FORWARD LOOKING STATEMENTS

This Annual Report contains forward-looking statements about our business, financial condition and prospects that reflect our management's assumptions and beliefs based on information currently available. We can give no assurance that the expectations indicated by such forward-looking statements will be realized. If any of our assumptions should prove incorrect, or if any of the risks and uncertainties underlying such expectations should materialize, Winfield's actual results may differ materially from those indicated by the forward-looking statements.

The key factors that are not within our control and that may have a direct bearing on operating results include, but are not limited to, acceptance of our services, our ability to expand its customer base, managements' ability to raise capital in the future, the retention of key employees and changes in the regulation of our industry.

There may be other risks and circumstances that management may be unable to predict. When used in this Report, words such as, "believes," "expects," "intends," "plans," "anticipates," "estimates" and similar expressions are intended to identify and qualify forward-looking statements, although there may be certain forward-looking statements not accompanied by such expressions. However, the forward-looking statements contained herein are not covered by the safe harbors created by Section 21E of the Securities Exchange Act of 1934.

PART I

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

ITEM 1. BUSINESS.

BUSINESS DEVELOPMENT

Winfield Financial Group, Inc. was founded under the laws of the state of Nevada on May 2, 2000.

Winfield intends to operate as a business broker, primarily representing sellers and offering its clients' businesses for sale. It will be limiting its business to asset sale transactions and not transactions in which businesses are sold through the sale of stock, which will be disclosed on our website. In other words, the company may list all or substantially all of its assets for sale. It may not sell its business through the sale of stock. As such, the buyers will not acquire any of the outstanding securities of a business in conjunction with the asset purchase. Upon a sale of all or substantially all the assets of a business, the shareholders of that business will continue to own all the shares of a shell corporation. Further, it would be likely that the seller corporation would be required under state law to obtain shareholder approval for such sale.

A buyer who is purchasing all or substantially all of the assets of a business in these asset purchase transactions may give to the seller a promissory note secured by the assets being acquired as partial consideration for the purchase of the assets. The notes will not be convertible.

PAGE -3-

Winfield intends to advertise its clients' companies assets for sale through a variety of media, including the internet, newspapers and trade journals.

We have conducted our operations since May 2, 2000. We are a development stage company. For the period from inception to March 31, 2003, we generated no revenues and had a loss of \$120,893. We had \$6,813 of cash available as of March 31, 2003. Nevertheless, our management has significant experience in the business brokerage business in which we intend to engage.

Since our inception we have devoted our activities to the following:

Obtaining required licenses

During 2002 and into 2003 we are in the process of applying for the Nevada real estate license and have researched the required licenses in California, where we anticipate commencing operations, and have also researched requirements with Utah and Arizona where we next anticipate commencing operations. All of these

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

states have no separate business brokers' licenses; instead they require business brokers to be licensed real estate brokers. These applications for California, Utah and Arizona will be filed in late 2003.

We have scheduled an associate to obtain California Real Estate license, required for business brokers in California, in on or before December 2003. We received our Nevada Real Estate license in June 2003. We are currently researching whether a Broker or a Corporate Broker license is required.

As we have not yet been granted the requisite licenses, we have not represented any sellers or buyers to date. Further, we will not retain securities broker-dealers in pursuit of our business plan.

Locating facilities

Since our inception we have shared office space with Financial Marketing, Inc. During this time we have actively reviewed building sites and existing buildings from 10,000 square feet to 30,000 square feet but have not identified any location for acquisition.

PAGE -4-

Developing information systems/Marketing program

Our computer programmers have developed the design of the WFG information management system for the past 2 years. We will use this system to identify potential clients, typically sellers, and manage our business. This system also keeps track of buyers who respond to our advertising of business listings that we have for sale. Our information management system continues to be reviewed and improved since our 2000 inception. We use the information management system primarily to build and manage our database of potential clients.

We intend to utilize marketing sources as provided by such entities as Wall Street Journal, Duns Marketing (Duns & Bradstreet), Nation-List International (www.nationlist.com), International Business Brokers International (www.ibba.org), Property-Line (www.propertyline.com), Commercial Marketing Group (www.cmglv.com), www.bizbuysell.com, and www.businessesforsale.com. As we are not able to solicit clients until we have our license, we have not yet subscribed to these services.

