Report of Independent Registered Public Accounting Firm

The Board of Directors

Target Corporation

We have audited the accompanying statements of net assets available for benefits of the Target Corporation 401(k) Plan (the Plan) as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2005, and reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. These supplemental schedules have been subjected to the auditing procedures applied in the audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Target Corporation 401(k) Plan

Notes to Financial Statements

December 31, 2005

1. Description of the Plan

Employees of Target Corporation (the Company) who meet certain eligibility requirements of age and hours worked can participate in the Target Corporation 401(k) Plan (the Plan). Under the terms of the Plan, participants can invest up to 80% of their current gross cash compensation in the Plan, within Employee Retirement Income Security Act (ERISA) limits, in any combination of before-tax and/or after-tax contributions.

Participants become vested in Target Corporation's matching deposits over time, beginning with the day they become eligible to participate in the plan:

Years	Vested Percentage
Upon eligibility	20%
1	40%
2	70%
3	100%

Participant contributions are fully vested at all times. Participants who leave the Plan forfeit unvested Company contributions, which are then used to reduce future Company contributions. For the years ended December 31, 2005 and 2004, forfeitures were \$4.370 million and \$4.322 million, respectively. Pursuant to the Company's sale of Marshall Field's and Mervyn's during fiscal year 2004, participants of these companies discontinued contributions to the Plan. In accordance with the sale, affected participants' accounts became fully vested.

Participants identified as highly compensated, as defined by Internal Revenue Code (the Code) Section 414(q), are subject to limitations on the amount and type of contributions that they may make to the Plan. Such participants' contributions are limited to pretax contributions of no more than 5% of the first \$210,000 of annual gross cash compensation earned.

Participants may receive benefits upon termination, death, disability, or retirement as either a lump-sum amount equal to the vested value of their account or in installments, subject to certain plan restrictions. Participants may also withdraw some or all of their account balances prior to termination, subject to certain plan restrictions.

Edgar Filing: TARGET CORP - Form 11-K

Expenses paid by the plan include: fund management fees (which are netted against investment interest income), trustee fees, monthly processing costs (including record-keeping fees), quarterly participant account statement preparation and distribution, and other third-party administrative expenses.

The Plan allows for two types of loans, one for the purchase of a primary residence, the other a general purpose loan, subject to certain restrictions, as defined in the Plan. Participants may have one of each outstanding at any given time. Repayment of loans, including interest, is allocated to participants' investment accounts in accordance with each participant's investment election in effect at the time of the repayment.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

For more detailed information regarding the Plan, participants may refer to the Summary Plan Description (SPD) available from the Company.

2. Accounting Policies

Accounting Method

All investments are carried at fair market value except fully benefit-responsive investment contracts, which are stated at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay plan benefits. Common stock is valued at the quoted market price on the last business day of the plan year. Collective investment fund values are based on the fair value of the underlying securities (as determined by quoted market prices) as of the last business day of the plan year. Participant loans are valued at the unpaid principal balance, which approximates fair value.

New Accounting Pronouncement

On December 29, 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) AAG INV-1 and Statement of Position (SOP) 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (FSP AAG INV-1 and SOP 94-4-1), which revised the definition of fully benefit-responsive in SOP 94-4. The adoption of FSP AAG INV-1 and SOP 94-4-1 is not expected to have a material impact on the Plan's net assets available for benefits or changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

3. Investments

At December 31, 2005, the Plan allowed participants to choose from among 14 investment funds. Participants may change their fund designations for past and future contributions on a daily basis.

