Abstentions and broker non-votes will not count as a vote "for" or "against" the proposal and thus will have no effect in determining whether the proposal has received the affirmative vote of a majority of the votes cast at the meeting. PROPOSAL 1 — ELECTION OF DIRECTORS Our Board has nominated Mr. Joseph A. Frick to serve as a Group 2 director for a two-year term until the 2018 annual meeting or until a successor is elected and qualified, and Messrs. David H. Chafey, Jr., Antonio F. Faría-Soto, and Manuel Figueroa-Collazo to serve as Group 3 directors, each for a three-year term until the 2019 annual meeting or until a successor is elected and qualified. Recommendation: Vote FOR each nominee.

Overview Our Board is divided into three groups, with one group being elected each year and members of each group holding office for a three-year term. This classified board structure is required by our articles and the terms of our license agreement with the BlueCross and BlueShield Association (“BCBSA”). Our Board has fixed the number of directors at ten. With the passing of Ms. Adamina Soto-Martínez on March 28, 2016, the Board currently consists of nine members: two Group 1 directors (with terms expiring at the 2017 annual meeting), two Group 2 directors (with terms expiring at the 2018 annual meeting), four Group 3 directors (with terms expiring at the 2016 annual meeting) and our president and chief executive officer, which is an ex-officio member of our Board and is excluded from the three director groups. Ms. Soto-Martínez’ seat on the board will remain vacant while the Board considers a candidate for director. Our articles of incorporation and our license with the BCBSA require our Board to be comprised of three groups as equal in number as possible. Our bylaws authorize the Board to alter the total number of directors serving on our Board, fix the exact number of directors serving in each group, nominate directors for shorter terms of office, and assign nominees to a specific group to ensure that the group size requirement is met. Accordingly, the Board nominated one individual to serve as a Group 2 director for a two-year term and three individuals to serve as Group 3 directors, each for a three-year term. Nominees are current directors. The affirmative vote of a majority of the votes cast by the shares of common stock entitled to vote and present or represented by proxy at the meeting is required to elect each nominee. The persons named as proxies in the proxy card will vote for each of these nominees unless you instruct otherwise on the proxy card. Nominees have indicated their willingness and ability to serve, if elected. However, if any or all of the nominees should be unable or unwilling to serve, the proxies may be voted for a substitute nominee designated by our Board or our Board may reduce the number of directors. Proxies cannot be voted for a greater number of persons than the number of nominees. We have no knowledge that any nominee will become unavailable for election. Information about the nominees and directors continuing in office

The following candidates for election have been nominated by the Board based on the recommendation of the Corporate Governance and Nominating Committee. Below you will find information the nominees and directors whose terms in office will continue after the meeting have given us about their age, positions held, their principal occupation, business experience and directorships (including positions held in our Board’s committees, if any) for at least the past five years. In addition, we have included information regarding each nominee’s and director’s specific experience, qualifications, attributes and skills that led our Board to conclude that the nominees and directors should serve as members of the Board. We believe that all of our nominees and directors have a reputation for integrity, honesty and adherence to high ethical standards. Also, they each have demonstrated business acumen and an ability to exercise sound judgment, as well as a commitment of service to the Company, which taken as a whole, enable the Board to satisfy its oversight responsibilities in light of our business and structure. The information presented about each nominee for election and director continuing in office is as of the date of this proxy statement. Information about the number of shares of common stock beneficially owned by each of the nominees and directors appears below under the heading “Security ownership of certain beneficial owners and management.” See also “Other relationships, transactions and events.” There are no family relationships among any of our directors and executive officers. PROPOSAL 2 — RATIFICATION OF THE SELECTION OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM The Audit Committee has selected D&T as our independent registered public accounting firm for the current year. Our Board considers the selection of the independent registered public accounting firm to be an important matter of shareholder concern and is submitting the selection of D&T for ratification by shareholders. Recommendation: Vote FOR the proposal. Overview Current law, rules, and regulation, as well as the charter of the Audit Committee, require the Audit Committee to engage, retain, and supervise our independent registered accounting firm. Although ratification by our shareholders is not required by our bylaws or otherwise, the Board believes submitting the selection of D&T is a matter of good corporate governance. If shareholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain D&T. Even if the selection is ratified, the Audit Committee in its discretion may select a different registered public accounting firm at any time during the year if it determines that such a change would be in our best interests and those of our shareholders. Representatives of D&T are expected to attend the meeting and will be given an opportunity to make a statement if so desired and to respond to appropriate questions. The affirmative vote of a majority of votes cast with respect to this proposal by the shares of common stock entitled to vote and present or represented by proxy at the meeting is required to ratify the selection of D&T as the Company's independent registered public accounting firm for the current year. In accordance with the foregoing, the AuditCommittee pre-approved all audit and non-audit services provided by D&T in 2015. 16

PROPOSAL 3 — AN ADVISORY RESOLUTION TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS Our Board believes our executive compensation program was designed appropriately and is working to ensure that management’s interests are aligned with our shareholders’ interests and support long-term value creation. We are presenting the following resolution, which provides you the opportunity to endorse or not endorse our executive compensation program: “RESOLVED, that the shareholders approve, on an advisory basis, the compensation of our named executive officers, as disclosed in ‘Compensation Disclosure—Compensation discussion and analysis,’ the compensation tables and the narrative discussion contained in our 2016 proxy statement.” Recommendation: Vote FOR the proposal.

Overview In 2011, our shareholders voted that the compensation of our NEOs be presented to our shareholders on an annual basis. Our Board accepted our shareholders’ advisory vote, and in this proxy statement, we are asking our shareholders to provide advisory approval of the compensation of our NEOs, as such compensation is described in this section titled “Compensation Disclosure” beginning on page 30 of this proxy statement. Our next vote on the frequency of shareholders’ advisory vote will be held no later than the 2017 annual meeting. Our executive compensation program is designed to enable us to attract, motivate and retain executive talent, which is critical to our success. We seek to accomplish this goal in a way that rewards performance and is aligned with our shareholders’ long-term interests. We encourage our shareholders to review the information in “Compensation Disclosure—Compensation discussion and analysis” of this proxy statement, the executive-related compensation tables and the narrative disclosures that accompany the compensation tables for more detailed information on our executive compensation program and the decisions made by the Compensation and Talent Development Committee in 2015. The following is a summary of some elements of the executive compensation program:

- Competitive pay within best practices. Compensation aims to reflect best practices. Total executive compensation is regularly compared by our Compensation and Talent Development Committee with total compensation levels for equivalent positions at companies of similar size and complexity.
- Balanced compensation mix. Total compensation—which includes base salary, short and long-term variable pay opportunities, benefits and perquisites—is generally between the 25th and 50th percentile of the comparable group of companies. A significant percentage of total compensation is delivered in the form of incentive compensation.
- Appropriate reward of short-term performance. Cash incentive focuses on the achievement of various financial, management and individual objectives. Maximum payment of NEOs’ cash incentive is limited to 150% of their respective target opportunity, based on their base salary.
- Equity compensation focused on long-term performance. 75% of the equity award value is granted in the form of performance shares and the remaining 25% in the form of time-based restricted stock. Performance shares vest at the end of a three-year performance period and restricted shares vest in equal proportions over a three-year period.
- Annual review of chief executive officer and other executive officers performance. The Compensation and Talent Development Committee has direct responsibility to oversee the performance of the chief executive officer. The committee also discusses with the chief executive officer the performance of those executives and other personnel under his direct report as part of the committee determinations on executive compensation.

Commitment to good governance. The Compensation and Talent Development Committee has retained an independent compensation consultant and includes compensation analytical tools as part of its annual executive compensation review. The committee also oversees the compliance of compensation-related policies and practices, including our claw-back provisions, stock ownership guidelines, an equity award grant policy, and insider trading, among others. Additionally, the committee reviews on an annual basis all compensation-related risks. At the Company's 2015 annual meeting of shareholders, 98.9% of our shareholders approved, on an advisory basis, the compensation of our NEOs. Pursuant to that vote, our Board approved an executive compensation program that is similar to the one presented to our shareholders in our 2015 proxy statement. The affirmative vote of a majority of votes cast with respect to this proposal by all shares of common stock entitled to vote and present or represented by proxy at the meeting is required to approve this proposal. While our Board intends to carefully consider the vote resulting from the proposal, the vote is advisory in nature and it is not binding on the Company, the Board, or our Compensation and Talent Development Committee, nor will it create or imply any additional fiduciary duty for the Company, the Board, or the Compensation and Talent Development Committee. The shareholders' vote will not overrule any decision made by our Board nor require the Board to take any action. However, the Compensation and Talent Development Committee and the Board value the opinions expressed by our shareholders in their vote on this proposal and will take into account the outcome of the vote when considering future executive compensation decisions regarding our NEOs. 18

CORPORATE GOVERNANCE Our Board has responsibility for establishing broad corporate policies and reviewing the Company's overall performance rather than day-to-day operations. The Board also oversees our president and chief executive officer and other senior management and, in so doing, serves the Company's and our shareholders' best interests. The Board selects, evaluates and provides for the succession of executive officers, nominates individuals to serve as directors of the Company for election at annual shareholder meetings and elects individuals to fill any vacancies on the Board. It reviews and approves corporate objectives and strategies, evaluates significant policies and proposed major commitments of corporate resources, and participates in decisions that have a potential major economic impact on us. Management keeps the directors informed of our activity through regular written reports and presentations at Board and committee meetings. Good corporate governance is paramount to ensure that we are managed for the long-term benefit of our shareholders. The Board engages in a regular process of reviewing our corporate governance practices and compares them to those suggested by various authorities in corporate governance and the practices of other public companies. The Board also reviews its policies and practices in light of proposed and adopted laws and regulation, including the rules of the SEC and the NYSE. We encourage you to read this section of our proxy statement, which provides information about our Board and our corporate governance practices.

