PART I

ITEM 1. DESCRIPTION OF BUSINESS

General

Logistics Management Resources, Inc. ("LMRI" or the "Company" interchangeably) is a holding company that was originally organized in 1998 to acquire, consolidate and manage transportation companies. Through out the late 1990's and early 2000 the Company completed approximately nine acquisitions of

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

mid-to-long haul truck lines, container operations and brokerage operations which it consolidated into four units, Gulf Northern Transport, Inc., ProStar, Inc., Mencor, Inc., and UST Logistics (the "Business"). During late 2000 the Business encountered industry problems including: economic slow down, increasing fuel costs, increasing interest rates and under-utilized equipment.

After several attempts at restructuring and facing substantial losses, the Company determined its best course of action was to cease operation of the unprofitable Business. On November 30, 2000, the Company's Business sought the protection of Chapter 11 of the Federal Bankruptcy Act in the Jacksonville, Florida District Court. Subsequently the Court appointed Trustee converted the Chapter 11 filing to Chapter 7.

The Company, LMRI, did not file bankruptcy but is currently working to resolve, through negotiations, the settlement or mitigation of its liabilities and those arising from its failed Business. The Company believes that upon reaching settlement it will be able to restructure favorably, allowing it the framework necessary to focus identifying and acquiring another business.

History and Development

LMRI, formerly U.S. Trucking, Inc. (OTCBB:USTK) was incorporated in Colorado under the name Northern Dancer, Inc. in January 1987 for the purpose of acquiring an operating business. In September 1998, it completed a reverse acquisition of U.S. Trucking, Inc., a Nevada corporation.

By late 2000, in the face of substantial losses, the Company determined it was in its best interest to cease operations of its unprofitable Business operations. Accordingly, on November 30, 2000, the unprofitable Business, which was comprised of Gulf Northern Transport, Inc., ProStar, Inc., Mencor, Inc., and UST Logistics, Inc., filed for Chapter 11 protection in Jacksonville, FL District of the Federal Court.

In February of 2001, the Company's Board of Directors and shareholders approved the change of its name from U.S. Trucking, Inc. to Logistics Management Resources, Inc. The shareholders also approved a reverse split of the Company's common stock on a 1 for 100 basis, which was affected through the Company's transfer agent on February 12, 2001. The Company began trading under its new symbol "LMRI" on February 12, 2001.

3

The Company entered an agreement to purchase all of the stock of Interstate University, Inc., a driver school located in Evansville, Indiana in late February of 2002. The terms of the purchase require the Company to pay \$200,000 over a five year term. The Company anticipates closing the transaction in April, 2002.

C. Risk Factors Associated with Our Business and Us

1. Nature of the Business: The sole business of the Company at this time is to resolve the litigations and liabilities it faces, which will allow the Company the framework to direct its activities toward acquiring a new business operation.

2. No Assurance of Success: There can be no assurance that the Company will be successful in its attempt to resolve or mitigate its liabilities.

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

3. Operating History: In view of the past operating history, the Company's prospects for success must be seriously considered given the widely-known risks, expenses and problems that are frequently encountered by companies in the early phases of restructuring an unhealthy business.

4. Requirement for Additional Capital: The Company's business plan is completely dependent upon its ability to mitigate its liabilities and successfully defend against the outstanding litigation. In addition, the Company must be able to raise additional capital for its business purposes. There can be no assurance that we will be successful in accessing sufficient external capital, or in generating sufficient funds internally that collectively will meet our long-term requirements.

5. Limited Trading Market for Our Common Stock: Although the prices for our common stock are published daily on the NASD's over-the-counter Bulletin Board, there can be no assurance that a significantly greater trading market will develop, and even if it did develop, that such greater market interest would be sustained. The absence of greater market interest may significantly affect the marketability and liquidity of an investment in our common shares.

In addition, holders of our common stock may experience substantial difficulty in selling their securities as a result of the "penny stock rules" adopted by the SEC, which restrict the ability of brokers to sell certain securities of companies whose assets, or revenues fall below the thresholds established by those rules. See Item 5 for further discussion of "penny stock rules."

6. Reliance on Key Employees: The Company's viability is substantially dependent upon the performance of its senior management. In particular, our success depends on the continued efforts of our chairman, Danny L. Pixler.

