**Greene County Bancorp, Inc.  
Reports Earnings**

Catskill, N.Y. -- (BUSINESS WIRE) - May 3, 2005-- Greene County Bancorp, Inc. (the Company) (NASDAQ: GCBC), the holding company for The Bank of Greene County (the Bank), today reported net income for the nine months and quarter ended March 31, 2005. Net income for the nine months ended March 31, 2005 amounted to \$2.3 million, or \$1.11 per basic and \$1.09 per diluted share as compared to \$2.2 million, or \$1.09 per basic and \$1.06 per diluted share for the nine months ended March 31, 2004, an increase of \$0.1 million, or 4.5%. Net income for the quarter ended March 31, 2005 amounted to \$682,000, or \$0.33 per basic and \$0.32 per diluted share as compared to \$734,000, or \$0.37 per basic and \$0.36 per diluted share for the quarter ended March 31, 2004, a decrease of \$52,000, or 7.1%. Net income improvement for the nine months ended March 31, 2005 over the same period the prior year was primarily due to the enhancement of net interest income caused by higher net interest spread and margin because of reduced borrowing expense and lower rates paid on certificates of deposits. The decline in net income when comparing the quarters ended March 31, 2005 and March 31, 2004 was a result of a decline in noninterest income and higher noninterest expenses primarily salaries and employee benefits.

Net interest income increased to \$8.1 million for the nine months ended March 31, 2005 as compared to \$7.5 million for the nine months ended March 31, 2004, an increase of \$0.6 million or 8.0%. The growth in net interest income was the result of improved net interest spread and net interest margin. Net interest spread increased five basis points to 3.94% for the nine months ended March 31, 2005 from 3.89% for the nine months ended March 31, 2004 and net interest margin increased four basis points to 4.01% for the nine months ended March 31, 2005 from 3.97% for the nine months ended March 31, 2004. The primary factor contributing to this improvement was the growth in loan volume with average loans increasing \$15.9 million between March 31, 2005 and March 31, 2004. This increase in volume offset a decline in average yield on such loans of 37 basis points when comparing the nine months ended March 31, 2005 and 2004. Net interest income increased to \$2.7 million for the quarter ended March 31, 2005 as compared to \$2.6 million for the quarter ended March 31, 2004, an increase of \$0.1 million or 3.9%. Net interest spread decreased nine basis points to 3.92% for the quarter ended March 31, 2005 from 4.01% for the quarter ended March 31, 2004 and net interest margin decreased ten basis points to 3.99% for the quarter ended March 31, 2005 from 4.09% for the quarter ended March 31, 2004. These declines in spread and margin were primarily the result of additional premium write-downs taken on various DUS bonds (a type of mortgage-backed security) due to prepayments and due to the replacement of matured securities with lower yielding investments. The average yield on investment securities decreased 39 basis points to 3.56% for the quarter ended March 31, 2005 as compared to 3.95% for the quarter ended March 31, 2004.

The provision for loan loss for the nine months ended March 31, 2005 and 2004 amounted to \$70,500 and \$75,000, respectively and amounted to zero and \$30,000 for the quarters ended March 31, 2005 and 2004, respectively. The levels of provisions for loan losses reflected continued strong asset quality. Included in the provision for the nine months and quarter ended March 31, 2005 were net charge-offs associated with the overdraft protection program which previously were included in other noninterest expense.

Noninterest income remained flat at \$2.0 million for the nine months ended March 31, 2005 and 2004. Noninterest income amounted to \$612,000 and \$709,000 for the quarters ended March 31, 2005 and 2004, respectively, a decline of \$97,000 or 13.7%. Customers' use of the Company's Overdraft Protection Program declined during the quarter ended March 31, 2005, contributing to lower service fees when comparing the three- and nine-month periods ended March 31, 2005 and 2004. During the quarter ended March 31, 2004 the Company had recognized a gain on the sale of securities of approximately \$47,000. There were no sales of securities during the three- or, nine-month periods ended March 31, 2005. Gains on sales of other real estate owned amounted to \$19,500 and \$1,500 for the nine-months

ended March 31, 2005 and 2004, respectively.

Noninterest expense amounted to \$6.8 million and \$6.2 million for the nine months ended March 31, 2005 and 2004, respectively, an increase of \$0.6 million, or 9.7%. Noninterest expense amounted to \$2.3 million and \$2.2 million for the quarters ended March 31, 2005 and 2004, respectively, an increase of \$0.1 million or 4.5%. The most significant items contributing to the overall increases in noninterest expense were higher salary and employee benefits. Additional staffing, including marketing and information technology staff, contributed to the higher expense. Increases in expenses such as servicing and data processing, office supplies and equipment and furniture have been largely driven by more customers and additional staff. During the nine months ended March 31, 2004, the Company recognized a loss on the sale of securities which amounted to \$40,000; no such loss was recorded during the same period ended March 31, 2005.

The effective tax rate decreased to 29.3% and 30.9%, respectively for the nine months and quarter ended March 31, 2005, as compared to 31.7% and 33.4%, respectively for the nine months and quarter ended March 31, 2004. A major reason for the changes in effective rates was the increase in the percentage of income that municipal securities and other tax free investments contributed to total income during the three- and nine-month periods as well as tax benefits received for various stock-based compensation plans and the level of pretax income.

Total assets of the Company were \$293.3 million at March 31, 2005, as compared to \$284.6 million at June 30, 2004, an increase of \$8.7 million or 3.1%. Loan growth amounted to \$8.2 million, or 5.5% to \$158.7 million at March 31, 2005 as compared to \$150.5 million at June 30, 2004. The loan growth was funded by growth in deposits of \$9.5 million for the same period. Excess federal funds balances were used to pay down borrowings by \$2.5 million between March 31, 2005 and June 30, 2004.

Shareholders' equity amounted to \$31.5 million at March 31, 2005 as compared to \$29.8 million at June 30, 2004, an increase of \$1.7 million. Retained earnings was increased by net income of \$2.3 million and partially offset by dividends paid of \$783,000. Accumulated comprehensive income was affected by an increase in the available-for-sale portfolio's net unrealized loss position of \$183,000 to \$298,000, net of tax. Treasury stock decreased by \$40,000 due to the exercise of 3,700 options under the 2000 Stock Option Plan, and \$73,000 due to the vesting of 6,800 shares awarded under the Company's recognition and retention plan, reducing the number of shares held in treasury to 88,132 shares.

Headquartered in Catskill, New York, the Company provides full-service community-based banking in its six branch offices located in Catskill, Cairo, Coxsackie, Greenville, Tannersville, and Westerlo and lending services from a loan origination office opened in January 2005 in the city of Hudson in Columbia County, New York. Customers are offered 24-hour services through ATM network systems, an automated telephone banking system and Internet Banking through its web site at <http://www.thebankofgreenecounty.com>.

This press release contains statements about future events that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those projected in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, general economic conditions, changes in interest rates, regulatory considerations, competition, technological developments, retention and recruitment of qualified personnel, and market acceptance of the Company's pricing, products and services.
