with an analysis of our executive compensation programs, including total direct compensation comprised of base salary, annual incentives and long-term incentive compensation, in order to assess the competitiveness of our programs and to provide conclusions and recommendations. In retaining the Compensation Consultant, the Compensation Committee assessed the independence of the Compensation Consultant pursuant to SEC rules and considered, among other things, whether the Compensation Consultant provides any other services to us, the policies of the Compensation Consultant that are designed to prevent any conflict of interest between the Compensation Consultant, the Compensation Committee and us, any personal or business relationships between the Compensation Consultant and a member of the Compensation Committee or one of our executive officers and whether the Compensation Consultant owns any shares of our common stock. Based, in part, on representations made by the Compensation Consultant, the Compensation Committee has concluded that the Compensation Consultant does not have any conflicts of interest in the representation of our Compensation Committee. While the Compensation Consultant makes recommendations to our Compensation Committee on compensation, our Compensation Committee and Board make and implement compensation decisions and have full discretion to do so independent of the Compensation Consultant's recommendations. The Compensation Committee also has the right to terminate the services of the Compensation Consultant and appoint a new compensation consultant at any time. For fiscal 2013, our Compensation Committee took into consideration the discussions, guidance and compensation studies produced by the Compensation Consultant to make compensation decisions.

Competitive Benchmarking and Peer Group. Our Compensation Committee considers competitive industry data in making executive pay determinations. For 2013, as a result of evolving industry and competitive conditions, the Compensation Consultant proposed certain revisions to the peer group companies for our Compensation Committee's review. After discussions with the Compensation Consultant and reviewing the Compensation

The Compensation Committee's annual review of the Company's peer group resulted in the removal of Venoco, Inc., as it was taken private. The Compensation Committee also removed Oasis Petroleum Inc. because it did not fit our geographic footprint or employee count. The Compensation Committee added the following companies to the Company's 2013 Peer Group, which are similarly sized to us and thus more appropriate with respect to executive compensation benchmarking: EPL Oil & Gas, Inc., Goodrich Petroleum Corp., Northern Oil and Gas, Inc., Rex Energy Corporation, and Rosetta Resources, Inc.

The Compensation Consultant compiled compensation data for the 2013 Peer Group from a variety of sources, including proxy statements and other publicly filed documents. It also compiled published survey compensation data from multiple sources, including the Economic Research Institute, Mercer and Towers Watson. The compensation of our executive officers and the Company's total shareholder returns for purposes of determining awards of performance share units was then compared with this 2013 Peer Group and survey data.

benchmarks by the average of (i) compensation data for our 2013 Peer Group and (ii) compensation data from published surveys in our industry.

Role of CEO and Other Executive Officers in Determining Executive Compensation. The Compensation Committee, after reviewing the information provided by the Compensation Consultant and considering other factors, determines each element of compensation assessed against the rigorous goals for our chief executive officer. When making determinations about each element of compensation for the other executive officers, the Compensation Committee considers recommendations from our chief executive officer. Additionally, at the Compensation Committee's request, our executive officers may assess the design of, and make recommendations related to, our compensation and benefit programs, including recommendations related to the performance measures used in our incentive programs. The Compensation Committee is under no obligation to use these recommendations and is conscientious of the need for the evaluation and incorporation of an effective compensation review process.

Elements of Our Compensation and Why We Pay Each Element

Our Compensation Committee, assisted by the Compensation Consultant and executive management, continues to develop compensation programs that provide our executive officers with an overall compensation package tailored to our Company, subject to ratification or approval by our Board. With respect to our named executive officers, our Compensation Committee designs these programs to consist of five elements: base salary, annual performance-based cash incentive compensation, long-term equity-based compensation, severance and change-in-control benefits and other employee benefits as set forth below.

Compensation Element	Description	Purpose
<i>Base Salary</i>	Fixed pay for performing day-to-day responsibilities; reflects individual experience, education, tenure in role, performance, internal pay equity and market compensation based on our peer group	Attract and retain qualified employees; and recognize skills, competencies, experience and individual contributions
<i>STIP</i>	Annual cash incentive opportunity depending upon annual performance in key metrics	Motivate management to achieve key short-term goals; attract and retain executive talent; and align executives' interests with stockholders' interests
<i>LTIP (comprised of Restricted Stock and Performance Share Units)</i>	Equity-based compensation opportunity depending upon our long-term performance with respect to an individual's position and total shareholder return of the Company relative to our peer group	Drive stockholder value creation; align management interests with stockholders; encourage retention; reward long-term Company performance and conserve cash resources
<i>Severance and Change in Control</i>	Lump sum cash payments of salary and bonus multiples, accelerated equity vesting and continuation of COBRA benefits following certain termination events	Eliminate or reduce the reluctance of executives to pursue potential corporate transactions that could benefit the Company, but result in adverse consequences to the executive's employment; and clarify termination benefits
<i>Other Compensation: Benefits and Perquisites</i>	401(k) match; parking; medical, dental, life and disability insurance	Attract and retain highly qualified employees and support the overall health and well-being of all employees

Pay for Performance

Our pay-for-performance philosophy is demonstrated in the mix of compensation that we provide for our named executive officers. A significant portion of our named executive officers' compensation is in the form of annual cash incentives and long-term equity-based incentives under the LTIP. Each of these incentives plays a role in aligning pay with the Company's performance and the long-term financial interests of our named executive officers with those of our stockholders. In addition, compensation that is paid in the form of restricted stock instead of cash is at-risk, because its value varies with changes in the stock price and because it is forfeitable if the executive voluntarily terminates employment prior to vesting. With a considerable percentage of their compensation paid in equity, our named executive officers have a significant stake in the long-term success of the Company along with all other stockholders. The following charts illustrate the target mix of pay for our named executive officers in 2013.

CEO

CFO

Other NEOs

As the chart below further illustrates, 83%, 78% and 75% of total target compensation for our chief executive officer, chief financial officer and other named executive officers, respectively, is attributable to the performance-based STIP and LTIP, and thus is variable and tied to performance of the Company (i.e. "at risk").