7. Other Activities of Our Officers and Directors: From time to time our director and executive officer may serve as director or executive officer of other companies and, to the extent that such other companies may participate in

4

the industries in which we may seek to participate, such director may have a conflict of interest. In addition, our dependence on such director and officer who devotes time to other business interests may create conflicts of interest. The fiduciary obligations of this individual to the other company may conflict with the individual's fiduciary obligations to us and vice versa.

8. Company's Activities Controlled by Management: Our current officer and director, beneficially owns 200,000 shares of Series C Preferred Stock, which voting rights are equal to 100 Common Shares each of twenty million votes. As such Mr. Pixler may materially influence the Company's affairs, including but not limited to, the election of directors.

ITEM 2. DESCRIPTION OF PROPERTY

The Company occupies approximately 1,600 square feet of office space on a month-to-month basis located at 10602 Timberwood Circle, Suite # 9, Louisville, KY 40223.

ITEM 3. LEGAL PROCEEDINGS

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

We are a party to the following threatened or pending litigation matters:

CIT Group/Equipment Financing, Inc. filed suit against the Company and certain other parties in the Superior Court of NJ, Law Division Union County, Docket No. UNN-L-3556-00 on July 7, 2000 for the return of six tractors formerly used in the business of American Intermodal Services, Inc., some of the operations of which Gulf Northern Transport took over in the spring of 2000. We denied we ever received the tractors. A default judgment was granted in November 2001 against all defendants in the amount of \$384,599.89. We understand that certain of the tractors have since been recovered by CIT. We deny that CIT had jurisdiction over us in the New Jersey court wherein the lawsuit was brought and that the judgment is therefore invalid. CIT has to date not pursued collecting the judgment.

Allstates World Cargo, filed suit against the Company and its chairman for \$678,000. The suit claims the Company and the chairman defaulted on certain business guarantees related to the acquisition of Trans-Logistics as of January 1, 2001. The Company and the chairman have filed an answer in this matter and intend to defend these matters vigorously. The Company and the chairman believe they have significant counterclaims in this matter.

Southtrust Bank, filed suit against the Company and numerous other parties in the U.S. District Court for the Northern District of Alabama, Southern Division on April 30, 2001 (No. CV-01-AR-1068-S). The suit claimed that we are liable as guarantor on approximately \$4.7 million of debt owed by Professional Transportation Group Ltd., Inc. ("PTG") and Timely Transportation, Inc. ("Timely") as primary obligors. PTG and Timely are entities with which we were engaged in merger negotiations in 2000. Southtrust received a judgment in the amount of \$2.8 million against us but has not taken any actions to date to collect the judgment to date.

G.E. Capital Corporation, filed suit against the Company on October 25, 2001 in Circuit Court of Randolph County, Missouri for \$60,000 in unpaid copier lease payments and the return of three copiers used by certain of our former subsidiaries.. The suit is in the discovery stage.

5

Porter, Levay & Rose, Inc., sued us in Jefferson Circuit Court, Jefferson County Kentucky in September 2000 to collect \$30,000 allegedly due for public relations services. We have denied the claim for a lack of consideration and breach of contract. The suit is in the discovery stage.

Sandra Sherman, sued the Company in the Iowa District Court, Des Moines County Iowa for unspecified damages for claims relating to Ms. Sherman's participation in the Company's bankrupt subsidiary, Gulf Northern Transport, Inc.'s health care plan. The claims relating to unpaid benefits are believed to amount to approximately \$50,000. The suit is in the discovery stage.

G.E. Capital Corporation ("GECC"), commenced an action against the Company on October 1, 2001 in the U.S. District Court for the Western District of Kentucky, Louisville Division, alleging a breach of the Company's obligations under a Restructuring Agreement executed by GECC, the Company, its subsidiaries and certain affiliates on November 28, 2000. The agreement between the Company and GECC related to the restructuring of certain obligations to GECC in connection with the revolving line of credit and equipment loan extended its

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

operating subsidiaries. The Company has filed a responsive pleading asserting substantial counterclaims. On January 4, 2002 GECC made a motion to dismiss the Company's counterclaims and on March 1, 2002 the Company opposed that motion and filed a cross-motion to dismiss the complaint filed by GECC, or, the alternative, to stay this action pending the resolution of certain proceedings pending in the U.S. Bankruptcy Court for the Middle District of Florida, which involve certain subsidiaries of the Company. The Company intends to aggressively defend against this action and to seek recovery under its counterclaim against GECC.

