Forward-Looking Statements

This report contains statements that constitute forward-looking statements. Those statements appear in a number of places in this report and include, without limitation, statements regarding the intent, belief and current expectations of the Company, its directors or its officers with respect to the Company's policies regarding investments, dispositions, financings, conflicts of interest and other matters; and trends affecting the Company's financial condition or results of operations. Any such forward-looking statement is not a guarantee of future performance and involves risks and uncertainties, and actual results may differ materially from those in the forward-looking statement as a result of various factors. The accompanying information contained in this report, including without limitation the information set forth above and the information set forth under the heading, "Management's Discussion and Analysis of Results of Operations and Financial Condition," identifies important factors that could cause such differences. With respect to any such forward-looking statement that includes a statement of its underlying assumptions or bases, the Company cautions that, while it believes such assumptions or bases to be reasonable and has formed them in good faith, assumed facts or bases almost always vary from actual results, and the differences between assumed facts or bases and actual results can be material depending on the circumstances. When, in any forward-looking statement, the Company, or its management, expresses an expectation or belief as to future results, that expectation or belief is expressed in good faith and is believed to have a reasonable basis, but there can be no assurance that the stated expectation or belief will result or be achieved or accomplished.

PART I

[Item 1]

BUSINESS

GENERAL

The Company was incorporated as Magenta Corp. on January 15, 1986, in the State of Nevada. The Company was formed to acquire businesses that would provide a profit to the Company. The Company had no operating business until control of it was acquired in December, 1994, by the former shareholders of Billion Luck, who exchanged all of the issued and outstanding shares of capital stock of Billion Luck for 108,000 shares of the Company's Common Stock. As a result of the acquisition, the former shareholders of Billion Luck acquired 90%

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

of the issued and outstanding shares of the then outstanding Common Stock of the Company and the Company became the owner of all the outstanding shares of capital stock of Billion Luck.

Billion Luck was incorporated in the British Virgin Islands on December 14, 1993. It conducts its activities through its 56% interest in HARC. HARC was established in Hainan Province, the People's Republic of China, by Billion Luck, Guilinyang Farm, and the Farming Bureau. Pursuant to an approval document dated March 16, 1997, issued by the Hainan Provincial Securities Management Office, the name of HARC was changed from "Hainan Agricultural Resources Company Limited" to "Hainan Zhongwei Agricultural Resources Company Limited."

HARC is a Chinese company incorporated on June 28, 1994, with a registered capital of Rmb100 million (US\$12.08 million). Billion Luck made a cash contribution of Rmb56 million (US\$6.76 million) to purchase a 56% interest in HARC. The remaining interests in HARC were acquired by Guilinyang Farm (5%) for a cash contribution of Rmb5 million (US\$0.60 million) and by the Farming Bureau (39%) through the contribution of its interests in two of its subsidiaries, First Supply and Second Supply, which were valued at Rmb39 million (US\$4.71 million). Pursuant to an agreement dated January 31, 1994, between Billion Luck, Guilinyang Farm, and the Farming Bureau, the parties thereto agreed to establish HARC to act as the holding company of First Supply and Second Supply. Pursuant to an Agreement for the Sale and Purchase of Share in HARC dated April 30, 1998 between Guilinyang Farm and the Company, the Company purchased 5,000,000 shares, representing 5% of the total issued and outstanding share capital of HARC, from Guilinyang Farm for consideration of Rmb7 million (US\$0.85 million). Following the acquisition, the Company's effective interest in HARC became 61%. The remaining interest in HARC of 39% is held by the Farming Bureau.

Before January 1, 2000, the Company's two primary businesses were the marketing and distribution of natural rubber and the procurement of production materials, supplies and other agricultural products. The Company, through HARC, First Supply and Second Supply, purchased natural rubber produced by the Hainan State Farms and sold the natural rubber to customers throughout the PRC, such as tire manufacturers, rubber processing plants, and import and export companies. As part of its risk management strategy, the Company, through HARC, First Supply and Second Supply, entered into commodity futures contracts to hedge against the exposure to price risk associated with existing inventories and certain firm commitments for the purchase of natural rubber. The Company also entered into natural rubber commodity futures contracts that were not specific hedges, in anticipation of a rise or fall in the price of natural rubber, based on their knowledge of the supply and demand situation with respect to natural rubber in the PRC. In addition, First Supply and Second Supply procured, for the Farming Bureau, the Hainan State Farms and other affiliated customers, many types of production materials, such as automobiles, farm equipment, fuel, and chemicals, as well as for other customers unaffiliated with the Farming Bureau. Pursuant to a Shareholders' Agreement on Business Restructuring dated March 3, 2000 among the Company, Billion Luck and the Farming Bureau, the natural rubber distribution business and the procurement of materials and supplies business of HARC, First Supply and Second Supply ceased effective as of January 1, 2000. In the view of management, the performance of natural rubber distribution and the materials and supplies procurement business had been unsatisfactory for some time since 1998. Management estimated that the poor operating environment of these businesses persisted for the foreseeable future. Management determined that it was in the best interest of the Company to cease the operations of these two businesses. The cessation was expected to reduce selling and administrative and improve operating and management efficiency, allowing management to focus on exploring other investment opportunities.

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

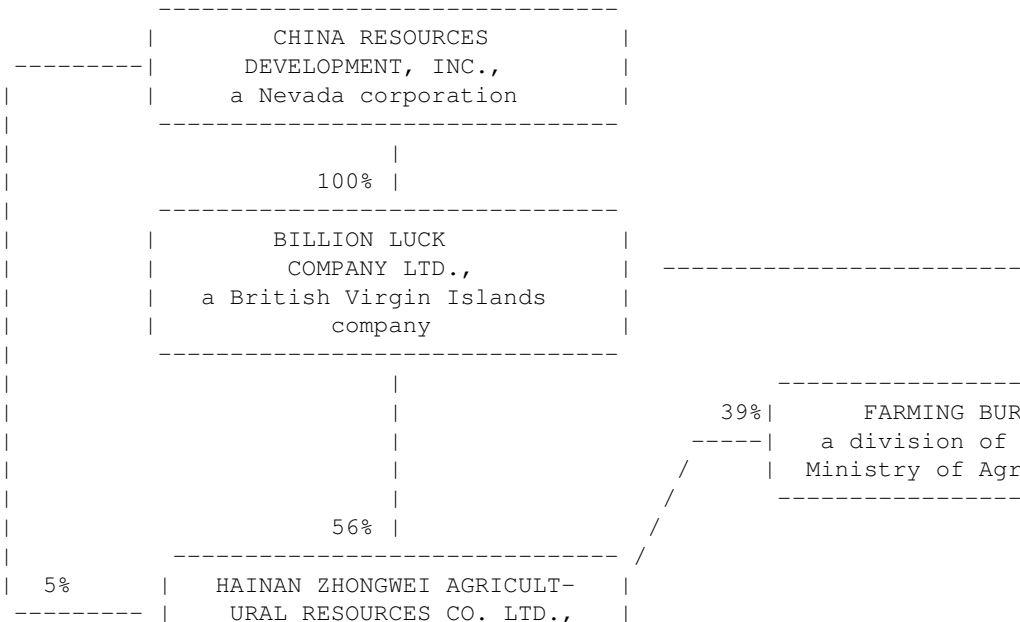

Zhongwei Trading was incorporated on September 28, 1998, with a registered capital of Rmb5 million (US\$0.60 million). Zhongwei Trading is owned 95% by HARC and 5% by Billion Luck. Since its commencement of operation in 1999, Zhongwei Trading has invested in the marketable securities in the China Stock Market as short-term investments. As opportunities arise, Zhongwei Trading shall expand its business in the trading of other products.

Zhuhai Zhongwei, was incorporated on May 18, 1999, with a registered capital of Rmb6 million (US\$0.72 million). Zhuhai Zhongwei is a wholly-owned subsidiary of HARC and is mainly engaged in the operation of a supermarket in Zhuhai, PRC, which sells food and daily products.

Hainan Weilin was incorporated on June 22, 1999, with a registered capital of Rmb8.56 million (US\$1.03 million). Hainan Weilin is owned 58% by HARC and 42% by Haikou Mechanical Factory, a PRC entity which is owned and controlled by the Farming Bureau, and is mainly engaged in the sale of processed timber wooden blocks.

Silver Moon is a British Virgin Islands company incorporated on March 24, 2000. The principal business of Silver Moon and its wholly-owned subsidiary, Medi-China (formerly known as Sky Creation Technology Limited), a Hong Kong company incorporated on October 15, 1999, is the provision of online Internet healthcare content, through its website, medi-china.com, which offers health-related content in both English and Chinese, with a focus on Chinese herbal medicine and therapies. On June 30, 2000, the Company acquired an 80% equity interest in Silver Moon for total consideration of US\$1.5 million through the issuance of 244,897 shares of unregistered restricted common stock to Silver Moon's former sole equity owner, E-link Investment Limited. The number of shares issued was based upon a per share price of US\$6.125, which was the closing bid price of the Company's common stock as quoted on the Nasdaq SmallCap Market on June 29, 2000. For the year ended December 31, 2000, neither Silver Moon nor Medi-China has revenue contribution to the Company.

The following chart illustrates the equity ownership by percentage of each of the Company's principal operating subsidiaries as of December 31, 2000:

Organizational and Management Structure of HARC

During the first quarter of 2000, HARC undertook a restructuring plan, designed to cease the operations of its two primary businesses, the marketing and distribution of natural rubber and the procurement of production materials, supplies and other agricultural products, which were originally conducted by First Supply, Second Supply and Sales Centre. Under the restructuring plan, the operations of First Supply, Second Supply and Sales Centre were ceased and the assets, liabilities and staff related thereto were transferred to the Farming Bureau, effective as of January 1, 2000. The purchase price was the book value or the fair value of the net assets transferred, as determined by an independent valuer, as of December 31, 1999, whichever was lower. The restructuring plan reduces selling and administrative expenses as the two businesses are ceased and improve operating and management efficiency as non-profitable assets are sold, allowing management to focus on exploring other investment opportunities. After the restructuring plan, First Supply, Second Supply and Sales Centre have become dormant.

