NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

1. Corporate information:

Banco de Chile is authorized to operate like a commercial bank since March 17, 1996, in conformity with the Article 25 of Law No. 19,396. Banco de Chile, resulting from the merger of Banco Nacional de Chile, Banco Agrícola and Banco de Valparaíso, was formed on October 28, 1893 in the city of Santiago, in the presence of the Notary Eduardo Reyes Lavalle.

Banco de Chile (Banco de Chile or the Bank) is a Corporation organized under the laws of the Republic of Chile, regulated by the Superintendency of Banks and Financial Institutions (SBIF or Superintendency). Since 2001, - when the bank was first listed on the New York Stock Exchange (NYSE), in the course of its American Depository Receipt (ADR) program, which is also registered at the London Stock Exchange Banco de Chile additionally follows the regulations published by the United States Securities and Exchange Commission (SEC).

Banco de Chile offers a broad range of banking services to its customers, ranging from individuals to large corporations. The services are managed in large corporate banking, middle and small corporate banking, personal banking services and retail. Additionally, the Bank offers international as well as treasury banking services. The Bank's subsidiaries provide other services including securities brokerage, mutual fund and investment management, insurance brokerage, financial advisory and securitization.

Banco de Chile's legal address is Paseo Ahumada 251, Santiago, Chile and its website is www.bancochile.cl.

The Interim Condensed Consolidated Financial Statements of Banco de Chile, for the period ended March 31, 2015 were approved for issuance in accordance with the directors on April 23, 2015.

2. Legal provisions, basis of preparation and other information:

(a) Legal provisions:

The General Banking Law in its Article No.15 authorizes the Chilean Superintendency of Banks (SBIF) to issue generally applicable accounting standards for entities it supervises. The Corporations Law, in turn, requires generally accepted accounting principles to be followed.

Edgar Filing: BANK OF CHILE - Form 6-K

Based on the aforementioned laws, banks should use the criteria provided by the Superintendency in accordance with the Compendium of Accounting Standards (Compendium), and any matter not addressed therein, as long as it does not contradict its instructions, should adhere to generally accepted accounting principles in technical standards issued by the Chilean Association of Accountants, that coincide with international accounting standards and international financial reporting standards agreed upon by the International Accounting Standards Board (IASB). Should there be discrepancies between these generally accepted accounting principles and the accounting criteria issued by the SBIF, the latter shall prevail.

(c) Use of estimates and judgment:

Preparing financial statements requires management to make judgments, estimations and assumptions that affect the application of accounting policies and the valuation of assets, liabilities, income and expenses presented. Real results could differ from these estimated amounts. Details on the use of estimates and judgment and their effect on the amounts recognized in the Interim Condensed Consolidated Financial Statement are included in the following notes:

Edgar Filing: BANK OF CHILE - Form 6-K

1. Goodwill valuation (Note No. 15);
2. Useful lives of property and equipment and intangible assets (Notes No.15 and No.16);
3. Income taxes and deferred taxes (Note No. 17);
4. Provisions (Note No. 24);
5. Contingencies and Commitments (Note No. 26);
6. Provision for loan losses (Note No. 11, No. 12 and No. 32);
7. Impairment of other financial assets (Note No. 35);
8. Fair value of financial assets and liabilities (Note No. 39).

Estimates and relevant assumptions are regularly reviewed by the management of the Bank, according to quantify certain assets, liabilities, gains, loss and commitments. Estimates reviewed are registered in income in the period that the estimate is reviewed.

During the period of March 31, 2015, there have not been significant changes in the estimates.

2. Legal provisions, basis of preparation and other information, continued:

(d) Seasonality or Cyclical Character of the Transactions of the Intermediate Period:

Due to the nature of its business, the Bank and its subsidiaries' activities do not have a cyclical or seasonal character. Accordingly, no specific details have been included on the notes to this Interim Condensed Consolidated Financial Statements with the information regarding the period of three-month ended March 31, 2015.

(e) Relative Importance:

When determining the information to present on the different items from the financial statements or other subjects, the Bank has considered the relative importance in relation to the Interim Condensed Consolidated financial statements of the period.

(f) Reclassifications:

There have not been significant reclassifications at the end of this period 2015.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

3. New Accounting Pronouncements:

The following is a summary of new standards, interpretations and improvements to the International Financial Reporting Standards issued by the International Accounting Standards Board (IASB) that it is not effective as of March 31, 2015:

IFRS 9 Financial Instruments.

The July 24, 2014, IASB completed its upgrade project about accounting for financial instruments with the publication of IFRS 9 Financial Instruments.

This standard includes new requirements based on new principles for the classification and measurement; it introduces a prospective model of expected credit losses on impairment accounting and changes in hedge accounting.

Classification and measurement

The classification determines how financial assets and liabilities are accounted in financial statements and, in particular, how they are measured. IFRS 9 introduces a new approach for classification of financial assets, based in the business model of the entity for the management of financial assets and the characteristic of its contractual flows. The new model also results in a single impairment model being applied to all financial instruments, removing a source of complexity associated with previous accounting requirements.

Impairment

The IASB has introduced a new impairment model that will require a timely recognition of expected credit losses.

Hedge Accounting

Edgar Filing: BANK OF CHILE - Form 6-K

IFRS 9 introduces a new model for hedge accounting with enhanced disclosures about risk management activity. The new model represents a substantial overhaul of hedge accounting that aligns the accounting treatment with risk management activities, enabling entities to better reflect these activities in their financial statements. In addition, as a result of these changes, users of the financial statements will be provided with better information about risk management and the effect of hedge accounting on the financial statements.

Entity's Own Credit Risk

IFRS 9 removes the volatility in profit or loss originated by changes in the credit risk of designated liabilities at fair value. This change means that the change in the fair value that corresponds to credit risk will be registered in other comprehensive income. IFRS 9 permits early application of this improvement, before any other requirement of IFRS 9.