Emergent Capital, L.P., filed suit against the Company in the U.S. District Court for the Southern District of New York on September 20, 2000. The complaint alleged that Emergent Capital was owed \$300,000 in contractual penalties for the failure to register certain shares for resale, which Emergent purchased in September of 1999. The matter was settled for the sum of \$140,000 payable over several months, and the action discontinued by the order of the court dated May 17, 2001. The Company has not met all of its obligations under the settlement agreement and judgment in the amount of \$130,846.54 was entered on September 10, 2001.

First Insurance Funding Corporation, filed suit against the Company in Circuit Court of Cook County Illinois on February 19, 2002 in connection with a settlement the Company had allegedly entered into with respect to payments allegedly owed First Insurance by the Company and certain other parties in an insurance premium finance arrangement. The amount claimed due under the promissory note entered into in connection with the agreement is \$123,000. The Company is evaluating the claims and has not filed an answer.

The financial statements of the Company reflect an estimated liability of \$16,960,504 with respect to the above claims matters at December 31, 2001.

6

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the last quarter of the fiscal year ended December 31, 2001.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our common stock has traded on the NASD over the counter Bulletin Board under the symbol LMRI, since February 12, 2001, and under the symbol USTK prior. There were no inside quotes reported for the period presented and the market for our common stock has often been sporadic and limited.

The following table sets forth in the periods indicated the range of high and low bid prices per share of our common stock traded as reported by the NASD over the counter Bulletin Board.

Quarter Ended -----	High Bid -----	Low Bid -----
March 31, 2000	\$ 3.56	\$ 2.06
June 30, 2000	4.43	1.37
September 30, 2000	2.50	.27

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

December 31, 2000	.51	.03
March 31, 2001	.29	.07
June 30, 2001	1.95	.18
September 30, 2001	.28	.03
December 31, 2001	.11	.03

Since our shares began trading on the NASD over the counter Bulletin Board, the prices for our shares have fluctuated widely. There may be many factors that may explain these variations. We believe that such factors include (a) the demand for our common stock, (b) the number of shares of our common stock available for sale, and (c) changes in the performance of the stock market in general, among others.

In recent years, the stock market has experienced extreme price and volume fluctuations that have had a substantial effect on the market prices. Some companies that have experienced volatility in the market place of their stock have been the objects of securities class action litigation. If our Company became the object of securities class action litigation, it could result in substantial costs and a diversion of our management's attention and resources and have an adverse effect on our business, financial condition and operating results. In addition, holders of shares of our common stock could suffer substantial losses as a result of fluctuations and declines in the market price of our common stock.

7

The trading of our shares is subject to limitations set forth in Rule 15g-9 of the Securities Exchange Act. This rule imposes sales practice requirements on broker-dealers who sell so-called "penny stocks" to persons other than established customers, accredited investors or institutional investors. Accredited investors are generally defined to include individuals with a net worth in excess of \$1,000,000, or individual annual income exceeding \$200,000 (\$300,000 with their spouse) during the previous two years and expected annual income of that amount during the current year. For sales of shares to other persons, broker-dealers must make special suitability determinations, obtain written consent from the purchaser prior to consummating the sale, and are generally prohibited from making cold-calls or other unsolicited inquiries to purchasers without complying with these rules. These rules may adversely affect the ability broker-dealers and others to sell our shares in the marketplace.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

A. Forward Looking Statements: This report includes "Forward-Looking Statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved) are not statements of historical fact and may be considered "forward looking statements". Such statements are included, among other places in this registration statement, in the sections entitled "Management's Discussion and Analysis or Plan of Operation," "Description of Business" and "Description of Property." Forward-looking statements are based on expectations, estimates and projections at the time the statements are made that

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

involve a number of risks and uncertainties which could cause actual results or events to differ materially from those presently anticipated. See Part I. Item 1. "Risk Factors Associated with Our Business and Us." Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct.

You should read the following discussion in conjunction with the Consolidated Financial Statements, including the footnotes, and understand that this discussion is qualified in its entirety by the foregoing and other more detailed financial information appearing elsewhere herein.

B. Results of Operations: During the year ended December 31, 2002 we continued to suffer substantial losses from discontinued operations resulting from the bankruptcy of our subsidiaries in November, 2000. These losses amounted to \$4,954,218 for the year ended December 31, 2001 as compared to \$38,711,552 for the year ended December 31, 2000. The current year's loss is centered in the Company's reevaluation, at December 31, 2001, of its estimated liabilities as a result of its discontinued Business.

Losses from continuing operations amounted to \$6,858,573 in 2001 compared to \$2,356,208 in 2000. The increased cost is primarily due to higher interest expense and consulting fees.