Base Salary. Base salary is intended to provide a guaranteed amount of compensation that recognizes the level of responsibility and authority of each individual executive and compensates for the individual executive's day-to-day contributions to the Company's success. Based on competitive market data, making incremental changes based on the Company's recent transition from a private to a public company and adjusting for individual performance and responsibilities, the Board approved the following 2013 salaries in March 2013, for the named executive officers:

Name	2012 Base Salary (\$)	2013 Base Salary (\$)⁽¹⁾	% Change
William J. Cassidy ⁽²⁾		325,000	
Christopher I. Humber	210,000	262,500	25%
Wade E. Jaques	225,000	236,250	5%
Michael R. Starzer	350,000	400,000	14%
Gary A. Grove	240,000	294,000	23%
Patrick A. Graham	237,800	291,690	23%

(1) 2013 base salary increases were effective as of March 17, 2013.

(2) Mr. Cassidy's commenced his employment on September 9, 2013.

The salary increases approved in 2013 were based on the Compensation Committee's review of market benchmarks and decisions on our executive officers' individual performances, corporate performance, industry increases and the competitive aspects of the oil and gas industry.

Furthermore, based on competitive market data, individual performance and responsibilities, in March, 2014, the Board approved the following 2014 salaries:

Name	2013 Base Salary (\$)	2014 Base Salary (\$)⁽¹⁾	% Change
William J. Cassidy	325,000	350,000	8%
Christopher I. Humber	262,500	295,000	12%
Wade E. Jaques	236,250	260,000	10%

(1) 2014 base salary increases were effective as of March 23, 2014.

Annual Cash Incentive Awards. All of our employees, including our named executive officers, are eligible to receive annual cash incentive awards tied to the Company's performance and individual performance. We believe the annual cash incentive awards help us to:

attract and retain executive talent;

motivate management to achieve key short-term corporate goals; and

align executives' interests with stockholders' interests.

2013 STIP. Our LTIP (discussed below) contemplates the award of annual cash incentive bonuses to certain of our employees, including our named executive officers, to reward employees for their performance in helping the Company achieve its short term goals. The STIP provides that the aggregate pay-out of awards, as well as each individual award, must be approved by the Compensation Committee prior to the payment. The Compensation Committee has the authority to adjust STIP awards in its discretion, but may only make downward adjustments for named executive officers. Under the STIP, a named executive officer's annual cash incentive is determined by the

Company achieving certain Company-wide key performance indicators ("KPIs"), set and communicated to each executive prior to or at the beginning of each performance period.

For the 2013 STIP, the Company KPIs included objective metrics for production, lease operating expense, capital efficiency for proved developed producing reserves ("PDP") and additions to the Company's reserves. Proved reserves additions are additions to the proved reserve categories (PDP, proved developed non-producing reserves ("PDNP") and proved undeveloped reserves ("PUD")) resulting from the execution of the Company's 2013 capital budget plus engineering revisions to the 2012 year-end proved reserves estimates. Capital per PDP developed is calculated by dividing the appropriate 2013 budgeted capital by "PDP developed" (equal to the net reserves volume that moves into the PDP category from PDNP, PUD, unproved reserves, resource or exploration during the 2013 year as a result of capital or expense dollars spent). These KPIs are consistent with the Company's 2013 operating plan.

Pursuant to the 2013 STIP guidelines, target payouts in 2013 were set at 100% of base salary for our president and chief executive officer and 75% of base salary for all other named executive officers. Following the mid-year appointment of our chief financial officer and chief operating officer, the Compensation Committee and Board determined that the chief financial officer and chief operating officer positions should have a target STIP payout of 90% of base salary. For purposes of calculating the STIP, base salary is the named executive officer's effective salary as of the end of the 2013 fiscal year. For 2013, the actual payouts were subject to a range generally based on the following categories: threshold (50% of target), target performance (100% of target), exceptional performance (200% of target). Exceptional performance is a "stretch" goal that, while achievable, removes all of the risk from our operating expectations. The maximum payout under the STIP in 2013 for named executive officers was capped at 200% of the target amount to prevent undue risk taking.

The following table summarizes the Company's 2013 performance in the areas considered by our Compensation Committee.

2013 Company KPIs	Weight	Company 2013 Performance	Target (100%)	% of Target Bonus Achieved
Production	30%	Production averaged 16,172 Boe/d during 2013 and exceeded the top end of our operating expectations.	15,241 Boe/d	200%
Lease Operating Expenses	25%	Lease operating expenses, as adjusted to remove discontinued operations, averaged \$8.13/Boe during 2013 which was below the low end of our operating expectations.	\$8.75/Boe	200%
Capital/PDP Developed	25%	Capital/PDP developed averaged \$23.80/Boe for 2013 which was above the midpoint of our operating expectations.	\$24.90/Boe	138%
Proved Reserves Additions	20%	Proved reserves additions totaled 21.1MMBoe for 2013 which exceeded the top end of our operating expectations.	15.0MMBoe	200%

Following the end of 2013, our Compensation Committee reviewed our performance for 2013 with members of management and our full Board to determine the cash incentive award amounts to be awarded to our named executive officers pursuant to the 2013 STIP KPIs. Actual results we attained with respect to the Company performance metrics for 2013 were above our targeted performance goals and, as a result, each named executive officer (other than Mr. Starzer) was awarded a bonus at 184% of target. Mr. Starzer was ineligible to receive a bonus pursuant to the terms of the 2013 STIP because of his departure from the Company prior to the determination and payout of the 2013 STIP awards. The actual bonus amounts paid to our named executive officers (other than Mr. Starzer) in March 2014 were as follows:

Name	2013 STIP Award (\$)
William J. Cassidy	168,095 ⁽¹⁾
Christopher I. Humber	362,250
Wade E. Jaques	326,025
Gary A. Grove	405,720
Patrick A. Graham	402,532

2014 STIP. In March 2014, the Board approved the 2014 STIP KPIs for the named executive officers which, with the addition of a general and administrative expense component, are substantially similar to the 2013 KPIs. Target payouts in 2014 are 100% of base salary for our president and chief executive officer, 90% of base salary for our chief financial officer and chief operating officer, 75% of base salary for senior vice presidents and 40% of base salary for vice presidents. For 2014, the maximum payout under the STIP for named executive officers is capped at 200% of the target amount to prevent undue risk taking.

