CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

Note 1 - Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial reporting and instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Therefore, they do not include all information and footnote disclosure necessary for a complete presentation of Chase Corporation's financial position, results of operations and cash flows, in conformity with generally accepted accounting principles. Chase Corporation (the Company, Chase, we, or us) filed audited consolidated financial statements, which included all information and notes necessary for such complete presentation for the three years ended August 31, 2013 in conjunction with its 2013 Annual Report on Form 10-K.

The results of operations for the interim periods ended February 28, 2014 are not necessarily indicative of the results to be expected for any future period or the entire fiscal year. These interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended August 31, 2013, which are contained in the Company's 2013 Annual Report on Form 10-K.

The accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring items) which are, in the opinion of management, necessary for a fair statement of the Company's financial position as of February 28, 2014, the results of operations, comprehensive income and cash flows for the interim periods ended February 28, 2014 and 2013, and changes in equity for the interim period ended February 28, 2014.

The financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company uses the US dollar as the reporting currency for financial reporting. The financial position and results of operations of the Company's UK-based operations are measured using the UK pound sterling as the functional currency and the financial position and results of operations of the Company's operations based in France are measured using the euro as the functional currency. Foreign currency translation gains and losses are determined using current exchange rates for monetary items and historical exchange rates for other balance sheet items and are recorded as a change in other comprehensive income. Transaction gains and losses generated from the remeasurement of assets and liabilities denominated in currencies other than the functional currency of our foreign operations are included in other (expense) / income on the consolidated statements of operations.

During the third quarter of fiscal 2013, an immaterial error was identified in the presentation of two line items within the operating activities section of the Company's previously reported statement of cash flows for the comparing period ended February 28, 2013. The Company revised the statement of cash flows to correct the presentation of two line items within the operating activities section. This revision to the statement of cash flows results in pension curtailment and settlement loss changing from (\$1,223) to \$1,223 and accrued compensation and other expenses changing from (\$1,260) to (\$3,706) for the six months ended February 28, 2013. There was no impact on the comparing balance sheet or the related statement of operations, statement of comprehensive income, total cash provided by operating activities or overall cash flows.

Edgar Filing: CHASE CORP - Form 10-Q

During the fourth quarter of fiscal 2013, the Company identified an immaterial error in the statement of comprehensive income within the Company's previously reported unaudited financial statements for the first three quarters of fiscal 2013. In those fiscal quarters, the Company properly recorded pension settlement losses that resulted from lump sum distributions to pension plan participants in earnings, but

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

did not properly reclassify the amount out of Equity Accumulated Other Comprehensive Income (Loss). As a result, the Company revised the reclassification adjustment for the change in funded status of pension plans line item from \$49 to \$834 for the three months ended February 28, 2013, and from \$107 to \$1,106 for the six months ended February 28, 2013. There was no impact on the comparing balance sheet or the related statement of operations, and statement of cash flows.

The Company has evaluated events and transactions subsequent to the balance sheet date. Based on this evaluation, the Company is not aware of any events or transactions that occurred subsequent to the balance sheet date but prior to filing that would require recognition or disclosure in its consolidated financial statements.

Note 2 Recent Accounting Policies*Recently Issued Accounting Pronouncements*

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income . This ASU expands the presentation of changes in accumulated other comprehensive income. The new guidance requires an entity to disaggregate the total change of each component of other comprehensive income either on the face of the net income statement or as a separate disclosure in the notes. ASU 2013-02 is effective for fiscal years beginning after December 15, 2012. The Company adopted this ASU in the first quarter of fiscal 2014 (See Note 13 for additional details). The provisions of ASU 2013-02 did not have a material impact on the Company s consolidated financial position, results of operations or cash flows.

Note 3 Inventories

Inventories consist of the following as of February 28, 2014 and August 31, 2013:

	February 28, 2014	August 31, 2013

Note 4 Net Income Per Share

The Company has unvested share-based payment awards with a right to receive nonforfeitable dividends which are considered participating securities under ASC Topic 260, Earnings Per Share. The Company allocates earnings to participating securities and computes earnings per share using the two-class method. The determination of earnings per share under the two-class method is as follows:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2014	2013	2014	2013
Basic Earnings per Share				
Net income attributable to Chase Corporation	\$ 4,520	\$ 2,644	\$ 13,295	\$ 6,184
Less: Allocated to participating securities	77	62	228	140
Net income available to common shareholders	\$ 4,443	\$ 2,582	\$ 13,067	\$ 6,044
Basic weighted average shares outstanding	8,942,045	8,854,801	8,940,075	8,853,038
Net income per share - Basic	\$ 0.50	\$ 0.29	\$ 1.46	\$ 0.68
Diluted Earnings per Share				
Net income attributable to Chase Corporation	\$ 4,520	\$ 2,644	\$ 13,295	\$ 6,184
Less: Allocated to participating securities	75	61	223	138
Net income available to common shareholders	\$ 4,445	\$ 2,583	\$ 13,072	\$ 6,046
Basic weighted average shares outstanding	8,942,045	8,854,801	8,940,075	8,853,038
Additional dilutive common stock equivalents	224,325	98,137	218,452	88,393
Diluted weighted average shares outstanding	9,166,370	8,952,938	9,158,527	8,941,431
Net income per share - Diluted	\$ 0.48	\$ 0.29	\$ 1.43	\$ 0.68

For the three and six months ended February 28, 2014, stock options to purchase 25,969 and 18,222 shares of common stock were outstanding, respectively, but were not included in the calculation of diluted income per share because their inclusion would be anti-dilutive. There were no anti-dilutive shares for the three and six months ended February 28, 2013. Included in the calculation of dilutive common stock equivalents are the unvested portion of restricted stock and stock options.