8

The Company's present operations are limited, consisting solely of efforts to mitigate or otherwise resolve, through litigation, negotiation, or settlement, its material liabilities. Future operations are dependent upon the Company's success in resolving its existing liabilities, and its access to additional sources of capital sufficient to allow it to enter into another business operation. There can be no assurance that the Company will be successful in these efforts.

C. Liquidity and Capital Resources: Our working capital position continued to deteriorate from a negative \$20,002,465 at December 31, 2000 to a negative \$30,771,816 at December 31, 2001. Further, our deficit increased from \$22,380,894 to \$30,771,816 during the same period. This continued deterioration results primarily from an increase in the estimated liabilities from discontinued operations, interest expense, and consulting fees during the current year. In summary, the Company's lack of liquidity, under capitalization, and lack of profitable operations casts considerable doubt upon its ability to continue as a going concern.

(1) Mr. Pixler, co-founder of the Company, has options to purchase 250,000 common shares at an exercise price of \$0.30 which expire in April 2004.

(2) No additional payments were made to our officers and directors for the two years ending December 31, 2001.

The Company entered into an employment agreement with Danny L. Pixler covering the period September 1998 through September 2003. The agreement provides for an annual base salary of \$105,000 with annual increases of not less

10

than 3% per year. Compensation has been accruing but not paid to Mr. Pixler since December 2000. In addition, the agreement provides for health insurance coverage for Mr. Pixler and his dependents.

Stock Option Plan

During September 1998, the Board of Directors adopted the stock option plan of U.S. Trucking-Nevada as the Company's Stock Option Plan, and we assumed the obligations represented by 1,500,000 options, which were already outstanding. These options have an exercise price of \$0.30. The plan authorizes the issuance of options or grants to purchase up to 5,000,000 shares of our common stock. An additional 15,000,000 options have been granted under the plan at an exercise price of \$3.00.

The Plan allows the Board to grant stock options from time to time to employees, officers, directors and consultants of Logistics Management Resources, Inc. The board has the power to determine at the time that the option is granted whether the option will be an incentive stock option, an option, which qualifies under Section 422 of the Internal Revenue Code of 1986, or an option, which is not an incentive stock option. Vesting provisions are determined by the board at the time options are granted. The option price for any incentive stock option will be no less than the fair market value of the common stock on the date the option is granted, while other options may be granted at any exercise price.

Options granted under the plan with an exercise price less than the fair market value on the date of grant will require us to record an expense upon the grant of options equal to the difference between the market value of the option shares and the exercise price of the options. Generally, there will be no federal income tax consequences to us in connection with incentive stock options granted under the plan. With regard to options that are not incentive stock options, we will ordinarily be entitled to deductions for income tax purposes of the amount that option holders report as ordinary income upon the exercise of

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

such options, in the year such income is reported.

Independent Auditors' Report

To the Board of Directors and Stockholders of

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

Logistics Management Resources, Inc.

We have audited the accompanying balance sheet of Logistics Management Resources, Inc. as of December 31, 2001 and 2000 and the related statements of operations, stockholders' equity (impairment) and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. These standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Logistics Management Resources, Inc. as of December 31, 2001 and the results of its operations, cash flows and changes in stockholders' equity (impairment) for the years ended December 31, 2001 and 2000 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 9 of the notes to the financial statements, the Company incurred net losses of \$11,812,791 and \$41,067,760 for the years ended December 31, 2001 and 2000, respectively, and as of December 31, 2001 had a working capital deficiency and an impairment of \$30,771,618. The Company's ability to generate sufficient proceeds from prospective operations or debt or equity arrangement is uncertain. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to the Financial Statements

Note 1 - General and Summary of Significant Accounting Policies

(A) Nature of Business

Logistics Management Resources, Inc. (LMRI), formerly U. S. Trucking, Inc. was incorporated in Colorado under the name Northern Dancer, Inc. in January, 1987 for the purpose of acquiring an operating company. It completed a small public offering in 1988. In September, 1998 it completed a reverse acquisition of Logistics Management Resources, Inc., formerly U. S. Trucking, Inc., a Nevada corporation that had two operating subsidiaries which it had acquired in early 1997 just after it was incorporated.

Corporate headquarters are located in Louisville, Kentucky.

On November 30, 2000 all four of the Company's operating subsidiaries filed voluntary petitions for reorganization under Chapter 11 of the U. S. Bankruptcy Code. These filings were subsequently converted to Chapter 7. The Company is presently attempting to restructure its liabilities.