Long-Term Equity-Based Incentives. In determining 2013 awards under our LTIP, our Compensation Committee reviewed the market analysis provided by the Compensation Consultant. In addition, the Compensation Committee reviewed recommendations from our chief executive officer for awards to named executive officers other than for himself. The Compensation Committee compared such recommendations against the Compensation Consultant's market analysis to assist in determining the appropriate amount of equity to grant to each named executive officer based on market data, while also taking into consideration the Company's performance as well as individual performance and retention concerns.

Prior to 2013, our long-term equity incentives consisted solely of restricted stock awards; however, in 2013, our Compensation Committee granted both restricted stock awards and performance share units to our named executive officers and key employees. We believe restricted stock awards and performance share units effectively align our executive officers' interests with the interests of our stockholders on a long-term basis and each type of award has retentive attributes. Performance share units also have an additional performance-based component that compares our performance with that of our peer companies. We believe this combination of long-term equity awards appropriately provides incentives that capture absolute total return performance of our common stock as well as awards that also capture variable performance relative to the performance of other oil and gas companies of our peer group. The Compensation Committee may determine in the future that different and/or additional award types are appropriate.

In 2013, each of our named executive officers received 75% of his LTIP award in the form of shares of restricted stock, with the balance in the form of performance share units. The amount and type of equity granted to our named executive officers in 2013 was as follows:

Name	Targeted Long-Term Equity Grant Value (\$)	Shares of Restricted Stock ⁽¹⁾	Performance Share Units
William J. Cassidy	487,500	11,339	3,779
Christopher I. Humber	393,750	8,174	2,725

Michael R. Starzer	1,200,000	24,910	8,303
Gary A. Grove	441,000	9,154	3,051
Patrick A. Graham	437,535	9,083	3,028

(1)

The number of shares of restricted stock and number of performance share units awarded was determined using a volume-weighted average price for the 10 trading days leading up to the filing of our Annual Report on Form 10-K for the year ended December 31, 2012. The grant date accounting values for the 2013 awards, which differ slightly from the targeted values above, are reflected in the "Summary Compensation Table" and the "Grants of Plan-Based Awards" table contained in this proxy.

Restricted Stock. The 2013 restricted stock awards vest over a three-year period, provided the award recipient remains continuously employed through the applicable vesting dates. For our named executive officers other than Mr. Cassidy, the first 1/3 tranche vested in March 2014, the second 1/3 tranche will vest in March 2015 and the final 1/3 tranche will vest in March 2016, in each case, subject to the award recipient's continued employment. The vesting of these awards will accelerate in full if the award recipient's employment is terminated due to either death or disability, and the awards are subject to the accelerated vesting provisions contained in their respective Employment Agreements and the Company's Severance Plan effective as of March 28, 2013, to the extent an award recipient participates in the Severance Plan. These accelerated vesting provisions are described in greater detail below in the section entitled "Severance Plan." Mr. Cassidy's restricted stock award was granted upon the commencement of his employment with the Company in September 2013 and vests annually in equal increments over a period of three years. While a named executive officer holds unvested restricted shares, he is entitled to vote and receive dividends, if any, on the shares.

Performance Share Units. The 2013 performance share units are subject to a designated three-year performance period beginning on January 1, 2013 and ending on December 31, 2015. The actual number of shares of our common stock earned is determined at the end of the three-year performance period and can range from 0% to 200% of the initial number of performance share units, depending on a comparison of the total shareholder return ("TSR") achieved with respect to shares of our common stock against the TSR achieved by each company in our 2013 Peer Group. The number of earned shares of our common stock will be calculated based on which quartile our TSR percentage ranks as of the end of the performance period relative to the other companies in the comparator group as follows: (a) if our TSR ranks below the market 25th percentile, 0% of the number of initial performance share units will be earned, (b) if our TSR ranks at the market 25th percentile, 50% of the number of initial performance share units will be earned, (c) if our TSR ranks at the market 50th percentile, 100% of the number of initial performance share units will be earned, (d) if our TSR ranks at the market 75th percentile, 150% of the number of initial performance share units will be earned, and (e) if our TSR ranks number 1, 200% of the number of initial performance share units will be earned. If the Company is ranked between any of these payout levels, the percentage multiple will be interpolated on a linear basis based on the actual percentile ranking of the Company. Performance share units vest, if at all, shortly following the end of the three year performance period.

2014 LTIP. In March 2014, the Compensation Committee made restricted stock and performance share unit grants to our continuing named executive officers as set forth in the table below. The shares of restricted stock will vest, subject to continued employment, over a three-year period commencing March 28, 2014, with one-third vesting on each anniversary of March 28, 2014. Pursuant to the terms of the Company's Performance Share Agreement, as amended, the performance share units are subject to a cliff vesting provision with a determination date of December 31, 2016, shortly after which the executives will be eligible to receive between zero and 200% of their target award upon attainment of certain pre-determined performance goals.

New Employment Agreements. In April 2013, the Company entered into new employment agreements (the "Employment Agreements") with Messrs. Starzer, Grove, Graham and Humber. The Employment Agreements superseded and replaced the employment agreements between these named executive officers and the Company that were entered into on the following dates: December 2010 (Messrs. Starzer, Grove and Graham) and January 2012 (Mr. Humber). In August 2013, the Company entered into an Employment Agreement with Mr. Cassidy and in March 2014, the Company entered into an Employment Agreement with Mr. Jaques. The Employment Agreements entitle the executives to participate in the Severance Plan (described below), which provides for a double-trigger equity acceleration and a double-trigger termination payment equal to one to three times salary and bonus for named executive officers upon a change in control and executive's termination within 18 months following such change in control. The Employment Agreements prohibit the executives while they are employed by the Company from being involved in oil and gas exploration and development activities and other activities that directly compete with the Company's business. The Employment Agreements also generally prohibit the executives from any business engaged in oil and gas exploration and development activities within a twenty-five mile radius of any mineral property interest of the Company or its affiliates (with exceptions in both cases for preexisting business activities and opportunities first offered to and declined by the Company) for a period of one to three years (based on the executive's position) after employment has ended with the Company.

