CROWDGATHER, INC.
NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2009

UNAUDITED

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

CrowdGather, Inc. is an internet company that specializes in developing and hosting forum based websites and is headquartered in Woodland Hills, California.

CrowdGrather, Inc. (formerly WestCoast Golf Experiences, Inc., or "WestCoast")(the "Company") was incorporated under the laws of the State of Nevada on April 20, 2005.

On April 2, 2008, the Company, General Mayhem LLC ("General") and the Company's wholly owned subsidiary, General Mayhem Acquisition Corp. (the "Acquisition Subsidiary"), entered into an agreement and plan of merger (the "Merger Agreement"). The merger contemplated by the Merger Agreement ("the "Merger") closed on April 8, 2008. The Merger resulted in General merging into the Acquisition Subsidiary, with the Acquisition Subsidiary surviving. Prior to the Merger, the Company effected a 13-for-1 stock split of its Shares. All share numbers presented in the accompanying financial statements have been adjusted to reflect the stock split. Each share of General was converted into and became one (1) share, on a post-stock split basis, such that former members of General now hold 26,000,000, or approximately 64.9%, of the outstanding shares of the Company. On April 8, 2008, pursuant to the Agreement of Merger and Plan of Merger and Reorganization dated April 8, 2008 by and between WestCoast and Acquisition Subsidiary, the Acquisition Subsidiary merged with and into WestCoast, with WestCoast surviving. In connection with the latter merger, WestCoast changed its name to CrowdGather, Inc.

Basis of Presentation

The unaudited financial statements included herein have been prepared in conformity with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). They do not include all information and notes required by generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements included in the Company's report on Form 10-KSB for the fiscal year ended April 30, 2008. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended January 31, 2009 are not necessarily indicative of the results that may be expected for any other interim period or the entire year. For further information, these unaudited financial statements and the related notes should be read in conjunction with the Company's audited financial statements for the fiscal year ended April 30, 2008 included in the Company's annual report on Form 10-KSB.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported periods. Actual results could materially differ from those estimates.

Cash Equivalents

For purposes of the balance sheets and statements of cash flows, the Company considers all highly liquid instruments purchased with maturity of three months or less to be cash equivalents.

Fair Value of Financial Instruments

Pursuant to Statement of Financial Accounting Standards (“SFAS”) No. 107, “Disclosures About Fair Value of Financial Instruments”, the Company is required to estimate the fair value of all financial instruments included on its balance sheet. The carrying value of cash and cash equivalents, prepaid expenses, accounts payable and accrued expenses approximate their fair value due to the short period to maturity of these instruments.

Identifiable Intangible Assets

In accordance with SFAS No. 142, “Goodwill and Other Intangible Assets” (“SFAS 142”), goodwill and intangible assets with indefinite lives are not amortized but instead are measured for impairment at least annually in the fourth quarter, or when events indicate that an impairment exists. As required by SFAS 142, in the impairment tests for indefinite-lived intangible assets, the Company compares the estimated fair value of the indefinite-lived intangible assets, website domain names, using a combination of discounted cash flow analysis and market value comparisons. If the carrying value exceeds the estimate of fair value, the Company calculates the impairment as the excess of the carrying value over the estimate of fair value and accordingly, records the loss.

Intangible assets that are determined to have definite lives are amortized over their useful lives and are measured for impairment only when events or circumstances indicate the carrying value may be impaired in accordance with SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets” (“SFAS 144”) discussed below.

CROWDGATHER, INC.
NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2009
UNAUDITED

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of Long-Lived Assets

In accordance with SFAS 144, the Company estimates the future undiscounted cash flows to be derived from the asset to assess whether or not a potential impairment exists when events or circumstances indicate the carrying value of a long-lived asset may be impaired. If the carrying value exceeds the Company's estimate of future undiscounted cash flows, the Company then calculates the impairment as the excess of the carrying value of the asset over the Company's estimate of its fair value.

