IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy ("Privacy Policy") with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e. fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and it's underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

Eaton Vance Insured Municipal Bond Funds as of September 30, 2007

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

Eaton Vance Insured Municipal Bond Funds (the Funds) are closed-end funds designed to provide current income exempt from regular federal income tax, federal alternative minimum tax and, in state specific funds, state personal income taxes. The Funds invest primarily in high-grade municipal securities that are insured as to the timely payment of principal and interest.

Economic and Market Conditions

Third quarter economic growth rose 3.9%, following the 3.8% growth rate achieved in the second quarter of 2007, according to preliminary Commerce Department data. During the third quarter ended September 30, the housing sector continued to struggle, as market concerns related to subprime mortgages caused a number of mortgage lenders to file for bankruptcy protection and others to limit new mortgage originations. Building permits and housing starts have both fallen significantly from their highs in early 2006, while sales of new and existing homes are down from their 2005 peaks. However, the weaker dollar is having a stimulative effect on economic growth in export-related industries and on U.S.-based multinational companies whose foreign profits are translated into more dollars. Overall, we believe the economy appears to be slowing, but in a somewhat controlled manner.

According to the Federal Reserve s (the Fed) preferred inflation indicator, the Personal Consumption Expenditure (PCE) price deflator, both absolute and core (excludes food and energy) inflation is fairly well contained within the upper end of the Fed s comfort zone. In an unscheduled August 17, 2007 meeting, the Fed lowered its Discount Rate the rate charged to banks borrowing directly from the Fed to 5.75% from 6.25%. The move was aimed at providing liquidity during a period of increased uncertainty and tighter credit conditions that surfaced rapidly in mid-August. On September 18, 2007, the Fed lowered its Federal Funds Rate to 4.75% from 5.25% its first rate cut since the Fed stopped raising rates in June 2006 and lowered the Discount Rate again to 5.25% from 5.75%.

Municipal market supply rose to record levels in the first half of 2007, resulting in underperformance of the municipal sector. On September 30, 2007, long-term AAA-rated insured municipal bonds yielded 93.9% of U.S. Treasury bonds with similar maturities.*

For the year ended September 30, 2007, the Lehman Brothers Municipal Bond Index (the Index), an unmanaged index of municipal bonds, posted a gain of 3.10%. For more information about each Fund s performance and that of funds in the same Lipper Classification, see the Performance Information and Portfolio Composition pages that follow.

Management Discussion

The Funds invest primarily in bonds with maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. The Funds underperformed their benchmark Index during the year ended September 30, 2007. Much of the underperformance can be attributed to the broader-based credit scare that took hold of the fixed-income markets in late August. Yields on some municipal bonds reached 105% of U.S. Treasury yields. We believe that the ratio was not the result of any fundamental problems within the municipal market, but rather reflected the extreme dislocation in the fixed-income marketplace caused by the subprime fears, hedge fund problems, the decentralized municipal marketplace and illiquidity across a range of markets. The Funds exposure to more liquid, higher-credit quality bonds actually hurt performance as hedge funds and other non-traditional municipal market participants sold large positions of their most liquid bonds in order to raise cash.

Historically, there have been only a few instances of municipals trading at the cheap levels seen in August 2007, and it has generally been a short-term phenomenon. During September, municipals outperformed Treasury Bonds, as municipal yields started moving back toward their more historic relationship to Treasuries. Overall, liquidity has returned to the fixed-income marketplace with a more rational view of the market and risk assessment.

* Source: Bloomberg L.P. Yields are a compilation of a representative variety of general obligations and are not necessarily representative of a Fund s yield.

It is not possible to invest directly in an Index or Lipper Classification. The Index s total return does not reflect expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index.

Past performance is no guarantee of future results.

Fund shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund.

Fund Statistics(7)

• Number of Issues:	117
Average Maturity:	29.2 years
Average Effective Maturity:	17.0 years
Average Call Protection:	9.4 years
Average Dollar Price:	\$90.92
• Leverage:*	37.8%

*The leverage amount is Auction Preferred Shares at liquidation value as a percentage of the Fund's net assets applicable to common shares plus Auction Preferred Shares. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return. For performance as of the most recent month-end, please refer to www.eatonvance.com.

- (1) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested. The Fund's performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund's shares, or changes in Fund distributions. Performance results reflect the effect of leverage resulting from the Fund's issuance of Auction Preferred Shares.
- (2) The Fund s market yield is calculated by dividing the last dividend paid per common share of the fiscal year by the share price at the end of the fiscal year and annualizing the result.
- (3) Taxable-equivalent figure assumes a maximum 35.00% federal income tax rate. A lower tax rate would result in a lower tax-equivalent figure.
- (4) It is not possible to invest directly in an Index. The Index s total return does not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index. Index performance is available as of month-end only.
- (5) The Lipper Averages are the average annual total returns at net asset value of the funds that are in the same Lipper Classification as the Fund. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper Insured Municipal Debt Funds (Leveraged) Classification (closed-end) contained 23, 20 and 20 funds for the 1-year, 5-year and Life-of-Fund periods, respectively. Lipper Averages are available as of month-end only.
- (6) Rating Distribution is determined by dividing the total market value of the issues by the total investments of the Fund.
- (7) As of 9/30/07. Portfolio information may not be representative of the Fund s current or future investments and may change due to active management.

AGC - Assured Guaranty Corp.

AMBAC - AMBAC Financial Group, Inc.

FGIC - Financial Guaranty Insurance Company

FSA - Financial Security Assurance, Inc.

MBIA - Municipal Bond Insurance Association

XLCA - XL Capital Assurance, Inc.

At September 30, 2007, the concentration of the Fund's investments in the various states, determined as a percentage of total investments, is as follows:

California 25.7%

Texas 14.3%

Others, representing less than 10% individually 60.0%

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2007, 82.3% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 5.1% to 26.0% of total investments.

- (1) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (2) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (3) When-issued security.

MBIA - Municipal Bond Insurance Association

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2007, 84.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 4.2% to 23.1% of total investments.

(1) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
