ABOUT THE ANNUAL MEETING AND VOTING

Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting of Shareholders to be Held on November 8, 2012:

This Proxy Statement and the 2012 Annual Report are available on our internet website at www.deltaapparelinc.com.

What is the purpose of the Annual Meeting?

At the Annual Meeting, the shareholders will act upon the matters outlined in the Notice of Meeting on the second page of this Proxy Statement, including the election of the eight nominees as director and an advisory vote on the compensation of the named executive officers. Such proxy may also be voted by the persons named in the proxy in their discretion upon such other business as may be properly brought before the meeting. This Proxy Statement summarizes the information you need to know to vote at the Annual Meeting. This Proxy Statement and form of proxy were first mailed to shareholders on or about September 28, 2012.

Where will the Annual Meeting be held?

The 2012 Annual Meeting will be held on Thursday, November 8, 2012 at 10:00 a.m. local time at the 1818 Club, 6500 Sugarloaf Parkway, Duluth, Georgia 30097.

Who can attend the Annual Meeting?

Only Delta Apparel shareholders as of the close of business on Friday, September 14, 2012 (the "Record Date") may attend the Annual Meeting.

Who is soliciting my vote?

The Company's Board of Directors (the "Board") is soliciting your proxy to vote at the Annual Meeting.

What am I voting on?

You are voting on two proposals:

1. The election of the following eight nominees to the Board of Directors to serve until the 2013 annual meeting of shareholders or until their successors are duly elected and qualified; and

James A. Cochran	Robert W. Humphreys
Sam P. Cortez	David T. Peterson
Dr. Elizabeth J. Gatewood	Suzanne B. Rudy
Dr. G. Jay Gogue	Robert E. Staton, Sr.

2. Advisory vote on the compensation of the Company's named executive officers.

What are the voting recommendations of the Board?

The Board recommends the following votes:

1. FOR each of the eight director nominees to the Board ("Proposal No. 1"); and

2. FOR the approval of the compensation of the company's named executive officers ("Proposal No. 2").

Will any other matters be voted on?

The Board does not intend to present any other matters at the Annual Meeting and we do not know of any other matters that will be brought before the shareholders for a vote at the Annual Meeting. If any other matter is properly brought before the Annual Meeting, your signed proxy card gives authority to the persons named in the proxy to vote on such matters in their discretion in accordance with their best judgment.

Who is entitled to vote?

Only shareholders of record at the close of business on the Record Date will be entitled to vote at the Annual Meeting.

Table of Contents

How many votes do I have?

You will have one vote for every share of Delta Apparel, Inc. common stock that you owned at the close of business on the Record Date. You do not have the right to cumulate your votes with respect to the election of any director.

What is the difference between holding shares as a shareholder of record and as a beneficial owner?

Many shareholders hold their shares through a broker or bank rather than directly in their own names. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Shareholder of Record

If your shares are registered directly in your name with the Company's transfer agent, American Stock Transfer & Trust Company, you are considered, with respect to those shares, the shareholder of record, and these proxy materials are being sent directly to you by the Company.

Beneficial Owner

If your shares are held in a stock brokerage account or by a bank, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your bank or broker, which is considered the shareholder of record of these shares. As the beneficial owner, you have the right to direct your bank or broker how to vote, and are also invited to attend the Annual Meeting. However, since you are not the shareholder of record, you may not vote these shares in person at the Annual Meeting unless you bring with you a legal proxy from the shareholder of record. Your bank or broker should enclose a voting card for you to use for providing directions for how to vote your shares.

How do I vote?

If you are a shareholder of record, there are four ways to vote:

1. By internet at www.proxyvote.com;
2. By toll-free telephone at 1-800-690-6903;
3. By completing and mailing your proxy card; or
4. By written ballot at the Annual Meeting.

If you vote by internet or telephone, your vote must be received by 11:59 p.m. local time on November 7, 2012, the day before the Annual Meeting. Your shares will be voted as you indicate. If you sign and return your proxy card but you do not indicate your voting preferences, the proxies will vote your shares FOR Proposal Nos. 1 and 2.

If your shares are held in street name, you should follow the voting directions provided by your bank or broker. You may complete and mail a voting instruction card to your bank or broker or, in most cases, submit voting instructions by the internet or telephone to your bank or broker. If you provide specific voting instructions by mail, the internet or telephone, your shares should be voted by your bank or broker as you have directed. **AS A RESULT OF THE NYSE MKT EXCHANGE'S RULES, YOUR BANK OR BROKER CANNOT VOTE WITH RESPECT TO PROPOSAL NOS. 1 OR 2 UNLESS IT RECEIVES VOTING INSTRUCTIONS FROM YOU.**

We will distribute written ballots at the Annual Meeting to any shareholder of record who wants to vote. If you hold your shares in street name, you must request a legal proxy from your bank or broker to vote in person at the Annual Meeting.

Can I change my vote or revoke my proxy?

Yes. If you are a shareholder of record, you can change your vote or revoke your proxy any time before the Annual Meeting by:

1. Entering a new vote by internet or telephone;
2. Returning a later-dated proxy card;
3. Sending written notice of revocation to Martha M. Watson, Secretary, at the Company's address of record, which is 322 S. Main Street, Greenville, South Carolina 29601; or
4. Completing a written ballot at the Annual Meeting.

Attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy.

If your shares are held in street name, you must follow the specific directions provided to you by your bank or broker to change or revoke any instructions you have already provided to your bank or broker.

Table of Contents

How are votes counted?

Votes are counted by inspectors of election designated by the Corporate Secretary.

Who pays for soliciting proxies?

We will pay for the cost of preparing, assembling, printing and mailing this Proxy Statement and the accompanying form of proxy to our shareholders, as well as the cost of soliciting proxies relating to the meeting. In addition, we will reimburse banks and brokers for their reasonable charges and expenses in forwarding proxies and proxy materials to the beneficial owners of the shares held in street name. Delta Apparel's officers, directors and employees may, without additional compensation, supplement these solicitations of proxies by telephone, facsimile, email and personal solicitation.

What is the quorum requirement of the Annual Meeting?

A majority of the outstanding shares of Delta Apparel common stock on the Record Date, represented in person or by proxy at the Annual Meeting, constitutes a quorum for voting on proposals at the Annual Meeting. If you vote, your shares will be part of the quorum. Abstentions and broker non-votes will be counted in determining the presence or absence of a quorum. On the Record Date, there were 8,383,339 shares outstanding and 986 shareholders of record. A majority of Delta Apparel common stock, or 4,191,670 shares, will constitute a quorum.

What are broker non-votes?

Broker non-votes occur when holders of record, such as banks and brokers holding shares on behalf of beneficial owners, do not receive voting instructions from the beneficial owners by the date specified in the statement requesting voting instructions that has been provided by the bank or broker.

If that happens, the bank or broker may vote those shares only on matters as permitted by the NYSE MKT exchange.

The NYSE MKT exchange prohibits banks and brokers from voting uninstructed shares in the election of directors and in matters related to executive compensation; accordingly, banks and brokers cannot vote with respect to Proposal Nos. 1 and 2 unless they receive voting instructions from the beneficial owners. Broker non-votes will not affect the outcome of Proposal Nos. 1 and 2 being voted on at the Annual Meeting, assuming that a quorum is obtained.

What vote is required to approve each proposal?

Proposal No. 1: For the election of directors, the eight nominees for director will be elected if they receive a majority of the votes cast at the Annual Meeting for the election of directors. For purposes of the election of directors, a majority of votes cast means that the number of shares voted "FOR" a director's election exceeds the number of votes withheld from a director's election. Votes cast exclude broker non-votes and abstentions, and therefore broker non-votes and abstentions will have no effect on the election of directors.

Proposal No. 2: For the advisory vote on the compensation of the Company's named executive officers, the vote is non-binding and, therefore, no specific vote is required to approve the proposal. However, the Board and the Compensation Committee will review the voting results and consider them in making future decisions about executive compensation.

Where can I find the voting results of the Annual Meeting?

We will announce the preliminary voting results at the Annual Meeting and will publish final results in a current report on Form 8-K filed with the SEC on or before November 12, 2012. This Form 8-K will be available without charge to shareholders upon written request to Investor Relations Department, Delta Apparel, Inc., 322 S. Main Street, Greenville, South Carolina 29601 or via the internet at www.deltaapparelinc.com.

What is the deadline for consideration of shareholder proposals or director nominations for the 2013 annual meeting of shareholders?

If you are a shareholder and you want to present a proposal at the 2013 annual meeting and have it included in the Company's proxy statement for that meeting, you must submit the proposal in writing at the Company's offices at 322 S. Main Street, Greenville, South Carolina 29601, Attention: Corporate Secretary, on or before May 31, 2012.

Applicable Securities and Exchange Commission ("SEC") rules and regulations govern the submission of shareholder proposals and the Company's consideration of them for inclusion in next year's proxy statement. If you want to present a proposal at the 2013 annual meeting (but not have the proposal included in the Company's proxy statement) or to nominate a person for election as a director, you must comply with the advance written notice and other requirements set forth in Delta Apparel's by-laws.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Each of the Company's directors brings extensive management and leadership experience gained through his or her service to diverse businesses and institutions. The Board members are committed to effectively oversee management's performance, to act in the long-term best interests of shareholders and to maintain the highest standards of corporate governance.