We will attempt to secure businesses in these lists as clients by contacting them by e-mail, fax, telephone or regular mail. In addition, we will contact other

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

brokers who may have clients we can represent.

Recruiting personnel

We began seeking qualified business brokers throughout the Southwest in 2001 to become associated with us. We have been contacting brokers through International Business Brokers Association who are in the general geographical areas such as San Diego, San Francisco, Phoenix, Salt Lake City. These candidates have either business brokerage experience or a background in business, financial interpretation and sales. Negotiations are on-going with several candidates.

Developing purchase, sale and related documents

The forms and documents for business purchase, sale and related documents have been developed from established business brokerage forms. The California Real Estate licensing entities have approved the forms and documents for California and Nevada business sales.

Developing our website

We have a website providing basic information about our business on one page currently operational at www.winfieldfinancialgroup.com. Nothing on that website is part of this registration statement. Additional content and features will be added when we receive our licenses required to commence operations, including:

PAGE -5-

* Listings of businesses for sale including a simple summary of the inventories, equipment, general financial information and sales price for each business listing

* Information concerning basic procedures of selling, tips on organizing a business to sell, general methods of estimating approximate sales price and a business survey to begin the process.

* Information concerning our management and brokers

When we commence active operations, Winfield Financial Group, Inc. will offer our clients and customers the following services.

* We intend to operate as a business broker, primarily representing sellers and offering our client's businesses as an asset sale. We will advise our clients concerning negotiating terms of these sales but the responsibility for negotiating these terms will remain with the client. Although we do provide business valuation services as

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

described below, we will not provide these services in connection with our representation of sellers in the sale of their businesses. Further, we will not assist buyers in obtaining financing. We will focus on business transactions with a sales volume range from \$5 to \$75 million in revenues.

- * We will also provide, on an infrequent basis, buyer services to include, but not limited to, buyer-broker agreements and individual business searches, consulting, and negotiations in asset sale transactions.

Our revenues are primarily generated from receipt of fees based on the price of a completed business asset sale transactions.

Our fee structure will be as follows:

- * Five percent of the first two million dollars of a transaction's total sales price; plus
- * Four percent of the second two million dollars of a transaction's total sales price; plus
- * Three percent of the third two million dollars of a transaction's total sales price; plus
- * Two percent of the fourth two million dollars of a transaction's total sales price; plus
- * One percent of a transaction's total sales price thereafter.

When we represent buyers, although infrequently, we will generate revenues from receipt of fees on the same schedule as above.

PAGE -6-

In addition, we intend to offer business valuations as a special consulting service for buyers and sellers.

The fee for each business appraisal will be based on the scope of the engagement, as follows

* Letter of Valuation	\$800
* Letter of Valuation and Backup Financials	\$2,600
* Letter of Valuation, Backup Financials and Demographics	\$6,000

Further, we intend to offer business consulting services in the area of assisting clients to obtain approval from major automobile and truck manufacturers for the transfer of a dealership.

Business valuation and business consulting services do not require state licensing. Thus, we can commence providing these services while we are waiting for our business broker licensing requirements to be met.

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

Development Activities

We expended approximately \$40,000 during year ended December 31, 2000 and nothing in year ended December 31, 2001 on development activities.

Competition

We face competition from numerous business brokerage companies, some of which are more established, benefit from greater market recognition, have greater financial and marketing resources, and a broader geographical base than us. Our market is intensely competitive, highly fragmented and subject to rapid technological change. We expect competition to persist and intensify in the future. This competition may diminish our market share or our ability to gain entry into certain markets.

Our current and potential competitors are primarily local offices of larger, more established organizations, such as:

- * Nevada First Business Brokers
- * Webster Business Group
- * Sunbelt Business Brokers

Although unlike these companies, we are a development stage company; however we intend to compete with these local offices of larger, more established business brokerage firms through the extensive background and experience of our management in this industry.

