**AS OF JUNE 30, 2014, AND DECEMBER 31, 2013, AND  
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2014 AND 2013 (UNAUDITED)**

**1. ORGANIZATION AND OPERATIONS**

CIM Commercial Trust Corporation ("CIM Commercial") or together with its wholly-owned subsidiaries, "we," "us" or "our," invests in substantially stabilized real estate assets located in high-population density, high- barrier-to-entry urban markets, which include traditional downtown areas and urban main streets that lie within the metropolitan areas of the United States of America. We also obtain income from the yield and other related fee income earned on our investments from our lending activities, which have principally been to borrowers in the hospitality industry. We were originally organized in 1993 as PMC Commercial Trust ("PMC Commercial"), a Texas real estate investment trust.

On April 28, 2014, PMC Commercial's charter was amended to increase the authorized shares of common stock of PMC Commercial from 100,000,000 to 1,000,000,000 shares (20,000,000 and 200,000,000 after giving effect to the reverse stock split described below) and PMC Commercial changed its state of incorporation (the "Reincorporation") from Texas to Maryland by means of a merger of PMC Commercial with and into a newly formed, wholly-owned subsidiary Maryland corporation. In addition, we changed our name to CIM Commercial Trust Corporation on April 29, 2014. Our common stock ("Common Stock") is currently traded on the NASDAQ Global Market (symbol "CMCT").

On April 28, 2014, we filed Articles of Amendment (the "Reverse Split Amendment") to effectuate a one-for-five reverse stock split of the Common Stock, effective April 29, 2014. Pursuant to the reverse stock split, each five shares of Common Stock issued and outstanding immediately prior to the effective time of the reverse stock split were converted into one (1) share of Common Stock. Fractional shares of Common Stock were not issued as a result of the reverse stock split; instead, holders of pre-split shares of Common Stock who otherwise would have been entitled to receive a fractional share of Common Stock received an amount in cash equal to the product of the fraction of a share multiplied by the closing price of the Common Stock (as adjusted for the one-for-five reverse stock split) on April 28, 2014. In connection with and immediately following the filing of the Reverse Split Amendment, the Company filed Articles of Amendment (the "Par Value Amendment") to decrease the par value of the Common Stock issued and outstanding to \$0.001 per share, effective April 29, 2014, subsequent to the effective time of the Reverse Split Amendment. All per share and outstanding share information has been presented to reflect the reverse stock split.

**2. MERGER**

On July 8, 2013, our predecessor, PMC Commercial, entered into a merger agreement (the "Merger Agreement") with CIM Urban REIT, LLC ("CIM Urban REIT") and subsidiaries of the respective parties. CIM Urban REIT was a private commercial REIT and was the owner of CIM Urban Partners, LP ("CIM Urban"). The transaction (the "Merger") was completed on March 11, 2014 (the "Acquisition Date").

The Merger Agreement provided for a business combination between PMC Commercial and CIM Urban. Pursuant to the Merger Agreement, PMC Commercial issued 4,400,000 shares of Common Stock and 65,028,571 shares of preferred stock. Each share of preferred stock converted into 1.4 shares of Common Stock (as adjusted for the one-for-five reverse stock split) in April 2014, resulting in the

AS OF JUNE 30, 2014, AND DECEMBER 31, 2013, AND

issuance of approximately 91,039,999 shares of Common Stock. This represented approximately 97.8% of PMC Commercial's outstanding stock on the Acquisition Date.

All Common Stock that was outstanding immediately prior to the closing of the Merger remained outstanding following the Acquisition Date. In addition, stockholders of record at the close of the business day prior to the Acquisition Date received a special cash dividend of \$27.50 per share of Common Stock, which was paid on March 25, 2014.

The Merger was accounted for as a reverse acquisition under the acquisition method of accounting with CIM Urban considered to be the accounting acquirer based upon the terms of the Merger Agreement. Based on the determination that CIM Urban was the accounting acquirer in the transaction, CIM Urban allocated the purchase price to the fair value of PMC Commercial's assets and liabilities as of the Acquisition Date.

Accordingly, the accompanying financial statements (1) include the historical financial information for CIM Urban for all periods presented, (2) include the assets and liabilities of PMC Commercial acquired on March 11, 2014 in the consolidated balance sheet as of June 30, 2014 and (3) include the results of PMC Commercial's operations and cash flows in the consolidated statements of operations and comprehensive income and cash flows for the period from the Acquisition Date through June 30, 2014. The equity of CIM Commercial is the historical equity of CIM Urban retroactively restated to reflect the number of shares of stock issued by PMC Commercial pursuant to the Merger Agreement. In connection with the reverse acquisition, for purposes of presenting equity for CIM Commercial, the historical stockholders of PMC Commercial were deemed to have been issued 2,119,244 shares of Common Stock (2,226,509 shares of Common Stock, less 107,265 shares of treasury stock) on the Acquisition Date.

**Consideration Transferred** The fair value of the consideration transferred in the reverse acquisition is determined based on the number of shares of stock the accounting acquirer would have to issue to the stockholders of the accounting acquiree in order to provide the same ratio of ownership in the combined entity following the completion of the Merger, and was determined to be the outstanding stock of PMC Commercial as of the Acquisition Date. The fair value of the consideration transferred was based on the most reliable measure, which was determined to be the market price of PMC Commercial stock as of the Acquisition Date. The computation of the fair value of the consideration transferred, based on the market price of PMC Commercial stock on the Acquisition Date, is as follows:

	(in thousands, except per share data)
PMC Commercial common stock outstanding	2,119
Equity consideration price per share of common stock	\$ 21.05
Fair value of the equity consideration	44,610
Payment in cash special dividend	58,279
Total purchase price	\$ 102,889

**Purchase Price Allocation** As CIM Urban was the accounting acquirer in the business combination, it has allocated the purchase price to PMC Commercial's individually identifiable assets acquired and liabilities assumed based on their estimated fair values on the Acquisition Date. A bargain purchase gain was recorded as of the Acquisition Date in the amount equal to the excess of the fair value of the identifiable net assets acquired over the total purchase price.

**3. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

For more information regarding our significant accounting policies and estimates, please refer to "Summary of Significant Accounting Policies" contained in Note 3 to CIM Urban's consolidated financial statements for the year ended December 31, 2013, included in our Current Report on Form 8-K/A dated May 9, 2014.

**Interim Financial Information** The accompanying interim consolidated financial statements of CIM Commercial have been prepared by our management in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Certain information and note disclosures required for annual financial statements have been condensed or excluded pursuant to Securities and Exchange Commission ("SEC") rules and regulations. Accordingly, the interim consolidated financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements. The accompanying financial information reflects all adjustments which are, in the opinion of our management, of a normal recurring nature and necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods. Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. Our accompanying interim consolidated financial statements should be read in conjunction with CIM Urban's audited consolidated financial statements and the notes thereto, included in our Current Report on Form 8-K/A dated May 9, 2014.

**Principles of Consolidation** The consolidated financial statements include the accounts of CIM Commercial and its subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

**Investments in Real Estate** Real estate acquisitions are recorded at cost as of the acquisition date. Costs related to the acquisition of properties are expensed as incurred. Investments in real estate are stated at depreciated cost. Depreciation and amortization are recorded on a straight line basis over the estimated useful lives as follows:

Buildings and improvements	15 - 40 years
Furniture, fixtures, and equipment	3 - 5 years
Tenant improvements	Shorter of the useful lives or the terms of the related leases

Improvements and replacements are capitalized when they extend the useful life, increase capacity, or improve the efficiency of the asset. Ordinary repairs and maintenance are expensed as incurred.

Investments in real estate are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount to the future net cash

flows, undiscounted and without interest, expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. The estimated fair value of the asset group identified for step two testing is based on either the income approach with market discount rate, terminal capitalization rate and rental rate assumptions being most critical, or on the sales comparison approach to similar properties. Assets to be disposed of are reported at the lower of the carrying amount or fair value, less costs to sell. No impairment of long-lived assets was recognized during the three and six months ended June 30, 2014 and 2013.

**Loans Receivable** We primarily originate loans to small businesses collateralized by first liens on the real estate of the related business. Loans receivable are carried at their unamortized principal balance less unamortized acquisition discounts and loan loss reserves, if applicable, and adjusted for capitalized loan origination costs. For loans originated under the Small Business Administration's (the "SBA") 7(a) Guaranteed Loan Program (the "SBA 7(a) Program") upon sale of the SBA guaranteed portion of the loans which are accounted for as sales, the unguaranteed portion of the loan retained by us is valued on a fair value basis and a discount is recorded as a reduction in basis of the retained portion of the loan.

We have a quarterly review process to identify and evaluate potential exposure to loan losses. Loans that require specific identification review are identified based on one or more negative characteristics including, but not limited to, non-payment or lack of timely payment of principal and/or interest or property taxes or deterioration of the physical property. The specific identification process begins with management's evaluation of the estimated fair value of the loan utilizing the present value of the expected future cash flows discounted at the loan's effective interest rate and/or an estimation of underlying collateral values. The probability of loss is then determined based on various factors including our historical experience with similar borrowers and/or individual borrower or collateral characteristics, and in certain circumstances, the strength of the guarantors. The liquidation probability is then applied to the identified loss exposure to determine the general or specific reserve for that loan.

