PROXY STATEMENT

FOR 2014 ANNUAL MEETING OF STOCKHOLDERS

To be held on June 16, 2014

April 30, 2014

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Affiliated Managers Group, Inc. ("AMG", the "Company", "we" or "us") for use at our 2014 Annual Meeting of Stockholders to be held on Monday, June 16, 2014 at 2:00 p.m. London Time (9:00 a.m. Eastern Time), at our London office, 35 Park Lane, London W1K 1RB, United Kingdom, and at any adjournments or postponements thereof (the "Annual Meeting"). At the Annual Meeting, stockholders will be asked to elect ten directors, approve, by a non-binding advisory vote, the compensation of the Company's named executive officers (as defined in the Executive Compensation section), ratify the selection of PricewaterhouseCoopers LLP ("PricewaterhouseCoopers") as our independent registered public accounting firm for the current fiscal year, and consider and act upon any other matters properly brought before them.

Important Notice Regarding the Internet Availability of Proxy Materials. This year, we have again saved significant mailing and printing costs by providing proxy materials to you over the Internet in accordance with Securities and Exchange Commission ("SEC") rules. On or about May 1, 2014, we will mail to our stockholders a Notice of Internet Availability of Proxy Materials (the "Notice") containing instructions on how to access this Proxy Statement and our 2013 Annual Report on Form 10-K online. The Notice, which cannot itself be used to vote your shares, also provides instructions on how to vote by Internet or by telephone and how to request a paper copy of the proxy materials, if you so desire. Whether you received the Notice or paper copies of our proxy materials, the Proxy Statement and 2013 Annual Report on Form 10-K are available to you at www.proxyvote.com.

Stockholders of record of the Company's common stock at the close of business on the record date of April 17, 2014 will be entitled to notice of the Annual Meeting and to one vote per share on each matter presented at the Annual Meeting. As of the record date, there were 55,278,127 shares of common stock outstanding and entitled to vote at the Annual Meeting.

The presence, in person or by proxy, of holders of at least a majority of the total number of shares of common stock outstanding and entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes, if any, will be counted for purposes of establishing a quorum but will not be considered as votes cast on any matter.

A "broker non-vote" is a proxy from a broker or other nominee indicating that such person has not received instructions from the beneficial owner on a particular matter with respect to which the broker or other nominee does not have discretionary voting power. Brokers have the discretion to vote their clients' proxies only on routine matters.

At this year's Annual Meeting, the election of directors (Proposal 1) and the advisory vote on executive compensation (Proposal 2) are non-routine matters, and only the ratification of our auditors (Proposal 3) is a routine matter. It is important that you instruct your broker as to how you wish to have your shares voted on these proposals, even if you wish to vote as recommended by the Board of Directors.

Stockholders are requested to submit a proxy by Internet or telephone, or by returning a completed, signed, and dated proxy card or voting instruction form. If you vote by Internet or telephone, you should not return a proxy card or voting instruction form. Shares represented by a properly submitted proxy received prior to the vote at the Annual Meeting and not revoked will be voted at the Annual Meeting as directed by the proxy. If a properly executed proxy or voting instruction form is submitted without any

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

instructions indicated, the proxy will be voted FOR the election of each of the nominees for director, FOR the approval of the advisory vote on executive compensation, and FOR ratification of the selection of PricewaterhouseCoopers as our independent registered public accounting firm for the current fiscal year. If other matters are presented, proxies will be voted in accordance with the discretion of the proxy holders on such other matters.

A stockholder of record may revoke a proxy at any time before it has been voted by filing a written revocation with the Secretary of the Company at the Company's principal executive offices, 600 Hale Street, P.O. Box 1000, Prides Crossing, Massachusetts 01965; by submitting a duly executed proxy bearing a later date; or by appearing in person and voting by ballot at the Annual Meeting. A stockholder of record who voted by Internet or by telephone may also change his or her vote with a timely and valid later Internet or telephone vote, as the case may be. Any stockholder of record as of the record date may attend the Annual Meeting whether or not a proxy has previously been given, but the presence (without further action) of a stockholder at the Annual Meeting will not constitute revocation of a previously given proxy. If you hold your shares in street name and would like to change your voting instructions, please follow the instructions provided to you by your broker, bank or other intermediary.

A stockholder may vote in person at the Annual Meeting upon presenting picture identification and any one of the following: an account statement, the Notice or a proxy card. If you hold your shares in street name, you will need to obtain a proxy from your bank or broker in order to vote in person, and you must bring a brokerage statement or letter from your broker, bank or other intermediary reflecting stock ownership. The address of the Company's London office is set forth above for stockholders who plan to vote in person at the Annual Meeting.

PROPOSAL 1: ELECTION OF DIRECTORS

Introduction

Our Board of Directors currently consists of ten members. At the Annual Meeting, ten directors will be elected to serve until the 2015 Annual Meeting of Stockholders and until their respective successors are duly elected and qualified. The Board of Directors and the Nominating and Governance Committee have nominated Messrs. Samuel T. Byrne, Dwight D. Churchill, Niall Ferguson, Sean M. Healey, Harold J. Meyerman, William J. Nutt, Patrick T. Ryan, and Jide J. Zeitlin, Ms. Tracy P. Palandjian and Dr. Rita M. Rodriguez (collectively, the "Nominees") to serve as directors. Each of the Nominees is currently serving as a director of the Company. As more fully discussed below under "Meetings of the Board of Directors and Committees and Corporate Governance Matters," the Board of Directors has determined that nine of its ten Nominees, Messrs. Byrne, Churchill, Ferguson, Meyerman, Nutt, Ryan and Zeitlin, Ms. Palandjian and Dr. Rodriguez, have no material relationship with the Company and are "independent" for purposes of New York Stock Exchange ("NYSE") listing standards. The Board of Directors expects that each of the Nominees will, if elected, serve as a director for the new term. However, if any person nominated by the Board of Directors is unable to accept election, the proxies will be voted for the election of such other person or persons as the Board of Directors may recommend.

Our amended and restated By-laws provide for majority voting in uncontested director elections. Under the majority voting standard, directors are elected by a majority of the votes cast, which means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director. In a contested election (a situation in which the number of nominees exceeds the number of directors to be elected), the standard for election of directors will be a plurality of the votes cast. Abstentions and broker non-votes will have no effect on the outcome of the election of directors.

Under our Corporate Governance Guidelines, the Nominating and Governance Committee has established procedures for any director who is not elected to tender his or her offer to resign. Upon receiving the director's offer to resign, the Nominating and Governance Committee will recommend to the Board of Directors whether to accept or reject the offer to resign, or whether other action should be taken. The Nominating and Governance Committee and the Board of Directors, in making their decisions, may consider any factor or information that they deem relevant. The Board of Directors, taking into account the Nominating and Governance Committee's recommendation, will act on the tendered resignation within ninety days following certification of the election results. A director whose resignation is under consideration shall abstain from participating in any recommendation or decision regarding that resignation.

Recommendation of the Board of Directors

The Board of Directors believes that the election of each of the Nominees is in the best interests of the Company and its stockholders, and, therefore, unanimously recommends that stockholders vote **FOR** the election of each of the Nominees.