5

As part of the restructuring, HARC has set up several new lines of businesses, including supermarket operations (through Zhuhai Zhongwei) and sale of processed timber wooden blocks (through Hainan Weilin). However, the scale of operation of the new businesses remained relatively small during 2000, and timber processing operations have been temporarily suspended.

HARC has a two-tier structure with a board of directors and a supervisory committee. The board of directors is responsible for the day-to-day management of and all major decisions relating to HARC (except decisions that may be made by HARC's shareholders during a general meeting of the shareholders). The board of directors is also responsible for exploring business opportunities and making investment decisions. As of December 31, 2000, the board of directors was made up of 5 members, of which two were nominated by the Farming Bureau and three were nominated by Billion Luck. The Chairman of HARC was nominated by the Farming Bureau, and the Vice-Chairman was nominated by Billion Luck.

The supervisory committee is responsible for supervising the board of directors and the senior management of HARC in order to prevent the abuse of rights and infringement of the interests of HARC and its shareholders and employees. Among other responsibilities, members of the supervisory board attend meetings of the board of directors and observe HARC's managers to ensure that their acts do not contravene any laws or regulations or HARC's articles of association or the resolutions of HARC's shareholders in meetings thereof. As of December 31, 2000, the supervisory board was made up of three members, one of which was nominated by Billion Luck, the Farming Bureau and the employees of HARC, respectively.

SUPERMARKET OPERATIONS

The Company, through Zhuhai Zhongwei, has been engaged in the supermarket operations since the fourth quarter of 1999. The supermarket which Zhuhai Zhongwei operates is located in Zhuhai City of Guangdong Province. The supermarket sells food and consumer products to customers in the PRC.

Zhuhai Zhongwei maintains numerous suppliers for its sources of consumer products, and no single supplier accounted for more than 10% of total purchases of consumer products in either 1999 or 2000. The value of total purchases of consumer products was approximately Rmb1.1 million (US\$133,000) and Rmb4.3 million (US\$519,000) in 1999 and 2000, respectively. The top five suppliers accounted for approximately 28% and 24% of total purchases in 1999 and 2000, respectively. All purchases were made in Renminbi on either cash basis or open account basis payable within 7 to 30 days.

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

Zhuhai Zhongwei targets the residents of Zhuhai City as its customers and no single customer accounted for more than 5% of total revenues from the sales of consumer products in either 1999 or 2000, due to the nature of retail business. All sales from supermarket operations are in Renminbi on cash basis.

PROCESSED TIMBER

The Company, through Hainan Weilin, has been engaged in the processing and sale of timber with an annual production capacity of 5,000 cubic meters. The processing factory has been operated from early 2000 through October 2000 at one third of its full capacity. Due to the high cost of production, as a result of limited sources of supply of raw materials, and the poor market condition, the Company has decided to temporarily suspend processed timber operations.

PRC LEGAL SYSTEM

The PRC legal system is based on the PRC Constitution and is made up of written laws, regulations and directives. Decided court cases do not constitute binding precedents.

The National People's Congress of the PRC ("NPC") and the Standing Committee of the NPC are empowered by the PRC Constitution to exercise the legislative power of the state. The NPC has the power to amend the PRC Constitution and to enact and amend primary laws governing the state organs, civil and criminal matters. The Standing Committee of the NPC is empowered to interpret, enact and amend laws other than those required to be enacted by the NPC.

8

The State Council of the PRC is the highest organ of state administration and has the power to enact administrative rules and regulations. Ministries and commissions under the State Council of the PRC are also vested with the power to issue orders, directives and regulations within the jurisdiction of their respective departments. Administrative rules, regulations, directives and orders promulgated by the State Council and its ministries and commissions must not be in conflict with the PRC Constitution or any national laws. In the event that any conflict arises, the Standing Committee of the NPC has the power to annul such administrative rules, regulations, directives and orders.

At the regional level, the people's congresses of provinces and municipalities and their standing committees may enact local rules and regulations, and the people's government may promulgate administrative rules and directives applicable to their own administrative area. These local laws and regulations may not be in conflict with the PRC Constitution, any national laws or any administrative rules and regulations promulgated by the State Council.

Rules, regulations or directives may be enacted or issued at the provincial or municipal level or by the State Council of the PRC or its ministries and commissions in the first instance for experimental purposes. After sufficient experience has been gained, the State Council may submit legislative proposals to be considered by the NPC or the Standing Committee of the NPC for enactment at the national level.

The power to interpret laws is vested by the PRC Constitution in the Standing Committee of the NPC. According to the Decision of the Standing Committee of the NPC Regarding the Strengthening of Interpretation of Laws

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

passed on June 10, 1981, the Supreme People's Court has the power to give general interpretation on application of laws in judicial proceedings apart from its power to issue specific interpretation in specific cases. The State Council and its ministries and commissions are also vested with the power to give interpretation of the rules and regulations which they promulgated. At the regional level, the power to give interpretations of the regional laws is vested in the regional legislative and administration organs which promulgate such laws. All such interpretations carry legal effect.

The people's courts are the judicial organs of the PRC. Under the PRC Constitution and the Law of Organization of the People's Courts of the PRC, the People's Courts are comprised of the Supreme People's Court, the local people's courts, military courts and other special people's courts. The local people's courts are divided into three levels, namely, the basic people's courts, intermediate people's courts and higher people's courts. The basic people's courts are divided into civil, criminal and economic divisions. The intermediate people's courts have divisions similar to those of the basic people's courts and where the circumstances so warrant, may have other special divisions (such as intellectual property divisions). The judicial functions of people's courts at lower levels are subject to supervision of people's courts at higher levels. The people's procuratorates also have the right to exercise legal supervision over the civil proceedings of people's courts of the same and lower levels. The Supreme People's Court is the highest judicial organ of the PRC. It supervises the administration of justice by the people's courts of all levels.

The people's courts adopt a two-tier final appeal system. A party may, before the taking effect of a judgment or order, appeal the judgment or order first to a local people's court, then to the people's court at the next higher level. Judgments or orders at the next higher level are final and binding. Judgments or orders of the Supreme People's Court are also final and binding. If, however, the Supreme People's Court or a people's court at a higher level finds an error in a final and binding judgment which has taken effect in any people's court at a lower level, or the presiding judge of a people's court finds an error in a final and binding judgment which has taken effect in the court over which he presides, a retrial of the case may be conducted according to the judicial supervision procedures.

The PRC civil procedures are governed by the Civil Procedure Law of the PRC (the "Civil Procedure Law") adopted on April 9, 1991. The Civil Procedure Law contains regulations on the institution of a civil action, the jurisdiction to the people's courts, the procedures in conducting a civil action, trial procedures and procedures for the enforcement of a civil judgment or order. All parties to a civil action conducted within the territory of the PRC must comply with the Civil Procedure Law. A civil case is generally heard by a court located in the defendant's place of domicile. The jurisdiction may also be selected by express agreement by the parties to a contract provided that the jurisdiction of the people's court selected has some actual connection with the dispute, that is to say, the plaintiff or the defendant is located or domiciled or the contract was executed or implemented in the jurisdiction selected, or the subject-matter of the proceedings is located in the jurisdiction. A foreign national or foreign enterprise is accorded the same litigation rights and obligations as a citizen or legal person of the PRC. If any party to a civil action refuses to comply with a judgment or order made by a people's court or an award made by an arbitration body in the PRC, the aggrieved party may apply to the people's court to enforce the judgment, order or award. There are time limits on the right to apply for such enforcement. Where at least one of the parties to the dispute is an individual, the time limit is one year. If both parties to the dispute are legal persons or other entities, the time limit is six months.

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

A party seeking to enforce a judgment or order of a people's court against a party who or whose property is not within the PRC may apply to a foreign court with jurisdiction over the case for recognition and enforcement of such judgment or order. A foreign judgment or ruling may also be recognized and enforced according to PRC enforcement procedures by the people's courts in accordance with the principle of reciprocity or if there exists an international or bilateral treaty with or acceded to by the foreign country which provides for such recognition and enforcement, unless the people's court considers that the recognition or enforcement of the judgment or ruling will violate fundamental legal principles of the PRC and its sovereignty, security or social or public interest.

The Arbitration Law of the PRC (the "Arbitration Law") was promulgated by the Standing Committee of the NPC on August 31, 1994 and came into effect on September 1, 1995. It is applicable to, among other matters, trade disputes involving foreign parties where the parties have entered into a written agreement to refer the matter to arbitration before an arbitration committee constituted in accordance with the Arbitration Law. Under the Arbitration Law, an arbitration committee may, before the promulgation by the PRC Arbitration Association of arbitration regulations, formulate interim arbitration rules in accordance with the Arbitration Law and the Civil Procedure Law. Where the parties have by an agreement provided arbitration as a method for dispute resolution, the parties are not permitted to institute legal proceedings in a people's court.

The China International Economic and Trade Arbitration Commission ("CIETAC"), established in Beijing under the auspices of the China Council for the Promotion of International Trade with branches in Shenzhen and Shanghai, is one of two domestic arbitration organizations in the PRC charged with arbitrating foreign-related disputes. Under the new CIETAC arbitration rules, which came into effect on June 1, 1994, CIETAC has jurisdiction over any dispute arising from "international or external economic and trade transactions" with respect to which an arbitration agreement selecting CIETAC arbitration has been reached. The other arbitration organization exclusively arbitrates foreign-related maritime disputes.

The CIETAC rules provide that an award rendered by a CIETAC tribunal shall be final and binding on the parties. The Civil Procedure Law also provides that a PRC court may only refuse to enforce a CIETAC final award in the event of procedural errors relating to the jurisdiction of CIETAC over a given dispute or the failure by an arbitration tribunal to abide by CIETAC rules, and may also deny execution of the award in the event that it determines that doing so would be against the "public interest".