At the Acquisition Date, the carrying value of our loans was adjusted to estimated fair market value and acquisition discounts of \$33,907,000 were recorded, which is being accreted to interest income using the effective interest method. We will establish a general loan loss reserve when available information indicates that it is probable a loss has occurred based on the carrying value of the portfolio and the amount of the loss can be reasonably estimated. Significant judgment is required in determining the general loan loss reserve, including estimates of the likelihood of default and the estimated fair value of the collateral. The general loan loss reserve includes those loans, which may have negative characteristics which have not yet become known to us. In addition to the reserves established on loans not considered impaired that have been evaluated under a specific evaluation, the general loan loss reserve uses a consistent methodology to determine a loss percentage to be applied to loan balances. These loss percentages are based on many factors, primarily cumulative and recent loss history and general economic conditions.

We recognized interest income and fees for the three and six months ended June 30, 2013, related to a first mortgage note on a hotel located near the Los Angeles Airport ("LAX") of \$0 and \$316,000,

respectively. On October 8, 2013, we submitted the highest bid at a foreclosure auction and took possession of the hotel. The mortgage note investment basis was transferred to the property components at their relative fair values on title transfer.

**Deferred Rent Receivable and Charges** Deferred rent receivable and charges consist of deferred rent, deferred loan costs and deferred leasing costs. Deferred rent receivable is \$50,971,000 and \$49,543,000 at June 30, 2014, and December 31, 2013, respectively. Deferred loan costs, which represent legal and third-party fees incurred in connection with our borrowing activities, are capitalized and amortized to interest expense on a straight line basis over the life of the related loan, approximating the effective interest method. Deferred loan costs of \$6,315,000 and \$5,748,000 are presented net of accumulated amortization of \$4,272,000 and \$3,620,000 at June 30, 2014, and December 31, 2013, respectively. Deferred leasing costs, which represent lease commissions and other direct costs associated with the acquisition of tenants, are capitalized and amortized on a straight line basis over the terms of the related leases. Deferred leasing costs of \$60,368,000 and \$55,826,000 are presented net of accumulated amortization of \$23,423,000 and \$19,891,000 at June 30, 2014, and December 31, 2013, respectively.

**Noncontrolling Interests** Noncontrolling interests represent interests in the various properties not owned by us.

**Consolidation Considerations for Our Investments in Real Estate** Accounting Standards Codification ("ASC") 810-10*Consolidation*, addresses how a business enterprise should evaluate whether it has a controlling interest in an entity through means other than voting rights that would require the entity to be consolidated. We analyze our investments in real estate in accordance with this accounting standard to determine whether they are variable interest entities, and if so, whether we are the primary beneficiary. Our judgment with respect to our level of influence or control over an entity and whether we are the primary beneficiary of a variable interest entity involves consideration of various factors, including the form of our ownership interest, our voting interest, the size of our investment (including loans), and our ability to participate in major policy-making decisions. Our ability to correctly assess our influence or control over an entity affects the presentation of these investments in our consolidated financial statements.

**Use of Estimates** The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Reclassifications** Certain prior-period amounts have been reclassified to conform with the current-period presentation. For the three and six months ended June 30, 2013, hotel revenues of \$10,555,000 and \$20,132,000, respectively, have been reclassified to rental and other property income, other income of \$1,266,000 and \$1,640,000, respectively, has been reclassified to interest and other

income, and hotel operating expenses of \$7,042,000 and \$13,481,000, respectively, have been reclassified to rental and other property operating expenses.

**Recently Issued Accounting Pronouncements** In April 2014, the Financial Accounting Standards Board ("the FASB") issued Accounting Standards Update ("ASU") No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360). Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, which amends the definition of a discontinued operation and requires entities to provide additional disclosures about disposal transactions that do not meet the discontinued-operations criteria. The revised guidance is effective prospectively to all disposals (or classifications as held for sale) that occur in annual periods (and interim periods therein) beginning on or after December 15, 2014, with early adoption permitted. Entities are prohibited from applying the new ASU to any component, equity method investment, or acquired business that is classified as held for sale before the adoption date. We early adopted this guidance during the second quarter of 2014, and the adoption did not have a material impact on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including the guidance on real estate de-recognition for most transactions. For public entities, the ASU is effective for annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2016. Early application is not permitted. Entities have the option of using either a full retrospective or a modified approach to adopt the guidance in the ASU. The modified approach provides entities relief from having to restate and present comparable prior-year financial statement information; however, entities will still need to evaluate existing contracts as of the date of initial adoption under the ASU to determine whether a cumulative adjustment is necessary. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements.

**4. ACQUISITIONS**

The fair value of real estate acquired is recorded to (1) the acquired tangible assets, consisting of land; land improvements; building and improvements; furniture, fixtures, and equipment; tenant improvements; and (2) identified intangible assets and liabilities, consisting of the value of above- and below-market leases and the value of in-place leases and tenant relationships, if any, based in each case on their respective fair values. Loan premiums, in the case of above-market rate loans, or loan discounts, in the case of below-market rate loans, are recorded based on the fair value of any loans assumed in connection with acquiring the real estate. Above-market ground leases are recorded based on the respective fair value of the ground leases.

**4. ACQUISITIONS (Continued)**

During the six months ended June 30, 2014, we acquired a 100% fee-simple interest in an office building located in Los Angeles from an unrelated third party. Built in 1984, the building has approximately 143,000 square feet of rentable space and is located in the Mid-Wilshire submarket of Los Angeles. The acquisition was funded with proceeds from a drawdown on one of CIM Urban's unsecured credit facilities.

4750 Wilshire Blvd., Los Angeles, CA	Office	April 18, 2014	1	143,000	\$ 44,936

The results of the operations of the property acquired have been included in the consolidated statements of operations from the date of acquisition. The fair value of the assets acquired and liabilities assumed for the above-noted acquisition during the six months ended June 30, 2014 are as follows:

	2014 Acquisition (in thousands)
Land	\$ 16,633
Land improvements	348
Building and improvements	27,947
Tenant improvements	691
Acquired in-place leases(1)	1,087
Acquired below-market leases(2)	(1,770)
<b>Net assets acquired</b>	<b>\$ 44,936</b>

---

(1) In-place leases have a weighted average amortization period of 5.0 years.

(2) Below-market leases have a weighted average amortization period of 5.0 years.

Acquisition related expenses of \$32,000 associated with the acquisition of real estate in 2014 were expensed as incurred during the six months ended June 30, 2014, respectively. No acquisitions of real estate were made during the six months ended June 30, 2013.

**Loan Portfolio Classification** Management closely monitors our loans which require evaluation for loan loss reserves based on specific identification metrics which are classified into three categories: Doubtful, Substandard and Other Assets Especially Mentioned ("OAEM"). Loans classified as Doubtful are generally loans which are not complying with their contractual terms, the collection of the balance of the principal is considered impaired and on which the fair value of the collateral is less than the remaining unamortized principal balance. These loans are typically placed on non-accrual status and are generally in the foreclosure process. Loans classified as Substandard are generally those loans that are either not complying or had previously not complied with their contractual terms and have other credit weaknesses which may make payment default or principal exposure likely but not yet certain. Loans classified as OAEM are generally loans for which the credit quality of the borrowers has temporarily deteriorated. Typically, the borrowers are current on their payments; however, they may be delinquent on their property taxes, insurance, or franchise fees or may be under agreements which provide for interest only payments during a short period of time.

Management has classified our Loans Receivable Subject to Credit Risk as follows:

**8. DEBT (Continued)**

The mortgages payable are secured by deeds of trust on certain of the properties and assignments of rents.

Secured borrowings represent sold SBA 7(a) Program loans which are treated as secured borrowings since the loan sales did not meet the derecognition criteria provided for in ASC 860-30, *Transfers and Servicing*. Principal payments are dependent upon cash flows received from the underlying loans. No payment is due unless payments are received from the borrowers on the underlying loans.

CIM Commercial's \$20,000,000 term note and \$25,000,000 unsecured revolving line of credit have covenants including a covenant requiring an asset coverage test (eligible loans receivable) for balances outstanding under its revolving credit facility of 3.00 times. To the extent the term note is repaid, credit availability under the revolving credit facility will increase to \$40,000,000. As of June 30, 2014, \$24,300,000 was available for future borrowing.

In February 2012, CIM Urban entered into an unsecured revolving line of credit with a bank syndicate, which allows for maximum borrowings of \$100,000,000. Borrowings under the line of credit are limited by certain borrowing base calculations. Outstanding advances under the line of credit bore interest at the base rate, as defined, plus 0.75% to 1.50% or LIBOR plus 1.75% to 2.50%, depending on the maximum consolidated leverage ratio, as defined, until August 2013. In August 2013, the unsecured revolving line was amended, and outstanding advances under the line bear interest at the base rate, as defined, plus 0.25% to 0.85% or LIBOR plus 1.25% to 1.85%, depending on the maximum consolidated leverage ratio, as defined. The line of credit is also subject to an unused commitment fee of 0.25% or 0.35% depending on the amount of aggregate unused commitments. The line of credit matures in February 2016, with a one-year extension option under certain conditions. As of both June 30, 2014, and December 31, 2013, \$100,000,000 was outstanding under the line of credit, and \$0, was available for future borrowings.

In August 2013, CIM Urban entered into another unsecured revolving credit facility with a syndicate of banks. The credit facility provides an additional \$125,000,000 of borrowing capacity that was increased to \$150,000,000. CIM Urban amended the facility in April 2014 to further increase the maximum aggregate borrowing capacity under the revolving credit facility to \$200,000,000. Borrowings under the revolving credit facility are limited by certain borrowing base calculations. Outstanding advances under the revolving credit facility bear interest at the base rate, as defined, plus 0.25% to 0.85% or LIBOR plus 1.25% to 1.85%, depending on the maximum consolidated leverage ratio, as defined. The revolving credit facility is also subject to an unused commitment fee of 0.25% or 0.35% depending on the amount of aggregate unused commitments. The revolving credit facility originally matured in February 2014, and was recently extended to October 10, 2014. As of June 30, 2014, and December 31, 2013, \$188,000,000 and \$64,000,000, respectively, was outstanding under the revolving credit facility, and \$12,000,000 and \$61,000,000, respectively, was available for future borrowings.