(B) Basis of Presentation

The accompanying balance sheet and related statements of operations, stockholders' equity (impairment) and cash flows at and for the years ended December 31, 2001 and 2000, include the financial activities of LMRI. Financial activities of former subsidiaries are included in discontinued operations.

(C) Earnings Per Share

Basic earnings per share are computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the year. Diluted earnings per share are calculated by combining weighted average number of common shares outstanding and potentially dilutive common share equivalents unless the effect of doing so is anti-dilutive. Common equivalent shares have been excluded from the 2001 and 2000 computation of diluted earnings per share since their effect is anti-dilutive.

The weighted average number of shares for 2001 and 2000 was 52,218,684 and 49,751,900, respectively.

(D) Fair Value of Financial Instruments

The fair values of accrued expenses and other short-term obligations approximate their carrying values because of the short maturity of these financial instruments. In accordance with Statement of Financial

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

Accounting Standards No. 107, "Disclosure About Fair Value of Financial Instruments," rates available at balance sheet dates to the Company are used to estimate the fair value of existing debt.

Logistics Management Resources, Inc.
F.T.A. U.S. Trucking, Inc.
Notes to the Financial Statements

Note 1 - General and Summary of Significant Accounting Policies (Continued)

(E) Income Taxes

The Company utilizes Statement of Financial Accounting Standards No. 109 ("SFAS 109"), "Accounting for Income Taxes," which requires an asset and liability approach to financial accounting and reporting for income taxes. The difference between the financial statement and tax basis of assets and liabilities is determined annually. Deferred income tax assets and liabilities are computed for those temporary differences that have future tax consequences using the current enacted tax laws and rates that apply to the periods in which they are expected to affect taxable income. In some situations, SFAS 109 permits the recognition of expected benefits of utilizing net operating loss and tax credit carryforwards. Valuation allowances are established based upon management's estimate, if necessary. Income tax expense is the current tax payable or refundable for the period plus or minus the net change in the deferred tax assets and liabilities.

(F) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(H) Property and Equipment

The cost of office equipment is depreciated for financial statement purposes on a straight line basis over 5-7 years. Repairs and maintenance expenditures which do not extend the useful lives of the related assets are expensed as incurred.

Note 2 - Equipment

Equipment at cost, less accumulated depreciation, consists of the following at December 31, 2001:

Office Equipment	\$ 8,859
Less accumulated depreciation	2,163

Total	\$ 6,696
	=====

Edgar Filing: LOGISTICS MANAGEMENT RESOURCES INC - Form 10KSB

Depreciation expense charged to operations was \$1,918 and \$244 in 2001 and 2000, respectively.

Note 3 - Convertible Debentures

During 2000, the Company issued \$4,650,000 of its 10% - 11.5% convertible debentures due May 31, 2002. The Company received proceeds of \$4,502,000, net of \$148,000 of debt issuance costs.

During 2000, \$50,296 of debentures and \$20,201 of accrued interest were converted into 897,504 and 361,377 common shares, respectively.

The holders of the debentures are entitled, at their option, to convert at any time, all or any part of the principal amount of the debentures plus accrued interest.

The Company is liable for obligations as to which it is a primary or secondary guarantor relating to its former subsidiaries which have been discontinued. Indemnity Agreements:

The Company's President and two other guarantors of the Company's obligations have provided guarantees of certain obligations of the Company and its former subsidiaries. Note 11 -Stock Option Plan

The Company's stock option plan, implemented in 1998, is accounted for under Statement of Financial Accounting Standards, SFAS 123, Accounting for Stock-Based Compensation. Under SFAS 123, the compensation cost of the issuance of stock options is measured at the grant date based on the fair value of the award. Compensation is then recognized over the service period that is generally the vesting period.

The plan allows the Company to grant options to employees for up to a total of 2,500,000 shares of common stock. Options outstanding become exercisable at the discretion of the Stock Option Committee, which administers the plan, and expire 10 years after the grant date. All options granted during 1999 were exercisable at not less than the fair market value of the stock on the date of the grant. Accordingly, no compensation cost has been recognized for the plan.

The Committee approved the issuance of options to purchase 2,000,000 shares of the common stock of the Company to various employees and advisors for an exercise price of \$.30 per share for a total exercise price of \$600,000. Included below are options granted to the President and other key employees to purchase a total of 500,000 shares of common stock at \$3.00 per share.
