PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Industrial Services of America, Inc. (the Company) is unable to timely file with the Securities and Exchange Commission (the Commission) its Annual Report on Form 10-K for the fiscal year ended December 31, 2014 because the compilation, dissemination, review and finalization of the information required to be presented in the report could not be completed within the prescribed time period without unreasonable effort or expense. In 2014, management reviewed all operations of the business. An area of significant focus was the Company's shredder operations. The Company shreds large pieces of ferrous scrap material, such as automobiles and major appliances, in its shredder. A residue by-product of the Company's shredder operations is referred to as automobile shredder residue (ASR) which the Company processes for resale. Management spent much of 2014 working to assess the Company's ASR process and implemented significant process and strategy changes associated with the ASR process. When management performed the year-end lower of cost-or-market assessment of all inventory, the decrease in the metals market prices in the fourth quarter of 2014 and first quarter of 2015, combined with the changes in the Company's strategy and processes related to its ASR inventory, resulted in an inventory write-down as of December 31, 2014.

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC - Form NT 10-K

The Company is reviewing the impact of the writedown with its senior secured lenders in connection with its credit facility financial covenants. The results of these discussions may affect the presentation of certain items in the Form 10-K and the financial statements. Accordingly, the Company was unable to file the report by March 31, 2015.

The Company expects to file the Annual Report on Form 10-K within fifteen calendar days of its prescribed due date.

PART IV OTHER INFORMATION

(1) Name and telephone number of person to contact in regard to this notification

(Telephone Number)

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).

Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For the year ended December 31, 2014, the Company expects to incur a net loss of \$7.3 million compared with a net loss of \$13.8 million for calendar 2013. The expected decrease in the net loss in 2014 as compared to 2013 is primarily a result of an expected decrease in total cost of sales of \$20.1 million as compared to the prior year, as well as \$0.5 million of lower selling, general and administrative expenses, \$3.5 million of lower impairment loss of intangibles, \$1.1 million of lower interest expense and \$1.4 million of lower income tax provision. This expected decrease in expenses offsets an expected decrease in total revenue of \$19.3 million compared to 2013 as well as a lower gain on lawsuit settlement of \$0.6 million. The lower 2014 revenues were primarily attributable to a \$34.4 million decrease in revenue from the discontinuation of the Company's stainless steel alloys business which was previously disclosed in the Company's SEC filings. The inventory write-down discussed in Part III of this Form 12b-25 increased the amount of the expected net loss for the year ended December 31, 2014. All amounts related to the expected results of operations for 2014 are based on management's reasonable estimates, pending completion of the preparation of the Company's financial statements for the year ended December 31, 2014.

This Form 12b-25 contains forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. These statements are based on the Company's current expectations and involve risks and uncertainties that could cause actual results and events to differ materially from those described in the statements. The words may, assume, forecast, position, predict, strategy, expect, intend, plan, estimate, believe, project, budget, potential, or continue, and similar expressions are used to identify forward looking statements. Factors that could cause results to differ materially from current expectations include those referenced in the Company's Form 10-K for the year ended December 31, 2013 or subsequent SEC filings. You should not place undue reliance on these forward-looking statements.