PAGE -7-

Regulation

Under Nevada law, business brokers are required to obtain a Nevada real estate broker license, even though we do not intend to be involved in the offer and sale of real estate other than in connection with the sale of a business. We will operate under and are in the process of obtaining a Nevada real estate broker license. As such, under relevant Nevada law and regulations, we will be required to have and maintain a definite place of business within the state, which must be a room or rooms used for the transaction of real estate business, or such business and any allied businesses, and which must serve as the office for the transaction of business under the authority of the license, and where the license must be prominently displayed. We will also be required to comply with all licensing, disclosure and other regulations governing the operation of real estate brokerage firms in Nevada and other states in which we may in the future operate. California, Utah and Arizona have comparable laws.

We received our Nevada Real Estate license in June 2003.

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

Employees

We currently do not have any full time employees at this time and pay for clerical assistance as required along with the rent of \$400.00 to FMI.

Reports to Security Holdings

Annual reports

Although Winfield has not been required to do so, we intend voluntarily to deliver annual reports to security holders. Such annual reports will include audited financial statements.

Periodic reports with the SEC

As of the date of this Registration Statement, Winfield files periodic reports with the SEC as required by laws and regulations applicable to fully reporting companies.

Availability of filings

The public may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Additionally, the SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

PAGE -8-

RISK FACTORS

Our poor financial condition means that you will be unable to determine whether we will become profitable. If we do not generate operating revenues or raise funding from other sources, we will have to cease operations in August 2003.

We have conducted our operations since May 2, 2000. We are a development stage company. For the period from inception to March 31, 2003, we generated no revenues and had a loss of \$120,893. We had \$6,813 of cash available as of March 31, 2003. Until we secure our real estate licenses, we anticipate expenses of a maximum of \$1,195 per month, comprised primarily of printing costs of \$290, on going computer programming and testing of \$450, rent of \$400 and website expenses of \$55 consisting of hosting fees. With these overhead expenses and working only as consultants and without the real estate licenses we can continue operations for approximately 7 months of operations without additional

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

funds through October 2003. We estimate these expenses to increase to \$4,700 per month after we secure our real estate licenses primarily due to expenses associated with marketing our services to potential clients and referring brokers. Obtaining the real estate licenses in Nevada will allow operations to continue through August 2003. Thereafter, we will need to generate operating revenues or secure other funding in the amount of \$32,900 to remain operational until April 1, 2004.

Further, in order to become profitable, we may still need to secure additional debt or equity funding. If it becomes necessary, we hope to be able to raise additional funds from an offering of our stock in the future. However, this offering may not occur, or if it occurs, may not raise the required funding. There are no preliminary or definitive agreements or understandings with any party for such financing.

Our ability to continue as a going concern is dependent on our ability to raise funds and generate revenues to implement our planned development; however we may not be able to raise sufficient funds or generate revenues to do so. Our independent auditors have indicated that there is substantial doubt about our ability to continue as a going concern over the next twelve months. Our poor financial condition could inhibit our ability to achieve our business plan, because we are currently operating at a substantial loss with no operating history and revenues, an investor cannot determine if we will ever become profitable.

Because our planned growth is contingent upon receiving additional funding, you will be unable to evaluate whether our business will be successful.

Our business development is contingent upon raising debt or equity funding. We have no sources of funding identified. You must consider the risks, difficulties, delays and expenses frequently encountered by development stage companies in our business, which have little or no operating history, including whether we will be able to overcome the following challenges:

PAGE -9-

- * Inability to raise necessary revenue to operate for the next 12 months or thereafter
- * Advertising and marketing costs that may exceed our current estimates
- * Unanticipated development expenses
- * Our ability to generate sufficient revenues to offset the substantial costs of operating our business

Because significant up-front expenses, including advertising, sales, and other expenses are required to

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

develop our business, we anticipate that we may incur losses until revenues are sufficient to cover our operating costs. Future losses are likely before our operations become profitable. As a result of our lack of operating history, you will have no basis upon which to accurately forecast our:

- * Total assets, liabilities, and equity
- * Total revenues
- * Gross and operating margins
- * Labor costs

Accordingly, the proposed business plans described in this registration statement may not either materialize or prove successful and we may never be profitable. Also, you have no basis upon which to judge our ability to develop our business and you will be unable to forecast our future growth.