In deciding the substantive aspects of a dispute, the CIETAC arbitration tribunal must look to the governing law of the contract. PRC foreign economic contract law permits the parties to choose foreign or PRC law as the governing law in most cases. In the event that the parties have not chosen a governing law, PRC choice of law rules provide for the selection of the law which has the closest connection to the subject matter of the dispute.

Under the Arbitration Law, an arbitral award is final and binding on the parties and if a party fails to comply with an award, the other party to the award may apply to the people's court for enforcement. A people's court may refuse to enforce an arbitral award made by an arbitration commission if there were mistakes, an absence of material evidence or irregularities over the arbitration proceedings or the jurisdiction or constitution of the arbitration committee.

A party seeking to enforce an arbitral award of a foreign affairs arbitration body of the PRC against a party who or whose property is not within the PRC may apply to a foreign court with jurisdiction over the case for

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

enforcement. Similarly, an arbitral award made by a foreign arbitration body may be recognized and enforced by the PRC courts in accordance with the principles of reciprocity or any international treaty concluded or acceded to by the PRC. In respect to contractual and non-contractual commercial-law-related disputes which are recognized as such for the purposes of the PRC laws, the PRC has acceded to the Convention on the Recognition and Enforcement of Foreign Arbitral Awards (the "New York Convention") adopted on June 10, 1958 pursuant to a resolution of the Standing Committee of the NPC passed on December 2, 1986. The New York Convention provides that all arbitral awards made by a state which is a party to the New York Convention shall be recognized and enforced by other parties to the New York Convention subject to their right to refuse enforcement under certain circumstances including where the enforcement of the arbitral award is against the public policy of the state to which the application for enforcement is made. It was declared by the Standing Committee of the NPC at the time of the accession of the PRC that (1) the PRC will only recognize and enforce foreign arbitral awards on the principle of reciprocity and (2) the PRC would only apply the New York Convention in disputes considered under PRC laws to be arising from contractual and non-contractual mercantile legal relations.

The activities of the Company's principal subsidiaries in China are by law subject, in some cases, to administrative review and approval by various national, provincial, and local agencies of the Chinese government. While China has promulgated an Administrative Procedure Law permitting redress to the courts with respect to certain administrative actions, this law appears to be largely untested in this context. Although the Company believes that the support of local, provincial, and national governmental entities benefits the Company's operations in connection with administrative reviews and receiving approvals, there can be no assurance that such approvals, when necessary or advisable, will be forthcoming.

PROPERTIES

The office space, supermarket, timber processing factory and other facilities of HARC and its principal subsidiaries are located in Hainan, Zhuhai and Shenzhen in the PRC. HARC, First Supply and Second Supply previously used warehouse and other facilities consisting of a total gross area of approximately 11,000 square meters for their distribution of natural rubber business and procurement of materials and supplies business, which were transferred to the Farming Bureau pursuant to the Restructuring Agreements effective as of January 1, 2000. The structure and building in respect of the supermarket which the Company operates is owned by Zhuhai Zhongwei with a total gross area of 720 square meters. The structure and building in respect of the timber processing business was rented by Hainan Weilin from Haikou Mechanical Factory for a period of 1 year ended on November 1, 2000 with a total gross area of 7,000 square meters. The total rental was Rmb400,000 (US\$48,000).

The Farming Bureau has also entered into a rental agreement with HARC with respect to the rental of a portion consisting of 532 square meters of a building located in Haikou City, PRC, in which HARC's offices are located. Such rental agreement is for a period of 10 years at an annual rental of Rmb170,240 (US\$20,560) payable in equal semi-annual installments. The rental agreement further provides that HARC shall be responsible for certain costs and expenses in connection with its use of the property. On August 9, 1996, an additional rental agreement was entered into between HARC and the Hainan Farming Bureau Testing Center, an affiliate of the Farming Bureau, covering additional portions of the same building. The term of the lease is for a period of eight years (through September 30, 2004), and it covers an area of approximately 314 square meters at an annual rental rate of Rmb72,000 (US\$8,696). On July 1, 2000,

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

pursuant to mutual agreement, both parties agreed to terminate the additional rental agreement.

HARC also maintains a branch office in Shenzhen with a total gross area of 708 square meters. The rental agreement is for a period of 8 years from December 1, 1999 to December 1, 2007 at an annual rental of Rmb509,540 (US\$61,538).

[Item 5] MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's Common Stock is quoted on the electronic inter-dealer quotation system operated by The Nasdaq Stock Market, Inc. ("The Nasdaq Stock Market"), a subsidiary of the National Association of Securities Dealers, Inc. ("NASD"), in the category of Small Cap Issues. The Company's Common Stock has been traded since August 7, 1995, on The Nasdaq Stock Market under the symbol "CHRB." Prior to such date, the Company's Common Stock was traded in the over-the-counter market on the OTC Bulletin Board (the "Bulletin Board")

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

operated by the NASD under the symbol "CEVL." Until August 7, 1995, there was only a limited trading market for the Company's Common Stock. The following table sets forth the high and low bid prices for the Company's Common Stock as reported by The Nasdaq Stock Market for each fiscal quarter of 1999 and 2000. The bid prices are inter-dealer prices, without retail markup, markdown or commission, and may not necessarily reflect actual transactions. All of the below quotations were obtained from Bloomberg Business News, and the quotations have been adjusted to give retroactive effect to the one-for-ten reverse stock split that was effective as of June 11, 1999:

Period -----	High Bid -----	Low Bid -----
2000 Fiscal Year, quarter ended:

December 31, 1999.....	24.5	3.9

On March 30, 2001, there were 2,449 holders of record of the Company's Common Stock.

12

The Company has not paid any dividends with respect to its Common Stock and has no present plan to pay any dividends in the foreseeable future. The Company intends to retain its earnings to support the growth and expansion of its business.

Any dividends paid in the future by the Company will be paid at the discretion of the Company's Board of Directors and will be dependent upon distributions, if any, made by HARC to the Company's wholly-owned subsidiary, Billion Luck. Applicable PRC law and HARC's Articles of Association (the "Articles") require that, before HARC, as a limited joint stock company, distributes profits to investors, it must (1) satisfy all taxes; (2) provide for all losses incurred in previous years; and (3) allocate a specified percentage of remaining profits to each of the following: a surplus reserve (in the amount of 10% of such remaining profits), a collective welfare fund (in the amount of 10% of such remaining profits), and an incentive fund (in an amount between 5% and 10% of such remaining profits). The Articles provide that the foregoing may be adjusted by the HARC'S board of directors based upon HARC's business performance and development needs, subject to the approval of HARC's shareholders. Distributions of profits by HARC to Billion Luck are required to be pro rata in proportion to such party's investment in such company. In addition to the foregoing, any future determination to pay a dividend to holders of shares of Common Stock will depend on the Company's results of operations, its financial condition and other factors deemed relevant by the Board of Directors. Since the acquisition of Billion Luck by the Company in December 1994, the Company has not received any distributions from any of its subsidiaries and has not made any distributions to its shareholders.

OVERVIEW

The Company

The Company is a Nevada holding company which controls a 61% interest in HARC (56% interest of HARC is owned by Billion Luck and a 5% interest of HARC is owned by the Company), a limited liability joint stock company organized in the PRC. The Company, through HARC, First Supply and Second Supply, previously engaged in marketing and distribution of natural rubber and rubber products produced by the Hainan State Farms and non-state farms in the PRC, procurement of production materials and supplies, including chemicals, farm equipment and machinery, automobiles and other commodities for use primarily by the Hainan State Farms and other unaffiliated customers, and trading in natural rubber commodity futures contracts. Pursuant to a Shareholders' Agreement on Business Restructuring dated March 3, 2000, among the Company, Billion Luck and the Farming Bureau, the natural rubber distribution business and the procurement of materials and supplies business ceased effective as of January 1, 2000. Pursuant to an Assets and Staff Transfer Agreement dated March 3, 2000, among the Farming Bureau, HARC, First Supply, Second Supply and Sales Centre, the assets, liabilities and staff related to the ceased businesses were transferred to the Farming Bureau effective as of January 1, 2000. The restructuring resulted in

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

the discontinuation of substantially all of the existing operations of the Company as of December 31, 1999. In the fourth quarter of 1999 and the first quarter of 2000, the Company undertook several new lines of businesses as part of the restructuring, including its new supermarket operations and the processed timber operation. Processed timber operations were suspended in October 2000. Because of the restructuring undertaken by the Company, operating results of prior years are not indicative of the operating results that may be expected in future years.

The Statements under "Results of Operations" and "Liquidity and Capital Resources" relate to the operations and financial condition of the Company and its subsidiaries.

Results of Operations

The following table shows the selected consolidated income statement data of the Company and its subsidiaries for each of the three fiscal years ended December 31, 1998, 1999 and 2000. Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

Year Ended December 31, 2000 Compared to Year Ended December 31, 1999

Sales - Materials, Supplies and Other Agricultural Products

The materials, supplies and other agricultural products had been discontinued effective as of January 1, 2000. The sales in 2000 represented the sales of old inventories as of December 31, 1999.

Sales - Supermarket Operations

The significant increase in sales was mainly due to the supermarket operations commenced during the fourth quarter of 1999. There was a full year operations in 2000

Sales - Processed Timber

Processed timber operations were set up in early 2000 and, therefore, there was no sales in 1999.

Gross Profit and Gross Profit Margin

Supermarket operations had gross profit and gross profit margin of Rmb1.0 million (US\$121,000) and 19.9%, respectively, for the year ended December 31, 2000. The sale of processed timber had a gross loss of Rmb503,000 (US\$61,000) or 36.1% on sales for the year ended December 31, 2000, as the processing factory was only operated at one-third of its full capacity during 2000.

