New Jersey Mining Company

Notes to Consolidated Financial Statements (Unaudited)

1.

The Company and Significant Accounting Policies:

These unaudited interim consolidated financial statements have been prepared by the management of New Jersey Mining Company (the Company) in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim consolidated financial statements have been included.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company's financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions, which could have a material effect on the reported amounts of the Company's financial position and results of operations. Operating results for the three month period ended March 31, 2016 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2016.

For further information refer to the financial statements and footnotes thereto in the Company's audited financial statements for the year ended December 31, 2015 as filed with the Securities and Exchange Commission.

Principles of Consolidation

At March 31, 2016, the consolidated financial statements include the accounts of the Company, the accounts of our majority owned New Jersey Mill Joint Venture (NJMJV), Golden Chest LLC Joint Venture (GCJV) and GF&H Company. Intercompany items and transactions between companies included in the consolidation are eliminated.

Revenue Recognition

Revenue is recognized when title and risk of ownership of metals or metal bearing concentrate have passed and collection is reasonably assured. Revenue from the sale of metals may be subject to adjustment upon final settlement of estimated metal prices, weights and assays, and are recorded as adjustments to revenue in the period of final settlement of prices, weights and assays; such adjustments are typically not material in relation to the initial invoice amounts. Revenue received from drilling and exploration contracts with third parties is recognized when the contract has been established, the services are rendered and collection of payment is deemed probable. These services are not a part of normal operations. Income received as the operator of the Company's joint ventures is recognized in the months during which those operations occur. Revenue received from engineering services provided is recognized when services are rendered and collection of payment is deemed probable. These services are not a part of normal operations. Revenues from mill operations and custom milling are recognized in the period in which the milling is completed, concentrates are shipped, and collection of payment is deemed probable.

Reclassifications

Certain prior period amounts have been reclassified to conform to the 2016 financial statement presentation. Reclassifications had no effect on net loss, stockholders' equity, or cash flows as previously reported.

2.

Going Concern

As shown in the accompanying financial statements, the Company had minimal revenue and a net loss of \$190,503 for the first quarter of 2016 as well as an accumulated deficit, negative working capital, and a cash and cash equivalents balance of \$11,582 at March 31, 2016. These factors raise substantial doubt about the Company's ability to continue as a going concern.

However, the Company did put the New Jersey Mill into production in 2015. In the first quarter of 2016 the mill has been maintained with minimal activity as the Company is proceeding with plans to both mine and mill ore from the Golden Chest property starting the second quarter if successful in raising the required startup funds.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue its operations.

New Jersey Mining Company

Notes to Consolidated Financial Statements (Unaudited)

3.

Related Party Transactions

At March 31, 2016 and December 31, 2015 the Company had the following notes and interest payable to related parties:

	March 31, 2016	December 31, 2015
Mine Systems Design (MSD), a company in which our Company's Vice President owns 10.4%, 12% interest, monthly payments of \$4,910 through October 2018	\$ 137,500	\$ 141,033
John Swallow, Company president, 5% interest, monthly payments of \$5,834 with balloon payment of \$475,973 in November 2017	541,646	545,208
John Swallow, Company president, 5% interest, principal and interest due January 2018	300,000	
Margaret Bathgate, shareholder, 5% interest, principal and interest due January 2018	100,000	
	1,079,146	686,241
Accrued interest payable	10,209	
Total	1,089,355	686,241
Current portion	88,124	88,114
Long term portion	\$ 1,001,231	\$ 598,127
	Quarter Ended March 31, 2016	2015
Related Party interest expense	\$ 13,892	\$ 5,319

4.

Joint Ventures

For joint ventures in which the Company holds more than 50% of the voting interest and has significant influence, the joint venture is consolidated with the presentation of non-controlling interest. For joint ventures in which the Company does not have joint control or significant influence, the cost method is used. For those joint ventures in which there is joint control between the parties, and the Company has significant influence, the equity method is utilized.