Note 5 Stock-Based Compensation

Edgar Filing: CHASE CORP - Form 10-Q

In October 2012, the Board of Directors of the Company approved the fiscal year 2013 Long-Term Incentive Plan (2013 LTIP) for the executive officers. The 2013 LTIP is an equity-based plan with a grant date of October 22, 2012 and contains a performance and service-based restricted stock grant of 11,861 shares in the aggregate, subject to adjustment, with a vesting date of August 31, 2015. Based on the fiscal year 2013 financial results, 11,861 additional shares of restricted stock (total of 23,722 shares) were earned and granted subsequent to the end of fiscal year 2013 in accordance with the performance measurement criteria. No further performance-based measurements apply to this award. Compensation expense is being recognized on a ratable basis over the vesting period.

In September 2013, the Board of Directors of the Company approved the fiscal year 2014 Long-Term Incentive Plan (2014 LTIP) for the executive officers and other members of management. The 2014 LTIP is an equity-based plan with a grant date of September 1, 2013 and contains the following equity components:

Restricted Shares (a) performance and service-based restricted stock grant of 7,529 shares in the aggregate, subject to adjustment, with a vesting date of August 31, 2016. Compensation expense is recognized on a ratable basis over the vesting period based on quarterly probability assessments; (b) time-based restricted stock grant of 8,323 and 1,040 shares in the aggregate, with vesting dates of August 31, 2016 and August 31, 2014, respectively. Compensation expense is recognized on a ratable basis over the vesting period.

Table of Contents

CHASE CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

In thousands, except share and per share amounts

Stock options options to purchase 25,969 shares of common stock in the aggregate with an exercise price of \$29.72 per share. The options will vest in three equal annual allotments beginning on August 31, 2014 and ending on August 31, 2016. The options will expire on August 31, 2023. Compensation expense is recognized over the vesting period of the award on an annual basis consistent with the vesting terms.

As part of their annual retainer, non-employee members of the Board of Directors receive a combined total of \$144 of Chase Corporation common stock, in the form of restricted stock valued in conjunction with the start of the new year of Board service which generally coincides with the Company's annual shareholder meeting. The stock award vests one year from the date of grant. In February 2014, non-employee members of the Board received a total grant of 4,878 shares of restricted stock for service for the period from January 31, 2014 through January 31, 2015. The shares of restricted stock will vest at the conclusion of this service period. Compensation is being recognized on a ratable basis over the twelve month vesting period.

Note 6 Segment Data and Foreign Operations

The Company is organized into two operating segments, an Industrial Materials segment and a Construction Materials segment. The segments are distinguished by the nature of the products and how they are delivered to their respective markets.

The Industrial Materials segment reflects specified products that are used in, or integrated into, another company's product with demand dependent upon general economic conditions. Industrial Materials products include insulating and conducting materials for wire and cable manufacturers, moisture protective coatings for electronics and printing services, laminated durable papers, laminates for the packaging and industrial laminate markets, pulling and detection tapes used in the installation, measurement and location of fiber optic cables, water and natural gas lines, cover tapes essential to delivering semiconductor components via tape and reel packaging, and wind energy composite materials and elements. Additionally, the Industrial Materials segment includes a joint venture which produces glass-based strength elements designed to allow fiber optic cables to withstand mechanical and environmental strain and stress.

The Construction Materials segment comprises project-oriented product offerings that are primarily sold and used as Chase-branded products. Construction Materials products include protective coatings for pipeline applications, coating and lining systems for use in liquid storage and containment applications, high performance polymeric asphalt additives, and expansion and control joint systems for use in the transportation and architectural markets.

Corporate and Common Costs	(1,675)	(1,991)	(3,309)	(3,654)
Total	\$ 6,900	\$ 3,888	\$ 20,464	\$ 9,185

The Company's products are sold world-wide. For the quarters ended February 28, 2014 and 2013, sales from its operations located in the United Kingdom accounted for 12% and 7% of consolidated revenues, respectively. In the fiscal year to date period, sales from its operations located in the United Kingdom accounted for 10% of total Company revenues compared to 8% in the same period in fiscal 2013. No other foreign geographic area accounted for more than 10% of consolidated revenues for the three or six month periods ended February 28, 2014 or 2013.

	February 28, 2014	August 31, 2013
Total assets		
Industrial Materials	\$ 132,103	\$ 133,110
Construction Materials	48,487	48,573
Total for reportable segments	180,590	181,683
Corporate and Common Assets	50,536	42,677
Total	\$ 231,126	\$ 224,360

As of February 28, 2014 and August 31, 2013, the Company had long-lived assets (that will provide a future economic benefit beyond the current year or operating period, including buildings, equipment and leasehold improvements) of \$4,226 and \$4,063, respectively, located in the United Kingdom. These balances exclude goodwill and intangibles of \$10,536 and \$10,333, as of February 28, 2014 and August 31, 2013, respectively, associated with its operations in the United Kingdom.

Note 7 Goodwill and Other Intangibles

The changes in the carrying value of goodwill are as follows:

	Construction Materials		Industrial Materials		Consolidated
Balance at August 31, 2013	\$ 10,735	\$	27,080	\$	37,815
Acquisition of Paper Tyger - additional earnout			156		156
Foreign currency translation adjustment	355		18		373
Balance at February 28, 2014	\$ 11,090	\$	27,254	\$	38,344

The Company's goodwill is allocated to each reporting unit based on the nature of the products manufactured by the respective business combinations that originally created the goodwill. The Company identified several reporting units within each of its two operating segments that are used to

Table of Contents**CHASE CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)***In thousands, except share and per share amounts*

evaluate the possible impairment of goodwill. Goodwill impairment exists when the carrying amount of goodwill exceeds its fair value. Assessments of possible impairment of goodwill are made when events or changes in circumstances indicate that the carrying value of the asset may not be recoverable through future operations. Additionally, testing for possible impairment of recorded goodwill balances is required annually. The amount and timing of any impairment charges based on these assessments require the estimation of future cash flows and the fair market value of the related assets based on management's best estimates of certain key factors, including future selling prices and volumes, operating, raw material and energy costs, and various other projected operating and economic factors. When testing, fair values of the reporting units and the related implied fair values of their respective goodwill are established using public company analysis and discounted cash flows. The Company evaluates the possible impairment of goodwill annually each fourth quarter and whenever events or circumstances indicate the carrying value of goodwill may not be recoverable.