At June 30, 2014 and December 31, 2013, CIM Commercial and CIM Urban were either in compliance with all of their respective financial covenants or had obtained waivers from the relevant lenders with respect to such compliance.

We are currently in negotiations with two banks, as joint lead arrangers, to finalize an unsecured term loan and a revolving credit facility of \$550,000,000, with an accordion feature which would

increase the maximum aggregate facilities to \$850,000,000. We intend to use the proceeds of these new facilities to repay all of our outstanding term and revolving credit facilities. We expect to close the new term loan and revolving credit facilities by the end of the third quarter of 2014. However, there can be no assurance that our negotiation of the new term and revolving credit facilities will be successful or that the closing of these new facilities will occur in the time frame described above. In addition, if the new term and revolving credit facilities fail to close for any reason or closing is delayed substantially beyond the time frame described above, there can be no assurances we will be able to successfully negotiate an extension of our existing credit facilities or any increased maximum availability. However, we believe other financing sources would be available to us.

At June 30, 2014, and December 31, 2013, accrued interest and unused commitment fee payable of \$1,155,000 and \$1,017,000, respectively, is included in accounts payable and accrued expenses.

Future principal payments on our debt (face value) at June 30, 2014 are as follows:

(1) Principal payments are generally dependent upon cash flows received from the underlying loans. Our estimate of their repayment is based on scheduled principal payments on the underlying loans. Our estimate will differ from actual amounts to the extent we experience prepayments and/or loan liquidations or charge-offs. No payment is due unless payments are received from the borrowers on the underlying loans.

(2) Represents the revolving credit facility, term note, junior subordinated notes, and unsecured revolving lines of credit.

**9. STOCK-BASED COMPENSATION PLANS**

As of the Acquisition Date, we had 19,700 options outstanding under stock-based compensation plans. The options are fully vested, and were repriced as of the Acquisition Date. Of these options, 14,500 were exercised during the six months ended June 30, 2014 for proceeds of approximately \$201,000.

**9. STOCK-BASED COMPENSATION PLANS (Continued)**

We granted 11,850 options on June 12, 2014 at an exercise price of \$23.16 (the closing price of our Common Stock on such date). The fair value of these options was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

**Assumptions**

Expected term (years)	3.0
Risk-free interest rate	0.94%
Expected dividend yield	3.78%
Expected volatility	9.37%
Expected forfeiture rate	1.0%

The expected term of the options granted represents the period of time that the options are expected to be outstanding and was based on historical data. The risk-free rate was based on the three-year U.S. Treasury rate corresponding to the expected term of the options. We used historical information to determine our expected volatility and forfeiture rate. We recorded compensation expense of \$8,000 during the three and six months ended June 30, 2014 related to this option grant.

On April 28, 2014, our stockholders approved the First Amendment to the PMC Commercial Trust 2005 Equity Incentive Plan (the "Plan Amendment") to increase the aggregate number of shares of Common Stock thereunder from 100,000 to 300,000 shares and increase the annual limitation on restricted Common Stock grants to all independent directors in the aggregate to 100,000 restricted shares of Common Stock and to each executive officer to no more than 4,000 restricted shares of Common Stock during any fiscal year. On March 11, 2014, we granted Common Stock awards of 2,000 restricted shares of Common Stock to each of the independent members of the board of directors (the "Board of Directors") (6,000 in aggregate) which awards were effective upon the receipt of stockholder approval of the Plan Amendment. The shares of Common Stock vest based on a year of continuous service. Compensation expense related to these restricted shares of Common Stock is being recognized over the vesting period. We recorded compensation expense of \$31,000 during the three and six months ended June 30, 2014 related to these restricted shares of Common Stock.

We issued an aggregate of 2,000 restricted shares of Common Stock to two of our executive officers on May 6, 2014. The restricted shares of Common Stock vest based on two years of continuous service with one-third of the shares of Common Stock vesting immediately upon issuance and one-third vesting at the end of each of the next two years. Compensation expense related to these restricted shares of Common Stock is being recognized over the vesting period. We recognized compensation expense of \$19,000 during the three and six months ended June 30, 2014 related to these restricted shares of Common Stock.

In accordance with the employment agreements of two of our executive officers, to the extent the executive is employed by us on January 1, 2016 and such executive is not entitled to any disability, death or severance payments, the executive would be awarded restricted shares of Common Stock as a retention bonus which would vest immediately upon grant. In aggregate, the executive officers would receive 105,000 Common Stock awards. We recorded compensation expense of \$315,000 during the three and six months ended June 30, 2014 related to these Common Stock awards.

As of June 30, 2014, there was \$2,017,000 of total unrecognized compensation expense related to shares of Common Stock which will be recognized over the next two years.

**10. EARNINGS PER SHARE ("EPS")**

The computations of basic EPS are based on our weighted average shares outstanding. During the three and six months ended June 30, 2014, the weighted average shares outstanding were increased by 5,000 and 6,000 shares, respectively, to reflect the dilutive effect of stock options. Not included in the computation of diluted EPS were outstanding options to purchase 11,850 shares of Common Stock during the three and six months ended June 30, 2014, because the options' exercise prices were greater than the average market price of the shares.

For purposes of calculating basic EPS for the three and six months ended June 30, 2013, the 65,028,571 shares of preferred stock issued in connection with the Merger have been assumed to have been converted into 91,039,999 shares of Common Stock. As of the Acquisition Date, a subsidiary of CIM Urban REIT had agreed to vote its 97.8% post-Merger ownership of CIM Commercial in favor of an increase in the number of authorized CIM Commercial shares of Common Stock to one billion, thereby satisfying the condition for the automatic conversion of these shares. The actual conversion of the shares of preferred stock to shares of Common Stock occurred on April 29, 2014.

**11. DIVIDENDS DECLARED**

CIM Urban declared distributions to its partners of \$16,100,000 prior to the Acquisition Date (\$0.1685 per share of Common Stock, as converted). In addition, dividends of \$59,286,000 (\$27.975 per share of Common Stock) were paid to the PMC Commercial stockholders, which includes the \$27.50 per share of Common Stock special dividend plus the \$0.475 pro rata portion of PMC Commercial's regular quarterly cash dividend.

On March 24, 2014, we declared a common share dividend of \$0.05 per share of Common Stock and a preferred dividend of \$0.0403 per share of preferred stock (\$0.0285 per share of Common Stock as converted) which were paid on March 28, 2014.

On April 28, 2014, we declared a dividend in the aggregate amount of \$1,964,000 to the preferred stockholders (\$0.0302 per share of preferred stock and \$0.0215 per share of Common Stock, as converted) in connection with the conversion of shares of preferred stock to shares of Common Stock, which was paid on June 27, 2014.

On June 12, 2014, we declared a common share dividend of \$0.21875 per share of Common Stock which was paid on June 27, 2014.

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2014 AND 2013 (UNAUDITED)****12. FAIR VALUE OF FINANCIAL INSTRUMENTS**

A fair value measurement is based on the assumptions that market participants would use in pricing an asset or liability. The hierarchy for inputs used in measuring fair value is as follows:

*Level 1 Inputs* Quoted prices in active markets for identical assets or liabilities

*Level 2 Inputs* Observable inputs other than quoted prices in active markets for identical assets and liabilities

*Level 3 Inputs* Unobservable inputs

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

The estimated fair values of those financial instruments which are not recorded at fair value on a recurring basis on our consolidated balance sheets were as follows:

	June 30, 2014		December 31, 2013		Level
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value	
(in thousands)					
<b>Assets:</b>					
Loans Receivable Subject to Credit Risk	\$ 153,254	\$ 153,362	\$	\$	3
SBA 7(a) loans receivable, subject to secured borrowings	40,065	40,302			3
<b>Liabilities:</b>					
Secured borrowings government guaranteed loans	40,234	40,234			3
Unsecured revolving lines of credit and revolving facility	288,700	288,700	164,000	164,000	3
Term note	20,000	20,000			3
Junior subordinated notes	24,871	24,871			3
Mortgages payable	227,498	234,292	231,105	231,250	3

Management's estimation of the fair value of our financial instruments is based on a Level 3 valuation in the fair value hierarchy established for disclosure of how a company values its financial instruments. In general, quoted market prices from active markets for the identical financial instrument (Level 1 inputs), if available, should be used to value a financial instrument. If quoted prices are not available for the identical financial instrument, then a determination should be made if Level 2 inputs are available. Level 2 inputs include quoted prices for similar financial instruments in active markets for identical or similar financial instruments in markets that are not active (i.e., markets in which there are few transactions for the financial instruments, the prices are not current, price quotations vary substantially, or in which little information is released publicly). There is limited reliable market information for our financial instruments and we utilize other methodologies for valuation purposes.

**12. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)**

since there are no Level 1 or Level 2 determinations available. Accordingly, Level 3 inputs are used to measure fair value.

In general, estimates of fair value may differ from the carrying amounts of the financial assets and liabilities primarily as a result of the effects of discounting future cash flows. Considerable judgment is required to interpret market data and develop estimates of fair value. Accordingly, the estimates presented may not be indicative of the amounts we could realize in a current market exchange.

**Loans Receivable Subject to Credit Risk** Loans receivable were initially recorded at estimated fair value at the Acquisition Date. Loans receivable originated subsequent to the Acquisition Date are recorded at cost upon origination and adjusted by net loan origination fees and discounts. In order to determine the estimated fair value of our loans receivable, we use a present value technique for the anticipated future cash flows using certain assumptions including discount rates ranging from 8.50% to 15.00%, prepayment speeds of 15.00% and potential credit deterioration ranging from 0% to 1.50%. Significant increases (decreases) in any of these inputs in isolation would result in significantly lower (higher) fair value measurements. In the absence of a readily ascertainable market value, the estimated value of our loans receivable will differ from the values that would be placed on the portfolio if a ready market for the loans receivable existed.