At March 31, 2016 and December 31, 2015, the Company's percentage ownership and method of accounting for each joint venture is as follows:

Joint Venture	March 31, 2016			December 31, 2015		
	% Ownership	Significant Influence?	Accounting Method	% Ownership	Significant Influence?	Accounting Method
New Jersey Mill Joint Venture(NJMJV)	67%	Yes	Consolidated	67%	Yes	Consolidated
Golden Chest LLC Joint Venture (GCJV)	100%	Yes	Consolidated	100%	Yes	Consolidated
Butte Highlands Joint Venture (BHJV)	50%	No	Cost	NA	NA	NA

New Jersey Mill Joint Venture Agreement

In June of 2012, Crescent Silver Corp. (Crescent) completed its buy-in for 35% of the NJMJV with a cumulative \$3.2 million contribution to bring the capacity of the mill to 15 tonnes/hr. At March 31, 2016 and December 31, 2015, an account receivable existed with Crescent for \$5,230 and \$3,109, respectively, for monthly operating costs as defined in the JV agreement.

New Jersey Mining Company**Notes to Consolidated Financial Statements (Unaudited)****Golden Chest LLC Joint Venture**

In December of 2015 the Company became the 100% owner of the Golden Chest property after purchasing the 52.22% share of GCJV held by a third party (Note 12).

Butte Highlands JV, LLC (BHJV)

On January 29, 2016 the Company purchased a 50% interest in BHJV from Timberline Resources Corporation for \$225,000 in cash and 3,000,000 restricted shares of the Company's common stock valued at \$210,000 for a total consideration of \$435,000. The purchase was made utilizing proceeds from a promissory note at 5% interest rate extended to the Company by President John Swallow (Note.3) Highland Mining, LLC (Highland) is the other 50% owner of the joint venture. The company determine that it had no significant influence with the joint venture as Highland is funding the ongoing exploration program.

5.**Non-Controlling Interests**

Non-controlling interests include Crescent's interest in NJMJV (note 4) and other shareholders in GF&H Company of which the Company owns 66.2/3%. These interests changed as follows from December 31, 2015 to March 31, 2016:

		NJMJV		GF&H		TOTAL
Balance December 31, 2015	\$	3,145,585	\$	61,655	\$	3,207,240
Contribution from non-controlling interest		2,181				2,181
Net loss attributable to non-controlling interest				(23)		(23)
Balance March 31, 2016	\$	3,147,766	\$	61,632	\$	3,209,398

6.**Earnings per Share**

For the three month periods ending March 31, 2016 and 2015, the effect of the Company's potential issuance of shares from the exercise of 10,200,000 and 21,200,000 outstanding warrants, respectively, and 5,750,000 and 4,250,000 options to purchase common stock, respectively would have been anti-dilutive. Accordingly, only basic net loss per share has been presented.

7.

Property, Plant, and Equipment

Property, plant and equipment at March 31, 2016 and December 31, 2015, consisted of the following:

	March 31, 2016	December 31, 2015
Mill		
Mill land	\$ 225,289	\$ 225,289
Mill building	536,193	536,193

	March 31, 2016	December 31, 2015
Property with shop 36 month note payable, 4.91% interest rate payable monthly, remaining principal of note due in one payment at end of term in June 2016, monthly payments of \$474	\$ 41,799	\$ 42,726

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

Property 120 month note payable, 11.0% interest rate payable monthly, remaining principal of note due in one payment at end of term in March 2021, collateralized by property, monthly payments of \$1,122	103,604	105,196
Tailings pump, 35 month note payable, 17.5% interest rate payable monthly, monthly payments of \$3,268, collateralized by equipment	69,531	76,097
Mineral property, 10 quarterly payments, 0.0% interest rate discounted at 10%, collateralized by property, quarterly payments of \$125,000	1,062,500	1,125,000
Total notes payable	1,277,434	1,349,019
Due within one year	635,811	572,806
Due after one year	\$ 641,623	\$ 776,213

Future principal payments of debt and related discount amortization at March 31, 2016 are as follows:

	Note	Discount	Net
1 year	\$ 635,811	\$ (86,434)	\$ 549,377
2 years	537,338	(29,753)	507,585
3 years	8,089		8,089
4 years	3,062		3,062
5 years	93,134		93,134
Thereafter			
Total	\$ 1,277,434	\$ (116,187)	\$ 1,161,247

10.