Information Regarding the Nominees

The name, age (as of April 1, 2014) and a description of the business experience, principal occupation and past employment and directorships of each of the Nominees during at least the last five years is set forth below. In addition, we have summarized the particular experience, qualifications, attributes and/or

Meetings of the Board of Directors and Committees and Corporate Governance Matters

During 2013, the Board of Directors met six times. Each member of the Board of Directors in 2013 attended over 85% of the total number of meetings of (i) the Board of Directors and (ii) all standing committees of the Board of Directors on which such director served. We do not have a formal policy regarding director attendance at an annual meeting of stockholders. One director was in attendance at the 2013 Annual Meeting of Stockholders.

At least annually, the Board of Directors evaluates the independence of our directors in light of the standards established by NYSE. A majority of our Board of Directors must be "independent" within the meaning of NYSE listing standards. After its most recent evaluation of director independence, the Board of Directors affirmatively determined that nine of our ten directors, Messrs. Byrne, Churchill, Ferguson, Meyerman, Nutt, Ryan and Zeitlin, Ms. Palandjian and Dr. Rodriguez, are "independent" for purposes of NYSE listing standards. The Board of Directors made these determinations based upon questionnaires completed by each director and individual evaluations of a director's employment or Board of Directors affiliations, and any commercial, family or other relationships. There were no such transactions for consideration in determining the independence of any director.

The standing committees of the Board of Directors are the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Only independent directors within the meaning of NYSE listing standards serve on these committees. Each such committee acts pursuant to a written charter adopted by the respective committee. A description of each committee is set forth below.

Audit Committee. The Audit Committee currently consists of Messrs. Churchill and Meyerman, Ms. Palandjian and Dr. Rodriguez, with Dr. Rodriguez serving as Chair. Each of the members meets the independence standards applicable to audit committees under the Sarbanes-Oxley Act of 2002 and NYSE listing standards and is an audit committee financial expert as defined by the SEC. The Audit Committee's purpose is to assist the Board of Directors in oversight of our internal controls and financial statements and the audit process. The Audit Committee met eight times during 2013. Other members of the Board of Directors attend Audit Committee meetings from time to time at the invitation of the Audit Committee.

Compensation Committee. The Compensation Committee currently consists of Messrs. Byrne, Meyerman, Ryan and Zeitlin, with Mr. Ryan serving as Chair. Each member meets the independence requirements applicable to the Compensation Committee under NYSE listing standards. The Compensation Committee is responsible for overseeing our general compensation policies and establishing and reviewing the compensation plans and benefit programs applicable to our executive officers. In that capacity, the Compensation Committee also administers our stock option and incentive plans. The Compensation Committee met five times during 2013. Other members of the Board of Directors attend Compensation Committee meetings from time to time at the invitation of the Compensation Committee.

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

Nominating and Governance Committee. The Nominating and Governance Committee currently consists of Messrs. Byrne, Meyerman and Zeitlin and Dr. Rodriguez, with Mr. Meyerman serving as Chair. The Nominating and Governance Committee is primarily responsible for recommending criteria to the Board of Directors for board and committee membership, identifying and evaluating director candidates, overseeing the annual evaluation of the Board of Directors and its committees, and maintaining our Corporate Governance Guidelines. The Nominating and Governance Committee met four times during 2013. Other members of the Board of Directors attend Nominating and Governance Committee meetings from time to time at the invitation of the Nominating and Governance Committee.

The Nominating and Governance Committee may solicit director candidate recommendations from a number of sources, including directors, executive officers and third party search firms. The Nominating and Governance Committee will consider for nomination any director candidates, including director candidates recommended by our stockholders, who are deemed qualified by the Nominating and Governance Committee in light of the qualifications and criteria for Board of Directors membership described below, or such other criteria as approved by the Board of Directors or a committee thereof from time to time. Stockholder recommendations must be submitted to the Nominating and Governance Committee in accordance with the requirements set forth in our By-laws, including those discussed below under the caption "Other Matters Stockholder Proposals," and any procedures established from time to time by the Nominating and Governance Committee. The Nominating and Governance Committee does not have a specific policy regarding the consideration of stockholder recommendations for director candidates and considers this appropriate because it evaluates recommendations without regard to their source. The Nominating and Governance Committee evaluates any potential conflicts of interest on a case by case basis, to the extent they may arise.

When considering candidates for directorship, the Nominating and Governance Committee takes into account a number of factors, including the following qualifications: the nominee shall have the highest personal and professional integrity and have demonstrated exceptional ability and judgment and the attributes necessary (in conjunction with the other members of the Board of Directors) to best serve the long-term interests of the Company and its stockholders. In addition, the Nominating and Governance Committee reviews from time to time the skills and characteristics necessary and appropriate for directors in light of the then current composition of the Board of Directors, including such factors as business experience, international background, diversity and knowledge of the financial services industry in general and the asset management industry in particular. In considering diversity, the Nominating and Governance Committee considers diversity of background and experience as well as ethnic and other forms of diversity. The Nominating and Governance Committee does not, however, have a formal policy regarding diversity in identifying nominees for a directorship, but rather, considers it among the various factors relevant to the consideration of any particular nominee. The Nominating and Governance Committee reviews at least annually our Corporate Governance Guidelines to ensure that we continue to meet best corporate governance practice standards.

Executive Sessions of Non-management Directors. Our non-management directors meet in regularly scheduled executive sessions. In accordance with the charter of the Nominating and Governance Committee and the By-laws of the Company, Mr. Meyerman, the Chair of the Nominating and Governance Committee, also serves as the lead independent director calling and chairing the executive sessions, including during the annual Board of Directors offsite, and communicating with Mr. Healey, the Chairman and Chief Executive Officer.

Leadership Structure. Mr. Healey serves as Chairman and Chief Executive Officer, and Mr. Meyerman serves as lead director. The Board of Directors believes that having the same person serve as Chief Executive Officer and Chairman focuses leadership, responsibility and accountability in a single person and that having a lead director provides for effective checks and balances and the ability of the independent directors to work effectively in the board setting.

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

Recognizing the importance of the lead director position to the Company, in 2010 the Board of Directors amended the By-laws of the Company to provide that the lead director will perform many of the functions that an independent chairman would perform. The Board of Directors has appointed Mr. Meyerman as lead director because of his qualifications, including his extensive service in the financial services and banking industries, mergers and acquisitions experience, and international management and advisory experience. Mr. Meyerman's principal responsibilities include serving as a key source of communication between the independent directors and the Chief Executive Officer, and coordinating the agenda for and leading meetings of the independent directors.

