FORM 10-Q
(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file Number: 000-32891

1ST CONSTITUTION BANCORP

(Exact Name of Registrant as Specified in Its Charter)

New Jersey 22-3665653

(State of Other Jurisdiction of Incorporation or Organization) (I.R.S. Employer Identification No.)

2650 Route 130, P.O. Box 634, Cranbury, NJ 08512

(Address of Principal Executive Offices) (Zip Code)

(609) 655-4500

(Issuer's Telephone Number, Including Area Code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company) Emerging growth company

If an emerging growth company, indicated by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 6, 2018, there were 8,379,342 shares of the registrant's common stock, no par value, outstanding.

1ST Constitution Bancorp
Notes to Consolidated Financial Statements
June 30, 2018
(Unaudited)

(1) Summary of Significant Accounting Policies

The accompanying unaudited consolidated financial statements include 1ST Constitution Bancorp (the “Company”), its wholly-owned subsidiary, 1ST Constitution Bank (the “Bank”), and the Bank’s wholly-owned subsidiaries,^{§1} Constitution Investment Company of New Jersey, Inc., FCB Assets Holdings, Inc., 204 South Newman Street Corp. and 249 New York Avenue, LLC. 1ST Constitution Capital Trust II, a subsidiary of the Company, is not included in the Company’s consolidated financial statements, as it is a variable interest entity and the Company is not the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation and certain prior period amounts have been reclassified to conform to current year presentation. The accounting and reporting policies of the Company and its subsidiaries conform to accounting principles generally accepted in the United States of America (“U.S. GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”), including the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements have been condensed or omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company’s Form 10-K for the year ended December 31, 2017, filed with the SEC on March 19, 2018.

In the opinion of the Company, all adjustments (consisting only of normal recurring accruals) that are necessary for a fair presentation of the operating results for the interim periods have been included. The results of operations for periods of less than a year are not necessarily indicative of results for the full year.

The Company has evaluated events and transactions occurring subsequent to the balance sheet date of June 30, 2018 for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through the date these financial statements were issued.

Adoption of New Accounting Standards

ASU 2014-09 - Revenue from Contracts with Customers (Topic 606)

On January 1, 2018, the Company adopted Accounting Standards Update (“ASU”) 2014-09 Revenue from Contracts with Customers and all subsequent amendments to the ASU (collectively, “Topic 606”), which (i) creates a single framework for recognizing revenue from contracts with customers that fall within its scope and (ii) revises when it is appropriate to recognize a gain or loss from the transfer of nonfinancial assets, such as other real estate owned (“OREO”). The majority of the Company’s revenues come from interest income, other services to customers and other sources, including loans, leases and securities that are outside the scope of Topic 606. The Company’s services that fall within the scope of Topic 606 are presented within non-interest income and are recognized as revenue as the Company satisfies its obligation to the customer. Services within the scope of Topic 606 include service charges on deposits, interchange income, other services and the sale of OREO. Refer to Note 6 - Revenue from Contracts with Customers - for further discussion on the Company’s accounting policies for revenue sources within the scope of Topic 606.

The Company adopted Topic 606 using the modified retrospective method for reporting periods beginning after January 1, 2018. The Company did not have any contracts that were not completed as of January 1, 2018. The adoption of Topic 606 did not result in a change to the accounting for any of the in-scope revenue streams; therefore, no cumulative effect adjustment was recorded.

ASU Update 2017-07 - Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost

In March 2017, the FASB issued ASU 2017-07, “Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost,” which requires that an employer disaggregate the service cost component from the other components of net benefit costs as follows: (1) service cost must be presented in the same line item(s) as other employee compensation costs. These costs are generally included within income from continuing operations but in some cases, may be eligible for capitalization if certain criteria are met; and (2) all other components of net benefit cost must be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. These generally include interest cost, actual return on plan assets, amortization of prior service cost included in accumulated other comprehensive income and gains or losses from changes in the value of the projected benefit obligation or plan assets.

For the Company, the provisions of this ASU are effective for fiscal years beginning after December 15, 2017, including interim periods within those years. The adoption of this guidance in 2018 did not have a material impact on the Company's consolidated financial statements.