Our officers and directors can exert control over matters requiring stockholder approval.

Our officers and directors beneficially own approximately 73.37% of our outstanding common stock. These individuals will be able to significantly influence all matters requiring approval by our stockholders, including the election of directors and the approval of significant corporate transactions. This concentration of ownership may also have the effect of delaying, deterring or preventing a change in control and may make some transactions more difficult or impossible without the support of these stockholders.

Robert W. Burley, our president and treasurer, and Mark Johnson, our vice president, make our management decisions; if we lose their services, our revenues may be reduced.

Robert W. Burley, our President and Treasurer, and Mark Johnson, our Vice President have managed our business. The success of our business is dependent upon the expertise of Robert W. Burley and Mark Johnson. Because Robert W. Burley and Mark Johnson are essential to our operations, you must rely on their management decisions. We have not entered into any agreement with Robert W. Burley and Mark Johnson that would prevent them from ceasing to provide services to our company, nor have we obtained any key man life insurance relating to them. If we lose their services, we may not be able to find management with comparable experience. As a result, the loss of Robert W. Burley's or Mark Johnson's services could reduce our revenues.

PAGE -10-

We are authorized to issue preferred stock which, if issued, may adversely affect or reduce the market price of our

common stock.

Our directors are authorized by our articles of incorporation to issue shares of preferred stock without the consent of our shareholders. Our preferred stock, when issued, may rank senior to common stock with respect to payment of dividends and amounts received by shareholders upon liquidation, dissolution or winding up. Our directors will set such preferences. The issuance of such preferred shares and the preferences given the preferred shares, do not need the approval of our shareholders. The existence of rights, which are senior to common stock, may reduce the price of our common shares. We do not have any plans to issue any shares of preferred stock at this time.

Because our common stock may be considered a penny stock, our common stock is considered a high-risk investment and is subject to restrictions on marketability; you may be unable to sell your shares.

If our common stock becomes tradable in the secondary market, we may be subject to the penny stock rules adopted by the Securities and Exchange Commission that require brokers to provide extensive disclosure to its customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities. For additional details concerning the disclosure requirements under the penny stock rules, see the section entitled Penny Stock Considerations below.

Certain Nevada corporation law provisions could prevent a potential takeover of us which could adversely affect the market price of our common stock or deprive you of a premium over the market price.

We are incorporated in the State of Nevada. Certain provisions of Nevada corporation law could adversely affect the market price of our common stock. Because Nevada corporation law requires board approval of a transaction involving a change in our control, it would be more difficult for someone to acquire control of us. Nevada corporate law also discourages proxy contests making it more difficult for you and other shareholders to elect directors other than the candidate or candidates nominated by our board of directors. Our articles of incorporation and by-laws contain no similar provisions.

Shares eligible for future sales under Rule 144 if sold could reduce the market price of our shares.

PAGE -11-

There are 1,294,150 shares of our common stock held by non-

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

affiliates and 3,600,000 shares of our common stock held by affiliates that Rule 144 of the Securities Act of 1933 defines as restricted securities. No shares have been sold pursuant to Rule 144 of the Securities Act of 1933. Of the shares owned by non-affiliates, all were sold in an offering registered with the State of Nevada and thus may be transferred free of any restrictions. The remaining shares have been held for at least one year may be resold under Rule 144.

In general, under Rule 144 as currently in effect, any of our affiliates and any person or persons whose sales are aggregated who has beneficially owned his or her restricted shares for at least one year, may be entitled to sell in the open market within any three-month period a number of shares of common stock that does not exceed 1% of the then outstanding shares of our common stock. Trading volume in the common stock during the four calendar weeks preceding such sale. Sales under Rule 144 are also affected by limitations on manner of sale, notice requirements, and availability of current public information about us. Non-affiliates who have held their restricted shares for two years may be entitled to sell their shares under Rule 144 without regard to any of the above limitations, provided they have not been affiliates for the three months preceding such sale.

As a result of the provisions of Rule 144, all of the restricted securities could be available for sale in a public market, if developed, 90 days after this registration statement becomes effective, November 25, 2002. The availability for sale of substantial amounts of common stock under Rule 144 could reduce prevailing market prices for our securities.

ITEM 2. DESCRIPTION OF PROPERTY

Description of Property

We occupy 400 square feet of office space located at 2770 S. Maryland Parkway, Suite 402, Las Vegas, Nevada 89109. Our telephone number is (702) 731-0030. We began leasing space from Financial Marketing, Inc. in July 2002 on a month to month lease basis at the rate of \$400.00 per month.

We believe that our anticipated new facilities will be adequate to meet our current needs. However, as we continue to implement our business plan, we may need to relocate our headquarters office space. We anticipate such facilities are available to meet our development and expansion needs in existing and projected target markets for the foreseeable future.

We do not intent to renovate, improve, or develop properties. We are not subject to competitive conditions for property and currently have no property to insure. We have no policy with respect to investments in real estate or interests in real estate and no policy with respect to investments in real estate mortgages. Further, we have no policy with respect to investments in securities of or interests in persons primarily engaged in real estate

activities.

PAGE -12-

ITEM 3. LEGAL PROCEEDINGS

We are not currently involved in any legal proceedings nor do we have knowledge of any threatened litigation.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

We did not hold a shareholders meeting in 2002, thus there was no vote of securities holders in 2002. We anticipate holding an initial annual shareholder meeting in May, 2003.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Market information

There is no established public trading market for our securities and a regular trading market may not develop, or if developed, may not be sustained. A shareholder in all likelihood, therefore, will not be able to resell his or her securities should he or she desire to do so when eligible for public resales. Furthermore, it is unlikely that a lending institution will accept our securities as pledged collateral for loans unless a regular trading market develops. We have no plans, proposals, arrangements, or understandings with any person with regard to the development of a trading market in any of our securities.

Resales under Rule 144 and otherwise

There are 1,294,150 shares of our common stock held by non-affiliates and 3,600,000 shares of our common stock held by affiliates that Rule 144 of the Securities Act of 1933 defines as restricted securities. No shares have been sold pursuant to Rule 144 of the Securities Act of 1933. Of the shares owned by non-affiliates, all were sold in an offering registered with the State of Nevada and thus may be transferred free of any restrictions. The remaining shares have been held for at least one year may be resold under Rule 144.

In general, under Rule 144 as currently in effect, any of our affiliates and any person or persons whose sales are aggregated who has beneficially owned his or her restricted shares for at least one year, may be entitled to sell in the open market within any three-month period a number of shares of common stock that does not exceed 1% of the then outstanding shares of our common stock. Trading volume in the common stock during the four calendar weeks preceding

such sale. Sales under Rule 144 are also affected by limitations on manner of sale, notice requirements, and availability of current public information about us. Non-affiliates who have held their restricted shares for two years may be entitled to sell their shares under Rule 144 without regard to any of the above limitations, provided they have not been affiliates for the three months preceding such sale.

PAGE -13-

As a result of the provisions of Rule 144, all of the restricted securities could be available for sale in a public market, if developed, 90 days after this registration statement becomes effective, November 25, 2002. The availability for sale of substantial amounts of common stock under Rule 144 could reduce prevailing market prices for our securities.

Holders

As of July 31, 2002, we have 4,894,150 shares of Common Stock issued and outstanding held by 76 shareholders of record.

Dividends

We have not declared any cash dividends on our common stock since our inception and do not anticipate paying such dividends in the foreseeable future. We plan to retain any future earnings for use in our business. Any decisions as to future payments of dividends will depend on our earnings and financial position and such other facts as the board of directors deems relevant. We are not limited in our ability to pay dividends on our securities.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Forward Looking Statements

Some of the statements contained in this Form 10-KSB that are not historical facts are "forward-looking statements" which can be identified by the use of terminology such as "estimates," "projects," "plans," "believes," "expects," "anticipates," "intends," or the negative or other variations, or by discussions of strategy that involve risks and uncertainties. We urge you to be cautious of the forward-looking statements, that such statements, which are contained in this Form 10-KSB, reflect our current beliefs with respect to future events and involve known and unknown risks, uncertainties and other factors affecting our operations, market growth, services, products and licenses. No assurances can be given regarding the achievement of future results, as actual results may differ materially as a result of the risks we face, and actual events may differ

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

from the assumptions underlying the statements that have been made regarding anticipated events. Factors that may cause actual results, our performance or achievements, or industry results, to differ materially from those contemplated by such forward-looking statements include without limitation:

- * Our ability to maintain, attract and integrate internal management, technical information and management information systems;
- * Our ability to generate customer demand for our services;
- * The intensity of competition; and
- * General economic conditions.

All written and oral forward-looking statements made in connection with this Form 10-KSB that are attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. Given the uncertainties that surround such statements, you are cautioned not to place undue reliance on such forward-looking statements.

Plan of Operation

Winfield Financial Group, Inc. was founded under the laws of the state of Nevada on May 2, 2000. Since our inception we have devoted our activities to the following:

- * Raising capital;
- * Establishing our business brokerage business; and
- * Developing markets for the services we offer.

We intend to act primarily as a business broker, exclusively representing sellers and advising buyers desiring to acquire businesses. We will target sellers looking to sell their private companies with a sales volume range from \$5 to \$75 million in revenues.

We have conducted our operations since May 2, 2000. We are a development stage company. For the period from inception to March 31, 2003, we generated no revenues and had a loss of \$120,893. We had \$6,813 of cash available as of March 31, 2003. Until we secure our real estate licenses, we anticipate expenses of a maximum of \$1,195 per month, comprised primarily of printing costs of \$290, on going computer programming and testing of \$450, rent of \$400 and website expenses of \$55 consisting of hosting fees. With these overhead expenses and working only as consultants and without the real estate licenses we can continue operations for approximately 7 months of operations without additional funds through October 2003. We estimate these expenses to increase to \$4,700 per month after we secure our real estate licenses primarily due to expenses associated with marketing our services to potential clients and referring brokers. We anticipate we will obtain our real estate licenses July 2003. Obtaining the real estate licenses will allow operations to continue through August 2003. Thereafter, we will need to generate operating revenues or secure other funding in the amount of \$32,900 to remain operational until April 1, 2004. There are no preliminary or definitive agreements or understandings with any party for such

financing.

PAGE -14-

We can currently generate revenues through business valuation and business consulting services. As we received our real estate license in Nevada, we can generate revenues from our planned business broker activities.

We raised \$77,206 in net proceeds from a Nevada state registered offering in July 2002. After payment of amounts due GoPublicToday.com in the amount of \$48,410, we intend to use the remaining \$20,036 in funds to implement our business plan as follows:

[1] We will recruit sales associates who have real estate licenses to list and sell our businesses. It is anticipated that a maximum of five sales associates will be recruited in 2003 who may possibly be members of Nation-List International, International Business Brokers Association or other like-kind professional business broker organizations.

PAGE -17-

[2] Nationlist International, International Business Brokers Association, and Dun and Bradstreet Marketplace list potential businesses that may be our clients. We will obtain information from these sources by purchasing the information from these sources and place it in our database once we become licensed. We will not have any formal contracts, agreements or commitments with these organizations, other than merely purchasing their lists for use by us. We will not have any exclusive arrangements with these organizations. We will not list businesses for sale on websites maintained by these organizations. We will attempt to secure these businesses as clients by contacting them by e-mail, fax, telephone or regular mail. In addition, we will contact other brokers who may have clients we can represent. These businesses are free to list their assets on other websites or with other entities after we acquire the lists.

In order to become profitable, we will still need to secure additional debt or equity funding. We hope to be able to raise additional funds from an offering of our stock in the future. However, this offering may not occur, or if it occurs, may not rise the required funding. There are no preliminary or definitive agreements or understandings with any party for such financing.

Our ability to continue as a going concern is dependent on our ability to raise funds to implement our planned development; however we may not be able to raise sufficient funds to do so. Our independent auditors have indicated that there is substantial doubt about our ability to continue as a going concern over the next twelve months. Our poor financial condition could inhibit our ability to achieve our business plan, because we are currently operating at a substantial loss with no operating history and revenues, an investor cannot determine if we will ever become profitable.

If any of the steps above are not completed as presented in the preceding milestone table, it could delay the overall schedule and eliminate or reduce 2003 revenues.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders
Winfield Financial Group, Inc.
(A Development Stage Company)
Las Vegas, Nevada

We have audited the accompanying balance sheet of Winfield Financial Group, Inc. as of December 31, 2002, and the related statements of operations, stockholders' equity, and cash flows for the six months then ended and the year ended June 30, 2002 and for the period from May 2, 2000 (Inception) through December 31, 2002. These financial statements are the responsibility of Winfield Financial's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Winfield Financial Group, Inc. as of December 31, 2002, and the results of its operations and its cash flows for the six months then ended and the year ended June 30, 2002 and for the period from May 2, 2000 (Inception) through December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, Winfield has incurred losses of \$115,205 from its inception. Winfield will require additional working capital to develop

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

its business until Winfield either (1) restart operations and achieve a level of revenues adequate to generate sufficient cash flows from operations; or (2) obtain additional financing. These conditions raise substantial doubt about Winfield's ability to continue as a going concern. Management's plans in regard to this matter are also described in Note 2. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of these uncertainties.

WINFIELD FINANCIAL GROUP, INC.
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS
NOTE 1 - SUMMARY OF ACCOUNTING POLICIES

Nature of business

Winfield Financial Group, Inc. ("Winfield Financial") has been organized to provide consulting services as a business broker. Winfield Financial was incorporated in the state of Nevada on May 2, 2000. Winfield Financial will provide consulting services primarily for sellers offering businesses with a sales range of up to approximately \$75,000,000 in annual revenues. Winfield Financial has changed its fiscal year end from June 30 to December 31, effective for the six months ended December 31, 2002.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Income Taxes

Winfield Financial accounts for income taxes under the asset and liability approach. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Winfield Financial records a valuation allowance to reduce the deferred tax assets to the amount that is more likely than not to be realized.

Stock-Based Compensation

Winfield Financial accounts for stock-based compensation under the intrinsic value method. Under this method, Winfield Financial recognizes no compensation expense for

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

stock options granted when the number of underlying shares is known and exercise price of the option is greater than or equal to the fair market value of the stock on the date of grant.

Winfield Financial accounts for non-cash stock-based compensation issued to non-employees in accordance with the provisions of SFAS No. 123 and EITF No. 96-18, Accounting for Equity Investments That Are Issued to Non-Employees for Acquiring, or in Conjunction with Selling, Goods or Services. Common stock issued for services are measured at the date of grant and are expensed as the services are performed.

Revenue Recognition

Revenues are recognized from services rendered to buyers and sellers of businesses and or assets. Revenue is recognized when a firm sales agreement is in place, delivery has occurred, the price is fixed and determinable and collectibility is reasonably assured. Winfield Financial will receive a percentage of the total sales or purchase price.

PAGE-24- F6

Other revenues are recorded as services are performed.

Basic Loss per Common Share.

Basic loss per share has been calculated based on the weighted average number of shares of common stock outstanding during the period.

Recent Accounting Pronouncements

Winfield Financial does not expect the adoption of recently issued accounting pronouncements to have a significant impact on Winfield Financial's results of operations, financial position or cash flow.

NOTE 2 - FINANCIAL CONDITION AND GOING CONCERN

Winfield has historically incurred losses, and through December 31, 2002 has incurred losses of \$115,205 from its inception. Because of these historical losses, Winfield will require additional working capital to develop its business operations.

Winfield intends to raise additional working capital through private placements, public offerings and/or bank financing. As of March 14, 2003, Winfield is in discussions with several investors, however no definitive agreements have been reached.

