The notice of annual general meeting and Proxy Statement accompanying this letter provide an outline of the business to be conducted at the meeting. At the meeting, the financial statements for the year ended December 31, 2015 and the auditor's report thereon will be laid before the shareholders in accordance with Bermuda law, and you will be asked to (i) elect 11 directors to the Board of Directors, (ii) appoint Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016 and to authorize the Company's Audit Committee of the Board of Directors to determine their remuneration, (iii) provide a nonbinding, advisory vote to approve named executive officer compensation and (iv) consider such other business as may properly come before the annual general meeting. I will also report on our progress during the past year and respond to shareholders' questions.

It is important that your shares be represented at the annual general meeting, as a quorum of the shareholders must be present, either in person or by proxy, in order for the annual general meeting to take place. BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Board Composition

As of the date of this Proxy Statement, our Board has 11 directors. Our bye-laws provide that the Board shall consist of not less than five directors and not more than 15 directors, and the number of directors may be changed only by resolution adopted by the affirmative vote of a majority of the entire Board. No decrease in the number of directors may shorten the term of any incumbent director.

The Board currently consists of a single class of directors, each serving a one-year term. Once our controlling shareholders (as defined below in "Committees of the Board of Directors"), in the aggregate, no longer beneficially own more than 50% of the issued and outstanding common shares, the Board will be divided into three classes of directors designated as Class I, Class II and Class III, with each class as nearly equal in number as possible, serving staggered three-year terms.

Board Leadership Structure

The Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management. The Board understands that the optimal Board leadership structure may vary as circumstances warrant. Consistent with this understanding, non-management directors consider the Board's leadership structure on an annual basis.

The Board has determined that the optimal Board leadership structure for us is served by the role of Chairman of the Board being held by our

Chief Executive Officer, Mr. Inglis, because it believes that having one leader serving as both the Chairman and Chief Executive Officer provides decisive, consistent and effective leadership.

The Board does not currently have a standing presiding director, though it may designate a director as the presiding director to lead the meetings of the independent directors, if it deems appropriate, in accordance with the principles set out in our Corporate Governance Guidelines.

Committees of the Board of Directors

We are a "controlled company," as that term is set forth in Section 303A of the NYSE Listed Company Manual, because more than 50% of our voting power is held by funds affiliated with Warburg Pincus and The Blackstone Group (together with their respective affiliates, our "controlling shareholders"), acting as a group. Under the NYSE rules, a "controlled company" may elect not to comply with certain NYSE corporate governance requirements, including (1) the requirement that a majority of the Board consist of independent directors, (2) the requirement that the Nominating and Corporate Governance Committee be composed entirely of independent directors with a written charter addressing the Committee's purpose and responsibilities, (3) the requirement that the Compensation Committee be composed entirely of independent directors with a written charter

addressing the Committee's purpose and responsibilities and (4) the requirement for an annual performance evaluation of the Nominating and Corporate Governance and Compensation Committees.

We have elected to be treated as a "controlled company" and thus avail ourselves of certain of these exemptions. As a result, although we have adopted charters for our Audit, Nominating and Corporate Governance, and Compensation Committees, our Board does not presently consist of a majority of independent directors, nor do our Nominating and Corporate Governance and Compensation Committees consist entirely of independent directors. Accordingly, so long as we are a "controlled company," you will not have the same protections afforded to shareholders of

Table of Contents

companies that are subject to all of the corporate governance requirements of the NYSE.

As of April 29, 2016, our Board has six standing committees: the Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee, Health, Safety and Environment Committee, External

Affairs and Political Risk Committee and Exploration Assurance Committee, and may have such other committees as the Board shall determine from time to time.

As of April 29, 2016, each of the standing Committees of the Board had the composition and responsibilities described below.

Audit Committee

Our Audit Committee is a separately designated standing Committee of the Board established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Effective as of March 2, 2016, the members of our Audit Committee are Messrs. Tong and Darricarrère and Sir Richard B. Dearlove, each of whom our Board has determined is financially literate. Mr. Tong is the Chairman of this Committee. Our Board has determined that each of Messrs. Tong and Darricarrère is an "audit committee financial expert" as described in Item 407(d)(5) of Regulation S-K, and that Messrs. Tong and Darricarrère and Sir Richard B. Dearlove are "independent directors" as defined by the NYSE rules and Rule 10A-3 of the Exchange Act. Our Audit Committee is authorized to:

recommend, through the Board, to the shareholders on the appointment and termination (subject to Bermuda law) of our independent auditors;

review the proposed scope and results of the independent auditors' audit;

review and pre-approve the independent auditors' audit and non-audit services rendered;

approve the audit fees to be paid (subject to authorization by our shareholders to do so);

review accounting and financial controls with the independent auditors and our financial and accounting staff;

review and approve transactions between us and our directors, officers and affiliates;

recognize and prevent prohibited non-audit services;

establish procedures for complaints received by us regarding accounting matters;

oversee internal audit functions;

oversee the resource and reserve process, including the external reporting of resource and reserve information; and

prepare the report of the Audit Committee that SEC rules require to be included in this Proxy Statement.

The Audit Committee's responsibilities are set forth in its charter, which was approved by the Board on May 9, 2011 (as amended on April 3, 2012) and is reviewed annually. The charter is available under the Corporate Governance link on the Investors' page of our website at

www.kosmosenergy.com. The information on our website is not incorporated by reference into this Proxy Statement.

Table of Contents**Meetings of the Board of Directors and Committees**

The Board held five meetings during 2015 and took action by unanimous written consent on five occasions. During 2015, no incumbent director attended fewer than 75% of the aggregate total number of meetings of the Board held during the period in which he was a director

and of the total number of meetings held by all of the Committees of the Board on which he served. We expect, but do not require, our directors to attend our annual general meetings of shareholders.

Director Independence

We have availed ourselves of the "controlled company" exception under the NYSE rules, which exempts us from the requirements that an NYSE-listed company must have a majority of independent directors on its Board and that its Compensation and Nominating and Corporate Governance Committees be composed entirely of independent directors.

In any event, the Board has reviewed the materiality of any relationship that each of our directors has with us, either directly or indirectly. Based on this review, the Board has determined

Edgar Filing: Kosmos Energy Ltd. - Form DEF 14A

that Dr. Wright, Sir Richard B. Dearlove and Messrs. Darricarrère, Ogunlesi and Tong are "independent directors" as defined by the NYSE rules and Rule 10A-3 of the Exchange Act. There are no family relationships among any of our executive officers, directors or nominees for director.

Our controlling shareholders currently own a number of our common shares sufficient to elect all of the members of the Board without the approval of any other shareholder.

Table of Contents

Board's Role in Risk Oversight

Assessing and managing risk is the responsibility of the management of the Company. However, the Board has an active role, as a whole, and also at the committee level, in overseeing management of the Company's risks. The Board regularly reviews information regarding the Company's credit, liquidity and operations, as well as the risks associated with each.

Under its charter, the Audit Committee of the Board of the Company reviews and discusses with management the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures, including the Company's risk assessment and risk management policies. In addition, the Audit Committee oversees risks related to the Company's financial statements, the financial reporting process, accounting, tax and legal matters as well as liquidity risks and guidelines and policies and procedures for monitoring and mitigating risks.

Because overseeing risk is an ongoing process and inherent in our strategic decisions, the Board also discusses risk throughout the year in relation to specific proposed actions. The Board's other standing Committees oversee risks associated with their respective areas of responsibility. For example, the Compensation Committee considers the risks associated with our compensation policies and practices with respect to both executive compensation and compensation generally. See "Executive Compensation Compensation Risk Assessment" below. The Board is kept abreast of its Committees' risk oversight and other activities through reports of the Committee chairmen to the full Board.

Specifically relating to enterprise risk management during 2015, the Company performed an enterprise risk assessment to identify key risks and assess procedures for managing, monitoring and mitigating risks.