ASU Update 2017-01 - Business Combinations (Topic 805): Clarifying the Definition of a Business

In January 2017, the FASB issued ASU 2017-01 "Business Combinations (Topic 805): Clarifying the Definition of a Business," which clarifies the definition of a business with the objective of adding guidance to assist companies and other reporting organizations with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The amendments in this ASU provide a more robust framework to use in determining when a set of assets and activities is a business. The current definition of a business is interpreted broadly and can be difficult to apply. Stakeholders indicated that analyzing transactions is inefficient and costly and the definition does not permit the use of reasonable judgment.

Under current implementation guidance, there are three elements of a business: inputs, processes and outputs. While an integrated set of assets and activities (collectively referred to as a "set") that is a business usually has outputs, outputs are not required to be present. Additionally, all the inputs and processes that a seller uses in operating a set are not required if market participants can acquire the set and continue to produce outputs, for example, by integrating the acquired set with their own inputs and processes.

The ASU introduces a "screen" to assist entities in determining when a set should not be considered a business. If substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets, the set is not considered a business. If the screen is not met, the ASU requires that to be considered a business, a set must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. Further, the ASU removes the evaluation of whether a market participant could replace missing elements (as required under current U.S. GAAP).

For the Company, the ASU is effective for annual periods beginning after December 15, 2017, including interim periods within those periods. The amendments in this ASU should be applied prospectively on or after the effective date. No disclosures are required at transition. The adoption of this guidance in 2018 did not have a material impact on the Company's consolidated financial statements.

ASU Update 2016-15 - Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments.

In August 2016, the FASB issued ASU 2016-15 "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments," which clarifies whether the following items should be categorized as operating, investing or financing in the statement of cash flows: (1) debt prepayment and extinguishment costs, (2) settlement of zero-coupon debt, (3) settlement of contingent consideration, (4) insurance proceeds, (5) settlement of corporate-owned life insurance (COLI) and bank-owned life insurance (BOLI) policies, (6) distributions from equity method investees, (7) beneficial interests in securitization transactions and (8) receipts and payments with aspects of more than one class of cash flows.

For the Company, the provisions of this ASU are effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. The Company currently classifies cash flows related to BOLI in accordance with the guidance, and the adoption of this guidance in 2018 did not have a material impact on its consolidated financial statements.

ASU Update 2016-01 - Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities

In January 2016, the FASB issued ASU 2016-01 “Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities.” The guidance in the ASU, among other things, requires equity investments, with certain exceptions, to be measured at fair value with changes in fair value recognized in net income; simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; eliminates the requirement for public business entities to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; requires an entity to present separately in other comprehensive income, the portion of the change in fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments; requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements; and clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities.

For the Company, the guidance in this ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The adoption of this guidance in 2018 did not have a material impact on the Company's consolidated financial statements.

(2) Acquisition of New Jersey Community Bank

On April 11, 2018, the Company completed its acquisition of 100 percent of the common shares of New Jersey Community Bank ("NJCB"), which merged with and into the Bank. The shareholders of NJCB received total consideration of \$8.6 million, which was comprised of 249,785 shares of common stock of the Company with a market value of \$5.5 million and cash of \$3.1 million, of which \$401,000 was placed in escrow to cover costs and expenses, including settlement costs, if any, that the Company may incur after closing the merger as a result of a certain litigation matter.

The merger was accounted for under the acquisition method of accounting, and accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at preliminary estimated fair values as of the acquisition date. NJCB's results of operations have been included in the Company's Consolidated Statements of Income since April 11, 2018.

The assets acquired and liabilities assumed in the merger were recorded at their estimated fair values based on management's best estimates, using information available at the date of the merger, including the use of third party valuation specialists. The fair values are preliminary estimates and subject to adjustment for up to one year after the closing date of the merger.