Selling, General and Administrative Expenses

Selling and administrative expenses decreased by Rmb4.4 million (US\$536,000) or 18.6% to Rmb19.4 million (US\$2.3 million) in 2000 from Rmb23.9 million (US\$2.9 million) in 1999. The decrease was mainly due to the reduction of sales activities in 2000.

Financial Income, Net

Net financial income increased from Rmb864,000 (US\$104,000) in 1999 to Rmb7.9 million (US\$951,000) in 2000. The significant increase was mainly attributable to interest income earned of Rmb11 million (US\$1.3 million) in 2000 from a short term loan granted to an unaffiliated third party. The interest income was partly offset by a realized currency exchange loss amounted to Rmb3.8 million (US\$459,000), arising from the conversion of Renminbi to Hong Kong dollars.

Other Income/(Expenses), Net

Other income decreased by Rmb11.6 million (US\$1.4 million) to net expenses of Rmb1.3 million (US\$153,000) in 2000 from net income of Rmb10.3 million (US\$1.2 million) in 1999. Other income in 1999 represented the recovery of a margin deposit paid to a future broker of Rmb3 million (US\$362,000) which was provided for in 1998, dividend income from the Company's long-term investment that amounted to Rmb6.7 million (US\$809,000) and a net gain on trading of marketable securities. Net expenses in 2000 mainly represented the net gain on trading of marketable securities of Rmb1.5 million (US\$183,000), net loss on write-off of inventories of Rmb1.1 million (US\$133,000) and loss on disposal of property and equipment of Rmb1 million (US\$121,000).

Year Ended December 31, 1999 Compared to Year Ended December 31, 1998

Sales - Natural Rubber

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

Total net sales for the year ended December 31, 1999, decreased by Rmb27 million (US\$3.3 million) or 5.8% to Rmb443 million (US\$53.5 million), compared to Rmb470 million (US\$56.8 million) for the corresponding period in 1998. Although the average selling price of natural rubber increased from Rmb7,000 (US\$845) per ton in 1998 to Rmb8,300 (US\$1,002) per ton in 1999, the sales volume decreased by approximately 20% in 1999 compared to that of 1998. The decrease in sales volume was mainly due to the closure of China Commodity Futures Exchange ("CCFE") in Hainan, which was engaged in the trading of natural rubber commodity futures. This affected the overall demand for natural rubber as speculators in the futures market purchased a substantial quantity of natural rubber to hedge their exposure in the futures market in the past. The increase in selling price was mainly due to the stabilization of most Asian currencies in 1999. Therefore, the domestic natural rubber has become more competitive compared to imported natural rubber in terms of selling price (including VAT and import tariff).

16

Sales - Materials, Supplies and Other Agricultural Products

Net sales decreased by Rmb24.8 million (US\$3.0 million) or 43.0% to Rmb32.8 million (US\$4.0 million) in 1999 from Rmb57.6 million (US\$7.0 million) in 1998. The decrease was mainly due to sales of barley that amounted to Rmb29 million (US\$3.5 million) in 1998, which was a one-off transaction. As this product was unprofitable, management decided to suspend the trading of this product.

Sales - Supermarket Operations

Supermarket operations were commenced during the fourth quarter of 1999 and, therefore, there was no revenue contribution for 1998.

Gross Profit and Gross Profit Margin

Gross profit decreased by Rmb8.6 million (US\$1.0 million) or 50.6% to Rmb8.4 million (US\$1.0 million) in 1999 from Rmb17.1 million (US\$2.1 million) in 1998. The gross profit margin decreased from 3.2% in 1998 to 1.8% in 1999. The reason for the decline in gross profit margin was due to the fact that the Company was previously guaranteed a minimum gross profit margin of 3.5% on natural rubber purchased from the Hainan State Farms by the Farming Bureau, the guarantee was subsequently changed to 1.5% in view of the prevailing market conditions pursuant to an agreement effective as of April 1, 1999.

Loss on Impairment of an Investment

For the year ended December 31, 1998, the Company wrote down, in the aggregate, Rmb50 million (US\$6.0 million) against a long-term investment and an investment purchase deposit in a PRC listed company, due to an adverse change in the business environment in the PRC.

Selling, General and Administrative Expenses

Selling and administrative expenses decreased by Rmb11.6 million (US\$1.4 million) or 32.6% to Rmb23.9 million (US\$2.9 million) in 1999 from Rmb35.4 million (US\$4.3 million) in 1998. The decrease was mainly due to the reduction of sales activities by approximately 20% in 1999, better cost control on expenses, such as reduction of legal and professional fees, public relations and salaries expenses, and the write-off of margin deposits paid to two futures brokers amounted to Rmb4 million (US\$483,000) in 1998.

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

Financial Income, Net

Net financial income decreased from Rmb6.6 million (US\$797,000) in 1998 to Rmb864,000 (US\$104,000) in 1999. The significant decrease was mainly due to the decrease in average cash and cash equivalents as funds were shifted to short-term investments. In addition, part of the cash and cash equivalent was deposited to two securities companies in the PRC in 1998, which offered a better interest rate than that of other financial institutions.

Other Income, Net

Other income increased by Rmb6.3 million (US\$757,000) or 154% to Rmb10.3 million (US\$1.2 million) in 1999 from Rmb4.1 million (US\$492,000) in 1998. Other income in 1999 represented the recovery of a margin deposit paid to a future broker of Rmb3 million (US\$362,000) which was provided for in 1998, dividend income from the Company's long-term investment that amounted to Rmb6.7 million (US\$809,000) and a net gain on trading of marketable securities. Other income in 1998 represented the net gain on trading of commodity futures contracts, compensation received from an insurance company and the recovery of bad debts written-off in prior years.

LIQUIDITY AND CAPITAL RESOURCES

The Company's and its subsidiaries' primary liquidity needs are to fund inventories, trade receivable and operating expenses, and to expand business operations. The Company has financed its working capital requirements through the internally generated cash.

Net cash provided by/(used in) operating activities was Rmb35 million, (Rmb42 million) and Rmb175,000 (US\$21,000) in fiscal 1998, 1999 and 2000, respectively. Net cash flows from the Company's operating activities are attributable to the Company's income and changes in operating assets and liabilities.

Pursuant to an Assets and Staff Transfer Agreement dated March 3, 2000, the Farming Bureau purchased assets and assumed liabilities and staff related to the ceased businesses effective as of January 1, 2000. The purchase price was the book value or fair value of the net assets transferred (which was not differ materially from the book value), determined as of January 1, 2000, which amounted to Rmb70,527,000 (US\$8,518,000).

The Company believes that the internally generated funds will be sufficient to satisfy its anticipated working capital needs for at least the next 12 months.

Inflation

The Company's operations and financial results could be adversely affected by economic conditions and changes in the policies of the PRC government, such as changes in laws and regulations (or the interpretation thereof), including measures which may be introduced to regulate or stimulate the rate of economic growth. The rate of deflation of the PRC economy, based on published consumer price information, was 2.6 percent for 1998 and 3.0 percent for 1999. The PRC government has taken certain measures to stimulate domestic demand and consumption. There can be no assurance that these measures will be successful.

Market Risk and Risk Management Policies

All of the Company's sales and purchases are made domestically and are denominated in Renminbi. Accordingly, the Company and its subsidiaries do not have material market risk with respect to currency fluctuation. As the reporting currency of the Company's consolidated financial statements is also Renminbi, there is no significant translation difference arising on consolidation. However, the Company may suffer exchange loss when it converts Renminbi to other currencies, such as Hong Kong dollars or United States dollars.

The Company's interest income is most sensitive to changes in the general level of Renminbi interest rates. In this regard, changes in Renminbi interest rates affect the interest earned on the Company's cash equivalents. As of December 31, 2000, the Company's cash equivalents are mainly Renminbi, Hong Kong Dollar and United States Dollar deposits with financial institutions, bearing market interest rates without fixed term.

As of December 31, 2000, the Company had short-term investments in marketable securities in the Hong Kong stock market with a total market value of Rmb62 million (US\$7.5 million). These investments expose the Company to market risks that may cause the future value of these investments to be lower than the original cost of such investments at the time of purchase.

The Company wrote a call option to purchase certain marketable securities in Hong Kong on December 11, 2000 with an expiry date on February 11, 2001, which exposed the Company to market risk of an unfavourable change in the price of the security underlying the written option. The call option was subsequently left unexercised upon the expiry date.

The Company has a margin loan payable balance of Rmb19 million (US\$2.2 million) as at December 31, 2000 which was used to purchase marketable securities listed on the Hong Kong Stock Exchange. This margin loan bears interest at 12% as of December 31, 2000. The margin loan is due and repaid as the securities are sold.

STOCK OPTIONS

The Company adopted a Stock Option Plan (the "Plan") as of March 31, 1995. The Plan allows the Board of Directors, or a committee thereof at the Board's discretion, to grant stock options to officers, directors, key employees, consultants and affiliates of the Company. Initially, 24,000 shares of common stock could be issued and sold pursuant to options granted under the Plan. "Incentive Stock Options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), may be granted to employees, including officers, whether or not they are members of the Board of Directors, and nonqualified stock options may be granted to any such employee or officer and to directors, consultants, and affiliates who perform substantial services for or on behalf of the Company or its subsidiaries.

25

The Board of Directors, or a committee appointed by the Board (the "Committee"), is vested with authority to (i) select persons to participate in the Plan; (ii) determine the form and substance of grants made under the Plan to each participant, and the conditions and restrictions, if any, subject to which grants will be made; (iii) interpret the Plan; and (iv) adopt, amend, or rescind such rules and regulations for carrying out the Plan as it may deem appropriate. The Board of Directors has the power to modify or terminate the Plan and from time to time may suspend, and if suspended may reinstate, any or all of the provisions of the Plan except that (i) no modification, suspension, or termination of the Plan may, without the consent of the grantee affected, alter or impair any grant previously made under the Plan; and (ii) no modification shall become effective without prior consent of the shareholders of the Company that would (a) increase the maximum number of shares reserved for issuance under the Plan, except for certain adjustments allowed by the Plan; (b) change the classes of employees eligible to participate in the Plan; or (c) materially increase the benefits accruing to participants in the Plan. On October 12, 2000, by virtue of an amendment adopted by the shareholders of the Company, the requirement of shareholder approval of any modification of the Plan that would materially increase the benefits accruing to participants in the Plan was eliminated.

