**WIMM-BILL-DANN FOODS OJSC ANNOUNCES
FULL YEAR 2004 FINANCIAL RESULTS**

Moscow, Russia March 21, 2005 Wimm-Bill-Dann Foods OJSC [NYSE: WBD] today announced its financial results for the year ended December 31, 2004.

In 2004, Wimm-Bill-Dann's sales rose 26.7% to US\$1,189.3 million compared to US\$938.5 million in 2003. Gross profit increased 19.8% compared to last year, while gross margins decreased to 27.5% in 2004 from 29.1% in 2003. Net income increased 8.5% to US\$23.0 million in 2004 from US\$21.2 million last year. Adjusted EBITDA* increased 21.3% year-on-year to US\$96.9 million. Adjusted EBITDA* margin stood at 8.1%.

Commenting on today's announcement Sergei Plastinin, Chief Executive Officer of Wimm-Bill-Dann Foods OJSC, said: "Summing up the results of 2004, I would like to emphasize that I am pleased with the EBITDA and top line growth we demonstrated in 2004, as well as with improvements in operating cash flow. At the same time, we remain focused on improving our profitability and tightening our cost control procedures and mechanisms. At the end of last year we laid the foundation for the beginning of our structural reform and abolished the Centre regional division in Dairy. We believe that some additional steps that we carried out in the beginning of this year, including the merger of Juice and Water businesses, will allow us to benefit further from economies of scale and more streamlined operations at every level - from production to marketing to distribution. The strategic and ever growing role of the baby food market prompted us to organize Baby Food into a separate business unit. On the operation level, dairy sales grew a healthy 34% year-on-year, with cheese sales more than doubling compared to 2003. At the same time yogurts, dairy deserts and juice containing dairy drinks grew 36% year-on-year, a slower pace than we initially anticipated. However, we believe that the consumption of these higher margin products will intensify in 2005 and beyond. In the course of last year we completed the enhancement of our distribution network and launched new packaging formats in juice. We continue to improve our corporate governance procedures within the company and are in the process of taking all the necessary steps required in compliance with the Sarbanes-Oxley Act.

Wimm-Bill-Dann's sales reached US\$1,189.3 million in 2004 compared to US\$938.5 million in 2003.

Sales in the Dairy Segment increased 33.8% from US\$662.3 million in 2003 to US\$886.0 million in 2004, while the average selling price increased 16.7% from US\$0.66 per 1 kg in 2003 to US\$0.77 per 1 kg in 2004. This increase was primarily driven by a ruble price increase and ruble appreciation. Gross margins in the Dairy Segment declined from 27.1% in 2003 to 25.4% in 2004. This change was primarily caused by a 16.6% year-on-year increase in the weighted average ruble price of raw milk as well as rising depreciation charges and personnel costs.

Sales in the Juice Segment increased 8.8% from US\$274.5 million in 2003 to US\$298.7 million in 2004, while the average selling price increased 13.8% from US\$0.58 per liter in 2003 to US\$0.66 per liter in 2004. This increase was primarily due to ruble price increase, ruble appreciation and the introduction of new higher priced products. Gross margin in the Juice Segment stayed almost flat at 34.1%.

Selling and distribution expenses decreased as a percentage of sales from 15.0% during the 2003 to 14.6% in 2004, while in absolute terms they grew 23.2% in 2004 due to higher transportation expenditures, advertising and marketing costs, personnel and warehousing costs but were partially offset by a lower growth of bad debt provision. Advertising and marketing costs as a percentage of sales stayed almost flat year-on-year at 4.6% in 2004.

General and administrative expenses decreased as a percentage of sales from 8.1% during the 2003 to 7.8% in 2004, but grew in absolute terms 22.1%. This increase was caused by rising personnel costs combined with the repeal of the property tax privilege in the Dairy Segment that brought additional expense of about US\$5.7mln in 2004.

Financial expense in 2004 totaled US\$14.6 million compared to US\$15.3 million in 2003. Interest expenses rose from US\$20.9 million to US\$22.3 million. Foreign currency gain was US\$7.7 million compared to US\$4.8 million in 2004.

Net income grew 8.5% and stood at US\$23.0 million. Adjusted EBITDA in 2004 increased 21.3% year-on-year and amounted to US\$96.9 million. Adjusted EBITDA margin was 8.1% in comparison to 8.5% in 2003.

*Attachment A***Reconciliation of Adjusted EBITDA and Adjusted EBITDA margin to US GAAP Net Income*

Adjusted EBITDA is a non-U.S. GAAP financial measure. The following table presents reconciliation of Adjusted EBITDA to net income (and Adjusted EBITDA margin to net income as a percentage of sales), the most directly comparable U.S. GAAP financial measure.

	Full year ended December 31, 2004		Full year ended December 31, 2003	
	US\$ mln	% of sales	US\$ mln	% of sales
Net income	23.0	1.9%	21.2	2.3%
Add: Depreciation and amortization	44.0	3.7%	30.8	3.3%
Add: Income tax expense	12.2	1.0%	10.7	1.1%
Add: Interest expense	22.3	1.9%	20.9	2.2%
Less: Interest income	(1.4)	0.1%	(2.9)	0.3%
Less: Currency remeasurement gains, net	(7.7)	0.6%	(4.8)	0.5%
Add: Bank charges	1.9	0.2%	2.0	0.2%
Add: Other financial (income) expenses, net	(0.6)	0.0%	0.1	0.0%
Add: Minority interest	3.2	0.3%	2.0	0.2%
Adjusted EBITDA	96.9	8.1%	79.9	8.5%

Adjusted EBITDA represents net income before interest, income taxes and depreciation and amortization, adjusted for interest income, currency remeasurement gains, bank charges and other financial expenses and minority interest. Adjusted EBITDA margin is Adjusted EBITDA expressed as a percentage of sales.

We present Adjusted EBITDA because we consider it an important supplemental measure of our operating performance. In particular, we believe Adjusted EBITDA provides useful information to securities analysts, investors and other interested parties because it is used in the debt to EBITDA debt incurrence financial measurement in certain of our financing arrangements.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as substitute for analysis of our operating results as reported under U.S. GAAP. Since we adjust EBITDA for recurring items in order to calculate Adjusted EBITDA, we particularly caution users that Adjusted EBITDA is not an alternative to net income, operating income or any other GAAP measure, nor to EBITDA. Moreover, other companies in our industry may calculate Adjusted EBITDA differently or may use it for different purposes than we do, limiting its usefulness as a comparative measure.

Adjusted EBITDA also should not be considered as an alternative to cash flow from operating activities or as a measure of our liquidity. In particular, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business.