Risk Oversight. It is a key responsibility of our Chief Executive Officer, President, Chief Financial Officer, General Counsel, and other members of our senior management team to identify, assess, and manage the Company's exposure to risk. The Board of Directors plays an important role in overseeing management's performance of these functions. The Board of Directors has approved the charter of the Audit Committee, which provides that one of the primary responsibilities of the Audit Committee is the discussion of the Company's financial risks and steps management has taken to monitor and control such risks, including with respect to risk assessment and risk management policies. Total compensation aligned with stockholder return. Total compensation for our Chairman and CEO was substantially unchanged, increasing by only 1% over 2012, while the Company's stockholder return for the one-year (67%), three-year (119%) and five-year periods (417%), and since our IPO (1284%) substantially outpaced that of the S&P 500 as well as 75% of our peer group under Mr. Healey's leadership

Base salary and cash bonus combined comprised only 29% of Mr. Healey's total compensation, with the remainder awarded in the form of deferred long-term equity grants

future stock performance, thereby closely aligning executive compensation with long-term stockholder interests:

Long-Term Performance Equity Awards restricted stock grants with rigorous dual performance conditions tied to Company share price appreciation forfeited without value if stock appreciation conditions are not met

2013 Compensation Program Enhancements

Through the years, and continuing in 2013, AMG executives and members of the Compensation Committee have undertaken a program of investor outreach with respect to our compensation programs and philosophy, and have actively sought investor feedback on these topics. Throughout 2013 and early 2014, we held meetings with a significant number of our largest shareholders. We also met with proxy advisory firms to solicit their feedback. As a result, the Compensation Committee determined to make the following enhancements and modifications, to ensure that the Company's compensation program remains

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

an industry leader in the rigorous alignment of management incentives with long-term stockholder interests:

Clarified the direct linkage between cash bonuses and Economic net income, the Company's key operating metric

Replaced the Long-Term Equity Interests Plan ("LTEIP") with more transparent restricted stock awards featuring highly back-ended vesting and distribution provisions dependent on future stock performance:

Long-Term Deferred Equity Awards a highly deferred restricted stock instrument recipients do not fully vest until 2021, with no sales of shares until 2017

Long-Term Performance Equity Awards restricted stock grants with rigorous dual performance conditions tied to Company share price appreciation forfeited without value if stock appreciation conditions are not met

Established a 2013 \$5 million cash bonus cap

Enhanced equity ownership guidelines providing that a named executive officer or director should own equity in the amount of: ten times annual base salary (in the case of Mr. Healey); seven times annual base salary (in the case of our other named executive officers); or five times base annual fees for service (in the case of directors)

These enhancements will be discussed in greater detail throughout the balance of this Compensation Discussion and Analysis.

Our Executive Compensation Program Philosophy and Components

Our executive compensation program has been structured by our Compensation Committee over the long term to further several core objectives:

Closely aligning executive compensation with stockholder value creation and our performance as measured by Economic net income, the Company's key operating metric

Attracting, retaining and motivating the services of key members of senior management especially Mr. Healey, a widely recognized leader in the asset management industry whose vision and leadership have shaped the Company and driven its long-term success

Compensating executives based on a combination of Company and individual performance

Focusing executives on long-term performance with deferred compensation and equity awards

Avoiding incentives that might encourage excessive risk taking

These objectives inform the design of the following core components of our compensation program, each of which is discussed in turn below:

Awarding the fixed and performance-based elements of compensation in an appropriate mix to align management incentives with stockholder value creation

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

Performing market comparisons to ensure that our compensation is in line with that of peer asset management companies

Implementing strong compensation governance practices

Elements of compensation

Base salary. Our Compensation Committee believes that an executive officer's total compensation should comprise principally equity and performance-based cash compensation to best align compensation

with increases in stockholder value. We therefore utilize relatively lower base salaries and modest perquisites, such that fixed compensation represents a small portion of total compensation. In total, base salaries and other fixed compensation for the named executive officers typically represent less than 10% of their total compensation.

Cash bonuses. When determining performance-based cash bonus levels, the Compensation Committee establishes an incentive cash compensation pool for officers comprising a specified percentage of pre-tax, pre-compensation Economic net income ("Adjusted Economic net income"). Economic net income is a non-GAAP performance metric that we consider an important measure of our financial performance, as we believe it best represents our operating performance before non-cash expenses relating to our acquisition of interests in our Affiliates. Economic net income is used by our management and Board of Directors as our principal performance benchmark, and as a result it is also an important factor in setting performance-based executive compensation. (See page 22 of our 2013 Annual Report on Form 10-K *Supplemental Performance Measures* for further detail on the calculation of Economic net income.)

Although the cash bonus incentive pool is the source of funding for cash bonuses, the size of the pool does not itself determine the amounts of the cash bonuses awarded to executives. In setting the size of the awards, the Committee considers a variety of factors, including the cash bonus compensation and total compensation being paid by peer companies and in the industry generally, the Company's performance relative to past performance and peer company results, the individual contributions of the executives to the Company's performance and the relative size of the cash bonus as compared to the deferred compensation to be awarded in the form of equity awards.

Equity awards. The Compensation Committee believes that deferred compensation in the form of equity-based awards provides long-term incentives that further the objectives of increasing stockholder value and retaining our senior management team. Given the Committee's objective of aligning compensation with increases in stockholder value, the Committee generally intends that the substantial majority of total compensation be equity-based. Grants of equity-based interests are also generally a larger portion of the variable performance-based compensation than cash bonuses. Furthermore, since the Committee believes the longevity and continuity of management is a strategic advantage creating stockholder value over the long term, in granting equity awards the Committee ensures that awards have a long-term focus, vest over multiple years, and, in certain cases, are also subject to additional performance goals.

The Committee grants equity-based incentive compensation awards on the basis of our historical performance and the individual executive officer's contributions to that performance, as well as the expected contribution of the executive officer to our future performance. The Committee also considers the relationship of equity-based compensation awards to the performance-based cash compensation to be paid to each executive officer in any particular year. The Committee further considers each executive's existing equity ownership, including the relative size and structure of historical grants and the portions of an award that are not yet vested. In addition, the Committee considers the performance and equity-based compensation levels of the Company and our individual executive officers relative to peer companies, as well as the comparative levels of equity ownership of individual officers at such companies.

Market comparisons

Our Compensation Committee believes that in order to retain key management team members with a long-term track record of success, total compensation should be appropriate relative to the marketplace for the services of our executive officers. The Committee places great value on the exceptional caliber of our named executive officers, as well as the strategic benefits accruing from a stable long-tenured senior management team that has led the Company since its IPO reflected in the Company's outstanding long-term performance on an absolute basis and relative to its peers and the market. Mr. Healey is a widely recognized leader in the asset management industry whose vision and leadership built AMG, over a 20-year period, from an early-stage company to one of the largest asset management businesses in the industry. Retention of Mr. Healey and the other senior officers in a very competitive market for executive talent is therefore a high priority.

The Compensation Committee assesses the marketplace by reviewing the compensation paid to executive officers performing similar functions at other companies in the investment management industry. In particular, executive officer compensation is reviewed against our peer group of publicly traded asset management companies comprising the following:

AllianceBernstein Holding L.P.	Invesco Ltd.
Ameriprise Financial, Inc.	Legg Mason Inc.
The Bank of New York Mellon Corp.	Northern Trust Corp.
BlackRock, Inc.	State Street Corp.
Eaton Vance Corp.	T. Rowe Price Group, Inc.
Franklin Resources, Inc.	Waddell & Reed Financial, Inc.

Prior to this year, our peer group also included Federated Investors, Inc. and Janus Capital Group Inc. and did not include The Bank of New York Mellon Corp., Northern Trust Corp. or State Street Corp. The peer group was revised to reflect companies with market capitalizations, operational and geographic scope, and complexity more in line with that of AMG, removing those with substantially smaller capitalizations and adding larger companies deemed to be peers by other larger companies in our peer group. In addition to the above peer group, the Committee also considers a range of alternative investment and other investment management firms comprising the marketplace for the services of our executive officers.

In reviewing the peer universe, the Compensation Committee gives consideration to the fact that certain of these companies are more closely comparable to the Company, and accordingly considers the relative comparability of the companies in its assessment of various compensation structures and arrangements. Specifically, we consider which companies are most comparable with respect to size (market capitalization and assets under management) and general business profile (those companies that have similarly specialized equities and alternative investment management capabilities, or with similar business strategies). We also consider the senior management profile of a company in determining compensation comparability (for example, the extent to which founders or family members serve in key senior management roles). While the Compensation Committee reviews peer compensation for comparison purposes, this review is not the determining factor and is only one of many factors that are considered by the Compensation Committee in setting compensation.

