Explanatory Note

On October 29, 2010, Palatin Technologies, Inc. (the “Company”) filed a registration statement with the Securities and Exchange Commission (the “SEC”) on Form S-1 (Registration No. 333-170227) (the “Registration Statement ” or the “Form S-1”). The Registration Statement was declared effective by the SEC on February 23, 2011 to register 23,000,000 shares of our common stock, par value \$0.01 per share (the “Common Stock”), Series A Warrants to purchase up to 2,000,000 shares of our Common Stock, up to 2,000,000 shares of our Common Stock issuable upon exercise of the Series A Warrants, Series B Warrants to purchase up to 21,000,000 shares of our Common Stock and underwriter warrants to purchase up to 575,000 shares of our Common Stock. The Common Stock, Series A Warrants and Series B Warrants were sold in units (the “Units”), with each Unit consisting of one share of Common Stock, a Series A Warrant exercisable for 2/23 of a share of Common Stock and a Series B Warrant exercisable for 21/23 of a share of Common Stock. This Post-Effective Amendment No. 1 to Form S-1 on Form S-3 (the “Post-Effective Amendment”) is being filed by the registrant to convert the Form S-1 into a registration statement on Form S-3, and contains an updated prospectus relating to the offering and sale of the shares that were registered on the Form S-1. As of the date of filing of this Post-Effective Amendment, no further offering will be made of the Units or the Series A Warrants or Series B Warrants. Accordingly, this Post-Effective Amendment registers only the exercise of the Series A Warrants already issued, consisting of 2,000,000 shares of our Common Stock issuable upon exercise of the Series A Warrants. The Common Stock issuable upon exercise of the Series B Warrants was separately registered on Form S-3 (Registration No. 333-174251), which registration statement was declared effective by the SEC on May 25, 2011.

All filing fees payable in connection with the registration of the shares of the Common Stock registered by the Registration Statement were paid by the registrant at the time of the initial filing of the Form S-1.

PROSPECTUS SUMMARY

This is a summary of our business and this offering. For a more complete understanding of our business and this offering, you should read the entire prospectus and the documents incorporated by reference. If you invest in our securities, you are assuming a high degree of risk. In this prospectus, references to “we,” “our,” “us,” the “Company” or “Palatin” means Palatin Technologies, Inc. and its subsidiary.

Our Company

We are a biopharmaceutical company developing targeted, receptor-specific peptide therapeutics for the treatment of diseases with significant unmet medical need and commercial potential. Our programs are based on molecules that modulate the activity of the melanocortin and natriuretic peptide receptor systems. Our primary product in development is bremelanotide for the treatment of female sexual dysfunction (FSD). In addition, we have drug candidates or development programs for obesity, erectile dysfunction, pulmonary diseases, heart failure and inflammatory diseases.

The following drug candidates are actively under development:

- Bremelanotide, a peptide melanocortin receptor agonist, for treatment of FSD. This drug candidate is in Phase 2B clinical trials.
- AZD2820, a melanocortin receptor-based compound for treatment of obesity, under development by AstraZeneca AB (AstraZeneca) pursuant to our research collaboration and license agreement. This drug candidate is in Phase 1 clinical trials.
- An inhalation formulation of PL-3994, a peptide mimetic natriuretic peptide receptor A (NPR-A) agonist, for treatment of acute exacerbations of asthma. This PL-3994 formulation is in preclinical research.

The following chart shows the status of our drug candidates, including drug candidates being developed by AstraZeneca and drug candidates for which we are seeking additional capital from licensing or development agreements or other sources.

We intend to utilize our existing capital resources primarily for development of bremelanotide for FSD, and secondarily for limited development work on PL-3994. We will not initiate the preclinical activities that are required to start clinical trials with an inhaled formulation of PL-3994, initiate clinical trials with subcutaneous formulations of PL-3994, or initiate preclinical toxicity and other studies with new peptide drug candidates for sexual dysfunction unless we obtain additional capital, through collaborative arrangements or other sources, to support such activities. We believe that our cash and cash equivalents are adequate to complete our ongoing Phase 2B clinical trial with bremelanotide for FSD, but we expect that the Phase 3 bremelanotide clinical trial program for FSD, which will not commence before calendar year 2013, will require significant additional resources and capital.