**SBA 7(a) loans receivable, subject to secured borrowings** Represents the government guaranteed portion of loans which were sold with the proceeds received from the sale reflected as a liability on our consolidated balance sheet. There is no credit risk associated with these loans since the SBA has guaranteed payment of the principal. In order to determine the estimated fair value of these loans receivable, we use a present value technique for the anticipated future cash flows taking into consideration the lack of credit risk using a prepayment rate of 15.00%.

**Junior subordinated notes** The fair value of the junior subordinated notes is estimated based on a current interest rates available for debt instruments with similar terms. Discounted cash flow analysis is generally used to estimate the fair value of our junior subordinated notes. The rate used was 3.83% at June 30, 2014.

**Secured borrowings government guaranteed loans** The fair value of secured borrowings government guaranteed loans approximates current market interest rates. Includes the unamortized deferred cash premiums collected on the sale of the government guaranteed portions of the related loans.

**Revolving credit facility, unsecured revolving lines of credit and term note** The carrying amount is a reasonable estimation of fair value as the interest rate on the revolving credit facility and revolving lines of credit are variable and are at a current market interest rate. In addition, the term note and revolving credit facility are short-term.

**Mortgage notes payable** The fair values of mortgage notes are estimated based on current interest rates available for debt instruments with similar terms. The fair value of our mortgages payable is sensitive to fluctuations in interest rates. Discounted cash flow analysis is generally used to estimate

CIM Urban REIT Management, LP (the "Management Company"), an affiliate of CIM Urban REIT, provides asset management services to CIM Urban. For these services, CIM Urban pays asset management fees to the Management Company, on a quarterly basis, in arrears. The fee is calculated as a percentage of the daily average gross fair value of our investments, as defined, as follows:

Daily Average Gross Fair Value of CIM Urban' Investments		Quarterly Fee Percentage	
From Greater of	To and Including

The Management Company earned asset management fees of \$5,798,000 and \$5,431,000 for the three months ended June 30, 2014 and 2013, respectively and \$11,479,000 and \$10,840,000 for the six months ended June 30, 2014 and 2013, respectively. At June 30, 2014, and December 31, 2013, asset management fees of \$5,898,000 and \$5,426,000, respectively, were due to the Management Company.

CIM Management, Inc. and certain of its affiliates (collectively, the "CIM Management Entities"), all affiliates of CIM Urban REIT, provide property management, leasing, and development services to CIM Urban. The CIM Management Entities earned property management fees, which are included in rental and other property operating expenses, totaling \$1,272,000 and \$1,215,000 for the three months ended June 30, 2014 and 2013, respectively and \$2,531,000 and \$2,362,000 for the six months ended June 30, 2014 and 2013, respectively. CIM Urban also reimbursed the CIM Management Entities \$1,749,000 and \$955,000 during the three months ended June 30, 2014 and 2013, respectively and \$3,793,000 and \$2,344,000 during the six months ended June 30, 2014 and 2013, respectively, for the cost of on-site personnel incurred on behalf of CIM Urban, which is included in rental and other property operating expenses. The CIM Management Entities earned leasing commissions of \$839,000 and \$11,000 for the three months ended June 30, 2014 and 2013, respectively and \$1,351,000 and \$297,000 for the six months ended June 30, 2014 and 2013, respectively, which were capitalized to deferred charges. In addition, the CIM Management Entities earned development management fees of \$157,000 and \$158,000 for the three months ended June 30, 2014 and 2013, respectively and \$244,000 and \$294,000 for the six months ended June 30, 2014 and 2013, respectively, which were capitalized to investments in real estate.

At June 30, 2014 and December 31, 2013, fees payable and expense reimbursements due to the CIM Management Entities of \$2,408,000 and \$1,445,000, respectively, are included in due to related parties. Also included in due to related parties as of June 30, 2014, and December 31, 2013, is

\$(12,000) and \$(64,000), respectively, due to (from) the CIM Management Entities and related parties. We have also entered into contracts with third-party property management companies.

Certain of these management companies also provide leasing and development management services, for which they are compensated in accordance with the agreements. Management fees incurred to third-party management companies related to the rental properties totaled \$419,000 and \$344,000 for the three months ended June 30, 2014 and 2013, respectively and \$811,000 and \$672,000 for the six months ended June 30, 2014 and 2013, respectively, which were included in rental and other property operating expenses.

On the Acquisition Date, pursuant to the terms of the Merger Agreement, CIM Commercial and its lending subsidiaries entered into the Master Services Agreement (the "Master Services Agreement") with CIM Service Provider, LLC (the "Manager") pursuant to which the Manager agrees to provide or arrange for other service providers to provide management and administration services to CIM Commercial and its subsidiaries following the Merger. Pursuant to the Master Services Agreement, CIM Commercial pays a base service fee (the "Base Service Fee") to the Manager equal to \$1,000,000 per year (subject to an annual escalation by a specified inflation factor beginning on January 1, 2015), payable quarterly in arrears. The Base Service Fee began to accrue on the Acquisition Date and was pro-rated based on the number of days during the first quarter in which the Master Services Agreement was in effect. For the three and six months ended June 30, 2014, the Manager earned a Base Service Fee of \$250,000 and \$306,000, respectively. In addition, pursuant to the terms of the Master Services Agreement, the Manager may receive compensation for performing certain services for CIM Commercial and its subsidiaries that are not covered under the Base Service Fee. During the six months ended June 30, 2014, such services performed by the Manager included accounting, tax, reporting, internal audit, legal, compliance, risk management, IT, human resources and corporate communications. The Manager's compensation is based on the salaries and benefits of the employees of the Manager and/or its affiliates who performed these services (allocated based on the percentage of time spent on the affairs of CIM Commercial and its subsidiaries). For the three and six months ended June 30, 2014, we expensed \$290,000 for such services. At June 30, 2014, \$596,000 was due to the Manager.

**14. COMMITMENTS AND CONTINGENCIES**

**Loan Commitments** Commitments to extend credit are agreements to lend to a customer provided the terms established in the contract are met. Our outstanding loan commitments and approvals to fund loans were \$26,200,000 at June 30, 2014, the majority of which were for prime-based loans to be originated by our SBA 7(a) subsidiary, the government guaranteed portion of which is intended to be sold. Commitments generally have fixed expiration dates. Since some commitments are expected to expire without being drawn upon, total commitment amounts do not necessarily represent future cash requirements.

**General** In connection with the ownership and operation of real estate properties, we have certain obligations for the payment of tenant improvement allowances and lease commissions in connection with new leases and renewals.

**Employment Agreements** We have employment agreements with two of our executive officers. Under certain circumstances, as defined within the agreements, the agreements provide for (1) severance compensation or change in control payments to the executive officer in an amount equal to 2.99 times the average of the last three years annual compensation paid to the executive officer and (2) death and disability payments in an amount equal to two times and one time, respectively, the annual salary paid to the executive officer. In addition, to the extent the executive is employed by us on January 1, 2016 and such executive is not entitled to any disability, death or severance payments, the executive would receive restricted share awards as a retention bonus which would vest immediately upon grant. In aggregate, the executive officers would receive 105,000 share awards.

**Litigation** REIT Redux, L.P. et al v. CIM Commercial, et al. On October 9, 2013, a putative class action and derivative lawsuit was filed in the Dallas County Court at Law No. 5 in Dallas County, Texas against and purportedly on behalf of CIM Commercial. The plaintiffs alleged, among other things, that the CIM Commercial board breached its fiduciary duties by approving and recommending the merger to the shareholders, failing to maximize value for the shareholders, engaging in bad faith and self-dealing by preferring transactions that further enriched the trust managers at the expense of the shareholders and conspiring to deprive the shareholders of their voting power and prerogatives. The complaint alleged that CIM Urban REIT aided, abetted and induced those breaches of fiduciary duty.

CIM Commercial and CIM Urban REIT entered into various agreements with the plaintiffs to settle their claims, which agreements were effective as of January 28, 2014 and were approved by the court on April 4, 2014 (the "Settlement Agreement"). Under the terms of the Settlement Agreement, the Manager entered into a trading plan (the "Trading Plan") designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934 to provide for the purchase of up to 550,000 shares of CIM Commercial Common Stock at prices up to \$25.00 per share. The Trading Plan commenced on March 12, 2014 and will, in general, expire on the date that 550,000 shares of CIM Commercial Common Stock have been purchased or August 10, 2014, whichever is earlier. Pursuant to the Trading Plan, which expires on August 10, 2014, the Manager acquired approximately 248,000 shares of Common Stock through July 31, 2014. Additionally, CIM Commercial agreed to be responsible for providing and administering notice of the class action settlement to the members of the settlement class and pay for all reasonable costs incurred in providing such notice. As a result of the settlement, CIM Commercial agreed to payment of attorney's fees and expenses of plaintiffs' counsel of \$772,000. In addition, pursuant to the terms of the Settlement Agreement, the Manager agreed to purchase up to 100,000 shares of CIM Commercial Common Stock owned by REIT Redux and its other "reporting persons", at a price of \$25.00 per share, if requested by REIT Redux to do so at any time from July 10, 2014 until August 10, 2014. Pursuant to the request of REIT Redux, the Manager expects to complete the acquisition of the 100,000 shares in August 2014.