Nomination of Directors

The nominees for election to the Board at the annual general meeting were formally nominated by the Nominating and Corporate Governance Committee and such nominations were approved by the full Board. Although the Board will consider nominees recommended by shareholders, the Board has not established any specific procedures for shareholders to follow to recommend potential director nominees for consideration. At this time, the Board has not established any specific written procedures for identifying and evaluating potential director nominees or any minimum qualifications or skills for directors, although we generally consider a nominee's diversity, experience, industry knowledge and background. To ensure we have a diverse group of potential director nominees for consideration, our nominee search includes

candidates from both corporate positions beyond the executive suite and from non-corporate environments (e.g., government, academia and non-profit organizations), and includes both male and female candidates. The Nominating and Corporate Governance Committee has adopted a resolution to consider gender diversity as one of the factors in identifying qualified candidates for membership on the Board. The Board does not deem it necessary to adopt specific written procedures because we are a "controlled company" under NYSE rules. As discussed below under "Shareholders Agreement," certain directors are nominated based on contractual obligations in our shareholders agreement with affiliates of our controlling shareholders.

Compensation Committee Interlocks and Insider Participation

The current members of our Compensation Committee are Messrs. Landy, Melwani and Ogunlesi. Mr. Melwani is the Chairman of the Committee. No member of the Compensation

Committee has been at any time an employee or an officer of ours. None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has

Table of Contents

one or more executive officers serving as a member of our Board or Compensation Committee.

Messrs. Landy and Melwani have directed that the fees they are entitled to receive as

compensation for serving on our Board be paid or remitted to our controlling shareholders. See "Certain Relationships and Related Transactions" and "Director Compensation 2015 Director Compensation" below.

Code of Business Conduct and Ethics

The Board has adopted a Code of Business Conduct and Ethics applicable to our employees, directors and officers, in accordance with applicable U.S. federal securities laws and the corporate governance rules of the NYSE. Any waiver of this Code may be made only by the Board. Shareholders Agreement

We have entered into a shareholders agreement with affiliates of our controlling shareholders pursuant to which our controlling shareholders, collectively, have the right to currently designate six members of our Board. Each controlling shareholder has the right to designate: (i) up to three directors (or 25% of the Board, rounded to the nearest whole number) if it owns 20% or more of the issued and outstanding common shares eligible to vote at an annual general meeting of shareholders and 50% or more of the common shares owned

by such controlling shareholder immediately prior to the consummation of the IPO; and (ii) one director (or 12.5% of the Board, rounded to the nearest whole number) if it owns 7.5% or more of the issued and outstanding common shares eligible to vote at an annual general meeting of shareholders. Under the shareholders agreement, subject to the corporate governance requirements of the NYSE, and for as long as our controlling shareholders constitute a group that beneficially owns more than 50% of the Company's voting power, our controlling

shareholders will have the right to designate 50% of the members of the Nominating and Corporate Governance Committee and a majority of the members of the Compensation Committee. After our controlling shareholders no longer constitute a group beneficially owning more than 50% of the Company's voting power, each controlling shareholder entitled to designate a director will have the right to

nominate one of its director designees to each Committee of the Board (other than the Audit Committee). A controlling shareholder will cease to have the right to designate committee members in the event that the controlling shareholder holds less than 7.5% of the issued and outstanding common shares eligible to vote at an annual general meeting of shareholders.

Messrs. Foley, Krieger, Landy and Melwani have directed that the fees they are entitled to receive as compensation for serving on our Board be paid or remitted to our controlling shareholders. disclosure, approval and resolution of any real or potential conflicts of interest which may exist from time to time. Such policies provide, among other things, that all related-party transactions, including any loans between us, our controlling shareholders and our affiliates, but excluding compensation arrangements, require approval by our Nominating and Corporate Governance Committee, after considering all relevant facts and circumstances, including, without limitation, the commercial reasonableness of the terms, the benefit and perceived benefit, or lack thereof, to us, opportunity costs of alternative transactions, the materiality and character of the related party's direct or indirect interest, and the actual or apparent conflict of interest of the related party, and after determining that the transaction is in, or not inconsistent with, our and our shareholders' best interests. STOCK OWNERSHIP MATTERS

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, officers and persons who beneficially own more than 10% of our common shares to file initial reports of ownership on Form 3 and reports of changes of ownership on Forms 4 and 5 with the SEC. These officers, directors and 10% beneficial owners are also required to furnish us with copies of all Section 16(a) forms that they file. Specific due dates for these reports have been established by regulation, and we are required to report in this

Proxy Statement any failure to file by these dates during 2015.

To our knowledge, based solely on our review of the copies of such forms received by us, we believe that all Section 16(a) filing requirements applicable to our officers, directors and 10% beneficial owners have been complied with for 2015, with the exception of two Forms 4 relating to three transactions that were filed late for Mr. Nobel.

The information in the table below concerning security ownership of beneficial owners is based on filings made by such persons with the SEC.

Table of Contents**EXECUTIVE COMPENSATION****Compensation Discussion and Analysis**

This Compensation Discussion and Analysis ("CD&A") describes our executive compensation philosophy, process and objectives and the elements of our 2015 compensation program for our named executive officers and gives the context for understanding and evaluating the compensation information contained in the tables and related disclosures that follow. The table below sets forth our named executive officers for 2015:

Name	Title
Andrew G. Inglis	Chairman and Chief Executive Officer
Thomas P. Chambers	Senior Vice President and Chief Financial Officer
Brian F. Maxted	Chief Exploration Officer
Christopher J. Ball	Senior Vice President, Planning and Business Development
Jason E. Doughty	Senior Vice President and General Counsel

Executive Summary

Our executive compensation program is designed to attract, motivate and retain highly experienced individuals who are critical to successfully delivering on our business plan. In 2015, consistent with our historical practice, we continued to emphasize performance-based compensation by awarding a majority of the compensation for our executives in the form of annual cash bonuses and long-term equity incentive awards, both of which are designed to tie our executives' pay directly to Company performance. We believe our commitment to paying performance-based compensation best aligns our executives' interests with those of our shareholders.

Despite the severe and prolonged decline in worldwide oil prices during 2015 that resulted in a decrease in our share price (as well as the share prices of our peers in the oil and gas industry), we believe that we are strategically well-positioned among our competitors in large part due to our strong balance sheet liquidity, world-class production and development assets and the significant experience and expertise of our executive management team. We further believe that our compensation program effectively incentivized our executives to lead the Company to achieve the significant exploration and operating successes we experienced in 2015.

2015 Business Highlights

Below we have highlighted some of our key financial, operating and strategic performance results for 2015 that are focused on positioning the Company successfully for ongoing value creation and that informed our executive compensation decisions in 2015.

With a series of successful exploration wells in Mauritania and Senegal, we discovered a significant amount of natural gas (resource estimate for the Greater Tortue Complex of over 20 trillion cubic feet). We believe that we have opened one of the largest new petroleum systems of the last 15 years and that these resources have the potential to underpin a world-scale liquefied natural gas (LNG) project;

We experienced no lost time incidents in 2015 and achieved a "total recordable incident rate" of 0.97 (beating the target of 2.00);

Gross production from the Jubilee Field averaged approximately 103,000 barrels of oil per day (up from 102,000 barrels of oil per day in 2014);

Table of Contents

We maintained liquidity of the Company in a challenging external environment, including through the add-on of \$225,000,000 to the Company's high-yield bonds and innovative and disciplined approaches to hedging transactions;

We further decreased net cash general and administrative expenses to \$61,800,000 against a 2015 target of \$72,000,000 and decreased capital expenditures to \$777,000,000 against a 2015 target of \$854,000,000; and

We maintained the Tweneboa, Envenra, and Ntomme (TEN) project cost and schedule. TEN comprises gas-condensate and oil discoveries in the Deepwater Tano block offshore Ghana. Future production growth in Ghana will largely be driven by TEN coming online, with the project over 90% complete and on time and on budget for first oil in the third quarter of 2016.

Despite these exploration, safety and operational successes, we were disappointed in the near-term performance of our stock price. The prevailing commodity price environment continues to pose serious challenges, but our disciplined investment strategy and focused operating approach continue to provide significant long-term value opportunities.

As we further progress our "second inning" (i.e., our exploration and appraisal drilling in

Mauritania and Senegal), we are committed to strengthening our performance-driven, team-based culture and attracting and retaining top talent that is intensely focused on the successful execution of our strategy. We believe that our compensation philosophy and program will continue to motivate our executives to position us for future growth and success in both the short and long term.

