NEWS RELEASE ELD No. 04-10

TSX: ELD AMEX: EGO September 8, 2004

ELDORADO GOLD COMMENCES KISLADAG CONSTRUCTION

(all figures in U.S. dollars)

VANCOUVER, BC Paul N. Wright, President and Chief Executive Officer of Eldorado Gold Corporation (Eldorado , the Company , or we) is pleased to announce that it has received all the permits and approvals necessary to construct its Kisladag Mine (Kisladag or the mine) in Turkey.

The recent issuance of the Construction Permit by the Directorate of Public Works - Usak concluded the permitting process required to construct and commission the operation.

Site activities will be underway in September with road construction, contractors mobilizing to site, water well drilling and electrical powerline construction.

With the recent approvals, Eldorado remains on schedule to commence production late in 2005. Exact timing of the start of commercial production will be dependent upon winter weather conditions in 2004-2005 and its impact on the leach pad construction schedule.

Kisladag will commence production at an annualized rate of 164,000 ounces for its first year increasing in year two to 240,000 oz. annually at a cash operating cost of \$165/oz. for a planned mine life of 14 years.

With a balance sheet at June 30, 2004 including \$86.8 M cash and no debt, Eldorado is adequately funded to finance the \$62.6 M capital programme required to commence production at Kisladag.

Kisladag Summary

The following table summarizes the planned performance derived from the updated Feasibility Study completed in May 2004:

Average Annual Gold Production

Mine Life

14 years

Initial Capital Cost

Production Rate

Cash Operating Cost

Total Production Cost

240,000 ounces

\$62.6 million

\$62.6 million

\$10 MT/year

\$165/oz.

\$214/oz.

Paul Wright stated, The commencement of construction at Kisladag denotes a significant milestone for Eldorado. The timely and successful completion of the permitting requirements for Kisladag have been possible due to the strong support of the local community for the Project, the professionalism of the government permitting agencies and the dedication of Eldorado s staff in Turkey.

With Kisladag construction underway, the permitting and engineering expertise in the Company will be focused on delivering our Efemçukuru Project to a construction decision. Specifically, it is intended to complete and submit the Environmental Impact Assessment Report to the Ministry of Environment and Forestry in Q4 2004.

Eldorado is a gold producing and exploration company with gold assets in Brazil and Turkey; two countries that we believe have substantial geological potential. With our international expertise in mining, finance and project development, together with highly skilled and dedicated staff, we believe that Eldorado is well positioned to experience continued growth and value as we create and pursue new opportunities.

ON BEHALF OF

ELDORADO GOLD CORPORATION