Equity

Common Stock issued for Property

In the first quarter of 2016, 3,000,000 restricted shares of the Company's common stock was issued to Timberline Resources in conjunction with the Company's purchase of Timberline's 50% interest in Butte Highlands JV (note 4). No shares of common stock were issued in 2015.

New Jersey Mining Company**Notes to Consolidated Financial Statements (Unaudited)****Stock Purchase Warrants Outstanding**

No transactions in common stock purchase warrants occurred during the period ended March 31, 2016. The balance in stock purchase warrants is as follows:

	Number of Warrants	Exercise Prices
Balance December 31, 2014	21,200,000	\$ 0.10-0.20
Expired May 31, 2015	11,000,000	0.15
Balance December 31, 2015 and March 31, 2016	10,200,000	0.10-0.20

These warrants expire as follows:

Shares	Exercise Price	Expiration Date
3,000,000	\$0.15	March 4, 2017
6,000,000	\$0.20	August 11, 2017
1,200,000	\$0.10	August 11, 2019

11.**Stock Options**

On December 30, 2015, 1,500,000 options were granted to management, 750,000 options vested immediately and the remaining 750,000 will vest on December 30, 2016. The options expire 5 years after their corresponding vesting date. Each option allows the holder to purchase one share of the Company's stock at \$0.10 prior to expiration. Utilizing the Black Scholes option pricing model, an expected life of five years, a risk free rate of 1.80%, and expected volatility of 158.50%, a compensation cost of \$110,208 is associated with the options. Of this, \$55,104 was recorded as a general and administrative expense in 2015 and \$13,776 was recognized in the first quarter of 2016. The remaining unrecognized compensation cost of \$41,328 is expected to be recognized in the three remaining quarters of 2016.

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

On April 30, 2014, 2,250,000 options were issued to management, 750,000 options vested immediately and the remaining 1,500,000 vested at a rate of 750,000 each year on the anniversary for 2 additional years, and they expire 3 years after resting date. Each option allows the holder to purchase one share of the Company's stock at \$0.10 prior to expiration. Utilizing the Black Scholes option pricing model, an expected life of three years, a risk free rate of 0.87%, and expected volatility of 161.30%. Compensation costs recorded as a general and administrative expense of \$10,865 was recognized in the first quarter of 2016. The remaining unrecognized compensation cost of \$3,622 is expected to be recognized in the second quarter of 2016.

	Number of Options	Exercise Prices	Weighted Average Remaining Term (years)
Balance December 31, 2014	4,500,000	0.10-0.15	0.12
Cancelled	(250,000)	0.15	0.15
Issued	1,500,000	0.10	0.10
Balance December 31, 2015 and March 31, 2016	5,750,000	0.10-0.15	0.11
Exercisable at March 31, 2016	5,000,000	0.10-0.15	0.12

Outstanding options had no intrinsic value at March 31, 2016.

12.

Golden Chest Joint Venture

In December of 2015, the Company became the 100% owner of the Golden Chest Joint Venture (GCJV). The Company received the 52.22% share of GCJV held by a third party in exchange for \$180,000 and a 2% NSR royalty on all future gold production from the property. In addition to the assets of GCJV, a note payable of \$1,250,000 for the patented mining claims was assumed by the Company. The Company purchased the outstanding share in GCJV to consolidate ownership and facilitate exploration and mining plans going forward.