Overview Board oversight of our Company is guided by strong corporate governance, effective policies and practices, and high ethical standards. The following is an overview of our corporate governance structure:

Board Our Board has currently fixed the number of directors at 10, comprised of three groups. With composition the passing of Ms. Soto-Martínez on March 28, 2016, the Board currently consists of 9 and structure members. Ms. Soto-Martínez' seat on the Board will remain vacant while the Board considers a candidate for director. Positions of chair of the board and chief executive officer are separated. Board 7 out of 9 of our current directors are independent. independence Our president and chief executive officer is the only management director. The Vice Chair of the Board leads in executive sessions with independent directors. Board Five committees: Audit, Corporate Governance and Nominating, Compensation and Talent Committees Development, Investment and Financing, and Executive. Except for the Investment and Financing, and the Executive committees, in which the Chair of the Board is a member, all other committees are composed entirely of independent directors. The president and chief executive officer is not appointed as a member of any committee. Our Board and its committees have the authority to retain independent advisors. Membership Directors must notify the Board before accepting invitations to serve on another public criteria and company board. qualifications Directors must submit an offer to resign in the event of a substantial change in their principal occupation. Annual performance self-assessment of the Board, committees, and directors. The Corporate Governance and Nominating Committee regularly reviews the Board's competency mix and recommends candidates in light of Board and Company strategy. Directors are strongly encouraged to complete a minimum level of director training annually. 19

Shareholders may also request print copies of any of these documents, without charge by contacting our Secretary, Mr. Carlos L. Rodríguez-Ramos, P.O. Box 363628, San Juan, Puerto Rico 00936-3827, or by calling during our business hours at (787) 749-4025.

Code of business conduct and ethics The Company has adopted a Code of Business Conduct and Ethics (the "Code of Ethics") designed to support our commitment to integrity, ethical behavior and professionalism and to comply with the laws, rules and regulations that govern our business. Our Code of Ethics applies to our Board, officers, and employees, as well as to agents, consultants and other representatives when engaged by or otherwise representing our Company and its interests. Our Board, through the Audit Committee, monitors compliance with the Code of Ethics. Our Code of Ethics expresses the values and principles behind the way we conduct our business, including providing a positive and productive work environment, protecting the environment, fair dealing, avoiding conflicts of interest, and proper use of corporate resources, among others. The Code of Ethics also provides guidance and information on how to report violations and unethical behavior, including access to EthicsPoint, a confidential hotline operated by an independent service, available at the toll-free number 1-866-384-4277 or electronically through www.ethicspoint.com. Communications received by EthicsPoint are completely confidential and allow for shareholders, employees and other interested parties to report any violations or irregularities that could affect us. Any waiver of the Code of Ethics may be made only by our Board. The Code of Ethics provides guidance and information on how to report suspicious or illegal activities and violations to our Code of Ethics. The Company intends to disclose any changes in, or waivers from, the Code of Ethics by posting such information on its website or as required by law or stock exchange rules or regulations. Our Board has not granted any waivers to the Code of Ethics.

Independence of directors Our director independence standards conform to those required by the NYSE and BCBSA. Under these standards, a director qualifies as "independent" if our Board affirmatively determines that the director has no material relationship with us other than as a director. In assessing whether a director has a material relationship with us, directly or as a partner, shareholder or officer of an organization that has a relationship with us, the Board uses the criteria outlined in Section 303A.02 of the NYSE Listed Company Manual. For relationships not covered by the NYSE guidelines, the determination of whether a material relationship exists is made by the members of our Board who are independent under said guidelines. Our Board has reviewed the relationships between the Company, including our subsidiaries or affiliates, and each board member, including each such director's immediate family members. The Board has affirmatively determined that all current directors are independent other than Mr. Clavell- Rodríguez, because he receives compensation from Triple-S Salud, Inc. ("TSS") and Triple-S Advantage, Inc. ("TSA"), subsidiaries of the Company, for services rendered in the ordinary course of business as a healthcare provider, and Mr. García-Rodríguez, because he is our president and chief executive officer. Each of the independent directors has no relationship with us, other than any relationship that is categorically not material under the guidelines indicated above and other than as disclosed in this proxy statement under "Compensation Disclosure—Director compensation" and "Other relationships, transactions and events." The Board has determined that the relationships described in this proxy statement do not preclude a determination of independence because the relationships will not impair the applicable director's ability to render an independent judgment. Pursuant to NYSE and BCBSA requirements, neither non-independent directors nor our officers and employees, including those of our subsidiaries, are members of the Compensation and Talent Development, Audit or Corporate Governance and Nominating committees. 20

Board leadership structure The Board believes its current leadership structure best serves the oversight of management, its ability to carry out its roles and responsibilities on behalf of the shareholders, and the Company's overall corporate governance. We believe that the separate roles of president and chief executive officer and chair of the board reflects the differences between the two roles. The president and chief executive officer is responsible for executing our strategic plan and overseeing the performance of our day-to-day operations, while the chair of the Board provides guidance to the president and chief executive officer, sets the agenda for Board meetings and presides over meetings of the Board and executive sessions of non-management directors. The Board believes that it is not necessary or appropriate in serving our shareholder's best interest to designate a lead director. Each director in our Board is free to call upon any director to provide leadership in a given situation. However, because Mr. Clavell-Rodríguez, our chair, is not independent, our Board appointed the vice chair of our Board, Ms. Soto-Martínez, as presiding director at all executive sessions of independent directors. Until her passing on March 28, 2016, Ms. Soto-Martínez presided over these executive sessions. The Board holds executive sessions with independent directors at least once a year. The Board periodically reviews the leadership structure and may make changes to the current structure in the future.

Board meetings and committees Our Board met nine times during 2015. Each of the incumbent directors attended at least 75% of the meetings of the Board held during the period for which such person has been a director during 2015. Directors are also kept informed of our business through meetings and other communications, including direct communications with our Board's chair and others regarding matters of interest and concern to us and our shareholders. Mr. García-Rodríguez is the only director who is also an employee of the Company. He does not participate in any discussion or vote in any Board or committee meeting at which his compensation is evaluated. We encourage our directors to attend our annual meeting of shareholders; however, we have not adopted a formal policy requiring director attendance at the annual meeting of shareholders. All of our then current members of the Board attended our 2015 annual meeting of shareholders except for Mr. Frick. Non-management directors meet regularly in executive sessions without management.

Non-management directors are all our Board members who are not our officers and include directors, if any, who are not "independent" by virtue of the existence of a material relationship with us. The chair of the Board presides over these executive sessions, which are typically held in conjunction with each regularly scheduled meeting of the Board. Independent directors also meet at least once per year in executive session without management or directors who are not independent. Until her passing on March 28, 2016, Ms. Soto-Martínez, who served as vice chair of the Board and was an independent director, presided over these executive sessions. Ms. Soto-Martínez was a member of the Board from 2002 until she passed away in March 28, 2016. Ms. Soto-Martínez was vice chair of the Board and a member of the Audit Committee and the Compensation and Talent Development Committee. Our Board has five standing committees: Audit, Compensation and Talent Development, Corporate Governance and Nominating, Investment and Financing, and Executive. The responsibilities of each committee are set forth in its respective charters, which have been approved by the Board. Committees must review their respective charters and perform a self-evaluation at least annually. Each committee has the authority to engage, retain, and approve the fees and payment of advisors as deemed necessary or appropriate to carry out its responsibilities without further action by the Board. Such independent advisors may be the regular advisors to the Company. The table on the next page sets forth the current members of the Board and each of its committees.