Compensation Governance Practices

The Company's strong governance procedures and practices with respect to employment and compensation include the following:

No employment agreements with the Chairman and Chief Executive Officer, President and Chief Operating Officer, or Chief Financial Officer

No change in control agreements with our executives

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

The base salary and other fixed compensation generally comprise less than 5% of total compensation for Mr. Healey

No tax reimbursements or "gross-ups" for any perquisites

No supplemental retirement benefits for any executive officer

An insider trading policy that prohibits hedging of Company securities

No pledging of Company securities

No option re-pricing or buy-outs of underwater stock options

Equity ownership guidelines for our executive officers and directors requiring long-term ownership of equity totaling a multiple of base salary or directors' fees

Thorough risk assessment process, as described under "Risk Considerations in our Compensation Programs" below

A "double-trigger" vesting upon change in control for all grants awarded after January 1, 2013

A clawback policy that allows, under certain circumstances, for the recoupment of performance-based compensation from executive officers

Our Compensation Committee

The Compensation Committee oversees our general compensation policies, establishes and reviews the compensation plans and benefit programs applicable to our executive officers, and administers our stock option and equity incentive plans.

The Compensation Committee consists of Messrs. Byrne, Meyerman, Ryan and Zeitlin, with Mr. Ryan serving as the Chair. The members of the Committee have significant experience in compensation matters as a result of their service as executive officers or advisors to various public and private companies, and the Committee members collectively have extensive experience with the Company and its compensation matters. The Committee's agenda and meeting calendar is determined by the Committee, with input as appropriate from Mr. Healey, who attends meetings at the request of the Committee. In his capacity as Chairman and Chief Executive Officer, Mr. Healey participates in discussions with the Committee concerning the compensation of other members of executive management and the design of long-term and equity incentive plans, but does not participate in discussions regarding his own performance goals, contributions or compensation, which occur in executive sessions of the Committee and in meetings of the Committee with our independent compensation consultant. The Committee also invites Mr. Kingston, Vice Chairman and General Counsel, to attend certain meetings to discuss the design, implementation and administration of long-term incentive, equity incentive and deferred compensation plans. The Committee has the sole authority for approving the compensation of our executive officers and the performance goals related to such plans and programs.

The Committee regularly meets without management team members present. The Chair from time to time requests that all other independent directors meet with the Committee in executive session, and otherwise regularly provides reports to the Board on compensation considerations. The Committee's independent compensation consultant participates in conference calls and meetings without management present at key points throughout the year, including conference calls and meetings with the Chair of the Committee.

Compensation Consultants

In 2013, the Committee again engaged an independent outside executive compensation consulting firm, Thomas E. Shea & Associates, LLC ("Shea & Associates"), to assist the Committee with

compensation matters, including providing peer universe benchmarking information and an independent analysis of how our executive and board compensation policies and practices compared to those of the peer universe. In addition to a review of cash and equity compensation and perquisite arrangements across the industry, the analysis provided by Shea & Associates also considered financial metrics for our peer group, including market capitalization, assets under management, various measures of profitability, and stock price performance. In order to prepare its analysis for the Committee, Shea & Associates met from time to time with management.

Shea & Associates, which provides no other services to us, reported its findings directly to the Committee. In setting executive officer compensation levels, the Committee considered the comparative compensation analyses provided by Shea & Associates, and then applied the collective experience and judgment of the Committee to such data (and the relative significance of the various comparative universe components) to make compensation determinations. A representative of Shea & Associates met with the Committee in formal Committee meetings, as well as outside Committee meetings in sessions with Committee members, particularly with the Committee Chair, at key points throughout the year to update the Committee on the status of compensation surveys, and make recommendations regarding executive officer and director compensation programs and levels.

The independence of Shea & Associates has been evaluated in accordance with SEC rules, and it has been determined that its work does not raise any conflict of interest.

2013 Performance Highlights

In 2013, the Company's financial performance on an absolute basis was very strong, and performance relative to its publicly traded asset management industry peer group was particularly strong. 2013 Compensation Process

The Compensation Committee initiated the annual compensation process during the final Committee meetings of 2012 and continued throughout 2013 to review the principles and continuing effectiveness of the compensation program with the assistance of Shea & Associates. The Committee considered the components of the compensation program discussed above including the mix of elements of executive compensation, market levels of compensation and our compensation governance practices in analyzing the extent to which the program is furthering the Committee's objectives of aligning compensation with stockholder value creation while retaining and motivating our executives. The Committee also considered the Company's Economic earnings performance over the course of the year for purposes of determining the size of the cash compensation incentive pool for our officers (set as a percentage of Adjusted Economic net income).

In preparation for the determinations to be made by the Committee at the end of the year, various members of the Committee (and particularly the Committee Chair) conducted a series of conference calls with Shea & Associates outside of formal meetings to consider cash bonus compensation of our peer universe and potential bonus arrangements. The Committee also met in December 2013 and reviewed updated estimates concerning our performance, the potential size of the officer bonus pool, and specific bonus arrangements for each executive officer.

In determining cash bonuses, the Committee considered a market cash bonus compensation analysis of our peer universe as part of developing a total compensation package that was competitive relative to the marketplace for our named executive officers. In addition, although the Committee does not have specific targets that it applies to such evaluation, the Committee also considered our performance and the various factors that may have affected such performance in that year (including market conditions, the possible timing of transactions and new financing arrangements, and the relative levels of management and performance fees), as well as the performance relative to the peer universe. Finally, the Committee also evaluated final compensation determinations in the context of its objective to maximize financial performance and realize appropriate growth returns for our stockholders.

At the end of 2013, based upon our performance and the most current peer universe compensation information, the Committee then reviewed 2013 compensation arrangements and made final performance-based cash compensation and equity grant determinations.

Stockholder and Proxy Advisory Firm Feedback and Surveys

At our 2013 Annual Meeting, stockholders approved the Company's 2013 Incentive Stock Award Plan and voted in favor of our executive officer compensation arrangements. Senior management regularly meets with and surveys the leading proxy advisory firms and the Company's largest stockholders regarding the Company's executive compensation programs. In its survey of its largest stockholders, the Company found that stockholders understood and supported the Company's executive compensation philosophy and its execution, recognizing the importance of aligning compensation with stockholder value creation and the Company's financial performance, as well as the importance of retaining and motivating Mr. Healey and the other key members of senior management, who have been the cornerstones of the Company's superior earnings and stock price growth since the Company's initial public offering. While appreciating the input of proxy advisory firms, stockholders recognize that in such firms' analysis, notwithstanding ongoing efforts to refine peer selection methodology, peer groups are generally based on broad financial services Global Industry Classifications Standards Codes ("GICS Codes") (including companies with much different business models) and balance sheet comparisons, rather than directly comparable publicly traded asset management firms recognized as peers by the Company, the analyst community following the Company, the Company's stockholders and many peer asset management firms that include the Company as peers in their public disclosure.

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

The Company's management continues to communicate with proxy advisory firms, to follow developments in their methodologies and analyses, and to consider the input of such firms to ensure that the Company and its Board remain cognizant of current and possible future developments.