New Jersey Mining Company**Notes to Consolidated Financial Statements (Unaudited)**

The unaudited pro forma financial information below represents the combined results of the Company's operations as if the GCJV acquisition had occurred at the beginning of the period presented. The unaudited pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have occurred if the acquisition had taken place at January 1, 2015, nor is it indicative of future operating results.

	March 31, 2015
Revenue	\$ 279,527
Operating expenses	(799,318)
Net loss from continuing operations	(193,195)
Net loss per common share, basic and diluted	\$ 0.01

13.**Butte Highlands Joint Venture**

On January 29, 2016 the Company purchased a 50% interest in Butte Highlands JV, LLC (BHJV) from Timberline Resources Corporation for \$225,000 in cash and 3,000,000 restricted shares of the Company's common stock valued at \$210,000 for a total consideration of \$435,000. The purchase was made utilizing proceeds from a promissory note at 5% interest rate extended to the Company by President John Swallow (Note 3). Highland Mining, LLC is the other 50% owner of the joint venture. The Company purchased the interest in the BHJV to provide additional opportunities for exploration and development and expand the Company's mineral property portfolio.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

When we use the terms "New Jersey Mining Company," the "Company," "we," "us," or "our," we are referring to New Jersey Mining Company (the Company) and its subsidiaries, unless the context otherwise requires.

Cautionary Statement about Forward-Looking Statements

This Quarterly Report on Form 10-Q and the exhibits attached hereto contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. Such forward-looking statements concern the Company's anticipated results and developments in the Company's operations in future periods, planned exploration and development of its properties, plans related to its business and other matters that may occur in the future. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. These statements include, but are not limited to, comments regarding:

- the establishment and estimates of mineralization;
- the grade of mineralization;
- anticipated expenditures and costs in our operations;
- planned exploration activities and the anticipated outcome of such exploration activities;
- plans and anticipated timing for obtaining permits and licenses for our properties;

·
expected future financing and its anticipated outcome;

·
anticipated liquidity to meet expected operating costs and capital requirements;

·
our ability to obtain joint ventures partners and maintain working relationships with our current joint venture partners;

·
our ability to obtain financing to fund our estimated expenditure and capital requirements; and

·
factors expected to impact our results of operations.

Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as expects or does not expect, is expected, anticipates or does not anticipate, plans, estimates or intends, stating that certain actions, events or results may, could, would, might or will be taken, occur or be achieved) are statements of historical fact and may be forward-looking statements. Forward-looking statements are subject to a variety of known and unknown risks, uncertainties, and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking statements, including, without limitation:

·
risks related to our limited operating history;

·
risks related to our history of losses and our expectation of continued losses;

·
risks related to our properties being in the exploration or development stage;

.
risks related our mineral operations being subject to government regulation;

.
risks related to future legislation and administrative changes to mining laws;

.
risks related to future legislation regarding climate change;

.
risks related to our ability to obtain additional capital or joint venture partners;

.
risks related to land reclamation requirements and costs;

.
risks related to mineral exploration and development activities being inherently dangerous;

.
risks related to our insurance coverage for operating risks;

.
risks related to cost increases for our exploration and development projects;

.
risks related to a shortage of equipment and supplies adversely affecting our ability to operate;

.
risks related to mineral estimates;

.

risks related to the fluctuation of prices for precious and base metals, such as gold and silver;

.

risks related to the competitive industry of mineral exploration;

.

risks related to our title and rights in our mineral properties and mill;

.

risks related to joint venture partners and our contractual obligations therewith;

.

risks related to potential conflicts of interest with our management;

.

risks related to our dependence on key management;

.

risks related to the New Jersey Mill operations, management, and milling capacity;

.

risks related to our business model;

.

risks related to evolving corporate governance standards for public companies; and

.

risks related to our shares of common stock.