Key elements of our business strategy include: using our technology and expertise to develop and commercialize innovative therapeutic products; entering into alliances and partnerships with pharmaceutical companies to facilitate the development, manufacture, marketing, sale and distribution of product candidates that we are developing; and, partially funding our product development programs with the cash flow generated from our license agreement with AstraZeneca and any other companies.

RISK FACTORS

Investing in our securities involves risks which you should consider carefully. We have set forth below risk factors related specifically to this offering. For risks related to our business operations, see "Risk Factors" in our annual report on Form 10-K for the year ended June 30, 2011 and all subsequent reports that we file with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act of 1934. We have incorporated those reports by reference into this prospectus. See "Incorporation of Information by Reference" and "Where You Can Find More Information" below.

Risks Relating to this Offering

We expect to sell additional equity securities, which will cause dilution.

We expect to sell more equity securities in the future to obtain operating funds. The proceeds from this offering, if any, will not be sufficient to complete clinical trials and other studies required for the approval of any product by the United States Food and Drug Administration (FDA). We expect that the Phase 3 bremelanotide clinical trial program for FSD will require significant additional resources and capital. If we sell more equity securities, we may sell these securities at a discount to the market price. Any future sales of equity will dilute the holdings of existing stockholders, possibly reducing the value of their investment.

Investors in this offering may suffer immediate dilution.

As of June 30, 2011, we had a net tangible book value of \$18.2 million which yields a net tangible book value of approximately \$0.52 per share of common stock, assuming the conversion of all then convertible preferred stock and no exercise of any warrants or options. The net tangible book value per share is less than the current market price per share. If you pay more than the net tangible book value per share for stock in this offering, you will suffer immediate dilution.

As of September 20, 2011, there were 27,127,955 shares of common stock underlying outstanding convertible preferred stock, options, warrants and restricted stock units, and stockholders may experience dilution from the conversion of preferred stock, exercise of outstanding options and warrants and vesting of restricted stock units.

As of September 20, 2011, holders of our outstanding dilutive securities had the right to acquire the following amounts of underlying common stock:

- 26,865 shares issuable on the conversion of immediately convertible Series A Convertible preferred stock, subject to adjustment, for no further consideration;
- 24,371,817 shares issuable on the exercise of warrants at exercise prices ranging from \$1.00 to \$28.20 per share, including (a) the 2,000,000 shares issuable on exercise of the Series A Warrants registered under this prospectus, and (b) 21,575,000 shares issuable on the exercise of warrants that are exercisable starting March 2, 2012 at an exercise price of \$1.00 per share;
- 2,229,273 shares issuable on the exercise of stock options, at exercise prices ranging from \$0.86 to \$42.10 per share; and
- 500,000 shares issuable under restricted stock units of which half vest on June 22, 2012 and the balance on June 22, 2013, subject to the fulfillment of service conditions.

If the holders convert, exercise or receive those securities, or similar dilutive securities we may issue in the future, stockholders may experience dilution in the net tangible book value of their common stock. In addition, the sale or availability for sale of the underlying shares in the marketplace could depress our stock price. We have registered or agreed to register for resale substantially all of the underlying shares listed above. Holders of registered underlying shares could resell the shares immediately upon issuance, which could result in significant downward pressure on our stock price.

We will have broad discretion over the use of the proceeds of this offering and you may not realize a return.

We will have considerable discretion in the application of the net proceeds of this offering. We intend to use the net proceeds to further develop our product candidates and for general corporate purposes. We may use the net proceeds for purposes that do not yield a significant return, if any, for our stockholders.