Delta Apparel's bylaws provide that the number of directors to be elected at any meeting of shareholders will be between two and fifteen, and will otherwise be determined by the Board of Directors. The Board of Directors has determined that eight directors shall be nominated for election at the Annual Meeting.

The eight persons listed below are nominees for election as directors at the Annual Meeting to serve until our next Annual Meeting of Shareholders or until their successors are duly elected and qualified:

James A. Cochran

Sam P. Cortez

Dr. Elizabeth J. Gatewood

Dr. G. Jay Gogue

Robert W. Humphreys

David T. Peterson

Suzanne B. Rudy

Robert E. Staton, Sr.

Background information on the nominees, including some of the attributes that led to their selection, is set forth in "Corporate Governance - Board of Directors". The Corporate Governance Committee has determined that each director meets the qualification standards described in the section entitled "Director Nominations". We believe that all of the nominees will be available and able to serve as directors.

Unless you vote "Withhold" with respect to a particular nominee or all nominees, the proxy holders will vote your shares "FOR" each of the nominees listed above. In the event that any nominee is not available or able to serve, the Board of Directors may either reduce the number of directors to be elected or select a substitute nominee. If a substitute nominee is selected, the proxy holders will vote your shares for the substitute nominee, unless you have withheld authority.

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE ELECTION OF EACH OF THE EIGHT NOMINEES.

PROPOSAL NO. 2

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") requires all publicly-traded companies to hold a shareholder advisory vote on the executive compensation of our named executive officers (as listed herein under "Executive Officers"), otherwise known as a "Say-on-Pay" vote. We ask that you approve the compensation of our named executive officers as described in the Compensation Disclosure and Analysis section and the accompanying tables contained in this Proxy Statement. Because your vote is advisory, it will not be binding on our Board, our Compensation Committee, or the Company, and we will not be required to take any action as a result of the outcome of the vote on this proposal. However, the Compensation Committee will carefully consider the voting results and take them into consideration when making future decisions regarding executive compensation arrangements.

Our Compensation Committee is committed to creating an executive compensation program that enables us to attract, retain, and motivate outstanding and diverse executives. Each year, the Compensation Committee reviews all of our executive compensation programs to ensure that they continue to reflect Delta Apparel's commitment to align the objectives and rewards of our executive officers with the creation of value for our shareholders. The programs have been designed to reinforce our pay-for-performance philosophy by delivering total compensation that motivates and rewards short and long-term financial performance to maximize shareholder value. At the same time, we believe our compensation programs do not encourage excessive risk-taking by our executive team. The Board believes that our philosophy and compensation practices strike the appropriate balance between utilizing responsible, measured pay practices and effectively motivating our executives to dedicate themselves to value creation for our shareholders. For these reasons, the Board requests that you approve the Company's executive compensation policies and practices for our named executive officers as described in this Proxy Statement, including the Compensation Discussion and Analysis, the executive compensation tables and narrative discussions.

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE COMPANY'S POLICIES AND PRACTICES ON EXECUTIVE COMPENSATION FOR OUR NAMED EXECUTIVE OFFICERS.

Table of Contents

CORPORATE GOVERNANCE

Overview

Our Company believes that good corporate governance practices reflect our values and support strong strategic and financial performance. Each committee of the Board has a charter, which can be found at www.deltaapparelinc.com that spells out the committee's roles and responsibilities assigned to it by the Board. In addition, the Board has established policies and procedures that address matters such as chief executive officer and key management succession planning, transactions with related persons, risk oversight, communications with the Board by shareholders and other interested parties, as well as the independence and qualifications of our directors. The following pages provide insight into how the Board has implemented these policies and procedures to benefit our Company and our shareholders.

Director Independence

Our Board evaluates the independence of each director in accordance with applicable laws and regulations and the listing standards of the NYSE MKT Stock Exchange. Generally, an “independent director” is a director who is not also an officer or employee of the Company or any parent or subsidiary of the Company. In addition, no director qualifies as independent unless the Board affirmatively determines that the director does not have a material relationship with the Company that would interfere with the exercise of independent judgment. Our Board has reviewed the relationships between each member of the Board and the Company and determined that with the exception of Robert W. Humphreys, Chairman and Chief Executive Officer, each of our current directors and each individual standing for election is “independent” as required by applicable laws and meets the applicable independence requirements of the NYSE MKT Company Guide. Each director is required to keep the Board fully and promptly informed as to any developments that might affect his or her independence.

Board Leadership Structure

The Company’s governance documents provide the Board with flexibility to select the appropriate leadership structure of the Company. The Board of Directors does not have a policy on whether or not the roles of Chairman of the Board and Chief Executive Officer should be separate and, if they are to be separate, whether the Chairman of the Board should be selected from the non-employee directors or be an employee. The Board of Directors believes that it should be free to determine the leadership structure that is in the best interests of the Company and our shareholders based on the particular circumstances in effect from time to time. During fiscal year 2012, Robert W. Humphreys served as the Chairman of the Board and as Chief Executive Officer. Mr. Humphreys is the director most familiar with our business and industry, and possesses detailed knowledge of the issues, opportunities and challenges facing us and our business. The Board of Directors believes the combined position makes the best use of Mr. Humphreys’ skills and experience with the Company, helps provide strong, unified leadership and direction on important strategic initiatives to both management and the Board, and ensures that they act with a common purpose. The Company believes that its overall corporate governance policies and practices, combined with the presence of a Lead Independent Director, adequately addresses any governance concerns raised by the dual Chairman and Chief Executive Officer role. During fiscal year 2012, Mr. Staton served as the Lead Independent Director. The Lead Independent Director has a number of responsibilities, including presiding at executive sessions of the Board and at meetings at which the Chairman is not present, acting as liaison between the Chairman and the other directors, and advising with respect to the schedule, agenda and information provided for Board meetings and meetings of independent directors. The Lead Independent Director, along with the other non-employee directors, also provides independent oversight of management and the Company’s strategy.

Board of Directors

Until the January 9, 2012, election of Suzanne B. Rudy to the Board, the Board was composed of seven independent directors and Robert W. Humphreys, Chairman of the Board and Chief Executive Officer. Throughout the remainder of fiscal year 2012 the Board was composed of eight independent directors and Mr. Humphreys. One of our directors, Mr. E. Erwin Maddrey, II, is retiring from the Board and will not be standing for re-election. The following table, listed in alphabetical order, sets forth the names of the nominees for director and their respective ages, years as

director and positions with the Company.

Meetings and Attendance

The Board and its committees meet throughout the year on a set schedule, and hold special meetings and act by written consent from time to time as appropriate. Directors are expected to make every effort to attend meetings of the Board, assigned committees and annual meetings of shareholders. Directors attended 96% of the aggregate of the board meetings and assigned committee meetings held during the fiscal year ended June 30, 2012. During fiscal year 2012, the Board held five in-person meetings and one telephonic meeting. In addition, the Audit Committee held six meetings, the Compensation Committee held three meetings, and the Corporate

Governance Committee held three meetings. All of the incumbent directors, excluding Ms. Rudy, who joined the Board on January 9, 2012, attended the 2011 Annual Meeting of shareholders and all directors are expected to attend the 2012 Annual Meeting. Independent directors meet regularly in executive session at all regularly scheduled meetings of the Board with no members of management present. The Company's Lead Independent Director presides at each executive session. During fiscal year 2012, Mr. Staton was the Lead Independent Director, and Mr. Staton is expected to be the Lead Independent Director during fiscal year 2013. Throughout the year, our directors communicate informally with management on a variety of topics, including suggestions for Board or committee meeting agenda topics, recent developments, and other matters of interest to the directors.

Board Committees

The Board delegates various responsibilities and authority to different board committees. Committees regularly report on their activities and actions to the full board. The Board currently has an Audit Committee, a Compensation Committee and a Corporate Governance Committee (which is our nominating committee), and may also appoint other committees from time to time. Each of the members of the Audit Committee, Compensation Committee, and Corporate Governance Committee has been determined by the Board to be independent as required by applicable laws and meets the applicable independence requirements of the NYSE MKT Company Guide and, in addition, in the case of the Audit Committee, under the independence requirements established by the SEC. Each committee's activities are governed by a written committee charter. Copies of the committee charters are available through our internet website at www.deltaapparelinc.com, or by sending a request in writing to Martha M. Watson, Secretary, at 322 S. Main Street, Greenville, South Carolina 29601.

The following table details the membership of each of our committees during the fiscal year ended June 30, 2012 and the expected committee membership in the fiscal year ending June 29, 2013.

Audit Committee

Our Audit Committee serves as an independent and objective party to oversee the financial and reporting processes of the Company, the audits of the financial statements of the Company and the Company's internal control system. Our Audit Committee appoints, evaluates, and, when appropriate, replaces the independent registered public accounting firm engaged to audit our financial statements. The outside auditors report directly to our Audit Committee and the Audit Committee determines the compensation and other terms of the engagement, and oversees their work. The Audit Committee also reviews our procedures with respect to maintaining books and records, the adequacy and implementation of internal auditing, accounting, disclosure, and financial controls, and our policies concerning financial reporting and business practices. In addition, the Audit Committee is responsible for establishing procedures for the receipt, retention, and treatment of complaints received by the Company regarding accounting, internal accounting controls, or auditing matters and the confidential, anonymous submission by Company employees of concerns regarding questionable accounting or auditing matters.