This list is not exhaustive of the factors that may affect our forward-looking statements. Some of the important risks and uncertainties that could affect forward-looking statements are described further under the sections titled

Description of Business and Management's Discussion and Analysis of Financial Condition and Results of Operations of the Company's Annual Report on Form 10-K for the year ended December 31, 2015, filed on March 28, 2016.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, believed, estimated, or expected. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events, except as required by law.

Plan of Operation

The Company is utilizing its knowledge, experience, and operational capabilities to advance its cash flow focused mining, milling and royalty plan. The Company has the ability to evaluate mining and/or milling opportunities in addition to operating its New Jersey Mill (a mineral processing plant near Kellogg, Idaho), and conduct development and mining operations at its Golden Chest Mine near Murray, Idaho. The Company has been focused on projects that have had considerable prior investment, as evidenced by the acquisition of 100-percent interest in the Golden Chest Mine and acquisition of its interest in Butte Highlands Joint Venture in early 2016. The Company has also conducted gold exploration in northern and central Idaho, western Montana, and evaluated new mining and/or milling opportunities around the western US.

The Company's financial strategy is to generate cash flow from milling fees, royalties, and possible future mine operations so as to minimize the need for financing in the capital markets. NJMC seeks to minimize costs and share risks by forming joint ventures, mineral lease arrangements, partnerships and other forms of agreements with qualified mining industry players. In recent examples, the Company has leveraged its property and mineral processing assets into joint ventures that brought exploration or development funding from partners. The strategy includes finding and developing potential mineral deposits of significant quality and quantity to justify investment in mining and/or mineral processing facilities. The Company's primary focus is on gold with silver and base metals of secondary emphasis. In 2014 and 2015 the Company received revenue from milling services, from royalties, and in management fees.

During the first quarter of 2016, the Company completed purchase of 50-percent interest in the Butte Highlands Joint Venture from Timberline Resources Corp. (See Company news release dated February 1, 2016). This acquisition fits into our plans to build upon our portfolio of assets having considerable prior investment and a path toward cash flow potential and/or in which we might provide our expertise to help advance the project or to provide milling services. More than \$30-million has been invested at Butte Highlands to-date by Montana State Gold Company (MSGC) and prior funding partner, Highland Mining LLC.

Through Q1 of 2016 NJMC's progress includes (See Company news release dated March 29, 2016):

- Development of a small-scale, two-year mine plan at Golden Chest, focusing on easily-accessible near-mine ore, retaining all upside potential of up-dip, down-dip, and on-strike zones, as well as larger district-scale potential;
- Purchase of underground haul truck and loader, receipt of long-lead electrical components, and agreement for use of BHJV-owned equipment, in anticipation of resumed production at Golden Chest.
- Purchase of 50-percent interest in Butte Highlands Joint Venture (BHJV) which owns the Butte Highlands Gold Mine;
- Signing Memorandum of Understanding with partner Highland Mining LLC for NJMC to assume control of Permitting and Management at BHJV.

The Company's focus during most of 2015 was focused on maintaining and running the New Jersey Mill in support of mining operations at the Golden Chest Mine. In anticipation of processing ores from the Golden Chest Mine, the Company invested in certain upgrades and expansions to the New Jersey Mill. The Company added a gravity processing circuit to the mill and expanded the tailings impoundment facility, among other minor modifications and adjustments. Gold Hill commenced construction and underground development during the third quarter of 2014, delivering the first ore to the New Jersey Mill in December of 2014. Mining activities continued during the year until Gold Hill ceased operations September, 2015 (See Company news release dated, September 21, 2015).

In October, 2015, the Company entered into an agreement to acquire 100-percent interest in the Golden Chest Mine from Marathon Gold Corporation, its joint venture partner in the project. It was considered by both parties that the Golden Chest Mine should have consolidated ownership going forward. The agreement with Marathon was completed in December (See Company news release dated December 4, 2015). The Company rendered payments of \$180,000 to

Marathon for its 52.22% interest in the Golden Chest Joint Venture and Marathon retained a 2% NSR on production from the Golden Chest, as well as an adjacent Area of Interest. An estimated \$7-\$9 million was spent by the lessee of the Skookum Shoot, which included mine development and infrastructure and any remaining mineralized material.