2013 Compensation Decisions

In light of the Compensation Committee's philosophy that executive compensation should be aligned with financial performance and stockholder value creation, and given the strength of 2013 and historical financial performance and continued growth in stockholder value, the Committee made the following determinations regarding 2013 compensation awards for named executive officers:

Total compensation aligned with stockholder return. Total compensation for our Chairman and CEO was substantially unchanged, increasing by only 1% over 2012, while the Company's stockholder return for the one-year (67%), three-year (119%) and five-year periods (417%), and since our IPO (1284%) substantially outpaced that of the S&P 500 as well as 75% of our peer group under Mr. Healey's leadership

Exhibit 7

Base salary unchanged. Base salaries were held at the same level as 2012 for all named executive officers and comprising only 4% of Mr. Healey's total compensation

Cash bonuses unchanged. Cash bonuses were held at the same level as 2012 for all named executive officers and comprising only 25% of Mr. Healey's total compensation

Base salary and cash bonus combined comprised only 29% of Mr. Healey's total compensation, with the remainder awarded in the form of deferred long-term equity grants

Compensation largely deferred. Of Mr. Healey's total 2013 compensation, 71% is deferred in the form of long-term equity grants, with highly back-ended vesting and distribution provisions dependent on

future stock performance, thereby closely aligning executive compensation with long-term stockholder interests:

Long-Term Deferred Equity Awards

Restricted stock grant that vests over an eight-year period, from 2014 to 2021

No shares may be sold until 2017 at the earliest

Long-Term Performance Equity Awards

Restricted stock grant that is forfeited without value if rigorous dual performance conditions are not achieved

Grant is structured in three equal tranches each tranche with share price performance hurdles (as compared to AMG's share price on the initial grant date) of 15%, 25% and 35%, respectively

Shares under each tranche are deliverable to holders on only the 4th, 5th or 6th anniversary of the grant date if

AMG share price has traded above the applicable share price performance hurdle for 30 consecutive days, *and*

AMG share price is also above the 15% share price performance hurdle on the anniversary date

Any tranche not delivered to the holder by the 6th anniversary date is forfeited without value

Each of the key elements of named executive 2013 compensation is discussed in greater detail in the following sections, and summarized in the following table:

KEY COMPENSATION ELEMENTS

2013 Compensation Elements Base Salary

We pay base salary because it forms the foundation of any competitive total compensation package. In determining base salary levels for our executive officers, the Committee takes into account the executive's scope of responsibility, performance and salary history as well as internal consistency within our salary structure. In addition, the Committee annually reviews the base salary being paid to executive officers of other public companies in the peer universe. Because the Committee believes that equity and performance-based cash compensation should constitute the substantial majority of compensation paid to our named executive officers, we target the level of cash base salary at the median for comparable positions in our peer group. In light of the Committee's philosophy and the factors stated above, the Committee determined that for the ninth year in a row, base salaries would again remain unchanged. For Mr. Healey, base salary and other fixed compensation comprise approximately 5% of his total compensation for 2013.

2013 Compensation Elements Cash Bonus

The Compensation Committee annually sets parameters to guide the end-of-year decision making process regarding the establishment of a cash incentive pool under our Executive Incentive Plan (from which grants are awarded to the Company's officers). The cash incentive pool is determined as a percentage of our Economic net income, as calculated on a pre-tax, pre-compensation basis (our "Adjusted Economic net income"). Our Board of Directors and Compensation Committee utilize Economic net income and Economic earnings per share as the principal metrics for measuring AMG's financial performance as these non-GAAP performance measures provide the best representation of AMG's earnings available to acquire new or existing Affiliate interests, repay outstanding indebtedness, repurchase outstanding equity or pay dividends to shareholders. As compared to GAAP net income and earnings per share, Economic net income and Economic earnings per share primarily adjust for non-cash items resulting from our acquisition of interests in new or existing Affiliates. Economic net income and Economic earnings per share also allow for greater comparability to AMG's peer group because the majority of our peers do not acquire interests in new or existing Affiliates as frequently as does AMG.

For 2013, the Compensation Committee set the cash incentive pool at 2.5% of Adjusted Economic net income, which resulted in an available award pool of \$19.7 million for officers. Although Mr. Healey had a targeted cash bonus of \$5 million which assumed continued excellent execution across the Company's growth strategy the Compensation Committee had the discretion to award a cash bonus ranging from 0% to 100% of the targeted level. Recognizing Mr. Healey's central role in the Company's growth and strategic positioning in 2013, the Compensation Committee determined to award Mr. Healey his targeted cash bonus of \$5 million.

Consistent with the Company's philosophy that compensation be deferred to maintain alignment with stockholder interests, the Compensation Committee further determined that 72% of our executive officers' 2013 incentive compensation, and approximately 74% in the case of Mr. Healey, would be deferred in the form of long-dated equity awards with highly back-ended vesting and distribution provisions a substantial portion of which will be forfeited without any value should rigorous share price growth targets not be achieved. The deferred compensation structures utilized in 2013 are discussed further below.

In determining cash bonus amounts, the Committee also considered a market compensation analysis of our peer universe. Shea & Associates provided our Compensation Committee with our peer group salary, cash incentive bonus and long-term equity and total direct compensation pay data for the prior three years, along with analyses of AMG's historical pay levels relative to the comparators' 25th percentile, median and 75th percentile pay levels. Finally, the independent compensation consultant provided projections of compensation activity across the financial services industry for 2013, based upon survey and financial press data.

2013 Compensation Elements Equity-based Compensation Awards

The substantial majority of each executive's incentive compensation is deferred and provided in the form of equity awards. Of the named executive officers' incentive compensation, 72% was deferred, while 74% of Mr. Healey's incentive compensation was deferred. Each executive was awarded two forms of equity interest in 2013 a Long-Term Deferred Equity Award and a Long-Term Performance Equity Award.

Long-Term Deferred Equity Awards. Designed to reward and incentivize continuing service by our executives over an eight year period (2014-2021), the Long-Term Deferred Equity Awards comprise grants of restricted stock under the Company's Executive Incentive Plan and the 2013 Incentive Stock Award Plan. For Mr. Healey, the award vests ratably (12.5% per year) over that time. The award is further subject to a mandatory holding period, such that the shares that vest during the first four years following the award (2014-2017) may not be sold by the executive until at least 2017.

Long-Term Performance Equity Awards. Designed to align executive compensation with the creation of long-term stockholder value, the Long-Term Performance Equity Awards comprise grants of restricted stock under the Company's 2013 Incentive Stock Award Plan. These awards are subject to service-based vesting over a four-year period, and delivery of shares is further conditioned on rigorous performance hurdles, coupled with sustained share price appreciation. The performance hurdles further tie incentive compensation to achievement of specific milestones that encourage long-term focus over a multi-year period. The 2013 awards are divided into three equal tranches that have share price hurdles of 15%, 25% and 35%, respectively, above the market share price at the time of grant (\$209.41). The hurdle prices for the tranches are \$240.82, \$261.76 and \$282.70, respectively. Shares under each tranche are deliverable to holders on only the 4th, 5th or 6th anniversary of the grant date if the AMG share price has traded above the applicable share price performance hurdle for 30 consecutive days *and* the AMG share price is above the 15% share price performance hurdle on the applicable anniversary date. Any portion of the award that has not met both conditions is forfeited in 2020.