After considering relationships between each member of the Audit Committee and the Company and its subsidiaries, and reviewing the qualifications of the members of the Audit Committee, the Board of Directors has determined that

each member of the Audit Committee meets all applicable independence and financial literacy requirements as defined in the NYSE MKT Company Guide. Further, due to Dr. G. Jay Gogue's years of extensive experience overseeing the financial and related functions and operations of organizations with budgets of up to approximately one billion dollars, the Board of Directors has determined that Dr. Gogue qualifies as an audit committee financial expert as defined in regulations adopted by the Securities and Exchange Commission.

Table of Contents

Compensation Committee

The Compensation Committee reviews and determines compensation, including salaries, bonuses and equity compensation, for the named executive officers other than the Chief Executive Officer, and determines director compensation. The Compensation Committee oversees, reviews and administers all of the Company's present and future compensation and executive benefit plans and programs, including equity compensation plans and plans pursuant to which performance-based compensation may be granted. The Compensation Committee is authorized to delegate its responsibilities as it deems necessary or appropriate.

Corporate Governance Committee

The Corporate Governance Committee oversees the performance evaluation of the Chief Executive Officer and recommends compensation for the Chief Executive Officer to the independent members of the Board of Directors. The Corporate Governance Committee also identifies, interviews and recommends director nominees for election to the Board pursuant to written guidelines approved by the Board. The Corporate Governance Committee develops and recommends to the Board corporate governance guidelines and standards for business conduct and ethics, oversees the annual self-evaluation of the Board and its committees, and makes recommendations concerning the structure and membership of the other Board committees. The Corporate Governance Committee oversees succession planning with respect to the Chief Executive Officer as well as the other executive officers of the Company.

Board Self-Evaluation

The Board of Directors' annual self-evaluation of its performance includes a review of the Board's composition, responsibilities, leadership and committee structure, processes, and effectiveness.

Director Nominations

The Corporate Governance Committee identifies potential director candidates through a variety of means, including recommendations from members of the Board, suggestions from Company management, and shareholder recommendations. The Committee may also, in its discretion, engage director search firms to identify candidates. During fiscal year 2012, the Corporate Governance Committee did not retain the services of any director search firm and accordingly, no fees were paid to a director search firm or other third party to assist in identifying and evaluating director candidates.

Shareholders may recommend director candidates for consideration by the Corporate Governance Committee by submitting a written recommendation to the Committee, c/o Martha M. Watson, Secretary, Delta Apparel, Inc., 322 S. Main Street, Greenville, South Carolina 29601, or by email to martha.watson@deltaapparel.com, or by fax to (864) 232-5199. The recommendation should include the name, address and telephone number of the nominating shareholder, and the nominee's name, address, telephone number, qualifications (including principal occupation and employment history), and written consent to be named as a nominee in the Company's proxy statement and to serve as a director, if elected. Pursuant to the Company's bylaws, the Secretary must receive the recommendation not less than 120 days prior to the first anniversary of the prior year annual meeting. A copy of our bylaws may be obtained by submitting a written request to the Secretary of the Company.

The Board of Directors has adopted qualification standards for the selection of independent nominees for director which can be found at our internet website: www.deltaapparelinc.com. As provided in these standards, at a minimum, a nominee for our Board must (i) be over 21 years of age at the time of election; (ii) have experience in a position with a high degree of responsibility in a business or other organization; (iii) be able to read and understand basic financial statements; (iv) possess integrity and have high moral character; (v) be willing to apply sound, independent business judgment; and (vi) have sufficient time to devote to the Company.

The Company has no formal policy regarding Board member diversity; however, the Corporate Governance Committee considers and discusses diversity in selecting nominees for director and in the re-nomination of an incumbent director. The Committee views diversity broadly, including gender, ethnicity, differences of viewpoint, geographic location, skills, education, and professional and industry experience, among other factors, and its goal is to nominate candidates from a broad range of experiences and backgrounds. The Company believes that a variety and balance of perspectives on the Board can result in more thoughtful discussions and deliberations.

In considering the re-nomination of an incumbent director, the Corporate Governance Committee reviews the director's overall service to the Company during his or her term, including the number of meetings attended, level of

participation and quality of performance, as well as any special skills or diversity that such director brings to the board. In evaluating incumbent directors and all potential new directors, the Committee considers, among other things, the candidate's leadership, strategic, or policy setting experience; experience and expertise that is relevant to the Company's business; experience that provides the Board with a diversity of backgrounds; technical or other specialized expertise; and whether the candidate has high ethical character and a reputation for honesty, integrity and sound business judgment. All director candidates, whether recommended by shareholders or identified by other means, are initially screened by the Corporate Governance Committee, who may seek additional background information and qualifications of the candidate. With respect to new director candidates who pass the initial screening, the Corporate Governance Committee conducts interviews with the candidates and then meets to discuss and consider each candidate's qualifications and potential contributions to the Board, and determines by majority vote whether to recommend such candidates to the Board of Directors. The final decision to either appoint a candidate to

fill a vacancy between Annual Meetings or include a candidate on the slate of nominees proposed at an Annual Meeting is made by the Board of Directors.

Shareholder Communication with Directors

Shareholders desiring to communicate directly with the Board of Directors or any individual members of the Board may do so in writing addressed to the intended recipient or recipients, c/o Martha M. Watson, Secretary, Delta Apparel, Inc., 322 S. Main Street, Greenville, South Carolina 29601, or by email to martha.watson@deltaapparel.com, or by fax to (864) 232-5199. All such communication will be reviewed by our Secretary, who will remove communications relating to solicitations, junk mail, or other correspondence relating to customer service concerns. All other shareholder communications will be promptly forwarded to the applicable member(s) of our Board of Directors or to the entire Board of Directors, as requested in the shareholder communication.

The Board's Role in Risk Oversight

We have a comprehensive enterprise risk management structure in which management is responsible for managing the Company's risks and the Board and its committees provide review and oversight in connection with these efforts. The Board recognizes that it is neither possible nor prudent to eliminate all risk. Properly measured risk-taking is essential for the Company to be competitive and to achieve its strategic objectives.

The Board implements its risk oversight function both as a whole and through committees, which play a significant role in carrying out risk oversight. The risk oversight responsibility is enabled by management reporting processes that are designed to provide visibility to the Board about the identification, assessment and management of critical risks and management's risk mitigation strategies. These areas of focus include competitive, economic, operational, financial, legal, regulatory, compliance, safety, environmental and political risks. While the Audit Committee is responsible for oversight of management's risk management policies, oversight responsibility for particular areas of risk is allocated among the Board committees according to the committee's area of responsibility as reflected in its charter.

In particular:

The full Board oversees strategic, financial and execution risks and exposures associated with the annual plan and a) other current matters that may present material risk to the Company's operations, plans, prospects or reputation, acquisitions, and executive management succession planning.

The Audit Committee oversees risks associated with financial matters, particularly financial reporting, tax, b) accounting, disclosure, internal control over financial reporting, financial policies, credit and liquidity matters and compliance with legal and regulatory matters including environmental matters.

The Compensation Committee oversees risks and rewards associated with the Company's attraction and retention of c) talent, management development, executive management succession plans, and compensation philosophy and programs, including a periodic review of such compensation programs to ensure that they do not encourage excessive risk-taking.

The Corporate Governance Committee oversees risks associated with company governance, including Delta d) Apparel's code of ethics, director, Chief Executive Officer and other named executive officer succession planning, and the structure and performance of the Board and its committees.

The Company believes that its leadership structure, discussed in detail above, properly supports the risk oversight function of the Board. Strong directors chair the various committees involved in risk oversight, there is open communication between management and directors, and all directors are involved in the risk oversight function.

Compensation Risk Assessment

The Company has assessed the potential risks associated with the Company's compensation programs, including any risk that would be reasonably likely to have a material adverse effect on the Company. This included an assessment of risks associated with each element of employee compensation. The assessment considered certain design features of the compensation programs that reduce the likelihood of excessive risk taking, such as reasonable performance targets, capped payouts of incentive compensation, a balance of short and long-term incentives, a balance of cash and equity incentives, and the vesting of awards over time. The Compensation Discussion and Analysis ("CD&A") more fully describes the Company's compensation philosophy and programs. The Company does not believe our compensation program encourages excessive or inappropriate risk taking.

Succession Planning

In light of the critical importance of executive leadership to the Company's success, the Board has a chief executive officer and key management succession planning process that is led by the Corporate Governance Committee. The Corporate Governance Committee is charged with the responsibility of identifying and evaluating candidates to succeed the Chief Executive Officer and to report, at least annually, to the Board on the status of the succession plan. As part of the succession planning process, the Corporate Governance Committee also reviews and assesses any concerns regarding the long-term growth and development of the executive officers and the preparedness of the Company for the possibility of an emergency situation involving the chief executive officer or other executive officers and key managers.