Also during the year, in May, 2015, the Company announced a realignment of management as it transitioned into an operating company to remain focused on cash flow and corporate overhead (See Company news release dated May 7, 2015).

In 2015, NJMC accomplishments and project milestones included (See Company news release dated March 29, 2016):

- Completion of mine development at the Golden Chest property, by Juniper Resources under the Skookum lease, totaling approximately \$7 to \$9-million;
- Completion of upgrades and commencement of commercial operations at the New Jersey Mill, achieving revenue of more than \$1.8 million;
- Commercial production, achieved by Juniper at the Golden Chest Mine, totaling 40,840 dry metric tonnes of ore produced at an average grade of 6.65 grams of gold per tonne;
- Production of approximately 8,000 ounces of gold from Golden Chest ore at the New Jersey Mill, including approximately 500 ounces of gold from a cyanide leaching project which led to a series of recommendations for improving the concentrate leach circuit;
- Consolidation of 100-percent ownership of the Golden Chest project, after the departure of Juniper, with the buy-out of former partner Marathon Gold;
- Completed internal scoping study at Golden Chest, outlining plans for resumed production of unmined ore from the Juniper mine plan and from other easily accessible zones.

Prior to recent activity, during 2011 and 2012, the New Jersey mineral processing plant was expanded in order to process ore from the nearby Crescent silver mine. NJMC executed a definitive venture agreement with United Silver Corp (USC) and its subsidiary United Mine Services (UMS), owner of the Crescent mine, in January 2011. The plant was expanded from a processing rate of 4 tonnes/hr to 15 tonnes/hr. USC paid the expansion cost, which was \$3.2 million. The joint venture agreement anticipated that USC would be entitled to process up to 7,000 tonnes per month from the Crescent Mine and NJMC would have rights for up to 3,000 tonnes per month of capacity during the processing of Crescent ores. Under the agreement, each party would pay its processing costs and NJMC will charge a management fee of \$2.50/tonne. The plant was commissioned during 2012, but ore production from the Crescent Mine was curtailed by USC for economic reasons so the plant became idle in September 2012. The mill remained idle through 2013 and most of 2014, until commissioning its new upgrades in November of 2014 (See Company news release dated November 12, 2014).

In April 2014, Hale Capital Partners, through its subsidiary Crescent Silver LLC (Crescent Silver), acquired the assets of United Mine Services in a consensual foreclosure process. This transaction included the UMS stake in the New Jersey Mill JV. Hence, Crescent Silver is the Company's current joint venture partner at the New Jersey Mill. Crescent Silver produced no ore during 2014.

NJMC geologists conducted limited programs at the McKinley and Eastern Star projects during 2014 and 2015. The Company drilled just under 400 meters of small-diameter core from the underground workings at McKinley. The drill results returned several high-grade intersections that may warrant follow-up, including 2.5m of 43.7 gpt Au and 3.5m of 18.5 gpt Au. The McKinley Project is at a very early stage of exploration, but there are high-grade (+30 gpt Au) showings over more than 3.8 kilometers of prospecting on the 1,800-hectare (4,443 acres) project, (see Company news release dated January 2, 2015).

During 2014 and 2015, the Company also conducted limited exploration work at the Eastern Star Project in the Elk City District of central Idaho. The property was acquired under a purchase option agreement with Premium Exploration Inc., (see Company news release dated April 25, 2014). In the first field season on the project, NJMC geologists collected rock samples and channel samples that included 11.34 gpt Au over 4.3 meters and 14.15 gpt over 0.9 meters. There has been no drilling at Eastern Star, so the project will require considerable additional work in order to assess its economic potential.