The Committee made its 2013 determinations concerning total equity grants with the assistance of Shea & Associates, based on the analysis of Company performance and compensation and equity ownership levels relative to our peer group and the consultant's projections concerning general executive compensation market trends among the universe of financial institutions who are relevant competitors for executive talent, as well as projected future management ownership levels relative to the Company's growth over multi-year time horizons. The Committee evaluated the application and effectiveness of its compensation philosophy over the longer term, and observed that the Company either led its peer group in stockholder return in the period since its initial public offering, or was in the top quartile of its peer group by that measure, for the ten-, five-, three- and one-year periods.

As noted above, our independent compensation consultant provided our Compensation Committee with comprehensive peer long-term equity and total direct compensation pay data for the prior three years, along with analyses of the Company's historical pay levels relative to the comparators' 25th percentile, median and 75th percentile pay levels. Finally, in its assessments of financial services compensation activity, the independent compensation consultant observed that the size and frequency of full value performance-based/restricted stock and long-term incentive awards would likely increase as many financial institutions continued to pay a larger portion of compensation in the form of equity awards, and that option grants would continue to decline as a compensation tool.

Exhibit 9

Other Incentive and Retention Programs

In 2006, the Committee established the Deferred Compensation Plan to provide additional retirement plan flexibility for our officers. The plan provides officers and directors the opportunity to voluntarily defer compensation on a pre-tax basis, and to notionally invest such deferred amounts in one or more specified measurement funds. In 2013, no executive officer or director elected to defer compensation under the Deferred Compensation Plan.

Other Elements of Compensation

We provide a 401(k) Profit Sharing Plan for all employees and generally contribute a percentage of compensation to such plans. We also provide other benefits such as medical, dental and life insurance and disability coverage to all eligible employees.

Perquisites

Our perquisite compensation is in the lowest quartile of our peer group, as we use only certain perquisite tools (such as medical services and use of Company aircraft) deemed appropriate by the Committee to meet the objectives of retaining key members of senior management, and optimizing the use of their time and services to the Company. In 2011, the Compensation Committee determined to eliminate the financial planning perquisite for senior management. The Company does not provide tax reimbursements for any perquisite.

Severance and Potential Change in Control Compensation and Benefits

We generally do not have employment or individual change in control agreements with our executive officers or directors, and possible changes in control are addressed through the acceleration of vesting of equity.

Upon our change in control, option vesting pursuant to our stock option and incentive plans and the payout of awards under the Executive Incentive Plan, the 2013 Incentive Stock Award Plan (the "2013 Stock Plan") and the Long-Term Equity Interests Plans would be accelerated for our executive officers, as well as for any of our employees participating in such plans. All awards issued after January 1, 2013 are subject to a "double-trigger", requiring a termination of employment without cause or for good reason for accelerated vesting following a change in control.

In the event of our change in control (assuming that, where applicable, the double-trigger has been met), as of December 31, 2013, awards held by named executive officers would have accelerated as set forth below. The market value amounts in the table have been calculated using a share price of \$216.88, which was the closing price of our common stock on December 31, 2013. The market value associated with the acceleration of options has been calculated by using the "spread" value of the options (\$216.88 minus the applicable option exercise price) and multiplying it by the number of shares underlying the option that would accelerate. The value associated with the acceleration of units of profits interests awarded under the Long-Term Equity Interests Plans represents the value of the unvested portion of the award as of December 31, 2013. No amount would have been payable as of December 31, 2013 with respect to the

Long-Term Performance Equity Awards because such awards would continue to be subject to multiple performance-based vesting conditions.

Andrew Dyson	25,000/\$2,930,500	12,721/\$2,758,930	49.77/\$1,741,343
John Kingston, III	25,000/\$3,184,188	9,474/\$2,054,721	34.33/\$1,216,816

In July 2011, Mr. Dyson joined as an Executive Vice President and Head of Global Distribution and entered into an employment agreement with our wholly-owned subsidiary, Affiliated Managers Group Limited (FSA Reference Number 506689). Pursuant to the agreement, Mr. Dyson receives an annual base salary of £214,000 (\$334,889 U.S., using the average daily exchange rate from January 1, 2013 through December 31, 2013 of 1.5649). For one year following his separation from the Company, Mr. Dyson is prohibited from soliciting certain of our employees and from soliciting persons or entities who were clients or prospective clients in the year immediately prior to his termination.

Risk Considerations in our Compensation Programs

The Compensation Committee has discussed the concept of risk as it relates to our compensation programs with management and Shea & Associates. The Compensation Committee does not believe the goals or the underlying philosophy of our compensation programs encourage excessive or inappropriate risk taking, or create risks that are reasonably likely to have a material adverse effect on the Company.

Throughout our compensation structure, compensation is aligned with increases in stockholder value, and therefore our compensation arrangements do not encourage inappropriate risk taking. The executive officers' salaries are fixed in amount, while bonuses are tied to overall corporate performance (since the Committee always retains discretion to pay less than the amount available for payment under our Executive Incentive Plan formula), and a substantial portion of compensation is in the form of long-term equity awards that further align executives' interests with those of the Company's stockholders. These awards do not encourage excessive or inappropriate risk-taking given that the value of the awards is tied to the Company's stock price, and the awards are subject to long-term vesting schedules to help ensure that executives have significant value tied to long-term stock price performance. In addition, to further ensure the alignment of compensation with long-term performance, the Company has adopted a clawback policy that allows for the recoupment of performance-based compensation from executive officers in the event of a material restatement of the Company's financial results due to a material error within three years of the original reporting. In the event of such occurrence, the Board will review the facts and circumstances that led to the restatement, and will take such actions as it deems necessary and appropriate (such as the possible recoupment of incentive compensation of an executive officer).

Equity Ownership Guidelines

We believe that equity ownership guidelines further align the interests of executive officers and directors with those of our stockholders. The enhanced guidelines provide that an executive officer or director should own equity in the amount of: ten times annual base salary (in the case of Mr. Healey); seven times annual base salary (in the case of the other named executive officers); or five times base annual fees for service (in the case of directors). These ownership guidelines are to be met within five years

from the later of the implementation of these guidelines or becoming an executive officer or director of the Company. All executive officers and directors currently satisfy these equity ownership guidelines.

Equity Grant Policy

We grant all equity awards, including options, under the terms of an equity grant policy. Generally, we grant equity awards (other than new hire grants) at regularly scheduled meetings of the Compensation Committee, with new hire grants occurring at other meetings (or by written action of all Committee members) as appropriate.

The Compensation Committee will not approve any equity award grants on any date when it believes, in its reasonable judgment, that there is material non-public information that is reasonably likely to impact the price of our common stock.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended from time to time (the "Code") generally disallows a tax deduction for compensation in excess of \$1 million paid to any "covered employee" of a publicly held corporation (generally the corporation's chief executive officer and its next three most highly compensated executive officers, excluding the chief financial officer, in the year that the compensation is paid) unless such compensation qualifies as performance-based compensation. The Executive Incentive Plan was designed to permit performance-based compensation to be paid to such covered employees. In implementing our compensation programs during fiscal 2013, we considered, among other things, the Executive Incentive Plan and the opportunities it affords to provide awards that are intended to meet the performance-based compensation exception under Section 162(m), as described above.

The Committee considers the availability of a tax deduction as one of many factors considered in designing compensation programs that are intended to attract and retain executive talent and reward our executive officers for their contributions to the success of the Company, which the Committee believes is necessary for our success. As such, the Committee may grant awards that do not qualify for an exemption from the deduction limitations under Section 162(m) or that may otherwise be limited as to tax deductibility.