2015 Key Compensation Decisions

We believe our executive compensation program provides effective incentives to our named executive officers to lead the Company to achieve strong strategic and operational performance and to position the Company for future growth and success in spite of the very difficult current external environment. With the help of its external compensation consultant, Meridian Compensation Partners, LLC ("Meridian"), our Compensation Committee carefully considered the relevant external and internal economic and business factors affecting named executive officer pay for 2015. Recognizing the evolution of the Company and taking into account the current state of the oil and gas industry, our Compensation Committee took a measured approach to our executive compensation program in 2015, focusing on supporting the Company's strategic objectives and further aligning our named executive officer's long-term interests with those of our shareholders, as described below.

Our key 2015 compensation decisions included the following:

awarded annual cash bonuses to our named executive officers with payouts at or above the target performance levels based on the Company's achievement of "key performance indicators" (which we refer to as "KPIs") for 2015 and the Company's significant operational and exploration successes in 2015 (see " Analysis of 2015 Executive Compensation Decisions Annual Cash Bonus" below for more details);

obtained shareholder approval of an amendment to our Long-Term Incentive Plan ("LTIP") to increase the available share reserve under the LTIP by 15,000,000 shares;

granted annual equity awards to our named executive officers in January 2015, 50% in the form of service awards and 50% in the form of performance awards. The annual performance awards we granted in 2015 are scheduled to vest based on the Company's achievement of a specified relative total shareholder return ("TSR") goal, which further links our named executive officer's interests

Table of Contents

with those of our shareholders (see " Analysis of 2015 Executive Compensation Decisions Equity Incentive Awards" below for more details); and

granted special one-time performance awards to certain of our named executive officers in January 2015 that vest based on a specified relative TSR performance goal to retain and motivate those individuals who are essential to the Company's future success (see " Analysis of 2015 Executive Compensation Decisions Equity Incentive Awards" below for more details).

2016 Key Compensation Decisions

In early 2016, after a comprehensive review and evaluation of our executive compensation program, and in light of the prolonged decline in worldwide oil and gas prices, the Compensation Committee determined not to increase the base salaries of any of our named executive officers for 2016. In addition, in light of the steep decline in our stock price, and in recognition of the dilutive impact on our shareholders of equity awards granted at low stock prices, our Compensation Committee approved the grant of 2016 annual equity awards to our named executive officers with reference to the same or a lower number of shares relative to the 2015 annual equity awards. As a result, the 2016 annual equity awards granted to our named executive officers had a grant date value of less than one-half of the 2015 annual equity awards. Furthermore, despite the high level of KPI achievement in 2015 (met or exceeded in all cases), the Compensation Committee set the size of the annual bonus pool per employee 15% lower in 2016 than 2015.

**Compensation Philosophy
Compensation Objectives**

Our executive compensation program is designed to:

attract, retain and motivate talented and experienced executives in the highly competitive oil and gas industry;

reward individual and corporate performance;

align the interests of our executives and shareholders by providing a substantial portion of the executives'

compensation in the form of long-term equity-based awards granted under our LTIP; and

motivate our executives to manage our business to meet our long-term objectives, create and increase shareholder value and reward the executives when shareholder value increases.

Table of Contents

Compensation Practices

We follow sound compensation practices to support our compensation objectives and align our executive compensation program with the interests of our shareholders.

What We Do

What We Don't Do

Pay-for-Performance we align pay and performance by awarding a majority of the compensation paid to our executives in the form of "at-risk" performance-based compensation linked to Company and individual performance. For 2015, variable compensation comprised approximately 86% of the total compensation paid to our Chief Executive Officer and, on average, 85% of the total compensation paid to our other named executive officers

No Excise Tax Gross-Ups we do not provide our executives with gross-ups for the excise tax that would be imposed on the executives under Section 4999 of the Code, if they received "excess" payments and benefits in connection with a change in control

No Special Executive Retirement Programs we do not provide special executive retirement programs

Balance Short-Term and Long-Term Compensation we grant compensation to our executives that discourages short-term risk taking at the expense of long-term results

No Excessive Perquisites consistent with our pay-for-performance philosophy, we do not provide our executives with excessive perquisites

Independent Compensation Consultant our Compensation Committee engages an independent compensation consultant

No Guaranteed Payouts we do not grant cash or equity incentive compensation with guaranteed payouts

Risk Mitigation we have strong risk and control policies, we take risk management into account in making compensation decisions for each of our named executive officers and we perform an annual risk assessment of our executive compensation programs

No Hedging Shares we do not permit our employees, including our named executive officers, to engage in hedging transactions in the Company's securities, unless our General Counsel provides prior written authorization

Elements of Our Executive Compensation Program

Since our inception, our executive compensation program has consisted primarily of base salaries, annual cash bonuses and long-term equity incentive awards. For each of these elements, we take into account the practices of our industry peers. We expect that these will remain the principal elements of our executive compensation program going forward although the relative proportions of each element, and

the specific plan and award designs, will continue to evolve to support the strategy of the Company. Each element of our 2015 executive compensation program is described in more detail as follows:

Element	Objective and Basis
<p style="text-align: center;">Equity incentive awards</p>	<p>Link interests of executive officers and shareholders, as ultimate value realized depends on share price performance over the long term.</p> <p>Performance-vesting awards require comparable or superior stock performance relative to industry peers.</p>
<p>Variable Compensation</p> <p style="text-align: center;">Annual cash bonus</p>	<p>Encourage retention due to the multi-year service condition.</p> <p>Motivate and reward Company and individual performance for the year.</p> <p>Bonus amounts payable to our named executive officers are based on the Compensation Committee's quantitative and qualitative assessment of the achievement of "key performance indicators", general Company performance and individual performance goals.</p>
<p>Fixed Compensation</p> <p style="text-align: center;">Base salary</p>	<p>Competitive for each role, taking into account experience and level of responsibility in companies of similar size, complexity and stage of development.</p> <p>A basic fixed component, which comprises a relatively modest portion of overall compensation.</p>
<p style="text-align: center;">Retirement Plans</p>	<p>We do not provide any supplemental executive retirement plans.</p>
<p>Employee Benefits</p> <p style="text-align: center;">Health and Welfare Benefits</p>	<p>Our executive officers are eligible to participate in our 401(k) plan on the same basis as our employees generally.</p>

Our employees at the level of Vice President and above are entitled to the same health and welfare benefits during employment that are offered to U.S.-based employees generally, except that they are also entitled to executive long-term care, executive supplemental disability income insurance, up to \$5,000 reimbursement for financial planning services and, as of January 1, 2016, payment of premiums for executive life insurance. Our Senior Vice Presidents and above (which includes our named executive officers) are also entitled to annual executive physicals.

Table of Contents

Our executive compensation philosophy for 2015 was implemented through a compensation structure which paid our named executive officers base salaries that represent a relatively modest percentage of their total compensation, while offering them the opportunity to earn a significant portion of their compensation in the form of annual cash bonuses and long-term equity incentive awards. We refer to the cash bonus and long-term equity incentive awards collectively as variable compensation. The portion of each compensation element as a percentage of total compensation paid in 2015 to our CEO and the average of such compensation paid to our other named executive officers was as follows:

We believe that this mix of base salaries, annual cash bonuses and long-term equity incentive awards provides an appropriate balance between incentivizing short-term business imperatives and long-term financial and share performance.

Executive Compensation Procedures
Role of the Compensation Committee

Our Compensation Committee is responsible for the approval, evaluation and oversight of our executive officer compensation and equity incentive compensation plans, policies and programs. Compensation Committee members discuss compensation matters with each other outside regularly scheduled meetings. The Compensation Committee may delegate its authority to subcommittees or the Chairman of the Compensation Committee when it deems it appropriate and in the best interests of the Company. The Compensation Committee may also delegate to one or more officers of the Company the authority to make equity grants to employees other than our executive officers under the LTIP. As Chairman of the Compensation Committee, Mr. Melwani reports to the full Board regarding compensation matters.

The Compensation Committee meets outside the presence of our Chief Executive Officer and our other named executive officers to consider the appropriate compensation for our Chief Executive Officer. The Compensation Committee analyzes the performance of our Chief Executive Officer and determines his base salary, any annual cash bonus and any grant of equity-based awards. For all other named executive officers, the Compensation Committee meets outside the presence of the named executive officers, except our Chief Executive Officer. Our Chief Executive Officer reviews the performance of each named executive officer (other than himself) with the Compensation Committee and makes recommendations to the Compensation Committee on the appropriate base salary, any annual bonus and any grant of equity-based awards. Our Chief Executive

Table of Contents

Officer has no role in the decision-making process for determining his compensation. For more on the Compensation Committee's responsibilities, see "Board of Directors, Board

Meetings and Committees Committees of the Board of Directors Compensation Committee" above.

