ITEM 1. FINANCIAL STATEMENTS

The condensed consolidated Financial Statements are set forth at the end of this document.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The following discussion should be read in conjunction with the Company's condensed consolidated financial statements and the notes thereto appearing elsewhere in this Form 10-QSB. Certain statements contained herein that are not related to historical results, including, without limitation, statements regarding the Company's business strategy and objectives, future financial position, expectations about pending litigation and estimated cost savings, are forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the "Securities Exchange Act") and involve risks and uncertainties. Although the Company believes that the assumptions on which these forward-looking statements are based are reasonable, there can be no assurance that such assumptions will prove to be accurate and actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, regulatory policies, competition from other similar businesses, and market and general

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

policies, competition from other similar businesses, and market and general economic factors. All forward-looking statements contained in this Form 10-QSB are qualified in their entirety by this statement.

### OVERVIEW

On May 25, 2001, the Company entered into a plan of Reorganization and Merger with New Century Remanufacturing, Inc. ("NCR"). Immediately prior to the merger, the Company had 50,000,000 shares authorized and 2,695,942 shares issued and outstanding. Pursuant to the merger, all of the 1,800 outstanding shares of NCR were exchanged for shares of the Company on a 1 to 833.33 basis or into 1,500,000 shares of common stock of the Company for a total of 4,195,942 shares of common stock issued and outstanding. Immediately after the merger, all then existing officers and directors of the Company resigned and the management of NCR was elected and appointed to such positions; thereby effecting a change of control. Although NCR became a wholly owned subsidiary of the Company following the transaction, because the transaction resulted in a change of control, the transaction was recorded as a "reverse merger" whereby NCR was considered to be the accounting acquirer of the Company.

After the reverse merger the Company changed its name to New Century Companies, Inc. The results of the Company previously filed in the past years are not included herein. The related financial statements are the results of operations for NCR.

### PLAN OF OPERATIONS

The earnings of the Company for the three months ended March 31, 2004 were negative as a result of a decrease in sales and the corporate expenses related to compliance with the regulatory requirements of being a public company. The Company's current strategy is to expand its customer sales base with its present line of machine products. Plans for expansion are expected to be funded through current working capital from ongoing sales. However, significant growth will require additional funds in the form of debt or equity, or a combination thereof. However, there can be no assurance these funds will be available.

3

### RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2004 COMPARED TO MARCH 31, 2003.

**Revenues.** The Company generated revenues of \$979,308 for the three months ended March 31, 2004, which was a \$738,832 or 43% decrease from \$1,718,140 for the three months ended March 31, 2003. The decrease is the result of a deficiency in working capital, which has limited our ability to fulfill customer orders. Additionally, the overall market for machine tools is cyclical, reflecting economic conditions, production capacity utilization, changes in tax and fiscal policies, corporate profitability and financial condition as well as the general level of business confidence. The Company cannot predict for what period of time the decreased level of customer purchases will continue, whether the level of customer purchases will decline further, or the level at which incoming orders will be.

**Gross Loss.** Gross loss for the three months ended March 31, 2004, was \$(34,693) or -3.5% of revenues, compared to \$(85,588), or -4.9% of revenues for the three months ended March 31, 2003.

**Net Loss.** Net operating loss decreased to (\$493,088) for the three months ended March 31, 2004 compared to \$(954,789) for the three months ended March 31, 2003. The primary reason for the decrease relates to a one-time charge related

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

to a write-off of a deposit of \$465,000 in fiscal 2003.

Interest Expense. Interest expense for the three months ended March 31, 2004, decreased to \$41,798 compared to \$113,433, for the three months ended March 31, 2003, primarily due to the repayment of \$900,000 short-term loan in January 2003. In January 2003, the company paid \$60,000 additional interest for \$900,000 and \$500,000 short-term loans.

### FINANCIAL CONDITION, LIQUIDITY, CAPITAL RESOURCES

The net cash decrease of the Company during the three months ended March 31, 2004 was (\$155,969). The decrease is due to net cash used in operating activities of (\$175,207). The Company has a substantial working capital deficit and requires an infusion of funds in the form of equity and/or debt. However, there is no guarantee that the Company will raise sufficient additional funds to execute its business plan. To the extent that the Company is unable to raise sufficient additional funds, the Company's business plan will substantially modified, its operations curtailed or protection under bankruptcy/reorganization laws sought.