Adoption date mandatory January 1, 2018. Early application is permitted.

Banco de Chile and its subsidiaries are assessing the possible impact of adoption of these changes on the consolidated financial statements.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

3. New Accounting Pronouncements, continued:

IFRS 11 Joint Arrangements

In May of 2014 the IASB modified IFRS 11, providing guides about the accounting of acquisitions of participations in joint operations, whose activity constitute a business. This standard requires the acquirer of a participation in a joint operation, whose activities constitute a business, to apply all the principles on accounting for business combinations of the IFRS 3.

The effective date is beginning on January 1, 2016 and its early application is permitted.

Banco de Chile and its subsidiaries are assessing the impact of this rule in its consolidated financial statements.

IAS 16 Property, plant and equipment and IAS 38 Intangible assets

In May of 2014 the IASB modified IAS 16 and 38 with purpose of clarifying accepted methods of depreciation and amortization.

The amendment of IAS 16 prohibits property, plant and equipment, depreciation based on ordinary income.

The amendment of IAS 38 introduces the presumption that ordinary income is not an appropriate base for the amortization of intangible assets. This presumption only is refuted in two circumstances: (a) intangible asset is expressed like a unit of ordinary income; and (b) ordinary income and consumption of intangible assets are highly correlated.

The effective date is beginning on January 1, 2016 and its early application is permitted.

Edgar Filing: BANK OF CHILE - Form 6-K

This modification does not impact the consolidated financial statements of Banco de Chile and its subsidiaries, because it is not used as a basis of depreciation and amortization.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 was issued in May 2014. The objective is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer.

IFRS 15 replaces the following standards and interpretations: IAS 18 Revenue, IAS 11 Construction contracts, IFRIC 13 Customer loyalty programmes, IFRIC 15 Agreements for the construction of real estate, IFRIC 18 Transfers of assets from customers and SIC 31 Revenue Barter transactions involving advertising services.

The new model will be applied to all contracts with customers except those contracts are within the scope of another standard.

Application of the standard is mandatory for annual reporting periods starting from January 1, 2017 onward, early application is permitted.

Banco de Chile and its subsidiaries are assessing the impact of this rule on its consolidated financial statements.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

3. New Accounting Pronouncements, continued:

IAS 27 Consolidated and Separated Financial Statements

In August 2014, the IASB published the amendment that will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements.

The effective date is beginning on January 1, 2016 and its early application is permitted.

This amendment does not impact the consolidated financial statements of Banco de Chile and its subsidiaries.

IAS 28 Investments in Associates and Joint Venture and IFRS 10 - Consolidated Financial Statements

In September 2014, the IASB issued this amendment, which clarifies the scope of recognized gains and losses in a transaction involving an associate or joint venture, and this depends on whether the asset sold or contribution is a business. Therefore, IASB concluded that all of the profit or loss should be recognized against loss of control of a business. Likewise, gains or losses resulting from the sale or contribution of a subsidiary that is not a business (definition of IFRS 3) to an associate or joint venture should be recognized only to the extent of unrelated interests in the associate or joint venture.

The effective date is beginning on January 1, 2016 and its early application is permitted.

This amendment does not impact the consolidated financial statements of Banco de Chile and its subsidiaries.

Annual improvements IFRS

Edgar Filing: BANK OF CHILE - Form 6-K

In September 2014, the IASB issued Annual improvements to IFRS: 2012 - 2014 Cycle, which include changes to the following standards.

- **IFRS 5 Non-current assets held for sale and discontinued operations.**

Add specific guidelines in cases in which an entity reclassifies an asset from held for sale to held for distribution, or viceversa and cases in which assets held for distribution are accounting like discontinued operations. The effective date is beginning on January 1, 2016 and its early application is permitted.

Banco de Chile and its subsidiaries do not register non-current assets held for sale and discontinued operations. Therefore, this modification does not impact the consolidated financial statements of Banco de Chile and its subsidiaries.

- **IFRS 7 Financial Instruments: Disclosures.**

Add guidelines to clarify if a service contract corresponds to a continuing involvement in an asset transfer with the purpose to determine the required disclosures. The effective date is beginning on January 1, 2016 and its early application is permitted.

This amendment does not impact the consolidated financial statements of Banco de Chile and its subsidiaries.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

3. New Accounting Pronouncements, continued:

Annual improvements IFRS, continued:

- **IAS 19 Employee Benefits. Discount rate: topic of the regional market.**

Clarifies that corporate bonds with high quality credit used in the estimation of the discount rate for post-employment benefits must be denominated in the same currency as the benefit paid. The effective date is beginning on January 1, 2016 and its early application is permitted.

This amendment does not impact the consolidated financial statements of Banco de Chile and its subsidiaries.

- **IAS 34 Interim Financial Reporting**

Clarifies the meaning of disclose information in some other part of interim financial information and the need for a cross-reference. The effective date is beginning on January 1, 2016 and its early application is permitted.

This amendment does not impact the consolidated financial statements of Banco de Chile and its subsidiaries.

- **IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interest in Other Entities and IAS 28 Investments in Associates and Joint Ventures.**

In December 2014, the IASB has modified IFRS 10, IFRS 12 and IAS 28 related with the application of the exceptions in the consolidation in investment entities.

Edgar Filing: BANK OF CHILE - Form 6-K

The amendments clarify the requirement for the accounting of investment entities. In addition, these amendments in certain circumstances reduce the cost in the application of these standards.

The effective date is mandatory on January 1, 2016 and its early application is permitted.

Banco de Chile and its subsidiaries are assessing the impact of this rule in its consolidated financial statements.