Role of Compensation Consultant

Since our IPO, the Compensation Committee has engaged Meridian to provide independent advice on executive compensation trends and issues, compensation practices within the oil and gas industry, and the design and structure of our executive compensation programs. Meridian has also provided similar information and input regarding outside director compensation.

Meridian reports directly and exclusively to the Compensation Committee, and at the Compensation Committee's direction Meridian works with management to review or prepare materials for the Compensation Committee's consideration. Meridian did not provide any other services to the Company or our management in 2015. Meridian participated in several conversations with the Compensation Committee and Committee Chairman in 2015 and early 2016 and developed materials for the Compensation Committee's consideration at meetings.

Meridian provided current information on industry compensation trends and practices and their application to Kosmos for the Company and the Compensation Committee to consider regarding compensation levels and incentive compensation design. Meridian updated the Compensation Committee on recent executive compensation trends in the oil and gas exploration and production industry as context for the Compensation Committee's annual compensation review.

For 2015, Meridian provided the Compensation Committee with information necessary for an evaluation of its independence in accordance with Section 10C-1 of the Exchange Act to determine whether a potential conflict of interest might arise in connection with advising the Compensation Committee. After reviewing the information provided, the Compensation Committee concluded that the advice provided by Meridian is independent and no conflicts or potential conflicts of interest exist.

Compensation Benchmarking

The Compensation Committee uses industry peer compensation data as a reference for pay levels and practices and considers such data relevant to, but not determinative of, its consideration of overall executive compensation matters.

In 2015, Meridian referenced compensation data collected in its proprietary industry survey of 50 North American exploration and production companies. For a list of these companies, see [Annex A](#) to this proxy statement.

The Compensation Committee noted that the surveyed companies vary in size and scope,

operate in different geological basins and generally have less focus on deepwater exploration than does Kosmos. In general, Kosmos competes with these companies for talent, and the Committee believes that they are currently appropriate for executive compensation comparison. When considering executive compensation decisions, the Committee takes into consideration the differences and similarities between Kosmos and the surveyed companies.

Advisory Vote to Approve Named Executive Officer Compensation

At our 2015 annual general meeting of shareholders, approximately 99.6% of votes were cast, on an advisory basis, in favor of our named executive officer compensation. As such, the Compensation Committee has concluded that our shareholders are satisfied with our existing

Table of Contents

named executive officer compensation program. Based on this result and our ongoing review of our compensation policies and decisions, we believe that our existing compensation program effectively aligns the interests of our named executive officers with shareholder interests and our long-term goals.

Nevertheless, we continually consider ways to modify our compensation program to

strengthen this alignment of interests. Our shareholders will have an opportunity again this year to vote, on an advisory basis, on our named executive officer compensation. The Compensation Committee will carefully consider the results of this year's shareholder vote, along with all shareholder views on our compensation programs that are communicated to us, when making future compensation decisions for our named executive officers.

**Analysis of 2015 Executive Compensation Decisions
Equity Incentive Awards**

Equity Compensation Overview

Our equity compensation program is designed to align our executives' interests with those of our shareholders by motivating our executives to contribute significantly to our success and to create long-term shareholder value. We believe that a performance-driven, team-based culture is crucial to our future success. Therefore, we grant equity awards to all of our U.S.-based employees to align their interests with those of our shareholders and to expose them to the same upside and downside risks as our shareholders.

We have historically granted equity awards under our LTIP in the form of service-vesting restricted shares or units (which we refer to as "service awards") and performance-vesting restricted shares or units (which we refer to as "performance awards"). We believe that these equity awards incentivize our employees to work toward our continued success, and motivate their retention with the Company. The awards align the interests of our employees with those of our shareholders, as the ultimate value received depends on the share price on the vesting date and, in the case of the performance awards, the level of attainment of the specified relative TSR goal. In addition, while grants of service awards do not have explicit performance-vesting conditions, due to the nature of our industry and the high-risk environment in which we operate,

the ultimate value realized from service awards depends significantly on our future operating performance.

We typically grant equity awards as part of our annual and new hire equity grant process. In 2015, we granted annual equity awards in January, which was a departure from our historical practice of granting annual equity awards in June of each year. We expect to make future annual equity awards each January. The shift to a January grant date is intended to be consistent with prevailing industry practice and to enable our Compensation Committee to make comprehensive compensation decisions for our executives after the end of each year (contemporaneous with decisions regarding the payment of annual bonuses and base salary adjustments).

Our named executive officers are generally not entitled to minimum or guaranteed annual equity incentive awards. However, our offer letter with Mr. Inglis provides that he will be eligible to receive annual equity awards during his employment that are expected to have a grant date value equal to 2.5 times his base salary, but with the actual grant date value of any such award determined in the discretion of the Board (or a committee thereof).

2015 Equity Awards

In 2015, we granted annual equity awards to our named executive officers, 50% in the form of

service awards and 50% in the form of performance awards. The 2015 annual grants of

Table of Contents

service and performance awards were granted subject to our shareholders' approval of a proposed amendment to the LTIP to increase the share reserve under the LTIP (which our shareholders approved at our 2015 annual general meeting of shareholders).

In 2015, in addition to annual service and performance awards, we also granted one-time special performance awards to our named executive officers (other than Mr. Chambers,

due to the timing of his start date with the Company) and to certain other employees who are regarded as being essential to the Company's future success.

The table below sets forth the number of shares underlying each of the service awards, performance awards and special performance awards granted to our named executive officers in 2015, as well as the value of the awards as of the grant date.

Name	Performance Awards

The value of the awards was determined by multiplying the number of shares underlying the awards (assuming target level performance, in the case of performance awards), by \$8.64, which was the closing price of a share of the Company on the grant date (January 23, 2015), rounded to the nearest whole dollar. The values of the awards reflected in this table differ from those shown in the "Stock Awards" column of the "Summary Compensation Table" on page 37 of this Proxy Statement due to SEC regulations requiring that the performance awards be reported in the "Summary Compensation Table" based on the probable outcome of the applicable performance conditions.

The diagrams below illustrate the mix of service and performance awards granted in 2015 to our CEO and the average mix of such awards granted to our other named executive officers. The diagrams reflect the fair value of the awards on the grant date and assume target level achievement of the performance conditions for the performance awards.

Table of Contents

The annual service awards granted to our named executive officers in 2015 vest one-third each year over three years based on continued service. Vesting of the annual performance awards and the special performance awards granted in 2015 requires attainment of both a service and a performance condition. The service condition is attained one-third each year over three years, and the performance condition is attained after three years based on a specified relative TSR performance goal. Prior to 2015, the service and performance awards we granted were subject to four-year service and performance periods. We revised this practice in 2015 to maintain our competitive position among our peers and to attract and retain superior talent.

The attainment of the performance condition will be determined on the last day of the three-year performance period (as specified below) based on our TSR as compared to the TSR of a specified group of industry "performance peer" companies (listed below). TSR will be calculated as the percentage by which the average closing price of a share of Kosmos or a share of a peer company on each of the 30 trading days ending on the last day of the performance period is more or less than the average closing price of the share on each of the 30 trading days ending on the first day of the performance period, plus the amount of any dividends or distributions that are declared during the performance period.

The performance condition for the performance awards granted to our named executive officers in 2015 will be attained based on the percentile ranking of our TSR relative to the TSR of each of the peer companies during the performance period commencing January 2, 2015 and ending January 2, 2018, as follows:

TSR Ranking	Attainment of Performance Condition
75th percentile and above	200%
50th percentile (target)	100%
25th percentile	25%
Below 25th percentile	0%

The percentage of the performance condition attained will be interpolated for performance between the percentiles shown above. To the extent that the performance condition is attained above the target performance level, our Compensation Committee, in its sole discretion, may provide for settlement of any such above-target portion of the performance awards in cash in lieu of shares. This discretion to settle the performance awards in cash is intended to provide our Compensation Committee flexibility to preserve shares under the LTIP for future new hire and annual equity awards and to reduce dilution to shareholders.

The 11 industry performance peer companies for performance awards granted to our named executive officers in 2015 are listed below. If a peer company is no longer publicly traded on the last day of the performance period, it will be removed from the group of performance peers and will not be replaced. These companies were selected because they are the oil and gas exploration and production companies most like Kosmos in terms of geographic reach and development stage.