Code of Ethics

The Company maintains a code of business conduct and ethics known as the Ethics Policy Statement that applies to all salaried employees, officers and directors, including, but not limited to, the Chief Executive Officer and the Chief Financial Officer (who is also our principal accounting officer). The Ethics Policy Statement covers topics including, but not limited to, conflicts of interest, insider trading, competition and fair dealing, discrimination and harassment, confidentiality, payments to government personnel, compliance procedures and employee complaint and reporting procedures. The Ethics Policy Statement is available on our internet website at www.deltaapparelinc.com. Any amendments or waivers to provisions of our Ethics Policy Statement that are applicable to our Chief Executive Officer or our Chief Financial Officer will be posted on our internet website.

Compensation Committee Interlocks and Insider Participation

All of the members of the Compensation Committee are non-employee directors of the Company and are not former officers of the Company or its subsidiaries. During fiscal year 2012, no executive officer of the Company served as a member of the board or compensation committee of a corporation whose executive officers served on the Board or Compensation Committee of Delta Apparel, Inc.

Related Party Transactions

The Company reviews all relationships and transactions in which the Company and its directors, executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. On an annual basis, each director and executive officer is obligated to complete a Director and Officer Questionnaire which requires disclosure of any transactions with the Company in which the director or executive officer, or any member of his or her immediate family, has a direct or indirect material interest. In addition, the Audit Committee charter requires that members of the Audit Committee review and approve all related party transactions for which such approval is required under applicable law, including the Securities and Exchange Commission and the NYSE MKT rules. Our Board of Directors is committed to upholding the highest legal and ethical conduct in fulfilling its responsibilities and recognizes that related party transactions can present a heightened risk of potential or actual conflicts of interest.

Hedging Policy

The Company maintains an insider trading policy that prohibits its directors, executive officers and employees from engaging in hedging activities or other short-term or speculative transactions in the Company's securities such as short sales, puts, calls or any similar transaction in options on the Company's securities.

Stock Ownership Guidelines

To facilitate executive stock ownership among its directors, with respect to the equity compensation paid to the Company's non-employee directors, the Board has adopted guidelines requiring such directors to retain until their retirement from the Board at least 50% of all shares received as compensation for their Board service.

To facilitate executive stock ownership among its executive officers, the Company has adopted equity ownership guidelines requiring the Chief Executive Officer to maintain ownership of a minimum amount of Company stock equal to 4 times base annual salary and the Chief Financial Officer and Chief Operating Officer (should the Company establish such a position) to maintain ownership of a minimum amount of Company stock equal to 2 times base annual salary. These guidelines allow the covered executives certain time periods in which to gain compliance with the ownership requirements and contain mandatory share retention provisions until compliance is achieved.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Delta Apparel, Inc. has a long-standing commitment to paying its executives based on the performance of the Company as a whole as well as based on their individual performance. Our compensation programs are designed with the Company's business objectives foremost in mind and are intended to promote sustainable growth and long-term shareholder value. Our Compensation Committee has consistently subscribed to a pay philosophy that places a significant portion of executive compensation at risk and ties executive compensation to the Company's long-term fortunes. This is typically accomplished by providing compensation packages that combine competitive salaries and service-based equity compensation with performance-based cash incentive and equity compensation. All performance-based compensation is primarily contingent on the Company's achievement of aggressive yet realistic return on capital employed ("ROCE") and earnings per share ("EPS") growth goals. The Company has consistently utilized ROCE as a performance metric for many years and we believe ROCE, along with EPS growth, are the financial performance metrics that most effectively calibrate the interests of our executives with those of our shareholders.

After several years of sustained growth in revenues and profits, our Company faced a very unique and challenging business environment in fiscal year 2012. This environment was created by factors beyond the control of our executive team. Cotton, which is by far the most important raw material to the Company's business, reached historically high price and volatility levels. Erratic cotton prices, a corresponding pull-back in our customer base's demand for products, and generally softer retail-level consumer demand for apparel products had an immediate and negative impact on our performance in fiscal year 2012.

Despite these unusually difficult economic conditions, our executive team was able to guide the Company to a variety of notable accomplishments during the fiscal year ended June 30, 2012. The following accomplishments should position the Company for a return to profitable growth as the above-referenced environmental factors stabilize and improve:

• Another record year from a revenue standpoint, with the Company's total net sales increasing for the ninth consecutive year, by 3.0% over fiscal year 2011, to \$489.9 million;

• Relocation of the production sampling function within the Company's largest operating unit, its basics segment, to the production facility it serves in El Salvador, which should result in substantial long-term efficiencies;

• Record revenue levels at the Company's Junkfood, The Game, FunTees and Art Gun business units;

• Further brand expansion and growth of the Company's Salt Life product line, including the opening of the flagship Salt Life retail store in Jacksonville Beach, Florida and the addition of Salt Life footwear;

• Transition of all of our branded apparel operating units onto the same enterprise resource system;

• A 22% increase in sales generated from our e-commerce sites;

• The repurchase of approximately 168,000 shares of our Company stock for approximately \$2.6 million; and

•

The development of new and innovative apparel products and retail merchandising strategies such as the Junkfood division's "scan-to-vote" t-shirt product, which enables individuals to register to vote via smartphone technology embedded in the t-shirt, and "digital wall" retail experience, which allows shoppers to select from a constantly rotating inventory of popular vintage t-shirts and make purchases via smartphone technology.

Despite achieving these milestones, however, the Company did not meet the minimum ROCE and EPS growth goals set by the Compensation Committee for our named executive officers' fiscal year 2012 compensation program. Accordingly, our executives did not receive any cash incentive compensation in fiscal year 2012 and, in the case of the Chief Executive Officer, did not receive performance-based equity incentive compensation for which he was eligible. The fact that our executives did not receive a significant portion of their compensation due to Company performance in fiscal year 2012 provides a good example of the correlation between Company results and executive compensation and the application of the Company's pay-for-performance philosophy.

For the reasons more fully described in this CD&A and accompanying tables contained in this Proxy Statement, we believe our executive compensation programs are designed to support our Company goals and encourage profitable growth for the business in years to come. Further information regarding the Company's performance is available under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for fiscal year ended June 30, 2012, filed with the SEC.

Compensation Decision Roles

Compensation & Corporate Governance Committees

The Compensation Committee approves all compensation for our named executive officers except our Chief Executive Officer, authorizes all awards under the Company's stock plans, and reports its decisions to the Board. The Corporate Governance Committee recommends to the Board the compensation for the Chief Executive Officer. The Vice President of Human Resources provides the relevant committee with tally sheets that show recommended amounts for each element of compensation, historical levels for each compensation element for the past five years, and amounts payable to executive officers upon different termination of employment and change of control scenarios. While the recommendations of management provide valuable guidance, the Compensation Committee ultimately makes all final decisions with respect to compensation levels and structure for the executive management team (except for the Chief Executive Officer, which is ultimately made by the Board). The Compensation Committee's and Corporate Governance Committee's respective charters list the specific responsibilities of each committee and can be found on our internet website at www.deltaapparelinc.com.

Company Management

Management is responsible for developing and maintaining an effective compensation program throughout the Company and for administering the compensation programs decided upon by the Compensation Committee. The Chief Executive Officer annually reviews the performance of each named executive officer and other senior executive officers and makes recommendations to the Compensation Committee. Decisions regarding the non-equity compensation of other employees are made by management.

Compensation Consultants

During the Company's prior fiscal year, fiscal year 2011, the Committee engaged Towers Watson, an independent consulting firm, to provide advice and assistance to the Compensation Committee in making compensation decisions for the named executive officers, as well as for other senior executives. Towers Watson reported directly to the Compensation Committee, and all services provided by Towers Watson were provided on its behalf. Towers Watson provided information regarding market compensation levels and practices, assisted the Compensation Committee in the review and evaluation of such compensation levels and practices, and advised the Compensation Committee regarding compensation decisions. Towers Watson also provided information and advice on non-employee director compensation.

In March of 2012, the Corporate Governance Committee engaged BDO Seidman, an independent consulting firm, to provide advice and assistance regarding the compensation of the Company's Chief Executive Officer, including applicable market compensation levels and practices as well as the equity compensation programs and practices applicable to the named executive officers and other senior executives. BDO Seidman reported directly to the Corporate Governance Committee and all services provided by BDO Seidman were provided on its behalf.

During fiscal year 2012, Towers Watson did not provide any services to the Company. BDO Seidman did not provide any services to the Company other than those requested by the Corporate Governance Committee and related to its engagement as independent consultant to that committee. Neither Towers Watson nor BDO Seidman provide any non-executive compensation services to us directly or indirectly through affiliates.

Compensation Philosophy and Objectives

The philosophy underlying our executive compensation program is straight-forward. We aim to provide a market-based program tied to performance and aligned with the interests of our shareholders. The program is structured to attract, motivate and retain qualified executives and to promote an environment that accentuates and rewards achievement. The attainment of ambitious yet realistic performance goals naturally translates into increased value to shareholders.

Setting Executive Compensation

The Compensation Committee's fiscal year 2011 engagement of Towers Watson included a review of the Company's executive pay levels and mix of compensation components. This review also included a market analysis of long-term incentive plan practices and perquisite practices from both a peer and general industry perspective. Towers Watson compiled competitive market data from Towers Watson's General Industry Executive Survey and among a peer group of twelve companies within the apparel industry. In determining the appropriate compensation for our named executive officers for fiscal year 2012, the Compensation Committee reviewed the compensation data previously provided by Towers Watson in fiscal year 2011.