The Plan provides that the price per share deliverable upon the exercise of each Incentive Stock Option shall not be less than 100% of the fair market value of the shares on the date the option is granted, as the Committee determines. In the case of the grant of any Incentive Stock Option to an employee who, at the time of the grant, owns more than 10% of the total combined voting power of all classes of stock of the Company or any of its subsidiaries, such price per share, if required by the Code at the time of grant, shall not be less than 110% of the fair market value of the shares on the date the option is granted. The price per share deliverable upon the exercise of each nonqualified stock option shall not be less than the higher of (i) the net tangible assets per share of the Company as of the end of the fiscal year immediately preceding the date of such granting; or (ii) 80% of the fair market value of the shares on the date the option is granted, as the Committee determines. On October 12, 2000, by virtue of an amendment adopted by the shareholders of the Company to modify the pricing procedure for the exercise of nonqualified stock options, the price per share deliverable upon the exercise of each nonqualified stock option shall not be less than 80% of the fair market value of the shares of the date the option is granted, as the Committee determines.

Options may be exercised in whole or in part upon payment of the exercise price of the shares to be acquired. Payment shall be made in cash or, in the discretion of the Committee, in shares previously acquired by the

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

participant or in a combination of cash and shares of Common Stock. The fair market value of shares of Common Stock tendered on exercise of options shall be determined on the date of exercise.

As of July 1, 1995, pursuant to the recommendation of a committee of disinterested persons appointed by the board of directors in accordance with the terms of the Plan, the board of directors granted options to the following officers and directors to purchase shares of the Company's Common Stock:

Yiu Yat Hung (former director)	60 shares
Tam Cheuk Ho	60 shares
Han Jian Zhun (former director)	60 shares
Wong Wah On	60 shares
Li Fei Lie	1,000 shares

In addition, the board of directors granted options to the following employees and consultant to purchase shares of the Company's Common Stock:

Brender Services Limited	1,000 shares
Cheung Yu Shum	5,000 shares
Tse Chi Kai	3,000 shares
Ma Sin Ling	5,000 shares
Cheung Siu Yin	100 shares
Woo Pui Yan	100 shares
Kwok Kwan Hung	3,860 shares
Fu Yang Guang	2,000 shares
Lin Jia Ping	2,700 shares

26

All of the stock options were issued in accordance with the terms of the Plan at an exercise price of US\$378 (the fair market value of the Common Stock as of July 1, 1995) and would have been exercisable beginning on July 1, 1996, and until July 1, 2005.

As of May 20, 1996, the board of directors, in accordance with the recommendation, with respect to stock options granted to directors and officers, of a committee of disinterested persons appointed by the board of directors in accordance with the terms of the Plan, reduced the exercise prices of all of the outstanding options to US\$42 (the fair market value of the Common Stock as of May 20, 1996). By virtue of this action, the outstanding options are now exercisable beginning on May 20, 1997, and until May 20, 2006.

On December 30, 1996, the shareholders of the Company adopted an amendment to the Plan (a) to change the number of shares of Common Stock subject to the Plan to that number of shares which would, in the aggregate and if deemed outstanding, constitute 20% of the Company's then-outstanding shares of Common Stock, as determined at the time of granting stock options, and (b) to allow Nonqualified Stock Options, as defined in the Plan, to be exercisable in less than one year (no currently outstanding options were changed by such amendment).

[Item 13] CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On January 31, 1994, the Farming Bureau, Guilinyang Farm, and Billion Luck entered into a Contract On Investment For The Setting Up Of Hainan Agricultural Resources Company Ltd. pursuant to which such parties agreed to establish HARC as a limited liability joint stock company under the Rules for Standardized Incorporated Companies in the PRC and the regulations of Hainan Province. The agreement provided that HARC's total initial capitalization of Rmb100 million (US\$12 million) in assets and cash was to be contributed as

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

follows: the Farming Bureau (39%), Guilinyang Farm (5%) and Billion Luck (56%).

On July 7, 1994, HARC entered into a Contract of Investment in the Xilian Timber Mill with the Xilian State Rubber Farm, a subsidiary farm owned and controlled by the Farming Bureau, pursuant to which HARC subscribed for a 12.64% equity interest in the Xilian Farm Timber Mill ("Xilian Mill"), a timber factory in Hainan, PRC, for consideration of Rmb5.21 million (US\$629,227). According to the agreement, HARC will be entitled to a fixed 20% return on its investment in Xilian Mill for a three-year period from the date of subscription. Thereafter, HARC will be entitled to Xilian Mill's profit in proportion to its percentage ownership of shares therein, subject to a minimum return of 20% on its investment. On December 24, 1994, the parties entered into a supplementary agreement reducing the amount of HARC's investment to Rmb5 million (US\$603,865) but keeping unchanged HARC's percentage ownership of Xilian Mill at 12.64%.

On July 15, 1994, the Farming Bureau and HARC entered into a Rental Agreement for the rental of 532 square meters of a building located in Haikou City, PRC, in which HARC's corporate headquarters are located. Such rental agreement is for a period of 10 years at an annual rental of Rmb170,240 (US\$20,560) payable in equal semi-annual installments. The rental agreement further provides that HARC shall be responsible for certain costs and expenses in connection with its use of the property. For each of the two years ended December 31, 1999 and 2000, HARC paid rental of Rmb170,240 (US\$20,560) to Farming Bureau.

On November 5, 1994, the Farming Bureau, HARC, First Supply and Second Supply entered into a Sale and Purchase Agreement. With respect to the natural rubber segment, the Farming Bureau agreed to direct the Hainan State Farms to sell to HARC, First Supply and Second Supply on a priority basis, and HARC, First Supply and Second Supply agreed to purchase from the Hainan State Farms under the same terms and conditions as are offered to other purchasers. If HARC, First Supply or Second Supply was offered the same quantity and same price for natural rubber from a Hainan State Farm and a non-state farm, HARC, First Supply or Second Supply, as the case may be, were required to purchase from the Hainan State Farm. If the price offered by the Hainan State Farm was higher than that from a non-state farm, HARC, First Supply or Second Supply, as the case may be, were required to purchase from the non-state farm. Otherwise, there was no condition requiring the purchase of any particular quantity of raw natural rubber from the Hainan State Farms. For the years ended December 31, 1999 and

27

2000, HARC, First Supply and Second Supply purchased natural rubber from the Hainan State Farms amounting to Rmb450,704,000 (US\$54,433,000) and nil, respectively. First Supply and Second Supply were also guaranteed a minimum gross profit margin of 3.5% for sales of natural rubber purchased from the Hainan State Farms. On May 21, 1999, by a Supplementary Agreement among the Farming Bureau, HARC, First Supply and Second Supply, the minimum gross profit margin of 3.5% earned by First Supply and Second Supply on natural rubber sales had been reduced to 1.5% which was made effective on April 1, 1999. For the years ended December 31, 1999 and 2000, First Supply and Second Supply received guaranteed profit from Farming Bureau amounting to Rmb6,350,000 (US\$767,000) and nil, respectively.

With respect to the production materials segment, the Sale and Purchase Agreement provided that the Farming Bureau agreed to direct the Hainan State Farms to purchase all of their production materials and other commodities offered by HARC, First Supply and Second Supply under the same terms and conditions as were offered by other suppliers. In the case of production material and other commodities, a Hainan State Farm could request a price quote for a specified quantity of a particular item from HARC, First Supply or Second

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

Supply. Upon receiving the price quote, the Hainan State Farm could obtain quotes from other suppliers based on the same quantity of the requested item. The Hainan State Farm were required to inform HARC, First Supply or Second Supply, as the case may be, of the amounts of the other quotes and, if any of the quotes were lower, HARC, First Supply or Second Supply had the right to lower its quote to the level of the competing quote. If HARC, First Supply or Second Supply matched the competing quote based upon the same quantity of item requested, the Hainan State Farm were required to purchase the item from HARC, First Supply or Second Supply. Otherwise, the Hainan State Farm could purchase the item from the competing supplier. The Sale and Purchase Agreement had a term of 15 years and, subject to applicable law, may not be terminated earlier except upon the agreement of the parties. Pursuant to the Restructuring Agreements, the Farming Bureau, HARC, First Supply and Second Supply agreed to terminate the Sale and Purchase Agreement effective as of January 1, 2000. For the years ended December 31, 1999 and 2000, HARC, First Supply and Second Supply sold production materials and other commodities to the Hainan State Farms amounting to Rmb23,718,000 (US\$2,864,000) and nil, respectively.

As of March 31, 1995, the Company entered into an Exchange Agreement with several of its shareholders whereby the Company's outstanding indebtedness to those shareholders, in the amount of approximately US\$6,400,000, was exchanged for 6,400,000 shares of Series A Preferred Stock, which was authorized and issued by the Company as of that date. The shares of Series A Preferred Stock were issued pursuant to the Exchange Agreement to the shareholders as follows: Hong Wah Investment Holdings Limited (2,432,000 shares), China Everbright Financial Holdings Limited. (1,184,000 shares), Worlder International Company Limited (1,184,000 shares), and Silverich Limited (1,600,000 shares).

On March 25, 1996, HARC entered into a Loan Agreement with the Farming Bureau by which HARC borrowed Rmb35,867,857 (US\$4,331,867) in order to more effectively utilize capital raised and to enable HARC to more effectively plan for its production operations and new investment projects. The loan is interest-free and is to be repaid by conversion of the loan into registered capital of HARC upon the approval for such conversion by relevant government authorities. On December 31, 1996, a supplementary agreement was entered into between the same parties by which a new article was created to impose a right of set off against the loan or any additional loan made by the Farming Bureau to HARC against any amounts due to HARC by the Farming Bureau and/or its subsidiary companies and affiliates.