To receive any payout under the service and performance awards, our named executive officers and other employees generally must remain employed with us through the vesting date and, in the case of performance awards, the TSR performance condition must be satisfied. However, the awards are subject to accelerated vesting under specified circumstances (see "2015 Compensation Potential Payments Upon Termination or Change in Control" below).

Historically, the service and performance awards granted to our executives generally provided for accelerated vesting on the first anniversary of a "change in control" of Kosmos (if earlier than the regularly scheduled vesting date).

However, commencing with the service and performance awards granted in 2015 to our executives (other than Mr. Inglis), the vesting of the service and performance awards will only accelerate in connection with a change in control if a qualifying termination of employment occurs on or within one year after the change in control. We think this practice further aligns our equity compensation program with the interests of our shareholders.

For details on the outstanding equity awards granted to our named executive officers in 2015 and prior years, including the numbers of shares, dollar values, vesting schedules and acceleration and forfeiture provisions, see the tables and narrative under "2015 Compensation" below.

2016 Equity Awards

In January 2016, our Compensation Committee continued the prevailing incentive mix of granting our named executive officers service and performance awards. In light of the steep decline in our stock price, and in recognition of the dilutive impact of equity incentive awards at low stock prices on our shareholders, management recommended that the January 2016 equity incentive awards be granted with respect to the same number of

shares as the 2015 annual equity awards. Our Compensation Committee accepted this recommendation, and based on a closing price of \$3.72 on January 22, 2016, the 2016 annual equity awards granted to our named executive officers had a grant-date value of less than one-half of the 2015 annual equity awards. Our Compensation Committee did not grant any additional special performance awards in 2016.

Annual Cash Bonus

Annual cash bonuses approved by the Compensation Committee for our named executive officers for 2015 were based on Company and individual performance. In November 2014, the Board of Directors, in consultation with our Chief Executive Officer, established stretch "key performance indicators" (which we refer to as "KPIs") for 2015 that are derived from our strategic and business growth plan and demonstrate year-over-year improvement. The Board of Directors also approved the bonus opportunities for our named executive officers. The bonus range for each named executive officer was 0% - 200% of his target bonus opportunity.

The actual amount of the bonus pool available for bonus payments to our named executive officers was determined based on the Compensation Committee's quantitative and

qualitative assessment of the level of achievement of the KPIs and overall Company financial and operating performance. Actual individual bonus amounts payable to our named executive officers were then determined based on the Compensation Committee's review and assessment of the individual performance of each of our named executive officers (taking into account our Chief Executive Officer's assessment of individual performance of each executive, other than himself).

In December 2015, the Compensation Committee reviewed a comprehensive report prepared by management summarizing the Company's performance against the pre-established 2015 KPIs and the Company's strategic, financial, exploration, development and production performance.

The amounts in this column represent 200% of each named executive officer's target bonus opportunity.

Base Salary

Base salary is the sole fixed component of our executive compensation program and represents a relatively small portion of our named executive officers' total compensation package, offering them a measure of certainty and predictability. We generally review salary ranges and individual salaries for our named

executive officers annually. We establish the base salary for each named executive officer based on our review of pay levels across industry peers and business requirements for certain skills, individual experience and contributions and the roles and responsibilities of the executive. We believe competitive base salaries are necessary to

Table of Contents

attract and retain an executive management team with the appropriate abilities and experience required to lead us and execute our strategy.

Our named executive officer salaries are intended to be competitive with those of our industry peers. We do not have a prescribed policy or broadly applied guideline for how salaries should compare to external survey data. Base salaries are subject to change if, among other reasons, the executive's experience or responsibilities change materially or there are changes in the competitive market environment.

Based on the Compensation Committee's review of peer data in early 2015, the

Compensation Committee determined to approve an increase in the base salary paid to each of our named executive officers as set forth in the table below, effective as of January 1, 2015, to remain competitive and to accurately reflect each executive's role and responsibilities.

In early 2016, the Compensation Committee reviewed the base salaries paid to each of our named executive officers and, in light of the challenging external environment, deemed the base salaries to be competitive with those paid for similar positions at companies in our peer group. As such, the Compensation Committee determined not to increase the base salaries paid to each of our named executive officers for 2016.

Benefits and Perquisites

Our named executive officers are entitled to the same health and welfare benefits as our employees generally, including medical, prescription drug, dental and vision insurance, and are also entitled to annual executive physicals, financial and tax planning services, relocation benefits and payments of premiums for supplemental health and welfare benefits. Our named executive officers participate in our tax-qualified 401(k) plan on the same basis as our employees generally and are not entitled to

any supplemental executive retirement benefits. Under the 401(k) plan, the Company matches 100% of an employee's elective deferrals up to a specified percentage of eligible compensation (8% in 2015), subject to applicable limitations under the Internal Revenue Code.

For details and the amounts of such benefits, see the "All Other Compensation" column of the 2015 Summary Compensation Table and the accompanying footnotes below.

Termination and Change in Control Benefits

Equity Awards

The vesting of the equity awards held by our named executive officers accelerates in connection with specified terminations of employment or a change in control. See "2015 Compensation Potential Payments Upon Termination or Change in Control" below.

Offer Letters

The offer letter agreements we have entered into with each of our named executive officers (other than Mr. Maxted) provide for specified termination payments and benefits. See

"2015 Compensation Potential Payments Upon Termination or Change in Control Offer Letters" below.

Table of Contents

Severance Policy

We maintain a change in control severance policy that is designed to encourage continuity of management and other employees after a "change in control" (as defined in the LTIP). The policy provides severance benefits to regular full-time U.S. employees whose employment is terminated in connection with a change in control. Our named executive officers are not

covered by any severance policy or program for terminations that occur other than in connection with a change in control. For more information on our change in control severance policy, see "2015 Compensation Potential Payments Upon Termination of Change in Control Severance Policy" below.

Clawback Policy

Under the Dodd-Frank Act, the New York Stock Exchange is obligated to adopt rules that will require the Company to develop and implement a policy providing that, in the event of an accounting restatement due to material noncompliance with reporting requirements under securities laws, the Company will recover from executive officers incentive-based

compensation in excess of the amount that would have been paid to the executive officers under the accounting restatement for the three-year period before the restatement. Once these rules are adopted, the Board intends to adopt a formal policy regarding the recovery of compensation in compliance with the rules.

Policy Prohibiting Hedging Transactions

Our Insider Trading Policy prohibits our employees, including our named executive officers, from engaging in speculative transactions in the Company's securities, including short sales and, unless our General Counsel provides prior written authorization, publicly traded options and margin accounts.

During the past five years, none of our named executive officers have engaged in any of the aforementioned hedging transactions with respect to any Company securities.

Compensation Risk Assessment

Our management team has reviewed our compensation policies and practices for all of our employees with our Compensation Committee. We believe that the balanced pay mix, diversified performance metrics, emphasis on long-term equity incentive compensation tied to service and performance conditions, the overall amount of compensation and our internal controls and

oversight by the Compensation Committee and our Board, mitigate any potential risks.

The Compensation Committee has determined, based on this review, that our compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally limits the federal income tax deduction for compensation paid to each of the chief executive officer and the three other most highly compensated executive officers (other than the chief financial officer) of a publicly held corporation to \$1 million per year, with an exception for performance-based compensation

paid based on the attainment of pre-established performance goals. We consider deductibility under Section 162(m) of the Internal Revenue Code when structuring our compensation arrangements for our executive officers. However, depending on the relevant circumstances at the time, we may determine to award compensation that may not be deductible.

Inglis and Chambers for 2014 and for Mr. Ball for 2013 reflect the actual amount of salary paid to such named executive officer for the relevant fiscal year, prorated based on his start date.

(2) The amounts reported for 2014 in this column for Mr. Inglis represent the sign-on bonus paid to him in connection with the commencement of his employment in 2014. The amounts reported for 2013 and 2014 for Mr. Ball represent the payment of a sign-on bonus and retention bonus paid in connection with the commencement of his employment in 2013 and the first anniversary of his start date in 2014, respectively.

(3) The amounts reported for 2015 are the annual bonuses that our named executive officers received in January 2016 for performance during 2015 pursuant to our annual incentive plan, based on achievement of the applicable KPIs and the Compensation Committee's assessment of overall Company and individual performance. For additional information on these bonuses, see "Compensation Discussion and Analysis Analysis of 2015 Executive Compensation Decisions Annual Cash Bonus" above.