Severance Plan. In March 2013, the Compensation Committee recommended and the Board approved the Severance Plan. The Severance Plan is applicable to all executive officers who have executed an Employment Agreement. Under the Severance Plan, the executive officer receives certain severance benefits upon his resignation or termination within 18 months following a change in control if such termination is initiated by our Company for any reason other than for Cause (as defined in the Severance Plan), or by the executive for Good Reason (as defined in the Severance Plan). The Severance Plan provides similar benefits outside the context of a change in control for termination without Cause, resignation for Good Reason, death or disability. Assuming the executive executes and continues to comply with a general release of liability against the Company within 60 days

following such termination or resignation, the executive is entitled to the following benefits, based on his or her job title:

Element	Payment
Base Salary	A lump sum cash payment equal to a multiple of the executive's base salary as of the date of termination, with the multiple as follows: president and chief executive officer three times; executive vice presidents two and one half times; senior vice presidents two times; and vice presidents one time
Bonus	A lump sum cash payment equal to a multiple of the greater of (i) the annual average of the bonuses received by the executive pursuant to the Company's annual incentive program in the two calendar years prior to termination and (ii) such executive's current target bonus amount, with the multiple as follows: president and chief executive officer three times; executive vice presidents two and one half times; senior vice presidents two times; and vice presidents one time
Vesting of Equity Awards	Immediate vesting of all outstanding equity awards that would vest solely based on continued employment and continued vesting of incentives tied to performance goals upon achievement of such goals, notwithstanding the executive's termination

Benefits Continuation of benefits under COBRA and Company reimbursement of the portion of premiums previously paid by Company for a period of 18 months for our president and chief executive officer, executive vice presidents and senior vice presidents and 12 months for our vice presidents

Other Employee Benefits. We expect that the named executive officers will continue to be eligible for the same health, welfare and other employee benefits available to our employees generally, including medical and dental insurance, short and long-term disability benefits, parking and a 401(k) plan that includes Company matching of an employee's contributions of up to 6% of each employee's cash earnings. We believe that offering a comprehensive employee benefits package helps us attract and retain talent and remain competitive in our industry.

Executive Departures. Effective January 31, 2014, Michael R. Starzer departed from the Company and agreed to resign as a member of the Board and the Company terminated Mr. Starzer's Employment Agreement without cause. In connection with Mr. Starzer's departure from the Company, the Company and Mr. Starzer entered into a severance agreement (the "Starzer Severance Agreement"), effective January 31, 2014. Pursuant to the terms of the Starzer Severance Agreement, the Company paid Mr. Starzer (i) a lump sum of \$930,000, subject to applicable withholding and taxes and (ii) six months of his annual base salary, equal to \$200,000. Additionally, Mr. Starzer is entitled to voluntary outplacement services through June 30, 2014, comprised of reimbursement of (x) lease expenses for executive office space for him and an assistant and (y) salary of his assistant, in each case, upon presentation of invoices therefor at a total cost not to exceed \$10,000 per month until June 30, 2014. Additionally, pursuant to the terms of his Employment Agreement, which was terminated without cause, and the Severance Plan, the Company paid Mr. Starzer \$2.4 million and all unvested stock held by Mr. Starzer vested on January 31, 2014, except for his performance share units which will vest, if at all, at the end of the performance period applicable thereto.

Additionally, effective April 1, 2014, Gary A. Grove departed from the Company and agreed to resign as a member of the Board; Patrick A. Graham departed from the Company; and the Company terminated the Employment Agreements of each of Messrs. Grove and Graham without cause. In connection with Mr. Grove's departure as an executive of the Company, Mr. Grove received cash severance of \$1,467,150 in accordance with his Employment Agreement and the Severance Plan. In addition, all unvested stock held by Mr. Grove vested immediately prior to his separation date, except for his performance share units which will vest, if at all, at the

end of the performance period applicable thereto. In connection with Mr. Graham's departure as an executive of the Company, Mr. Graham received cash severance of \$1,455,328 in accordance with his Employment Agreement and the Severance Plan. In addition, all unvested stock held by Mr. Graham vested immediately prior to his separation date, except for his performance share units which will vest, if at all, at the end of the performance period applicable thereto.

Executive Officer Stock Ownership Guidelines

During 2012, we established stock ownership guidelines for executive officers with the goal of promoting ownership of our common stock and aligning the interests of our executive officers with those of our stockholders. The ownership guidelines for our named executive officers are currently established at the following minimum levels:

Position	Multiple
President and Chief Executive Officer	5x base salary
Executive Vice President	3x base salary
Senior Vice President	2x base salary
Vice President	2x base salary

Executive officers have five years from the date of their appointment as an executive officer to achieve their targeted level. All of the Company's named executive officers satisfied our stock ownership guidelines as of March 31, 2014 except for Mr. Cassidy who has until 2018 to satisfy such ownership requirements.

The Compensation Committee monitors stock ownership levels on an annual basis. If an executive is promoted to a position with a higher salary multiple, such executive will have two years from the date of the change in position to reach the higher expected stock ownership level, but still must meet the prior expected ownership level within the original five-year period. Executives who do not satisfy the ownership requirements within the time required must hold at least fifty percent (50%) of the net shares acquired through the LTIP until the ownership levels are satisfied. Unvested shares do not count towards satisfaction of the guidelines.

Accounting and Tax Considerations

Our Compensation Committee considers tax and accounting rules and regulations when structuring the executive compensation paid to our named executive officers, including the following:

Section 162(m) of the Code. Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), limits the tax deductibility of compensation paid by any publicly held corporation to certain executives of such corporation (generally the named executive officers other than the chief financial officer) to \$1,000,000 per employee in any taxable year, unless the compensation is performance-based. Certain exceptions to the deductibility limitation apply for a limited period of time in the case of companies that become publicly traded through an initial public offering, assuming certain conditions are satisfied. We intend that compensation payable to our named executive officers within this period will fit within that exception. However, to the extent any compensation arrangements are not eligible for the foregoing exception or do not otherwise constitute performance-based compensation exempt from the 162(m) limitations, we reserve the right to use our judgment to authorize such compensation payments when we believe that such payments are appropriate and in the best interests of our stockholders, after taking into consideration changing business conditions and/or the executive's individual performance and/or changes in specific job duties and responsibilities.