The following table summarizes the estimated fair value of the acquired assets and liabilities assumed:

(Dollars in Thousands)	Amount
Consideration paid:	
Company stock issued	\$5,495
Cash payment	2,668
Cash held in escrow	401
Total consideration paid	\$8,564
Recognized amounts of identifiable assets acquired and liabilities assumed at fair value:	
Cash and cash equivalents	\$2,073
Investment securities available for sale	11,173
Loans	75,144
Premises and equipment, net	1,120
Core deposit intangible asset	80
Bank-owned life insurance	3,972
Accrued interest receivable	259
Other assets	2,786
Deposits	(87,223)
Other liabilities	(636)
Total identifiable assets and liabilities, net	\$8,748
Gain from bargain purchase	\$184

Accounting Standards Codification ("ASC") Topic 805-10 provides that if the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the acquirer shall report, in its financial statements, provisional amounts for the items for which the accounting is incomplete. During the measurement period, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition

date and may recognize additional assets or liabilities

8

to reflect new information obtained from facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date. The measurement period may not exceed one year from the acquisition date.

Investments were recorded at fair value, utilizing quoted market prices on nationally recognized exchanges (Level 1) or by using Level 2 inputs. For Level 2 securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the security's terms and conditions, among other things.

Loans acquired in the NJCB acquisition were recorded at fair value and subsequently accounted for in accordance with ASC Topic 310. The fair values of loans acquired were estimated, utilizing cash flow projections based on the remaining maturity and repricing terms. Cash flows were adjusted for estimated future credit losses of approximately \$1.6 million and estimated prepayments. Projected cash flows were then discounted to present value, utilizing a risk-adjusted market rate for similar loans that management determined market participants would likely use.

At the acquisition date, the Company recorded \$74.3 million of loans without evidence of credit quality deterioration and \$881,000 of loans with evidence of credit quality deterioration.

The following table summarizes the composition of the loans acquired and recorded at fair value:

(Dollars in Thousands)	At April 11, 2018		Total
	Loans acquired with no credit quality deterioration	Loans acquired with credit quality deterioration	
Commercial			
Construction	\$ 798	—	\$798
Commercial real estate	58,191	873	59,064
Commercial business	1,293	8	1,302
Residential real estate	7,572		7,572
Consumer	6,409		6,409
Total loans	\$ 74,263	\$ 881	\$75,144

The following is a summary of the loans acquired with evidence of deteriorated credit quality in the NJCB acquisition as of the date of the closing of the merger:

(Dollars in Thousands)	Acquired Credit Impaired Loans
Contractually required principal and interest at acquisition	\$ 1,658
Contractual cash flows not expected to be collected (non-accretable difference)	609
Expected cash flows at acquisition	1,049
Interest component of expected cash flows (accretable difference)	168
Fair value of acquired loans	\$ 881

Bank-owned life insurance was recorded at the cash surrender value of the insurance policies, which approximates the redemption value of the policies.

The core deposit intangible totaled \$80,000 and is being amortized over its estimated useful life of approximately 10 years, using an accelerated method. No goodwill was recognized in the transaction.

The following table presents the projected amortization of the core deposit intangible for each period:

(Dollars in Thousands)	Amount
Year	
2018	\$ 15
2019	13
2020	12
2021	10
2022	8
Thereafter	22
	\$ 80

The fair values of deposit liabilities with no stated maturities, such as checking, money market and savings accounts, were assumed to equal the carrying value amounts since these deposits are payable on demand. The fair values of certificates of deposit represent the present value of contractual cash flows discounted at market rates for similar certificates of deposit.

Direct costs related to the acquisition were expensed as incurred. During the three and six months ended June 30, 2018, the Company incurred \$2.0 million and \$2.1 million, respectively, of expenses for termination of contracts, legal and financial advisory fees, severance and other integration related expenses, which have been separately stated as merger-related expenses in the Company's Consolidated Statements of Income.

Supplemental Pro Forma Financial Information

The following table presents financial information regarding the former NJCB operations included in the Company's Consolidated Statements of Income from the date of the acquisition (April 11, 2018) through June 30, 2018 under the column "Actual from acquisition date to June 30, 2018." In addition, the table presents unaudited condensed pro forma financial information assuming that the NJCB acquisition had been completed as of January 1, 2018 and January 1, 2017, respectively. In the table, merger-related expenses of \$2.1 million were excluded from the pro forma non-interest expenses for the six months ended June 30, 2018. Income taxes were also adjusted to exclude income tax benefits of \$568,000 related to the merger expenses for the six months ended June 30, 2018.

The table has been prepared for comparative purposes only and is not necessarily indicative of the actual results that would have been attained had the acquisition occurred as of the beginning of the periods presented, nor is it indicative of future results. Furthermore, the unaudited pro forma financial information does not reflect management's estimate of any revenue-enhancing opportunities nor anticipated cost savings that may have occurred as a result of the integration and consolidation of NJCB's operations. The pro forma financial information reflects adjustments related to certain merger expenses and the related income tax effects.

(Dollars in Thousands)	Actual from Acquisition Date to 6/30/2018	Pro Forma for the Six Months Ended 6/30/2018	Pro Forma for the Six Months Ended 6/30/2017
Net interest income	\$ 790	\$ 21,545	\$ 18,463
Non-interest income	40	3,920	4,312
Non-interest expenses	445	17,004	17,426
Income taxes	116	2,123	1,693
Net income	269	5,888	3,356

(3) Net Income Per Common Share

Basic net income per common share is calculated by dividing net income by the weighted average number of common shares outstanding during each period. Diluted net income per common share is calculated by dividing net income by the weighted average number of common shares outstanding, as adjusted for the assumed exercise of dilutive common stock warrants and common stock options using the treasury stock method.

Awards of restricted shares are included in outstanding shares when granted. Unvested restricted shares are entitled to non-forfeitable dividends and participate in undistributed earnings with common shares. Awards of this nature are considered participating securities and basic and diluted earnings per share are computed under the two-class method.

Dilutive securities in the tables below exclude common stock options and warrants with exercise prices that exceed the average market price of the Company's common stock during the periods presented. Inclusion of these common stock options and warrants would be anti-dilutive to the diluted earnings per common share calculation. For the three and six months ended June 30, 2018 and 2017, no options and 9,500 options, respectively, were anti-dilutive and were not included in the computation of diluted earnings per common share.

The following table illustrates the calculation of both basic and diluted earnings per share for the three and six months ended June 30, 2018 and 2017:

	Three Months		Six Months	
	Ended June 30,		Ended June 30,	
(Dollars in thousands, except per share data)	2018	2017	2018	2017
Net income	\$1,871	\$ 1,919	\$4,724	\$ 3,868
Basic weighted average shares outstanding	8,341,458	8,033,299	8,227,108	8,029,690
Plus: common stock equivalents	286,646	268,640	279,852	271,741
Diluted weighted average shares outstanding	8,628,104	8,301,939	8,506,960	8,301,431
Earnings per share:				
Basic	\$0.22	\$ 0.24	\$0.57	\$ 0.48
Diluted	\$0.22	\$ 0.23	\$0.56	\$ 0.47

(4) Investment Securities

A summary of amortized cost and approximate fair value of investment securities available for sale follows:

(Dollars in thousands)	June 30, 2018			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury securities and obligations of U.S. Government sponsored entities ("GSE") and agencies	\$3,984	\$ —	\$(64)	\$3,920

At June 30, 2018 and December 31, 2017, \$118.4 million and \$98.4 million of investment securities, respectively, were pledged to secure public funds and collateralized borrowings from the FHLB and for other purposes required or permitted by law.

Restricted stock was included in other assets at June 30, 2018 and December 31, 2017 and totaled \$6.1 million and \$1.6 million, respectively. Restricted stock consisted of \$6.0 million of Federal Home Loan Bank of New York stock and \$135,000 of Atlantic Community Bankers Bank stock at June 30, 2018 and \$1.5 million of Federal Home Loan Bank of New York stock and \$65,000 of Atlantic Community Bankers Bank stock at December 31, 2017.

The following table sets forth certain information regarding the amortized cost, carrying value, fair value, weighted average yields and contractual maturities of the Company's investment portfolio as of June 30, 2018. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

June 30, 2018			
(Dollars in thousands)	Amortized Cost	Fair Value	Yield
Available for sale			
Due in one year or less	\$3,667	\$3,665	2.04 %
Due after one year through five years	32,156	31,753	2.70 %
Due after five years through ten years	28,267	27,873	2.93 %
Due after ten years	68,070	66,784	2.78 %
Total	\$132,160	\$130,075	2.77 %

	Carrying Value	Fair Value	Yield
Held to maturity			
Due in one year or less	\$19,267	\$19,312	2.35 %
Due after one year through five years	16,540	16,974	3.99 %
Due after five years through ten years	21,110	21,035	3.04 %
Due after ten years	38,405	38,349	3.06 %
Total	\$95,322	\$95,670	3.07 %

Gross unrealized losses on available for sale and held to maturity securities and the fair value of the related securities aggregated by security category and length of time that individual securities have been in a continuous unrealized loss position at June 30, 2018 and December 31, 2017 were as follows:

June 30, 2018							
(Dollars in thousands)	Number of Securities	Less than 12 months		12 months or longer		Total

U.S. Treasury securities and obligations of U.S. Government sponsored entities and agencies: The unrealized losses on investments in these securities were caused by increases in market interest rates. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

Residential collateralized mortgage obligations and residential mortgage backed securities: The unrealized losses on investments in residential collateralized mortgage obligations and mortgage backed securities were caused by increases in market interest rates. The contractual cash flows of these securities are guaranteed by the issuers, which are primarily government or government sponsored agencies. It is expected that the securities would not be settled at a price less than the amortized cost of the investment. The decline in fair value is attributable to changes in interest rates and not credit quality. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

Obligations of state and political subdivisions: The unrealized losses on investments in these securities were caused by increases in market interest rates. It is expected that the securities would not be settled at a price less than the amortized cost of the investment. None of the issuers have defaulted on interest payments. These investments are not considered to be other than temporarily impaired because the decline in fair value is attributable to changes in interest rates and not credit quality. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

Corporate debt securities: The unrealized losses on investments in corporate debt securities were caused by increases in market interest rates. None of the corporate issuers have defaulted on interest payments. The decline in fair value is attributable to changes in interest rates and not a decline in credit quality. The Company does not intend to sell these

investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

Trust preferred debt securities – single issuer: The investments in these securities with unrealized losses are comprised of two corporate trust preferred securities issued by one large financial institution that mature in 2027. The contractual terms of the trust preferred securities do not allow the issuer to settle the securities at a price less than the face value of the trust preferred securities, which is greater than the amortized cost of the trust preferred securities. The issuer maintains an investment grade credit rating and has not defaulted on interest payments. The decline in fair value is attributable to the widening of interest rate and credit spreads and the lack of an active trading market for these securities. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

Trust preferred debt securities – pooled: This trust preferred debt security was issued by a two-issuer pool (Preferred Term Securities XXV, Ltd. co-issued by Keefe, Bruyette and Woods, Inc. and First Tennessee (“PRETSL XXV”)) consisting primarily of debt securities issued by financial institution holding companies. During 2009, the Company recognized an other-than-temporary impairment of \$865,000, of which \$364,000 was determined to be a credit loss and charged to operations and \$501,000 was recognized in the other comprehensive income (loss) component of shareholders’ equity.

The primary factor used to determine the credit portion of the impairment loss recognized in the income statement for this security was the discounted present value of projected cash flow where that present value of cash flow was less than the amortized cost basis of the security. The present value of cash flow was developed using a model that considered performing collateral ratios, the level of subordination to senior tranches of the security and credit ratings of and projected credit defaults in the underlying collateral.

On a quarterly basis, management evaluates the security to determine if any additional other-than-temporary impairment is required. As of June 30, 2018, the security was in an unrealized gain position.

(5) Allowance for Loan Losses and Credit Quality

The Company’s primary lending emphasis is the origination of commercial business and commercial real estate loans and mortgage warehouse lines of credit. Based on the composition of the loan portfolio, the inherent primary risks are deteriorating credit quality, a decline in the economy and a decline in New Jersey real estate market values. Any one, or a combination, of these events may adversely affect the loan portfolio and may result in increased delinquencies, loan losses and increased future provision levels.

The following table provides an aging of the loan portfolio by loan class at June 30, 2018:

(Dollars in thousands)	30-59 Days	60-89 Days	Greater than 90 Days	Total Past Due	Current	Total Loans Receivable	Recorded Investment > 90 Days Accruing	Non-accrual Loans
