- 2Q02 figures in this press release are presented on a pro forma basis, consolidating 100% of GT to facilitate comparisons.

- Personnel, G&A and other expenses represented 9.8% of total net revenues in 2Q03, a decrease of 2.5 p.p. compared to 12.3% in 2Q02, reflecting the Company's effort to adopt best practices and achieve productivity gains.
- Just after 2 months of the launch of the new brand, Vivo reached 25% of Top of Mind, 3 points ahead of the second ranking consumer brand (source: IPESPE, instituto de pesquisas sociais, políticas e econômicas).

**Relevant Events**

On April 25, TCP announced the closing of the acquisition of the controlling stake in TCO. The final price paid for the Controlling Shares amounted to R\$ 1,506 million (US\$ 524.4 million).

**Subsequent Events**

## Edgar Filing: TELESP CELLULAR HOLDING CO /ADR/ - Form 6-K

- As of July 6, 2003, the Código de Seleção de Prestadores - CSP (Carriers Selection Code) was introduced for long distance (VC2 and VC3) and international wireless calls, in compliance with SMP rules. Therefore Vivo operating companies will no longer receive VC2 and VC3 revenues, instead receiving interconnection revenues for the use of their network on those calls. TCP announced the roll over for a 5-year period, with annual interest renegotiations, of R\$ 700 million (US\$ 243.7 million) debentures issued in February, 2003, which will come due in August, 2003.
- TCP announced the roll over for a 5-year period, with annual interest renegotiations, of R\$ 700 million (US\$ 243.7 million) debentures issued in February, 2003, which will come due in August, 2003.

**Area of Operations** TCP holds an authorization to provide wireless communication services in the States of São Paulo, Paraná and Santa Catarina. Also after the TCO acquisition, the Company now operates in more 11 states in Brazil and in the Federal District: Acre, Amazonas, Amapá, Goiás, Maranhão, Mato Grosso, Mato Grosso do Sul, Pará, Rondônia, Roraima e Tocantins totaling 6.34 million km<sup>2</sup> and to 84.8 million inhabitants, equivalent to approximately 49% of the Brazilian population.

**Brazil Client Base** According to data provided by ANATEL, the number of wireless users in Brazil rose from 30.6 million at the end of the second quarter of 2002 to 38.0 million in this second quarter of 2003.

**2.5 Generation** TCP's client base with 1XRTT service reached 525,000 in 2Q03, which represents 4.8% of total TCP's client base, a significant increase of 53% compared to 343,000 clients in 1Q03.

TCP continues to expand 1XRTT coverage throughout its region, attending the increasing demand from its clients. In Telesp Celular's operation, we already have full 1xRTT coverage in the metropolitan area of the city of São Paulo, ABCD region, Guarulhos, Osasco, Cubatão, Campinas, Itú, Jundiaí, Santos, Guarujá/Bertioga and, recently in June, we have permanently activated 1xRTT in the tourist region of Campos de Jordão in the Winter Festival which began in that month.

Regarding Global Telecom, coverage includes the cities of Curitiba and São José dos Pinhais.

We plan to further expand our CDMA 1xRTT coverage by the end of 2003 to cover regions with strong business potential including TCO's area of operation, based on a judicious selection of capital expenditures projects, in order to ensure the most efficient management of our capital and returns.

main drivers of higher net revenues.

TCO contributed 22% of TCP's total net revenues of R\$ 1,512.0 million (US\$ 526.5 million) in 2Q03.

### Net Revenues from Services

Net revenues from services increased 15.9% in 2Q03 compared to 2Q02, reaching R\$ 979.3 million (US\$ 341.0 million), following the client base growth and higher interconnection rates, in spite of a higher proportion of pre paid client base. ### Wireless Data

Wireless data services experienced significant growth this quarter, including TCO operations, increasing 131% compared to 2Q02. The focus was a group of nation-wide campaigns targeting young audiences that have resulted in increased penetration in the client base of SMS (Short Message) and WAP services.

### Net Revenues from Handsets Sales

Net revenues from handset sales increased 52.5% in 2Q03 compared to 2Q02, reaching R\$ 201.3 million, mainly due to a higher volume of sales and higher unit sales prices of handsets.

TCO contributed 21% of TCP's consolidated net revenues from handsets of R\$ 253.6 million (US\$ 88.3 million) in 2Q03.

### Operating Costs

Total operating costs grew 29.6% in 2Q03 compared to 2Q02, reaching R\$ 775.3 million (US\$ 270.0 million). 94% of the increase was impacted by commercial activities, which affect selling expenses, responsible for 46% of the increase, and costs of handsets, responsible for 47% of the increase. The increase in commercial activities reflects stronger marketing efforts and client retention costs, as a consequence of a slight increase in competition and the launch of the new Vivo brand in April, which is a non-recurring expense.

The costs related to non-commercial activities such as cost of services grew below the inflation rate (IGPDI), 13.0% in 2Q03 compared to 2Q02 while IGPDI (Indice Geral de Preços de Disponibilidade Interna) increased 26.9% in the period. G&A and personnel expenses decreased 6.7% in 2Q03 compared to 2Q02, reflecting the Company's effort to adopt best practices throughout the Vivo operations.

### Cost of Handsets Sold

The 49.6% growth in cost of handset sold in 2Q03 compared to 2Q02 is a result of an increase in commercial activities, a higher volume of sales and higher unit sales prices of handsets.

