TENET INFORMATION SERVICES, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Presentation of Interim Financial Statements

The accompanying condensed consolidated financial statements have been prepared by the Company without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's most recent Annual Report on Form 10-Ksb.

In the opinion of management, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the Company's consolidated financial position at September 30, 2003 and the results of its operations and its cash flows for the three months ended September 30, 2003 and 2002 respectively. Because of the sale of the consulting division and the EDNet product line, the results of operations for the three-month period ended September 30, 2003 are not indicative of the results that may be expected for the remainder of the fiscal year ending June 30, 2004.

(2) Stock-Based Compensation

The Company accounts for its stock options issued to directors, officers and employees under Accounting Principles Board Opinion No. 25 and related interpretations ("APB 25"). Under APB 25, compensation expense is recognized if an option's exercise price on the measurement date is below the fair value of the Company's common stock. The Company accounts for options and warrants issued to non-employees in accordance with SFAS No. 123, "Accounting for Stock-Based Compensation" (SFAS 123) which requires these options and warrants to be accounted for at their fair value.

No stock-based employee compensation cost is reflected in net income, as all options had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and basic and diluted loss per common share if the Company had applied the fair value recognition provisions of FASB Statement No. 123, Accounting for Stock Based Compensation, to stock-based employee compensation:

	For the Three Months Ended September 30,	
	2003	2002
Net loss, as reported	\$ (10,516)	\$ (31,379)
Adjust: Total stock-based employee compensation expense determined under fair value based method for all awards, including adjustment for forfeited options	(365)	(1,707)
Pro forma net loss	\$ (10,881)	\$ (33,086)
Basic and diluted earnings per common share as reported	\$ (0.01)	\$ (0.03)
Basic and diluted loss per common share pro forma	\$ (0.01)	\$ (0.03)

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

(3) Change in Estimate

At the end of its previous fiscal year, the Company accrued its legal costs for the fourth quarter. In the first quarter of the year, the Company established actual legal costs for the previous quarter and adjusted its obligation for payment of legal expense to the actual amount due, resulting in a one-time decrease in the current period's legal expenses and associated operating costs of \$19,471. The Company has accounted for this as a change in accounting estimate.

(4) Basic and Diluted Loss Per Share

Basic earnings per common share are computed by dividing net loss available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution which could occur if all contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock. A total of 21,250 and 30,250 post-split stock options were excluded from the calculation of diluted loss per common share at September 30, 2003 and 2002 respectively, because the effects would be antidilutive.

(5) Sale of Consulting Division Assets

On May 23, 2003, the Company sold all the assets of the Company's consulting division to a shareholder and former employee of the Company. The financial statements present the results from the consulting division as discontinued operations.

During the quarter ended September 30, 2002, the consulting division had revenues of \$33,182 and losses from operations of \$927, respectively.

(6) Subsequent Events

Sale of EDNet Assets

On July 29, 2003, the Company entered into an asset purchase agreement to sell all of the assets of the EDNet product line to ClinicalVentures, L.C. The sale of assets closed on October 22, 2003 following a special shareholder meeting at which the transaction was approved by the shareholders of the Company. As a result of the sale of the EDNet product line to ClinicalVentures, the Company currently has no operations. ClinicalVentures purchased all office and

-5-

computer equipment associated with the EDNet product line, which had a net book value of \$3,092 and the right to pursue work with the Company's EDNet product line clients in exchange for \$339,000 in cash as well as accepting certain obligations and liabilities of the Company. The purchaser assumed the obligation to support all ongoing maintenance contracts currently in force with EDNet clients.

In conjunction with the above agreement, the Company and ClinicalVentures executed a software license agreement pursuant to which ClinicalVentures obtained a non-exclusive right and license to use the Company's EDNet and ARCNet tracking software products. This license agreement allows ClinicalVentures to distribute the software for a period of five years. As part of this license agreement, ClinicalVentures agreed to pay to the Company

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

5% of the initial software license fees received by ClinicalVentures during the five year period with respect to new sales or licenses of the EDNet and ARCNet tracking products up to an aggregate of \$90,000.

The deferred maintenance revenue liability of \$42,489 as of September 30, 2003 represents unrealized revenue associated with the maintenance contracts for the EDNet product line. As part of the sale, ClinicalVentures assumed liability for all maintenance support of the EDNet product line without further compensation from the Company. As a result, the Company will recognize \$42,489 of revenue on October 22, 2003, the date of the closing.

During the quarters ended September 30, 2003 and September 30, 2002, the EDNet product line had revenues of \$ 31,650 and \$ 112,274 and income from operations of \$ 1,657 for the three months ended September 30, 2003 and a loss from operations of \$ 3,138 for the three months ended September 30, 2002.

Reverse Stock Split

At the special shareholder meeting on October 22, 2003, the shareholders approved a 1 for 20 reverse stock split of the Company's common stock and common stock options. As a result of the reverse split, the Company has 966,756 outstanding shares of stock, after adjustments for fractional shares. The reverse stock split has been retroactively reflected in the accompanying consolidated financial statements for all periods presented.

Development Stage Company

Based on the sale of all operating assets the Company has become a development stage company and reporting subsequent to October 22, 2003 will be on a Development Stage basis.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations.

GENERAL

This discussion should be read in conjunction with management's discussion and analysis of financial condition and results of operations included in the Company's Annual Report on Form 10Ksb for the fiscal year ended June 30, 2003.

-6-

As a result of the sale of all remaining operations on October 22, 2003, Tenet has become a development stage company. The Company is actively seeking business opportunities.

RESULTS OF OPERATIONS

FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2003 COMPARED WITH THE THREE MONTHS ENDED SEPTEMBER 30, 2002.

During the three month period ended September 30, 2003, the Company had operating expenses of \$10,721 which represents a 54% decrease from \$23,457 for the corresponding period of the prior fiscal year. The major reason for the decrease is the reduced administrative costs required to support the Company in its developmental stage.

Interest expense decreased to \$2,051 for the three-month period ended September

Edgar Filing: TENET INFORMATION SERVICES INC - Form 10QSB

30, 2003 from \$3,857 for the corresponding period of the prior year. This decline resulted from a reduction in debt levels from the prior year.

The Company had net operating losses from continuing operations of \$12,175 for the three-month period ended September 30, 2003 compared with a net loss of \$27,314 for the corresponding period of the prior year.

The Company recorded net losses of \$10,516 or \$0.01 per share for the three month period ended September 30, 2003 compared with a net losses of \$31,379 or \$0.03 per share for the corresponding period of the prior year.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary needs for capital are to fund ongoing administrative expenses while the Company seeks and evaluates new business opportunities. The Company anticipates sufficient capital for its current operations but if a merger or similar business combination arose, additional capital may need to be raised.

..

At September 30, 2003 the Company had a working capital deficit of (\$175,253) as compared to a working capital deficit of (\$267,382) at September 30, 2002, an improvement of 34%.

Inflation has not had a significant impact on the Company's operations.

-7-

Item 3 - Controls and Procedures

(a) Evaluation of disclosure controls and procedures- Based on their evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")), the Company's principal executive officer and principal financial officer have concluded that as of the end of the period covered by this Quarterly Report of Form 10-Qsb such disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.