We are not currently involved in any other material litigation nor, to our knowledge, is any material litigation currently threatened against us, other than routine litigation arising in the ordinary course of business, most of which is expected to be covered by liability insurance. In the normal course of business we are periodically party to certain legal actions and proceedings involving matters that are generally incidental to our business. proceedings will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

**SBA Related** If the SBA establishes that a loss on an SBA guaranteed loan is attributable to significant technical deficiencies in the manner in which the loan was originated, funded or serviced under the SBA 7(a) Program, the SBA may seek recovery of the principal loss related to the deficiency from us. With respect to the guaranteed portion of SBA loans that have been sold, the SBA will first honor its guarantee and then seek compensation from us in the event that a loss is deemed to be attributable to technical deficiencies. Based on historical experience, we do not expect that this contingency is probable to be asserted. However, if asserted, it could have a material adverse effect on our consolidated financial position, results of operations or cash flows.

**Environmental Matters** In connection with the ownership and operation of real estate properties, we may be potentially liable for costs and damages related to environmental matters, including asbestos-containing materials. We have not been notified by any governmental authority of any noncompliance, liability, or other claim in connection with any of the properties, and we are not aware of any other environmental condition with respect to any of the properties that management believes will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

**Rent Expense** The ground lease for a project provides for current annual rent of \$437,000, payable quarterly, with increases on June 1, 2015, and every five years thereafter based on the greater of 15% or 50% of the increase in the Consumer Price Index during a five-year adjustment period. In addition, commencing on June 1, 2040 and June 1, 2065, the rent payable during the balance of the lease term shall be increased by an amount equal to 10% of the rent payable during the immediately preceding lease year. The lease term is through May 31, 2089. If the landlord decides to sell the leased property, we have the right of first refusal.

Rent expense under this lease, which includes straight line rent and amortization of acquired below-market ground lease, was \$438,000 for the three months ended June 30, 2014 and 2013, respectively and \$876,000 for the six months ended June 30, 2014 and 2013, respectively. We record rent expense on a straight line basis. Straight line rent liability of \$10,450,000 and \$9,863,000 is included in other liabilities in the accompanying consolidated balance sheets as of June 30, 2014 and December 31, 2013, respectively.

We lease office space in Dallas, Texas under a lease which expires in May 2018. For the three and six months ended June 30, 2014, rent expense under the lease was \$49,000 and \$65,000, respectively. Straight line rent liability of \$33,000 is included in other liabilities in the accompanying consolidated balance sheet as of June 30, 2014.

In addition, at June 30, 2014, 12.7% of our loans were collateralized by properties in Texas and 10.5% of our loans were collateralized by properties in Virginia. No other state had a concentration of 10.0% or greater of our loans receivable at June 30, 2014.

**17. SEGMENT DISCLOSURE**

In accordance with ASC Topic 280, *Segment Reporting*, our reportable segments consist of three types of commercial real estate properties, namely, office properties, hotel properties (which included an investment in a note receivable secured by a hotel property during the three and six months ended June 30, 2013) and multifamily properties, as well as a segment for our lending operations. Management internally evaluates the operating performance and financial results of the segments based on net operating income. We also have certain general and administrative level activities, including public company expenses, legal, accounting, tax preparation, that are not considered separate operating segments. The

**EXECUTIVE SUMMARY**

**The Merger**

On July 8, 2013, our predecessor, PMC Commercial, entered into the Merger Agreement with CIM Urban REIT and subsidiaries of the respective parties. The Merger Agreement provided for the business combination of CIM Urban REIT's wholly owned subsidiary, CIM Urban and PMC Commercial. Pursuant to the Merger Agreement, an affiliate of CIM Urban REIT received approximately 4.4 million shares of newly-issued PMC Commercial Common Stock and approximately 65.0 million shares of newly-issued PMC Commercial preferred stock. Following the Merger and subsequent increase in our authorized number of shares, each share of preferred stock was converted into 1.4 shares of PMC Commercial Common Stock, resulting in the issuance of approximately 95.4 million shares of Common Stock in the aggregate in connection with the Merger, representing approximately 97.8% of PMC Commercial's outstanding shares of Common Stock. All shares of PMC Commercial Common Stock that were outstanding immediately prior to the Merger continue to remain outstanding following the Merger. In addition, stockholders of record of PMC Commercial at the close of the business day prior to the Acquisition Date received a special cash dividend of \$27.50 per share of Common Stock plus that pro-rata portion of PMC Commercial's regular quarterly cash dividend

accrued through the Acquisition Date, each of which was paid March 25, 2014. The Merger was completed on March 11, 2014. Upon completion of the Merger, PMC Commercial became the parent of CIM Urban, previously the operating subsidiary of CIM Urban REIT. PMC Commercial reincorporated from Texas to Maryland on April 28, 2014 and, on the same day, changed its name from "PMC Commercial Trust" to "CIM Commercial Trust Corporation".

The Merger was accounted for as a reverse acquisition under the acquisition method of accounting with CIM Urban considered to be the accounting acquirer based upon the terms of the Merger Agreement. Accordingly, the acquired assets and liabilities of PMC Commercial acquired on March 11, 2014 are included in the consolidated balance sheet as of June 30, 2014 and the results of its operations and cash flows are included in the consolidated statements of operations and comprehensive income and cash flows for the period from the Acquisition Date through June 30, 2014.

### **Business Overview**

Our principal business is to acquire and manage substantially stabilized real estate holdings located in areas that our manager has targeted for investments. These areas include traditional downtown areas and suburban main streets, which have high barriers to entry, high population density, improving demographic trends and a propensity for growth. We believe that the critical mass of redevelopment in such areas creates positive externalities, which enhance the value of substantially stabilized assets in the area. We believe that these assets will provide greater returns than similar assets in other markets, as a result of the improving demographics, public commitment, and significant private investment that characterize these areas.

Our real estate business is managed by an affiliate of CIM Group, Inc. ("CIM"). CIM is an integrated, full-service real estate and infrastructure fund manager with multi-disciplinary expertise and in-house research, acquisition, investment, development, finance, leasing, and management capabilities. CIM is headquartered in Los Angeles and has offices in Oakland, California; Bethesda, Maryland; and New York, New York.

We seek attractive risk-adjusted returns by exploiting the power of the CIM platform. Over time, we seek to expand our real estate holdings in communities targeted by CIM for investment, supported by CIM's broad real estate investment capabilities, as part of our plan to prudently grow market value and earnings.

### **Properties**

As of June 30, 2014, CIM Urban's investments consisted of (i) 20 office properties comprising approximately 5.5 million rentable square feet, (ii) five multifamily properties comprising 930 units, (iii) three hotels comprising 1,070 rooms, (iv) three parking garages, two of which have street level retail space, and (v) one development site.

### **Strategy**

CIM's community qualification process serves as the foundation for our investment strategy. CIM targets high barrier-to-entry markets and submarkets with high population density and applies rigorous research to qualify for potential investments. Since 1994, CIM has qualified 95 communities in high barrier-to-entry markets and has deployed capital in 47 of these communities. The qualification process generally takes between six months and five years and is a critical component of CIM's investment evaluation. CIM examines the characteristics of a community to determine whether the community justifies the extensive efforts CIM undertakes in reviewing and making potential investments in these qualified communities. Qualified communities generally fall into one of two categories: (1) transitional urban districts and (2) well-established, thriving urban areas (typically major central business districts ("CBDs")).

## Edgar Filing: CIM Commercial Trust Corp - Form 10-Q

### Table of Contents

As a result of the in-depth research and analysis that CIM has performed to qualify transitional urban communities over the years, CIM has also gained extensive knowledge of adjoining major CBDs, in both primary and secondary cities such as New York, San Francisco, Dallas and Houston. While these areas are generally not underserved and in transition (but rather are well-established, thriving areas), due to the recent financial crisis and related distressed situations, CIM has been able to capitalize on pricing in these districts that has fallen below the values that CIM believes it will be able to obtain in the long term. CIM expects that, by applying its relative value investment discipline and local market knowledge, it will be able to provide us with opportunities to invest in high quality assets located in these major markets at what CIM believes to be discounts to intrinsic (i.e., expected long-term) value.

### **SBA 7(a) Lending**

We will continue to deploy a portion of our capital to our real estate lending platform through our wholly owned subsidiary (d/b/a PMC Commercial Trust) that originates and services loans under the U.S. Small Business Administration 7(a) Guaranteed Loan Program as well as through other lending programs which allow us to achieve attractive risk adjusted returns on its loans.

### **Funds from Operations ("FFO")**

We believe that FFO is a widely recognized and appropriate measure of the performance of a REIT and that it is frequently used by security analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO represents net income (loss), computed in accordance with U.S. GAAP, excluding gains (or losses) from sales of real estate, real estate depreciation and amortization (other than amortization of deferred financing costs), and after adjustments for noncontrolling interests. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT").

Like any metric, FFO should not be used as the only measure of our performance, because it excludes depreciation and amortization and captures neither the changes in the value of our real estate properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our operating results. Other REITs may not calculate FFO in accordance with NAREIT, accordingly, our FFO may not be comparable to those other REITs' FFO. Therefore, FFO should be considered only as a supplement to net income as a measure of our performance and should not be used as a supplement to or substitute measure for cash flow from operating activities computed in accordance with U.S. GAAP. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends.

The following table sets forth a reconciliation of net income to FFO computed in accordance with U.S. GAAP:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>

### Table of Contents

Total FFO increased to \$25,800,000, or by 15.5%, for the three months ended June 30, 2014, compared to \$22,341,000 for the three months ended June 30, 2013. The increase was primarily attributable to \$4,383,000 from the operations of the lending business for the period from April 1, 2014 to June 30, 2014, a decrease in transaction costs of \$1,362,000, which mainly represented costs related to the Merger, offset by an increase of \$1,848,000 in corporate general and administrative expenses due to operating in a public environment, and an increase of \$300,000 in provision for income taxes.