The peer group utilized by Towers Watson in its fiscal year 2011 review included companies in the apparel industry with revenues approximately ½ to 2 times our revenue size. The peer group specifically included:

American Apparel, Inc.	Kenneth Cole Productions Inc.	Steve Madden, Ltd.
Ennis, Inc.	Maidenform Brands, Inc.	True Religion Apparel, Inc.
Gildan Activewear, Inc.	Oxford Industries Inc.	Vera Bradley Designs, Inc.
G-III Apparel Group, Ltd.	Perry Ellis International Inc.	Volcom Inc.

Towers Watson noted that although the use of ½ to 2 times revenue is a standard methodology for determining a peer group, in the case of the peers noted above, eight are larger in revenue size than Delta Apparel, Inc. The use of published survey data, by contrast, allows the peer group data to be appropriately "right-sized" to our revenue levels with the use of regression equations. In addition, published survey data provides for larger data samples and allows for job or role matches based on the duties and responsibilities of the executives. As such, Towers Watson recommended that the Compensation Committee focus primarily on the comparisons against the general industry published survey data and use the peer group comparisons as a secondary perspective.

Competitive Positioning of Executive Compensation Levels

In fiscal year 2012, the Compensation Committee established base salary, annual incentive opportunities and long-term incentive target grants for our named executive officers primarily with reference to the general industry published survey data and recommendations previously provided by Towers Watson. The peer group comparison data was used as a secondary reference point. In setting compensation for the Chief Executive Officer for fiscal year 2013, the Corporate Governance Committee considered not only the data and recommendations provided by Towers Watson but also, to a lesser extent, the market and industry data provided by BDO Seidman. Generally, the target annual cash compensation (base salary plus target annual incentive compensation) for our named executive officers is intended to be within the median range of the general industry published survey data, adjusted for experience level, responsibility, job performance, unique expertise and future growth potential. Executives have the potential to earn significantly higher annual cash compensation when the Company's actual performance significantly exceeds performance goals and significantly lower annual cash compensation if the Company's performance falls short of performance goals. Consistent with our pay-for-performance philosophy, no cash incentive compensation was paid to named executive officers in fiscal year 2012 due to Company performance.

Long-term equity incentive target levels for our named executive officers are set with the intention of earning value at the expected median level of the general industry published survey data, adjusted for consideration of expected share price appreciation, overhang, shares available for grant, and dilutive affect, with the potential for executive officers to earn higher values when performance goals are exceeded and lower if Company performance goals are not achieved. The fact that none of the performance units granted to our Chief Executive Officer for fiscal 2012 vested is another illustration of the direct tie between executive compensation and Company performance.

In making decisions with respect to any element of an executive officer's compensation, the Compensation Committee considers the total compensation that may be awarded to the executive, including base salary, annual incentive compensation and long-term equity incentive compensation. The Compensation Committee's goal is to award compensation that is properly balanced when all elements of potential compensation are considered.

The Compensation Committee believes the aggregate components of our executive compensation program provide a total compensation level that is sufficient to attract, retain, motivate and reward our executive officers. In addition, it is important to note that a significant portion of total executive compensation is at risk on both a short-term and long-term basis, as again exemplified by the Company's named executive officers not receiving any of the cash

incentive compensation for which they were eligible in fiscal year 2012 and the Company's Chief Executive Officer not vesting in any of the performance units for which he was eligible based on fiscal year 2012 Company performance. The charts below illustrate the actual cash compensation received by our executives in fiscal year 2012 relative to the target cash compensation for which they were eligible in fiscal year 2012.

Executive Compensation Components

The principal components of compensation for our executive officers are:

- Base salary;
- Performance-based cash incentives;
- Long-term equity incentives; and
- Other employee benefits provided to all full-time U.S. employees.

Although there is no pre-established policy or target for the allocation between specific compensation components, approximately 40% of an executive officer's annual total target compensation is generally intended to be contingent on Company performance relative to performance goals established for our annual and long-term incentive plans. We believe this approach reflects our objective of aligning the interests of our executives and shareholders without encouraging excessive or unnecessary risk-taking.

Base Salary

Base salary is paid to our executives in cash on a semi-monthly basis throughout the year and provides a minimum, fixed level of compensation. We provide our executives with a base salary to compensate them for services rendered during the fiscal year. The base salary for each executive officer is guided by the relative salary levels for comparable positions in the apparel industry and general industry, as well as the assessed potential of the executive, the individual's scope of responsibility, personal performance, experience and length of service to the Company. Each executive officer's base salary is reviewed annually and generally adjusted to reflect inflation, the Company's financial performance, any change in the executive officer's responsibilities, and the executive officer's overall performance. The Compensation Committee has determined that, in general, to enable the Company to attract, motivate and retain the executive talent important to its long-term growth, the compensation strategy should aim to position base salaries competitive with similar positions within both public and private apparel companies. With respect to our named executive officers other than the Chief Executive Officer, the Compensation Committee reviewed the information previously provided by Towers Watson regarding executives' base salary levels compared to the general industry and peer group published survey data, along with the Chief Executive Officer's assessment of each executive's individual performance and responsibilities, and knowledge of apparel industry compensation, to determine appropriate base salary compensation for each executive. With respect to the Chief Executive Officer, in addition to reviewing the Towers Watson-provided data, the Corporate Governance Committee reviewed data provided by BDO Seidman. During fiscal year 2012, salary increases were given to the executive officers ranging from approximately 3% to 11% to reflect performance, additional experience and responsibilities, and future potential. Other than a few larger increases stemming from unique circumstances where the information provided by Towers Watson suggested certain key employees were under market compensation, the salary increases for the executive officers were generally aligned with the increases given to other salaried employees.

Changes in Fiscal Year 2013

We anticipate salary increases to the named executive officers in fiscal year 2013 to range from approximately 2% to 5%.

Annual Incentive Compensation

Our compensation philosophy connects our executives' potential annual earnings to the achievement of performance objectives designed to support execution of our business strategies. Our annual incentive compensation ("AIC") provides for the payment of cash bonuses pursuant to our Short-Term Incentive Compensation Plan. Our Short-Term Incentive Compensation Plan places a sizable percentage of annual cash compensation at risk and is designed to motivate and reward salaried employees to achieve and exceed objective annual business performance goals that have been established during the first quarter of the fiscal year. The Compensation Committee certifies that the performance goals have been achieved prior to the payment of any AIC. The Compensation Committee may, at its discretion, adjust the actual AIC paid.

Target Value

The overall AIC potential varies depending upon the executive's position, with the target value defined as a certain dollar amount per individual. The Compensation Committee approves the aggregate target values for the plan, as well as the individual target values for all named executive officers. The Compensation Committee reviewed the information provided by Towers Watson in fiscal year 2011 regarding executives' target annual incentive compensation (as a percentage of base salary) compared to the general industry published survey data, along with information regarding each executive's individual performance and responsibilities, to determine the appropriate target value for each executive. The fiscal year 2012 target values were as follows: \$650,000 (or 88% of base salary) for Mr. Humphreys; \$150,000 (or 48% of base salary) for Ms. Merrill; \$100,000 (or 36% of base salary) for Ms. Watson; \$180,000 (or 54% of base salary) for Mr. Cochran; and \$172,500 (or 51% of base salary) for Mr. Spires.

Performance Goals

We do not establish performance criteria based on individual performance for each named executive officer or other members of management, although we do evaluate individual performance when making compensation decisions. Rather, we believe that focusing the executive team as a group on common financial performance goals results in greater long-term success. The named executive officers each have cash incentives and performance-based equity awards conditioned on the achievement of objective financial and operational goals for the Company as a whole. In addition to the AIC based on Company-wide performance, Mr. Cochran and Mr. Spires are eligible to receive a portion of their target value based on the performance of their particular business unit (Delta Activewear and M.J. Soffe, LLC, respectively).

Under the AIC approved by the Compensation Committee for fiscal year 2012, the performance goals for AIC that are based on the performance of the Company as a whole are based on ROCE, which represents 75% of the target, and the Company's three-year average EPS growth, which accounts for 25% of the target. One of the Compensation Committee's aims in adding the EPS growth component to the AIC structure is for the management team to put more emphasis on interest expense and tax planning to improve net income as a percentage of operating profit. The incentives earned are then adjusted upward or downward by the sales growth or decline of the Company from fiscal year to fiscal year. ROCE is defined as the Company's earnings before interest and taxes as a percentage of the twelve-month average capital employed.

For fiscal year 2012, the Compensation Committee established the required ROCE to earn the target value at 10%, which is consistent with the rate established for fiscal year 2011 and well above the Company's actual cost of debt. In addition, the Committee considers the risk-free interest rate environment in setting the required ROCE to earn the target value. A 3% ROCE was required to achieve 25% of the target value and a 21.5% ROCE would have earned 250% of the target value, with pro rata target value achievement for ROCE results between 3% and 21.5%. For fiscal year 2012, the Compensation Committee established the required three-year average EPS growth to earn the target value at 12% EPS growth, with a between 5% and less than 6% EPS growth achieving up to 70% of the target value, 6% EPS growth achieving 70% of the target value, and 20% EPS growth achieving 250% of the target value, with pro rata target value achievement for EPS growth results between 5% and 20%. If minimum performance goals are not met by the Company, there is no guaranteed bonus payment. If performance goals are exceeded, there is a maximum bonus payout of 250% of target values for all AIC Plans; however, our Short-Term Incentive Compensation Plan states that no participant in the plan shall receive compensation pursuant to the plan in excess of \$1,500,000 during any calendar year. No AIC payments were made to named executive officers in fiscal 2012 because the Company's

ROCE and average EPS growth did not meet minimum thresholds.