Section 409A of the Code. Section 409A of the Code requires that "nonqualified deferred compensation" be deferred and paid under plans or arrangements that satisfy the requirements of such section of the Code with respect to the timing of deferral elections, timing of payments and certain other matters. Failure to satisfy these

Table of Contents

requirements can expose employees and other service providers to accelerated income tax liabilities and penalty taxes and interest on their vested compensation under such plans. Accordingly, as a general matter, it is our intention to design and administer our compensation and benefits plans and arrangements for all of our employees and other service providers, including our named executive officers, so that they are either exempt from, or satisfy the requirements of, Section 409A of the Code.

Tax Gross-Ups. Our arrangements with our executive officers do not provide a "gross-up" or other reimbursement payment for any tax liability that such officer might owe as a result of the application of Section 409A of the Code or with respect to Sections 280G and 4999 of the Code (which may provide for, among other things, an excise tax on certain golden parachute payments received by the executives upon a change in control of the Company), and we have not agreed and are not otherwise obligated to provide any named executive officers with such a "gross-up" or other reimbursement. Our arrangements generally provide that if any payments upon a change in control constitute "parachute payments" (as defined under Section 280G of the Code), then such payments may be either paid in full or reduced so that such payments are less than the limitation under Section 280G, whichever produces the better after-tax result for the executive officer.

ASC Topic 718 Regarding Stock Compensation. Financial Accounting Standards Board Accounting Standards Codification, Topic 718, "Compensation Stock Compensation" ("ASC Topic 718") requires us to recognize an expense for the fair value of equity-based compensation awards. Grants of restricted stock, performance share units and other equity-based awards are accounted for under ASC Topic 718. Our Compensation Committee regularly considers the accounting implications of significant compensation decisions, especially in connection with decisions that relate to our equity incentive award plans and programs. As accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

Indemnification

Our certificate of incorporation and bylaws provide indemnification rights to our directors and officers and permits us to purchase insurance on behalf of any officer, director, employee or other agent for any liability arising out of that person's actions as our officer, director, employee or agent, regardless of whether Delaware law would mandate indemnification. Additionally, we have entered into separate indemnity agreements with our directors and officers to provide additional indemnification benefits, including the right to receive in advance reimbursements for expenses incurred in connection with a defense for which the director or officer is entitled to indemnification. We believe that the limitation of liability provisions in our certificate of incorporation, bylaws and the indemnity agreements will facilitate our ability to continue to attract and retain qualified individuals to serve as directors and officers.

Table of Contents**Potential Payments Upon Termination and Change in Control**

The table below discloses a hypothetical amount of compensation and/or benefits due to named executive officers with Employment Agreements in the event of their termination of employment and/or in the event we undergo a change in control. The amounts disclosed assume such termination and/or such change of control was effective as of December 31, 2013, and are calculated pursuant to the terms of the Employment Agreements and the Severance Plan. The amounts below constitute estimates of the amounts that would be paid to the named executive officers upon termination of their employment and/or upon a change in control. The actual amounts to be paid are dependent on various factors, which may or may not exist at the time a named executive officer is actually terminated and/or a change in control actually occurs. Pension Benefits

Other than our 401(k) Plan, we do not have any plan that provides for retirement benefits.

Non-Qualified Deferred Compensation

We do not have any plan that provides for the deferral of compensation on a basis that is not tax qualified.

Director Compensation

Our Board believes that attracting and retaining qualified non-employee directors is critical to the ongoing operation of our Company. Similarly to the evaluation of the compensation of our executives, our Compensation Committee engages the Compensation Consultant to conduct an analysis of the 2013 Peer Group's compensation of their directors. Following such an analysis, in July 2013, our non-employee director compensation plan was revised to address the increased time and attention the Company's post-IPO transition period requires of our Board members and is targeted to be between the 50th and 75th percentiles of our 2013 Peer Group. The plan now includes (i) an annual cash retainer of \$60,000 (including the Chairman of the Board); (ii) an additional annual cash retainer of \$50,000 for the Chairman of the Board, (iii) an annual grant of restricted shares of our common stock with a fair market value of approximately \$130,000, subject to one year cliff vesting and accelerated vesting upon a change of control of the Company; (iv) \$2,000 for each Board meeting attended and \$1,000 for each committee meeting attended, including ad hoc committees and the Chairman of the Audit Committee's attendance at Disclosure Committee meetings; (v) an additional annual cash retainer for service as the chairman of each of the audit (\$20,000), compensation (\$13,000), nominating and corporate governance (\$10,000), environmental safety and regulatory compliance (\$5,000) and reserve (\$5,000) committees (provided that, in the event one director serves as the chairman of more than one committee, such director will only receive the highest such retainer); and (vi) reimbursement for expenses incurred in connection with service as a director. Stock grants under this compensation plan are made under our LTIP. Stock grants for the term beginning with the 2013 Annual Meeting and ending with the 2014 Annual Meeting were made in 2013 and vest on the day before the 2014 Annual Meeting, subject to continued service.

AUDIT COMMITTEE REPORT

The information contained in this Audit Committee Report and references in this proxy statement to the independence of the Audit Committee members shall not be deemed to be "soliciting material" or to be "filed" with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933 or the Securities Exchange Act of 1934 (the "Exchange Act"), except to the extent that the Company specifically incorporates such information by reference in such filing.

The Audit Committee is composed of three directors, Messrs. Raih, Carty and Watt, and operates under a written charter adopted by the Board. Each member of the Audit Committee meets the independence requirements of the NYSE listing standards and other applicable standards. The duties of the Audit Committee are summarized in this proxy statement under "*Corporate Governance Audit Committee*" and are more fully described in the charter which can be viewed on the Company's website under "Corporate Governance."