(4) The amounts in this column reflect the aggregate grant date fair values of the service and performance awards granted under the LTIP in 2015 to the named executive officers (including the one-time grant of special performance awards to our named executive officers, other than Mr. Chambers), in each case, calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. The actual value, if any, that the executives will realize for these awards is a function of the value of the underlying shares if and when these awards vest and, for performance awards, the level of attainment of the applicable performance goal.

Edgar Filing: Kosmos Energy Ltd. - Form DEF 14A

The amounts for the performance awards were calculated based on the probable outcome of the performance condition as of the grant date, consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. For these amounts, see the "Grant Date Fair Value of Stock and Option Awards" column of the "2015 Grants of Plan-Based Awards" table below. The following are the values of the performance awards as of the

(2)

These amounts reflect the performance awards, which are scheduled to vest between 0% and 200% of the number of shares shown in the "Target" sub-column based on attainment of both a service condition that will lapse one-third each year over three years and the specified relative TSR performance condition that will be measured

on January 2, 2018. The amounts in the "Threshold" sub-column reflect the 25% of the shares shown in the "Target" sub-column that will vest on attainment of the service condition and the threshold performance level. If either the service condition or the threshold performance level is not attained, the awards will be forfeited. The amounts in the "Target" sub-column reflect the 100% of the shares that will vest on attainment of the service condition and the target performance level. The amounts in the "Maximum" sub-column reflect the 200% of the shares that will vest on attainment of the service condition and the maximum performance level. For more on the terms of these awards, see "Compensation Discussion and Analysis Analysis of 2015 Executive Compensation Decisions Equity Awards" above.

(3) These amounts reflect service awards that are scheduled to vest one-third each year over three years, based solely on service.

(4) The amounts in this column for the service awards reflect their aggregate grant date fair values, calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures.

The amounts in this column for the performance awards were calculated based on the probable outcome of the performance condition as of the grant date, consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. For the values of these awards, assuming attainment of the maximum level of performance, see footnote 4 to the "2015 Summary Compensation Table" above. The actual value, if any, that each named executive officer will realize for these performance awards is a function of the value of the shares if and when the awards vest.

For additional information on how we account for equity-based compensation, see Note 12 to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2015.

(2) Unless indicated otherwise in the footnotes below, the number of shares underlying performance awards reflected in this table assumes maximum attainment of the specified relative TSR goal. The actual number of shares, if any, that will vest will be based on (i) the level of achievement of the relative TSR goal as of the actual end of the performance period and (ii) satisfaction of the applicable service condition, in each case, as indicated in the footnotes below, plus the amount of any dividends or distributions that are declared on the shares during the applicable performance period. Each named executive officer holds service and performance awards that were unvested as of December 31, 2015. Under the terms of the applicable award agreements, and, in the case of Mr. Inglis, the terms of his offer letter, these awards are subject to accelerated vesting under specified circumstances. The amounts in the table are based on the \$5.20 closing price of a share on December 31, 2015. For performance awards, if (i) the awards remain subject to the satisfaction of the specified relative TSR goal following such termination of employment or (ii) the specified relative TSR goal is calculated based on actual achievement as of a change in control,

these amounts assume maximum attainment of such goal as of December 31, 2015. See " Equity Awards" and " Offer

- (6) Represents a lump-sum cash severance payment under our severance policy equal to 24 months of base salary plus four additional weeks of base salary for each year of service (for Mr. Chambers, four additional weeks; for Mr. Maxted, 48 additional weeks; for Mr. Ball, eight additional weeks; and for Mr. Doughty, 16 additional weeks) and any additional amounts payable for any partial year of service.

These estimates are based on the costs incurred in moving each executive (and, for Mr. Doughty, his family) to the Dallas/Fort Worth area.

Offer Letters

The offer letter agreements we have entered into with each of our named executive officers (other than Mr. Maxted) provide for specified termination payments and benefits, as follows:

On termination of Mr. Inglis' employment by us without "cause" or by him for "good reason" (as such terms are defined in his offer letter and summarized below under " Equity Awards Definitions"), Mr. Inglis is entitled to (i) cash severance in an amount equal to two times the sum of his base salary and target bonus (payable in equal monthly installments over 24 months), (ii) continued medical and dental coverage for him and his dependents for 24 months and (iii) accelerated vesting of the service awards granted to him on April 1, 2014.

If the employment of each of Messrs. Chambers, Ball and Doughty is terminated through no fault of his own or his position is eliminated and he is not offered a comparable position in Dallas, Texas, then (i) Mr. Chambers will receive (a) cash

Edgar Filing: Kosmos Energy Ltd. - Form DEF 14A

severance in amount equal to the sum of 12 months' base salary and target bonus and (b) continued medical and dental coverage for him and his eligible dependents for 12 months and (ii) each of Messrs. Ball and Doughty will receive (a) his annual base salary and (b) reimbursement of the cost of medical and dental insurance for

him and his dependents, in each case for a specified period (18 months for Mr. Ball and 12 months for Mr. Doughty). Mr. Doughty will also receive 12 months of estimated bonus payments.

Each of Messrs. Ball and Doughty is also entitled to payment of reasonable and customary expenses associated with his moving back to the United Kingdom (for Mr. Ball) or Houston, Texas (for Mr. Doughty) under the circumstances described in footnote 10 to the "Potential Payments Upon Termination or Change in Control" table above.

The entitlement of each of Messrs. Inglis and Chambers to these payments is conditioned on his execution and non-revocation of a general release of claims against the Company.

Severance Policy

Our severance policy is designed to encourage continuity of management and other employees after a change in control. The policy provides severance benefits to regular full-time U.S. employees whose employment is terminated in connection with a "change in control" (as defined in the LTIP and summarized below) as a result of:

work force reduction;

departmental reorganization that results in job elimination;

departmental reorganization that results in a material diminution of the skills, requirements, aptitudes or other criteria of the position, if the employee declines an offer of continued employment in the altered position or in another position that the Company deems comparable in its reasonable discretion; or

relocation of the job functions outside of a 50-mile radius, if the employee is not offered employment at the new location or declines an offer of employment at the new location.

The severance policy provides for the following termination benefits:

a lump-sum cash severance payment in an amount determined based on the employee's title, years of service and base salary (for our named executive officers, this amount equals 24 months of base salary plus four additional weeks of base salary for each year of service);

a prorated portion of the employee's target bonus for the current year, if not paid prior to the date of termination;

a cash payment in an amount equal to the premium cost of continued healthcare coverage for a specified period (24 months for our named executive officers);

outplacement services for a specified period (18 months for our named executive officers); and

payout of unused vacation time.

Employees, including our named executive officers, who have a separate severance agreement may receive benefits under that agreement or the severance policy, but not both. To receive severance benefits under the severance policy, an employee must sign and not revoke a separation and release agreement in the form prescribed by the Company.

Equity Awards

Service Awards

Service awards held by each of our named executive officers are scheduled to vest based solely on service and would have fully vested on December 31, 2015, if on that date their employment had terminated due to their death or "disability", or in the case of the service award granted to Mr. Inglis in April 2014 and the service award granted to Mr. Doughty in 2013, if his employment was terminated by us without "cause" or by him for "good reason". Had we undergone a change in control on December 31, 2015, these awards would have become fully vested on the earliest to occur of:

the regularly scheduled vesting date, if the executive remained employed through the vesting date;

for all service awards granted to Mr. Inglis, and for service awards granted to the other named executive officers before 2015, the first anniversary of the change in control, if the executive remained employed through the anniversary date;

termination of the executive's employment due to his death or "disability";

for our named executive officers other than for Mr. Inglis, termination of the executive's employment by us or the acquiror without cause or by him for good reason (for service awards granted in 2015, such termination must occur within one year after such change in control); and

for Mr. Inglis, the later of the date of termination or the change in control, if Mr. Inglis' employment is terminated by us without "cause" or by him for "good reason" during the period beginning three months before, and ending one year after, such change in control, provided that any termination during the period beginning three months before such change in control was at the request of a third party that had taken steps reasonably calculated to effectuate such change in control or that otherwise arose in connection with or anticipation of such change in control.

These service awards would have been forfeited on termination of employment under any other circumstances.