On March 25, 1996, HARC entered into a Loan Agreement with the Company by which HARC borrowed Rmb45,650,000 (US\$5,513,285) in order to more effectively utilize capital raised and to enable HARC to more effectively plan for its production operations and new investment projects. The loan is interest-free, and it is to be repaid by conversion of the loan into registered capital of HARC upon the approval for such conversion by relevant government authorities.

On July 22, 1996, the Company entered into an Exchange Agreement with China Everbright Financial Holdings Limited (formerly known as "Everbright Finance and Investment Co. Ltd."), pursuant to which all 640,000 outstanding shares of the Company's Series A Preferred Stock held by Everbright were exchanged for 3,200,000 shares of Common Stock, which were subject to substantial restrictions. Such restrictions included a waiver for seven years of rights to dividends and distributions upon dissolution and liquidation of the Company, and a waiver for eight years of the ability to have the shares included in any registration statement filed by the Company.

On August 9, 1996, HARC entered into a rental agreement with the Hainan Farming Bureau Testing Center, an affiliate of the Farming Bureau located on the

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

same floor of the building where HARC's headquarters is located. The term of the lease is for a period of eight years (through September 30, 2004) at an annual rental of Rmb72,000 (US\$8,696), and it covers an area of approximately 314 square meters.

As of December 31, 1996, the Company entered into another Exchange Agreement with China Everbright Financial Holdings Limited (formerly known as "Everbright Finance and Investment Co. Ltd."), pursuant to which the 3,200,000 shares of restricted Common Stock were exchanged for 320,000 shares of the Company's Series B Preferred stock. The terms of the Series B Preferred stock were amended by the Board of Directors in connection with the new Exchange Agreement, and such Series B Preferred stock is not convertible and has no dividend rights or rights to receive distributions upon dissolution and liquidation of the Company. The Series B Preferred stock also may not be included in any registration statement filed by the Company, and the Company will not take any action to facilitate the registration of the Series B Preferred stock, until after July 22, 2000.

As of April 30, 1998, the Company entered into an agreement with Guilinyang Farm pursuant to which Guilinyang Farm agreed to sell and the Company agreed to buy 5,000,000 shares, representing 5% of the total issued and outstanding share capital of HARC, for consideration of Rmb7 million (US\$845,411).

On March 3, 2000, the Company, the Farming Bureau and Billion Luck entered into a Shareholders' Agreement of Business Restructuring where they, as the shareholders of HARC, approved the cessation of the natural rubber distribution business and the procurement of materials and supplies business, effective as of January 1, 2000.

On March 3, 2000, the Farming Bureau, HARC, First Supply, Second Supply and Sales Centre entered into an Assets and Staff Transfer Agreement, by which the Farming Bureau purchased assets and assumed liabilities and staff related to the ceased businesses, effective as of January 1, 2000. The purchase price was the book value or the fair value of net assets transferred, as determined by an independent professional valuer, as of December 31, 1999, whichever was lower. Based on the valuation, there were no material differences between the fair value and the net book value of those assets and liabilities as of December 31, 1999 and the purchase price was Rmb70,527,000 (US\$8,518,000). There was no gain or loss recognized by the Company.

In addition to these transactions, the following business relationships existed during the fiscal year ended December 31, 2000, for which disclosure is required:

As disclosed in "Management and Certain Security Holders," hereinabove, Lin Yu Quan, the Vice Chairman of the Board of Directors of the Company, also serves as the Director of the Farming Bureau. The nature and scope of the relationship between the Company and the Farming Bureau is set forth in "Business" and elsewhere hereinabove.

As disclosed in "Stock Options" hereinabove, the Company has adopted a Stock Option Plan to grant stock option to officers, directors, key employees, consultants and affiliates of the Company.

As disclosed in "Executive Compensation" hereinabove, Li Fie Lie, Ching Lung Po, Tam Cheuk Ho and Wong Wah On are parties to employment agreements with the Company.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Shareholders

China Resources Development, Inc.

We have audited the accompanying consolidated balance sheets of China Resources Development, Inc. and subsidiaries as of December 31, 2000 and 1999, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of China Resources Development, Inc. and subsidiaries at December 31, 2000 and 1999, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States of America.

CHINA RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except share and per share data)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

China Resources Development, Inc. (the "Company") and its subsidiaries (collectively the "Group") were principally engaged in the distribution of natural rubber, procurement of materials and supplies and the distribution other agricultural products in the People's Republic of China (the "PRC") through December 31, 1999.

Pursuant to a business restructuring as detailed in Note 3 to the consolidated financial statements, the Group discontinued all the above operations effective on January 1, 2000. In the fourth quarter of 1999, the Group established several new lines of business, including the operation of supermarkets and processed timber operations in the PRC. In addition, as described in Note 4, during 2000 the Group acquired an 80% interest in an entity which provides health care information through an Internet website. The Group continues to consider other new investment opportunities.

Information on the Group's operations by segment are included in note 26 to the consolidated financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Principles of consolidation

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") and include the accounts of the Company and its subsidiaries. Significant intercompany accounts and transactions have been eliminated on consolidation.

(b) Use of estimates

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

(c) Cash and cash equivalents

The Group considers all highly liquid investments and cash deposits with financial institutions with original maturities of three months or less to be cash equivalents.

At December 31, 2000 and 1999, cash and cash equivalents included foreign currency deposits equivalent to RMB5,418 (US\$65 and HK\$4,601) and RMB1,686 (US\$63 and HK\$1,088), respectively.

(d) Marketable securities

Equity securities that are bought and held principally for the purpose of selling them in near term are classified as trading securities and reported at fair value, with unrealized gains and losses included in current operations.

F-7

CHINA RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except share and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Inventories

Inventories are primarily comprised of finished goods and are stated at the lower of cost or market. Cost is determined using the first-in, first-out method.

(f) Property and equipment

Property and equipment are stated at cost less accumulated depreciation.

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

Depreciation is calculated on the straight-line basis to write-off the cost less estimated residual value of each asset over its estimated useful life. Estimated useful lives used for this purpose are as follows:

Buildings	25 y
Leasehold improvements	Over the terms of the le
Machinery, equipment and motor vehicles	10 - 12.5 y

(g) Investments

Investments in companies that are 20% to 50% owned, and over which the Group is in a position to exercise significant influence but does not control the financial and operating decisions, are accounted for by the equity method.

All other equity investments, not being a subsidiary and which do not have a readily determinable fair value, are accounted for by the cost method, unless there has been an other-than-temporary impairment in value, in which event they are written-down to their net realizable value.

(h) Intangible assets

Intangible assets consist of acquired website technology which are amortized on the straight-line basis over two years. Intangible assets are periodically reviewed for impairment based on an assessment of future operations. Accumulated amortization was RMB2,841 at December 31, 2000.

(i) Retirement benefits

The contributions to the retirement plans of employees under defined contribution retirement plans are charged to earnings as services are provided.

F-8

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Stock-based compensation

The Group has elected to follow Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), and related interpretations in accounting for its employee stock options, because the Group believes the

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

alternative fair value accounting provided for under Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), requires the use of option valuation models that were not developed for use in valuing employee stock options. Under APB 25, because the exercise price of the Group's employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized. For disclosure purposes, pro forma information in accordance with SFAS 123 has been included in note 15.

In accordance with SFAS 123, except for transactions with employees that are within the scope of APB 25, all transactions in which services are received and the consideration given is the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued. The cost of such services is charged to the consolidated statement of operations over the respective service period.

(k) Revenue recognition

Revenue from product sales is recognized upon the delivery of goods. Sales commission income is recognized when the services are rendered. Rental income is recognized on the straight-line basis over the lease terms. Dividend income is recognized upon the establishment of the right to receive such payment.

(l) Income taxes

Income taxes have been provided using the liability method in accordance with SFAS 109, "Accounting for Income Taxes".

(m) Earnings/(loss) per share

Basic and diluted earnings/(loss) per share are calculated in accordance with SFAS 128, "Earnings per Share".

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Foreign currency translation

The functional currency of substantially all the operations of the Group is Renminbi ("RMB"), the national currency of the PRC. The financial statements of operations with functional currency other than RMB have been translated into RMB in accordance with SFAS 52, "Foreign Currency Translation". All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statements of

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

operations amounts have been translated using the average exchange rate for the year. The gains and losses resulting from the changes in exchange rates from year to year have been reported in other comprehensive income/loss.

Transactions and monetary assets and liabilities denominated in currencies other than RMB are translated into RMB at the respective applicable rates of exchange quoted by the People's Bank of China (the "Exchange Rate"). Monetary assets and liabilities denominated in other currencies are translated into RMB at the applicable Exchange Rate at the respective balance sheet dates. The resulting exchange gains or losses are credited or charged to the consolidated statements of operations.

The translation of amounts from RMB into US\$ for the convenience of the reader has been made at the rate of exchange quoted by the People's Bank of China on December 31, 2000 of US\$1.00 = RMB8.28, and accordingly, differs from the underlying foreign currency amounts. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate on December 31, 2000 or at any other date.

(o) Reverse stock split

On May 28, 1999, the Company's shareholders approved a ten-to-one reverse split of the Company's common stock (the "Reverse Stock Split"). With the par value unchanged at US\$0.001 per share, the Reverse Stock Split was effected by a transfer to the additional paid-in capital account. All references in the consolidated financial statements referring to share, stock option and per share amounts of the common stock of the Company have been adjusted retroactively for the Reverse Stock Split.