- **IAS 1 Presentation of Financial Statements.**

In December, 2014, the IASB published Disclosure Initiative (Amendments to IAS 1) . The amendments aim at clarifying IAS 1 to improve the presentation and disclosure of information in the financial reports.

These amendments answer requests about presentation and disclosure and have been designed with the finality to allow the entities to apply their professional opinion to determine what information must be disclosed in the financial statements.

They are effective for annual periods beginning on or after 1 January 2016, with earlier application being permitted.

Banco de Chile and its subsidiaries are assessing the impact of this rule in its consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

6. Segment Reporting:

For management purposes, the Bank has organized its operations and commercial strategies into four business segments, which are defined in accordance with the type of products and services offered to target customers. These business segments are currently defined as follows:

Retail: This segment focuses on individuals and small and medium-sized companies with annual sales up to 70,000UF, where the product offering focuses primarily on consumer loans, commercial loans, checking accounts, credit cards, credit lines and mortgage loans.

Wholesale: This segment focused on corporate clients and large companies, whose annual revenue exceed 70,000UF, where the product offering focuses primarily on commercial loans, checking accounts and liquidity management services, debt instruments, foreign trade, derivative contracts and leases.

Treasury and money market operations:

This segment includes revenue associated with managing the Bank's balance sheet (currencies, maturities and interest rates) and liquidity, including financial instrument and currency trading on behalf of the Bank itself.

Transactions on behalf of customers carried out by the Treasury are reflected in the respective aforementioned segments. These products are highly transaction-focused and include foreign exchange transactions, derivatives and financial instruments in general.

Subsidiaries: Corresponds to companies and corporations controlled by the Bank, where income is obtained individually by the respective subsidiary. The companies that comprise this segment are:

Entity

- Banchile Administradora General de Fondos S.A.
- Banchile Asesoría Financiera S.A.
- Banchile Corredores de Seguros Ltda.

- Banchile Corredores de Bolsa S.A.
- Banchile Securitizadora S.A.
- Banchile Trade Services Limited
- Socofin S.A.
- Promarket S.A.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

6. Segment Reporting, continued:

The financial information used to measure the performance of the Bank's business segments is not necessarily comparable with similar information from other financial institutions because it is based on internal reporting policies. The accounting policies used to prepare the Bank's operating segment information are similar as those described in Summary of Significant Accounting Principles. The Bank obtains the majority of its income from: interest, revaluations and fees, discounted the credit cost and expenses. Management is mainly based on these concepts in its evaluation of segment performance and decision-making regarding goals, allocation of resources for each unit individually. Although the results of the segments reconcile with those of the Bank at total level, it is not thus necessarily concerning the different concepts, since the management is measured and controls in individual form and applying the following criteria:

- The net interest margin of loans and deposits is obtained aggregating the net financial margins of each individual operation of credit and uptake made by the bank. For these purposes is considered the volume of each operation and its contribution margin, stemming from the difference between the effective customer rate and the related Bank's fund transfer price in terms of maturity and currency.
- The internal performance profitability system considers capital allocation in each segment in accordance to the Basel guidelines.
- Operating expenses are distributed at each area level. The Bank allocates all of its indirect operating costs to each business segment by utilizing a different cost driver in order to allocate such costs to the specific segment.

The Bank did not enter into transactions with a particular customer or third parties that exceed 10% or more of its total income during the three-month period ended March 31, 2015 and 2014.

Taxes are managed at a corporate level and are not allocated to business segments.

Table of Contents**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued****10. Derivative Instruments and Accounting Hedges, continued:****(b) Fair value Hedges:**

The Bank uses cross-currency swaps and interest rate swaps to hedge its exposure to changes in the fair value of the hedged elements attributable to interest rates in financial instruments. The aforementioned hedge instruments change the effective cost of long-term issuances from a fixed interest rate to a floating rate, decreasing the duration and modifying the sensitivity to the shortest segments of the curve.

Below is a detail of the hedged elements and hedge instruments under fair value hedges as of March 31, 2015 and December 31, 2014:

| | March 2015 MCh\$ | December 2014 MCh\$ |
|-------------------------|---------------------------------|------------------------------------|
| Hedged element | | |
| Commercial loans | 36,870 | 48,611 |
| Corporate bonds | 151,229 | 146,585 |
| Hedge instrument | | |
| Cross currency swap | 36,870 | 48,611 |
| Interest rate swap | 151,229 | 146,585 |

(c) Cash flow Hedges:

(c.1) The Bank uses cross currency swaps to hedge the risk from variability of cash flows attributable to changes in the interest rates and foreign exchange of obligations with foreign banks, bonds issued abroad, Hong Kong dollars, Peruvian nuevo sol, Swiss franc and Japanese yens. The cash flows of the cross currency swaps equal the cash flows of the hedged items, which modify uncertain cash flows to known cash flows derived from a fixed interest rate.

Additionally, these cross currency swap contracts used to hedge the risk from variability of the Unidad de Fomento (CLF) in assets flows denominated in CLF until a nominal amount equal to the portion notional of the hedging instrument CLF, whose readjustment daily impact the item interest revenue of the financial statements.

13. Investment Securities, continued:

Instruments issued by the Chilean Government and Central Bank include instruments with agreements to repurchase sold to clients and financial institutions; totaling MCh\$16,374, as of March 31, 2015 (MCh\$25,673 as of December 31, 2014). The agreements to repurchase have an average maturity of 4 days as of March 31, 2015 (average maturity of 4 days as of December 31, 2014).

In instruments issued by other Chilean institutions are included instruments sold by repurchase agreements to clients and financial institutions, totaling MCh\$90 million as of March 31, 2015 (Ch\$14 million as of December 31, 2014), The agreements to repurchase have an average maturity of 4 days as of March 31, 2015 (average maturity of 5 days as of December 31, 2014).

In instruments issued abroad are included mainly bank bonds and shares and equity investments instruments.

