ONLINE VACATION CENTER HOLDINGS CORP AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited interim condensed consolidated financial statements of Online Vacation Center Holdings Corp., (the “Company”), and the notes thereto have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These condensed consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K, for the year ended December 31, 2009, and filed with the Securities and Exchange Commission on March 29, 2010 (the “2009 Annual Report”). The interim financial information contained herein is not certified or audited; it reflects all adjustments (consisting of only normal recurring items) which are, in the opinion of management, necessary for a fair statement of the operating results for the periods presented, stated on a basis consistent with that of the audited financial statements.

The results of operations for the three months ended March 31, 2010 are not necessarily indicative of annual results. The Company manages its business as one reportable segment.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. For the Company, key estimates include allowance for doubtful accounts, the fair value of goodwill and intangible assets, asset lives used in computing depreciation and amortization, including amortization of intangible assets, and accounting for income taxes, contingencies and litigation. While the Company believes that such estimates are fair when considered in conjunction with the condensed consolidated financial position and results of operations taken as a whole, actual results could differ from those estimates and such differences may be material to the financial statements.

2. DISPOSITION

On September 30, 2009, our Board of Directors authorized the sale of Thoroughbred Travel LLC (“Thoroughbred”) and La Tours and Cruises, Inc. (“La Tours”), our Houston, Texas based travel agencies focused on providing luxury based personal travel products, such as cruises, European tours and all inclusive vacations. Additionally, our Board of Directors authorized the dissolution of La Fern, Inc. (“La Fern”) a Florida travel agency focused on providing land-based vacations. We acquired Thoroughbred in September 2006, La Fern in October 2006 and La Tours in January 2007.

On October 19, 2009, we entered into a definitive agreement (the “Sales Agreement”) to sell the assets and liabilities arising from customer travel after November 2, 2009 of La Tours and Thoroughbred to West University Travel LLC (“West U”), a Texas limited liability company. The principal members of West U are Ray Schutter, President of La Tours and Journeys, and Cecilia Schutter from whom we purchased La Tours in January 2007.

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)

The results of operations and cash flows of La Tours, Thoroughbred and La Fern have been removed from the results of continuing operations for the three months ended March 31, 2009. The results of operations of La Tours, Thoroughbred and La Fern for the three months ended March 31, 2009 are as follows:

	For the Three Months Ended March 31, 2009
Revenues	\$ 87,524
(Loss) before income taxes	(50,786)
Income taxes (benefit)	(18,578)
Loss from discontinued operations	\$ (32,208)

### 3. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board (the “FASB”) has codified a single source of U.S. Generally Accepted Accounting Principles (GAAP), the Accounting Standards Codification™. Unless needed to clarify a point to readers, we will refrain from citing specific section references when discussing application of accounting principles or addressing new or pending accounting rule changes. There are no recently issued accounting standards that are expected to have a material effect on our financial condition, results of operations or cash flows.

A variety of proposed or otherwise potential accounting standards are currently under study by standard-setting organizations and various regulatory agencies. Because of the tentative and preliminary nature of these proposed standards, management has not determined whether implementation of such proposed standards would be material to the Company’s consolidated financial statements.

### 4. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution that could occur if stock options and other commitments to issue common stock were exercised or equity awards vest resulting in the issuance of common stock or conversion of notes into shares of the Company’s common stock that could increase the number of shares outstanding and lower the earnings per share of the Company’s common stock. This calculation is not done for periods in a loss position as this would be antidilutive. As of March 31, 2010, there were no stock options or stock awards that would have been included in the computation of diluted earnings per share that could potentially dilute basic earnings per share in the future. The information related to basic and diluted earnings per share is as follows:

9. STOCK BASED COMPENSATION

The 2005 Management and Director Equity Incentive and Compensation Plan (the "Plan") provides for the grants of stock options, restricted stock, performance-based and other equity-based incentive awards to directors, officers and key employees. If an employee owns 10% or more of the Company's outstanding common stock, the option price must be at least 110% of the market price on the date of the grant. Options granted under this Plan become exercisable in accordance with the terms of the grant as determined by a committee of the Company's Board of Directors. All stock option grants currently outstanding vested either on the date of grant or will vest two years from the date of grant, provided that the individual is continuously employed with the Company. ## Results of Operations

Three Months Ended March 31, 2010 Compared to the Three Months Ended March 31, 2009

Continuing operations:

Revenues decreased by \$108,794, 4.0%, to \$2,628,425 for the three months ended March 31, 2010 ("the first quarter of 2010") compared with \$2,737,219 for the three months ended March 31, 2009 ("the first quarter of 2009"). The decrease is attributable to a decrease in commission revenues offset by an increase in publishing revenues.