Meetings. The committee met three times during 2015 and each member attended at least 75% of the total meetings of the committee held during the period when he was a member. Director nominations process. As part of the nominations process, the Corporate Governance and Nominating Committee is responsible for determining the appropriate skills and characteristics required for new Board members in light of the current Board composition and for identifying qualified candidates for Board membership. The process followed by the committee to identify and evaluate candidates includes requests to Board members, senior management and others for recommendations, periodic meetings to evaluate biographical information and background material relating to potential candidates, and interviews of candidates identified by members of the committee and the Board. In considering whether to recommend any candidate for inclusion in the Board's slate of recommended director nominees, the Corporate Governance and Nominating Committee applies the criteria set forth in our guidelines of corporate governance and its committee charter. Generally, the committee verifies that the selected individuals possess the following specific qualities or skills: experience or relevant knowledge, time availability and commitment, good reputation, analytical thinking, ability to work as a team, independent judgment, and ability to verbalize and present ideas in a rational and eloquent fashion. The committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. This process also takes into consideration our strategies, the annual peer and self-evaluations of each director, the fit between candidates' qualifications and our needs, and applicable legal, regulatory and statutory requirements. The goal is to assemble a board that is strong in its collective knowledge and consists of individuals who possess a variety of complementary attributes that serve the Company and its shareholders well. The Board is responsible for the final approval of new director candidates, as well as the nomination of existing directors for reelection. Shareholders may recommend individuals for the Corporate Governance and Nominating Committee to consider as potential director candidates in the Board's slate of nominees by submitting their names and background to "Triple-S Management Corporation, Corporate Governance and Nominating Committee," at Triple-S Management Corporation, P.O. Box 363628, San Juan, PR 00936-3628. The committee will review the qualifications of recommended candidates if appropriate biographical information and background material are provided on a timely basis. Evaluation of such candidates will follow the same process, and apply the same criteria, as for candidates submitted by Board members, senior management or others. If the Board decides to nominate a shareholder-recommended candidate and recommends his or her election as a director by the shareholders, the name will be included in our proxy card for the shareholders' meeting at which his or her election is recommended. Shareholders also have the right to directly nominate director candidates, without any action or recommendation on the part of the Corporate Governance and Nominating Committee or the Board, by following the procedures set forth in the Company's bylaws and described in response to the question "How and when may I submit a shareholder proposal, including a shareholder nomination for director, for the 2017 annual meeting of shareholders?" in the "Information about voting, solicitation and the annual meeting" section of this proxy statement. Criteria and diversity. In considering whether to recommend any candidate for inclusion in the Board's slate of recommended nominees, including re-election of directors and candidates recommended by shareholders, the Corporate Governance 24

and Nominating Committee, in accordance with the Board's diversity policy and the committee charter, will review certain criteria to ensure we benefit from a broad diversity of director experience, thoughts, viewpoints and backgrounds. The committee considers personal characteristics each individual must show in order to be considered as a director and those competencies represented in the Board to promote a balanced composition of knowledge, experience and abilities that will allow the Board to fulfill its responsibilities, as further described below.

Personal attributes Competencies Other considerations Integrity and good reputation Independent judgment Analytical thinking Educational background Professional experience Business acumen Commitment Diligence Ability to serve Public company service Accounting and finance Industry knowledge Technology International markets Government and public policy Human resources Legal Executive leadership Independence Conflict of interest Acceptance of the Company's ethical norms and responsibilities Compliance with legal and regulatory requirements Other commitments Peer-review and evaluation process

The committee recognizes the value of diversity on the Board and carefully considers the Board's diversity in the director identification and nomination process taking into consideration the personal attributes, the competencies, and other perspectives of the individuals considered to the Board. The committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. We do not discriminate against nominees on the basis of race, religion, national origin, sexual orientation, disability or any other basis.

Risk oversight The Board has the primary role, as a whole and through its committees, in overseeing the way in which management identifies and manages risks. Senior management is responsible for identifying significant risks, and developing and implementing the strategies, assessment, prioritization, mitigation and control of the Company's most important risks. The Company maintains an Executive Risk Committee comprised of senior personnel that, among other things, ensures that the Company is maintaining effective risk management processes to identify, discuss, and communicate significant and emerging risks. Management is also responsible for identifying risk and risk controls related to significant business activities and Company objectives, and developing programs to determine the sufficiency of risk identification, the balance of potential risk to potential reward, the appropriate manner in which to control risk, and the support of the risk-controlling behaviors and the risks to the Company's strategy. The Board receives management reports on the potentially significant risks that the Company faces and how the Company is seeking to control risk, where appropriate. The Corporate Governance and Nominating Committee has primary oversight over the Company's enterprise risk management program. Additionally, each Board committee also considers risks within its area of responsibility. For example, the Audit Committee oversees management of financial risks, including issues related to internal control over financial reporting, and our policies with respect to risk assessment and management. The Compensation and Talent Development Committee oversees the management of risks relating to our executive compensation structure. Our Investment and Financing Committee oversees risks related to our investment policy, financial strategies, and corporate acquisitions. While each of these committees is responsible for evaluating and overseeing the management of specific risks, the entire Board is regularly informed about such risks through committee reports. The Board also receives regular reports from members of senior management regarding areas of material risk to us, including operational, financial, legal, regulatory, strategic and reputational risks, and often discusses risk as part of its review of the ongoing business, financial performance, and other activities of the Company. In addition, the Board annually reviews our strategic plan which addresses, among other matters, the risks and opportunities we face. Review of this information enables the Board to understand and assess our risk identification, appetite and tolerance, management, and mitigation strategies. 25

Communications from shareholders and other interested parties The Board will give appropriate attention to written communications on issues that are submitted by shareholders and other interested parties, and will respond as appropriate. Absent unusual circumstances or as contemplated by committee charters, the chair of the Board will, with the assistance of our general counsel and Secretary and other personnel responsible to assist the Board and the Company with investor relations, be primarily responsible for monitoring communications from shareholders and other interested parties and provide copies or summaries of such communications to the other directors as they deem appropriate. Communications will be forwarded to all directors if they relate to substantive matters and include suggestions or comments that the chair of the Board considers to be important for the directors to review. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to personal grievances and matters as to which we tend to receive repetitive or duplicative communications. Shareholders and other interested parties may contact our Board or any individual director by the following methods: By Internet Email us at investorrelations@ssspr.com (investor relations) or crodrig@ssspr.com (secretary) By mail Triple-S Management Corporation c/o Secretary P.O. Box 363628 San Juan, Puerto Rico 00936-3628 The Board does not participate in daily management functions or operations of the Company or our subsidiaries. Base salary	Designed to recognize individual contribution to the organization based on salary increases based on the experience, knowledge and responsibilities.	Company's 2014 financial results. Aimed to provide competitive compensation, appropriate incentives and financial stability to the NEOs for assuming a significant level of responsibility. Targeted to be between the 25th and 50th percentile of comparable group. Considers individual performance, and the Company's overall financial results. During early 2016, Mr. García-Rodríguez and Mrs. Hernández-Urquiza received salary increases in connection with their new roles as CEO of the Company and president of our managed care subsidiary, respectively.
Annual short-term incentive	Focuses executives on achieving annual objectives. Supports long-term objective of creating shareholder value. Provides, together with base salary, competitive cash compensation when our targeted performance objectives are met.	annual short-term compensation based on the Company's financial results for 2014 and 2015, respectively, as described in the Summary Compensation Table.
Long-term equity incentive	Aligns management and shareholder interests. Provides a variable portion of total compensation tied to our long-term market and financial performance. Holds management responsible for their long-term decisions. Supports the retention of a talented management team over time. Emphasizes long-term performance by delivering 75% of the annual award value in performance equity grants that may be earned only if specific measures of operating performance are attained over a three-year period, with cliff vesting at the end of the third year. Remaining 25% of the equity award value is delivered in restricted stock, which vests over three years in increments of one third per year. For the three-year plan beginning in 2015, the Compensation and Talent Development Committee established three levels of goal attainment based on three-year cumulative premium earned, operating income and earnings per share ("EPS"), and determined the corresponding award size for each performance level for each NEO. These goals were set based on what the committee believes to be minimally acceptable, challenging yet attainable, and exceptional performance in the context of our stated objectives for premiums earned, operating income and EPS. Long-term incentives were granted to NEOs in 2015 as described in the Summary Compensation Table.	31

Other compensation decisions Enhanced individual performance metrics. During 2015, the Compensation and Talent Development Committee approved individual metrics that we believe better align individual performance with our strategic transformation. For more information, see “Components of executive compensation—Short-term annual cash incentive” on page 35 of this proxy statement.

Non-management director compensation. Effective in May 2015, the Board discontinued the practice of payment based on meeting attendance for a fixed annual retainer that the Board believes is a better approach to compensate non-management directors based on their continuous service to the Board rather than on attendance, and ease the administrative burden related with paying a fee for each meeting. Information about the compensation paid during 2015 to our non-management directors is on page 51 of this proxy statement.

Our compensation philosophy Our executive compensation program is designed to support our vision, our strategic and financial goals, and operating imperatives. It applies to our NEOs and other executive officers of our Company and subsidiaries.

Overarching principles Reinforce our values by combining our efforts to deliver superior business results with good governance, socially responsible business practices, and high ethical standards. Promote a high performance culture with clear emphasis on accountability and variable pay that is tied to both short and long-term results. Ensure compensation is paid based on accurate financial data. Attract, motivate and retain top talent in a cost-effective way by offering competitive compensation. Require moderate levels of share ownership that increase with executives’ scope of responsibilities. Emphasize uniformity of design features to reinforce collaboration, limit program complexity, and increase the effectiveness of the entire executive team. Align executive and shareholder interests through long-term equity based plans. Maintain a clear and understandable framework for evaluating the effectiveness of the program’s design. Prohibit any activity that hedge employee’s economic risk of owning Company stock. Provide a balanced total compensation to ensure that management is not encouraged to take unnecessary and excessive risks that may harm the Company.

