Explanatory Note

This amendment on Form 10-KSB/A (the 2004 Form 10-KSB/A) amends the annual report on Form 10-KSB of NutraCea (the “Company”) for the year ended December 31, 2004 (the 2004 Form 10-KSB), which was originally filed on March 31, 2005. This Amendment No. 2 to the 2004 Form 10-KSB/A is being filed for the purpose of further amending certain portions of the Management’s Discussion and Analysis or Plan of Operations and expanded disclosure appearing in the Consolidated Statements of Operations as well as the revision of the Consolidated Statements of Cash Flows appearing in the Company’s financial statements and the Controls and Procedures section.

As required by Rule 12b-15 of the Securities Exchange Act of 1934, set forth in their entirety are Item 6 (Management’s Discussion and Analysis or Plan of Operation), Item 7 (Financial Statements), Item 8A (Controls and Procedures) and Item 13 (Exhibits).

As part of this amendment, the Company is also filing new certifications from its chief executive officer and chief financial officer (Exhibits 31.1, 31.2, and 32.1).

No attempt has been made in this Form 10-KSB/A to update other disclosures presented in the 2004 Form 10-KSB or the Amendment No. 1 to the 2004 Form 10-KSB. Consequently, except for the adjustments described above, this Amendment No. 1 to the 2004 Form 10-KSB/A does not reflect events occurring after March 31, 2005, the date of the original filing of the Company’s 2004 Form 10-KSB, or modify or update those disclosures that may have been affected by subsequent events. Accordingly, this Amendment No. 2 to the 2004 Form 10-KSB/A should be read in conjunction with the Company’s filings made with the SEC subsequent to the filing of the 2004 Form 10-KSB, including Amendment No. 1 to the 2004 Form 10-KSB/A filed on November 18, 2005.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

For more detailed financial information, please refer to the audited December 31, 2004 Financial Statements included in this Amendment No. 2 to the Form 10-KSB/A (referred to as the Form 10-KSB/A).

Caution about forward-looking statements

This Form 10-KSB/A includes "forward-looking" statements about future financial results, future business changes and other events that have not yet occurred. For example, statements like we "expect," we "anticipate" or we "believe" are forward-looking statements. Investors should be aware that actual results may differ materially from our expressed expectations because of risks and uncertainties about the future. We do not undertake to update the information in this Form 10-KSB/A if any forward-looking statement later turns out to be inaccurate. Details about risks affecting various aspects of NutraCea's business are discussed throughout this Form 10-KSB/A and should be considered carefully.

Results of Operations

Our revenues decreased by \$311,924, to \$1,224,229 in 2004 from \$1, 536,153 in 2003. The 20% decrease resulted from a decrease of approximately \$730,500 in sales by our equine division from \$1,248,996 in 2003 to \$600,976 in 2004. This decrease was partially offset by product licensing fees of \$214,500 in 2004 (\$0 in 2003). We expect sales by our equine division to increase in 2005 and approach the level reached in 2003.

Cost of goods sold decreased by \$245,539 to \$600,129 in 2004 from \$845,668 in 2003. This 29% decrease results primarily from a decrease in cost of goods sold from our equine division of \$321,371 in 2004.

Gross profit decreased by \$66,385 to \$624,100 in 2004, from \$690,485 in 2003. This 10% decrease is due to lower equine division sales, which have been partially offset by the licensing fees revenue in 2004.

Operating expenses increased by \$15,257,973 to \$24,175,462 in 2004, from \$8,917,489 in 2003. This increase was primarily due to increased non-cash expenses related to issuances of common stock and common stock warrants and options awards. These non-cash items totaled \$21,672, 093 in 2004 and \$1,577,938 in 2003. During 2004, these non-cash expenses included \$8,360,000 relating to the issuance of 5.5 million restricted shares of common stock to the Company's CEO for services rendered and repayment of debt; \$4,100,603 representing the value of restricted shares and shares covered by the Company's S-8 registration statement issued to officers, directors and consultants for services; and \$8,537,516 representing the value of options and warrants issued to various employees and consultants. During 2003, non-cash expenses included \$14,795 representing the value of restricted stock issued to consultants for services; \$1,233,567 representing the value of options issued to consultants; and \$329,576 representing the value of options issued to employees and directors. The increased issuance of restricted stock, options and warrants during 2004 was deemed necessary by management to retain and compensate officers, directors, consultants and employees while conserving cash assets that would otherwise have been expended for these purposes. Management expects in the future to reduce the amount of securities issued as compensation in light of expected future increases in cash assets due to anticipated increases in revenue and anticipated availability of additional investment capital from outside sources. However, if additional invested capital is not realized as anticipated, the Company may be required to issue additional restricted stock, options and/or warrants to compensate service providers in the current fiscal year. Also, professional fees increased \$703,360 to \$1,122,250 in 2004 from \$418,890 in 2003. Primary reasons for the increase in professional fees include the use of consultants instead of hiring permanent employees (\$351,820), legal fees associated with transactions (\$157,570), and additional costs associated with public filings (\$109,042). Employee wages and related expense increased by \$153,640 due to increased bonuses of \$305,000 which were partially offset by reductions in the total number of employees.