During the period ended March 31, 2004, the Company issued a Private Placement Memorandum ("PPM") in which the Company offered to eligible investors, as defined, a maximum of 30,000 shares of Series D preferred stock (Series D"), with a required minimum offering of 1,000 shares of Series D to be sold at \$25 per share. As of April 30, 2004 and pursuant to the PPM, the Company sold 20,000 shares of Series D to eligible investors for proceeds approximating \$470,000 (net of commissions and offering costs of \$30,000). In addition, the Company issued 1,000 shares of series D and a warrant to purchase 20,000 shares of restricted common stock at exercise prices ranging from \$0.50 to \$1.00, immediately vesting and expiring in February 2007.

The Company is currently addressing its liquidity issue by the following actions: The Company continues its aggressive program for selling inventory that has been produced or is currently in production. The Company continues to implement plans to further reduce operating costs. The Company is continually seeking investment capital through the public markets including through its PPM discussed above. However, there is no guarantee that any of these strategies will enable the Company to meet its obligations for the foreseeable future.

### INFLATION AND CHANGING PRICES

The Company does not foresee any adverse effects on its earnings as a result of inflation or changing prices.

### GOING CONCERN

The Company has incurred operating losses in the last two years, has a working capital deficit and a significant stockholders' deficit. These conditions, among others, raise substantial doubt about the Company's ability to continue as a going concern.

### CRITICAL ACCOUNT POLICIES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect the amounts reported in the condensed consolidated financial statements and the accompanying notes. The amounts of assets and liabilities reported on

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

the balance sheet and the amounts of revenues and expenses reported for each of the fiscal periods are affected by estimates and assumptions, which are used for, but not limited to, the accounting for revenue recognition, accounts receivable, doubtful accounts and inventories. Actual results could differ from these estimates. The following critical accounting policies are significantly affected by judgments, assumptions and estimates used in the preparation of the financial statements:

### Concentration of Credit Risk

The Company sells products to customers throughout the United States. The Company's ability to collect receivables is affected by economic fluctuations in the geographic areas served by the Company. Although the Company does not obtain collateral with which to secure its contracts receivable, management periodically reviews contracts receivable and assesses the financial strength of its customers and, as a consequence, believes that the receivable credit risk exposure is limited.

### Long-Lived Assets

In July 2001, the Financial Accounting Standards Board ("FASB") issued Statements of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of." SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets. SFAS 144 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset (excluding interest), an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. SFAS 144 also requires companies to separately report discounted operations and extends that reporting to a component of an entity that either has been disposed of (by sales, abandonment or in a distribution to owners) or is classified as held for sale. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. The Company adopted SFAS 144 on January 1, 2002. The provision of this statement for assets held for sale or other disposal generally are required to be applied prospectively after the adoption date to newly initiated commitments to plan to sell such assets, as defined, by management. As a result, management cannot determine the potential effects that adoption of SFAS 144 will have on the Company's financial statements with respect to future disposal decision, if any. To date, management has determined that no such impairment exists and therefore, no adjustments have been made to the carrying values of long-lived assets. There can be no assurance, however, that market conditions will not change or demand for the Company's products or services will continue which could result in impairment of long-lived assets in the future.

5

### Revenue Recognition

Service revenues are billed and recognized in the period the services are rendered.

The Company accounts for shipping and handling fees and costs in accordance with EITF 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with SFAS 48, "Revenue Recognition when Right of Return

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

Exists," revenue is recorded net of an estimate of markdowns, price concessions and warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin 101 ("SAB 101"), "Revenue Recognition," which outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the Securities and Exchange Commission. Management believes that the Company's revenue recognition policy for services and product sales conforms to SAB 101. The Company recognizes revenue of long-term contracts pursuant to Statement of Position 81-1, "Accounting for Performance of Construction - Type and Certain Production - Type Contracts."

### Method of Accounting for Long-Term Contracts

The Company uses the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because long-term contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Revenue earned on contracts in progress in excess of billings (under billings) is classified as a current asset. Amounts billed in excess of revenue earned (overbillings) are classified as a current liability.

### Other Significant Accounting Policies

Other significant accounting policies not involving the same level of measurement uncertainties as those discussed above, are nevertheless important to an understanding of the financial statements. The policies related to consolidation and loss contingencies require difficult judgments on complex matters that are often subject to multiple sources of authoritative guidance.

Certain of these matters are among topics currently under reexamination by accounting standards setters and regulators. Although no specific conclusions reached by these standards setters appear likely to cause a material change in the Company's accounting policies, outcomes cannot be predicted with confidence. Also see Note 1 of the Notes to Condensed Consolidated Financial Statements, Organization and Significant Accounting Policies, which discusses accounting

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

policies that must be selected by management when there are acceptable alternatives.

### ITEM 3. CONTROLS AND PROCEDURES

#### (a) Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures (as defined in Rules 13(a)-15(c) of the Exchange Act) include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Within 90 days prior to the filing of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based upon and as of the date of March 31, 2004, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures over financial reports are effective to ensure that the information required to be disclosed in the reports the Company files and submits under the Exchange Act is recorded, processed, summarized and reported as and when required.

#### (b) Changes in Internal Controls

There were no changes in the Company's internal controls over financial reports during the quarter ended March 31, 2004 that are likely to affect those controls. Thus, no corrective actions with regard to significant deficiencies or material weakness were necessary.

7

### PART II. OTHER INFORMATION

#### Item 1. Legal Proceedings

None.

#### Item 2. Changes in Securities

During the quarter ended March 31, 2004, the Company issued 100,000 shares. The shares were issued pursuant to Section 4(2) of the Act.

#### Item 3. Defaults Upon Senior Securities

1. A note payable to an unaffiliated third party in the amount of \$500,000 with an interest rate of 10% per annum, matured in April 2003 and is currently in default.
2. A note payable to an unaffiliated third party in the amount of \$250,000 that was in default was extended until December 31, 2003. Originally, the Company issued to the note holder warrants to purchase 100,000 shares of the Company's restricted common stock at

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

an exercise price of \$2.00 valued at \$106,000 (based on the Black-Scholes option pricing model), which the Company has amortized to interest expense during the year ended December 31, 2002. As part of an extension agreement, the Company effectively cancelled the original 100,000 warrants and issued warrants to purchase 200,000 shares of common stock at an exercise price of \$1.00, which vested upon grant and expire in December 2003.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits:

31.1 302 Sarbanes Oxley Certification of David Duquette, Chief Executive Officer and Chief Financial Officer

32.1 906 Sarbanes Oxley Certification

(b) Reports on Form 8-K:

None.

FOR THE THREE MONTHS ENDED MARCH 31, 2004 AND 2003  
-----

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND NATURE OF OPERATIONS

New Century Companies, Inc. and Subsidiary (collectively, the "Company"), a California corporation, was incorporated March 1996 and is located in Southern California. The Company provides after-market services, including rebuilding, retrofitting and remanufacturing of metal cutting machinery. Once completed, a remanufactured machine is "like new" with state-of-the-art computers, and the cost to the Company's customers is approximately 40% to 50% of that of a new machine.

The Company currently sells its services by direct sales and through a network of machinery dealers across the United States. Its customers are generally medium to large sized manufacturing companies in various industries where metal cutting is an integral part of their businesses. The Company grants credit to its customers who are predominately located in the western United States.

The Company completed a reverse merger in May 2001 and trades on the OTC Bulletin Board under the symbol "NCNC."

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements include the accounts of New Century Companies, Inc. and its wholly owned subsidiary, New Century Remanufacturing (collectively, the "Company"). All significant intercompany accounts and transactions have been eliminated in consolidation.

GOING CONCERN

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business. As of March 31, 2004, the Company has negative working capital of \$3,075,942, an accumulated deficit of \$6,254,547 and recurring losses from operations. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company intends to fund operations through increased sales and debt and equity financing arrangements which management believes may be insufficient to fund its capital expenditures, working capital and other cash requirements for the fiscal year ending December 31, 2004. Therefore, the Company will be required to seek additional funds to finance its long-term operations. The successful outcome of future activities cannot be determined at this time and there is no assurance that if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

-----  
NEW CENTURY COMPANIES, INC. AND SUBSIDIARY  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED MARCH 31, 2004 AND 2003  
-----

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

GOING CONCERN (continued)

In response to these problems, management has taken the following actions:

- o The Company continues its aggressive program for selling inventory.
- o The Company continues to implement plans to further reduce operating costs.
- o The Company is seeking investment capital through the public markets.
- o The Company has secured approximately \$3,000,000 of new orders from January 2004 through April 2004.

The condensed consolidated financial statements do not include any adjustments related to recoverability and classification of assets carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

INVENTORY

Inventories are stated at the lower of cost or net realizable value. Cost is determined under the first-in, first-out method. Inventories represent cost of work in process on units not yet under contract. Cost includes all direct material and labor, machinery, subcontractors and allocations of indirect overhead.

REVENUE RECOGNITION

Service revenues are billed and recognized in the period the services are rendered.

The Company accounts for shipping and handling fees and costs in accordance with EITF 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with SFAS 48, "Revenue Recognition when Right of Return Exists," revenue is recorded net of an estimate of markdowns, price concessions and warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin 101 ("SAB 101"), "Revenue Recognition," which outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the Securities and Exchange Commission. Management believes that the Company's revenue recognition policy for services and product sales conforms to SAB 101. The Company recognizes revenue of long-term contracts pursuant to Statement of Position 81-1, "Accounting for Performance of Construction-Type and Certain Production-Type Contracts" (see below).