TCO contributed 22% of TCP's consolidated cost of handsets of R\$ 322.0 million (US\$ 112.1 million) in 2Q03.

### Cost of Services

Cost of services increased 13.0% over 2Q02, totaling R\$ 171.1 million (US\$ 59.6 million) in 2Q03, due to an increase in cost of services, otherwise it would have been stable. TCO contributed 25% of TCP's consolidated cost of services of R\$ 229.5 million (US\$ 79.9 million) in 2Q03.

## Edgar Filing: TELESP CELLULAR HOLDING CO /ADR/ - Form 6-K

### Selling Expenses

Selling expenses in 2Q03 reached R\$ 236.0 million (US\$ 82.2 million), a 53.5% increase compared to 2Q02 and a 34.0% increase compared to 1Q03, reflecting stronger marketing efforts and client retention costs, as a consequence of a slight increase in competition and the launch of the new Vivo brand in April, which is a non-recurring expense. A majority of the expenses related to the launch of the new brand are included in 2Q03. The impact in EBITDA margin is 1.8 p.p.

TCO contributed 15% of TCP's consolidated selling expenses of R\$ 278.0 million (US\$ 96.8 million) in 2Q03.

### Personnel, G&A and Other Expenses

Personnel, G&A and other expenses represented 9.8% of total net revenues in 2Q03, a decrease of 2.5 p.p. compared to 12.3% in 2Q02, reflecting the Company's effort to adopt best practices and achieve productivity gains.

### Bad Debt

Bad debt level represented 1.5% of gross revenues. This low level is a consequence of the quality of current postpaid client base and also to the tight credit control policy regarding dealers and corporate clients.

### EBITDA

EBITDA increased 7% in 2Q03 compared to 2Q02, totaling R\$ 405.3 million (US\$ 141.1 million). The growth would have been 12% excluding the non-recurring expense related to the launch of the new brand. Compared to 1Q03, EBITDA would have increased 4% excluding the launch of the new brand.

TCO contributed to 25% from R\$ 537.0 million (US\$ 187.0 million) of TCP's EBITDA in 2Q03.

### Financial Results

Excluding proportional consolidation of TCO, net financial expenses in 2Q03 decreased by 49% compared to 2Q02, due to a lower level of debt and a more efficient hedging strategy.

As anticipated in 1Q03, during 2Q03 we successfully completed the reversal of the excess hedge position in Euros at Global Telecom, which represented a cash addition of R\$ 247.1 million (US\$ 86.0 million), net of R\$ 42.4 million (US\$ 14.8 million) of withholding tax that will be used by the Company as a tax credit, totaling R\$ 289.5 million (US\$ 100.8 million) gross contribution. Accounting losses recorded in the quarter due to this reversal amounted to R\$ 135.6 million (US\$ 47.2 million), but for the remainder of the year the company will benefit from reduced financial expenses associated with the carrying cost and potential foreign exchange losses in connection with this position. Part of this cash generation was used to repay debt and part was invested in short-term instruments, which will also represent additional financial income for the company.

As a result of this accounting loss and also as a result of R\$ 48.4 million (US\$ 16.9 million) in financial expenses incurred by the company as a consequence of the acquisition of TCO, financial expenses amounted to R\$ 402.5 million (US\$ 140.1 million) in 2Q03 compared to R\$ 252.4 million (US\$ 87.9 million) in 1Q03.

Including proportional consolidation of TCO, TCP's financial expenses during 2Q03 amounted to R\$ 379.7 million (US\$ 132.2 million), R\$ 22.8 million (US\$ 7.9 million) less than TCP excluding TCO, due to the net cash position contributed by TCO.

Edgar Filing: TELESP CELLULAR HOLDING CO /ADR/ - Form 6-K

**Operating Cash Flow** Operating cash flow presented a significant increase of 31.5% in 2Q03 reaching R\$ 348.3 million (US\$ 121.3 million), after capital expenditures totaling R\$ 57 million (US\$ 33.4 million). Considering the consolidation of TCO, operating cash flow grew 66% compared to 2Q02.

**Net Result** Net loss was R\$ 262.2 million (US\$ 91.3 million) in the quarter. The Company showed a significant improvement in net loss, which was reduced by R\$ 116.3 million (US\$ 40.5 million) in 2Q03 compared to 2Q02.

**Debt** During 2Q03, we made a successful eurobond issue in the amount of US\$ 150 million (US\$ 52.2 million), the first issue in the year to come from a Brazilian non-export company. The maturity of this debt is 18 months, which has improved our ratio of long - term debt as a percentage of total debt from 48.9% in 1Q03 to 57.5% in 2Q03, before consolidation of TCO. During 2Q03, we also started to fully consolidate TCO in our balance sheet. If we consider the consolidation of TCO, long - term debt as a percentage of total debt stands at 56.7%.

At the end of 2Q03, net debt before consolidation of TCO stood at R\$ 3,895.5 million (US\$ 1,356.4 million), representing a R\$ 1,018.2 million (US\$ 354.5 million) increase compared to R\$ 2,877.3 million in 1Q03. This increase reflects disbursements made during 2Q03 related to the purchase price of TCO in the amount of R\$ 903.3 million (US\$ 314.5 million) and the net effect of the reversal of the over hedged position in the amount of R\$ 135.6 million (US\$ 47.2 million).

Net debt considering full consolidation of TCO amounted to R\$ 3,482.5 million, reflecting a net cash position of R\$ 412.9 million from TCO.