Compensation Committee Report

The Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on its review and discussions with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

- (1) These amounts represent the cash portion of performance-based compensation awarded pursuant to the Executive Incentive Plan. The bonuses are funded from a cash incentive pool established by the Compensation Committee and comprising a set percentage of Adjusted Economic net income. In determining the bonuses to be awarded from the cash incentive pool, the Compensation Committee considered a variety of factors, as more fully described in the Compensation Discussion and Analysis.
- (2) The grant date fair value of stock options was determined using the Black-Scholes option pricing model based on the assumptions discussed on page 56 of the Company's 2013 Annual Report on Form 10-K *Share-Based Compensation*.
- (3) For 2013, all other compensation consisted of (i) contributions by the Company under its 401(k) Profit Sharing Plan in the amount of \$25,500 on behalf of each of Messrs. Healey, Dalton, Horgen and Kingston, and under its UK pension plan in the amount of \$26,791 on behalf of Mr. Dyson, (ii) medical benefits with respect to each of the named executive officers, (iii) aircraft usage benefits with respect to each of Messrs. Healey, Dalton and Horgen, and (iv) insurance premiums paid by the Company with respect to term life and long-term disability insurance policies on behalf of each named executive officer. The Company does not provide tax reimbursements for any perquisite.

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

Reflects the long-term equity grants described in the Compensation Discussion and Analysis: (i) Long-Term Deferred Equity Awards issued to Messrs. Healey, Dalton, Horgen, Dyson and Kingston with grant date values of \$7,200,000, \$4,220,000, \$5,550,000, \$1,600,000 and \$920,000, respectively, comprised of both restricted stock and cash notionally invested, at the election of the named executive officer, in shares of the Company's common stock at the closing price of the Company's common stock on the grant date, and (ii) Long-Term Performance Equity Awards issued

to Messrs. Healey, Dalton, Horgen, Dyson and Kingston, consisting of restricted stock awards with grant date values of \$7,000,000, \$4,230,000, \$1,300,000, \$1,300,000 and \$930,000, respectively. The Long-Term Performance Equity Awards were divided into three equal tranches, each subject to share price performance hurdles. The number of shares of restricted stock granted in each tranche was determined by dividing the tranche value by the closing price of the Company's common stock on the grant date and multiplying the result by conversion factors of 1.4111, 1.4410 and 1.4917, respectively. These conversion factors were derived by an independent, third party valuation firm (calculated in accordance with FASB ASC Topic 718) using a Monte Carlo simulation with assumptions accounting for the performance requirements and the risk of the award not being earned and distributed if the performance requirements are not met. See page 57 of the Company's 2013 Annual Report on Form 10-K *Share-Based Compensation* for further detail on the assumptions made in such valuation.

- (5) Reflects (i) units of profits interests granted under the 2012 Long-Term Equity Interests Plan, which vest 50% on December 31, 2012 and in 16.67% increments on each of December 31, 2013, 2014 and 2015 and (ii) performance-based awards under the Executive Incentive Plan that were notionally invested, at the election of the named executive officer, in shares of the Company's common stock at the closing price of the Company's common stock on the grant date. As discussed on page 31 of the Company's 2013 Annual Report on Form 10-K *Share-Based Compensation and Affiliate Equity* the fair value of awards under the 2012 Long-Term Equity Interests Plan is determined using a discounted cash flow analysis, with key valuation assumptions being projected assets under management, fee rates and discount rates.
- (6) Reflects units of profits interests granted under the 2011 Long-Term Equity Interests Plan, which vest in 25% increments on each of December 31, 2011, 2012, 2013 and 2014. As discussed on page 31 of the Company's 2013 Annual Report on Form 10-K *Share-Based Compensation and Affiliate Equity* the fair value of these awards is determined using a discounted cash flow analysis, with key valuation assumptions being projected assets under management, fee rates and discount rates.
- (7) As an employee of our wholly-owned subsidiary, Affiliated Managers Group Limited (FSA Reference Number 506689), Mr. Dyson's compensation is denominated in British pounds and was translated to U.S. dollars for this Proxy Statement using the average daily exchange rate from January 1, 2013 through December 31, 2013 of 1.5649 US\$/GBP.

- (1) The 2013 performance-based cash bonus awarded to each named executive officer is set forth under the "Non-Equity Incentive Plan Compensation" column in the Summary Compensation Table. As described more fully in the Compensation Discussion and Analysis, the Compensation Committee considered a variety of factors in determining the bonus amounts to be awarded from the cash incentive pool.
- (2) Reflects Long-Term Deferred Equity Awards issued under the 2013 Stock Plan and Executive Incentive Plan to Messrs. Healey, Dalton, Horgen, Dyson and Kingston, comprised of both restricted stock and cash notionally invested, at the election of the named executive officer, in shares of the Company's common stock at the closing price on the grant date. The notionally invested portion of the award will vest in 25% increments on each of January 2, 2014, 2015, 2016 and 2017 (subject to being employed on such date (with an exception for terminations due to death or disability)) and, to the extent vested, will be settled in January 2017 (such settlement may be made, at the discretion of the Compensation Committee, in shares of the Company's common stock). The restricted stock portion of the award will vest in 25% increments on each of January 2, 2018, 2019, 2020 and 2021 (subject to being employed on such date (with an exception for terminations due to death or disability)), and will be settled upon vesting.
- (3) Reflects Long-Term Performance Equity Awards issued to Messrs. Healey, Dalton, Horgen, Dyson and Kingston under the 2013 Stock Plan. Award values were divided into three equal tranches and converted into a number of shares of restricted stock using the closing price of the Company's common stock on the grant date and conversion factors determined by an independent, third party valuation firm. Each tranche will vest in four equal annual installments on each of January 2, 2015, 2016, 2017 and 2018 (subject to being employed on such date (with an exception for terminations due to death or disability)). In addition, each tranche of the award will only become distributable if the Company's stock price reaches performance hurdles of 15% (\$240.82), 25% (\$261.76) and 35%

(\$282.70), for the first, second and third tranches, respectively, above the closing price of the Company's common stock on the grant date (\$209.41). The stock price appreciation hurdles may be met at any time during the award term, but shares in any tranche will be earned and distributable only on the earliest distribution date (January 2, 2018, 2019 or 2020) upon which each of the following requirements has been satisfied with respect to such tranche: (i) the shares have become time-vested, (ii) the applicable stock price appreciation hurdle has been met for 30 consecutive trading days, and (iii) the closing price of the Company's common stock on the applicable distribution date meets the 15% stock price appreciation hurdle (\$240.82). Any tranche of the award that has not met the above criteria by January 2, 2020 will be forfeited and will have no value.

Director Compensation

At the request of the Compensation Committee, Shea & Associates regularly provides a review of director compensation in the broad peer universe and most comparable peer universe. This analysis includes data on total compensation for directors at such peer companies, as well as on the individual components of that compensation, such as annual retainers, meeting fees and equity awards. Shea & Associates also provides comparative data from time to time on compensation by board position (such as committee chairs and lead directors), and information on the nature of the service of particular directors in their various capacities (e.g., lead directors) at such companies. Shea & Associates also provides information from time to time to the Compensation Committee on trends in director compensation.