Performance Awards

For performance awards held by our named executive officers, the service condition would have been fully attained on December 31, 2015, if on that date the executive's employment had terminated due to his death or disability, or in the case of the performance awards granted to Mr. Doughty in 2013, had his employment been terminated by us without cause or by him for good reason, and such awards would have remained subject to the performance condition.

Had the executive terminated his employment without good reason at any time, or (other than for performance awards granted to Mr. Doughty in 2013) had his employment been terminated by us without cause or by him for good reason at any time other than on, or within one year after, a change in control, then any portion of the performance award for which the applicable service condition had been satisfied as of such termination date would have remained subject to the applicable performance condition, and any remaining portion of the award would have been forfeited without any payment to the executive.

Table of Contents

Had we undergone a change in control on December 31, 2015, the performance condition would have been treated as set forth below, and the awards would have remained subject to the service condition to the extent not yet met:

for performance awards granted to our named executive officers (other than Mr. Inglis) prior to 2015, the performance condition would have been deemed attained at the target performance level;

for performance awards granted to our named executive officers (other than Mr. Inglis) in 2015, the performance condition would have been determined based on actual performance as of the date of such change in control; and

for performance awards granted to Mr. Inglis, the performance condition would have been deemed attained at the maximum performance level.

In connection with the change in control, the performance awards would have vested or been forfeited under the same circumstances as are described above for service awards.

These performance awards would have been forfeited on termination of employment under any other circumstances.

Definitions

For purposes of the accelerated vesting of the named executive officers' equity awards under the circumstances described above, "cause," "change in control," "disability" and "good reason" are defined in the LTIP (or, for Mr. Inglis, in his offer letter) as follows:

"Cause" generally means the named executive officer's:

- (i) failure (or, in the case of Mr. Inglis, material failure) to perform his duties (other than any such failure resulting from his physical or mental incapacity);
- (ii) having engaged in misconduct, negligence or a breach of fiduciary duty (or, in the case of Mr. Inglis, having engaged in serious misconduct, gross negligence or a material breach of a fiduciary duty);
- (iii) having been convicted of, or having entered a plea bargain or settlement admitting guilt or the imposition of unadjudicated probation for, any crime of moral turpitude or felony under any applicable law;
- (iv) breach (or, in the case of Mr. Inglis, material breach) of any restrictive covenant (and, in the case of Mr. Inglis, any notice requirement, garden leave provision or similar requirement) to which he is subject;
- (v) breach (or, in the case of Mr. Inglis, material breach) of any of our policies, including any policy that relates to expense management, human resources or the Foreign Corrupt Practices Act;
- (vi) unlawful use or possession of illegal drugs on our premises or while performing his duties to us; or
- (vii) commission of an act of fraud, embezzlement or misappropriation, in each case, against us.

In the case of Mr. Inglis, if the Company believes that he has committed an act giving rise to cause under clauses (i), (ii), (iv) or (v) above, then, if such act or omission is reasonably susceptible of

Table of Contents

cure, we must provide Mr. Inglis written notice specifying the circumstances alleged to constitute cause within 90 days of the Board's first obtaining knowledge of such circumstances. Mr. Inglis then has 30 days to cure the circumstances. If he has not cured the circumstances within such 30-day period, we may terminate Mr. Inglis' employment within 60 days after the end of such 30-day period.

"Change in Control" generally means the occurrence of one or more of the following events:

- (i) the acquisition of 50% or more of the combined voting power of our outstanding securities (other than by our controlling shareholders);
- (ii) the replacement of the majority of our directors during any 12-month period (other than by directors approved by a majority of our remaining directors);
- (iii) the consummation of our merger, amalgamation or consolidation with another entity (unless our voting securities outstanding immediately before such transaction continue to represent more than 50% of the combined voting power of the surviving or resulting entity outstanding immediately after such transaction); or
- (iv) the transfer of our assets having a gross fair market value of 50% or more of the total gross market value of our assets immediately before such transfer (other than any such transfer immediately after which such assets are owned directly or indirectly by our shareholders in substantially the same proportions as their ownership of our common shares immediately before such transfer), and the subsequent distribution of the proceeds from such transfer to our shareholders having a fair market value that is greater than 50% of our fair market value immediately before such transfer.

"Disability" generally means "disability" as defined in our long-term disability plan for the purpose of determining eligibility for benefits. If such plan contains multiple definitions of disability, then "disability" refers to that definition of disability which, if the named executive officer qualified for such benefits, would provide coverage for the longest period.

"Good Reason" generally means the occurrence of any of the following events without the named executive officer's consent:

- (i) a reduction in his base salary or target bonus, other than any such reduction that applies generally to similarly situated employees (or, in the case of Mr. Inglis, that applies to senior executives of the Company);
- (ii) relocation of his principal place of employment by more than 50 miles; or
- (iii) a material reduction in his duties or responsibilities (in the case of our named executive officers other than Mr. Inglis, that occurs within two years after a change in control).

In each case, the executive must provide us with written notice specifying the circumstances alleged to constitute good reason within 90 days after the circumstances first occur. We then have 30 days to cure the circumstances. If we have not cured the circumstances within such 30-day period, the executive is required to resign within 60 days after the end of such 30-day period.

The vesting of the service awards granted in 2015 will accelerate on death or disability.

The amounts in this column reflect the aggregate grant date fair values of such service awards, calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. AUDIT COMMITTEE REPORT

The Audit Committee of the Board currently consists of three non-employee independent directors: Messrs. Tong and Darricarrère and Sir Richard B. Dearlove.

Management is responsible for the Company's system of internal controls and the financial reporting process. The independent accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit Committee is responsible for monitoring (1) the integrity of the Company's financial statements, (2) the Company's compliance with legal and regulatory requirements and (3) the independence and performance of the Company's auditors.

The Audit Committee has reviewed and discussed with the Company's management and the independent accountants the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the consolidated financial statements. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. The Audit Committee discussed with the independent accountants matters required to be discussed by Statement of Auditing Standards No. 61, "Communications with Audit Committees," as amended (AICPA, Professional Standards, Vol. 1 AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The Company's independent accountants also provided to the Audit Committee the written disclosure required by applicable requirements of the Public Company Accounting Oversight Board regarding independent accountant's communications with the Audit Committee concerning independence. The Audit Committee discussed with the independent accountants that firm's independence.

Based on the Audit Committee's discussions with management and the independent accountants, and the Audit Committee's review of the representation of management and the report of the independent accountants to the Audit Committee, the Audit Committee recommended that the Board include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC.

PROPOSAL 1 ELECTION OF DIRECTORS

Our bye-laws provide that our Board shall consist of not less than five and not more than 15 directors, and the number of directors may be changed only by resolution adopted by the affirmative vote of a majority of the entire Board. The Board currently consists of 11 directors: Andrew G. Inglis, Brian F. Maxted, Yves-Louis Darricarrère, Sir Richard B. Dearlove, David I. Foley, David B. Krieger, Joseph P. Landy, Prakash A. Melwani, Adebayo ("Bayo") O. Ogunlesi, Chris Tong and Christopher A. Wright. The Board currently consists of a single class of directors, each serving one-year terms.

The Board has nominated 11 directors for election at the annual general meeting to serve until the 2017 annual general meeting of shareholders, and until their respective successors are duly elected. Our shareholders do not have cumulative voting rights and, accordingly, the holders of a plurality of the shares voted can elect all of the directors then standing for election.

We are soliciting proxies in favor of the election of each of the nominees identified

below. We intend that all properly executed proxies will be voted for these 11 nominees unless otherwise specified. All nominees have consented to serve as directors, if elected. If any nominee is unwilling to serve as a director at the time of the annual general meeting, the persons who are designated as proxies intend to vote, in their discretion, for such other persons, if any, as may be designated by the Board. The proxies may not vote for a greater number of persons than the number of nominees named. As of the date of this Proxy Statement, the Board has no reason to believe that any of the persons named below will be unable or unwilling to stand as a nominee or serve as a director, if elected.

The Board believes that each nominee has valuable individual skills and experiences that, taken together, provide us with the knowledge, judgment and strategic vision necessary to provide effective oversight of the Company. The biographies below reflect the particular experience, qualifications, attributes and skills that led the Board to conclude that each nominee should serve on the Board.