The Board has charged the Audit Committee with a number of responsibilities, including review of the adequacy of the Company's financial reporting, accounting systems and processes, and internal controls. During the last fiscal year, and earlier this year in preparation for the filing with the SEC of the Company's Annual Report on Form 10-K for the year ended December 31, 2013, the Audit Committee:

reviewed and discussed the Company's audited financial statements as of and for the year ended December 31, 2013 with management and with the independent registered public accountants;

required management to perform an evaluation and make an assessment of the effectiveness of the Company's internal controls over financial reporting asserting compliance with the Sarbanes-Oxley Act of 2002 and discussed the results with management and with the independent registered public accountants;

reviewed and discussed with the independent registered public accountants (i) their judgments as to the quality of the Company's accounting policies, (ii) the quality, clarity, consistency and completeness of the Company's financial reporting and disclosures, (iii) the written disclosures and letter from the independent registered public accountants required by Public Company Accounting Oversight Board Independence Rules, including the independent registered public accountants' independence, and (iv) the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU § 380), *Communication with Audit Committees*, as amended;

Table of Contents

discussed with management and with the independent registered public accountants the process by which the Company's principal executive officer and principal financial officer make the certifications required by the SEC in connection with the filing with the SEC of the Company's periodic reports, including reports on Forms 10-K and 10-Q;

pre-approved all auditing services and non-audit services to be performed for the Company by the independent registered public accountants as required by the applicable rules promulgated pursuant to the Exchange Act (details regarding the fees paid to Hein & Associates, LLP in fiscal 2013 for audit services, tax services and all other services, are set forth in "*Item Two Ratification of Selection of Independent Registered Public Accountant Audit and Other Fees*" below); and

considered whether, to assure continuing auditor independence, it would be advisable to regularly rotate the audit firm itself, as recommended by the NYSE's corporate governance rules.

With respect to rotation of the audit firm, the Audit Committee has concluded that the current benefits to the Company from continued retention of Hein & Associates, LLP warrant retaining the firm at this time. The Audit Committee will, however, continue to review this issue on an ongoing basis.

Notwithstanding the foregoing actions and the responsibilities set forth in the Audit Committee's charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's consolidated financial statements are complete and accurate and in accordance with generally accepted accounting principles. Management is responsible for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. The independent registered public accountants are responsible for expressing an opinion on those financial statements. Audit Committee members are not employees of the Company. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the consolidated financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and on the representations of the independent registered public accountants included in their report on the Company's consolidated financial statements.

The Audit Committee meets regularly with management, the Company's internal auditors and the independent auditors, including private discussions with the independent registered public accountants, and receives the communications described above. The Audit Committee has also established procedures for (i) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters and (ii) the confidential, anonymous submission by the Company's employees of concerns regarding questionable accounting or auditing matters. However, this oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent registered public accountants do not assure that the Company's consolidated financial statements are presented in accordance with generally accepted accounting principles or that the audit of the Company's consolidated financial statements has been carried out in accordance with generally accepted auditing standards.

The Johnson family group and all other Series B shareholders have entered into a shareholders' voting agreement under which all Series B voting common shares will be voted in accordance with the majority vote of Series B voting commons shares. Accordingly, through their ownership of voting common shares and the execution of the shareholders' voting agreement, members of the Johnson family may be deemed, under the Investment Company Act of 1940, to form a controlling group with respect to FMR. Neither FMR nor Edward C Johnson 3d, has the sole power to vote or direct the voting of the shares owned directly by the Fidelity Funds, which power resides with the Funds' Boards of Trustees. However, FMR made the Schedule 13G filing on a voluntary basis as if all shares are beneficially owned by FMR and FIL on a joint basis.

TRANSACTIONS WITH RELATED PERSONS

Procedures for Review, Approval and Ratification of Related Person Transactions

An "Interested Transaction" is any transaction, arrangement or relationship or series of similar transactions, arrangements or relationships (including any indebtedness or guarantee of indebtedness) in which: (i) the aggregate amount involved will or may be expected to exceed \$120,000 in any fiscal year; (ii) the Company or any of its subsidiaries is a participant; and (iii) any "Related Party" has or will have a direct or indirect material interest (other than solely as a result of being a director or a less than 10% beneficial owner of another entity). A "Related Party" includes:

a director or director nominee of the Company;

an executive officer of the Company;

a stockholder beneficially owning more than 5% of any class of the common stock of the Company;

a person who is an immediate family member or sharing the household of any of the foregoing; or

any firm, corporation or other entity in which any of the foregoing persons is a partner or principal or in a similar position or in which such person has a 10% or greater beneficial ownership interest.

Our Audit Committee reviews all Interested Transactions that the rules of the SEC require be disclosed in the Company's proxy statement and makes a determination regarding the initial authorization or ratification of any such transaction.

The Audit Committee is also charged with reviewing the material facts of all Interested Transactions and either approving or disapproving the Company's participation in such transactions under the Company's Related Party Transactions Policy adopted by the Board. This written policy preapproves the following transactions:

any employment of an executive officer if his or her compensation is required to be reported in the Company's proxy statement under Item 402 of Regulation S-K;

director compensation which is required to be reported in the Company's proxy statement under Item 402 of Regulation S-K;

any transaction with another company at which a Related Party's only relationship is as an employee (other than an executive officer), director or beneficial owner of less than 10% of that company's voting securities if the aggregate amount involved for any particular service does not exceed the greater of \$500,000 or 25% of that company's total annual revenues; and

any charitable contribution, grant or endowment by the Company to a charitable organization, foundation or university at which a Related Party's only relationship is as an employee (other than an executive officer) or a director if the aggregate amount involved does not exceed the lesser of \$200,000 or 10% of the charitable organization's total annual receipts.

Prior to a Related Party entering into an Interested Transaction, the Audit Committee reviews the material facts of such Interested Transaction and either approves or disapproves of the Interested Transaction. If advance Audit Committee approval of an Interested Transaction is not feasible, then the Interested Transaction is considered and ratified (if the Audit Committee determines it to be appropriate) at the Audit Committee's next regularly scheduled meeting. In determining whether to approve or disapprove an Interested Transaction, the

Audit Committee takes into account, among other factors, the following: (i) whether the Interested Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances, (ii) the extent of the Related Party's interest in the transaction and (iii) whether the Interested Transaction is material to the Company. Further, the policy requires all Interested Transactions that are required to be disclosed in the Company's filings with the SEC to be disclosed in accordance with applicable laws, rules and regulations.

