**ITEM 5. Other Events.**

On May 29, 2004, the Company concluded the acquisition of an aggregate of 29 additional gold mining claims located in Imperial County, California from two individuals. In lieu of cash payment for the claims the Company entered into what is essentially a joint venture with the former owners whereby the Company is obligated to commence production on these claims within two years with the former owners entitled to receive 20% of all net smelter returns of gold, whether paid in cash or in kind.

Under the terms of the acquisition, the Company granted each of the two sellers an option to acquire 50,000 shares of the Company's common stock at the then current market price at any time within a two year period. The agreements further provide that the Company's obligation to commence gold production within two years would be terminated in the event that the foregoing stock options were exercised. Further, in the event that the Company subsequently sells the claims within two years of the acquisition date, then the sellers will be entitled to receive 20% of the net proceeds of such sale.

On June 15, 2004, we issued a press release regarding these acquisitions which is attached to this current report as Exhibit 99.1