Income Taxes

The Company accounts for income taxes under SFAS 109, "Accounting for Income Taxes" ("SFAS 109"). Under the asset and liability method of SFAS 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

Basic and Diluted Loss Per Share

In accordance with SFAS No. 128, "Earnings Per Share", basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. For the nine months ended January 31, 2009, the Company had \$1,070,000 convertible debt that could be converted into 730,000 shares of the Company's common stock and approximately 453,750 of vested stock options that could be converted into approximately 405,760 shares of the Company's common stock. These potential common shares are excluded from the diluted loss per share computation in net loss periods as their inclusion would have been anti-dilutive.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition

Revenues are recognized in accordance with Staff Accounting Bulletin (“SAB”) No. 101, “Revenue Recognition in Financial Statements,” as amended by SAB No. 104, “Revenue Recognition” when (a) persuasive evidence of an arrangement exists, (b) the services have been provided to the customer, (c) the fee is fixed or determinable, and (d) collectibility is reasonably assured.

Stock Based Compensation

The Company accounts for employee stock option grants in accordance with SFAS No. 123 (revised 2004), “Share-Based Payment” (“SFAS 123(R)”). SFAS 123(R) establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. SFAS 123(R) requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. That cost will be recognized over the period during which an employee is required to provide service in exchange for the award - the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

For options and warrants issued as compensation to non-employees for services that are fully vested and non-forfeitable at the time of issuance, the estimated value is recorded in equity and expensed when the services are performed and benefit is received as provided by FASB Emerging Issues Task Force Issue (“EITF”) No. 96-18, “Accounting For Equity Instruments That Are Issued To Other Than Employees For Acquiring Or In Conjunction With Selling Goods Or Services.” For unvested shares, the change in fair value during the period is recognized in expense using the graded vesting method.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements

FASB Staff Position No. APB 14-1 – In May, 2008, the FASB issued FASB Staff Position No. APB 14-1, “Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)” (“FSP APB 14-1”). FSP APB 14-1 clarifies that convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) are not addressed by paragraph 12 of Accounting Principals Board Opinion No. 14, “Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants”. Additionally, FSP APB 14-1 specifies that issuers of such instruments should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. FSP APB 14-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The Company has not yet evaluated the impact that FSP APB 14-1 will have on its results of operations or financial position.

SFAS No. 141 (revised 2007) – In December 2007, the FASB issued SFAS No. 141 (revised 2007), “Business Combinations” (“SFAS 141(R)”). This Statement replaces SFAS No. 141, “Business Combinations”. The objective of this Statement is to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. To accomplish that, this Statement establishes principles and requirements for how the acquirer 1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree, 2) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase and 3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This Statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The impact that the adoption of SFAS 141(R) will have on our financial statements will depend on the nature, terms and size of our business combinations that occur after the effective date.

UNAUDITED

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements (Continued)

SFAS No. 157 – The Company adopted Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurement, effective July 1, 2008. SFAS No. 157 defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair value. It establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date and expands the disclosures about instruments measured at fair value. SFAS No. 157 requires consideration of a company's own creditworthiness when valuing liabilities.

SFAS No. 162 – In May 2008, the FASB issued SFAS No. 162, “The Hierarchy of Generally Accepted Accounting Principles” (“SFAS 162”). SFAS 162 identifies a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with U.S. generally accepted accounting principles for nongovernmental entities (the “Hierarchy”). The Hierarchy within SFAS 162 is consistent with that previously defined in the AICPA Statement on Auditing Standards No. 69, “The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles” (“SAS 69”). SFAS 162 is effective 60 days following the SEC approval of the Public Company Accounting Oversight Board amendments to AU Section 411, “The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles”. The adoption of SFAS 162 will not have a material effect on the Company’s financial statements because the Company has utilized the guidance within SAS 69.