Intangible assets subject to amortization consist of the following as of February 28, 2014 and August 31, 2013:

	Weighted-Average Amortization Period	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
February 28, 2014				
Patents and agreements	11.8 years	\$ 3,298	\$ 2,223	\$ 1,075
Formulas	9.1 years	5,857	2,579	3,278
Trade names	5.7 years	6,413	2,633	3,780
Customer lists and relationships	10.2 years	34,874	13,105	21,769
		\$ 50,442	\$ 20,540	\$ 29,902
August 31, 2013				
Patents and agreements	11.9 years	\$ 3,198	\$ 2,200	\$ 998
Formulas	9.1 years	5,772	2,238	3,534

Note 8 Sale of Insulfab Product Line

On October 7, 2013, the Company sold substantially all of its property and assets, including intellectual property, comprising the Insulfab® product line, to an unrelated third party (Buyer). The Insulfab product line is primarily focused on manufacturing high quality, engineered barrier laminates used in aerospace applications. The sale proceeds of \$7,394 were subject to certain post-closing adjustments based on the change in the final net book value compared to the bid date net book value. In the quarter ending November 30, 2013, management determined these post-closing adjustments resulted in an increase in the sale proceeds of \$2,516 based on the increase of inventory sold to the Buyer at closing. This adjustment was settled and paid by the Buyer to the Company in the quarter ending February 28, 2014, net of amount held in escrow. The net proceeds from the sale are available for debt reduction, investment in the Company s core businesses and future acquisitions.

This transaction resulted in a pre-tax book gain of \$5,706 (\$3,709 after-tax gain) which was recorded in the quarter ending November 30, 2013. The portion of the sale price held in escrow of \$739 is recorded as a current asset (Due from sale of product line) as of February 28, 2014, and is available to resolve any submitted claims or adjustments up to 18 months from the closing date of the Insulfab sale.

The following table summarizes information about the Insulfab product line as of October 7, 2013 and August 31, 2013:

	October 7, 2013		August 31, 2013	
Inventory	\$	3,153	\$	885
Property & equipment		1,062		1,060
Accrued expenses		(3)		(40)
	\$	4,212	\$	1,905

As a result of the efforts to market and sell this product line beginning in the fourth quarter of fiscal 2013, the Company had classified the Insulfab assets (including inventory and equipment) as assets held for sale as of August 31, 2013. This product line and related assets were part of the Company s Industrial Materials segment.

Note 9 Joint Venture

Edgar Filing: CHASE CORP - Form 10-Q

The NEPTCO JV LLC (JV) was originally formed in 2003 by NEPTCO and a joint venture partner, an otherwise unrelated party (collectively, the members), whereby each member s fiber optic strength elements businesses were combined. This venture, which is 50% owned by each member, is managed and operated on a day-to-day basis by NEPTCO. The JV operates out of the Company s Granite Falls, NC facility.

The Company accounts for the joint venture partner s non-controlling interest in the JV under ASC Topic 810 Consolidations (ASC 810). Based on the criteria in ASC 810, the Company determined that the JV qualifies as a variable interest entity (VIE). Because of the Company s controlling financial interest, the JV s assets and liabilities and results of operations have been consolidated within the Company s consolidated financial statements since June 27, 2012, the date the Company acquired NEPTCO. An offsetting amount equal to 50% of net assets and net income (loss) of the JV has been recorded within the Company s consolidated financial statements to the non-controlling interest, representing the joint venture partner s 50% ownership interest and pro rata share in the JV.

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

At February 28, 2014 and August 31, 2013, the following amounts, related to the JV, were consolidated in the Company's balance sheet:

	February 28, 2014	August 31, 2013
<u>Assets</u>		
Cash	\$ 186	\$ 394
Accounts receivable, net	1,472	1,106
Inventories	1,515	1,510
Prepaid expenses and other assets	286	283
Property, plant and equipment, net	391	448
Intangible assets, net	694	706
Total assets	\$ 4,544	\$ 4,447
<u>Liabilities and net assets</u>		
Accounts payable and accrued expenses	\$ 697	\$ 679
Due to Members	1,743	1,677
Total liabilities	\$ 2,440	\$ 2,356
Net assets	\$ 2,104	\$ 2,091
Non-controlling interest	\$ 1,052	\$ 1,046

Effective on the date of the JV's inception, and for four years following the date on which the members no longer own any membership interest in the JV, non-compete agreements exist between the members. Each member retains the right to tender an offer to buy the other member's share. Once an offer is tendered, the tendered member has the option to either sell, or match the initial offer to purchase the tendering member's share.

Under the JV agreement, the JV is barred from issuing third party debt, other than customary accounts payable resulting from its normal trade operations. The liabilities of the JV are not guaranteed by any portion of NEPTCO or the Company.

The JV has agreed to purchase a minimum of 80% of its total glass fiber requirements from the other joint venture partner. Additionally, the JV has agreed to purchase private-label products exclusively from an affiliate of the other joint venture partner; however, the JV is not subject to a minimum purchase requirement on private-label products. Purchases from the joint venture partner totaled \$300 and \$429 for the three months ended February 28, 2014 and 2013, respectively. Purchases from the joint venture partner totaled \$767 and \$892 for the six months ended February 28, 2014 and 2013, respectively. The JV had amounts due to the other joint venture partner of \$300 and \$378 at February 28, 2014 and August 31, 2013, respectively.