Related-Party Transactions

From time to time, the Company contributes charitable donations to organizations for which the Company's executives serve as directors. Such contributions are pre-approved pursuant to the Company's Related Party Transactions Policy. There were no other related party transactions since January 1, 2013 which were required to be reported in "Transactions with Related Persons" where the procedures above did not require review, approval or ratification or where the procedures were not followed. Additionally, since January 1, 2013, there has not been any transaction or series of similar transactions to which the Company was or is a party in which the amount involved exceeded or exceeds \$120,000 and in which any Related Party, had or will have a direct or indirect material interest, other than compensation arrangements with directors and executive officers, which are described in "*Compensation Discussion and Analysis*," and the transaction described below.

Registration Rights Agreement. We entered into a Registration Rights Agreement, dated December 23, 2010, with Project Black Bear LP ("PBBLP"), HMQ and certain other stockholders, to whom we refer as "rights holders," relating to the shares of our common stock held by them and covered by the agreement, which shares of common stock we refer to as "registrable shares." Under the Registration Rights Agreement and subject to certain terms and conditions, the rights holders have the right to require us to register under the Securities Act for offer and sale all or a portion of the registrable shares of such rights holders. On January 8, 2013, at a time during which PBBLP was considered a Related Person of the Company due to its ownership of more than 5% of the Company's common stock, PBBLP made a demand for registration under the Registration Rights Agreement, which required us to register 13,000,000 shares of common stock owned by PBBLP in January 2013. Proceeds to PBBLP from the sale of registrable shares, after underwriting discounts and commissions, were approximately \$368 million. For the full text of this agreement, please see Exhibit 10.3 to the Registration Statement on Form S-1/A filed on July 25, 2011 (File No. 333-174765).

ITEM ONE:

ELECTION OF DIRECTOR

The Company's certificate of incorporation provides for the division of the Company's Board into three approximately equal classes. Prior to the 2014 Annual Meeting, the classes were divided as follows: (i) two directors in Class I, (ii) one director and one vacancy in Class II and (iii) two directors and one vacancy in Class III. The term of office for the current Class II director will expire at the 2014 Annual Meeting; the term of office of Class III directors will expire at the Annual Meeting of Stockholders to be held in 2015; and the term of office of Class I directors will expire at the Annual Meeting of Stockholders to be held in 2016.

The Board has nominated Kevin A. Neveu for election as a Class II Director of the Company to serve for a three-year term to expire at the Annual Meeting of Stockholders to be held in 2017 and until either he is re-elected or his successor is elected and qualified. Mr. Neveu is currently serving as a director of the Company. His biographical information is contained in the "*Directors and Executive Officers*" section above.

The Board has no reason to believe that Mr. Neveu will be unable or unwilling to serve if elected. However, if Mr. Neveu becomes unable or unwilling to accept his nomination or election, either the number of the Company's directors will be reduced or the persons acting under the proxy will vote for the election of a substitute nominee that the Board recommends.

The Board unanimously recommends that stockholders vote "FOR" Item One and approve the election of the director nominee.

Table of Contents**ITEM TWO:****RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANT**

The Audit Committee of the Board has selected Hein & Associates LLP as the independent registered public accountant auditors of the Company for 2014. Hein & Associates LLP has audited the Company's consolidated financial statements since the Company's inception on December 23, 2010. The Board is submitting the selection of Hein & Associates LLP for ratification at the 2014 Annual Meeting. The submission of this matter for approval by stockholders is not legally required, but the Board and the Audit Committee believe the submission provides an opportunity for stockholders through their vote to communicate with the Board and the Audit Committee about an important aspect of corporate governance. If the stockholders do not ratify the selection of Hein & Associates LLP, the Audit Committee will reconsider the selection of that firm as the Company's auditors.

The Audit Committee has the sole authority and responsibility to retain, evaluate and replace the Company's auditors. The stockholders' ratification of the appointment of Hein & Associates LLP does not limit the authority of the Audit Committee to change auditors at any time.

ITEM THREE:

ADVISORY VOTE ON EXECUTIVE COMPENSATION

We are asking our stockholders to provide advisory, non-binding approval of the compensation paid to our named executive officers, as described in the "*Compensation Discussion and Analysis*" section of this proxy statement. Our Board recognizes that executive compensation is an important matter for our stockholders. As described in detail in the CD&A section of this proxy statement, the Compensation Committee is tasked with the implementation of our executive compensation philosophy. In particular, the Compensation Committee strives to attract, retain and motivate the best executives we can identify and recruit, to reward past performance measured against established goals and provide incentives for future performance and to align executives' long-term interests with the interests of our stockholders. To do so, the Compensation Committee uses a combination of short-term and long-term incentive compensation to reward excellent performance and to encourage executives' commitment to our long-range, strategic business goals. It is the intention of the Compensation Committee that our named executive officers be compensated competitively with the market and consistently with our strategy, sound corporate governance principles and stockholder interests and concerns.

As described in the CD&A, we believe our compensation program is effective, appropriate and strongly aligned with the long-term interests of our stockholders and that the total compensation packages provided to our named executive officers (including potential payouts upon a termination or change of control) are reasonable and not excessive. As you consider this Item Three, we urge you to read the CD&A section of this proxy statement for additional details on executive compensation, including information about our compensation philosophy and objectives and the past compensation of our named executive officers, and to review the tabular disclosures regarding named executive officer compensation together with the accompanying narrative disclosures in this proxy statement. Some of the program features incorporated by the Compensation Committee to align our executive compensation program with our executive compensation philosophy include:

time-based and performance-based equity awards incorporating a three-year vesting period to emphasize long-term performance and executive officer commitment and retention;

annual performance-based cash awards incorporating operational, financial and performance metrics in order to properly balance risk with the incentives needed to drive our key annual initiatives such awards impose maximum payouts to further manage risk and the possibility of excessive payments;

"double trigger" requirement for any acceleration of vesting of equity upon a change in control (i.e., a termination of employment is required in connection with a change in control); and

stock ownership guidelines to further align the interests of our named executive officers with the interests of our stockholders.