(p) Commodity futures contracts

In 1998, as part of its risk management strategy, the Group entered into natural rubber commodity futures contracts that were not specific hedges and gains or losses resulting from changes in the market value of these types of futures contracts on a mark to market basis were recognized as gains/losses in the period of the change. This transaction does not meet the definition of a hedge in accordance with SFAS 133, "Accounting for Derivative Instruments and Hedging Activities", and therefore, adoption of SFAS 133 would not have an effect on the Group's results of operations. The Group entered into no futures contracts during 1999 or 2000.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Short term loan receivable

The short term loan receivable outstanding in 1999 was secured by certain equity interest in an unlisted PRC company, which invests in Hainan Sundiro Motorcycle Co., Ltd. ("Sundiro"), and was repayable on demand. On July 28, 2000, the loan was exchanged for additional shares of Sundiro (note 11).

(r) Written call

Premiums on options written by the Group are recorded as liabilities and the option is adjusted to the current fair value at the balance sheet date. Premiums received from writing options that expire unexercised are treated by the Group on the expiration date as realized gains from investments. The difference between the premiums and the amount paid on effecting a closing purchase transaction, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. The Group as writer of options bears the market risk of an unfavorable change in the price of the security underlying the written option.

(s) Due to investment adviser

According to agreement made between the Group and Sanya Zhongya Trust and Investment Company ("SZTI"), SZTI would use the Group's deposits (approximately Rmb45 million) for the trading of securities on behalf of the Group and guarantee a minimum return. The excess of the actual return over the minimum return is shared between both parties on an agreed proportion. During the year ended December 31 2000, the balance of the deposit had been fully withdrawn and the actual return exceeded the guaranteed return by RMB12,253.

3. DISCONTINUED OPERATION AND BUSINESS RESTRUCTURING

In the fourth quarter of 1999, the Group initiated a plan to restructure its business in Hainan, the PRC. On March 3, 2000, the board of directors of the Company approved a business restructuring involving Hainan Zhongwei Agricultural Resources Company Limited ("HARC"), a 61%-owned subsidiary of the Company, and certain subsidiaries of HARC (the "Restructuring"). The Restructuring when completed would result in the discontinuation of substantially all of the existing operations of the Group as of December 31, 1999, including its two principal lines of business, the distribution of natural rubber and the procurement of materials, supplies and other agricultural products (collectively the "Operating Subsidiaries").

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

On March 3, 2000, HARC and certain of its subsidiaries (the "HARC Subsidiaries") entered into an Assets and Staff Transfer Agreement with the Hainan Farming Bureau (the "Farming Bureau"), a division of the Ministry of Agricultural of the PRC and a 39% minority shareholder of HARC, pursuant to which the HARC Subsidiaries would transfer all the assets, liabilities and staff related to the Rubber and Procurement Operations to the Farming Bureau, effective from January 1, 2000 (the "Transfer"). The consideration for the net assets transferred was determined based on the lower of their net book value or their fair value, as determined by an independent professional valuer, as of December 31, 1999. Based on the valuation, there were no material differences between the fair value and the net book value (as determined under US GAAP) of those assets and liabilities as of December 31, 1999, and, therefore, no gain or loss was recognized upon Transfer.

4. INVESTMENTS AND BUSINESS ACQUISITIONS

During 1998, the Group acquired an additional 5% equity interest in HARC from Guilinyang State Farm ("Guilinyang") for a consideration of RMB7,000. Guilinyang is controlled by the Farming Bureau. The purchase consideration of Hainan Agricultural was used to offset the amount due from Guilinyang. After the acquisition, the Group's equity interest in HARC increased from 56% to 61%. The transaction was accounted for as a purchase and the excess of fair value of the net assets acquired over cost ("negative goodwill"), amounting to RMB7,119, was allocated to reduce proportionately the values of long term non-monetary non-current assets. The impact of the increase in equity interest on the results of operations has been accounted for since the date of acquisition.

On June 30, 2000 the Group entered into an acquisition agreement ("Acquisition") to acquire an 80% equity interest in Silver Moon Technologies Limited ("Silver Moon"), a British Virgin Islands corporation which was incorporated on March 24, 2000, for a consideration of US\$1,500 (approximately RMB12,400) by issuing 244,897 shares of the Company's unregistered restricted common stock of \$0.001 par value to Silver Moon's former sole equity owner, E-link Investment Limited ("E-link"). The principal activities of Silver Moon and its wholly-owned subsidiary, Zhongwei Medi-China.com Limited (formerly known as Sky Creation Technology Limited), a Hong Kong company, is providing healthcare content on the Internet which focuses on Chinese herbal medicine and therapies.

The transaction was accounted for as a purchase; the cost of the acquisition exceeds the fair value of the net assets acquired by RMB10,701 which has been classified as acquired website technology and is being amortized over two years. The impact of the increase in equity interest on the results of operations has been accounted for since the date of acquisition.

	=====

No undistributed earnings of the Company's foreign subsidiaries was available at December 31, 2000. Upon distribution of those earnings in the form of dividends or otherwise, the Company would be subject to U.S. income taxes. Determination of the amount of unrecognized deferred U.S. income tax liability is not practicable because of the complexities associated with its hypothetical calculation.

At December 31, 2000, the Company had net operating loss carryforwards ("NOLs") of approximately RMB30 million for U.S. income tax purposes that expire in various years through 2020. At December 31, 2000, the Group's subsidiaries in the PRC had NOLs amounting to approximately

Hainan Sundiro Motorcycle Co., Ltd.	
("Sundiro")	112,000
PRC joint venture	4,759
Others	883

	117,642
	=====

Cost method investments are interests in unlisted shares/equity of PRC companies in which the Group does not have a significant influence over their operating and financial policies.

At December 31, 1999, the investment in Sundiro represents a 5.3% equity interest. In 2000, the Group acquired 24,587,200 additional shares of Sundiro in satisfaction of a short term loan receivable of RMB45 million, related interest receivable of approximately RMB11 million and other receivables of approximately RMB11 million. As a result of this transaction, at December 31, 2000, the Group owns an equity interest of 8.7% of Sundiro.

In 1998, the Company made a deposit of RMB28,718 to Guilinyang for the intended acquisition of an additional 3.8% equity interest in Sundiro (the "Acquisition"). The Group originally anticipated that its relationship with Sundiro would lead to additional procurement of materials and supplies from the Group. Nevertheless, such expected business relationship with Sundiro did not occur. Based on an analysis of the opportunity cost and expected future benefits, the Group decided not to proceed with the Acquisition. Under the circumstances, the Group does not believe that it will be able to recover the deposit. Accordingly, the deposit was written-off as of December 31, 1998. The write-off of the deposit also triggered an impairment review of the Group's existing interest in Sundiro. As a result, a write-down of RMB21,251 was made in 1998 based on the decline in the estimated net realizable value of the investment below its carrying value which management believed is other-than-temporary. The net realizable value was estimated with reference to the quoted market price of securities with similar, but not identical characteristics, and adjusted for the lack of marketability of the investment.

13. MARGIN LOAN PAYABLE

The Group has a margin loan payable balance of RMB18,572 as of December 31, 2000 which was used to purchase marketable securities listed on the Hong Kong Stock Exchange. This margin loan bears interest at a variable rate. The rate was 12 percent as of December 31, 2000. Interest expense on the margin loan for the year ended December 31, 2000 was approximately RMB73. The margin loan is due and repaid as the securities are sold.

14. SHARE CAPITAL

During the year ended December 31, 1998, the Company repurchased and retired 10,000 shares of common stock of the Company as treasury stock under its share repurchase program for a total consideration of RMB853.

15. STOCK OPTIONS

The Company adopted a stock option plan (the "Plan") as of March 31, 1995. The Plan allows the Board of Directors, or a committee thereof at the Board's discretion, to grant stock options to officers, directors, key employees, consultants and affiliates of the Company. Initially, 24,000 shares of common stock of the Company, after adjusting for the Reverse Stock Split in 1999, were permitted to be issued and sold pursuant to options granted under the Plan. All of the stock options were issued in accordance with the terms of the Plan on July 1, 1995 to certain officers, directors, employees and consultants of the Group at

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

an exercise price of US\$37.8 (RMB314.5) per share (the fair market value of the common stock as of July 1, 1995) and are exercisable from July 1, 1996 to July 1, 2005. On May 20, 1996, pursuant to a "Unanimous Written Consent" of the committee appointed pursuant to the Plan and a resolution of a special meeting of the Board of Directors of the Company, the exercise price was changed to US\$42.0 (RMB348.6) per share (the fair market value of the common stock as of May 20, 1996), after adjusting for the Reverse Stock Split in 1999 and 1996. By virtue of that action, the outstanding options are now exercisable beginning on May 20, 1997 until May 20, 2006. All stock options remained outstanding as of December 31, 2000.

15. STOCK OPTIONS (continued)

On December 30, 1996, a shareholders' meeting was held authorizing an amendment of the Plan increasing the number of common stock issuable under the Plan to 20% of the Company's outstanding common stock, as determined at the time of granting of the stock options. Such shares may represent authorized but unissued shares as well as repurchased or forfeited shares for any grant under the Plan that was expired or unexercised. Further amendments were made to give the Board of Directors the ability to set a holding period of less than one year for non-qualified stock options.

Pro forma information regarding net income and earnings per share is required by SFAS 123, and has been determined as if the Company had accounted for its stock options under the fair value method of that statement. The fair value for these options was estimated at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions for the date of grant and the date of subsequent modification in 1995 and 1996, respectively: risk-free interest rates of 6.50% and 6.78%; no dividend yield; volatility factors of the expected market price of the Company's common stock of 141.38% and 42.13%; and a weighted average expected life of the options of 6 years. No options were granted in 1998, 1999 and 2000.

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in the management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its stock options.

For the purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period. The Company's pro forma information is as follows:

16. RELATED PARTY BALANCES AND TRANSACTIONS (continued)

(a) Purchase of natural rubber

Pursuant to a sales and purchase agreement dated November 5, 1994 and as subsequently amended (the "S&P Agreement") amongst Hainan Agricultural, First Goods And Materials Supply And Sales Corporation, Second Goods And Materials Supply And Sales Corporation (collectively the "Principal Subsidiaries") and the Farming Bureau, the Farming Bureau agreed to guarantee the supply of natural rubber to the Principal Subsidiaries for a period of 15 years from November 5, 1994, under the same terms and conditions as are offered to other purchasers of natural rubber with a first right of refusal to the Principal Subsidiaries.