Note 10 Commitments and Contingencies

The Company is involved from time to time in litigation incidental to the conduct of its business. Although the Company does not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on its financial condition, results of operations or cash flows, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered into that could adversely affect the Company's operating results or cash flows in a particular period. The Company routinely assesses all of its litigation and threatened litigation as to the probability of ultimately incurring a liability, and records its best estimate of the ultimate loss in situations where the Company assesses the likelihood of loss as probable.

Note 11 - Pensions and Other Post-Retirement Benefits

The components of net periodic benefit cost for the three and six months ended February 28, 2014 and 2013 are as follows:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2014	2013	2014	2013
Service cost	\$ 81	\$ 85	\$ 161	\$ 188
Interest cost	161	113	321	227
Expected return on plan assets	(178)	(151)	(355)	(300)
Amortization of prior service cost	1	5	2	11
Amortization of unrecognized loss	73	70	147	154
Curtailment loss				25
Settlement loss		871		1,198
Net periodic benefit cost	\$ 138	\$ 993	\$ 276	\$ 1,503

When funding is required, the Company's policy is to contribute amounts that are deductible for federal income tax purposes. As of February 28, 2014, the Company has made contributions of \$200 in the current fiscal year to fund its obligations under its pension plan, and plans to make the necessary contributions over the remainder of fiscal 2014 to ensure the qualified plan continues to be adequately funded given the current market conditions.

Note 12 Fair Value Measurements

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company uses a three-tier fair value hierarchy, which classifies the inputs used in measuring fair values. These tiers include: Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The Company utilizes the best available information in measuring fair value. Financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The financial assets classified as Level 1 as of February 28, 2014 and August 31, 2013 represent investments that are restricted for use in a nonqualified retirement savings plan for certain key employees and directors.

Edgar Filing: CHASE CORP - Form 10-Q

The following table sets forth the Company's financial assets that were accounted for at fair value on a recurring basis as of February 28, 2014 and August 31, 2013:

	Fair value measurement date	Total	Fair value measurement category		
			Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:					
Restricted investments	February 28, 2014	\$ 1,279	\$ 1,279	\$	\$
Restricted investments	August 31, 2013	\$ 1,094	\$ 1,094	\$	\$

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

The following table presents the fair value of the Company's long-term debt as of February 28, 2014 and August 31, 2013, which is recorded at its carrying value:

	Fair value measurement date	Total	Fair value measurement category		
			Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Liabilities:					
Long-term debt	February 28, 2014	\$ 61,600	\$	\$ 61,600	\$
Long-term debt	August 31, 2013	\$ 64,400	\$	\$ 64,400	\$

The carrying value of the long-term debt approximates its fair value, as the monthly interest rate is set based on the movement of the underlying market rates.

Note 13 Accumulated Other Comprehensive Income

The changes in accumulated other comprehensive income (loss), net of tax, were as follows:

	Restricted Investments	Change in Funded Status of Pension Plan	Foreign Currency Translation Adjustment	Total
Balance at August 31, 2013	\$ 144	\$ (3,578)	\$ (1,729)	\$ (5,163)
Other comprehensive gains (losses) before reclassifications (1)	97		2,183	2,280
Reclassifications to net income of previously deferred (gains) losses (2)	(24)	96		72
Other comprehensive income (loss)	73	96	2,183	2,352
Balance at February 28, 2014	\$ 217	\$ (3,482)	\$ 454	\$ (2,811)

(1) Net of tax benefit of \$53, \$0, \$0, respectively.

Edgar Filing: CHASE CORP - Form 10-Q

(2) Net of tax expense of \$13, tax benefit of \$52, \$0, respectively.

The following table summarizes the reclassifications from accumulated other comprehensive income (loss) to the unaudited condensed consolidated statements of income:

	Amount of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income (Loss) into Income		Location of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income (Loss) into Income
	Three Months Ended February 28, 2014	Six Months Ended February 28, 2014	
Gains on Restricted Investments:			
Realized gain on sale of restricted investments	\$ (32)	\$ (37)	Selling, general and administrative expenses
Tax expense (benefit)	11	13	
Gain net of tax	\$ (21)	\$ (24)	
Loss on Funded Pension Plan adjustments:			
Amortization of prior pension service costs and unrecognized losses	\$ 20	\$ 40	Cost of products and services sold
Amortization of prior pension service costs and unrecognized losses	\$ 54	\$ 108	Selling, general and administrative expenses
Tax expense (benefit)	(26)	(52)	
Loss net of tax	\$ 48	\$ 96	
Total net loss reclassified for the period	\$ 27	\$ 72	

Table of Contents

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion provides an analysis of the Company's financial condition and results of operations and should be read in conjunction with the Consolidated Financial Statements and notes thereto included in Item 1 of Part I of this Quarterly Report on Form 10-Q and with the Company's Annual Report on Form 10-K filed for the fiscal year ended August 31, 2013.

Overview

Revenues and income in both the quarter and year to date periods exceeded prior year results primarily due to increased demand and favorable sales mix. We also realized benefits that resulted from our ongoing efforts with production facility consolidation, efficiency improvements and streamlining overhead costs. The sale of the Company's Insulfab product line in October 2013 significantly contributed to earnings and cash flows in the first half of fiscal 2014. Revenues from our Industrial Materials segment increased over the prior year periods primarily due to increased sales from our electronic coatings, electronic material cover tape, and wire and cable products. These increases were partially offset by a reduction in demand for fiber optic cable component products from our joint venture business.

Revenues for our Construction Materials segment were ahead of the prior year for the second quarter, but fell short of fiscal 2013 through the first six months, primarily due to decreased demand for our coating and lining system products. This segment saw increased demand for pipeline coatings products produced at our Rye, UK facility as several projects in the Middle East began in the quarter ended February 28, 2014. Although our Construction Materials segment typically sees decreased demand in the second quarter due to the seasonality and impact of the winter months on this business, the extremely harsh winter across the U.S. had an even greater impact on sales of our pipeline and construction-related products this year.