The Toboggan Project is a group of claims to the north of Golden Chest. Formerly joint ventured with Newmont Mining and including a lease agreement with Hecla Mining, the properties have seen well over \$2.0 million in exploration investment in recent years. The gold prospects at Toboggan appear to be associated with alkalic intrusions and alteration is widespread.

At the Coleman underground mine, which is part of the New Jersey Mine and Mill property, the Company conducted no significant exploration during 2014 or 2015, but Company geologists are currently evaluating the known gold-bearing

veins and historic targets for their future potential. Now that the New Jersey Mill is processing ores from the Golden Chest Mine, the potential economics of nearby gold prospects may have improved.

Changes in Financial Condition

The Company maintains an adequate cash balance by increasing or decreasing its exploration expenditures as limited by availability of cash from operations or from financing activities. The cash balance at March 31, 2016 was \$11,582 compared to \$62,275 at the end of 2015.

Results of Operations

There was \$43,965 in revenue in the three month period ending March 31, 2016 compared to \$391,120 for the comparable period in 2015. The revenue in 2015 was from milling of ore at the Golden Chest Mine whereas minimal activity occurred in the first quarter of 2016. The net loss of \$190,503 for the three month period ending March 31, 2016 compared to the net loss of \$279,527 in the comparable period of 2015 are a result of reduced activity in the first quarter of 2016. In the first quarter of 2015 the Company was beginning to process the Golden Chest Ore.

The Company invested \$191,374 in additional facilities at the mill in 2015 and processed ore from the Golden Chest (Skookum Project) that started production in December 2014 through the third quarter of 2015. The mining at the Golden Chest during this period was conducted by Gold Hill under a lease agreement. The Company plans to continue production at the Golden Chest in 2016 with the Company as operator of both the mine and the mill.

The amount of money to be spent on exploration at the Company's mines and prospects depends primarily on contributions of our joint venture partners, fundraising, and cash flow from the mill.

The audit opinion and notes that accompany our consolidated financial statements for the period ended March 31, 2016, disclose a going concern qualification to our ability to continue in business. The accompanying consolidated financial statements have been prepared under the assumption that we will continue as a going concern. We are operating a start-up mineral processing operation, but we also remain an exploration stage company that has incurred losses since our inception. We do not have sufficient cash to fund normal operations and meet debt obligations for the next 12 months without seeing increased revenue from our milling and mining operations, deferring payment on certain current liabilities, and/or raising additional funds. We believe that the going concern condition cannot be removed with confidence until the Company has entered into a business climate where the stability of our business is more assured. We currently have no historical recurring source of revenue and our ability to continue as a going concern is dependent on our ability to profitably execute our business plan or raise capital to fund our future exploration and working capital requirements. Our plans for the long-term return to and continuation as a going concern include growing milling revenues, sales of our common stock and/or debt, and the eventual profitable

exploitation of our mining properties.

Additionally, the current capital markets and general economic conditions in the United States are significant obstacles to raising the required funds. These factors raise substantial doubt about our ability to continue as a going concern.

Cash and Cash Equivalents

Cash and cash equivalents decreased as of March 31, 2016 compared to December 31, 2015 as a result of minimal revenue generating and fund raising activity in the quarter.

Other Current Assets

Other current assets decreased in the first quarter of 2016 as a result of the receipt of funds due the Company and accrued prepaid claim fees being recognized.

Property, Plant, and Equipment and Mineral properties, and Investment in Joint Venture

Property, plant, and equipment and mineral properties increased in the first quarter of 2016 because of equipment purchased in preparation for production at the Golden Chest property.

Investment in Joint Venture

Investment in Joint Venture increased in the first quarter of 2016 because of the acquisition of the 50% interest in the Butte Highlands JV.

Deposit on Equipment

Deposit on equipment has decreased in the first quarter of 2016 because electrical equipment for which a deposit was made has been received.

Accounts Payable

Accounts payable have increased as of March 31, 2016 compared to December 31, 2015 because of increased spending in anticipation of production at the Golden Chest.