EITF 07-5 – In June 2008, the FASB issued EITF 07-5, “Determining whether an Instrument (or Embedded Feature) is indexed to an Entity’s Own Stock” (“EITF 07-5”). EITF No. 07-5 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early application is not permitted. Paragraph 11(a) of SFAS No. 133, “Accounting for Derivatives and Hedging Activities,” specifies that a contract that would otherwise meet the definition of a derivative but is both (a) indexed to the Company’s own stock and (b) classified in stockholders’ equity in the statement of financial position would not be considered a derivative financial instrument. EITF 07-5 provides a new two-step model to be applied in determining whether a financial instrument or an embedded feature is indexed to an issuer’s own stock and thus able to qualify for the SFAS No. 133 paragraph 11(a) scope exception. The Company is currently evaluating the impact that adoption of EITF 07-5 will have on its financial statements.

CROWDGATHER, INC.
NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2009
UNAUDITED

2. GOING CONCERN

The Company has incurred a net loss of \$2,030,717 for the nine months ended January 31, 2009 and has an accumulated deficit of \$2,477,566 as of January 31, 2009, and additional debt or equity financing will be required by the Company to fund its activities and to support its operations. However, there is no assurance that the Company will be able to obtain additional financing. Furthermore, there is no assurance that rapid technological changes, changing customer needs and evolving industry standards will enable the Company to introduce new products on a continual and timely basis so that profitable operations can be attained.

3. INTANGIBLE ASSETS

The Company purchased online forums, message boards and website domain names for cash and stock in the amount of \$499,288 during the nine months ended January 31, 2009 and a total of \$599,709 since inception. These assets have been determined to have indefinite lives. The Company accounts for its intangible assets at cost. Intangible assets acquired in a business combination, if any, are recorded under the purchase method of accounting at their estimated fair values at the date of acquisition. As of January 31, 2009, the Company does not believe any impairment of intangible assets has occurred.

4. CONVERTIBLE NOTES PAYABLE

Agreement #1

On July 8, 2008, the Company issued a convertible promissory note to one of its shareholders for \$500,000 ("Convertible Note"). The convertible note is due in one year and bears interest at an annual rate of 8%. The convertible note has a mandatory conversion feature by which it will automatically convert to shares of the Company's common stock immediately before the closing of a transaction or series of transactions in which the Company sells equity securities in an amount equal to or greater than \$2,000,000 ("Next Equity Financing"). The holder of the convertible note will receive shares at a rate that represents a discount of 15% to the price per share in the Next Equity Financing. In connection with the issuance of the convertible note, the Company also agreed that the holder will be entitled to a grant of warrants in an amount to be determined at the time of the Next Equity Financing. The convertible note was issued in a transaction which the Company believes satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

CROWDGATHER, INC.

Agreement #2

On September 25, 2008, the Company issued a convertible promissory note to one of the Company's shareholders in exchange for \$200,000. The convertible note is due in one year and bears interest at an annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of the Company's common stock at a conversion price of the lower of (i) \$1.50 per share or, (ii) the price per share of the Company's next transaction or series of related transactions in which the Company sells equity securities and in which the gross proceeds to the Company equal or exceed \$2,000,000. The convertible note was issued in a transaction which the Company believes satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

Agreement #3

On October 31, 2008, the Company issued a convertible promissory note to one of the Company's shareholders in exchange for \$170,000. The convertible note is due in one year and bears interest at an annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of the Company's common stock at a conversion price of the lower of (i) \$1.50 per share or, (ii) the price per share of the Company's next transaction or series of related transactions in which the Company sells equity securities and in which the gross proceeds to the Company equal or exceed \$2,000,000. The convertible note was issued in a transaction which the Company believes satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

Agreement #4

On December 3, 2008, the Company issued a convertible promissory note to one of the Company's shareholders in exchange for \$110,000. The convertible note is due in one year and bears interest at an annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of the Company's common stock at a conversion price of the lower of (i) \$1.40 per share or, (ii) the price per share of the Company's next transaction or series of related transactions in which the Company sells equity securities and in which the gross proceeds to the Company equal or exceed \$2,000,000. The convertible note was issued in a transaction which the Company believes satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

JANUARY 31, 2009
UNAUDITED

Agreement #5

On January 9, 2009, the Company issued a convertible promissory note to one of the Company's shareholders in exchange for \$90,000. The convertible note is due in six months and bears interest at an annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of the Company's common stock at a conversion price of the lower of (i) \$1.25 per share or, (ii) the price per share of the Company's next transaction or series of related transactions in which the Company sells equity securities and in which the gross proceeds to the Company equal or exceed \$2,000,000. The convertible note was issued in a transaction which the Company believes satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

6. STOCKHOLDERS' EQUITY

In March 2008, the Company effected a 13-for-1 stock split of its Shares. All share numbers presented in the accompanying financial statements have been adjusted to reflect the stock split.