During the remainder of the fiscal year, we will continue with our on-going global ERP system implementation which is expected to be completed by December 2014, as well as key strategies that focus on our marketing and product development efforts and continued emphasis on identifying potential acquisition targets. Our balance sheet remains strong, with cash on hand of \$36.6 million and a current ratio of 3.6. Our \$15.0 million line of credit is fully available, while the balance of our term debt is \$61.6 million.

We have two reportable segments as summarized below:

Segment	Product Lines	Manufacturing Focus and Products
Industrial Materials	<ul style="list-style-type: none"> • Wire and Cable • Electronic Coatings • Specialty Products • Pulling and Detection 	Protective coatings and tape products including insulating and conducting materials for wire and cable manufacturers, moisture protective coatings for electronics and printing services, laminated durable papers, packaging and industrial laminate markets, pulling and detection tapes used in the installation, measurement and location of fiber optic cables, water and natural gas lines, cover tapes essential to delivering semiconductor components via tape and reel packaging, and wind energy composite materials and elements; a joint venture also produces glass-based strength

Edgar Filing: CHASE CORP - Form 10-Q

	<ul style="list-style-type: none">• Electronic Materials	elements designed to allow fiber optic cables to withstand mechanical and environmental strain and stress.
	<ul style="list-style-type: none">• Structural Composites	
	<ul style="list-style-type: none">• Fiber Optic Cable Components (JV)	
Construction Materials	<ul style="list-style-type: none">• Pipeline	Protective coatings and tape products including coating and lining systems for use in liquid storage and containment applications, protective coatings for pipeline and general construction applications, high-performance polymeric asphalt additives, and expansion and control joint systems for use in the transportation and architectural markets.
	<ul style="list-style-type: none">• Bridge & Highway	
	<ul style="list-style-type: none">• Coating & Lining Systems

Total for reportable segments		8,575	17%			5,879	12%			23,773	23%			12,839	13%	
Corporate and Common Costs		(1,675)				(1,991)(b)				(3,309)				(3,654)(b)		
Total	\$	6,900	13%		\$	3,888	8%		\$	20,464	19%		\$	9,185	9%	

(a) Includes \$254 of pension related settlement costs due to the timing of lump sum distributions

(b) Includes \$595 of pension related settlement costs due to the timing of lump sum distributions

(c) Includes \$5,706 gain on sale of Insulfab product line

(d) Includes \$564 of costs of products sold related to inventory step up in fair value as part of the NEPTCO acquisition, \$521 of pension related settlement costs due to the timing of lump sum distributions, and \$150 of Randolph, MA plant closing expenses

Total Revenues

Total revenues increased \$2,819,000 or 6% to \$51,191,000 for the quarter ended February 28, 2014 compared to \$48,372,000 in the same quarter of the prior year. Total revenues increased \$3,602,000 or 4% to \$105,374,000 in the fiscal year to date period compared to \$101,772,000 in the same period in fiscal 2013.

Edgar Filing: CHASE CORP - Form 10-Q

Revenues in our Industrial Materials segment increased \$2,020,000 or 5% and \$3,840,000 or 5% in the current quarter and year to date periods, respectively. The increase in this segment compared to the prior year periods is primarily due to the following for the current quarter and year to date periods, respectively: (a) increased sales of \$1,138,000 and \$1,954,000 from our wire and cable products that are used in energy-related applications; (b) increased sales of \$957,000 and \$1,752,000 from our electronic coatings products resulting from higher sales in Europe and Asia; and (c) increased sales of \$286,000 and \$1,318,000 of electronic cover tapes. These increases were partially offset by decreased sales of our joint venture fiber optic cable products in the current quarter and year to date periods of \$548,000 and \$1,116,000, respectively.

Revenues from our Construction Materials segment increased \$799,000 or 8% in the current quarter compared to the prior year quarter. The increase from our Construction Materials segment compared to the prior year period is primarily due to increased sales of \$2,365,000 in pipeline products produced at our Rye, UK facility as a result of higher project related demands in the Middle East. This increase was partially offset by reduced sales of \$1,110,000 from our coating and lining systems (CIM Industries), as well as lower sales of \$815,000 from our private label products. For the first six months of fiscal 2014, revenues from our Construction Materials segment decreased \$238,000 or 1% compared to the prior year period primarily due to decreased sales of \$1,980,000 from our coating and lining systems which saw a favorable impact on projects in fiscal 2013 and \$665,000 from our private label products which experienced slower demand this winter. These were partially offset by increased sales \$2,150,000 from pipeline products produced at our Rye, UK facility.

Table of Contents***Cost of Products and Services Sold***

Cost of products and services sold increased \$483,000 or 1% to \$33,951,000 for the quarter ended February 28, 2014 compared to \$33,468,000 in the prior year quarter. Cost of products and services sold decreased \$1,310,000 or 2% to \$69,429,000 in the fiscal year to date period compared to \$70,739,000 in the same period in fiscal 2013.

The following table summarizes our cost of products and services sold as a percentage of revenues for each of our reporting segments:

Cost of products and services sold	Three Months Ended February 28,		Six Months Ended February 28,	
	2014	2013	2014	2013
Industrial Materials	64.7%	68.9%	64.8%	69.2%
Construction Materials	72.2%	70.3%	69.7%	70.6%
Total	66.3%	69.2%	65.9%	69.5%

Cost of products and services sold in our Industrial Materials segment was \$25,817,000 and \$52,850,000 in the current quarter and year to date periods compared to \$26,108,000 and \$53,785,000 in the comparable periods in the prior year. As a percentage of revenues, cost of products and services sold in the Industrial Materials segment decreased primarily due to sales mix as well as cost savings realized from the Company's recent plant consolidation efforts. In the past eighteen months, this segment has benefitted from exiting the Randolph, MA (operations relocated in December 2012) and Taylorsville, NC (Insulfab product line sold in October 2013) facilities and transitioned the remaining manufacturing activities from those two facilities to other domestic Chase facilities. Additionally, in the first three months of fiscal 2013, this segment was impacted by incremental cost of products sold of \$564,000 due to the sale of inventory which had a stepped up valuation as part of the NEPTCO acquisition.