If an auditor is not appointed by shareholders at the annual general meeting, Ernst & Young LLP, as the incumbent independent registered public accounting firm, will continue in office until a

successor is appointed in accordance with Bermuda law and the Company's bye-laws. The affirmative vote of the holders of a majority of the votes cast at the annual general meeting, at which a quorum is present, is required to approve the appointment and the authorization of the Audit Committee to set their remuneration.

PROPOSAL 3 ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

At our 2012 annual general meeting of shareholders, a majority of our shareholders voted, on a nonbinding, advisory basis, to hold a nonbinding, advisory vote on named executive officer compensation every year. Consistent with this recommendation by our shareholders, the Company intends to submit an annual nonbinding, advisory vote on the compensation of the Company's named executive officers until the next vote on the frequency of the shareholder nonbinding, advisory vote on named executive officer compensation. Accordingly, as required by Section 14A of the Exchange Act, we are providing our shareholders with the opportunity to cast a nonbinding, advisory vote on the 2015 compensation of our named executive officers as disclosed in this Proxy Statement, including the Compensation Discussion and Analysis, the compensation tables and other narrative executive compensation disclosures.

As described in detail above in this Proxy Statement under "Compensation Discussion and Analysis," we seek to pay our named executive officers for performance, to closely align the interests of our named executive officers with the interests of our shareholders and to attract, retain and motivate top talent. Please refer to the Compensation Discussion and Analysis, the compensation tables and the other narrative compensation-related disclosures of this Proxy Statement for a detailed discussion of our executive compensation principles and practices and the 2015 compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather our overall executive compensation principles and practices and the 2015 compensation of our named executive officers.

To help ensure that all shareholder views are well understood by the Board, we also encourage shareholders to use any of a number of direct communication mechanisms to effectively raise specific issues or concerns regarding our executive compensation principles and practices (see "Board of Directors, Board Meetings and Committees Communications with the Board" above).

Vote Required

The affirmative vote of a majority of the votes cast at the annual general meeting, at which a quorum is present, is required to approve Proposal 3. Abstentions shall not be treated as votes cast.

Shareholders are being asked to vote on the following resolution:

"RESOLVED, that the Company's shareholders approve, on a nonbinding, advisory basis, the compensation of the Company's executive officers named in the Summary Compensation Table, as disclosed pursuant to Item 402 of Regulation S-K (which disclosure includes the Compensation Discussion and Analysis, the accompanying compensation tables and related narrative)."

Although the vote on this proposal is advisory and, therefore, is not binding, the Compensation Committee will carefully consider the shareholder vote on this matter, including whether any actions will be necessary to address the concerns, if any, of our shareholders.

Recommendation

The Board recommends a vote "FOR" the approval of the compensation of our named executive officers as disclosed in this Proxy Statement. If not otherwise specified, proxies will be voted "FOR" Proposal 3.

GENERAL MATTERS

Record Date

The Board fixed the record date for the determination of shareholders entitled to notice of and to vote at the annual general meeting as of the close of business on April 18, 2016. Our

only outstanding voting securities are our common shares, \$0.01 par value per share, of which 385,179,891 shares were outstanding as of the close of business on the record date.

Voting Your Proxy

Our shareholders are entitled to one vote for each common share that is owned on the record date on all matters considered at the annual general meeting. You may vote your shares either in person or by proxy. To vote by proxy, you may submit your proxy and direct how to vote your shares by telephone using the toll-free number listed on the Proxy Card, via the Internet at the website listed on the Proxy Card or by marking, dating, signing and mailing the enclosed Proxy Card in the prepaid envelope provided. When using Internet or telephone voting, the voting systems will verify that you are a shareholder through the use of a company number for Kosmos Energy Ltd. and a control number unique to you. *If you submit your proxy and direct how to vote your shares via the Internet or by telephone, please do not also mail the enclosed Proxy Card.* If you plan to vote in person at the annual general meeting, please bring valid

identification. Even if you currently plan to attend the annual general meeting, we recommend that you also submit your proxy as described above so that your vote will be counted if you later decide not to attend the annual general meeting.

If you receive more than one Proxy Card or voting instruction form, it means that your shares are registered differently or are in more than one account. Please provide voting instructions for all proxy and voting instruction cards you receive. If you wish to consolidate accounts, please contact Computershare Trust Company, N.A. or your broker, bank or other nominee. We will announce preliminary voting results at the annual general meeting and publish the final results in a Current Report on Form 8-K filed within four business days after the end of the annual general meeting.

Shares Held of Record

If your shares are held in your name and you vote by granting a proxy, which is not subsequently revoked, the proxy holders will vote the shares in accordance with your instructions. If you submit a proxy without giving specific voting instructions, your shares will be voted in accordance with the Board's recommendations as follows:

"FOR ALL" Proposal 1: To elect 11 directors to serve until the 2017 annual general meeting of shareholders, and until their respective successors are elected;

"FOR" Proposal 2: To appoint Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2016 and to authorize the Company's Audit Committee of the Board to determine their remuneration; and

"FOR" Proposal 3: To approve, on a nonbinding, advisory basis, named executive officer compensation.

If other matters properly come before the annual general meeting, the proxy holders will vote on such matters in accordance with their best judgment. Such persons also have discretionary authority to vote to adjourn the annual general meeting, including for the purpose of soliciting proxies to vote in accordance with the Board's recommendations on any of the above items.

Table of Contents

Shares Held in Street Name

If your shares are held in "street name" by your broker, bank or other nominee, you will receive a voting instruction form with this Proxy Statement. Like shares held of record, you may vote your shares held in street name in person at the annual general meeting if you have obtained a legal proxy from the holder of record for your shares or you may sign and date the enclosed voting instruction form and return it in the enclosed, postage-paid envelope. If your shares are held in street name in a brokerage account or

by a bank or other nominee, you must provide your broker with instructions on how to vote your shares in order for your shares to be voted on Proposals 1 and 3. If you do not instruct your broker on how to vote these proposals, your shares will not be voted on these matters. If your shares are held in the name of a broker, bank or other nominee, please bring with you a letter (and a legal proxy if you wish to vote your shares) from the broker, bank or nominee confirming your ownership as of the record date.

Revoking Your Proxy

Even after you have returned your proxy, you may revoke your proxy at any time before it is exercised by (1) submitting a written notice of revocation to our Corporate Secretary by mail to Kosmos Energy Ltd., c/o Kosmos Energy LLC, 8176 Park Lane, Suite 500, Dallas, Texas 75231, (2) submitting a duly executed proxy bearing a later date to our Corporate Secretary by mail to

Kosmos Energy Ltd., c/o Kosmos Energy LLC, 8176 Park Lane, Suite 500, Dallas, Texas 75231, (3) using the Internet voting website or the toll-free telephone number listed on the enclosed Proxy Card to deliver a duly executed proxy bearing a later date or (4) attending the annual general meeting and voting in person, which suspends the powers of the proxy holder.

Quorum and Vote Required

The presence in person or by proxy of two or more shareholders representing a majority of our issued and outstanding share capital entitled to vote shall constitute a quorum to conduct business at the annual general meeting.

For Proposal 1, the election of directors, you may vote "FOR ALL," "WITHHOLD ALL" or "FOR ALL EXCEPT." A plurality of the votes of the shares present in person or represented by proxy at the annual general meeting and entitled to vote on the election of directors is required for the election of directors. This means that the 11 director nominees receiving the highest number of affirmative votes of the shares present in person or represented by proxy at the annual general meeting and entitled to vote on the election of directors will be elected to our Board. Broker non-votes and votes marked "WITHHOLD ALL" will have no legal effect on the outcome of the election of directors. With respect to votes marked "FOR ALL EXCEPT,"

votes for director nominees that are withheld will have no legal effect on the outcome of the election of directors, while votes for all other director nominees will count toward a plurality.

For each of Proposals 2 and 3, you may vote "FOR," "AGAINST" or "ABSTAIN." Under the Companies Act 1981 of Bermuda, as amended, our memorandum of association and our bye-laws, the affirmative vote of a majority of the votes cast at the annual general meeting at which a quorum is present is required to approve Proposals 2 and 3.

Abstentions do not count as votes cast for Proposals 2 and 3, and as such, abstentions will have no effect on the outcome of Proposals 2 and 3. Brokers will have discretionary authority to vote on Proposal 2. Brokers will not have discretionary authority to vote on Proposal 3, and broker non-votes will have no effect on the outcome of such vote.