32 Targeted pay posture Provide a total compensation opportunity targeted around average levels within comparable group. High performers, successors to key positions, and individuals in critical assignments may be targeted at a higher level to ensure engagement, motivation, and retention. Newly promoted or inexperienced executives may be paid at a lower level of target pay until they become fully-seasoned contributors.

Peer group • We compare our compensation against companies with whom we compete for talent, capital, and customers using peer references used for competitive pay comparisons, and general industry surveys for which compensation peer group data is not available. • The Compensation and Talent Development Committee, and management, as applicable, will use judgment when making adjustments to compensation and review executive pay from a holistic perspective, including reference to compensation peer group pay practices, importance of the position to the Company, level of responsibility of the position, individual performance and growth in position, our financial performance and ability to pay, and internal equity considerations.

Description of compensation policies Equity award grant policy. The purpose of the equity award grant policy is to ensure the integrity of the award granting process and avoid the possibility or appearance of timing of equity grants for the personal benefit of executives. Under the policy, equity awards are made at the Compensation and Talent Development Committee's first regularly scheduled meeting after the filing of the Company's Annual Report on Form 10-K. Equity grants to certain newly hired employees, including executive officers, are made on the 15th day of the month following the date of hire (or the next succeeding business day that the NYSE is open). Special equity grants to continuing employees are made on the 15th day of the month (or the next succeeding business day that the NYSE is open); provided, that the award is approved on or before such grant date. No off-cycle awards may be granted to the Company's executive officers during quarterly and event-specific blackout periods under the Company's insider trading policy. Outstanding stock option awards have an exercise price equal to the closing market price of the Company's common stock on their grant date. Our equity incentive plans prohibit the re-pricing or exchange of equity awards without shareholder's approval. Recoupment Policy. Our recoupment policy applies to any current or former employee who received incentive compensation based on financial data on which the Company is required to prepare an accounting restatement due to the material noncompliance with any financial reporting requirement under the securities laws. The recoupment policy aligns management's interests with the interests of shareholders and supports good governance practices. The policy provides that the Company may, in the exercise of its discretion (as determined by the Compensation and Talent Development Committee) take action to recoup the amount by which such award exceeded the payment that would have been made based on the restated financial results. Our right of recoupment expires three years following the year for which the inaccurate performance criteria were measured; however, our right of recoupment is not subject to an expiration period in the event of fraud or misconduct. Insider trading and anti-hedging policy. We prohibit directors, officers, employees and consultants of the Company from trading in the securities of the Company or its affiliates (e.g., customers, suppliers, etc.), directly or through family members or other persons or entities, if they are aware of material nonpublic information relating to the Company or its affiliates. Trading includes purchases and sales of stock, derivative securities such as put and call options and convertible debentures or preferred stock, and debt securities (debentures, bonds and notes). Trading also includes certain transactions under the Company's plans (e.g., sale of underlying stock acquired upon the exercise of stock options, certain transactions associated with the Company's retirement savings plan, and voluntary additional contributions to the Company's dividend reinvestment plan). Our insider trading policy also prohibits our directors, officers and certain other employees from engaging in any hedging or monetization transactions involving Company securities. Stock ownership guidelines for executive. Our stock ownership guidelines for our executive officers and other key employees aim to align their interests with those of our shareholders. The guidelines require executives and other employees to own Company stock in an amount equal to a multiple of base salary, as follows: Value of Stock as a Level Multiple of Base Salary CEO 5x CFO and subsidiary presidents 3x Corporate and subsidiary executives 2x Other selected employees 1x Until an executive reaches his or her applicable ownership level, he or she must retain 50% of the equity received from long-term compensation plans (after meeting tax withholding obligations), and once the ownership level is met, he or she may not sell shares if doing so would cause his or her ownership to fall below that level. The Compensation and Talent Development Committee reviews progress toward meeting the ownership guidelines on an annual basis. The Committee has also approved stock ownership guidelines for non-management directors. See the section entitled "Director compensation—Stock ownership guidelines for non-management directors" on page 51 of this proxy statement for more information. 33

Compensation consultants The Compensation and Talent Development Committee has sole authority to engage and terminate the services of outside consultants. In 2015, the committee retained Pay Governance to assist the committee on matters related to executive officer and director compensation, including the committee's review of the comparable group, analysis of the competitiveness of executive compensation, and reporting on trends and issues related to executive compensation. The Board has determined that Pay Governance is an independent compensation consultant pursuant to Section 10C of the Exchange Act. Pay Governance reports exclusively to the Compensation and Talent Development Committee and does not provide any additional services to the Company. Named executive officers transitions Effective January 1, 2016, Mr. García-Rodríguez was appointed president and chief executive officer of the Company, succeeding Mr. Ruiz-Comas. In connection with Mr. García-Rodríguez appointment, his annual base salary increased from \$587,800 to \$750,000. In addition, he received \$1,875,000 as an equity grant. He is also eligible to receive a target annual short-term cash incentive of 70% of his annual base salary, at the discretion of the Board and subject to compliance with his performance objectives and the Company's financial results. Mr. García-Rodríguez is also covered by an employment agreement, which is described in more detail on "Description of employment agreements" section of this proxy, at page 47. Effective January 11, 2016, Mr. Juan J. Román-Jiménez was appointed executive vice president and chief financial officer of the Company, succeeding Mr. Jordán-Pérez. In connection with his appointment, Mr. Román-Jiménez received a base salary of \$500,000. He also received \$750,000 as an equity grant. In addition, he is eligible to receive a target annual short-term cash incentive of 50% of his annual base salary, at the discretion of the Board and subject to compliance with his performance objectives and the Company's financial results. Effective January 11, 2016, Ms. Madeline Hernández-Urquiza was appointed president and chief executive officer, of Triple-S Salud, Inc., succeeding Mr. Almodóvar-Scalley. In connection with her appointment, her annual base salary increased from \$475,000 to \$525,000. She also received \$525,000 as an equity grant. In addition, she is eligible to receive a target annual short-term cash incentive of 70% of her annual base salary, at the discretion of the Board and subject to compliance with her performance objectives and the Company's financial results. The compensation for Messrs. García-Rodríguez and Román-Jiménez, and Ms. Hernández-Urquiza were approved by our Compensation and Talent Development Committee and our Board. Results of advisory vote on say-on-pay and frequency of the vote Rule 14a-21 of the Exchange Act enables our shareholders to vote to approve, on an advisory basis, the compensation of our NEOs. In 2015, 98.9% of our shareholders voted in favor of the compensation of our NEOs. Also, the rule enables our shareholders to advise the Company on the frequency of their vote on the compensation of our NEOs. Our shareholders voted that such compensation be presented for shareholder's advisory approval on an annual basis and the Board accepted the advice of our shareholders. Our executive compensation program presented to our shareholders in this proxy statement is similar to the one presented at last year's annual meeting. The next shareholder vote on the frequency of their vote on the compensation of our NEOs will be held no later than the 2017 annual meeting of our Company's shareholders, in accordance with Rule 14a-21 of the Exchange Act. Determining executive compensation We compare the compensation of the NEOs to that of companies with which we compete or could compete for executive talent, capital and customers. These companies include private or publicly-held companies, stand-alone businesses and/or divisions of larger corporations. Our size and organizational complexity is considered when selecting comparable companies in Puerto Rico and the United States and data analysis methods. Within our general competitive framework, specific comparisons may vary by type of role. 34