Total FFO increased to \$53,646,000, or by 18.4%, for the six months ended June 30, 2014, compared to \$45,300,000 for the six months ended June 30, 2013. The increase was primarily attributable to a non-cash bargain purchase gain of \$4,918,000, an increase of \$5,242,000 from the operations of the lending business for the period from the Acquisition Date to June 30, 2014, offset by an increase of \$1,888,000 in corporate general and administrative expenses due to operating in a public environment.

Annualized rent per leased square foot(1)	\$ 35.41	\$ 35.47

- (1) Represents gross monthly base rent under leases commenced as of the specified periods, multiplied by twelve. This amount reflects total cash rent before abatements. Total abatements for the twelve months ended June 30, 2014 and 2013 were approximately \$12,000,000 and \$11,800,000, respectively. Where applicable, annualized rent has been converted from triple net to gross by adding expense reimbursements to base rent, based on reimbursements for the applicable period, multiplied by twelve. Annualized rent for certain office properties includes rent attributable to retail and parking.

Over the next four quarters, we expect to see expiring cash rents as set forth in the table below:

	September 30, 2014	For the Three Months Ended		June 30, 2015
		December 31, 2014	March 31, 2015	
<b>Expiring Cash Rents:</b>				
Expiring square feet(1)	241,680	213,694	120,748	123,972
Expiring rent per square foot(2)	\$ 40.76	\$ 47.78	\$ 39.19	\$ 35.32

- (1) All month-to-month tenants are included in the expiring leases in the first quarter listed.
- (2) Represents gross monthly base rent, as of June 30, 2014, under leases expiring during the periods above, multiplied by twelve. This amount reflects total cash rent before abatements. Where applicable, annualized rent has been converted from triple net to gross by adding expense reimbursements to base rent.

**Multifamily Rates:** The following table sets forth the monthly rent per leased unit across our multifamily portfolio for the specified periods:

	As of June 30,	
	2014	2013
	Monthly rent per leased unit(1)	\$ 1,853

(1) Represents gross monthly base rent under leases as of the specified period, divided by leased units. This amount reflects total cash rent before concessions.

**Occupancy Rates:** The following table sets forth the occupancy rates across our office and multifamily real estate portfolios as of the specified periods:

	As of June 30,	
	2014	2013
Office portfolio	82.1%	86.3%
Multifamily portfolio	96.6%	96.3%

**Hotel Statistics:** The following table sets forth the occupancy, average daily rate ("ADR") and revenue per available room ("RevPAR") for the hotel portfolio for the specified periods:

	For the Six Months Ended June 30,	
	2014	2013
<b>Rental Rate Trends Hotel Statistics(1)</b>		
Occupancy	82.3%	77.4%
ADR	\$ 122.51	\$ 134.36
RevPAR	\$ 100.83	\$ 104.03

(1) The six months ended June 30, 2013 statistics exclude LAX Holiday Inn which CIM Urban took possession of through foreclosure in October 2013. Excluding LAX Holiday Inn from the hotel statistics for the six months ended June 30, 2014, the occupancy, ADR, and RevPAR would have been 77.7%, \$144.68, and \$112.37, respectively.

### **Secondary Market Loan Sales**

Our lending division sells loans pursuant to the SBA 7(a) Program. The SBA guaranteed portion of these loans are sold in legal sale transactions to either dealers in government guaranteed loans or institutional investors as the loans are fully funded. These government guaranteed portions of loans may be sold for (1) a cash premium and the minimum 1% SBA required servicing spread, (2) significant future servicing spread and no cash premium or (3) future servicing spread and a cash premium of 10% ("hybrid loan sales"). We are required to permanently treat certain of the proceeds received from these legally sold portions of loans (those loans sold solely for future servicing spread and those loans sold for a cash premium of 10% and future servicing spread) as secured borrowings (debt) for the life of the loan and 100% of the loan is included in our loans receivable.

Net income	\$ 8,514	\$ 4,808	\$ 3,706	77.1%

Net income increased during the three months ended June 30, 2014 primarily due to the operations of the lending segment of \$4,383,000, a decrease in transaction costs of \$1,362,000, which mainly represented costs related to the Merger, offset by an increase of \$1,848,000 in corporate general and administrative expenses due to operating in a public environment, and an increase of \$300,000 in provision for income taxes.

CIM Commercial operates in four segments: office properties, hotel, multifamily and lending. Set forth and described below are summary segment results for our four segments for the specified periods.

**Summary Segment Results**

**Revenues**

**Office Properties Revenue:** Revenues include rental revenues from office properties, expense reimbursements and lease termination income. Total office property revenues increased to \$45,181,000, or 2.4%, for the second quarter of 2014 compared to \$44,137,000 for the second quarter of 2013, primarily due to revenues related to the office property acquired in April 2014.

**Hotel Revenue:** Total hotel revenue increased to \$14,798,000, or 39.3%, for the second quarter of 2014 compared to \$10,624,000 for the second quarter of 2013. The increase is primarily due to the operations of the LAX Holiday Inn, which CIM Urban acquired through foreclosure in October 2013, being reflected as an operating hotel in the 2014 second quarter, versus a mortgage note receivable in the 2013 second quarter. Additionally, our hotel property in Sacramento, California, experienced RevPar growth in the 2014 second quarter compared to the 2013 second quarter due to increased rates.

### Table of Contents

**Multifamily Revenue:** Total multifamily revenue increased to \$5,208,000, or 2.6%, for the second quarter of 2014 compared to \$5,077,000 for the second quarter of 2013. The increase is primarily due to increased rates.

**Lending Revenue:** Represents revenues from the lending operations of CIM Commercial and our lending subsidiaries including interest income on loans and other loan related fee income. Included in the three months ended June 30, 2014 is interest income of \$4,748,000, including accretion of \$1,789,000 related to acquisition discounts, and \$1,151,000 of premium income related to the sale of the government guaranteed portions of our fully funded SBA 7(a) loans.

### **Expenses**

**Office Properties Expenses:** Total expenses increased to \$18,009,000, or 9.5%, for the second quarter of 2014 compared to \$16,446,000 for the second quarter of 2013. The increase is primarily due to expenses related to the office property acquired in April 2014, an increase in electricity expense at the District of Columbia properties, and an increase in real estate taxes at the California properties. We expect there will be increases in real estate taxes compared to 2013 at the California properties for the remainder of the year.

**Hotel Expenses:** Total hotel expenses increased to \$9,959,000, or 38.2%, for the second quarter of 2014 compared to \$7,208,000 for the second quarter of 2013. The increase is primarily due to the LAX Holiday Inn, which CIM Urban acquired through foreclosure in October 2013, being reflected as an operating hotel in the 2014 second quarter, versus a mortgage note receivable in the 2013 second quarter.

**Multifamily Expenses:** Total multifamily expenses increased to \$2,637,000, or 35.2%, for the second quarter of 2014 compared to \$1,950,000 for the second quarter of 2013. The increase is primarily due to an increase in real estate taxes in the 2014 second quarter compared to the 2013 second quarter.

**Lending Expenses:** Represents expenses from the lending operation of CIM Commercial and our lending subsidiaries including general and administrative expenses related to the operation of the lending business. Lending expenses primarily represent salaries and related benefits expense of \$1,018,000 and interest expense of \$635,000.

**Interest Expense:** Interest expense that has not been allocated to segments of \$4,304,000 for the second quarter of 2014 represents a \$421,000 decrease from \$4,725,000 for the second quarter of 2013. Increased interest expense from incremental lines of credit borrowings in the 2014 second quarter was offset by lower interest expense from amortizing fixed-rate mortgages as a result of the repayment of approximately \$75,909,000 in fixed rate mortgages in September 2013. The reduction in interest expense was primarily due to the lower interest rate on our borrowings under our lines of credit outstanding during the second quarter of 2014 versus the interest rates on the fixed rate mortgages that were outstanding during the second quarter of 2013 that were repaid in September 2013.

**General and Administrative:** General and administrative expenses that have not been allocated to segments increased to \$2,191,000 for the second quarter of 2014 compared to \$343,000 for the comparable 2013 period. The increase is primarily due to public company expenses.

**Transaction Costs:** Transaction costs totaling \$32,000 for the second quarter of 2014 represent a \$1,362,000 decrease from \$1,394,000 for the second quarter of 2013. The costs incurred in the second quarter of 2014 are related to the acquisition of the office property in April 2014, while the costs incurred in the second quarter of 2013 are associated with the Merger and are primarily comprised of due diligence costs, reimbursement of PMC Commercial's acquisition-related costs, legal and accounting expenses.

### Table of Contents

**Asset Management Fees and Other Fees to Related Parties:** Asset management fees totaled \$5,798,000 for the second quarter of 2014 compared to \$5,431,000 for the second quarter of 2013. Management fees are calculated based on a percentage of the gross fair value of CIM Urban's investments, which are appraised in the fourth quarter of each year. The higher fees reflect a net increase in the fair value of the real estate investments based on the December 31, 2013 appraised values, as well as incremental capital expenditures and acquisitions in the first six months of 2014. In addition, pursuant to the Master Services Agreement entered into on the Acquisition Date, CIM Commercial will pay a Base Service Fee equal to \$1,000,000 per year (subject to annual escalation by a specified inflation factor beginning on January 1, 2015) to the Manager, a related party. Fees to the related party totaled \$250,000 for the second quarter of 2014 compared to \$0 for the second quarter of 2013. In addition, pursuant to the terms of the Master Services Agreement, the Manager may receive compensation for performing certain services for CIM Commercial and its subsidiaries that are not covered under the Base Service Fee. For the second quarter of 2014, we expensed \$290,000 for such services.