The following tables set forth the performance targets and calculation of the actual incentive compensation earned based on the financial performance of the Company as a whole:

Table of Contents

FISCAL YEAR 2012 ANNUAL INCENTIVE COMPENSATION COMPONENTS AND RESULTS

3%	25% of target value	Sales Growth Multiplier: n/a

20%	250% of target value (maximum)	Total Payout: 0%	

In addition to the annual incentive compensation based on the performance of the Company as a whole, Mr. Cochran and Mr. Spires were eligible to receive a portion of their target value (\$155,000 and \$147,500, respectively) based on the performance of their particular business unit (Delta Activewear and M.J. Soffe, LLC, respectively). For fiscal year 2012, these business unit-specific goals placed one third of the target value on each of operating margin, ROCE (with a penalty for excess aged inventory) and sales growth for the individual business unit. There is no sales growth or decline adjustment to these business unit-specific incentive plans.

If minimum performance goals are not met by Mr. Cochran's and Mr. Spires' respective business units, there is no guaranteed bonus payment under the AIC plans. If performance goals are exceeded, there is a maximum bonus payout of 250% of target values for all AIC Plans; however, our Short-Term Incentive Compensation Plan states that no participant in the plan shall receive compensation pursuant to the plan in excess of \$1,500,000 during any calendar year. The minimum performance thresholds for Mr. Cochran's and Mr. Spires' respective business units were not met in fiscal year 2012 so their respective payout percentages were: 0% for Delta Activewear and 0% for M.J. Soffe, LLC.

Changes in Fiscal Year 2013

The Company does not anticipate any structural changes to its AIC plans for fiscal year 2013 and the target AIC values for each executive officer will remain the same for fiscal year 2013 except for an approximately 4% decrease to Mr. Spires' target value for the business unit-specific portion of his AIC plan and a minor adjustment to the sales growth metrics applicable to Mr. Cochran's business unit-specific AIC plan.

Long-Term Incentive Compensation

Our executives receive long-term incentive compensation intended to link their compensation to the Company's long-term financial success. Historically, our equity compensation programs consisted of stock option grants under the Delta Apparel Incentive Stock Award Plan ("Stock Award Plan") and the Delta Apparel Stock Option Plan ("Stock Option Plan"). These were designed to provide each executive officer with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. All stock-based awards are now granted under the Delta Apparel, Inc. 2010 Stock Plan ("2010 Stock Plan"), which was approved by the Company's shareholders on November 11, 2010.

2010 Stock Plan

Under the 2010 Stock Plan, the Compensation Committee has the authority to determine to whom awards may be granted and the size and type of each award and manner in which such awards will vest. The awards available consist of stock options, stock appreciation rights, restricted stock, restricted stock units, performance stock, performance units, and cash awards. The 2010 Stock Plan limits the number of shares that may be covered by awards to any participant in a given calendar year and also limits the aggregate awards of restricted stock, restricted stock units and

performance stock granted in any given calendar year. If a participant dies or becomes disabled (as defined in the 2010 Stock Plan) while employed or serving as a director, all unvested awards become fully vested. The

Table of Contents

Compensation Committee is authorized to establish the terms and conditions of awards granted under the 2010 Stock Plan, to establish, amend and rescind any rules and regulations relating to the 2010 Stock Plan, and to make any other determinations that it deems necessary.

The equity awards granted by the Compensation Committee are intended to create a meaningful opportunity for stock ownership based upon the executive's current position and level and responsibility, the assessed potential of the executive, the executive's performance, the executive's other forms of compensation and total compensation, any other factors that are deemed relevant to accomplish the long-term goals of the Company and, as appropriate, the recommendation of the Chief Executive Officer and the Vice President of Human Resources. In addition to these factors, in the case of stock options, the number of options granted to the executive under the plan is evaluated in the context of our historical and anticipated future stock appreciation. In making grants in fiscal year 2012, the Compensation Committee also referenced competitive long-term incentive data provided by Towers Watson in fiscal year 2011. Long-term incentive grants made in fiscal year 2012 were made under the 2010 Stock Plan approved by shareholders in November 2010.

On August 17, 2011, the Company entered into an amendment to Mr. Humphreys' employment agreement that replaced a previously awarded service-based grant of 30,000 shares with tax assistance with 52,000 shares of performance units, using the Company's fiscal year 2012 ROCE as the performance measure. Mr. Humphreys was eligible to receive 100% of the grant (52,000 units) if a 7% ROCE was achieved for fiscal year 2012, 20% of the grant (10,400 units) at a 3% ROCE, and no units if ROCE was below 3%. The maximum payout was 120% (62,400 units) if ROCE equaled or exceeded 12%. Mr. Humphreys did not receive any of these performance units due to the Company's ROCE in fiscal year 2012. No tax assistance is provided under this grant.

On June 6, 2012, the Company entered into a second amendment to Mr. Humphreys' employment agreement in connection with which Mr. Humphreys received a grant of 156,000 performance units. One third of such performance units (52,000) are eligible to vest upon the filing of the Company's Form 10-K for each of the Company's fiscal years 2013, 2014 and 2015 based on the Company's one year average ROCE in the applicable fiscal year. A 7% one-year average ROCE will entitle Mr. Humphreys to vest with respect to 52,000 shares, a 3% one-year average ROCE will entitle Mr. Humphreys to vest with respect to 10,400 shares (20% of the target number of shares), and Mr. Humphreys will not vest in any of the shares if the one-year average ROCE is less than 3%. A one-year average ROCE of 12% or more will entitle Mr. Humphreys to vest with respect to 62,400 shares (120% of the target number of shares), which is the maximum number of shares that can be earned under the grant. If the one-year average ROCE is between 3% and 7%, Mr. Humphreys is entitled to vest with respect to a pro rata number of shares (between 10,400 shares and 52,000 shares), based on the actual one-year average ROCE. If the one-year average ROCE is between 7% and 12%, Mr. Humphreys is entitled to vest with respect to a pro rata number of shares (between 52,000 shares and 62,400 shares), based on the actual one-year average ROCE. Mr. Humphreys will receive shares of Company stock equal to one-half of the value of the aggregate number of any vested performance units and a cash payment equal to one-half of the value of the aggregate number of such vested performance units. No tax assistance is provided under this grant.

On July 6, 2011, each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires were awarded 13,250 service-based restricted stock units and 13,250 performance units. The service-based restricted stock units and performance units vest upon the filing of the Company's Form 10-K for the fiscal year ending June 29, 2013. The performance units vest upon achievement of average ROCE targets for fiscal years 2012 and 2013. A 10% two-year average ROCE will entitle each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires to vest with respect to 13,250 shares, a 5% two-year average ROCE will entitle each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires to vest with respect to 6,625 shares (50% of the target number of shares), and each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires will not vest in any of the shares if the two-year average ROCE is less than 5%. A two-year average ROCE of 15% or more will entitle each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires to vest with respect to 19,875 shares (150% of the target number of shares), which is the maximum number of shares that can be earned under the grant. If the two-year average ROCE is between 5% and 10%, each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires is entitled to vest with respect to a pro rata number of shares (between 6,625 shares and 13,250 shares), based on the actual two-year average ROCE. If the two-year average ROCE is between 10% and 15%, each of Ms. Merrill, Ms. Watson, Mr. Cochran and Mr. Spires is entitled to vest with respect to a pro rata number of shares (between

13,250 shares and 19,875 shares), based on the actual two-year average ROCE. No tax assistance is provided under these grants.

Mr. Cochran was awarded 25,000 service-based stock options as part of his initial compensation package upon being hired by Delta Apparel, Inc. Half of these options vested on July 2 2011, and the remainder vested on June 30, 2012.
Stock Award Plan

The options granted under the Stock Award Plan have an exercise price of \$0.01 per share. In addition, the Company provides tax assistance on the vesting of these option awards whereby a cash payment is made to the executive equal to estimated taxes payable by the executive upon the exercise of the option.

60,000 options were granted to Mr. Humphreys at the beginning of fiscal year 2010 under the Stock Award Plan that were service-based. Of the options granted, 50% vested when we filed our Annual Report on Form 10-K with the Securities and Exchange Commission for the 2010 fiscal year and the remaining options vested on the September 1, 2011 filing of our Annual Report on Form 10-K with

Table of Contents

the Securities and Exchange Commission for the 2011 fiscal year. No option grants were made to Mr. Humphreys during fiscal years 2011 or 2012.