Interest expense decreased by \$4,283,194 to \$27,602 in 2004, from \$4,310,796 in 2003 primarily due to the recording of \$4,224,246 in interest expense in 2003 relating to modifications of stock option and warrant awards attached to debt as a result of the 1 for 10 reverse split on November 12, 2003.

Capital Financing

During December 2004, we borrowed \$2,400,000 in notes payable to help finance future operations. The notes are for a one year term, bear interest at 7% interest compounded quarterly and are secured by all of the assets of NutraCea. The holders were issued warrants to purchase a total of 2,400,000 shares of NutraCea's common stock at an exercise price of \$0.30 per share. The warrants are immediately exercisable and expire in seven years from the date of issuance. Debt discount expense of \$786,370 was recorded in connection with issuance of these warrants and is being amortized over the life of the notes payable.

Liquidity and Capital Resources

We have incurred significant operating losses for its last three fiscal years and, as of December 31, 2004 NutraCea had an accumulated deficit of \$44,927,792. At December 31, 2004, NutraCea had cash and cash equivalents of \$1,928,281 and a net working capital of \$283,835. While we believe this amount is sufficient to fund current business requirements it is not deemed sufficient to cover our expanded business plan and growth, nor the repayment of debt obligations.

To date, we have funded our operating deficits through a combination of short-term debt and the issuance of common and preferred stock. During 2004, we raised \$2,400,000 from the issuance of third-party notes payable. We also raised \$2,776,468 through the exercise of stock options during 2004.

Critical Accounting Policies

Our discussion and analysis of our financial conditions and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of financial statements requires managers to make estimates and disclosures on the date of the financial statements. On an on-going basis, we evaluate our estimates, including, but not limited to, those related to revenue recognition. We use authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates. We believe the following critical accounting policies affect our more significant judgments and estimates in the preparation of our consolidated financial statements.

Revenue recognition

We are required to make judgments based on historical experience and future expectations, as to the reliability of shipments made to its customers. These judgments are required to assess the propriety of the recognition of revenue based on Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition," and related guidance. NutraCea makes these assessments based on the following factors: i) customer-specific information, ii) return policies, and iii) historical experience for issues not yet identified.

Valuation of long-lived assets

Long-lived assets, consisting primarily of property and equipment, patents and trademarks, and goodwill, comprise a significant portion of NutraCea's total assets. Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying values may not be recoverable. Recoverability of assets is measured by a comparison of the carrying value of an asset to the future net cash flows expected to be generated by those assets. The cash flow projections are based on historical experience, management's view of growth rates within the industry, and the anticipated future economic environment.

Factors NutraCea considers important that could trigger a review for impairment includes the following:

- (a) significant underperformance relative to expected historical or projected future operating results,
- (b) significant changes in the manner of its use of the acquired assets or the strategy of its overall business, and
- (c) significant negative industry or economic trends.

When NutraCea determines that the carrying value of patents and trademarks, long-lived assets and related goodwill and enterprise-level goodwill may not be recoverable based upon the existence of one or more of the above indicators of impairment, it measures any impairment based on a projected discounted cash flow method using a discount rate determined by its management to be commensurate with the risk inherent in its current business model.

Marketable Securities - Marketable securities are marked to market at each period end. Any unrealized gains and losses on the marketable securities are excluded from operating results and are recorded as a component of Other comprehensive income (loss). If declines in value are deemed other than temporary, losses are reflected in Net income (loss).

Inventory - Inventory is stated at the lower of cost (first-in, first-out) or market and consists of nutraceutical products manufactured by an affiliated company, RiceX, which the Company enhances for final distribution to its customers. While the Company has an inventory of these products, which contain ingredients supplied by RiceX, any significant prolonged shortage of these ingredients or of the supplies used to enhance these ingredients could materially adversely affect the Company's results of operations.

Property and Equipment - Property and equipment are stated at cost. The Company provides for depreciation using the straight-line method over the estimated useful lives as follows:

Furniture and equipment	5-7 years
Automobile	5 years
Software	3 years
Leasehold Improvements	2.4 years

Expenditures for maintenance and repairs are charged to operations as incurred while renewals and betterments are capitalized. Gains or losses on the sale of property and equipment are reflected in the statements of operations.

Fair Value of Financial Instruments - For certain of the Company's financial instruments, including cash, accounts receivable, inventory, prepaid expenses, accounts payable, accrued salaries and benefits, deferred compensation, accrued expenses, customer deposits, due to related party, notes payable - related party, and note payable the carrying amounts approximate fair value due to their short maturities.

Stock-Based Compensation - Compensation is recorded for stock-based compensation grants based on the excess of the estimated fair value of the common stock on the measurement date over the exercise price. Additionally, for stock-based compensation grants to consultants, NutraCea recognizes as compensation expense the fair value of such grants as calculated pursuant to SFAS No. 123, recognized over the related service period. SFAS No. 148 requires companies to disclose pro forma results of the estimated effect on net income and earnings per share to reflect application of the fair value recognition provision of SFAS No. 123.

PUBLIC ACCOUNTING FIRM**

Board of Directors
NutraCea and subsidiaries
El Dorado Hills, California

We have audited the accompanying consolidated balance sheet of NutraCea as of December 31, 2004, and the related statements of operations, comprehensive loss, changes in stockholders' equity, and cash flows for each of the two years then ended. These financial statements are the responsibility of NutraCea's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of NutraCea as of December 31, 2004, and the results of its operations and its cash flows for each of the two years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 16, the consolidated statement of cash flows for the year ended December 31, 2004 has been restated.

NOTE 1 - ORGANIZATION AND LINE OF BUSINESS

General

NutraCea was originally incorporated on February 4, 2000 in California as NutraStar Technologies Incorporated. On December 14, 2001, NutraStar Technologies Incorporated ("NTI") effected a reorganization with the inactive publicly-held company, Alliance Consumer International, Inc., and the name was changed to NutraStar Incorporated. The name was changed again to NutraCea on October 1, 2003.

NutraCea is a relatively new health science company focused on the development and distribution of products based upon the use of stabilized rice bran and proprietary rice bran formulations. Rice bran is the outer layer of brown rice which until recently was a wasted by-product of the commercial rice industry. These products include food supplements and medical foods which provide health benefits for humans and animals (known as "nutraceuticals") as well as cosmetics and beauty aids based on stabilized rice bran, rice bran derivatives and the rice bran oils.

On April 27, 2000, NTI formed NutraGlo Incorporated ("NutraGlo"), a Nevada corporation, which was owned 80% by NTI and 20% by NaturalGlo Investors L.P. During 2001, NutraGlo started marketing, manufacturing and distributing one of NutraCea's products to the equine market. In 2002, NutraCea issued 250,001 shares of its common stock to NaturalGlo Investors L.P. in exchange for the remaining 20% of the common stock of NutraGlo. The value of the shares was \$250,001. As a result, NutraGlo is now a wholly owned subsidiary of NTI.

For internal reporting purposes, management segregates NutraCea into two segments: (1) NutraCea, including the transactions of TheraFoods®, ProCeuticals®, and NutraBeauticals®, and (2) NutraGlo.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - The consolidated financial statements include the accounts of NutraCea and its wholly owned subsidiaries, NutraCea Technologies Incorporated and NutraGlo® (collectively, the "Company"). All significant inter-company accounts and transactions are eliminated in consolidation.

Revenue Recognition - Revenue is generally recognized upon shipment of product with a provision for estimated returns and allowances recorded at that time, if applicable. Commission revenue is generally recognized when earned and collection is reasonably assured. Licensing revenue is recognized when earned and collection is reasonably assured.

Accounts Receivable-The Company provides for the possible inability to collect accounts receivable by recording an allowance for doubtful accounts. As of December 31, 2004, there were no uncollectible accounts.

Marketable Securities-Marketable securities are marked to market at each period end. Any unrealized gains and losses on the marketable securities are excluded from operating results and are recorded as a component of Other comprehensive income (loss). If declines in value are deemed other than temporary, losses are reflected in Net income (loss).

Inventory-Inventory is stated at the lower of cost (first-in, first-out) or market and consists of nutraceutical products manufactured by an affiliated company, RiceX, which the Company enhances for final distribution to its customers. While the Company has an inventory of these products, which contain ingredients supplied by RiceX, any significant prolonged shortage of these ingredients or of the supplies used to enhance these ingredients could materially adversely affect the Company's results of operations.

Property and Equipment-Property and equipment are stated at cost. The Company provides for depreciation using the straight-line method over the estimated useful lives as follows:

Furniture and equipment	5-7 years
Automobile	5 years
Software	3 years
Leasehold Improvements	2.4 years

Expenditures for maintenance and repairs are charged to operations as incurred while renewals and betterments are capitalized. Gains or losses on the sale of property and equipment are reflected in the statements of operations.

Patents and Trademarks-The Company has exclusive licenses for several patents, which were acquired from independent third parties and a related party. All costs associated with the patents are capitalized. Patents acquired from related parties are recorded at the carryover basis of the transferor. The Company paid cash as consideration for all patents and trademarks acquired, except the Via-Bran registered trademark, which was acquired for 21,409 shares of common stock valued at \$21,409.

Amortization is computed on the straight-line method based on estimated useful lives of 17 to 20 years. The Company also has registered trademarks, which are amortized over estimated useful lives of 10 years.

The Company recorded a loss reserve totaling \$75,359 as of December 31, 2002 related to the impairment of certain patents.

Deferred Compensation-Deferred compensation at December 31, 2004 represents the intrinsic value of options previously issued to employees that have not been vested.

Fair Value of Financial Instruments-For certain of the Company's financial instruments, including cash, accounts receivable, inventory, prepaid expenses, accounts payable, accrued salaries and benefits, deferred compensation, accrued expenses, customer deposits, due to related party, notes payable - related party, and note payable the carrying amounts approximate fair value due to their short maturities.

Stock-Based Compensation-Compensation is recorded for stock-based compensation grants based on the excess of the estimated fair value of the common stock on the measurement date over the exercise price. Additionally, for stock-based compensation grants to consultants, NutraCea recognizes as compensation expense the fair value of such grants as calculated pursuant to SFAS No. 123, recognized over the related service period. SFAS No. 148 requires companies to disclose pro forma results of the estimated effect on net income and earnings per share to reflect application of the fair value recognition provision of SFAS No. 123.

NUTRACEA AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

	For the years ended December 31,	
	2004	2003
Net loss available to common shareholders:		
As reported:	\$ (23,582,840)	\$ (12,662,209)
Pro forma:	\$ (25,955,080)	\$ (12,754,495)
Basic loss per common share:		
As reported:	\$ (1.18)	\$ (2.07)
Pro forma:	\$ (1.31)	\$ (2.09)

Advertising Expense-The Company expenses all advertising costs, including direct response advertising, as they are incurred. Advertising expense for 2004 and 2003 was \$22,074 and \$21,959, respectively.

Income Taxes-The Company accounts for income taxes under the liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

Loss Per Share-Basic loss per share is computed by dividing loss available to common shareholders by the weighted-average number of common shares outstanding. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Common equivalent shares are excluded from the computation if their effect is anti-dilutive. As such, basic and diluted loss per share is the same.

Estimates-The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Concentrations of Credit Risk-On May 1, 2001, the Company entered into a three-year, exclusive distribution agreement with a customer, in which the customer is required to purchase a minimum of 90,000 pounds of the Company's product on or before July 1, 2001, 120,000 pounds before September 1, 2002, 275,000 pounds between September 1, 2002 and August 31, 2003, and 350,000 pounds between September 1, 2003 and August 31, 2004. During 2004, sales to this customer totaled \$600,976 (59% of total sales). During 2003, sales to this customer totaled \$1,247,086 (81% of total sales).

Recently Issued Accounting Pronouncements-SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" establishes standards for how an issuer classifies and measures in its statement of financial position certain financial instruments with characteristics of both liabilities and equity. In accordance with the standard, financial instruments that embody obligations for the issuer are required to be classified as liabilities. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise will be effective at the beginning of the first interim period beginning after June 15, 2003. Having adopted of SFAS No. 150 in 2003, NutraCea has reclassified its preferred dividends as a current liability.

In December 2004, the FASB issued SFAS No. 123R, "Accounting for Stock-Based Compensation" SFAS No. 123R establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123R requires that the fair value of such equity instruments be recognized as expense in the historical financial statements as services are performed. Prior to SFAS No. 123R, only certain pro forma disclosures of fair value were required. SFAS No. 123R shall be effective for small business issuers as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. The impact of the adoption of this new accounting pronouncement would be similar to the Company's calculation of the pro forma impact on net income of SFAS 123 included above.

Litigation

On July 16, 2002, the Company was summoned to answer a Complaint filed by Faraday Financial, Inc. ("Faraday") in District Court, County of Salt Lake, Utah (Case No. 020906477). The Complaint alleges that the Company issued convertible promissory notes totaling \$450,000 and a promissory note totaling \$50,000. On December 13, 2001, Faraday entered into a settlement agreement with the Company, whereby Faraday agreed to cancel the promissory notes in exchange for 735,730 shares of preferred stock. Faraday claims that the settlement agreement required that the Company effect a registration statement covering the preferred stock by June 30, 2002, which the Company failed to do, and demands the Company immediately forfeit to Faraday 735,730 shares of common stock owned by the Chief Executive Officer of the Company. Faraday has filed its fourth claim for relief for a judgment against the Company for \$500,000, plus accrued, but unpaid interest, attorneys' fees and costs, and other such costs. A Settlement Agreement was executed on December 10, 2003. In consideration for the mutual releases, Faraday converted 735,730 preferred into 735,730 common shares and \$90,127 of accrued preferred dividends into 1,201,692 common shares. Within the next year, if Faraday cannot realize \$551,797 and approximately \$9800 in legal expenses from the sale of the common shares, NutraCea will make up any deficiency. If stock sale exceeds \$561,597, Faraday is entitled to keep any excess. Subsequent to December 31, 2003, the Company issued an additional 250,000 shares to Faraday. Concurrently, with the executed Settlement Agreement, a joint stipulated motion to stay all proceedings was filed with the Court. After all the above conditions are met, if Faraday has not lifted the stay within 18 months of December 10, 2003, NutraCea shall deliver to Faraday an executed stipulation for dismissal with prejudice of the Complaint and Counterclaim.

Modification of Employee Awards Accounted for Under APB 25

NutraCea granted 1,000,000 options in 2003 to an employee where the option agreement contained a provision whereby neither the number of options nor the exercise price would be adjusted by reverse splits. Effective November 12, 2003, NutraCea authorized a 1 for 10 reverse split. This triggered variable accounting for this award. As of November 12, 2003, 500,000 options had been exercised and only 500,000 remained. Variable accounting requires any intrinsic value at the modification date in excess of the amount measured at the original measurement date shall be recognized as compensation cost over the remaining future service period if the award is unvested, or immediately if the award is vested, for any employee who could benefit from the modification. The award vested 75% in 2003 and 25% in 2004. The award will be marked to market each balance sheet date with the changes charged to compensation expense and additional paid in capital. As of December 31, 2003, the additional intrinsic value on the vested portion totaled \$303,750.

Modification of Non-Employee Awards Accounted for Under FAS 123

Nutraceuticals granted 5,725,000 warrants to outsiders in 2003 where the warrant agreements contained a provision whereby neither the number of warrants nor the exercise price would be adjusted by reverse splits. Effective November 12, 2003, NutraCea authorized a 1 for 10 reverse split. This triggered a modification for this award. A modification of the terms of an award that makes it more valuable shall be treated as an exchange of the original award for a new award. In substance, the entity repurchases the original instrument by issuing a new instrument of greater value, incurring additional compensation cost for that incremental value. The incremental value shall be measured by the difference between (a) the fair value of the modified option/warrant determined in accordance with the provisions of this section and (b) the value of the old option/warrant immediately before its terms are modified, determined based on the shorter of (1) its remaining expected life or (2) the expected life of the modified option/warrant. As of December 31, 2003, the additional value totaled \$9,811,002 which was recorded as non-cash compensation expense.

RiceX Company is a publicly owned company. The spouse of our majority stockholder owns approximately 5% of RiceX and is the former CEO and the current Chairman of the Board and a current director of Ricex. RiceX is NutraCea®'s sole supplier for rice bran derivatives, which are integral to NutraCea®'s sales strategy and which account for about 72% of NutraCea®'s total cost of sales.

On December 12, 2001, NutraCea agreed with RiceX to be their exclusive distributor of rice solubles and rice bran fiber concentrate in the United States of America and to have the exclusive rights to various patents and trademarks owned by RiceX under a 15-year agreement. To maintain rights under this revised agreement, NutraCea was to purchase \$250,000 of product from RiceX by April 2002, \$500,000 by July 2002, \$750,000 by October 2002, \$1,250,000 by January 2003, \$1,500,000 by July 2003, \$2,250,000 by January 2004, \$6,000,000 by January 2005, and increasing thereafter by 10% per annum through the remaining term of the agreement. On July 9, 2002, RiceX exercised its right to terminate the exclusive distribution agreement and the related license agreements with NutraCea due to NutraCea's default. However, RiceX has agreed that NutraCea has a license to use the patents in its business pursuits.

Warrants to purchase 1,000,000 shares of the Company's common stock at an exercise price of \$0.30 per share were issued and will vest 500,000 at signing of the employment agreement and 500,000 on January 25, 2006. Additionally, failure to meet these minimum purchase requirements is cause for termination of the agreement at the Company's option. NutraCea may also at its option terminate the agreement upon 60 days written notice to the distributor.