As of March 31, 2015, the portfolio of financial assets available-for-sale includes a net unrealized gain of MCh\$39,697, net of tax (net unrealized gain of MCh\$33,962 as of December 31, 2014), recorded in other comprehensive income within equity.

During 2015 and 2014, there is no evidence of impairment of financial assets available-for-sale.

Realized gains and losses are calculated as the proceeds from sales less the cost (specific identification method) of the investments identified as available-for-sale. In addition, any unrealized gain or loss previously recognized in equity for these investments is reversed and recorded in the Consolidated Statements of Comprehensive Income.

Gross profits and losses realized on the sale of available-for-sale investments as of March 31, 2015 and 2014 are shown in Note 30 Net Financial Operating Income .

Gross profits and losses realized and unrealized on the sale of available-for-sale investments for the three-month period ended as of March 31, 2015 and 2014 are as follows:

Edgar Filing: BANK OF CHILE - Form 6-K

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

17. Current and Deferred Taxes, continued:

(c) Reconciliation of effective tax rate:

The following is a reconciliation of the income tax rate to the effective rate applied to determine the Bank's income tax expense as of March 31, 2015 and 2014:

| | Tax rate % | March 2015 MCh\$ | Tax rate % | March 2014 MCh\$ |
|--|---------------|------------------------|---------------|------------------------|
| Income tax calculated on net income before tax | 22.50 | 30,987 | 20.00 | 34,365 |
| Additions or deductions | (6.18) | (8,507) | (4.12) | (7,073) |
| Price-level restatement | 0.02 | 25 | (4.12) | (7,091) |
| Non-deductible expenses tax | 0.37 | 511 | 0.22 | 370 |
| Effect of changes in tax rate | (0.84) | (1,160) | | |
| Other | (0.62) | (851) | 0.29 | 504 |
| Effective rate and income tax expense | 15.25 | 21,005 | 12.27 | 21,075 |

The effective rate for income tax for the period ended as of March 31, 2015 is 15.25% (12.27% in March 2014).

On September 29, 2014, Law 20,780 was issued and published in the Diario Oficial amending the Taxation System of Income and introducing various adjustments in the tax system, The third paragraph of Article 14 of the new law indicates that companies that do not exercise the option of regime change that by default corresponds to the semi-integrated, must modify transiently the first category tax rate according to the following intervals:

| Year | Rate |
|------|-------|
| 2014 | 21.0% |
| 2015 | 22.5% |
| 2016 | 24.0% |
| 2017 | 25.5% |
| 2018 | 27.0% |

Edgar Filing: BANK OF CHILE - Form 6-K

The effect on income by deferred taxes produced by the tax rate change was a credit in income for an amount of Ch\$1,160 million.

| Subtotal | 321,780 | 264,216 |
| Total | 414,363 | 355,057 |

(*) These correspond to property and equipment to be given under a finance lease.

Edgar Filing: BANK OF CHILE - Form 6-K

(**) Assets received in lieu of payment are assets received as payment of customers' past-due debts. The assets acquired must at no time exceed, in the aggregate, 20% of the Bank's effective equity. These assets represent 0.0290% (0.0287% as of December 31, 2014) of the Bank's effective equity.

The assets awarded at judicial sale are assets that have been acquired as payment of debts previously owed towards the Bank. The assets awarded at judicial sales are not subject to the aforementioned requirement. These properties are non-current assets available-for-sale. For most assets, the sale is expected to be completed within one year from the date on which the asset was received or acquired. If the asset in question is not sold within the year, it must be written off.

The provision for assets received in lieu of payment is recorded as indicated in the Compendium of Accounting Standards, which indicate to recognize a provision for the difference between the initial value plus any additions and its realizable value when the former is greater.

(***) This item mainly includes simultaneous operations carried out by the subsidiary Banchile Corredores de Bolsa S.A.

26. Contingencies and Commitments:

(a) Commitments and responsibilities accounted for in off-balance-sheet accounts:

In order to satisfy its customers' needs, the Bank entered into several irrevocable commitments and contingent obligations. Although these obligations are not recognized in the Interim Condensed Consolidated Statement of Financial Position, they contain credit risks and, therefore, form part of the Bank's overall risk.

The Bank and its subsidiaries record the following balances related to such commitments and responsibilities, which fall within its line of business, in off-balance-sheet accounts:

| | March 2015 MCh\$ | December 2014 MCh\$ |
|---|---------------------------------|------------------------------------|
| Contingent loans | | |
| Guarantees and surety bonds | 460,617 | 412,474 |

26. Contingencies and Commitments, continued:

(b) Lawsuits and legal proceedings:

(b.1) Legal contingencies within the ordinary course of business:

At the date of issuance of these consolidated financial statements, there are actions filed against the Bank and its subsidiaries related with the ordinary course operations.

Among these actions, there is the following:

- Collective action filed by the National Consumer Service (Servicio Nacional del Consumidor) in accordance with Law No. 19,496. This action seeks to challenge some clauses of the Person Products Unified Agreement (Contrato Unificado de Productos de Personas) regarding fees on credit lines for overdraft and validity of the tacit consent to changes in fees, charges and other conditions in consumer contracts.
- Collective action filed by the National Corporation of Consumers and Users of Chile (Corporación Nacional de Consumidores y Usuarios de Chile) that challenge some clauses of the Person Products Unified Agreement (Contrato Unificado de Productos de Personas) regarding fees on credit lines for overdraft and validity of the tacit consent to changes in fees, charges and other conditions in consumer contracts, along with the outsourcing of certain services related to our clients' current account data.
- Collective action filed by the National Organization of Consumers and Users of Chile (Organización de Consumidores y Usuarios de Chile) that requests the Court to declare abusive and void certain provisions of the Person Products Unified Agreement regarding the use of self-service channels (internet, ATMs, telephone banking) and Credit Cards. Such provisions refer to the user's duty to act with diligence and care with respect to passwords as well as the responsibility they have in case of disclosure to third parties, and the use by such third parties of them.

As of March 31, 2015, the Bank has established provisions for this concept in the amount of MCh\$8,029 (MCh\$8,073 as of December 31, 2014), recorded within Provisions in the Interim Condensed Consolidated Statement of Financial Position. The following table presents estimated date of completion of the respective litigation:

Edgar Filing: BANK OF CHILE - Form 6-K

| | 2015 MCh\$ | 2016 MCh\$ | March 31, 2015 | | 2019 MCh\$ | Total MCh\$ |

(c) Guarantees granted, continued:

ii. In subsidiary Banchile Corredores de Bolsa S.A., continued:

In conformity with the provisions of internal stock market regulations, and for the purpose of securing the broker's correct performance, the company established a pledge on its share of the Santiago Stock Exchange in favor of that institution, as recorded in Public Deed on September 13, 1990, signed before Santiago public notary Mr. Raul Perry Pefaur, and on its share in the Electronic Stock Exchange of Chile in favor of that institution, as recorded in a contract entered into by both parties on May 16, 1990.

Banchile Corredores de Bolsa S.A. keeps an insurance policy current with AIG Chile - Compañía de Seguros Generales S.A. that expires January 2, 2016, and that covers employee fidelity, physical losses, falsification or adulteration, and currency fraud with a coverage amount equivalent to US\$10,000,000.

According to disposition of Chilean Central Bank, it was constituted a bank guarantee corresponding to UF10,500, with purposes to comply with the contract SOMA (Contract for Service System Open Market Operations) of Chilean Central Bank. This bank guarantee is revaluated in UF to fixed term, not endorsable with maturity of July 17, 2015.

It was constituted a bank guarantee No. 356782-3 corresponds to UF210,000, in benefits of investors with contracts of portfolio management. This bank guarantee is revaluated in UF to fixed term, not endorsable with maturity of January 8, 2016.

It was constituted a cash guarantee for an amount of US\$122,494.32, whose purpose is to comply obligations with Pershing, by operations made through this broker.

iii. In subsidiary Banchile Corredores de Seguros Ltda,

Edgar Filing: BANK OF CHILE - Form 6-K

According to established in article No. 58, letter D of D.F.L. 251, as of March 31, 2015, the entity maintains two insurance policies that protect it in the face of possible damages that it could affect it, due to infractions of the law, regulations and complementary rules that regulate insurance brokers, and specially when the non-compliance is from acts, mistakes or omissions of the brokers, its represents, agent or dependent that participate in the intermediation for Banchile Corredores de Bolsa S.A.

The policies contracted are the following:

| Matter insured | Amount Insured (UF) |
|--|----------------------------|
| Responsibility for errors and omissions policy | 60,000 |
| Civil responsibility policy | 500 |

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

26. Contingencies and Commitments, continued:

(d) Provisions for contingencies loans:

Established provisions for credit risk from contingencies operations are the followings:

| | March 2015 MCh\$ | December 2014 MCh\$ |
|-----------------------------|---------------------------------|------------------------------------|
| Credit lines | 35,788 | 34,715 |
| Bank guarantees | 15,337 | 15,372 |
| Guarantees and surety bonds | 3,239 | 3,009 |
| Letters of credit | 491 | 639 |
| Other commitments | 342 | 342 |
| Total | 55,197 | 54,077 |

(e) In the Eleventh Civil Court of Santiago, Banchile Corredores de Bolsa S.A. filed a reclamation against the Resolución Exenta No. 270 of October 30, 2014 of the Superintendency of Securities and Insurance (SVS), whereby that Superintendency imposed a fine to Banchile Corredores de Bolsa S.A. (Banchile Corredores) for an amount of UF50,000 for the alleged infringement of Article 53 second paragraph of Law 18,045 (Ley de Mercado de Valores), for certain specific transactions related to Sociedad Química y Minera de Chile S.A. s shares (SQM-A). Through the claim Banchile Corredores seeks to void the fine. As a requirement to file the claim, Banchile credited (consignó) 25% of the amount of the fine.

According to the current policies, the company has not established provisions because this judicial process has not been ruled yet and also because our legal advisors have estimated that there are grounds to get a favorable judgement for Banchile Corredores.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

27. Equity, continued:

(b) Distributable income:

For purposes of Law No. 19,396 (in particular Articles 24, 25 and 28 of such law) and the Central Bank Contract between Banco de Chile and Sociedad Matriz del Banco de Chile S.A.- Banco de Chile's distributable net income will be determined by subtracting or adding to net income the correction of the value of the paid-in capital and reserves according to the variation of the Consumer Price Index between November of the fiscal year prior to the one in which the calculation is made and November of the fiscal year in which the calculation is made. The difference between net income and distributable net income shall be registered in a reserve account since the first day of the fiscal year following the date when the calculation is made. This reserve account cannot be distributed or capitalized, Provisional Article four shall be in force until the obligation of Law No. 19,396 owed by Sociedad Matriz del Banco de Chile S.A., directly or through its subsidiary SAOS has been fully paid. The distributable income for the nine-month period ended as of March 31, 2015 ascend to Ch\$116,715 million (Ch\$463,698 million as of December 31, 2014).

The above described agreement was subject to the consideration of the Council of the Central Bank of Chile, and such entity approved, in ordinary meeting that took place on December 3, 2009.

As stated, the retention of earnings for the year ended as of December 31, 2014, made in March of 2015, ascend to Ch\$127,383 million (Ch\$49,913 million of income for the year ended as of December 31, 2013, retained in March of 2014).

(c) Approval and payment of dividends:

At the Ordinary Shareholders Meeting held on March 26, 2015, the Bank's shareholders agreed to distribute and pay dividend No. 203 amounting to Ch\$3.42915880220 per common share of Banco de Chile, with charge to distributable net income for the year ended as of December 31, 2014. The dividend of period 2015 amounted Ch\$367,444 million.

At the Ordinary Shareholders Meeting held on March 27, 2014, the Bank's shareholders agreed to distribute and pay dividend No. 202 amounting to Ch\$3.48356970828 per common share of Banco de Chile, with charge to distributable net income for the year ended as of December 31, 2013, The dividend of period 2014 amounted Ch\$368,120 million.

(d) Provision for minimum dividends:

The Board of Directors established a minimum dividend distribution policy, where the Bank has to record a provision of 70% of net income of the Annual Consolidated Financial Statements. Accordingly, the Bank recorded a liability under the line item Provisions for an amount of MCh\$81,701 (MCh\$324,588 as of December 31, 2014) against Retained earnings .

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

27. Equity, continued:

(e) Earnings per share:

(i) Basic earnings per share:

Basic earnings per share are determined by dividing the net income attributable to the Bank shareholders in a period by the weighted average number of shares outstanding during the period.

(ii) Diluted earnings per share:

Diluted earnings per share are determined in the same way as Basic Earnings, but the weighted average number of outstanding shares is adjusted to take into account the potential diluting effect of stock options, warrants, and convertible debt.

The following table shows the income and share data used in the calculation of EPS:

| | March 2015 | March 2014 |
|---|----------------|----------------|
| Basic earnings per share: | | |
| Net profits attributable to ordinary equity holders of the bank (in millions) | 116,715 | 150,750 |
| Weighted average number of ordinary shares | 94,655,367,544 | 94,655,367,544 |
| Earning per shares (in Chilean pesos)(*) | 1.23 | 1.59 |
| Diluted earnings per share: | | |
| Net profits attributable to ordinary equity holders of the bank (in millions) | 116,715 | 150,750 |
| Weighted average number of ordinary shares | 94,655,367,544 | 94,655,367,544 |
| Assumed conversion of convertible debt | | |
| Adjusted number of shares | 94,655,367,544 | 94,655,367,544 |
| Diluted earnings per share (in Chilean pesos)(*) | 1.23 | 1.59 |

(*)This calculation considers the effect of the share pups issue.

As of March 31, 2015 and 2014, the Bank did not have any instruments that could lead to a dilution of its ordinary shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

27. Equity, continued:

(f) Other comprehensive income:

The cumulative translation adjustment is generated from the Bank's translation of its investments in foreign companies, as it records the effects of foreign currency translation for these items in equity. During the period 2015 there were no cumulative translation adjustment (credit to equity for Ch\$39 million as of March 31, 2014).

The fair market value adjustment for available-for-sale instruments is generated by fluctuations in the fair value of that portfolio, with a charge or credit to equity, net of deferred taxes. During the period of 2015 it was made a net credit to equity for an amount of Ch\$5,735 million (net credit to equity for Ch\$1,871 million as of March 31, 2014).

Cash flow hedge adjustment it consists in the portion of income of hedge instruments registered in equity produced in a cash flow hedge. During the period of 2015 it was made a net charge to equity for an amount of Ch\$4,165 million (charge to equity for Ch\$16,306 million as of March 31, 2014).

38. Related Party Transactions:

The related parties of companies and their subsidiaries include entities of the company's corporate group; corporations which are the company's parent company, associated companies, subsidiaries and associates; directors, managers, administrators, main executives or receivers of the company on their own behalf or in representation of persons other than the company, and their respective spouses or family members up to the second degree of consanguinity or affinity, as well as any entity directly or indirectly controlled through any of them, the partnerships or companies in which the aforementioned persons are owners, directly or through other individuals or corporations, of 10% or more of their capital or directors, managers, administrators or main executives; any person that on their own or with others with whom they have a joint action agreement can designate at least one member of the company's management or controls 10% or more of the capital or of the voting capital, if dealing with a public corporation; those that establish the company's bylaws, or with a sound basis identify the directors' committee; and those who have held the position of director, manager, administrator, main executive or receiver within the last eighteen months.

The Law of Corporations, article 147, states that a public corporation can only enter into transactions with related parties when the objective is to contribute to the company's interests, and when the price, terms and conditions are commensurate to those prevailing in the market at the time of their approval and comply with the requirements and procedures stated in the same standard.

Moreover, article 84 of the General Banking Law establishes limits for loans granted to related parties and prohibits the granting of loans to the Bank's directors, managers and general representatives.

(*) Production companies are legal entities which comply with the following conditions:

- i) They engage in productive activities and generate a separable flow of income.
- ii) Less than 50% of their assets are trading securities or investments.

(**) Investment companies include those legal entities that do not comply with the conditions for production companies and are profit-oriented.

(***) Individuals include key members of the management, who directly or indirectly possess the authority and responsibility of planning, administering and controlling the activities of the organization, including directors. This category also includes their family members who are expected to have an influence or to be influenced by such individuals in their interactions with the organization.

(****) These guarantees correspond mainly to shares and other financial guarantees.

(b) Other assets and liabilities with related parties:

Fees paid for advisory services to the Board of Directors amount to MCh\$67 (MCh\$69 as of March 31, 2014).

Travel and other related expenses amount to MCh\$34 (MCh\$5 as of March 31, 2014).

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

39. Fair Value of Financial Assets and Liabilities:

Banco de Chile and its subsidiaries have defined a corporate framework for the Fair Value measurement.

One of the most important definition in this framework is the Product Control Unit, hereinafter PCU, function. This area is independent from both the principal management and the business unit, and reports to the CFO of Banco de Chile. This area is responsible for the independent verification of Profit and Losses, and Fair Value measurement and control for all Treasury transactions; Trading, Funding and gapping and Investments deals.