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

In determining current compensation levels for the Company's directors, the Compensation Committee's objective is that cash compensation be set at or near the median in comparison to directors at

Edgar Filing: AFFILIATED MANAGERS GROUP, INC. - Form DEF 14A

public companies within our peer universe, while equity compensation linked to stockholder value be higher on a relative basis. The annual fee for service by non-management directors is \$80,000. Directors do not receive quarterly meeting fees. Committee fees are as follows: members of the Audit Committee receive an annual fee of \$20,000, with the Chair receiving an annual fee of \$35,000; members of the Compensation Committee receive an annual fee of \$17,000, with the Chair receiving an annual fee of \$20,000; and members of the Nominating and Governance Committee receive an annual fee of \$13,000, with the Chair receiving an annual fee of \$15,000. The Chair of each Committee receives the annual Chair fee in lieu of the Committee fee. In addition, the lead director receives a fee of \$100,000 for his active role as principal liaison with management of the Company and for his services as the principal contact on our Board of Directors for our stockholders and other interested parties. All directors of the Company are provided information technology and support by the Company and are reimbursed for travel expenses incurred in attending meetings of the Board of Directors and its committees as well as Board related activities.

Equity grant determinations for directors are made consistent with the Compensation Committee's philosophy that compensation should be directly linked to increases in stockholder value. Directors are granted awards, on a semi-annual basis, under the Deferred Compensation Plan, in an aggregate amount of \$80,000. The directors may determine how these awards are invested, and to date, they have elected to invest all awards in the stock unit fund under the Deferred Compensation Plan. The number of stock units subject to each award is determined based on the fair market value of the Company's common stock on the grant date, with each stock unit representing one share of the Company's common stock. Directors also receive semi-annual stock option grants, with an aggregate annual grant date Black Scholes value of \$120,000. Each of these awards is subject to vesting, in 25% increments over four years. This vesting period is longer than the 1-3 year vesting schedules employed by companies in our peer group and across the market more generally.

PROPOSAL 2: ADVISORY VOTE ON EXECUTIVE COMPENSATION

In accordance with the requirements of Section 14A of the Securities Exchange Act of 1934, as amended ("Exchange Act"), we are again providing for a non-binding, advisory vote for stockholders to approve the compensation of our named executive officers as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K.

While this vote is advisory and not binding on the Company, the Board of Directors and the Compensation Committee value the opinions of our stockholders, and will continue to consider the outcome of the vote when making future compensation decisions for our named executive officers.

In considering your vote on the resolution below, please review the Compensation Discussion and Analysis beginning on page 11 of this Proxy Statement. The Compensation Discussion and Analysis describes the Company's executive compensation program and the compensation decisions that the Compensation Committee and Board of Directors made in 2013 with respect to the compensation of our named executive officers.

Our executive compensation program is designed to enable the Company to attract, motivate and retain key persons while, at the same time, creating a close relationship between performance and compensation. In addition, the Company regularly reviews its compensation program and the overall compensation package paid to each of its named executive officers, including through the engagement of an independent compensation consultant, to assess risk and to ensure that the program is structured appropriately in order to obtain the Company's strategic goals.

Approval of the advisory vote on executive compensation requires the affirmative vote of a majority of the shares of common stock cast at the Annual Meeting. Abstentions and broker non-votes will have no effect on this proposal.

Recommendation of the Board of Directors

The Board of Directors unanimously recommends that the Company's stockholders vote **FOR** the approval, on an advisory basis, of the compensation paid to our named executive officers, as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K. Although the vote we are asking you to cast is non-binding, the Compensation Committee and the Board of Directors value the views of our stockholders and will consider, among other factors, the outcome of the vote when determining future compensation arrangements for our named executive officers.

**PROPOSAL 3: RATIFICATION OF THE
SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of the Board of Directors has selected PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the current fiscal year, subject to ratification by the Company's stockholders at the Annual Meeting. PricewaterhouseCoopers has acted as the Company's independent registered public accounting firm since the Company's inception. The Company has been advised by PricewaterhouseCoopers that it is a registered public accounting firm with the Public Company Accounting Oversight Board (the "PCAOB") and complies with the auditing, quality control, and independence standards and rules of the PCAOB and the SEC. A representative of PricewaterhouseCoopers is expected to be present at the Annual Meeting to respond to appropriate questions and to make a statement if he or she so desires.

Although stockholder ratification of the selection of PricewaterhouseCoopers is not required, the Board of Directors is nevertheless submitting the selection of PricewaterhouseCoopers to the stockholders for ratification. Should the selection of PricewaterhouseCoopers not be ratified by the stockholders, the Audit Committee will reconsider the matter. Even in the event the selection of PricewaterhouseCoopers is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change is in the best interests of the Company and its stockholders.

Ratification of the selection of PricewaterhouseCoopers as our independent registered public accounting firm for the current fiscal year requires the affirmative vote of a majority of the shares of common stock cast at the Annual Meeting. Abstentions will have no effect on this proposal.

Recommendation of the Board of Directors

The Board of Directors believes that the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm is in the best interests of the Company and its stockholders and, therefore, unanimously recommends that the Company's stockholders vote **FOR** this proposal.

AUDIT COMMITTEE REPORT

The Audit Committee currently consists of Dr. Rodriguez, Messrs. Churchill and Meyerman, and Ms. Palandjian, each an independent director of the Company, with Dr. Rodriguez serving as the Chair of the Audit Committee.

The Audit Committee's purpose is to assist the Board of Directors in oversight of the Company's internal controls and financial statements and the audit process. The Board of Directors has determined in its business judgment that all members of the Audit Committee are "independent" as is required by the listing standards of NYSE and under the SEC rules.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent registered public accounting firm, PricewaterhouseCoopers LLP, is responsible for performing an independent audit of the consolidated financial statements in accordance with the standards of the PCAOB.

In performing its oversight role, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm the independent registered public accounting firm's independence.

Based on the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to below and in its charter, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including with respect to auditor independence. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent registered public accounting firm. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with the standards of the PCAOB, that the financial statements are presented in accordance with generally accepted accounting principles or that PricewaterhouseCoopers is in fact "independent."

The Audit Committee operates pursuant to a charter that was most recently adopted by the Board of Directors in October 2013 and is available on the Company's website at www.amg.com.

In making its determination regarding the independence of PricewaterhouseCoopers, the Audit Committee considered whether the provision of the services covered in the sections entitled "Audit-Related Fees" and "Tax Fees" was compatible with maintaining such independence. All of the work performed by PricewaterhouseCoopers was performed by full-time employees of the firm.

The appointment of the independent registered public accounting firm to audit the Company's financial statements is approved each year by the Audit Committee. At the beginning of the year, the Audit Committee also evaluates other potential engagements by the Company of the accounting firm and approves or rejects each service considering (among other factors) the possible impact of each non-audit service on the accounting firm's independence from management. In accordance with its charter, the Audit Committee pre-approves all auditing services and the terms thereof and any non-audit services provided by the independent registered public accounting firm unless an exception to such pre-approval exists under the Exchange Act or the rules of the SEC. The Audit Committee carefully considers the fees that are proposed to be paid in connection with the approval of audit and non-audit services, and then closely monitors the fees incurred in connection with the provision of such services throughout the year. At each meeting, the Audit Committee receives updates from management on the services that have been provided and fees incurred; from time to time, the Audit Committee may also consider and approve the provision of additional services. In the event that a need arises for the approval of additional services between meetings, the services would be considered and provisionally approved by a designated member of the Audit Committee who would present the scope and fees of the services provisionally pre-approved at the following meeting of the Audit Committee.