This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement. As an advisory vote, Item Three is not binding on our Board or the Compensation Committee, will not overrule any decisions made by our Board or the Compensation Committee and will not require our Board or the Compensation Committee to take any specific action. Although the vote is non-binding, our Board and the Compensation Committee value the opinions of our stockholders and will carefully consider the outcome of the vote when making future compensation decisions for our named executive officers.

We are asking stockholders to vote "For" the following resolution:

"RESOLVED, that the stockholders approve, on an advisory basis, the compensation philosophy, policies and procedures and the compensation of the named executive officers as disclosed in this proxy

Table of Contents

statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, the compensation tables and any related material disclosed in the proxy statement."

The affirmative vote of stockholders holding at least a majority of the shares present and entitled to be voted on the proposal is required for approval of Item Three. If you own shares through a bank, broker or other holder of record, you must instruct your bank, broker or other holder of record how to vote in order for them to vote your shares so that your vote can be counted on this proposal.

The Board unanimously recommends that the stockholders vote "FOR" Item Three and approve the compensation of the named executive officers of the Company, as disclosed in this proxy statement pursuant to the compensation disclosure rules of the SEC.

OTHER MATTERS

Stockholder Proposals; Identification of Director Candidates

Any stockholder of the Company who desires to submit a proposal for action at the 2015 Annual Meeting of Stockholders and wishes to have such proposal (a "Rule 14a-8 Proposal") included in the Company's proxy materials, must submit such Rule 14a-8 Proposal to the Company at its principal executive offices no later than January 3, 2015, unless the Company notifies the stockholders otherwise. Only those Rule 14a-8 Proposals that are timely received by the Company and proper for stockholder action (and otherwise proper) will be included in the Company's proxy materials.

A stockholder proposal, including a stockholder nominating a person for election as director, not included in our proxy statement for the 2015 Annual Meeting of Stockholders will be ineligible for presentation at the 2015 Annual Meeting of Stockholders unless the stockholder gives timely notice of the proposal in writing to our Secretary at our principal executive offices. Under our bylaws, in order for a matter to be deemed properly presented by a stockholder, a stockholder's notice shall be delivered to and received by the Secretary at the principal executive offices of the Company not less than 120 days in advance of the first anniversary of the date of the Company's proxy statement released to stockholders for the preceding year's annual meeting. Accordingly, with respect to the 2015 Annual Meeting of Stockholders, such notice must be received by the Secretary at the Company's principal executive office by January 3, 2015; provided, however, that in the event the date of the annual meeting has been changed by more than 30 days from the date of the previous year's annual meeting, delivery of such proposal by the stockholder, to be timely, must be so delivered not later than the close of business on the later of (i) the 120th day prior to such meeting, or (ii) the tenth day following the day on which public announcement of the date of such meeting is first made. In no event shall the public announcement of an adjournment of an annual meeting commence a new time period for the giving of a stockholder's notice as described above. For purposes of our bylaws, "public announcement" means disclosure in a press release reported by Dow Jones News Service, Associated Press or a comparable national news service, in a document publicly filed by the Company with the SEC, or in a notice pursuant to the applicable rules of an exchange on which the Company's securities are then listed.

To be in proper form, a stockholder's notice shall be in writing and shall set forth (a) the name and address of the stockholder, as set forth in the Company's books and records, who intends to make the nomination(s) or propose the business and the beneficial owner, if any, on whose behalf the proposal is made, (b) in the case of a nomination of director(s), (i) a description of all agreements, arrangements or understandings between the stockholder and each nominee or any other person or persons (naming such person or persons) pursuant to which the nomination(s) are to be made, (ii) any other information relating to such nominee(s) that would be required to be included in a proxy statement filed under the current rules of the SEC and (iii) the nominee(s)' written consent to serve as a director if elected, and (c) in the case of other business proposed to be brought before the annual meeting, (i) a brief description of such business, (ii) the reasons for conducting such business at the annual meeting, (iii) any material interest the stockholder has in such business and (iv) any other information that is required to be provided by the stockholder under the current rules of the SEC with respect to stockholder proposals. The Board, a committee thereof and the chief executive officer and president may refuse to acknowledge the nomination of any person or the proposal of any business not made in compliance with the foregoing procedures.

It is the responsibility of the Nominating and Corporate Governance Committee to identify, evaluate and recommend to the Board the director nominees for election at the annual meeting of stockholders, as well as to fill vacancies or additions on the Board that may occur between annual meetings. The Nominating and Corporate Governance Committee endeavors to recommend only director candidates who possess the highest personal values and integrity; who have experience and have exhibited achievements in one or more of the key professional, business, financial, legal and other challenges that face a U.S. independent oil and gas company; who exhibit

sound judgment, intelligence, personal character and the ability to make independent analytical inquiries; who demonstrate a willingness to devote adequate time to Board duties; and who are likely to be able to serve on the Board for a sustained period.

The Nominating and Corporate Governance Committee's charter includes consideration of diversity of viewpoint on the Board. In that regard, the Nominating and Corporate Governance Committee endeavors to achieve an overall balance of diversity of experiences, skills, attributes and viewpoints among our directors. The Nominating and Corporate Governance Committee believes it has achieved that balance through the representation on the Board of members having experience in the oil and gas industry, finance and accounting and investment analysis, among other areas. The Nominating and Corporate Governance Committee does not discriminate based upon race, religion, sex, national origin, age, disability, citizenship or any other legally protected status.

In identifying potential director candidates, the Nominating and Corporate Governance Committee will rely on any source available for the identification and recommendation of candidates, including current directors and officers. In addition, the Nominating and Corporate Governance Committee from time to time may engage a third party search firm to identify or evaluate, or assist in identifying or evaluating potential candidates, for which the third party search firm will be paid a fee.

Proxy Materials, Annual Report and Householding

The Company's Annual Report to Stockholders for the year ended December 31, 2013, is being sent to stockholders of record concurrently with this proxy statement and does not form part of the proxy solicitation material.

The SEC has adopted rules that permit companies and intermediaries (such as brokers) to satisfy the delivery requirements for proxy statements with respect to two or more security holders sharing the same address by delivering a single proxy statement addressed to those security holders. This process, which is commonly referred to as "householding," potentially means extra convenience for security holders and cost savings for companies. This year, a number of brokers with accountholders who are our stockholders will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless
