SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission file number: 0-29963

FINDEX.COM, INC.

(Exact name of registrant as specified in its charter)

Nevada (State or other jurisdiction of incorporation or organization)	88-0379462 (I.R.S. Employer Identification No.)
1313 South Killian Drive, Lake Park, Florida (Address of principal executive offices)	33403 (Zip Code)

(561) 328-6488

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. **Yes [X] No []**

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). **Yes [X] No []**

Edgar Filing: FINDEX COM INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting
company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY

PROCEEDINGS DURING THE PRECEDING FIVE YEARS:

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the latest practicable date:

At August 18, 2017 the registrant had outstanding 516,480,300 shares of common stock, of which there is only a single class.

Findex.com, Inc.

Notes to Condensed Consolidated Financial Statements

June 30, 2017

(Unaudited)

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Findex.com, Inc. (“Findex”) was incorporated under the laws of the State of Nevada on November 7, 1997, and is headquartered in Lake Park, Florida. The Company’s EcoSmart’s coating operations is the current driver of both operating overhead and revenue. The EcoSmart business currently centers around a proprietary line of specialty materials coatings that have a broad range of value-adding industrial, commercial, residential and consumer applications. In addition, Advanced Nanofibers LLC (“Advanced”) is a variable interest entity of which the Company owned a minority 24.875% interest at December 31, 2016 and, for accounting purposes under Financial Accounting Standards Board (FASB) guidelines, is considered the primary beneficiary among the equity participants based on qualitative and quantitative criteria. Advanced is a Florida-based private venture founded in September 2016 by the Company and two other technology firms, one of which has since withdrawn from involvement. The enterprise is focused on developing and globally industrializing a variety of proprietary breakthrough advances in nano-based and other cementitious product technologies. Advanced is rapidly evolving and expected by management to eventually outpace EcoSmart’s coating operations in terms of percentage growth on both the expense and revenue sides. Despite Advanced’s lack of revenue to date, it is a venture that the Company’s management has been and continues to be very actively involved in developing, and that is increasingly consuming a greater percentage of the Company’s financial and human resources, a trend management expects to continue into the foreseeable future.

ECOSMART

The Company’s core business – known as EcoSmart Surface & Coatings Technologies – is centered around a line of specialty industrial glass-based “smart surface” coatings that have a wide range of uses across each of the industrial, commercial, and household market segments and that are centered around a U.S. patented technology that, either on its own or when coupled with any of an array of available proprietary formula additives, offers a unique combination of beneficial surface properties that allow for a broad array of multi-surface and end-product applications. Among others, such applications currently include:

- Heavy Construction Equipment/Vehicles
- Oil and Gas Drilling and Related Heavy Equipment
- Industrial and Residential HVAC Equipment, Commercial Refrigeration Systems, and Power Generators

Interior and Exterior Flooring and Tiling, Pavers and Hardscapes

Over time, EcoSmart intends to develop itself in the strategic direction of becoming a leading research-oriented, high-tech specialty “smart-surface” materials development and licensing company centered around a highly-qualified research team and state-of-the-art research lab and applying a combination of organic and inorganic chemistries, materials science engineering, and nanotechnology. EcoSmart currently has expertise and capabilities in each of these areas.

ADVANCED NANOFIBERS (VARIABLE INTEREST ENTITY)

Advanced Nanofibers LLC (“Advanced”) is a variable interest entity of which the Company owned a minority 31.37% interest at June 30, 2017 and, for accounting purposes under FASB guidelines, is considered the primary beneficiary among the equity participants based on qualitative and quantitative criteria. Advanced is a Florida-based, private venture founded in September 2016 by the Company and two other technology firms, one of which has since withdrawn from involvement. The enterprise is focused on developing and globally industrializing a variety of proprietary breakthrough advances in nano-based and other cementitious product technologies. Company management believes Advanced’s prospects are extraordinary based on the following key factors that afford it a distinct competitive advantage:

Table of Contents F-4

An array of industrial end-products that are meaningfully superior to competitive products by virtue of a proprietary technological processes; and
The ability to deliver those products at price points that are competitive with existing market products that are meaningfully inferior in quality.

Following an equity restructuring of Advanced that occurred in May 2017 that arose out of the agreed-upon departure from the enterprise of one of the founding technology firms, at June 30, 2017, the venture was owned and controlled approximately 94% by its remaining two founding members, the Company and Nanotech Fibers, LLC, each of which have been actively involved in its development to date. In addition to the Company, this included, as it still does as of the date of this quarterly report on Form 10-Q, Nanotech Fibers LLC, a recently organized, Florida-based, closely-held, private firm engaged in various strategic pursuits within and surrounding the nanotech-based industrial building and infrastructure materials sector. Although it is still in a pre-revenue stage of development, the Company's management team currently devotes a very significant percentage of its time to the business of Advanced Nanofibers.