In April 2008, in conjunction with the Merger Agreement, a major shareholder cancelled 25,943,182 shares of its common stock and the Company issued 26,000,000 shares of its common stock the former members of General.

In April 2008, the Company issued 1,000,000 shares of its common stock in connection with a subscription agreement and received \$890,000.

In June 2008, the Company sold 420,000 shares of its common stock to an investor for \$420,000.

In July 2008, the Company issued 18,000 shares of its common stock for the purchase of an intangible asset.

In May 2008 the Board of Directors of the Company approved the CrowdGather, Inc. 2008 Stock Option Plan (the "Plan"). The Plan permits flexibility in types of awards, and specific terms of awards, which will allow future awards to be based on then-current objectives for aligning compensation with increasing long-term shareholder value.

CROWDGATHER, INC.
NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2009
UNAUDITED

During the nine months ended January 31, 2009, the Company issued 3,110,000 stock options and cancelled 550,000 stock options for a net outstanding of 2,560,000, exercisable at various dates through December 2012 and for various prices ranging from \$1.00 - \$1.55, and convertible into approximately 2,263,074 shares of the Company's common stock to employees and consultants pursuant to its 2008 Stock Option Plan. The compensation cost for the three months and nine months ended January 31, 2009 was \$148,000 and \$460,000, respectively, and are included in operating expenses.

The fair value of each option grant is estimated on the date of the grant using the Black-Scholes option-pricing model based on the following weighted-average assumptions:

	Nine months ended January 31,	
	2009	2008
Risk-free interest rate	1.08	%
Expected volatility	125.00	%
Expected option life (in years)	2.00	
Expected dividend yield	0.00	%

The risk-free interest rate is based on the implied yield currently available on U.S. Treasury zero coupon issues. The expected volatility is primarily based on historical volatility levels of our public company peer group. The expected option life of each award granted was calculated using the "simplified method" in accordance with SAB No. 107, as amended by SAB No. 110.

In August 2008, the Company issued 15,000 shares of its common stock to an advisory firm pursuant to a consulting and advisory agreement which expired September 30, 2008. The stock-based expense for these shares included in operating expenses for the nine months ended January 31, 2009 was \$22,500.

In August 2008, the Company's board of directors amended the Company's Articles of Incorporation to authorize the issuance of up to 25,000,000 shares of a class of preferred stock and to give the Board the authority to set the preferences and designations on that class.

In October 2008, the Company entered into a consulting and advisory agreement with a third party. Pursuant to the agreement, the Company is required to compensate the advisory firm a non-refundable fee of \$3,000 and 5,000 shares of its restricted common stock per month. The shares were valued at \$23,250 based on the fair value of the shares on the date of the contract and have been charged to expense over the term of the agreement which was for three months and expired December 31, 2008. The stock-based expense for these shares included in operating expenses for the nine months ended January 31, 2009 was \$23,250.

CROWDGATHER, INC.
NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2009
UNAUDITED

In October 2008, the Company entered into a Consulting and Advisory Agreement with a third party. Pursuant to the agreement, the Company is required to compensate the firm 60,000 shares of its restricted common stock. The shares were valued at \$93,000 based on the fair value of the shares on the date of the contract and have been charged to expense over the term of the agreement which was for three months and expired December 31, 2008. The stock-based expense for these shares included in operating expenses for the nine months ended January 31, 2009 was \$93,000.