The Farming Bureau allows the Principal Subsidiaries to set the selling price of natural rubber according to market conditions and guarantees a minimum gross profit margin of 3.5% (the "Guaranteed Margin") earned by First Goods And Materials Supply And Sales Corporation and Second Goods And Materials Supply And Sales Corporation (collectively the "Operating Subsidiaries) (Collectively the "Operating Subsidiaries) on natural rubber purchased from farms controlled by the Farming Bureau (the "Farms"). Pursuant to an amendment to the S&P Agreement, the Guaranteed Margin was reduced to 1.5% with effect from April 1, 1999.

As more fully described Note 3, effective January 1, 2000, the Group transferred all of the assets, liabilities operations and staff of the Operating Subsidiaries to the Farming Bureau. Consequently, the Group neither purchased nor sold rubber under the terms of the S&P Agreement during 2000.

(b) Procurement of materials and supplies

Pursuant to the S&P Agreement, the Farming Bureau also agreed to purchase certain products sourced by the Principal Subsidiaries for a period of 15 years from November 5, 1994 at prices acceptable to all parties with a first right of refusal to the Principal Subsidiaries.

18. CONCENTRATION OF RISK

Concentration of credit risk:

Financial instruments that potentially subject the Group to significant concentration of credit risk consist principally of cash deposits, trade receivables and amounts due from the Farming Bureau and related companies.

(i) Cash and cash deposits

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

The Group maintains its cash and cash deposits primarily with various PRC government authorized financial institutions. The Group performs periodic evaluations of the relative credit standing of those financial institutions that are considered in the Group's investment strategy.

(ii) Trade receivables

The Group sells to customers located throughout the PRC. Concentrations of credit risk with respect to trade receivables are limited due to the large number of entities comprising the Group's customer base. The Group carefully assesses the financial strength of its customers and generally does not require collateral.

(iii) Amounts due from the Farming Bureau and related companies

The Farming Bureau has guaranteed the recoverability of a substantial portion of the amounts due from related companies, all of which are State-owned entities controlled by the Farming Bureau. The Group carefully assesses the recoverability of those balances not guaranteed by the Farming Bureau and generally does not require collateral.

(iv) Cost method investments

The Group's cost method investments consist of interests in unlisted shares/equity of PRC companies in which the Group does not have a significant influence over their operating and financial policies.

19. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Group in estimating its fair value disclosures for financial instruments:

(i) Cash and cash equivalents

The carrying amount reported in the consolidated balance sheets for cash and cash equivalents approximate their fair value.

(ii) Marketable securities

The carrying amount reported in the consolidated balance sheets for marketable securities represents their fair values. The fair values for marketable securities are based on quoted market prices.

(iii) Trade receivables, accounts payable and other payables

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-K

The carrying amounts reported in the balance sheets for trade receivables, accounts payable and other payables approximate their fair values.

(iv) Amounts due from/to the Farming Bureau and related companies

The fair values of amounts due from/to the Farming Bureau and related companies cannot be determined due to their related party nature of those balances.

(v) Cost method investments

The Group believed that the carrying amounts represented the Group's best estimate of current economic values of these investments.

(vi) Written call option

The fair value of written call options was estimated using the Black-Scholes option pricing model.

In accordance with the relevant PRC regulations and the articles of association of HARC (the "Articles of Association"), appropriations representing 10% of the net income as reflected in its statutory financial statements will be allocated to each of surplus reserve and collective welfare fund.

Subject to certain restrictions set out in the relevant PRC regulations and the Articles of Association, the surplus reserve may be distributed in the form of share bonus issues.

In accordance with the relevant PRC regulations and the Articles of Association, the collective welfare fund must be used for capital expenditure on staff welfare facilities. Such facilities are for the use of the staff and are owned by HARC.

According to relevant laws and regulations in the PRC, distributable reserves of HARC and its subsidiaries are determined in accordance with the relevant PRC accounting rules and regulations. The amounts of retained earnings of HARC and its subsidiaries that are included in the consolidated balance sheets as of December 31, 1999 and 1998 that are available for distribution are RMB76,143 and RMB70,615, respectively. Subsequent to December 31, 2000, the purchase agreement was canceled and the related deposit was repaid in the form of 49 percent of interest in an subsidiary of the Group that having a fair value of RMB901 and cash of RMB712.

23. FOREIGN CURRENCY EXCHANGE

The RMB is not freely convertible into foreign currencies.

Effective from January 1, 1994, a single rate of exchange is quoted daily by the People's Bank of China (the "Unified Exchange Rate"). However, the unification of the exchange rates does not imply convertibility of RMB into US\$ or other foreign currencies. All foreign exchange transactions continue to take place either through the Bank of

China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China.

24. RETIREMENT BENEFITS

As stipulated by the PRC regulations, the Operating Subsidiaries participate in a defined contribution retirement plan (the "Retirement Plan") administered by a State-owned insurance company controlled by the Farming Bureau. The Operating Subsidiaries are required to make contributions to the Retirement Plan at a rate of 21% of the aggregate of basic salaries, allowances and bonuses of its existing staff. All staff of the Operating Subsidiaries are covered under the Retirement Plan and upon retirement, the retired staff are entitled to a monthly pension payment borne by the above-mentioned insurance company under the Retirement Plan. The Operating Subsidiaries are not responsible for any payments beyond the contributions to the Retirement Plan as noted above.

The amount of contributions paid by the Operating Subsidiaries, which were charged to the consolidated statements of operations, amounted to RMB262 and RMB287 for the years ended December 31, 1999 and 1998, respectively. As more fully described in Note 3, effective January 1, 2000, the Group disposed of these operations. There are nil amount of contributions paid by the Operating Subsidiaries.

26. SEGMENT FINANCIAL INFORMATION

The Group was principally engaged in the distribution of natural rubber, the procurement of materials and supplies, and the distribution of other agricultural products in the PRC for the years 1998 and 1999 presented in the consolidated financial statements. The Group did not have any export sales during the three years ended December 31, 2000, 1999 and 1998.

Description of products by segment

In 1999 and 1998, the Group had two reportable segments: (i) rubber and (ii) materials, supplies and other agricultural products. As more fully described in Note 3, effective January 1, 2000, the Group disposed of these operations. The reportable segments in 2000 are supermarket operations and processed timber. Accordingly, the segment result in 1999 had been restated. The Group's materials, supplies and other agricultural products division primarily sold materials, supplies and other agricultural products to farms, manufacturers and other distributors in the PRC. The Group's supermarket division primarily sold foods and grocery products to customers in the PRC. And the Group's timber division primarily sold processed timber wooden blocks to manufacturers and other distributors in the PRC.

Measurement of segment profit or loss and segment assets

The Group evaluates performance and allocates resources based on profit or loss from operations before interest, gains and losses on the Group's investment portfolio, and income taxes. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. Intersegment sales and transfers between reportable segments are immaterial for all the periods presented.

Factors management used to identify the Group's reportable segments

The Group's reportable segments are business units that offer different products. The reportable segments are each managed separately because they distribute distinct products.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except share and per share data)

26. SEGMENT FINANCIAL INFORMATION (continued)

Major customers

For the year ended December 31, 1998, sales under the distribution of natural rubber segment to two unaffiliated customers, Jilin Hualin Rubber Factory and Zhanjiang Sugar and Wine Company, amounted to approximately 20% of the total net sales of the Group.

Except for the above, the Group did not have any major customers which represented more than 10% of the total consolidated net sales in 2000, 1999 and 1998.

27. RECENT ACCOUNTING PRONOUNCEMENTS

The FASB recently issued Statement of Financial Accounting Standards ("SFAS") No. 137, "Accounting for Derivative Instruments and Hedging Activities-Deferral of Effective Date of SFAS No. 133" ("SFAS 137"). SFAS No. 137 defers for one year the effective date of SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities". The rule applies to all fiscal quarters of all fiscal years beginning after June 15, 2000. In June 1998, the FASB issued SFAS No. 133, which is required to be adopted in years beginning after June 15, 1999. SFAS No. 133 permits early adoption as of the beginning of any fiscal quarter after its issuance. SFAS No. 133 will require the Group to recognize all derivatives on the balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value through income. If the derivative is a hedge, depending on the nature of the hedge, changes in the fair value of derivatives will either be offset against the change in fair value of the hedged assets, liabilities, or firm commitments through earnings or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value will be immediately recognized in earnings. The Group has determined there is no impact or effect of SFAS No. 133 on the results and financial position of the Group.

In March 2000, the FASB issued FASB Interpretation No.44 (Fin No.44), "Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Option No. 25." FIN No.44 became effective July 1, 2000 and provides guidance for applying APB Option No. 25 "Accounting for Stock Issued to Employees." FIN No.44 had no impact on the financial condition or results of operations of the Group.

In March 2000, the Emerging Issues Task Force of the FASB reached

consensus on Issue No. 00-2 "Accounting for Website Development Cost." ("EITF 00-2"). EITF 00-2 establishes how an entity should account for costs incurred to develop a Web site. It requires that an entity capitalize costs during the Web application and infrastructure and graphics development stages of development. The consensus is effective for all costs incurred beginning after June 30, 2000, although earlier adoption is encouraged. EITF 00-2 did not have a material impact on the Group's financial condition or its results of operations.

28. QUARTERLY FINANCIAL DATA (UNAUDITED)

The following table summarizes the quarterly financial data for the years ended December 31, 2000 and 1999. Net loss per share calculations for each of the quarters are based on the weighted average number of shares for each period; therefore, the sum of the quarters may not necessarily be equal to the full year per share amount.