Based on our compensation philosophy, a significant percentage, an average of 72.5% for our CEO and 60.4% for all other NEOs in 2015, is delivered through our incentive compensation plans in the form of at-risk variable pay. The Compensation and Talent Development Committee has not adopted a policy or formula to allocate total compensation among its various components. As a general matter, the committee reviews competitive pay information provided by its compensation consultant as well as our current operating goals and environment to determine the appropriate level and mix of incentive compensation. Actual amounts earned from incentive compensation are realized only as a result of individual or Company performance, depending on the type of award, based on a comparison of actual results to pre-established goals. The Compensation and Talent Development Committee collects relevant market data and alternatives to consider when making executive compensation decisions. In 2015, the committee compared the data with each element of total compensation to a list of 16 comparable companies, including companies in Puerto Rico and direct industry competitors located within the United States (the “comparable group”). Three of these companies have the same six-digit Global Industry Classification Standards (GICS) code as ours, nine are within the “insurance” GICS industry group, and the remainder are Puerto Rico companies in the banking and technology industries. We generally update the comparable group compensation benchmark every other year, or as may be appropriate to reflect changes in our operating environment or business model. We will update this benchmark again during 2018. The companies comprising the comparable group are: Alleghany Corporation HCC Insurance Holdings, Inc. Argo Group International Holdings, LTD. Infinity Property & Casualty Corp. Aspen Insurance Holdings, Ltd Magellan Health, Inc. Erie Indemnity Company Molina Healthcare, Inc. EVERTEC, Inc. OFG Bancorp FirstBank Corp. Popular, Inc. Selective Insurance Group, Inc. State Auto Financial Corporation United Fire Universal American Corp. For comparison purposes, our annual revenues are around the median of the comparable group. Total compensation—which includes base salary, short and long-term variable pay opportunities, benefits and perquisites—is generally between the 25th to 50th percentile of the comparable group, on average. Components of executive compensation Executive compensation is delivered through a combination of base salary, an annual short-term cash incentive, long-term equity incentive compensation, retirement programs and a non-qualified deferred compensation plan. Base salary. Base salaries are designed to recognize an individual’s contribution to the organization and his or her experience, knowledge and responsibilities. Base salaries also aim to provide competitive compensation, appropriate incentives and financial stability to the NEOs for assuming a significant level of responsibility. According to our salary adjustment policy, salary determinations are based on a number of factors, including importance of the position, level of responsibility, individual performance, growth in position, market-level relative salary, our financial and operating performance, and the Company’s ability to pay. Also, our policy establishes that base pay adjustments send clear performance messages and make moderate distinctions based on performance. Significant distinctions in performance by executives are recognized through our annual short-term cash incentive plan. In addition, this policy requires that timing for increases, promotions and changes in responsibilities be consistent with market practice and that base salaries for executives be reviewed on an annual basis and adjusted as necessary to ensure pay levels remain competitive. Short-term annual cash incentive. The short-term annual cash incentive portion of an executive’s total compensation opportunity is intended to accomplish a number of objectives, such as reinforcing the optimization of operating results throughout the year, facilitating the achievement of our stated objectives, paying for performance, reinforcing individual accountability, supporting our long-term objective to create shareholder value, and providing market competitive cash compensation when performance objectives for the year are met or exceeded. This incentive compensation can be highly variable from year to year depending on actual performance results. 35

The Company sets cash incentive target amounts as a percentage of base salary for all eligible executives at the beginning of each year based on job responsibilities, position within the Company, and a review of competitive market data. Actual incentive payouts may range from zero to 150% of the target opportunity depending on the Company's financial results relative to predetermined performance goals and the Compensation and Talent Development Committee's review of each executive's individual performance. The Compensation and Talent Development Committee approves the awards and has discretion to determine any changes to the final amount to be paid. For 2015, the target short-term annual cash incentive for each of the NEOs as a percentage of salary was as follows: Target Bonus Executive Percent Ramón M. Ruiz-Comas 70% Amílcar L. Jordán-Pérez 50% Roberto García-Rodríguez 70% Pablo Almodóvar-Scalley 70% Madeline Hernández-Urquiza 50% The Compensation and Talent Development Committee determines short-term annual cash incentives based on two types of performance measures: the Company's financial and operating results and individual criteria. The Company's financial and operating results account for 80% of each NEO evaluation and individual performance criteria account for the remaining 20%. The weighting of financial results, in turn, is evenly divided between Adjusted Premiums Earned and Adjusted Net Income (each term as defined in the following paragraph). This mix of performance measures focuses executives appropriately on improving both top-line and bottom-line growth, while also emphasizing individual accountability through each executive's individual performance goals. The Company believes that premiums earned and net income are key drivers of shareholder value and adjusted to exclude non-budgeted items—are the most relevant measures by which to assess the Company's short-term business performance and promote profitable revenue growth. Adjusted Premiums Earned represent the annual premiums earned in the calendar year as presented in the consolidated financial statements in accordance with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"), adjusted to include only operations existing at the beginning of the year. Adjusted Net Income is measured as the net income earned in the calendar year, as presented in the consolidated financial statements in accordance with U.S. GAAP, minus realized and unrealized gains/losses in investment (net of the related income tax effect) and other non-budgeted items. The financial results component of our short-term cash incentive performance goals of the Company's executives, including our chief executive officer, chief financial officer and chief operating officer, is solely based on consolidated results. Awards to our business unit executives are split 30% based on our consolidated results and 50% based on the results of the relevant business unit. The remaining 20% considers the individual executive's performance. During 2015, the Compensation and Talent Development Committee, based on the recommendation of management, reviewed individual metrics considered for executive compensation to align individual performance with our Company's strategic transformation. These individual metrics are categorized as follows: Metrics Purpose External stakeholders Innovation Collaboration and teaming Drives behavior to be externally focused, market backed, customer centric, and aligned with our providers. Drives excellence in execution, and efficient and effective ways of doing business. Drives agility, accountability and effective working relationships across businesses and functional areas. People development Develops a talented, motivated and ownership-minded work force. 36

We believe these metrics provide the Board, the committee and our chief executive officer, with respect to those executives under his supervision, adequate guidance in evaluating how individual performance is aimed to accomplish our goals. This distribution in weighting is designed to encourage each executive with responsibility for a business unit to focus on his or her individual business while working as a team to achieve the Company's overall success. NEOs responsible for a business unit that do not reach the threshold level for Adjusted Net Income do not receive a short-term cash incentive even if consolidated financial results of the Company exceed their threshold levels. Likewise, neither the Company's chief executive officer nor the chief financial officer receives a short-term cash incentive if the Company does not reach its threshold level for Adjusted Net Income even if the consolidated financial results of business units are met. For 2015, performance measures of the short-term cash incentive plan were as follows:

Executive	Business Unit	Weighting	Maximum	Minimum	Target
Ramón M. Ruiz-Comas, Amílcar L. Jordán-Pérez, and Roberto García-Rodríguez	Consolidated	30%	\$3,411.6	\$2,274.4	\$2,843.0
Pablo Almodóvar-Scalley	Managed Care Segment (Commercial and Medicaid business)	50%	\$28.4	\$19.0	\$23.7
Madeline Hernández-Urquiza	Managed Care Segment (Medicare business)	20%	\$1,777.0	\$1,184.6	\$1,480.8
			\$23.6	\$15.8	\$23.7
			\$1,344.0	\$896.0	\$1,120.0
			\$2.2	-\$19.6	-\$10.9

Annual non-performance cash bonus. We pay an annual non-performance cash bonus each December to active employees, including some executives who may participate in the annual short-term cash incentive plan. Under Puerto Rico law, we are required to pay employees who worked more than 700 hours in the 12-month period commencing October 1 of the previous year and are employees at the date of payment a bonus in an amount which cannot be less than \$600. The amount paid by the Company to active employees under this bonus is approximately 6% or 9% of the employee's base salary, varying among business units, which may be greater than the minimum amount required by law in order to offer a competitive compensation to our employees. NEOs do not participate in the annual non-performance cash bonus program since 2011. During 2013, Mrs. Hernández-Urquiza was not part of our annual incentive-based cash incentive plan and received this bonus, as further described in the summary compensation table in this proxy statement. Long-term incentive awards. We believe that long-term incentives in the form of equity-based compensation are an important and essential component of our total compensation program that ensure our ability to attract, motivate, and retain top talent responsible for our long-term success. Our long-term incentives to key executive employees are designed to accomplish a number of important objectives, including to align management and

shareholder's interests, balance the short-term orientation of other compensation elements, provide a variable portion of total compensation tied to long-term market and financial performance, build executive stock ownership, hold executives accountable for their long-term decisions, reinforce collaboration across the Company, retain key talent over the long term, and share success with those who directly impact our performance results. The Compensation and Talent Development Committee has an annual equity award program for executives under the Company's incentive plan, based on recommendations from its compensation consultants and the principles contained in the Company's executive compensation philosophy. The program aims to better focus and reward executives for multiple performance objectives that drive long-term value creation and in part to mitigate the possibility of excessive risk-taking. The program's design provides both performance equity grants ("performance shares") that may be earned only if specific measures of operating performance are attained and time-based vesting restricted stock that is earned only if the executive remains employed with the Company over the vesting period. Long-term incentive grants provide for accelerated vesting only upon death, disability, termination without cause, or retirement, provided that the executive releases the Company from liability by the execution of a general release and non-disparagement agreement. We assigned a weighting of 75% of the total equity award value to performance shares consistent with our stated philosophy of promoting a high performance culture with clear emphasis on accountability and variable pay that is tied to long-term results, and 25% of the total equity award value to restricted stock to emphasize the retention of key executives and alignment with shareholders. Under the current design, performance share awards may be earned if specific goals are attained over a three-year performance period. At the beginning of the performance period, minimum, target and maximum performance levels, along with the associated dollar value of shares that may be earned, are established by the Compensation and Talent Development Committee. The actual value of shares that may be earned may be as high as 150% of the target amount if the maximum level of performance for all metrics is achieved or as low as zero if the minimum level of performance for all metrics is not achieved over the three-year performance period. Determination of performance pay and vesting occur at the end of the third year. A summary of the performance share metrics and rationale for each is presented in the following table.

Metric	Weighting	Rationale
3-Year Cumulative Operating Income	20%	Premiums earned, net improvement is critical to the continued growth and health of our business. Premiums earned, net is a key contributor to EPS and shareholder value creation. Operating income improvement emphasizes cost control and is important as we continue to grow our top line. Operating income is also a key contributor to EPS and shareholder value creation.
3-Year Cumulative EPS	45%	EPS sets the expectation of the Company's success for our shareholders. We use EPS as the key accounting measure and evaluation of how the Company is performing. Restricted stock may be earned only if the executive remains employed with the Company over the vesting period. Restricted stock vests in equal proportions over the three-year vesting period (i.e., one-third per year beginning on the first anniversary of the grant date). The Compensation and Talent Development Committee believes that the three-year performance period associated with performance shares and the three-year vesting period of restricted stock focuses our executives on sustained performance and supports retention objectives. The Company's policy is to make annual long-term incentive grants to its executives during the first quarter of the year. Also, we may make grants to newly hired senior management employees in connection with their employment. The Compensation and Talent Development Committee carefully considers the impact of the cost of equity awards, as well as dilution, in order to achieve a balance between our costs, competitiveness and the continuity of employee incentives.
Retirement Programs		Our qualified and non-qualified employee retirement plans provide a retirement income base to a substantial majority of our employees, including our eligible executive officers. Messrs. Ruiz-Comas and Almodóvar-Scalley participated in these retirement programs. Mrs. Hernández-Urquiza also participated in these retirement programs until 2010. Union employees hired after December 19, 2006, as well as non-union employees hired after September 30, 2007, are ineligible to participate. Employees who participate in our qualified plan also

participate in our non-qualified plan to the extent their income levels exceed compensation and benefit limits imposed by the United States Internal Revenue Code of 1986, as amended. Non-qualified deferred compensation plan. Under our non-qualified deferred compensation plan, senior executives, including our NEOs, who elect to become participants, may defer until a future date a portion of their annual compensation and benefit from the tax advantages related to such deferral.

Role of executive officers in compensation decisions The Compensation and Talent Development Committee is responsible for all compensation decisions with respect to NEOs of the Company. In determining the compensation of NEOs other than the chief executive officer, the committee takes into account the recommendations of the chief executive officer. The chief executive officer annually reviews the performance of the other NEOs. The conclusions reached and recommendations based on these reviews, including with respect to base salary adjustments and short-term cash incentive and equity incentive award amounts, are presented to the committee. The committee reviews and approves the compensation of the NEOs, including the chief executive officer.

Compensation of named executive officers for 2015 During 2015, with the assistance of Pay Governance, the Compensation and Talent Development Committee evaluated the different components of executive compensation to ascertain that total compensation was targeted at adequate levels (that is, within the 25th to 50th percentile of external pay levels) when compared with companies in the comparable group. The main purpose was to assure that we maintained a competitive compensation program.

Base Salary. In setting base salaries for 2015, the Compensation and Talent Development Committee considered the following factors:

- Company financial and operating results. The corporate budget, meaning our overall budget for base salaries. The corporate budget was established based on planned performance for 2015. The objective of the budget is to allow salary increases to retain and motivate successful performers while maintaining affordability within our business plan.
- The relative pay differences for different job levels.
- Evaluation of peer group data specific to each executive position, where applicable.

NEO	Previous base salary	2015 Base salary	Percentage
Ramón M. Ruiz-Comas	\$814,000	\$831,096	2%
Amílcar L. Jordán-Pérez	\$500,000	\$525,000	5%
Roberto García-Rodríguez	\$489,850	\$587,800	20%
Pablo Almodóvar-Scalley	\$533,500	\$544,200	2%
Madeline Hernández-Urquiza*	\$425,000	\$475,000	11.8%

*During 2015 Mrs. Hernández-Urquiza received a prior base salary increase in connection with her promotion as president of Triple-S Advantage, our Medicare Advantage subsidiary. Salary determinations were based on the aforementioned principles, and were in line with budget and salary determinations for all other employees.

Short-term annual cash incentive. Cash incentive bonus for 2015 is based on the performance of the Company against the stated objectives. On March 28, 2016, the Compensation and Talent Development Committee and the Board, respectively, determined that NEOs will receive compensation under the short-term cash incentive plan as described in the Summary Compensation Table based on the performance of the Company during 2015.

Long-term incentive awards. Long-term incentives were granted to NEOs in 2015 as described in the Summary Compensation Table. Equity award targets for our NEOs are established based on dollar values and then

converted into a specific number of shares based on the closing price of our Class B common stock on the grant date. All long-term incentives granted to NEOs were approved by the Compensation and Talent Development Committee and ratified by our Board. See the section entitled “Components of executive compensation—Long-term incentive awards” on page 37 of this proxy statement for more detail regarding the operation of performance share awards. Compensation and Talent Development Committee report The Compensation and Talent Development Committee has reviewed and discussed the compensation discussion and analysis set forth above with management. Based on such review and discussion, the Committee recommended to the Board that the compensation discussion and analysis be included in this proxy statement. Compensation and Talent Development Committee interlocks and insider participation None of the members of the Compensation and Talent Development Committee is or has been one of our executive officers or employees. None of our executive officers served on the board of directors' compensation committee of any other company for which any of our directors served as an executive officer at any time during 2015. Except as disclosed in "Other relationships, transactions and events" in this proxy statement, none of the members of the Compensation and Talent Development Committee had any relationship with us requiring disclosure under Item 404 of Regulation S-K. Risk considerations in our executive compensation program At the Compensation and Talent Development Committee's request, with the assistance of Pay Governance, the Company conducted a risk assessment of all the compensation programs of the Company which was completed in the first quarter of 2014. This assessment included an inventory of all compensation programs, including incentive compensation plans then in place at the Company, a review of the design and features of the Company's compensation programs with key members of management responsible for such programs, and an assessment of program design and features relative to compensation risk factors. The Compensation and Talent Development Committee reviewed the Company's risk profile and related risk management processes and the findings of the compensation risk assessment to determine if any material risks were deemed likely to arise from our compensation policies and programs and whether these risks are reasonably likely to have a material adverse effect on our business. The Compensation and Talent Development Committee determined that the Company's then-current pay plans and policies were not reasonably likely to have a material adverse effect on the Company. The Compensation and Talent Development Committee thereafter reported its findings to the Board. During 2015, the committee reviewed and determined that risk considerations and risk inventory of the compensation programs have remained unchanged. We believe that our compensation programs for our executives do not encourage excessive or unnecessary risk, as they are designed to, among others, reinforce responsible business practices, provide a balanced distribution of compensation elements, tie compensation to short and long-term results, provide for the recovery of compensation in the event of inaccurate financial disclosures, fraud or misconduct, require moderate levels of share ownership and prohibit hedging transactions involving Company securities. 41

(1) Amounts represent base salary. Some of the NEOs deferred a portion of their salary under the non-qualified deferred compensation plan. The deferred amounts have been included in the Non-Qualified Deferred Compensation Table below. (2) Represents discretionary payments made under the non-equity incentive compensation plan. See “Compensation discussion and analysis—Compensation of named executive officers for 2015—Short-term annual cash incentive” for a detailed explanation. (3) The amounts shown reflect the grant date fair value of the stock awards determined in accordance with the provisions of FASB Accounting Standards Codification Topic 718. See footnote 21 of the Corporation’s audited consolidated financial statements. (4) The amounts represent the actuarial increase in the present value of the NEOs benefits under our pension plan and the Supplemental Benefit Plan, described below under “Non-contributory defined benefit pension plan.” The increase was calculated using the interest rate, discount rate and form of payment assumptions consistent with those used in our financial statements. The calculation assumes benefit commencement at normal retirement age (65), and was calculated without respect to pre-retirement death, termination or disability. Earnings on deferred compensation are not reflected in this column because we do not provide guaranteed returns on non-qualified deferred compensation. (5) Other annual compensation consists of the following: Vehicles Sick Leave & Vacation Contributions to Defined Termination/ Allowance Paid(a) Contributions Plan Retirement Benefits Total

The Compensation and Talent Development Committee established the performance measures for purposes of determining the amounts payable for the year ended December 31, 2015. The amounts shown under the Threshold column assume the lowest performance level is achieved by the Company or business unit. The amount of the annual non-equity incentive bonus can be zero if the lowest level is not achieved. Awards under this plan, if any, are payable in the first quarter of the following year. Amounts approved with respect to 2015 results are reflected in the “Summary compensation table — Non-Equity Incentive Plan Compensation” column. (2) Performance awards vest at the end of a three-year period following their grant date, subject to the achievement of performance measures. The minimum threshold payout is determined at 64% when 80% of the target is met and the maximum payout is determined at 150% when 120% of the target is met. (3) Represents the number of restricted shares awarded on each grant date. Restricted stocks are considered issued and outstanding as of December 31, 2015; however, they have a three year vesting period, and vest in equal installments on each anniversary date. Owners of restricted share have the same right as any other shareholder to receive any dividend declared by the Company on its Class B shares. (4) The grant date fair value of these awards was determined in accordance with the provisions of FASB Accounting Standards Codification Topic 718. See footnote 21 of the Company’s audited consolidated financial statements. There is no assurance that the value realized by NEOs, if any, will be at or near the amounts shown in this column. (#) Represents a non-monetary value. 43

The Compensation and Talent Development Committee has discontinued the grant of stock options because the Company believes that performance shares better reflect our compensation philosophy. The Company granted stock options to certain executive officers, including some NEOs, in connection with the initial public offering of our Class B shares in 2007. Additionally, the Company granted stock options to Mr. García-Rodríguez and other two employees in 2009 and 2010, respectively, as part of their respective compensation packages. Pension benefits We sponsor a non-contributory retirement program for certain employees of our Company. The pension plan covers the NEOs annual salary set forth in the Summary Compensation Table. Our supplemental retirement program covers benefits in excess of the United States Internal Revenue Code (“IRC”) limits that apply to the non-contributory retirement program, which is a tax-qualified program under IRC rules. The following is a summary of the provisions of our defined benefit pension plans.