**Depreciation and Amortization:** Depreciation and amortization expense decreased to \$17,286,000, or 1.4%, for the second quarter of 2014, compared to \$17,533,000 for the second quarter of 2013. The decrease in depreciation and amortization expense compared to the second quarter of 2013 is primarily due to certain assets that became fully depreciated, partially offset by an increase in depreciation expense associated with additional capital expenditures and the acquisition of the office property in April 2014.

**Revenues**

**Office Properties Revenue:** Revenues include rental revenues from office properties, expense reimbursements and lease termination income. Total office property revenues increased to \$88,455,000, or 1.0%, for the first six months of 2014 compared to \$87,597,000 for the first six months of 2013, primarily due to revenues related to the office property acquired in April 2014.

**Hotel Revenue:** Total hotel revenue increased to \$29,137,000, or 41.6%, for the first six months of 2014 compared to \$20,571,000 for the first six months of 2013. The increase is primarily due to the operations of the LAX Holiday Inn, which CIM Urban acquired through foreclosure in October 2013, being reflected as an operating hotel in the six months ended June 30, 2014, versus a mortgage note receivable in the six months ended June 30, 2013. Additionally, our hotel property in Sacramento, California, experienced RevPar growth in the six months ended June 30, 2014 compared to the six months ended June 30, 2013.

**Multifamily Revenue:** Total multifamily revenue increased to \$10,192,000, or 2.1%, for the first six months of 2014 compared to \$9,978,000 for the first six months of 2013. The increase is primarily due to increased rates.

**Lending Revenue:** Represents revenues from the lending operations of CIM Commercial and our lending subsidiaries including interest income on loans and other loan related fee income. The lending operations revenue is only reflected beginning on the Acquisition Date through June 30, 2014. Included in the six months ended June 30, 2014 is interest income of \$6,270,000, including accretion of \$2,135,000 related to acquisition discounts, and \$1,151,000 of premium income related to the sale of the government guaranteed portions of our fully funded SBA 7(a) loans.

**Hotel Expenses:** Total hotel expenses increased to \$19,842,000, or 43.6%, for the first six months of 2014 compared to \$13,815,000 for the first six months of 2013. The increase is primarily due to the LAX Holiday Inn, which CIM Urban acquired through foreclosure in October 2013, being reflected as an operating hotel in the six months ended June 30, 2014, versus a mortgage note receivable in the six months ended June 30, 2013. Additionally, our hotel property in Sacramento, California had increased variable costs associated with higher occupancy for the first six months of 2014 compared to the first six months of 2013.

**Multifamily Expenses:** Total multifamily expenses increased to \$4,749,000, or 23.4%, for the first six months of 2014 compared to \$3,848,000 for the first six months of 2013. The increase is primarily due to an increase in real estate taxes in the first six months of 2014 compared to the first six months of 2013.

**Lending Expenses:** Represents expenses from the lending operation of CIM Commercial and our lending subsidiaries including general and administrative expenses related to the operation of the lending business. The lending operations expenses are only reflected beginning on the Acquisition Date through June 30, 2014. Lending expenses primarily represent salaries and related benefits expense of \$1,325,000 and interest expense of \$897,000.

**Interest Expense:** Interest expense that has not been allocated to segments of \$8,259,000 for the first six months of 2014 represents a \$1,143,000 decrease from \$9,402,000 for the first six months of 2013. Increased interest expense from incremental lines of credit borrowings in six months of 2014 was offset by lower interest expense from amortizing fixed-rate mortgages as a result of the repayment of approximately \$75,909,000 in fixed rate mortgages in September 2013. The reduction in interest expense was primarily due to the lower interest rate on our borrowings under our lines of credit outstanding during the first six months of 2014 versus the interest rates on the fixed rate mortgages that were outstanding during the first six months of 2013 that were repaid in September 2013.

**General and Administrative:** General and administrative expenses that have not been allocated to segments increased to \$2,587,000 for the first six months of 2014 compared to \$699,000 for the comparable 2013 period. The increase is primarily due to public company expenses incurred beginning on the Acquisition Date.

**Transaction Costs:** Transaction costs totaling \$500,000 for the first six months of 2014 represent a \$894,000 decrease from \$1,394,000 for the first six months of 2013. These costs are mainly associated with the Merger and are primarily comprised of due diligence costs, reimbursement of PMC Commercial's acquisition-related costs, legal and accounting expenses. We also incurred \$32,000 in the first six months of 2014 related to the acquisition of the office property in April 2014.

**Asset Management Fees and Other Fees to Related Parties:** Asset management fees totaled \$11,479,000 for the first six months of 2014 compared to \$10,840,000 for the first six months of 2013. Management fees are calculated based on a percentage of the gross fair value of CIM Urban's investments, which are appraised in the fourth quarter of each year. The decrease in depreciation and amortization expense compared to the first six months of 2013 is primarily due to certain assets that became fully depreciated, partially offset by an increase in depreciation expense associated with additional capital expenditures and the acquisition of the office property in April 2014.

**LIQUIDITY AND CAPITAL RESOURCES**

**Sources and Uses of Funds**

**Credit Facilities**

At June 30, 2014, CIM Commercial had a revolving credit facility with borrowing up to \$25,000,000 which matures on June 30, 2015. We are charged interest on the balance outstanding under the revolving credit facility at our election of either the prime rate of the lender less 50 basis points or 30-day LIBOR plus 2%. In addition, we are charged an unused fee equal to 25 basis points computed based on our daily available balance. At June 30, 2014, \$700,000 was outstanding under this facility. As of July 31, 2014, \$0 was outstanding under this facility, and \$25,000,000 was available for future borrowings.

Our term note in the principal amount of \$30,000,000 which matures in September 2014 has an interest rate of 2.74%. During the second quarter of 2014, \$10,000,000 of this term note was repaid. Upon repayment in full of this term note, CIM Commercial's \$25,000,000 revolving credit facility will be increased to \$40,000,000. The CIM Commercial revolving credit facility requires us to meet certain covenants including an asset coverage test (eligible loans receivable to balances outstanding under the facility and term note) of 3.00 times.

In February 2012, CIM Urban entered into an unsecured revolving line of credit with a bank syndicate, which allows for maximum borrowings of \$100,000,000. Borrowings under the line of credit are limited by certain borrowing base calculations. Outstanding advances under the line of credit bore interest at the base rate, as defined, plus 0.75% to 1.50% or LIBOR plus 1.75% to 2.50%, depending on the maximum consolidated leverage ratio, as defined, until August 2013. In August 2013, the unsecured revolving line was amended, and outstanding advances under the line bear interest at the base rate, as defined, plus 0.25% to 0.85% or LIBOR plus 1.25% to 1.85%, depending on the maximum consolidated leverage ratio, as defined. The line of credit is also subject to an unused commitment fee of 0.25% or 0.35% depending on the amount of aggregate unused commitments. The line of credit matures in February 2016, with a one-year extension option under certain conditions. As of July 31, 2014, June 30, 2014, and December 31, 2013, \$100,000,000, was outstanding under the line of credit, and \$0, was available for future borrowings.

In August 2013, CIM Urban entered into another unsecured revolving credit facility with a syndicate of banks. The credit facility provides an additional \$125,000,000 of borrowing capacity that was increased to \$150,000,000. CIM Urban amended the facility in April 2014 to further increase the maximum aggregate borrowing capacity under the revolving credit facility to \$200,000,000. Borrowings under the revolving credit facility are limited by certain borrowing base calculations. Outstanding advances under the revolving credit facility bear interest at the base rate, as defined, plus 0.25% to 0.85% or LIBOR plus 1.25% to 1.85%, depending on the maximum consolidated leverage ratio, as defined. The revolving credit facility is also subject to an unused commitment fee of 0.25% or 0.35% depending on the amount of aggregate unused commitments. The revolving credit facility originally matured in February 2014, and was recently extended to October 10, 2014. As of July 31, 2014, June 30, 2014, and December 31, 2013, \$188,000,000, \$188,000,000, and \$64,000,000, respectively, was outstanding under the revolving credit facility, and \$12,000,000, \$12,000,000 and \$61,000,000, respectively, was available for future borrowings.

Table of Contents

At June 30, 2014 and December 31, 2013, CIM Commercial and CIM Urban were either in compliance with all of their respective financial covenants or had obtained waivers from the relevant lenders with respect to such compliance.

Our primary liquidity needs for the next twelve months (1) include (i) funds to pay for capital expenditures, (ii) funds to originate new loans, (iii) funds to pay debts and other obligations as they become due and (iv) funds to pay dividends and (2) may include funds for acquisitions, development or repositioning of properties. While we expect to meet some of these liquidity needs through cash on hand, cash provided by operations, borrowings under our existing credit facilities and principal collections on loans receivable, we do not expect that we will have sufficient funds to cover all of these liquidity needs. We expect to cover any additional liquidity needs through one or more credit facilities and/or debt issuances. We are currently in negotiations with two banks, as joint lead arrangers, to finalize an unsecured term loan and a revolving credit facility of \$550,000,000, with an accordion feature which would increase the maximum aggregate facilities to \$850,000,000. We intend to use the proceeds of these facilities to repay all of our outstanding term and revolving credit facilities. We expect to close the new term loan and revolving credit facilities by the end of the third quarter of 2014. Completion and the costs of any future debt transactions (including the new term and revolving credit facilities) will depend primarily upon market conditions. It is our intention to conduct business activities in a manner which will allow reasonable access to capital for future investment activities. However, there can be no assurance that our negotiation of the new term loan and revolving credit facilities will be successful or that the closing of these new facilities will occur in the time frame described above. If the new term loan and revolving credit facilities fail to close for any reason or closing is delayed substantially beyond the time frame described above, there can be no assurances we will be able to successfully negotiate an extension of our existing credit facilities or any increased maximum availability. In addition, there can be no assurances that we will be able to enter into any other debt transactions successfully in the future. However, we believe other financing sources would be available to us. If any of the contingencies described in the preceding sentences occur, our liquidity could be adversely affected.