At the beginning of fiscal year 2010, 12,000 service-based options and 8,000 performance-based options were granted to Ms. Merrill, Ms. Watson and Mr. Spires under the Stock Award Plan. These options vested on the September 1, 2011 filing of our Annual Report on Form 10-K with the Securities and Exchange Commission for the 2011 fiscal year. Vesting of the performance-based options was based solely on achievement of average ROCE goals established by the Compensation Committee. The following table sets forth the performance vesting criteria and payout percentages for this 2010-2011 long-term incentive grant:

FISCAL YEAR 2010-2011 PERFORMANCE VESTING CRITERIA

Performance Metric	Performance Range & Payout Percentage					
	Threshold Target		Maximum	Achieved Results	Percent Achieved	Vesting Factor
	50%	100%	150%			
2-Yr Average Return on Capital Employed	5%	10%	15%	11%	110%	110 %

If a two-year average return on capital of 5% was not met by the Company, none of the performance-based options would have vested. If performance goals were exceeded, a maximum of 150% of the performance-based options would have vested. No option grants were made to Ms. Merrill, Ms. Watson or Mr. Spires during fiscal years 2011 or 2012.

In October 2010, the Compensation Committee granted 4,200 service-based options and 2,800 performance-based options to Mr. Cochran pursuant to the Stock Award Plan as part of his compensation package upon being hired by Delta Apparel, Inc. These options vested on the September 1, 2011 filing of our Annual Report on Form 10-K with the Securities and Exchange Commission for the 2011 fiscal year. The performance-based options vested based upon the same performance criteria as described above for Ms. Merrill, Ms. Watson and Mr. Spires. No option grants were made to Mr. Cochran during fiscal year 2012.

Stock Option Plan

In February 2008, 40,000 service-based options were granted to each of Ms. Merrill, Ms. Watson and Mr. Spires under the Stock Option Plan. These options vested equally over three years, with the final third of such options vesting on June 30, 2012. No tax assistance is provided under these grants.

Changes in Fiscal Year 2013

The Company does not anticipate any structural changes to the long-term equity incentive compensation awarded to its executive officers in fiscal year 2013.

Other Employee Benefits

Our named executive officers receive the same employee benefits generally available to all of our full-time U.S. employees, including health insurance, dental insurance, and group life and disability insurance. In addition, executives are eligible to participate in our 401(k) plan once they meet eligibility requirements. The Company provides the same 401(k) match offered to all employees of the Company. We do not maintain any deferred compensation plans.

Perquisites and Other Personal Benefits

The Company does not provide its executives with any perquisites or other personal benefits that are not provided to its other employees, except that the Company provides a country club membership to Mr. Spires.

Deductibility of Compensation Expense

Internal Revenue Service rules do not permit us to deduct certain compensation paid to certain executive officers in excess of \$1 million, except to the extent such excess constitutes performance-based compensation (as defined in Section 162(m) of the Internal Revenue Code). The Compensation Committee considers its primary goal to be the design of compensation programs that further the best interests of the Company and its shareholders. To the extent not inconsistent with that goal, the Compensation Committee attempts to use compensation programs that preserve the tax deductibility of compensation expenses. We believe that the cash bonuses paid to the employees pursuant to the

shareholder approved Short-Term Incentive Compensation Plan and the performance-based equity grants made pursuant to the Company's 2010 Stock Plan qualify as performance-based compensation exempt from the \$1 million deduction

25

Table of Contents

limit. The options granted subsequent to November 2001 under the Company's Stock Option Plan and Stock Award Plan may not qualify as performance-based compensation as the plans were not approved by Delta Apparel, Inc.'s shareholders. In fiscal year 2012, approximately \$0.6 million of the compensation paid to Mr. Humphreys was not deductible by the Company for federal income tax purposes. We believe that in fiscal year 2013 all compensation paid to Mr. Humphreys will be deductible by the Company for federal income tax purposes.

Employment Agreements

The Company competes for executive talent and believes that agreements providing severance and other protections play an important role in attracting and retaining key executives. The Company has entered into employment agreements with all named executive officers and other selected senior executives and key managers.

Robert W. Humphreys, Chairman and Chief Executive Officer, has an employment agreement with Delta Apparel, Inc. dated June 12, 2009, which was amended on August 17, 2011, and amended again on June 6, 2012. Steven E. Cochran, President of Delta Activewear, has an employment agreement with Delta Apparel, Inc. dated October 25, 2010. The remaining executive officers, listed as follows, are parties to employment agreements with Delta Apparel, Inc. dated December 31, 2009.

Deborah H. Merrill, Vice President, Chief Financial Officer and Treasurer

Martha M. Watson, Vice President and Secretary

Kenneth D. Spires, President of M.J. Soffe, LLC

Employment Agreement with Robert W. Humphreys

Mr. Humphreys' agreement provides that he will receive a base annual salary of at least \$760,000, subject to upward adjustment at the discretion of the Corporate Governance Committee of the Company's Board of Directors and confirmed by the full Board of Directors. Mr. Humphreys will participate in the Company's Short-Term Incentive Compensation Plan with a base of \$650,000 during fiscal years 2013, 2014, and 2015, with the maximum payout of \$1,500,000 for any single fiscal year. The calculation of Mr. Humphreys' compensation under the Short-Term Incentive Compensation Plan will be the same as conducted annually by the Board of Directors for the other participants in the plan. Mr. Humphreys will also participate in the 2010 Stock Plan.

As set forth in the "Long-Term Incentive Compensation" section, above, in connection with the first amendment to his employment agreement, Mr. Humphreys received 52,000 shares of performance units that were eligible to vest based on the Company's attainment of fiscal year 2012 ROCE targets. Mr. Humphreys did not receive any of these performance units due to the Company's ROCE being below the minimum threshold in fiscal year 2012.

As also set forth in the "Long-Term Incentive Compensation" section, above, in connection with the second amendment to Mr. Humphreys' employment agreement, he received a grant of 156,000 performance units that are eligible to vest in thirds upon the filing of the Company's Form 10-K for each of the Company's fiscal years 2013, 2014 and 2015 based on the Company's one year average ROCE in the applicable fiscal year. A 7% one-year average ROCE will entitle Mr. Humphreys to vest with respect to 52,000 shares, a 3% one-year average ROCE will entitle Mr. Humphreys to vest with respect to 10,400 shares (20% of the target number of shares), and Mr. Humphreys will not vest in any of the shares if the one-year average ROCE is less than 3%. A one-year average ROCE of 12% or more will entitle Mr. Humphreys to vest with respect to 62,400 shares (120% of the target number of shares), which is the maximum number of shares that can be earned under the grant. If the one-year average ROCE is between 3% and 7%, Mr. Humphreys is entitled to vest with respect to a pro rata number of shares (between 10,400 shares and 52,000 shares), based on the actual one-year average ROCE. If the one-year average ROCE is between 7% and 12%, Mr. Humphreys is entitled to vest with respect to a pro rata number of shares (between 52,000 shares and 62,400 shares), based on the actual one-year average ROCE. Mr. Humphreys will receive shares of Company stock equal to one-half of the value of the aggregate number of any vested performance units and a cash payment equal to one-half of the value of the aggregate number of such vested performance units. In the event that Mr. Humphreys is terminated other than for Cause (as defined in the agreement), and subject to satisfaction of the applicable performance criteria, Mr. Humphreys will receive the full award for the fiscal year in which his employment is terminated.

Mr. Humphreys is entitled to receive such perquisites as are provided by the Company from time to time to executives of the Company in comparable positions and such other benefits as are customarily available to executives of the Company.

The agreement requires that Mr. Humphreys give the Company 180 days' prior written notice of his voluntary termination of employment. The Company may terminate Mr. Humphreys' employment with or without cause upon written notice. If the Company terminates Mr. Humphreys' employment without cause or Mr. Humphreys terminates his employment because of a material breach of the agreement by the Company, the Company, for a period of 12 months, will continue to pay Mr. Humphreys' base salary, will pay 100% of his Short-Term Incentive Compensation base amount for the fiscal year in which his employment was terminated, and will continue to provide the life, medical, and disability insurance provided to him prior to termination or, if different, the life, medical, and

Table of Contents

disability insurance provided to other executives during such 12 month period. The agreement provides for 6 months of base salary continuation to Mr. Humphreys' estate following his death, and provides for base salary and benefits continuation for 6 months following termination of employment because of disability.

If within one year of a Change of Control (as defined in the agreement), Mr. Humphreys terminates his employment for Good Reason (as defined in the agreement) or the Company terminates Mr. Humphreys' employment for any reason other than Cause (as defined in the agreement), death, or disability, then the Company must pay to Mr. Humphreys (i) an amount equal to his annual base salary in effect on the termination date, (ii) an amount equal to the full amount of the cash Short-Term Incentive Compensation target during the fiscal year in which the termination occurs, (iii) all benefits under the Company's various welfare and benefit plans for 12 months after the date of termination at levels and rates substantially equal to those applicable to him prior to such termination, and (iv) outplacement assistance.

Upon a termination of Mr. Humphreys' employment, Mr. Humphreys is generally prohibited for twelve months from the date of termination from directly or indirectly competing with the Company by providing to any company that is in a competing business services substantially similar to the services provided by him at the time of termination. A competing business is defined as any business that engages, in whole or in part, in the manufacturing or marketing of activewear apparel in the United States of America, and Mr. Humphreys' employment function or affiliation is directly or indirectly in such business of activewear apparel manufacturing or marketing. The agreement also includes non-solicitation provisions that apply to employees, customers and suppliers for a period of two years from expiration of the term of the agreement or termination of employment, as well as non-disclosure and non-disparagement provisions.

The agreement continues until the date of the filing with the Securities and Exchange Commission of the Company's Form 10-K for fiscal year 2015.