To accomplish the measurements and controls, Banco de Chile and its subsidiaries, take into account at least the following aspects:

- (i) Industry standards of fair value measurements

In the fair value calculation process, standard methodologies are used; closing prices, discounted cash flows and option models. In the options case, Black-Scholes model is used. The input parameters are rates, prices and volatility levels for each term and market factor that trade in the local and international markets.

- (ii) Quoted prices in active markets

The fair value for instruments with quoted prices in active markets is determined using daily quotes from electronic systems information such as Bolsa de Comercio de Santiago, Bloomberg, LVA and Risk America terminals. This quote represents the price at which the instrument is frequently bought and sold in financial markets.

- (iii) Valuation techniques

If there is not market quotes in active markets for the financial instrument, valuation techniques will be used to determine the fair value.

Due to the fact that fair value models require a set of market parameters as inputs, it is part of the fair value process to maximize the utilization based in observable quoted prices or derived from similar instruments in active markets. Nevertheless there are some cases for which neither quoted prices nor derived prices are available; in these cases external data from specialized providers, price for similar transactions and historical information it is used for validate the parameters that will be used as inputs.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

39. Fair Value of Financial Assets and Liabilities, continued:

(iv) Fair value adjustments

Part of the fair value process considers two Market Value Adjustments or MVA for each instrument taking into account different market facts; bid/offer spreads and market factors liquidity. The bid/offer spread adjustment reflects the expected impact on fair value due to close long or short positions in a specific market factor and term, valued at midpoint. For example, long positions in an asset will be impacted in order to reflect the fact that in selling that position will be quoted at bid instead at midpoint. For the bid/offer spread adjustment, market quotes or indicative prices for each position, instrument, currency and term are used, Bid, mid and offer market quotes are considered.

The liquidity adjustment considers the relative size to the market of each position in the portfolio. This adjustment is intended to reflect the relative size of Banco de Chile and the deepness of the markets. For this adjustment, the size of each position, recent transaction in active markets and recently observed liquidity are taking into account.

(v) Fair value control

To ensure that the market input parameters that Banco de Chile is using for fair value calculations represent the state of the market and the best estimate of fair value, the PCU unit runs on a daily basis an independent verification of prices and rates. This process aims to set a preventive control on the market parameters provided by the respective business area, A comparative control based on Mark-to-Market differences, using one set of inputs prepared by the business area and one set prepared by the PCU, is conducted before fair value calculations. The output of this process is a set of differences in fair value by currency, product and portfolio. These differences are compared with specific ranges by grouping level; currency, product and portfolio.

In the event that significant differences are detected, these differences are measured and scaled according to the amount of materiality for each grouping level, ranging from a single report to the trader to a report to the Board. These ranges of materiality control are approved by the Assets and Liabilities Committee (ALCO).

Complementary and in parallel, the PCU generates daily reports of P&L and risk market exposure. These two kind of reports allows adequate control and consistency in the parameters used in valuations and backwards looking revisions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

39. Fair Value of Financial Assets and Liabilities, continued:

(vi) Judgmental analysis and information to Senior Management,

In particular, in cases where there are no market quotations for the instrument, similar transaction prices, or indicative parameters, a reasoned analysis and specific controls should be made to estimate the fair value of the operation or transaction. Within the Banco de Chile's framework for fair value, described in the Fair Value Policy approved by the Board of Banco de Chile, the approval level required to operate this kinds of instruments, there is no market information or cannot be inferred from prices or rates, is established.

(a) Fair value hierarchy

Banco de Chile and subsidiaries, taken into account the preceding statements, classify all the financial instruments among the following levels:

Level 1: Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities that the Bank can access at the measurement date.

In this level are considered the following instruments: currency futures, Chilean Central Bank and Treasury securities, mutual funds investments and equity.

For the Chilean central bank and treasury securities, all instruments that belong to one of the following benchmark groups will be considered as Level 1: Pesos-02, Pesos-05, Pesos-07, Pesos-10, UF-02, UF-05, UF-07, UF-10, UF-20, UF-30. A benchmark group is composed by a number of instruments that have similar duration and share the same quoted price within the group. This condition allows for a greater depth of the market, assuring daily observable quotes.

For each and every one of these instruments exist daily observable market valuation parameters; internal rates of return and closing prices, respectively, therefore no assumptions are needed to calculate the fair value. For currency futures as well as mutual funds and equity, to determine fair value, the multiplication of closing prices by the number of instruments is used. For Chilean Central Bank and Treasury securities the internal rate of return is used to discount every cash flow and obtain the fair value of each instrument. For mutual funds and equity, the current price multiplied by the quantity of instruments is used to calculate the fair value.

The preceding described methodology corresponds to the one utilized for the Bolsa de Comercio de Santiago (Santiago's main Exchange) and is recognized as the standard in the market.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

39. Fair Value of Financial Assets and Liabilities, continued:

(a) Fair value hierarchy, continued

Level 2: Valuation techniques whose inputs are other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly. For instruments in this level the valuations is performed based on an inference from observable market parameters; such quoted prices for similar instruments in active markets.

In this level are included the following inputs:

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs other than quoted prices those are observable for the asset or liability.
- d) Inputs those are derived principally from or corroborated by observable market data.

This level is composed mostly by derivatives, currency and rate derivatives, bank's debt securities, debt Chilean and foreign companies, made in Chile and abroad, mortgage claims, money market instruments and less liquid Chilean Central Bank and Treasury securities.

For derivatives the fair value process depends upon this value is impacted by volatility as a relevant market factor; if is the case, the Black-Scholes-Merton type of formula is used. For the rest of the derivatives, swaps and forwards, net present value through discounted cash flows is used. For securities classified as level 2, the obtained internal rate of return is used to discount every cash flow and obtain the fair value of each instrument, for each currency.