Cost of products and services sold in our Construction Materials segment was \$8,134,000 for the quarter ended February 28, 2014 compared to \$7,360,000 in the prior year quarter. As a percentage of revenues, cost of products and services sold in the Construction Materials segment increased in the current quarter primarily due to unfavorable product mix as we had increased sales of lower margin products coupled with decreased sales of higher margin products. Cost of products and services sold was \$16,579,000 in the fiscal year to date period compared to \$16,594,000 in the prior year period. As a percentage of revenues, cost of products and services sold in the Construction Materials segment decreased in the year to date period primarily due to favorable product mix as sales from our lower margin products in this segment had less of an impact on the year to date period compared to the quarter. We continue to closely monitor raw material pricing across all product lines in this segment.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$987,000 or 9% to \$9,930,000 for the quarter ended February 28, 2014 compared to \$10,917,000 in the prior year quarter. As a percentage of revenues, selling, general and administrative expenses decreased to 19% in the current fiscal quarter compared to 23% in the prior year period. Selling, general and administrative expenses decreased \$1,087,000 or 5% to \$20,369,000 in the fiscal year to date period compared to \$21,456,000 in the same period in fiscal 2013. For the current fiscal year to date period, selling, general and administrative expenses as a percentage of revenues decreased to 19% compared to 21% in the same period in fiscal 2013. The percentage decrease for both the current fiscal quarter and year to date period compared to the prior year periods is primarily

Edgar Filing: CHASE CORP - Form 10-Q

attributable to our continued emphasis on controlling costs, as well as the increased benefit due to the capitalization of internal costs related to our on-going global ERP implementation project. Additionally, the prior year quarter and year to date periods included \$595,000 and \$771,000, respectively, of pension related settlement costs due to the timing of lump sum distributions.

Table of Contents

Interest Expense

Interest expense decreased \$29,000 or 9% to \$285,000 for the quarter ended February 28, 2014 compared to \$314,000 in the prior year quarter. Interest expense decreased \$88,000 or 13% to \$588,000 for the fiscal year to date period compared to \$676,000 in the same period in fiscal 2013. The decrease in interest expense from the prior year period is a direct result of a reduction in our overall debt balance through principal payments made from operating cash flow over the past year.

Gain on sale of product line

On October 7, 2013, we sold substantially all of our property and assets, including intellectual property, comprising the Insulfab product line, to an unrelated buyer. This transaction resulted in a pre-tax book gain of \$5,706,000, which was recorded in our fiscal quarter ended November 30, 2013.

Other Income (Expense)

Other expense was \$125,000 in the quarter ended February 28, 2014 compared to other income of \$215,000 in the same period in the prior year, a decrease of \$340,000. Other expense was \$230,000 for the fiscal year to date period compared to other income of \$284,000 in the same period in the prior year, a decrease of \$514,000. Other income (expense) primarily includes interest income and foreign exchange gains (losses) caused by changes in exchange rates on transactions or balances denominated in currencies other than the functional currency of our subsidiaries.

Non-controlling Interest

The income (loss) from non-controlling interest relates to a joint venture in which we have, through our NEPTCO subsidiary, a 50% ownership interest. The joint venture between NEPTCO and its joint venture partner (an otherwise unrelated party) is managed and operated on a day-to-day basis by NEPTCO. The purpose of this joint venture was to combine the elements of each member's fiber optic strength elements businesses.

Net Income

Net income attributable to Chase Corporation increased \$1,876,000 or 71% to \$4,520,000 in the quarter ended February 28, 2014 compared to \$2,644,000 in the prior year quarter. The increase in net income in the current quarter is primarily due to favorable product sales mix, continued emphasis on controlling costs, and incremental benefit of \$206,000 from capitalized internal labor used in our on-going global ERP implementation project. Additionally, the prior year period included incremental expenses related to the acceleration of defined benefit plan settlement costs of \$871,000.

Net income attributable to Chase Corporation increased \$7,111,000 or 115% to \$13,295,000 for the fiscal year to date period compared to \$6,184,000 in the same period in fiscal 2013. The increase in net income in the year to date period is primarily due to the previously mentioned \$5,706,000 gain that resulted from the sale of the Insulfab product line in October 2013, numerous cost containment initiatives, and incremental benefit of \$358,000 from capitalized internal labor used in our on-going global ERP implementation project. Additionally, the prior year period included incremental expenses of \$564,000 in inventory fair value step up related to the NEPTCO acquisition, and the acceleration of defined benefit plan settlement costs of \$1,223,000 resulting from the timing of lump sum distributions to participants.

Table of Contents**Other Important Performance Measures**

We believe that EBITDA and Adjusted EBITDA are useful performance measures. They are used by our executive management team and board of directors to measure operating performance, to allocate resources, to evaluate the effectiveness of our business strategies and to communicate with our board of directors and investors concerning our financial performance. EBITDA and Adjusted EBITDA are non-GAAP financial measures.

We define EBITDA as follows: net income attributable to Chase Corporation before interest expense from borrowings, income tax expense, depreciation expense from fixed assets, and amortization expense from intangible assets. We define Adjusted EBITDA as EBITDA excluding costs and gains/losses related to our acquisitions and divestitures, costs of products sold related to inventory step-up to fair value, and settlement (gains) or losses resulting from lump sum distributions to participants from our defined benefit plan.