One of the Plan's investment options is the Stable Value Fund. Contributions to this fund are invested in a portfolio of high-quality short- and intermediate- term U.S. bonds, including U.S. government treasuries, corporate debt securities and other high credit quality debt securities. Participant accounts in this fund are credited with interest at a fixed rate, which is reset quarterly. The Plan has agreements with two insurance companies under which the insurance companies provide certain guarantees with respect to the availability of funds to make distributions from this investment option. These contracts are included in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses). Fair values of the investment contracts were approximately 101% and 103% of contract value for the years ended December 31, 2005 and 2004, respectively. Fair value was estimated based on the quoted market values of the underlying securities. The yield on the Plan's investment contracts for the years ended December 31, 2005 and 2004, ranged from 4.87% to 5.05% and from 4.53% to 5.09%, respectively. Under the contracts, the issuer does not guarantee payment of withdrawals at contract value as a result of premature termination of the contract by the Plan or upon plan termination.

Edgar Filing: TARGET CORP - Form 11-K

The Plan's investments are held by State Street Bank, the trustee. The Plan's investments, including investments bought and sold as well as held during the year, appreciated in fair value as follows:

		Net Appreciation in Fair Value During Year (In Thousands)
Year ended December 31, 2005:		
Collective investment funds	\$	62,546
Target Corporation common stock		168,995
	\$	231,541
Year ended December 31, 2004:		
Collective investment funds	\$	96,670
Target Corporation common stock		802,608
	\$	899,278

The fair and/or contract values of individual investments representing 5% or more of the Plan's net assets are as follows:

	2005	December 31 (In Thousands)	2004
Target Corporation common stock*	\$	2,938,272	\$ 2,910,089
State Street Bank & Trust Co. S & P 500 Flagship Fund Class A*		253,003	260,605
AIG Financial Products Group Annuity Contract No. 130221		301,215	277,228
Pacific Mutual Life Insurance Co. Group Annuity Contract No. 26255		301,215	277,228

*Indicates issuer is a party in interest to the Plan

4. Nonparticipant-Directed Investments

The Company matches 100% of participants' before- and after-tax contributions up to 5% of each participant's gross cash compensation, except for highly compensated employees as described in Note 1. The Company's contributions to the Plan are initially invested in the Target Corporation Common Stock Fund. Participants are allowed to diversify the investment of employer match funds to other plan investment options once they are fully vested (as described previously) in their employer match contributions. At December 31, 2005 and 2004, approximately \$60 million and \$65 million, respectively, in investments of Company stock could not be directed to other investment options because full vesting had not yet been achieved. For the years ended December 31, 2005 and 2004, employer contributions of nonparticipant-directed funds were \$36 million and \$34 million, respectively.

5. Transactions With Parties in Interest

During the years ended December 31, 2005 and 2004, the Plan engaged in the following transactions related to the Company's common stock:

	2005	(In Thousands)	2004
Number of common shares purchased	4,540		3,678
Cost of common shares purchased	\$ 237,075		\$ 161,231
Number of common shares sold	6,616		8,800
Market value of common shares sold	\$ 351,245		\$ 396,715
Cost of common shares sold	\$ 152,044		\$ 185,984
Number of common shares distributed in kind	511		608
Market value of common shares distributed in kind	\$ 26,641		\$ 28,920
Cost of common shares distributed in kind	\$ 11,727		\$ 13,271
Dividends received	\$ 19,688		\$ 17,794

During 2005 and 2004, the Plan received match-related dividends of \$12.196 million and \$11.114 million, respectively, on Target Corporation common stock.

6. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2005	December 31 (In Thousands)	2004
Net assets available for benefits per the financial statements	\$	4,683,731	\$ 4,533,621
Amounts payable to terminating participants		(2,267)	(1,026)
Net assets available for benefits per the Form 5500	\$	4,681,464	\$ 4,532,595

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500:

	Year Ended December 31, 2005 (In Thousands)
Benefits paid to participants per the financial statements	\$ 431,912
Subtract amounts payable to terminating participants at December 31, 2004	(1,026)
Add amounts payable to terminating participants at December 31, 2005	2,267
Benefits paid to participants per the Form 5500	\$ 433,153

7. Income Tax Status

The Plan has received a determination letter from the IRS dated September 12, 2001, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.