In the event that there is no observable price for an instrument in a specific term, the price will be inferred from the interpolation between periods that do have observable quoted price in active markets. These models incorporate various market variables, including foreign exchange rates and interest rate curves.

With the purpose to determine the sensitivity of the financial investments to changes in significant factors market, the Bank has made alternative calculations at fair value, changing those key parameters for the valuation and which are not directly observables in screens. In the case of financial assets presented above table, which corresponds to bank bonds and corporate bonds, considering that these instruments do not have current prices or observables, was used as inputs prices, prices based on Non-Binding broker quotes or runs. Prices are generally calculated as a base rate plus a spread. For local bonds, this was determined by applying only a 10% impact on the price, while for offshore bonds this was determined by applying only a 10% impact on the spread because the base rate is hedged with instruments on interest rate swaps so-called hedge accounting. The impact of 10% is considered a reasonable move considering the market performance of these instruments and comparing it against the adjustment bid/offer that is provided for by these instruments.

(e) Other assets and liabilities

The following table summarizes the fair values of the Bank's main financial assets and liabilities that are not recorded at fair value in the Statement of Financial Position. The values shown in this note do not attempt to estimate the value of the Bank's income-generating assets, nor forecast their future behavior. The estimated fair value is as follows:

| | Book Value | | Fair Value | |
|--|------------------------|---------------------------|------------------------|---------------------------|
| | March 2015 MCh\$ | December 2014 MCh\$ | March 2015 MCh\$ | December 2014 MCh\$ |

39. Fair Value of Financial Assets and Liabilities, continued:

(e) Other assets and liabilities, continued:

Other financial assets and liabilities not measured at fair value, but for which a fair value is estimated even when not managed based on this value, include assets and liabilities such as loans, deposits and other time deposits, debt issued and other financial assets and liabilities with different maturities and characteristics. The fair values of these assets and liabilities are calculated using the model of discounted cash flow (DCF) and the use of various sources of data such as yield curves, credit risk spreads, etc. Additionally, because some of these assets and liabilities are not traded in the market, it requires analysis and periodic reviews to determine the suitability of inputs and fair values determined.

The following table shows the fair value of financial assets and liabilities not measured at fair value, as of March 31, 2015 and 2014:

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

39. Fair Value of Financial Assets and Liabilities, continued:

(f) Levels of other assets and liabilities, continued:

The Bank determines the fair value of these assets and liabilities according to the following:

- Short-term assets and liabilities: For assets and liabilities maturing short-term (less than three months) it is assumed that the book values approximate their fair value. This assumption is applied to the following assets and liabilities:

- | | |
|--|--|
| • Cash and due from banks | • Current accounts and other demand deposits |
| • Transactions in the course of collection (asset) | • Transactions in the course of payments (liability) |
| • Cash collateral on securities borrowed and reverse repurchase agreements (asset) | • Cash collateral on securities lent and repurchase agreements (liability) |
| • Loans and advance to banks | • Other financial obligations |

- Loans to Customers: Fair value is determined by using the DCF model and internally generated discount rates, based on internal transfer rates derived from our transfer price policy. After we calculate the present value, we deduct the related loan loss allowances in order to incorporate the credit risk associated with each contract or loan. As we use internally generated parameters for valuation purposes, we categorize these instruments in Level 3.

- Letters of Credit and Bonds: In order to determine the present value of contractual cash flows, we apply the DCF model by using market interest rates that are available in the market, either for the instruments under valuation or instruments with similar features that fit valuation needs in terms of currency, maturities and liquidity. Market interest rates are obtained from third party price providers widely used by the market. As a result of the valuation technique and the quality of inputs (observable) used for valuation, we categorize these financial liabilities in Level 2.

- Saving Accounts, Time Deposits, Borrowings from Financial Institutions and Subordinated Bonds: The DCF model is used to obtain the present value of committed cash flows by applying a bucket approach and average adjusted discount rates that are derived from both market rates for instruments with similar features and our transfer price policy. As we use internally generated parameters and/or apply significant judgmental analysis for valuation purposes, we categorize these financial assets/liabilities in Level 3.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

39. Fair Value of Financial Assets and Liabilities, continued:

(g) Offsetting of financial assets and liabilities:

The Bank trades financial derivatives with foreign counterparties using ISDA Master Agreement (International Swaps and Derivatives Association, Inc.), under legal jurisdiction of the City of New York USA or London United Kingdom. Legal framework in these jurisdictions, along with documentation mentioned, it allows to Banco de Chile the right to anticipate the maturity of the transaction and then, offset the net value of those transactions in case of default of counterparty. The Bank has negotiated with these counterparties an additional annex (CSA Credit Support Annex), including other credit mitigating, such as margins about a certain threshold, early termination (optional or mandatory), coupon adjustment transaction over a certain threshold amount, etc.

Below are detail contracts susceptible to offset:

| | Fair Value | | Negative Fair Value of contracts with right to offset | | Positive Fair Value of contracts with right to offset | | Financial Collateral | | Net Fair Value | |

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

41. Subsequent Events:

(a) On April 9, 2015, the Board of Directors of Banco de Chile accepted the resignation of the Director Mr. Juan José Bruchou.

Also, the Board of Directors appointed Mr. Samuel Libnic as a new Director until the next Ordinary Shareholder Meeting.

(b) On April 23, 2015 the Board of Banchile Corredores de Bolsa S.A. accepted the resignation of the Alternate Director of the company Mr. Samuel Libnic.

In Management's opinion, there are no other significant subsequent events that affect or could affect the Interim Condensed Consolidated Financial Statements of the Bank and its subsidiaries between March 31, 2015 and the date of issuance of these Interim Condensed Consolidated Financial Statements.
