Purchase of property and equipment on credit in the amount of US\$28,000 and US\$19,000 for the nine-month periods ended September 30, 2004 and 2003, respectively.

Supplemental disclosures

Cash paid for taxes during the nine-month periods ended September 30, 2004 and 2003, respectively, amounted to US\$39,000 and US\$50,000, respectively.

The accompanying notes are an integral part of the interim consolidated financial statements.

Note 1 - Organization and Basis of Presentation**A. Description of business**

Radcom Ltd. (the "Company") is an Israeli corporation which operates in one business segment of communication networks. The Company develops, manufactures, markets and supports internetworking test solutions and quality management for a variety of voice and converged data.

The Company has a wholly-owned subsidiary in the United States, Radcom Equipment, Inc. (the "US Subsidiary"), which was incorporated in 1993 under the laws of the state of New Jersey. The US Subsidiary is primarily engaged in the selling and marketing in North America of internetworking test equipment manufactured by and imported from the Company.

In July 1996, the Company incorporated a wholly-owned subsidiary in Israel, Radcom Investments (1996) Ltd. (the "Israeli Subsidiary"), intended to make various investments, including in securities. As at the balance sheet date, the Israeli subsidiary holds part of the Company's outstanding shares.

In August 2001, the Company incorporated a wholly-owned subsidiary in the United Kingdom, Radcom (UK) Limited (the "UK Subsidiary"). The UK subsidiary was primarily engaged in business development activities in the United Kingdom. The business activities of the U.K subsidiary were frozen in the first quarter of 2003.

B. Basis of presentation

The accompanying interim unaudited consolidated financial statements contain all adjustments (consisting only of normal recurring adjustments), which, in the opinion of management, are necessary to present fairly, the financial information included therein. It is suggested that these financial statements be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 20-F for the year ended December 31, 2003. Results for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

Note 2 - Inventories and inventory prepayments

	September 30 2004 US\$ (in thousands) (Unaudited)	December 31 2003 US\$ (in thousands) (Unaudited)
Raw materials	338	260
Work in progress	791	532
Finished goods	467	451
Inventory prepayment	577	496
	2,173	1,739

Note 3 - Stock Compensation Plans

The Company applies APB Opinion No. 25 and related interpretations in accounting for its stock compensation programs benefiting employees and directors according to the intrinsic value of the above options.

If compensation cost had been determined under the alternative fair value accounting method provided under SFAS No. 123, the Company's stock-based employee compensation cost, net loss and basic and diluted net loss per ordinary share would have changed to the following consolidated pro forma amounts:

	Nine months ended September 30		Three months ended September 30		
	2004 US\$ (in thousands) (Unaudited)	2003 US\$ (in thousands) (Unaudited)	2004 US\$ (in thousands) (Unaudited)	2003 US\$ (in thousands) (Unaudited)	
Net loss, as reported		(1,435)	(5,874)	(184)	(1,014)
Deduct:					
Compensation expense according to APB 25 included in reported net loss		88	79	26	16
Add:					
Application of compensation expenses according to SFAS No. 123		(275)	(486)	(80)	(126)
Pro forma net loss		(1,622)	(6,281)	(238)	(1,124)
Basic and diluted net loss per ordinary share:					
As reported		(0.11)	(0.56)	(0.01)	(0.10)
Pro forma		(0.12)	(0.60)	(0.02)	(0.11)

Note 4 - Private placement transaction

On March 29, 2004, the Company closed a private placement transaction (the "PIPE"). Under the PIPE investment, the Company issued 3,851,540 Ordinary Shares, par value 0.05NIS per share (the "Ordinary Shares"), at an aggregate purchase price of US\$5,500 thousand or US\$1.428 per Ordinary Share. The Company also issued to the investors warrants to purchase up to 962,887 Ordinary Shares at an exercise price of US\$2.253 per share. The Warrants are exercisable for two years from the closing of the PIPE.

Note 5 - Contingencies

On December 31, 2003, a company from New Jersey, Acterna, LLC, filed a complaint against the Company and its US subsidiary in the District Court of New Jersey in which it alleges that certain of our products infringed one or more claims of a patent allegedly owned by Acterna. The amount of the damages has not been determined in the complaint. The Company filed an answer to the complaint denying the allegations in the complaint and served a counterclaim for a declaratory judgment, attacking the patent being asserted on the basis of non-infringement, invalidity due to prior existing technology, and unenforceability due to certain alleged improper actions taken by Acterna in obtaining the patent. The Company believes that its defenses are meritorious and the Company intends to vigorously defend its right to sell the products. Should it ever become necessary to do so, the Company believes that it can continue to sell the accused products using alternative technologies. As of the filing of these financial statements, it is not possible to estimate the amount of the potential damages or the chances of success relating to this lawsuit.

Note 6 - New Accounting Pronouncements

In March 2004, the FASB issued an Exposure Draft, Share-Based Payment, that addresses the accounting for share-based payment transactions in which employee services are received in exchange for either equity instruments of the Company, liabilities that are based on the fair value of the Company's equity instruments or that may be settled by the issuance of such equity instruments. The proposed standard would eliminate the ability to account for share-based compensation transactions using the intrinsic value method as prescribed in APB Opinion No. 25, "Accounting for Stock Issued to Employees". Instead, the proposed standard would generally require that such transactions be accounted for using a fair-value-based method and that compensation expense be recognized in the statement of operations. The currently proposed effective date of the proposed standard is for periods beginning after June 15, 2005. It is expected that the final standard will be issued before December 31, 2004. If the FASB adopts this Exposure Draft, as currently drafted, the Company will have to recognize the fair value of the stock based compensation in the statement of operations rather than disclosing the pro forma impact of the stock based compensation as the Company currently discloses in Note 3.