Selling and marketing expenses increased by \$117,865, 20.4%, to \$695,920 for the first quarter of 2010 compared with \$578,055 for the first quarter of 2009. The increase is primarily attributable to an increase in marketing materials costs. Selling and marketing expenses primarily consist of sales staff compensation and costs to produce marketing materials.

General and administrative expenses increased by \$147,348, 20.4%, to \$1,266,547 for the first quarter of 2010 compared with \$1,119,199 for the first quarter of 2009. The increase is primarily attributable to an increase in management and non sales staff compensation and partially attributable to an increase in professional services and occupancy costs. General and administrative expenses primarily include management and non sales staff compensation, professional services, and occupancy costs.

Depreciation and amortization expense for the first quarter of 2010 was \$140,107 compared with \$107,024 for the first quarter of 2009. Amortization expense increased by \$35,251 during the first quarter of 2010, as a result of an increase in the amortization expense of the Dunhill subscriber list.

Net interest income decreased to \$1,518 for the first quarter of 2010 compared with net interest income of \$1,876 for the first quarter of 2009. The reduction in net interest income for first quarter of 2010 was primarily attributable to a reduction in interest rates on interest bearing accounts during the first quarter of 2010.

Our income before income taxes was \$527,368 in the first quarter of 2010 compared with income before income taxes of \$934,837 in the first quarter of 2009. These results are primarily attributable to the decrease in revenues, an increase in selling and marketing costs, general and administrative expenses and depreciation and amortization expenses during the first quarter of 2010.

The provision for income taxes decreased to \$208,555 for the first quarter of 2010 compared with a provision for income taxes of \$372,381 for the first quarter of 2009. The decrease is directly related to a decrease in income before income taxes of \$407,449 during the first quarter of 2010. The tax rate in the first quarter of 2010 was 39.5% and 39.8% in the first quarter of 2009.

As a result of the foregoing, our income from continuing operations was \$318,813 for the first quarter of 2010 compared with income from continuing operations of \$562,436 for the first quarter of 2009.

The principal members of West U are Ray Schutter, President of La Tours and Journeys, and Cecilia Schutter from whom we purchased La Tours in January 2007.

The results of operations and cash flows of La Tours, Thoroughbred and La Fern have been removed from the results of continuing operations for the three months ended March 31, 2009. The results of operations of La Tours, Thoroughbred and La Fern for the three months ended March 31, 2009 are as follows:

	Three Months Ended March 31, 2009
Revenues	\$ 87,524
(Loss) before income taxes	(50,786)
Income taxes (benefit)	(18,578)
(Loss) from discontinued operations	\$ (32,208)

As a result of the foregoing, our net income was \$321,005 for the first quarter of 2010 compared with net income of \$530,228 in the first quarter of 2009.

#### Liquidity and Capital Resources

Cash at March 31, 2010 was \$2,872,780 compared with \$2,721,658 at December 31, 2009. The primary source of our liquidity and capital resources has come from cash provided by our operations.

Cash flows provided by continuing operating activities for the first quarter of 2010 and 2009 were \$430,870 and \$874,040, respectively. The decrease of \$443,170 in 2010 was attributable to an decrease of income from continuing operations of \$243,623, a decrease in cash provided by working capital items of \$200,609 and an increase in non-cash operating items of \$1,062.

Cash flows used in continuing investing activities for the first quarter of 2010 increased to \$212,843 from \$125,014 for the first quarter of 2009. The increase in cash out flows was related to an a increase in intangible assets and capital expenditures during the first quarter of 2010.

Cash flows used in financing activities decreased to \$66,905 for the first quarter of 2010 compared with \$273,893 for the first quarter of 2009. The primary decrease in cash outflows was due to an increase in our purchase of our common stock under a repurchase program authorized by our Board of Directors in August 2008, which was amended in March 2009 and private stock repurchase transactions with existing shareholders aggregating \$105,133 and the payment of a \$100,000 note issued in conjunction with the acquisition of La Tours, a former subsidiary during the first quarter of 2009.