In October 2008, the Company entered into a Consulting and Advisory Agreement with a third party. Pursuant to the agreement, the Company is required to compensate the firm 60,000 shares of its restricted common stock. The shares were valued at \$90,000 based on the fair value of the shares on the date of the contract and have been charged to expense over the term of the agreement which was for three months and expired January 6, 2009. The stock-based expense for these shares included in operating expenses for the nine months ended January 31, 2009 was \$90,000.

In October 2008, the Company entered into a Consulting and Advisory Agreement with a third party. Pursuant to the agreement, the Company is required to compensate the firm 25,000 shares of its restricted common stock. The shares were valued at \$35,750 based on the fair value of the shares on the date of the contract and have been charged to expense over the term of the agreement which was for three months and expired January 23, 2009. The stock-based expense for these shares included in operating expenses for the nine months ended January 31, 2009 was \$35,750.

In January 2009, the Company entered into a consulting and advisory agreement with a third party. Pursuant to the agreement, the Company is required to compensate the advisory firm 5,000 shares of its restricted common stock per month. The shares were valued at \$18,000 based on the fair value of the shares on the date of the contract and are being charged to expense over the term of the agreement which is for three months and expires March 31, 2009. The stock-based expense for these shares included in operating expenses for the nine months ended January 31, 2009 was \$6,000.

7. PROVISION FOR INCOME TAXES

For the nine months ended January 31, 2009, the Company has recognized the minimum amount of franchise tax required under California corporation law of \$800. The Company is not currently subject to further federal or state tax since it has incurred losses since its inception.

As of January 31, 2009, the Company had federal and state net operating loss carry forwards of approximately \$2,030,000 which can be used to offset future federal income tax. The federal and state net operating loss carry forwards expire at various dates through 2029. Deferred tax assets resulting from the net operating losses are reduced by a valuation allowance, when, in the opinion of management, utilization is not reasonably assured.

CROWDGATHER, INC.
NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2009
UNAUDITED

As of January 31, 2009, the Company had the following deferred tax assets related to net operating losses. A 100% valuation allowance has been established as management believes it is more likely than not that the deferred tax assets will not be realized.

Federal net operating loss (at 34%)	\$ 690,000
State net operating loss (at 8.84%)	180,000
	870,000
Less: valuation allowance	(870,000)
Net deferred tax assets	\$ -

The Company's valuation allowance increased by approximately \$680,000 during the nine months ended January 31, 2009.

8. COMMITMENTS

The Company is under contractual obligations to issue 15,000 shares of its common stock to various consultants pursuant to their respective advisory agreements for services performed, and to be performed. The fair value of these services was \$18,000, of which \$6,000 was earned as of January 31, 2009.

During January 2009, the Company entered into a consulting agreement with an investment firm. Pursuant to the contract, the Company advanced the firm \$6,000 for expenses and will potentially pay the firm an additional \$9,000 for expenses related to services to be rendered. The agreement is for 60 days and expired on March 9, 2009. In consideration for the services rendered by the firm, the Company is required to pay a cash fee of 10% of the gross proceeds of the sale of shares sold. In addition, the Company is required to issue the firm warrants to purchase shares equal to 10% of the total dollar amount sold.

9. SUBSEQUENT EVENTS

On February 11, 2009, we issued a convertible promissory note to one of our shareholders for \$60,000. The note is due July 9, 2009 and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of the Company's common stock at a conversion price of the lower of (i) \$0.90 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceeds \$2,000,000.

On March 10, 2009, we issued a convertible promissory note to one of our shareholders for \$32,000. The note is due July 9, 2009 and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of the Company's common stock at a conversion price of the lower of (i) \$0.70 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceeds \$2,000,000.

Item 2. Plan of Operation

This following information specifies certain forward-looking statements of management of the company. Forward-looking statements are statements that estimate the happening of future events and are not based on historical fact. Forward-looking statements may be identified by the use of forward-looking terminology, such as “may”, “shall”, “could”, “expect”, “estimate”, “anticipate”, “predict”, “probable”, “possible”, “should”, “continue”, or similar terms, variations of those terms or the negative of those terms. The forward-looking statements specified in the following information have been compiled by our management on the basis of assumptions made by management and considered by management to be reasonable. Our future operating results, however, are impossible to predict and no representation, guaranty, or warranty is to be inferred from those forward-looking statements.