NOTE CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act of 1934, that involve risk and uncertainties. Any statements contained in this prospectus that are not statements of historical fact may be forward-looking statements. When we use the words “anticipates,” “plans,” “expects” and similar expressions, we are identifying forward-looking statements. Forward-looking statements involve risks and uncertainties which may cause our actual results, performance or achievements to be materially different from those expressed or implied by forward-looking statements. These factors include, among others:

- current or future financial performance,
- management’s plans and objectives for future operations,
- uncertainties associated with product research and development,
 - clinical trials and results,
- uncertainties associated with dependence upon the actions of our collaborators and of government regulatory agencies,
 - product plans and performance,
 - management’s assessment of market factors, and
- statements regarding our strategy and plans and those of our strategic partners.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause our actual results to be materially different from our historical results or from any results expressed or implied by forward-looking statements. Our future operating results are subject to risks and uncertainties and are dependent upon many factors, including, without limitation, the risks identified under the caption “Risk Factors,” and in our other SEC filings. The statements we make in this prospectus are as of the date of this prospectus.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as may be required by law, we do not intend to update any of the forward-looking statements for any reason after the date of this prospectus to conform such statements to actual results or if new information becomes available.

All forward-looking statements attributable to us, or to persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements.

USE OF PROCEEDS

We received net proceeds of approximately \$21.0 million from the offer and sale of the Units in the firm commitment public offering that closed on March 1, 2011, after deducting underwriting discounts and offering expenses. This amount does not include the proceeds which we may receive in connection with the exercise of either the Series A Warrants or the Series B Warrants.

In the event of full exercise of all of the Series A Warrants, we will receive additional net proceeds of approximately \$2.0 million. We cannot predict when or if the warrants will be exercised, and it is possible that the warrants may expire and never be exercised.

While we have no specific plan for the proceeds from the exercise of Series A Warrants, we expect to use the net proceeds of this offering, if any, for general corporate purposes and working capital, including our clinical trial programs with bremelanotide for female sexual dysfunction, PL-3994 development programs for asthma and a development program for new peptides for sexual dysfunction. The amounts actually expended for each purpose may vary significantly depending on numerous factors, including the timing of the proceeds, if any, from this offering. Expenditures will also depend on the availability of additional financing and other factors. Pending use of the net proceeds, we may invest these net proceeds in interest-bearing, investment-grade securities. Investors will be relying on the judgment of our management regarding the application of the proceeds of any sale of securities.

The proceeds from this offering will not be sufficient to complete clinical trials and other studies required for the approval of any product by the FDA, and we will need significant additional funds in the future. See "Risk Factors" beginning on page 6 of this prospectus.

Table of Contents

DILUTION

Our net tangible book value as of June 30, 2011, was \$18,191,775, or \$0.52 per share of common stock. Net tangible book value per share is calculated by subtracting our total liabilities from our total tangible assets, which is total assets less intangible assets, and dividing this amount by the number of shares of common stock outstanding as of June 30, 2011.

After giving effect to the exercise of outstanding Series A Warrants to issue 2,000,000 shares of common stock at an exercise price of \$1.00 per share, our as adjusted net tangible book value as of June 30, 2011, would have been \$20,191,775, or \$0.55 per share of common stock. This represents an immediate increase in net tangible book value of \$0.03 per share to our existing stockholders and an immediate and substantial dilution of \$0.45 per share to purchasers of common stock on exercise of the Series A Warrants, as illustrated in the following table:

Series A Warrant exercise price per share	\$1.00
Net tangible book value per share as of June 30, 2011	\$0.52
Increase in net tangible book value per share attributable to investors participating in this offering	\$0.03
Net tangible book value per share after this offering	\$0.55
Dilution per share to investors participating in this offering	\$0.45

The foregoing table further does not take into account further dilution to purchasers of shares in this offering that could occur upon the exercise of outstanding options and warrants having a per share exercise price less than the per share offering price to the public in this offering. As of June 30, 2011, there were 34,900,591 shares of common stock outstanding, which does not include:

- 26,865 shares issuable on the conversion of immediately convertible Series A Convertible preferred stock, subject to adjustment, for no further consideration;
- 22,371,817 shares issuable on the exercise of warrants at exercise prices ranging from \$1.00 to \$28.20 per share, excluding the 2,000,000 shares issuable on exercise of the Series A Warrants registered under this prospectus;
- 2,231,898 shares issuable on the exercise of stock options, at exercise prices ranging from \$0.86 to \$42.50 per share;
- 500,000 shares issuable under restricted stock units of which half vest on June 22, 2012 and the balance on June 22, 2013, subject to the fulfillment of service conditions; and
 - 1,894,451 shares reserved for future issuance under our 2011 Stock Incentive Plan.