Non-contributory defined-benefit pension plan. Employees age 21 or older with one year of service with a BCBSA organization who were hired by the Company or its subsidiaries on or before December 19, 2006 in the case of union employees (on or before September 30, 2007, in the case of non-union employees) are eligible to participate in our non-contributory defined-benefit pension plan. Union employees hired after December 19, 2006 are ineligible to participate. Non-union employees hired after September 30, 2007 are ineligible to participate. The average earning calculated is based on the highest average annual rate of pay from any five consecutive calendar year periods out of the last ten years. Each year’s earnings are limited by IRC Section 401(a)(17) and 415. For 2015, the pension earnings are limited to \$265,000. Since July 2012, the accrued benefit for single life benefit was calculated using the following formula: 1% of final average earnings multiplied by plan service (defined as full and partial years of employment with the Company or any of its subsidiaries) up to 30 years, minus any benefit accrued under a prior BCBSA plan.

Normal retirement. To be eligible for normal retirement benefits, termination of employment must occur after both (i) the attainment of age 65 and (ii) after five years of participation in the plan. The accrued benefit is payable at the normal retirement date.

Early retirement. To be eligible for early retirement benefits, termination of employment must occur after both (i) the attainment of age 55 and (ii) five years of participation in the plan. The benefit will be the accrued benefit at normal retirement date minus a reduction factor for each year prior to age 62. There is no reduction if retirement occurs on or after age 62. The plan also has a special early retirement provision. To be eligible, the termination of employment must occur after attaining 30 years of benefit service and election of immediate benefit commencement.

Forms of payment. The standard form of payment for a single participant is a straight life annuity; for a married participant, a reduced qualified joint and survivor annuity begins at the benefit commencement date, with 50% of the benefit continuing to the surviving spouse upon the earlier death of the participant. In lieu of the standard form of payment, a participant may elect, with the proper spousal consent, one of the optional forms of annuity payment or, alternatively, a single lump sum payment.

Supplemental retirement plan. Employees with non-contributory retirement program benefits limited by the IRC maximum compensation and benefit limits are eligible to participate in a supplemental retirement plan. The accrued benefit is calculated by the same formula used in the defined-benefit plan using the amount of salary in excess of the IRC limit. Normal retirement, early retirement, and special early retirement provisions are the same as provided for the non-contributory defined-benefit plan, described above.

Forms of payment. The standard form of payment for a single participant is a straight life annuity; for a married participant, a reduced qualified joint and survivor annuity begins at the benefit commencement date, with 50% of the benefit continuing to the surviving spouse upon the earlier death of the participant. The lump sum payment is not available in the Supplemental Retirement Plan. 45

Ms. Hernández-Urquiza’s rejoined the Company in 2010 and the number of years of her credited service under the non-contributory define-benefit pension plan is fixed to the years of actual service prior to 2010. (2) For additional information on the material assumptions applied in determining the present value of accumulated benefits, see note 16 (“Pension Plans”) to the Company’s audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. (3) Participant is eligible for early retirement under both plans. Additional details on early retirement payments and benefit formula and eligibility standards can be found in the sections titled “Non-Contributory Defined Benefit Pension Plan” and “Supplemental Retirement Plan” above. 401(k) defined contribution savings plans. The Company maintains four tax-qualified 401(k) savings plans for employees not eligible for our non-contributory retirement plan or the supplemental retirement plan. For all its business units except two, the Company matches fifty percent of participant’s contribution of up to six percent of the participant’s pre-tax compensation. Company match for the other two business units is as follows: (i) twenty-five cents of each dollar contributed by the participant up to 4% of the participant’s pre-tax compensation and (ii) one-hundred cents of each dollar contributed by the participant up to the first 1% of the participant’s compensation and fifty cents of each dollar contributed by the participant up to 3% of the participant’s compensation. For participant union employees, Company match is twenty cents of each dollar up to the first 6% of the participant’s pre-tax compensation. During 2015, Messrs. Jordán-Pérez and García-Rodríguez and Mrs. Hernández-Urquiza participated in the defined contribution savings plan. Non-qualified deferred compensation table The following table presents compensation for the NEOs that has been deferred under a plan that is not tax-qualified:

(1) Amounts reported in this column for 2015 are reported as salary in the Summary Compensation Table. Under our non-qualified deferred compensation plan, participants may elect to defer up to 20% of their gross annual cash compensation. The deferred compensation and accumulated interest will be paid on the occurrence of the following events: termination of employment, retirement, six months of continued disability, death, or an elected fixed 46

date occurring after the 5th but not later than the 25th anniversary of deferral. Deferred compensation accumulates interest at an annual rate equivalent to the actual annual yield of the fixed income portion of the Company's investment portfolio for the corresponding year.

Description of employment agreements We have no employment agreements with any of our NEOs, except for our chief executive officer. On December 2015, Mr. Ruiz-Comas retired from the Company and, consequently, the employment agreement terminated by its own terms. On December 31, 2015, we entered into an employment agreement with Mr. García-Rodríguez, our current chief executive officer, which has a three-year term. Payments and benefits under the employment agreements with our chief executive officers are subject to the Company's recoupment policy.

Ramón M. Ruiz-Comas. On March 4, 2010, we entered into an employment agreement with Mr. Ruiz-Comas, our former chief executive officer, which had a two-year term. On November 5, 2012, we extended the term of the agreement until December 2015. The agreement provided for a base salary of \$740,000, which may be increased from time to time pursuant to the terms of the contract and our compensation policies. As of December 2015, Mr. Ruiz-Comas salary was \$831,096. For 2015, Mr. Ruiz-Comas received a short-term cash incentive as disclosed in the summary compensation table.

Roberto García-Rodríguez. On December 31, 2015, we entered into an employment agreement with Mr. García-Rodríguez, our chief executive officer, effective January 1, 2016, which has a three-year term. The agreement provides for a base salary of \$750,000, which may be increased from time to time pursuant to the terms of the contract and our compensation policies. Under the agreement, Mr. García-Rodríguez is eligible to receive an annual short-term cash incentive, contingent upon the achievement of annual performance objectives established in accordance with our policies. The agreements of Messrs. Ruiz-Comas and García-Rodríguez also provide for certain benefits and perquisites, including an automobile allowance, the annual membership fees for a private club, the payment of premiums in connection with long-term disability insurance and life insurance coverage, the payment of premiums in connection with health and medical benefits, including his dependents under our group health insurance plan, and the right to participate in all employee benefit plans and programs, including long-term incentive compensation programs, generally available to senior executives.

Termination provisions of chief executive officer employment contracts Under the terms of the contracts, we would be required to make payments in the event of expiration of the agreement, termination of the agreement with or without cause, or change in control, as further described below. Except as otherwise indicated, these termination provisions apply to the employment agreements with Messrs. Ruiz-Comas and García-Rodríguez. Termination for In the event the agreement with our chief executive officer terminates for "cause," or as a cause result of his death or resignation, he will receive the base salary earned until the date of death or resignation, the liquidation of any applicable fringe benefits and the payment of amounts due under our deferred compensation plan and any vested rights under our pension plan. For "cause" means: a material breach by the chief executive officer of the agreement, his duties or any lawful written policies, rules, regulations, guidelines or codes of the Company; a conviction of, or plea of guilty, or no contest to a felony or a misdemeanor involving fraud, dishonest or disreputable conduct or moral turpitude; insubordination; improper or disorderly conduct; 47