The use of EBITDA and Adjusted EBITDA has limitations and these performance measures should not be considered in isolation from, or as an alternative to, U.S. GAAP measures such as net income. Our measurement of Adjusted EBITDA may not be comparable to similarly titled measures used by other companies.

The following unaudited table provides a reconciliation of net income attributable to Chase Corporation, the most directly comparable financial measure presented in accordance with U.S. GAAP, to EBITDA and Adjusted EBITDA for the periods presented:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2014	2013	2014	2013
Net income attributable to Chase Corporation	\$ 4,520,000	\$ 2,644,000	\$ 13,295,000	\$ 6,184,000
Interest expense	285,000	314,000	588,000	676,000
Income taxes	2,415,000	1,476,000	7,162,000	3,330,000
Depreciation expense	1,426,000	1,434,000	2,852,000	2,942,000
Amortization expense	1,192,000	1,193,000	2,386,000	2,410,000
EBITDA	\$ 9,838,000	\$ 7,061,000	\$ 26,283,000	\$ 15,542,000
Gain on sale of Insulfab (a)			(5,706,000)	
Cost of sale of inventory step-up (b)				564,000
Pension curtailment and settlement costs (c)		871,000		1,223,000
Adjusted EBITDA	\$ 9,838,000	\$ 7,932,000	\$ 20,577,000	\$ 17,329,000

(a) Represents gain on sale of Insulfab product line that was completed in October 2013

(b) Represents expense related to the step-up in fair value of inventory through purchase accounting from the June 2012 acquisition of NEPTCO

(c) Represents pension related settlement costs due to the timing of lump sum distributions

Liquidity and Sources of Capital

Our overall cash and cash equivalents balance increased \$6,642,000 to \$36,639,000 at February 28, 2014, from \$29,997,000 at August 31, 2013. The increased cash balance is primarily attributable to the proceeds from the sale of the Insulfab product line in October 2013 as well as from cash from operations, partially offset by payments on: annual dividend, outstanding debt, income taxes, annual incentive compensation and equipment purchases. Of the above noted amounts, \$12,623,000 and \$10,013,000 were held outside the U.S. by our foreign subsidiaries as of February, 28, 2014 and August 31, 2013, respectively. Given our cash position in the U.S. and the potential for increased investment and acquisitions in foreign jurisdictions, we do not have a history of repatriating a significant portion of our foreign cash. However, we do not currently take the position that undistributed foreign subsidiaries earnings are considered to be permanently reinvested. Accordingly, we recognize a deferred tax liability

Table of Contents

for the estimated future tax effects attributable to temporary differences due to these unremitted earnings. In the event that circumstances should change in the future and we decide to repatriate these foreign amounts to fund U.S. operations, the Company would pay the applicable U.S. taxes on these repatriated foreign amounts to satisfy all previously recorded tax liabilities.

Cash flow provided by operations was \$6,029,000 in the first six months of fiscal year 2014 compared to \$5,361,000 in the prior year period. Cash provided by operations during the first half of fiscal 2014 was primarily due to operating income and increased accounts payable balances offset by increased inventory and other current assets balances, as well as decreased accrued expenses due to the timing of tax payments and payment of our annual incentive compensation.

The ratio of current assets to current liabilities was 3.6 as of February 28, 2014, compared to 3.1 as of August 31, 2013. The increase in our current ratio at February 28, 2014 was primarily attributable to an increase in cash due to the proceeds from the sale of the Insulfab product line in October 2013, as well as decreases in accrued income taxes due to the timing of tax payments and accrued payroll and other compensation due to the payment of our annual incentive program. This was partially offset by an increase to accounts payable.

Cash flow provided by investing activities of \$6,646,000 was primarily due to the proceeds from the sale of the Insulfab product line in October 2013, which was partially offset by cash paid for purchases of machinery and equipment at our manufacturing locations during the first half of fiscal 2014.

Cash flow used in financing activities of \$6,827,000 was primarily due to our annual dividend payment and payments made on the bank loans used to finance our acquisition of NEPTCO, described in more detail below.

On October 23, 2013, we announced a cash dividend of \$0.45 per share (totaling \$4,093,000). The dividend was paid on December 4, 2013 to shareholders of record on November 5, 2013.

In June 2012, as part of our acquisition of NEPTCO, we borrowed \$70,000,000 under a five year term debt financing arrangement led and arranged by Bank of America, with participation from RBS Citizens (the Credit Facility). The applicable interest rate is based on the effective LIBOR plus a range of 1.75% to 2.25%, depending on our consolidated leverage ratio. At February 28, 2014, the applicable interest rate was 1.90% per annum and the outstanding principal amount was \$61,600,000. We are required to repay the principal amount of the term loan in quarterly installments of \$1,400,000 beginning in September 2012 through June 2014, increasing to \$1,750,000 per quarter thereafter through June 2015, and to \$2,100,000 per quarter thereafter through March 2017. The Credit Facility matures in June 2017 and prepayment of the Credit Facility is allowed at any time.

We have a revolving line of credit with Bank of America (the Revolver) totaling \$15,000,000, which bears interest at LIBOR plus a range of 1.75% to 2.25%, depending on our consolidated leverage ratio, or, at our option, at the bank's base lending rate. As of February 28, 2014 and March 31, 2014, the entire amount of \$15,000,000 was available for use. The Revolver is scheduled to mature in June 2017. This Revolver allows for increased flexibility for working capital requirements going forward, and we plan to use this availability to help finance our cash needs, including potential acquisitions, in fiscal 2014 and future periods.