The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. We cannot guaranty that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements.

Critical Accounting Policies and Estimates. Our Management’s Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources.

These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the financial statements included in our Annual Report on Form 10-KSB filed with the Securities and Exchange Commission on July 29, 2008.

Overview. We are an Internet company that specializes in monetizing a network of online forums and message boards designed to engage, provide information to and build community around users. We are in the process of building what we hope will become one of the largest social, advertising, and user generated content networks by consolidating existing groups of online users that post on message boards and forums. Our goal is to create the world's best user experience for forum communities, and world class service offerings for forum owners. We believe that the communities built around message boards and forums are the one of the most dynamic sources of information available on the web because forums are active communities built around interest and information exchange around specific topics.

Part of our growth strategy includes identifying and acquiring web properties. In the last six months, we have been researching potential opportunities to acquire online forums within targeted content and advertising verticals in our industry in order to expand our operations. In addition to the over 70 properties and 300 domain names acquired to date, we also maintain ongoing discussions with representatives of certain web properties and other companies that may be interested in being acquired by us or entering into a joint venture agreement with us.

The network we create will rely initially upon our own properties, but it is our goal to build a network that is open to third-party owned forums as well. Ultimately, the integration of these message board communities on our central CrowdGather platform will allow for the creation of three things: a user generated content network driven by a proprietary search interface; a social network powered by central ID and log-on management through our proprietary user profile; and an advertising network that allows for us to leverage the targeted demographics of the combined network in order to generate the highest advertising rates for all of our member sites.

Our Community of Online Forums. Our forum community connects what we believe is a robust and vibrant network of people sharing their questions, expertise and experiences. We hope that this collection of forums will help users easily access relevant, dynamic, and compelling user-generated content, conversations, and commerce. Some of our representative properties include:

Forum Name	Target Community/Discussion Topic
ZuneBoards.com	Microsoft Zune Community
Ngemu.com	Software emulators
ABXZone.com	Computer help
GenMay.com	Off-topic and humor
MotorcycleForum.com	Motorcycles and Scooters

Freepowerboards.com	Free forum hosting
Zealot.com	Hobby enthusiast forum
Wiispace.com	Nintendo Wii Enthusiast community

Edgar Filing: CrowdGather, Inc. - Form 10-Q

We believe the CrowdGather Network currently represents an aggregate of approximately 20 million monthly page views, 1.7 million monthly unique visitors, and 1.7 million discussions comprising over 40.5 million individual replies. Additionally, approximately 2.9 million users have registered on CrowdGather Network sites to date. We have noticed an organic increase in the number of pageviews and ad impressions across our major properties after the initial acquisition and integration periods. Our belief is that the strong search engine rankings of many of our properties will continue to result in increased pageviews and registered members as we go forward.

We seek to continually add to the number of communities our website services by acquiring additional active forums, thereby increasing traffic to our site and the number of forums we host.

Liquidity and Capital Resources. Our total assets were \$744,053 as of January 31, 2009. We had total current assets of \$43,363, which was comprised of cash of \$37,363 and prepaid expenses of \$6,000. We also had property and equipment with a net value of \$90,090, and intangible assets of \$606,610, represented by our domain names and other intellectual property owned, and a security deposit of \$3,990.

In April 2008, we issued 1,000,000 shares of common stock sold pursuant to a private placement offering in exchange for cash of \$890,000. On June 20, 2008, we sold 420,000 shares of our common stock to one investor in exchange for \$420,000 or \$1.00 per share. On July 8, 2008, we issued an 8% mandatorily convertible promissory note for \$500,000. The note is due July 8, 2009 if not yet converted.

On September 25, 2008, we issued a convertible promissory note to one of our shareholders in exchange for \$200,000. On October 31, 2008, we issued another convertible promissory note to one of our shareholders in exchange for \$170,000. These convertible notes are due in one year from the issue date, and each bears interest at an annual rate of 10%. The convertible notes each have an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$1.50 per share or, (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equals or exceeds \$2,000,000.