Notes Payable Related Party

Notes payable related party increased as of March 31, 2016 compared to December 31, 2015 because two notes totaling \$400,000 were extended to the Company, one by President John Swallow and additional one by Martha Bathgate, a major shareholder. The proceeds of the notes were utilized for the Butte Highlands joint venture purchase and continuing operations.

Gold Sales

Gold sales income increased in the first quarter of 2016 as a result leaching of materials from the New Jersey Mine property.

Milling Income

Milling income decreased in 2016 compared to 2015 as a result of termination of the Skookum lease in September 2015.

Milling Costs

Milling income decreased in 2016 compared to 2015 as a result of termination of the Skookum lease in September 2015.

Depreciation

Depreciation decreased in 2016 compared to 2015 as a result of units of production depreciation calculations as the mill processes the Skookum ore in 2015.

General and Administrative Expenses

General and administrative expenses were lower in the first three months of 2016 compared to the comparable period of 2015 as a result of decreased activity at the Company.

Amortization of Discount

Amortization of discount is a new item related to the purchase of the Golden Chest property in December 2015 and the corresponding non-interest bearing liability that was assumed by the Company.

Milling Receivables

Milling receivables decreased in 2016 compared to 2015 as a result of termination of the Skookum lease in September 2015.

Item 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required for small reporting companies.

Item 4:

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

At March 31, 2016, our President who also serves as our Chief Accounting Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) of the Securities Exchange Act of 1934 (the Exchange Act), which disclosure controls and procedures are designed to insure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized, and reported within required time periods specified by the Securities & Exchange Commission rules and forms.

Based upon that evaluation, it was concluded that our disclosure controls were effective as of March 31, 2016, to ensure timely reporting with the Securities and Exchange Commission. Specifically, the Company's corporate governance and disclosure controls and procedures provided reasonable assurance that required reports were timely and accurately reported in our periodic reports filed with the Securities and Exchange Commission.

Changes in internal control over financial reporting

The President and Principal Accounting Officer conducted evaluations of our internal controls over financial reporting to determine whether any changes occurred during the quarter ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. There was no material change in internal control over financial reporting in the quarter ended March 31, 2016.

PART II - OTHER INFORMATION

Item 1.

LEGAL PROCEEDINGS

None

Item 2.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Neither the constituent instruments defining the rights of the Company's securities filers nor the rights evidenced by the Company's outstanding common stock have been modified, limited or qualified.

During the first quarter of 2016 the Company issued 3,000,000 shares of unregistered common stock at \$0.07 per share for a total consideration of \$210,000 as a part of the Butte Highlands mineral property purchase. No shares of the Company's stock were issued in the first quarter of 2015.

The Company relied on the transaction exemption afforded by Section 4(a)(2) of the Securities Act of 1933, as amended, and Regulation D Rule 506(b). The common shares are restricted securities which may not be publicly sold unless registered for resale with the Securities and Exchange Commission or exempt from the registration requirements of the Securities Act of 1933, as amended.

Item 3.

DEFAULTS UPON SENIOR SECURITIES

The Company has no outstanding senior securities.

Item 4.

MINE SAFETY DISCLOSURES

Pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), issuers that are operators, or that have a subsidiary that is an operator, of a coal or other mine in the United States are required to disclose in their periodic reports filed with the SEC information regarding specified health and safety violations, orders and citations, related assessments and legal actions, and mining-related fatalities. During the quarter ended March 31, 2016, the Company had no citations for a violation of mandatory health or safety standards that could significantly and substantially (S&S citation) contribute to the cause and effect a mine safety or health hazard under section 104 of the Federal Mine Safety and Health Act of 1977. There were no legal actions, mining-related fatalities, or similar events in relation to the Company's United States operations requiring disclosure pursuant to Section 1503(a) of the Dodd-Frank Act.

Item 5.