Cash flows provided by discontinued operations, solely from operating activities in the first quarter of 2009 totaled \$30,829.

At March 31, 2010, we had a working capital of \$1,472,264 as compared to working capital of \$1,235,560 at December 31, 2009, an increase of working capital of \$236,704. We had an accumulated deficit of \$937,941 at March 31, 2010, a decrease of \$318,813 from December 31, 2009.

Management believes that the existing cash and cash expected to be provided by operating activities will be sufficient to fund the short term capital and liquidity needs of our operations. We may need to seek to sell equity or debt securities or obtain credit lines from financial institutions to meet our longer-term liquidity and capital requirements. We can not provide any assurances that we will be able to obtain additional capital or financing in amounts or on terms acceptable to us, if at all or on a timely basis.

We have historically been dependent on our relationships with four major cruise lines: Celebrity Cruises, Princess Cruises, Norwegian Cruise Line and Royal Caribbean Cruise Line. We also depend on third party service providers for processing certain fulfillment services.

#### Seasonality and Inflation

The domestic and international leisure travel industry is seasonal. Our results have been subject to quarterly fluctuations caused primarily by the seasonal variations in the travel industry. Net revenues and net income are generally lower in the third quarter. We expect seasonality to continue in the future. We do not expect inflation to materially affect our revenues and net income.

#### Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingencies. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be materially different from those estimates. The following policies are those that we consider to be the most critical:

#### Revenue Recognition

We recognize revenue when it is realized or realizable and earned when all of the following criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the seller's price to the buyer is fixed or determinable, and collectibility is reasonably assured. Vacation travel sales transactions are billed to customers at the time of booking, however, commission revenue is not recognized in the accompanying consolidated financial statements until the customers' travel occurs. Advertising revenue is recognized upon distribution of the marketing publication.

After considering and weighing relevant qualitative factors regarding our status as a primary obligor, the extent of our pricing latitude of vacation travel sales transactions and in accordance with the various indicators, our vacation travel suppliers assume the majority of the business risks such as providing the service and the risk of unsold travel packages. As such, all vacation travel sales transactions are recorded at the net amount, which is the amount charged to the customer less the amount to be paid to the supplier. The method of net revenue presentation does not impact operating profit, net income, earnings per share or cash flows.

#### Intangible Asset Testing

Absent any circumstances that warrant testing at another time, we test for goodwill and non-amortizing intangible asset impairment as part of our year-end closing process. Our goodwill testing consists of comparing the estimated fair values of each of our operating entities to their carrying amounts, including recorded goodwill. We estimate the fair values of our reporting unit by discounting its projected future cash flows. Developing these future cash flow projections requires us to make significant assumptions and estimates regarding the sales, gross margin and operating expenses of our reporting unit, as well as economic conditions and the impact of planned business or operational strategies. Should future results or economic events cause a change in our projected cash flows, or should our operating plans or business model change, future determinations of fair value may not support the carrying amount of our reporting units and the related goodwill would need to be written down to an amount considered recoverable. Any such write down would be included in the operating expenses. While we make reasoned estimates of future performance, actual results below these expectations, or changes in business direction can result in additional impairment charges in future periods.

#### ITEM 4(T). – CONTROLS AND PROCEDURES

As of March 31, 2010 under the supervision of and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of March 31, 2010, the end of the period covered by this report (the “Evaluation Date”). Based upon the evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the Evaluation Date. Disclosure controls are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this report, is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls include controls and procedures designed to reasonably ensure that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with this evaluation, our management identified no changes in our internal control over financial reporting that occurred during the most recent fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II.

## OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS

We are involved from time to time in various legal claims and actions arising in the ordinary course of business. While from time to time claims are asserted that may make demands for sums of money, we do not believe that the resolution of any of these matters, either individually or in the aggregate, will materially affect our financial position, cash flows or the results of our operations.

The plan does not require us to acquire a specific number of shares and may be suspended from time to time or discontinued. As initially adopted, the program did not extend beyond June 30, 2009. On March 2, 2009 we announced that our Board of Directors authorized the repurchase of an additional \$150,000 of our common stock to be funded from available working capital and subsequently extended the program until December 31, 2010.