the existence of a conflict of interest not previously disclosed to the Board; or a substantial reduction of the operations of the Company and its subsidiaries. Termination without cause (other than for death or disability), we would provide the following severance benefits: the continuation of long term disability insurance, life insurance and health and medical benefits for the chief executive officer and his dependents until the later of one year or the expiration of the agreement; the payment of any amounts due under our deferred compensation plan and/or related to vested rights under our pension plan; and the accelerated vesting of equity grants, provided that the chief executive officer releases the Company from liability with the execution of a general release and non-disparagement agreement. Expiration of the employment contract terminates as a result of the expiration of the employment term (other than through the chief executive officer's request and regardless of whether there is any period of at-will employment following the employment term), we would provide the following severance: an amount equal to the base salary payable in 12 substantially equal monthly installments; and the continuation of long-term disability insurance, life insurance and health benefits for the chief executive officer and his dependents for a 12-month period following termination. Termination upon change in control or he change in control resigns for good reason ("double trigger"), the chief executive officer is entitled to receive the following payment: an amount equal to (1) twice the highest base salary received by the executive in any of the three fiscal years prior to the change in control plus (2) the average annual cash bonus received by the chief executive officer during the prior three fiscal years; and the continuation of long-term disability insurance, life insurance and health and medical benefits for the chief executive officer and his dependents for 24 months or until the chief executive officer obtains employment with comparable benefits. "Change in control" is defined as: the acquisition by any party of ownership of 25% or more of the total votes required for the election of our directors, or of such amount which, based on the cumulative vote, if this were allowed by the articles of incorporation and bylaws, would permit such party to elect 25% or more of our directors; a consolidation, merger or other business combination, sale of assets or any combination thereof as a result of which the persons who were our directors prior to such transaction fail to constitute a majority of the Board; a change of at least 30% of our directors as a result of a "proxy fight," as such term is defined in Regulation 14A of the Exchange Act; or a sale or transfer of substantially all our assets to a non-affiliated corporation. 48

For purposes of the agreement, “good reason” means: a change in the nature or scope of the chief executive officer’s duties or functions from those performed on the date immediately preceding the change in control; a reduction in base salary from that received on the date immediately preceding the change in control; a reduction in the ability to participate in the compensation plans, such as bonus, stock options, incentives or other compensation plans, in which the chief executive officer participated on the date immediately preceding the change in control; a change in the location of the chief executive officer’s principal place of employment of more than twenty-five miles from the place maintained as work office on the date immediately preceding the change in control; or the reasonable determination by the Board to the effect that, as a result of the change in control and a change in the circumstances thereafter affecting the employment position, the chief executive officer is unable to exercise the authority, powers, functions or duties assigned to his position on the date immediately preceding the change in control.

Non-compete With respect to Mr. Ruiz-Comas, he was entitled to receive an amount equal to the greater of the base salary payable (1) until the expiration of the agreement or (2) for one year, payable in equal monthly installments or in a lump sum, at our option; provided Mr. Ruiz-Comas does not compete with us or solicit our team members during the 12-month period following termination, or disclose any confidential information.

Potential payments upon termination or change in control Mr. Ruiz-Comas. Mr. Ruiz-Comas retired from the Company in December 2015. Under the terms of his contract, he is entitled to certain benefits upon termination of employment. These benefits are payable in accordance with his employment agreement. We describe this agreement, including the material conditions or obligations applicable to the receipt of these benefits, under the caption “Description of employment agreements” above. The table below sets forth the value of the benefits (other than payments that were generally available to salaried team members) paid or accrued at the time of termination.

Payments paid or accrued to Mr. Ruiz-Comas*	Base salary	\$0	Annual short-term bonus	\$688,936	Non-compete(1)	\$831,096	Fringe benefits	\$0	Total	\$1,520,032

(1) The Board holds an annual off-site meeting to discuss our strategic direction and comply with continuing education requirements, among other purposes. Some of the activities at this meeting could be considered non-work related; however, due to the difficulty in allocating the specific cost to each member and since total cost is estimated at less than \$3,500 per person, such amount was not included in the above table. (2) In accordance with Section 229.402(k)(2)(iii) of Regulation S-K, this item considers the aggregate grant date fair value computed in accordance with FAS ASC Topic 718 for the grant given on 6/25/2015 (3,030 shares at \$26.40). AUDIT COMMITTEE MATTERS Report of the Audit Committee The following is the report of the Audit Committee with respect to the Company's audited financial statements for the year ended December 31, 2015. The information in this report shall not be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended (the "Securities Act"), or Exchange Act, or otherwise considered "filed" with the SEC, except to the extent that the Company specifically incorporates this report or a portion of it by reference. The Audit Committee reports to and acts on behalf of the Board. The committee operates under a written charter adopted by the Board. The committee reviews the charter annually and a copy is available at <http://investors.triplesmanagement.com/govdocs>. The Board has determined that each member of the committee is independent. In making this determination, the Board follows the audit committee independence standards set forth in the NYSE's director independence rules. The members of the committee are not our employees or employees of any of our subsidiaries. The Audit Committee assists the Board in its oversight of our financial reporting process, internal control over financial reporting, as well as our internal and external audit processes, and the independent registered public accounting firm's qualifications and performance of the internal audit function. The committee is also responsible for the appointment, compensation, retention and oversight of the independent registered public accounting firm and the establishment of procedures for handling complaints. The committee appoints or terminates the engagement of the independent registered public accounting firm and reviews the proposed audit scope and approach, including coordination of the audit effort with the Internal Audit Office. The committee does not itself prepare the financial statements or perform audits of the Company's financial statements. In the performance of its oversight function, the Audit Committee has considered and discussed our audited consolidated financial statements for the fiscal year ended December 31, 2015—including critical accounting policies, reasonableness of significant estimates and judgment and financial statements disclosures—with management and D&T, our independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm the matters required to be discussed by AU Section 380, Communications with Audit Committee. The committee has also discussed with D&T the matters required by the Public Company Accounting Oversight Board Rule 3526 regarding "Communication with Audit Committee Concerning Independence". In addition, the committee has received the written disclosures and the letter from D&T required by applicable requirements of the Public Accounting Oversight Board regarding the independent registered public accounting firm's communications with the committee concerning independence, and has discussed with D&T its independence. The committee has also considered whether the provision of non-audit services by the independent registered public accounting firm to us is compatible with maintaining the auditors' independence. The committee has evaluated D&T's qualifications, performance and independence, including that of the lead partner. As part of its auditor engagement process, the committee considers whether to rotate the independent audit firm. Based on the Audit Committee's consideration of the audited consolidated financial statements and the discussions referred to above with management and the independent registered public accounting firm, and subject to the limitations on the role and responsibilities of the committee set forth in the charter and those discussed above, the committee recommended and the Board approved that our audited consolidated financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the SEC. Prior independent registered public accounting firm PwC previously served as our independent auditor. As previously reported on our Current Report on Form 8-K dated January 15, 2015, we dismissed PwC as our independent registered public accounting firm. We have engaged D&T as the Company's independent registered public accountants for the fiscal year ended December 31, 2015. The Audit Committee requested proposals from several independent public accounting firms for the Company's 2015-2017 audits. The Audit Committee believes that a periodic review of the appointment of the Company's external firm is beneficial to the Company and its shareholders. PwC acted as our independent registered

accounting firm from 2009 until their dismissal. The Audit Committee invited PwC and other major U.S. international accounting firms to participate in the process. The Audit Committee received proposals of four firms, including PwC. As a result of this competitive process and after careful deliberation of the proposals submitted by these four firms, on February 12, 2015, the Audit Committee engaged D&T as the Company's independent registered public accounting firm for the fiscal year ended December 2015, and dismissed PwC from that role, effective upon the issuance by PwC of its reports on the consolidated financial statements as of and for the year ended December 31, 2014 and the effectiveness of internal control over financial reporting as of December 31, 2014 included in the filing of the related Form 10-K. The audit reports of PwC on the Company's consolidated financial statements for the fiscal years ended December 31, 2014 and 2013, respectively, did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During the fiscal years ended December 31, 2013 and 2014 and the subsequent interim period through January 12, 2015, there have been no disagreements with PwC on any matters of accounting principles or practices, financial statement disclosure or auditing scope or procedures which disagreements if not resolved to the satisfaction of PwC would have caused PwC to make reference to the matter in their reports on the financial statement for such years. During the fiscal years ended December 31, 2013 and 2014, respectively, and the subsequent interim period through January 12, 2015, there were no "reportable events" as that term is described in Item 304(a)(1)(v) of Regulation S-K. The Company provided PwC with a copy of the above disclosures and requested that PwC furnish a letter addressed to the Securities and Exchange Commission stating whether or not it agrees with the statements contained in our Current Report on Form 8-K dated January 15, 2015. A copy of such letter is filed as Exhibit 16 to our Current Report on Form 8-K dated January 15, 2015. During the two fiscal years ended December 2013 and 2014, respectively, and the subsequent period through February 12, 2015, the date of the execution of our engagement with D&T, the Company did not consult with D&T regarding the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered to the Company's financial statement, and D&T did not provide either a written report or oral advice to the Company's that D&T concluded was an important factor considered by the Company in reaching a decision as to any accounting, auditing or financial reporting issue. The Company did not consult with D&T regarding any of the matters set forth in Item 304(a)(2)(ii) of Regulation S-K. Submitted by: Antonio F. Faría-Soto, Chair David H. Chafey, Jr. Roberto Santa María-Ros 53