Edgar Filing: CHASE CORP - Form 10-Q

The Credit Facility with Bank of America contains customary affirmative and negative covenants that, among other things, restrict our ability to incur additional indebtedness. It also requires us to maintain a ratio of consolidated indebtedness to consolidated EBITDA (each as defined in the facility) of no more than 3.00 to 1.00, and to maintain a consolidated fixed charge coverage ratio (as calculated in the facility) of at least 1.25 to 1.00. We were in compliance with our debt covenants as of February 28, 2014.

Table of Contents

We currently have several on-going capital projects that are important to our long term strategic goals. Machinery and equipment will also be added as needed to increase capacity or enhance operating efficiencies in our manufacturing plants.

We may also consider the acquisition of companies or other assets in fiscal 2014 or in future periods which are complementary to our business. We believe that our existing resources, including cash on hand and our Revolver, together with cash generated from operations and additional bank borrowings, will be sufficient to fund our cash flow requirements through at least the next twelve months. However, there can be no assurances that additional financing will be available on favorable terms, if at all.

To the extent that interest rates increase in future periods, we will assess the impact of these higher interest rates on the financial and cash flow projections of our potential acquisitions.

We have no significant off balance sheet arrangements.

Contractual Obligations

Please refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations section in our Annual Report on Form 10-K for the fiscal year ended August 31, 2013 for a complete discussion of our contractual obligations.

Recent Accounting Standards

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income . This ASU expands the presentation of changes in accumulated other comprehensive income. The new guidance requires an entity to disaggregate the total change of each component of other comprehensive income either on the face of the net income statement or as a separate disclosure in the notes. ASU 2013-02 is effective for fiscal years beginning after December 15, 2012. We adopted this ASU in the first quarter of fiscal 2014. The provisions of ASU 2013-02 did not have a material impact on our consolidated financial position, results of operations or cash flows.

Critical Accounting Policies

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States. To apply these principles, we must make estimates and judgments that affect our reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. In many instances, we reasonably could have used different accounting estimates and, in other instances, changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ significantly from our estimates. To the extent that there are material differences between these estimates and actual results, our financial

Edgar Filing: CHASE CORP - Form 10-Q

condition or results of operations will be affected. We base our estimates and judgments on historical experience and other assumptions that we believe to be reasonable at the time and under the circumstances, and we evaluate these estimates and judgments on an ongoing basis. We refer to accounting estimates and judgments of this type as critical accounting policies, judgments, and estimates. Management believes there have been no material changes during the six months ended February 28, 2014 to the critical accounting policies reported in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended August 31, 2013.

Table of Contents**Forward Looking Information**

The part of this Quarterly Report on Form 10-Q captioned "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains certain forward-looking statements, which involve risks and uncertainties. Forward-looking statements include, without limitation, statements as to our future operating results, plans for manufacturing facilities, future economic conditions and expectations or plans relating to the implementation or realization of our strategic goals and future growth. These statements are based on current expectations, estimates and projections about the industries in which we operate, and the beliefs and assumptions made by management. Readers should refer to the discussions under "Forward Looking Information" and "Risk Factors" contained in our Annual Report on Form 10-K for the fiscal year ended August 31, 2013 concerning certain factors that could cause our actual results to differ materially from the results anticipated in such forward-looking statements. These discussions and Risk Factors are hereby incorporated by reference into this Quarterly Report.

Item 3 - Quantitative and Qualitative Disclosures about Market Risk

We limit the amount of credit exposure to any one issuer. At February 28, 2014, other than our restricted investments (which are restricted for use in a non-qualified retirement savings plan for certain key employees and members of the Board of Directors), all of our funds were either in demand deposit accounts or investment instruments that meet high credit quality standards such as money market funds, government securities, or commercial paper.

Our domestic operations have limited currency exposure since substantially all transactions are denominated in USD. However, our European operations are subject to currency exchange fluctuations. We continue to review our policies and procedures to reduce this exposure while maintaining the benefit from these operations and sales to other European customers. As of February 28, 2014, the Company had cash balances in the following foreign currencies (with USD equivalents):

Currency Code	Currency Name		USD Equivalent at February 28, 2014
GBP	British Pound	\$	8,246,000
EUR	Euro	\$	3,284,000
CNY	Chinese Yuan	\$	242,000
CAD	Canadian Dollar	\$	9,000

We will continue to review our current cash balances denominated in foreign currency in light of current tax guidelines, working capital requirements, infrastructure improvements and potential acquisitions.

We recognized a foreign currency translation gain for the six months ended February 28, 2014 in the amount of \$2,183,000 related to our European operations, which is recorded in other comprehensive income (loss) within our Statement of Equity and Statement of Comprehensive Income. We do not have or utilize any derivative financial instruments.

We pay interest on our outstanding long-term debt at interest rates that fluctuate based upon changes in various base interest rates. The carrying value of our long-term debt was \$61,600,000 at February 28, 2014. See "Management's Discussion and Analysis of Financial Condition and

Edgar Filing: CHASE CORP - Form 10-Q

Results of Operations Liquidity and Sources of Capital and Note 12 Fair Value Measurements to the Consolidated Financial Statements for additional information regarding our outstanding long-term debt. The effect of an immediate hypothetical 10% change in variable interest rates would not have a material effect on our Consolidated Financial Statements.

Table of Contents

Item 4 - Controls and Procedures

Evaluation of disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carry out a variety of ongoing procedures under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

Changes in internal control over financial reporting

Effective April 1, 2013, the Company began the process of implementing a single enterprise resource planning (ERP) computer system world-wide. During fiscal 2013 and the first half of fiscal 2014, the Company expanded its existing ERP modules to seven of its domestic locations which resulted in changes to the Company's processes and procedures affecting its internal control over financial reporting. The Company expects this process to be completed by December 2014 as it continues with its plan to deploy more effective and efficient processes to support the Company's financial reporting as it continues to grow in size and scale. Otherwise, there have not been any changes in the Company's internal control over financial reporting during its most recent fiscal year that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.