On December 3, 2008, we issued another convertible promissory note to one of our shareholders in exchange for \$110,000. The convertible note is due December 3, 2009, and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$1.40 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceed \$2,000,000.

On January 9, 2009, we issued another convertible promissory note to one of our shareholders in exchange for \$90,000. The convertible note is due July 9, 2009, and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$1.25 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceed \$2,000,000.

Our current liabilities as of January 31, 2009, totaled \$53,819, consisting of \$17,019 in accounts payable and accrued expense, \$36,000 in accrued interest and \$800 in income taxes payable. We also had convertible notes payable of \$1,070,000 as of January 31, 2009. The terms of those notes are described above. We had no other liabilities and no long-term commitments or contingencies at January 31, 2009.

We have incurred a net loss of \$2,030,717 for the nine months ended January 31, 2009 and have an accumulated deficit of \$2,477,566 as of January 31, 2009. We will require additional debt or equity financing to fund our activities and to support our operations. However, there is no assurance that we will be able to obtain additional financing. Furthermore, there is no assurance that rapid technological changes, changing customer needs and evolving industry standards will enable us to introduce new products on a continual and timely basis so that profitable operations can be attained.

Results of Operations

Our current business operations commenced following our merger and reorganization in April 2008. Prior year results of operations were from the predecessor company and comparisons of operating results are not meaningful.

For the three months ended January 31, 2009

Revenue. We realized revenues of \$35,324 for the three months ended January 31, 2009. We anticipate that as we operate our new business and expand our holdings of websites and domain names, we will begin to generate more significant revenues as we implement the advertising and sponsorship initiatives for all of our web properties.

Operating Expenses and Net Loss. For the three months ended January 31, 2009, our operating expenses were \$725,482, including non cash compensation for services rendered of \$181,072, non cash compensation related to stock options of \$148,000 and severance for full time employees of \$14,200, resulting in a loss from operations of \$690,248. We also had interest expense of \$21,833, resulting in net other expense of \$21,833 for the three months ended January 31, 2009. Therefore, our net loss for the three months ended January 31, 2009 was \$712,081 with no provision for income taxes. We anticipate that we will continue to incur significant general and administrative expenses.

For the nine months ended January 31, 2009

Revenue. We realized revenues of \$65,495 for the nine months ended January 31, 2009. We anticipate that as we operate our new business and expand our holdings of websites and domain names, we will begin to generate more significant revenues as we implement the advertising and sponsorship initiatives for all of our web properties.

Operating Expenses and Net Loss. For the nine months ended January 31, 2009, our operating expenses were \$2,060,642, including non cash compensation for services rendered of \$255,500, non cash compensation related to stock options of \$460,000, and severance for full time employees of \$14,200, resulting in our loss from operations of \$1,995,147. We also had interest income of \$1,230 and interest expense of \$36,000 resulting in net other expense of \$34,770 for the nine months ended January 31, 2009. Our net loss for the nine months ended January 31, 2009, was \$2,030,717, after a provision for income taxes of \$800. We anticipate that we will continue to incur significant general and administrative expenses.

Plan of Operation for the Next Twelve Months. For the nine month period ended January 31, 2009, we generated revenues of \$65,495. To effectuate our business plan during the next twelve months, we need to raise capital and generate increased revenues by expanding our online forum offerings and increasing the capabilities of our existing online forums. Our failure to do so will hinder our ability to increase the size of our operations and generate additional revenues. If we are not able to generate additional revenues that cover our estimated operating costs, our business may ultimately fail.