Our long-term liquidity needs will consist primarily of funds necessary to acquire properties and to pay for development or repositioning of properties, non-recurring capital expenditures, loan originations and refinancing of indebtedness. We may not have sufficient funds on hand or may not be able to obtain additional financing to cover all of these long-term cash requirements. The nature of our business, and the requirements imposed by REIT rules that we distribute a substantial majority of our REIT taxable income on an annual basis in the form of dividends, may cause us to have substantial liquidity needs over the long-term. We will seek to satisfy our long term liquidity needs through cash flows from operations, long-term indebtedness, equity issuances and/or, to the extent appropriate, property dispositions. These sources of funding may not be available on attractive terms or at all. If we cannot obtain additional funding for our long-term liquidity needs, our investments may generate lower cash flows or decline in value, or both, which may cause us to reduce our dividend or sell assets at a time when we would not otherwise do so.

**Available Borrowings, Cash Balances and Capital Resources**

We have typically financed our capital needs through investor equity commitments, long-term secured mortgages and a short-term lines of credit. As of June 30, 2014 and December 31, 2013, we had total indebtedness of \$601,303,000 and \$395,105,000, respectively. Included in total indebtedness is \$288,700,000 and \$164,000,000 of borrowings under lines of credit with total capacity of \$325,000,000 and \$225,000,000 at June 30, 2014 and December 31, 2013, respectively.

**Cash Flow Analysis**

As a REIT, our cash flows from operations are typically used to fund our dividends.

Table of Contents

Our cash and cash equivalents totaled \$20,030,000 and \$16,796,000 at June 30, 2014 and December 31, 2013, respectively. Our cash flows from operating activities are primarily dependent upon the occupancy level of our real estate assets, the rental rates achieved through our leases, and the collectability of rent and recoveries from our tenants. Our cash flows from operating activities are also impacted by fluctuations in operating expenses and other general and administrative costs. Net cash provided by operating activities totaled \$36,670,000 for the first six months of 2014 compared to \$32,249,000 for the first six months of 2013. The increase is mainly due to additional net income from the acquisition of an office property in April 2014, and due to the operations of the LAX Holiday Inn, which CIM Urban acquired through foreclosure in October 2013, being reflected as an operating hotel in the first six months of 2014, versus a mortgage note receivable in the first six months of 2013. In addition, our cash flows from operating activities include cash used in operating activities from the lending division of \$16,753,000 for loans funded that were held for sale, net of \$12,999,000 proceeds from the sale of guaranteed loans. Our loans funded held for sale will fluctuate based on management's decision to sell loans for solely cash premiums, as a hybrid loan sale or for solely servicing spread.

Our cash flows from investing activities are primarily related to property acquisitions and sales, expenditures for development and redevelopment projects, capital expenditures and the cash flows from lending activities. Net cash used in investing activities was \$38,120,000 in the first six months of 2014 compared to \$10,987,000 in the first six months of 2013 primarily due to an increase in the use of funds for the acquisition of the office property acquired in April 2014, an increase in loans funded, and an increase in capital expenditures, offset by principal collected on loans, and by cash and cash equivalents acquired in the Merger of \$3,185,000.

Our cash flows from financing activities are generally impacted by borrowings and capital activities, net of dividends and distributions. Net cash provided by (used in) financing activities increased to \$4,684,000 in the first six months of 2014, from (\$19,425,000) in the first six months of 2013. We used funds from financing activities during the six months ended June 30, 2014 primarily to pay distributions of \$101,642,000 in the aggregate (\$42,356,000 to partners and stockholders and \$59,286,000 for the acquisition of PMC Commercial) compared to partner distributions of \$41,035,000 during the first six months of 2013. We had net borrowings of \$106,713,000 during the first six months of 2014 compared to \$21,736,000 during the first six months of 2013.

- (1) Represents the revolving credit facility, term note, junior subordinated notes, and unsecured revolving lines of credit.
- (2) Principal payments are generally dependent upon cash flows received from the underlying loans. Our estimate of their repayment is based on scheduled principal payments on the underlying loans. Our estimate will differ from actual amounts to the extent we experience prepayments and/or loan liquidations or charge-offs. No payment is due unless payments are received from the borrowers on the underlying loans.
- (3) Excludes premiums and discounts. For the mortgages payable, the interest expense is calculated based on the current effective interest rate on the related debt. For our revolving credit facilities, assumes current balance outstanding through maturity date, and is calculated using the variable rate in effect at June 30, 2014.
- (4) Represents minimum payments required under executive employment agreements.
- (5) Represents future minimum lease payments under our operating leases for office space, and under the ground lease for one of the projects.

### CRITICAL ACCOUNTING POLICIES AND ESTIMATES AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Our accounting policies are described in Note 3 to the consolidated financial statements included in this Form 10-Q.

### DIVIDENDS

Our stockholders are entitled to receive dividends when and as declared by the Board of Directors. In determining our dividend policy, the Board of Directors considers many factors including, but not limited to, expectations for future earnings, REIT taxable income (loss) and maintenance of REIT status, the economic environment and portfolio performance. Consequently, the dividend rate on a quarterly basis does not

## Edgar Filing: CIM Commercial Trust Corp - Form 10-Q

necessarily correlate directly to any individual factor. There can be no assurance that the future dividends declared by our Board of Directors will not differ materially from historical dividend levels.

Table of Contents

CIM Urban REIT declared distributions to its partners of \$16,100,000 prior to the Acquisition Date (\$0.1685 per share of Common Stock, as converted). In addition, dividends of \$59,286,000 (\$27.975 per share of Common Stock) were paid to the PMC Commercial stockholders, which includes the \$27.50 per share of Common Stock special dividend plus the \$0.475 pro rata portion of PMC Commercial's regular quarterly cash dividend.

On March 24, 2014, we declared a common share dividend of \$0.05 per share of Common Stock and a preferred dividend of \$0.0403 per share of preferred stock (\$0.0285 per share of Common Stock, as converted), all of which were paid on March 28, 2014.

On April 28, 2014, we declared a dividend in the aggregate amount of \$1,964,000 to the preferred stockholders (\$0.0302 per share of preferred stock and \$0.0215 per share of Common Stock as converted) in connection with the conversion of shares of preferred stock to shares of Common Stock, which was paid on June 27, 2014.

On June 12, 2014, we declared a common share dividend of \$0.21875 per share of Common Stock which was paid on June 27, 2014.

**ITEM 3.**

**Quantitative and Qualitative Disclosures About Market Risk**

The fair value of CIM Commercial's mortgages payable is sensitive to fluctuations in interest rates. Discounted cash flow analysis is generally used to estimate the fair value of CIM Commercial's mortgages payable, using rates ranging from 4.10% to 4.35% at June 30, 2014 and 4.85% to 5.00% at December 31, 2013. Mortgages payable with book values of \$227,498,000 and \$231,105,000 as of June 30, 2014 and December 31, 2013, respectively, have a fair value of approximately \$234,292,000 and \$231,250,000, respectively.

CIM Commercial's future income, cash flows and fair values relevant to financial instruments are dependent upon prevalent market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. CIM Commercial is exposed to market risk in the form of changes in interest rates and the potential impact such changes may have on the cash flows from its floating rate debt or the fair values of its fixed rate debt. Given the long term nature of its real estate investments, CIM Commercial generally finances its properties with long term, fixed rate mortgage loans. At June 30, 2014 and December 31, 2013 (excluding premiums and discounts on assumed mortgages), \$225,125,000 (or 37.7%) and \$228,319,000 (or 58.2%) of CIM Commercial's debt was fixed rate mortgage loans, \$20,000,000 (or 3.3%) and \$0 term note was fixed rate, and \$352,980,000 (or 59.0%) and \$164,000,000 (or 41.8%) was floating rate borrowings. Based on the level of floating rate debt outstanding at June 30, 2014 and December 31, 2013, a 12.5 basis point change in LIBOR would result in an annual impact to CIM Commercial's earnings of approximately \$441,000 and \$205,000, respectively. CIM Commercial calculates interest rate sensitivity by multiplying the amount of floating rate debt by the respective change in rate. The sensitivity analysis does not take into consideration possible changes in the balances or fair value of CIM Commercial's floating rate debt.

**Controls and Procedures**

**EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, we carried out an evaluation under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon this evaluation, as of June 30, 2014, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act, are recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

**CHANGES IN INTERNAL CONTROL IN FINANCIAL REPORTING**

On March 11, 2014, we consummated the Merger as described under "Executive Summary The Merger" in Item 2 above. As a result of the Merger, our management is analyzing, evaluating and, where necessary, implementing changes in controls and procedures. Due to the significance of the Merger and the limited period of time since the Acquisition Date, we did not have sufficient resources available to assess any change in our internal controls over financial reporting with respect to CIM Urban for the quarter ended June 30, 2014. Therefore, we excluded CIM Urban from our evaluation of change in internal controls over financial reporting contained in this quarterly report. However, management considers the operations of CIM Urban material to our consolidated financial position, results of operations and cash flows and believes that the disclosure controls and procedures of CIM Urban will have a material effect on internal controls over financial reporting. CIM Urban will be included in the overall assessment of, and report on, internal controls over financial reporting as of December 31, 2014.
