Fair Value Measurements (7)

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund's Board of Directors.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price on the date of valuation.

Restricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted. However, the Fund considers, among other things, whether a debt issuer is in default or bankruptcy and the underlying collateral and may adjust the fair value accordingly.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, Fair Value Measurements, under which the Fund has established a fair value hierarchy that prioritizes the sources ("inputs") used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated

market data or a reporting entity's own assumptions (Level 3 inputs).

RENN Global Entrepreneurs Fund, Inc.  
Portfolio of Investments  
Third Quarter Report  
September 30, 2012 (unaudited)

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of September 30, 2012:

	Level 1	Level 2	Level 3	Total
Convertible Bonds	\$ -	\$140,000	\$199,150	\$ 339,150
Convertible Preferred Equities	-	1,445,247	961,870	2,407,117
Common stock	5,151,663	2,246,333	362,317	7,760,313
Miscellaneous Securities	-	77,558	-	77,558
Total Investments	\$ 5,151,663	\$3,909,138	\$ 1,523,337	\$ 10,584,138

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Level 3	
Beginning balance – June 30, 2012	\$ 1,650,004
Transferred from Level 2 to Level 3	0
Changes in unrealized gain or loss	(126,667)
Ending Balance – September 30, 2012	\$ 1,523,337

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise. The transfers into Level 3 and out of Level 3 identified above were due to changes in the observability of the inputs utilized by the Fund to estimate the fair value of certain securities.