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Generally Accepted Accounting Principles for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by Generally Accepted Accounting Principles for complete financial statements. The accompanying unaudited condensed consolidated financial statements reflect all adjustments that, in the opinion of management, are considered necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. The results of operations for such periods are not necessarily indicative of the results expected for the full year or for any future period. The December 31, 2016 condensed consolidated balance sheet data was derived from audited financial statements. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements of Findex.com, Inc. included in the Company's Form 10-K for the year ended December 31, 2016 filed with the Securities and Exchange Commission on April 17, 2017.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries (Reagan Holdings, Inc., Findex.com, Inc. Delaware, and ESCT Acquisition Corp.), and the accounts of Advanced Nanofibers LLC, a Florida limited liability company and variable interest entity, of which the Company has been deemed the primary beneficiary. As of June 30, 2017, the Company owns a non-controlling, minority interest of 31.37% in Advanced. All inter-company balances and transactions have been eliminated in consolidation.

Reclassifications

Certain accounts in the Company's 2016 financial statements have been reclassified for comparative purposes to conform with the presentation in the Company's 2017 financial statements to which these footnotes relate.

Use of Estimates

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. Significant estimates include inventory evaluation for slow moving and obsolete items, collectability of accounts receivable, assessing intangibles for impairment, useful lives of assets, and valuation of stock based compensation and consideration of variable interest entities.

Table of Contents F-5

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

INVENTORY

The Company's inventories are recorded at the lower of cost or market using the first in, first out method. The Company's inventory consists of raw materials and finished goods. The Company takes into consideration certain inventory items that are slow moving and obsolete and calculates a provision for these inventory items.

INTANGIBLE ASSETS OTHER THAN GOODWILL

The Company's intangible assets consist of patents and patents pending acquired from third parties, and are recorded at cost. In accordance with Financial Accounting Standards Board Accounting Standards Codification ("ASC") 350-30, *General Intangibles Other Than Goodwill*, intangible assets with an indefinite useful life are not amortized. Intangible assets with a finite useful life are amortized on the straight-line method over the estimated useful lives, generally three to ten years. All intangible assets are tested for impairment annually during the fourth quarter.

REVENUE RECOGNITION

The Company recognizes revenues in accordance with the provisions of FASB Accounting Standards Codification ("ASC") 605-10, *Revenue Recognition*, which provides guidance on the recognition, presentation, and disclosure of revenue in financial statements filed with the Securities and Exchange Commission. ASC 605-10 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. The Company recognizes revenue when the earnings process is complete. That is, when the arrangements of the goods are documented, the pricing becomes final and collectability is reasonably assured. An allowance for bad debt is provided based on estimated losses.

Revenue is recognized when a product is delivered or shipped to the customer and all material conditions relating to the sale have been substantially performed.

In addition, within the Company's operations as a whole, the Company derives part of its revenues from the sale of downloadable software products. The Company recognizes software revenue for software products and related services in accordance with ASC 985-605, *Software Revenue Recognition*. The Company recognizes revenue when persuasive evidence of an arrangement exists (generally a purchase order), the Company has delivered the product, the fee is fixed or determinable and collectability is probable. In some situations, the Company receives advance payments from the Company's customers. The Company defers revenue associated with these advance payments until the Company ships the products or offers the support.

RESEARCH AND DEVELOPMENT

The Company's research and development costs consist of direct production costs, including labor directly associated with the development of projects and outside consultants, and indirect costs such as those associated with facilities use. For labor costs and costs of outside consultants, the Company records the research and development costs as a reduction against either personnel costs or professional fees. For facilities leasing related expenses, the Company records the research and development costs as a reduction against rent. For the six months ended June 30, 2017 and 2016, the Company recognized \$190,378 and \$99,636, respectively, in research and development costs.

STOCK-BASED COMPENSATION

The Company recognizes share-based compensation in accordance with ASC 718, *Compensation – Stock Compensation*, using the modified prospective method. ASC 718 requires that the Company measure the cost of the employee services received in exchange for an award for equity instruments based on the grant-date fair value and to recognize this cost over the requisite service period. See Note 8.

[Table of Contents](#) F-6

EARNINGS (LOSS) PER SHARE

The Company follows the guidance of ASC 260, *Earnings Per Share*, to calculate and report basic and diluted earnings per share (“EPS”). Basic EPS is computed by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted EPS is computed by giving effect to all dilutive potential shares of common stock that were outstanding during the period. For the Company, dilutive potential shares of common stock consist of the incremental shares of common stock issuable upon the exercise of stock options and warrants for all periods and convertible notes payable.

When discontinued operations, extraordinary items, and/or the cumulative effect of an accounting change are present, income before any of such items on a per share basis represents the “control number” in determining whether potential shares of common stock are dilutive or anti-dilutive. Thus, the same number of potential shares of common stock used in computing diluted EPS for income from continuing operations is used in calculating all other reported diluted EPS amounts. In the case of a net loss, it is assumed that no incremental shares would be issued because they would be anti-dilutive. In addition, certain options and warrants are considered anti-dilutive because the exercise prices were above the average market price during the period. Anti-dilutive shares are not included in the computation of diluted EPS, in accordance with ASC 260-10-45-17.

The calculations of net loss per share for the six months ended June 30, 2017 and 2016 excluded the impact of the following potential common shares as their inclusion would be anti-dilutive.