---

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

METHOD OF ACCOUNTING FOR LONG-TERM CONTRACTS

The Company uses the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because long-term contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Revenue earned on contracts in progress in excess of billings (under billings) is classified as a current asset. Amounts billed in excess of revenue earned (overbillings) are classified as a current liability.

BASIC AND DILUTED LOSS PER COMMON SHARE

Under SFAS 128, "Earnings Per Share," basic earnings per common share is computed by dividing income available to common stockholders by the weighted-average number of common shares assumed to be outstanding during the period of computation. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive (there were 1,821,583 and 870,015 additional potential common shares of March 31, 2004 and 2003, respectively). Because the Company has incurred net losses, basic and diluted loss per share are the same as additional potential common shares would be anti-dilutive.

BASIC AND DILUTED LOSS PER COMMON SHARE (continued)

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the three month and nine month periods ended March 31, 2004 and 2003:

	FOR THE THREE MONTHS ENDED MARCH 31,	
	2004	2003
Net loss	\$ (534,886)	\$ (1,069,822)
Current cumulative preferred dividends	(234,750)	(86,625)
	(729,886)	(1,546,447)
Numerator for basic and diluted loss per share: Net loss applicable to common stockholders		
Denominator for basic and diluted loss per share: Weighted average shares	6,911,932	5,853,883
Basic and diluted loss per share	\$ (0.11)	\$ (0.20)

STOCK BASED EMPLOYEE COMPENSATION

At March 31, 2004, the Company has one stock-based employee compensation plan and one stock-based non-employee compensation plan. The Company accounts for the employee compensation plan under the recognition and measurement principles of APB 25, and related interpretation. The Company accounts for the non-employee compensation plan under the recognition measurement principles of SFAS 123. There was no employee stock-based compensation cost recognized in net loss for the three month period ended March 31, 2004 and 2003. All options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of SFAS 123 to stock-based employee compensation.

	FOR THE THREE MONTHS ENDED MARCH 31,	
	2004	2003
	-----	-----
Net loss applicable to common stockholders:		
As reported	\$ (729,886)	\$ (1,546,44
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards	--	-
	-----	-----
Pro forma	\$ (729,886)	\$ (1,546,44
	=====	=====
Basic and diluted net loss per share:		
As reported	\$ (0.11)	\$ (0.2
	=====	=====
Pro forma	\$ (0.11)	\$ (0.2
	=====	=====

The above pro forma effects of applying SFAS 123 are not necessarily representative of the impact on reported net loss for future years.

NEW ACCOUNTING PRONOUNCEMENTS

Recent accounting pronouncements discussed in the notes to the December 31, 2003 financial statements filed previously with the Securities and Exchange Commission in Form 10-KSB that were required to be adopted during the year ended December 31, 2004 did not have a significant impact on the Company's financial statements.

RECLASSIFICATIONS

Certain reclassifications have been made to the 2003 condensed consolidated financial statements to conform to the 2004 presentation.

2. CONTRACTS IN PROGRESS

Contracts in progress as of March 31, 2004 were as follows:

Cumulative costs to date	\$ 4,289,774
Cumulative gross profit to date	2,856,838
	-----
Cumulative revenue earned	7,146,612
Less progress billings to date	(7,404,827)
	-----
Net overbillings	\$ (258,215)
	=====

## Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

The following is included in the accompanying condensed consolidated balance sheet under these captions as of March 31, 2004:

Costs and estimated earnings on contracts in progress in excess of billings	\$ 334,530
Billings in excess of costs and estimated earnings on contracts in progress	(592,745)
	-----
Net overbillings	\$ (258,215)
	=====

### 3. EQUITY TRANSACTIONS

During the quarter ended March 31, 2004, the Company issued 100,000 shares of restricted common stock valued at \$50,000 (estimated based on the market price on the date of grant) to a consulting firm for services rendered in relation to corporate finance and investor relations. Since the service period was substantially completed as of March 31, 2004, the Company recorded the entire amount to consulting expense in the accompanying condensed consolidated statements of operations.

During the period ended March 31, 2004, the Company issued a Private Placement Memorandum ("PPM") in which the Company offered to eligible investors, as defined, a maximum of 30,000 shares of Series D preferred stock (Series D), with a required minimum offering of 1,000 shares of Series D to be sold at \$25 per share. As of April 30, 2004 and pursuant to the PPM, the Company sold 20,000 shares of Series D to eligible investors for proceeds approximating \$470,000 (net of commissions and offering costs of \$30,000). In addition, the Company issued 1,000 shares of series D and a warrant to purchase 20,000 shares of restricted common stock at exercise prices ranging from \$0.50 to \$1.00, immediately vesting and expiring in February 2007.