Over the last nine months, we have funded the costs of our operations through loans from one of our shareholders. We estimate that our cash on hand will not be sufficient for us to continue and expand our current operations for the next twelve months. Our forecast for the period for which our financial resources will be adequate to support our operations involves risks and uncertainties and actual results could differ as a result of a number of factors. Besides generating revenue from our current operations, we believe we will need to raise additional capital to expand our operations to the point at which we are able to operate profitably. We are pursuing capital through public or private financing as well as borrowings and other sources, including our officers, directors and principal shareholders. We cannot guaranty that additional funding will be available on favorable terms, if at all. If adequate funds are not available from external sources, we are dependent on our officers, directors and/or shareholders to continue to loan us funds to pay for our expenses to achieve our objectives over the next twelve months. However, our officers, directors and principal shareholders are not committed to contribute funds to pay for our expenses and we cannot guaranty that those officers, directors and/or shareholders will continue to loan us funds to pay the costs of our operations. In the event that we are unable to raise additional capital or borrow additional funds, we may be forced to undertake significant cost reductions or curtail operations.

On February 11, 2009, we issued a convertible promissory note to one of our shareholders in exchange for \$60,000. The convertible note is due July 9, 2009, and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$0.90 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceed \$2,000,000.

On March 10, 2009, we issued a convertible promissory note to one of our shareholders in exchange for \$32,000. The convertible note is due July 9, 2009, and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$0.70 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceed \$2,000,000.

We are not currently conducting any research and development activities, except for development of our CrowdGather platform, which we anticipate will cost approximately \$50,000 over the next twelve months. We do not anticipate conducting any other research and development activities in the near future.

We do not anticipate that we will purchase any significant equipment except for computer equipment and furniture which we anticipate will cost approximately \$60,000 over the next twelve months.

We do not anticipate any significant changes in the number of employees unless we are able to significantly increase the size of our operations. In the interim we are supplementing our staffing needs by selectively using independent contractors to provide services to us on an as-needed basis.

In November 2008, we undertook significant cost reductions that included the termination of several employees and consolidation of other functions amongst the remaining members of our staff. As a result of our streamlining, we have brought cash expenses down to approximately \$100,000 per month as we entered the 2009 calendar year. We have also undertaken an effort to generate revenues for web application development in order to further reduce our monthly cash deficit. We believe that we can continue to increase monthly revenues and execute our business strategy within the constraints of this revised overhead and cost structure.

Off-balance Sheet Arrangements

We had no off-balance sheet arrangements at January 31, 2009.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. We maintain controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures performed as of January 31, 2009, the date of this report, our chief executive officer and the principal financial officer concluded that our disclosure controls and procedures were effective.

Item 4(T). Controls and Procedures.

Changes in internal controls. There were no changes in our internal control over financial reporting that occurred during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

None.

20

Item 1A. Risk Factors.

Not applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On January 2009, we entered into a consulting and advisory agreement with an advisory firm and agreed to compensate that firm with 5,000 shares of our restricted common stock per month. The shares were valued at \$18,000 based on the fair value of the shares on the date of the contract; the term of the agreement is for three months and expires March 31, 2009. The shares were issued in a transaction which we believe satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 4(2) of that act.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to Vote of Security Holders

None.

Item 5. Other Information

On February 11, 2009, we issued a convertible promissory note to one of our shareholders in exchange for \$60,000. The convertible note is due July 9, 2009, or upon default, whichever is earlier, and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$0.90 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceed \$2,000,000. The convertible note was issued in a transaction which we believe satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

On March 10, 2009, we issued a convertible promissory note to one of our shareholders in exchange for \$32,000. The convertible note is due July 9, 2009, or upon default, whichever is earlier, and bears interest at the annual rate of 10%. The convertible note has an optional conversion feature by which the holder can convert the principal and accrued interest to shares of our common stock at a conversion price of the lower of (i) \$0.70 per share (ii) the price per share of our next transaction or series of related transactions in which we sell equity securities and in which the gross proceeds to us equal or exceed \$2,000,000. The convertible note was issued in a transaction which we believe satisfies the requirements of that exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 5 of that act and Regulation S promulgated pursuant to that act by the SEC.

Item 6. Exhibits

31. Rule 13a-14(a)/15d-14(a) Certifications.

32. Section 1350 Certifications.

SIGNATURES

In accordance with the requirements of the Securities Exchange Act of 1934, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