Employment Agreements with other Named Executive Officers

The employment agreements with the other named executive officers are identical except for the employees' initial job titles and initial base salaries set forth below:

Deborah H. Merrill Vice President, Chief Financial Officer and Treasurer	\$253,000
Martha M. Watson Vice President and Secretary	\$250,000
Steven E. Cochran President, Delta Activewear	\$325,000
Kenneth D. Spires President, M.J. Soffe, LLC	\$310,000

Each agreement entitles the employee to (i) the base salary set forth above (subject to upward adjustment), (ii) participate in the Company's Short-Term Incentive Compensation Plan, and (iii) receive the fringe benefits provided to executives in comparable positions including vacations and life, medical and disability insurance. The agreements all have terms that expire on December 31, 2012.

If the employee dies during the term of the agreement, we will continue to pay his or her base salary in effect at the time of death to his or her estate for 6 months. If the employee becomes disabled (as defined in the agreement) during the term and his or her employment is terminated, he or she will continue to receive base salary and benefits for a period of 6 months. If the Company terminates the employee's employment without cause (as defined in the agreement) or the employee terminates employment because the Company has breached the agreement and in each case no change of control (as defined in the agreement) has occurred, then the employee is entitled to receive base salary and incentive compensation ranging from 3 months base salary and 25% of the Short-Term Incentive Plan award for the most recent full fiscal year if the employee was employed for less than one year or up to 12 months base salary and 100% of the Short-Term Incentive Plan award for the most recent full fiscal year if the employee was employed for three or more years, in all cases paid out in equal monthly payments over the period of base salary continuation to the extent permitted under Internal Revenue Code ("IRC") Section 409A. The Company will also make the employee's COBRA payments for medical insurance for the applicable payout period unless the employee receives reasonably comparable benefits from another employer.

If within one year after a Change of Control (as defined in the agreement), the employee terminates employment for Good Reason (as defined in the agreement) or the Company terminates the employee's employment for any reason other than Cause (as defined in the agreement), death or disability, then the employee is entitled to receive an amount

equal to one year's base salary for the fiscal year prior to termination plus the cash incentive compensation received by the employee for the most recent fiscal year. The Company must also provide out-placement assistance and continue coverage under the Company's various welfare and benefit plans in effect at the time of termination for 12 months.

Table of Contents

Each agreement contains an IRC Section 280G “golden parachute payment savings clause” that reduces severance payments if the total amount of payments the employee would receive from the Company would require the Company to report an excess parachute payment. The agreements include non-competition, non-solicitation (with respect to both employees and customers), non-disclosure and non-disparagement provisions.

Compensation Risk Assessment

The Company has assessed the potential risks associated with the Company’s compensation programs, including any risk that would be reasonably likely to have a material adverse effect on the Company and believes that our compensation program does not encourage excessive or inappropriate risk taking. Amounts do not reflect compensation actually received by the named executive officer in the fiscal year 2012. Instead, the amounts shown are the aggregate grant date fair value of restricted share units and performance units computed in accordance with FASB ASC Topic 718, and which may be earned in ensuing fiscal years based on (1) service and/or the Company's achievement of performance results. The assumptions used for purposes of the valuation of the stock awards are described more fully in Note 12 in our financial statements in the Form 10-K for the year ended June 30, 2012, as filed with the SEC. See the Grants of Plan-Based Awards table for further information on awards granted in fiscal year 2012.

Amounts do not reflect compensation actually received by the named executive officer in the fiscal year 2012. Instead, the amounts shown are the aggregate grant date fair value of option awards computed in accordance with FASB ASC Topic 718, and which may be earned in ensuing fiscal years based on service and/or the Company's achievement of performance results. The fair value of each option award is estimated on the date of grant using the (2) Black-Scholes option-pricing model. The grants made pursuant to the Company's Incentive Stock Award Plan include tax assistance that is paid by the Company. The grant date fair value of these awards is increased by 75%, the approximate value of the tax assistance. The assumptions used for purposes of the valuation of the options are described more fully in Note 12 in our financial statements in the Form 10-K for the year ended June 30, 2012, as filed with the SEC.

(3) This column represents the amounts earned by the named executive officer in fiscal years 2012, 2011 and 2010 pursuant to the Company's Short-Term Incentive Compensation Plan. Additional information regarding the potential threshold, target and maximum payouts underlying the Non-Equity Incentive Plan Compensation column is included in the Grants of Plan-Based Awards table.

(4) This column represents the matching contributions by the Company to the Company's 401(k) savings plan. The Company's named executive officers do not receive perquisites that would exceed an aggregate of \$10,000 each. The amount shown includes the aggregate grant date fair value of performance unit awards, using the probable outcome of the performance conditions as of the grant date, which was assumed to be the target amount. If the amount was calculated assuming the highest level of performance conditions were met, the grant date fair value for the awards would be \$3,663,504.

(5) The amount shown includes the aggregate grant date fair value of both restricted share unit and performance unit awards, with the performance unit awards using the probable outcome of the performance conditions as of the grant date, which was assumed to be the target amount. If the amount was calculated assuming the highest level of performance conditions were met, the grant date fair value for the awards would be \$583,000.

(6) The amount shown includes the aggregate grant date fair value of both service and performance-based awards, with the performance-based awards using the probable outcome of the performance conditions as of the grant date, which was assumed to be the target amount. If the amount was calculated assuming the highest level of performance conditions were met, the grant date fair value for the awards

would be \$283,080.

If the amount was calculated assuming the highest level of performance conditions were met, the grant date fair value for the awards would be \$357,366.

(9) The amount shown includes \$75,000 bonus for meeting target date for corporate refinancing of U.S. and Honduran based debt.

(2) The equity incentive plan information includes the grants of performance units made under our 2010 Stock Plan.

(3)

This column includes the restricted share units granted under our 2010 Stock Plan. The restricted share units are convertible on a one-for-one basis to the common stock of Delta Apparel, Inc.

The aggregate grant date fair value of the grants was computed in accordance with ASC Topic 718. The attainment (4) of target level for the performance-based grants was deemed probable at the date of grant and was therefore used to calculate the aggregate grant date fair value.

The Short-Term Incentive Compensation Plan states that no participant in the plan shall receive compensation (5) pursuant to the plan in excess of \$1,500,000 during any calendar year. In addition, the 2012 annual incentives for both the plan for the Company as a whole and the plan based on the business unit include provisions for a maximum payout of 250%.

(6) Amount represents the 2012 annual incentives based on the performance of the Company as a whole.

(7) Amount represents the 2012 annual incentives based on the performance of the Delta Activewear business unit.

(8) Amount represents the 2012 annual incentives based on the performance of the M.J. Soffe business unit.

Upon the attainment of performance goals and other terms and conditions specified by the Compensation (9) Committee, the performance units convert on a one-for-one basis to performance shares, payable on a one-for-one basis in the common stock of Delta Apparel, Inc. The performance goals applicable to Mr. Humphreys' August 17, 2011 equity incentive award were not met and he did not receive any of such performance units.

Upon the attainment of performance goals and other terms and conditions over the course of fiscal years 2013, (10) 2014 and 2015, as specified by the Compensation Committee, one half of the performance units convert on a one-for-one basis to performance shares, payable on a one-for-one basis in the common stock of Delta Apparel, Inc. Mr. Humphreys will also receive a cash payment equal to one-half of the value of the vested performance units, with the value of the performance units determined based on the market price of the common stock of Delta Apparel, Inc.

These stock awards, granted under the 2010 Stock Plan, are restricted stock units. Each restricted stock unit (1) represents the right to receive one share of Delta Apparel, Inc. common stock on the vesting date, which is the day we file our Annual Report on Form 10-K for the year ending June 29, 2013.

(2) The market value is calculated by multiplying the number of restricted share units by \$13.66, the closing price of Delta Apparel, Inc.'s common stock on June 29, 2012 (the last trading day prior to the end of our 2012 fiscal year).

The market value is calculated by multiplying the target level of the performance units by \$13.66, the closing price (3) of Delta Apparel, Inc.'s common stock on June 29, 2012 (the last trading day prior to the end of our 2012 fiscal year).

(4) In accordance with his employment agreement, Mr. Humphreys received an award granted under the 2010 Stock Plan of 156,000 performance units with one third of such performance units eligible to vest upon the filing of our

Annual Report on Form 10-K for each of our fiscal years 2013, 2014 and 2015. With respect to any such performance units that vest, Mr. Humphreys will receive shares of Delta Apparel, Inc. common stock equal to one-half of the value of the aggregate number of such vested performance units and a cash payment equal to one-half of the value of the aggregate number of such vested performance units.

These stock awards, granted under the 2010 Stock Plan, are performance units that are eligible to vest upon the filing of our Annual Report on Form 10-K for the year ending June 29, 2013 if certain performance goals and other (5) terms and conditions specified by the Compensation Committee are attained. Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed below, any actual amounts paid or distributed may be different. Prior to expiration of the Option Plan, the Compensation Committee of our Board of Directors had the discretion to grant options for up to 2,000,000 shares of common stock to officers and key and middle level executives for the purchase of our stock at prices not less than fifty percent of the fair market value of the shares on the dates of grant, with an exercise term (as determined by the Compensation Committee) not to exceed 10 years.

The Award Plan contained provisions for cash payments equal to the taxes due when the shares vest.