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

There are no assurances that Winfield will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, public offerings and/or bank financing necessary to support Winfield's working capital requirements. To the extent that funds generated from operations and any private placements, public offerings and/or bank financing are insufficient, Winfield will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to Winfield. If adequate working capital is not available Winfield may not increase its operations.

These conditions raise substantial doubt about Winfield's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should Winfield be unable to continue as a going concern.

NOTE 3 - STOCKHOLDERS' EQUITY

The initial authorized capital of Winfield Financial consisted of 20,000,000 shares at \$.001 par value common stock and 5,000,000 shares of \$.001 par value preferred stock.

PAGE-25- F7

In July 2002, Winfield Financial issued 857,150 shares of common stock for cash proceeds of \$77,206 or \$0.10 per share, net of expenses.

In February 2001, Winfield Financial issued 37,000 shares of common stock for cash proceeds of \$3,700 or \$0.10 per share.

In May 2000, Winfield Financial issued 3,600,000 shares of common stock to Winfield Financial's founders for \$4,800 or \$0.0013 per share.

In May 2000, Winfield Financial approved entering into various consulting agreements for financial and marketing services, whereby the consultants would be issued 400,000 shares of Winfield Financial's common stock for services to be rendered to Winfield Financial from May 2000 through June 2000. Winfield Financial recorded consulting expense of \$40,000 or the fair value of the services provided.

NOTE 4 - INCOME TAXES

For the six months ended December 31, 2002, Winfield Financial incurred net losses and, therefore, has no tax liability. The net deferred tax asset generated by the loss carry-forward has been fully reserved. The cumulative net

Edgar Filing: WINFIELD FINANCIAL GROUP INC - Form 10KSB/A

operating loss carry-forward is approximately \$77,000 at June 30, 2002, and will expire in the years 2020 through 2022.

Deferred income taxes consist of the following at December 31:

	2002
Long-term:	-----
Deferred tax assets	\$ 26,000
Valuation allowance	(26,000)

	\$ -

NOTE 5 - RELATED PARTY TRANSACTIONS

Winfield Financial neither owns nor leases any real or personal property as of December 31, 2002. An officer has provided office services without charge. Such costs are immaterial to the financial statements and accordingly are not reflected herein. The officers and directors are involved in other business activities and most likely will stay involved in other business activities in the future. If a specific business opportunity becomes available, such persons may face a conflict of interest. A policy for handling such a conflict has not yet been formulated.

Winfield Financial entered into a month-to-month lease for office space beginning July 2002 with an affiliated entity of the President for \$400 per month. Rent expense was \$2,400 for the six months ended December 31, 2002.

Winfield has an oral arrangement with Financial Marketing, Inc., a shareholder, who has agreed to make a capital contribution of \$50,000 to Winfield to reimburse fees paid to meet its obligation with GoPublicToday.com.

Winfield Financial Group does not own any real or personal property. Financial Marketing, Inc. has provided office services at a monthly fee of \$400.00 on a month to month basis.

The officers and directors are involved in other business activities and most likely will stay involved in other business activities in the future. If a specific business opportunity becomes available, such persons may face a conflict of interest. A policy for handling such a conflict has not yet been formulated. Under Nevada law, in general related party transactions in which there is a conflict of interest require disclosure of the conflict approval of a majority of the disinterested directors.

Financial Marketing, Inc. as a licensed Nevada real estate brokerage handles the sale of small businesses, mean businesses with less than \$5,000,000 in annual revenues. As we intend to concentrate on businesses with more than \$5,000,000 in annual revenues, we do not believe we will be in competition with FMI. Robert W. Burley owns 9.1% of the stock of FMI. Linda B. Burley also owns 8.1% of the stock of FMI. Mr. Burley has been President and Corporate Broker for FMI since January 1981 and oversees the management team of FMI. Mr. Johnson owns no stock in FMI. He has been a broker with FMI since May 2000.

Other than the above transactions, we have not entered into any material transactions with any director, executive officer, and nominee for director, beneficial owner of five percent or more of our common stock, or family members of such persons. Also, we have not had any transactions with any promoter. We are not a subsidiary of any company.
