Explanation of Responses:

No securities are beneficially owned

* If the form is filed by more than one reporting person, *see* Instruction 5(b)(v).

** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. *See* 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *See* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number. Conduct its activities so as to avoid being classified as an "investment company" under the Investment Company Act of 1940 (the "Investment Act"), and therefore to avoid application of the costly and restrictive registration and other provisions of the Investment Act, and the regulations promulgated thereunder.

Section 3(a) of the Investment Act contains the definition of an "investment company," and it excludes any entity that does not engage primarily in the business of investing, reinvesting or trading in securities, or that does not engage in the business of investing, owning, holding or trading "investment securities" (defined as "all securities other than government securities or securities of majority-owned subsidiaries") the value of which exceeds 40% of the value of its total assets (excluding government securities, cash or cash items). The Company intends to implement its business plan in a manner which will result in the availability of this exception from the definition of "investment company." Consequently, the Company's participation in a business or opportunity through the purchase and sale of investment securities will be limited.

The Company's plan of business may involve changes in its capital structure, management, control and business, especially if it consummates a reorganization as discussed above. Each of these areas is regulated by the Investment Act, in order to protect purchasers of investment company securities. Since the Company will not register as an investment company, stockholders will not be afforded these protections.

Any securities which the Company might acquire in exchange for its Common Stock are expected to be “restricted securities” within the meaning of the Securities Act of 1933, as amended (the “Act”). If the Company elects to resell such securities, such sale cannot proceed unless a registration statement has been declared effective by the U. S. Securities and Exchange Commission or an exemption from registration is available. Section 4(1) of the Act, which exempts sales of securities not involving a distribution, would in all likelihood be available to permit a private sale. Although the plan of operation does not contemplate resale of securities acquired, if such a sale were to be necessary, the Company would be required to comply with the provisions of the Act to effect such resale.

An acquisition made by the Company may be in an industry which is regulated or licensed by federal, state or local authorities. Compliance with such regulations can be expected to be a time-consuming and expensive process.

Competition

The Company expects to encounter substantial competition in its efforts to locate attractive opportunities, primarily from business development companies, venture capital partnerships and corporations, venture capital affiliates of large industrial and financial companies, small investment companies, and wealthy individuals. Many of these entities will have significantly greater experience, resources and managerial capabilities than the Company and will therefore be in a better position than the Company to obtain access to attractive business opportunities.

No Rights of Dissenting Shareholders

The Company does not intend to provide Company shareholders with complete disclosure documentation including audited financial statements, concerning a possible target company prior to acquisition, because Delaware law vests authority in the Board of Directors to decide and approve matters involving acquisitions within certain restrictions. Any transaction would be structured as an acquisition, not a merger, with the Registrant being the parent company and the acquiree being merged into a wholly owned subsidiary.

Risk Factors

There are several material risks associated with the Company. You should carefully consider the risks and uncertainties described below, which constitute all of the material risks relating to the Company. If any of the following risks are realized, our business, operating results and financial condition could be harmed. This means investors could lose all or a part of their investment.

(a) **CONFLICTS OF INTEREST.** Certain conflicts of interest may exist between the Company and its officers, directors and principal shareholders. They have other business interests to which they devote their attention, and they will devote little time to the business of the Company. As a result, conflicts of interest may arise that can be resolved only through exercise of such judgment as is consistent with fiduciary duties to the Company. See “Management” and “Conflicts of Interest.”

(b) **NEED FOR ADDITIONAL FINANCING.** The Company has very limited funds, and such funds may not be adequate to take advantage of any available business opportunities. Even if the Company’s funds prove to be sufficient to acquire an interest in, or complete a transaction with, a business opportunity, the Company may not have enough capital to exploit the opportunity. The ultimate success of the Company may depend upon its ability to raise additional capital. The Company has not investigated the availability, source, or terms that might govern the acquisition of additional capital and will not do so until it determines a need for additional financing. If additional capital is needed, there is no assurance that funds will be available from any source or, if available, that they can be obtained on terms acceptable to the Company. If not available, the Company’s operations will be limited to those that can be financed with its modest capital.

(c) **REGULATION OF PENNY STOCKS.** The Company’s securities may be subject to a Securities and Exchange Commission rule that imposes special sales practice requirements upon broker-dealers who sell such securities to persons other than established customers or accredited investors. For purposes of the rule, the phrase “accredited investors” means, in general terms, institutions with assets in excess of \$5,000,000, or individuals having a net worth in excess of \$1,000,000 or having an annual income that exceeds \$200,000 (or that, when combined with a spouse’s income, exceeds \$300,000). For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser’s written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company’s securities and also may affect the ability of purchasers in this offering to sell their securities in any market that might develop therefore.

In addition, the Securities and Exchange Commission has adopted a number of rules to regulate “penny stocks.” Such rules include Rules 3a51-1, 15g-1, 15g-2, 15g-3, 15g-4, 15g-5, 15g-6, 15g-7, and 15g-9 under the Securities Exchange Act of 1934, as amended. Because the securities of the Company may constitute “penny stocks” within the meaning of the rules, the rules would apply to the Company and to its securities. The rules may further affect the ability of owners of Shares to sell the securities of the Company in any market that might develop for them.

Shareholders should be aware that, according to Securities and Exchange Commission, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include (i) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (ii) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (iii) "boiler room" practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (iv) excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and (v) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses.

(d) **LACK OF OPERATING HISTORY.** The majority interest in the Company was purchased in August 2006 for the purpose of seeking a business opportunity. Due to the special risks inherent in the investigation, acquisition, or involvement in a new business opportunity, the Company must be regarded as a new or start-up venture with all of the unforeseen costs, expenses, problems, and difficulties to which such ventures are subject.

(e) **NO ASSURANCE OF SUCCESS OR PROFITABILITY.** There is no assurance that the Company will acquire a favorable business opportunity. Even if the Company should become involved in a business opportunity, there is no assurance that it will generate revenues or profits, or that the market price of the Company's Common Stock will be increased thereby.

(f) **POSSIBLE BUSINESS - NOT IDENTIFIED AND HIGHLY RISKY.** The Company has not identified and has no commitments to enter into or acquire a specific business opportunity and therefore can disclose the risks and hazards of a business or opportunity that it may enter into in only a general manner, and cannot disclose the risks and hazards of any specific business or opportunity that it may enter into. An investor can expect a potential business opportunity to be quite risky. The Company's acquisition of or participation in a business opportunity will likely be highly illiquid and could result in a total loss of investment to the Company and its stockholders if the business or opportunity proves to be unsuccessful. See Item 1 "Description of Business."

(g) **TYPE OF BUSINESS ACQUIRED.** The type of business to be acquired may be one that desires to avoid effecting its own public offering and the accompanying expense, delays, uncertainties, and federal and state requirements which purport to protect investors. Because of the Company's limited capital, it is more likely than not that any acquisition by the Company will involve other parties whose primary interest is the acquisition of control of a publicly traded company. Moreover, any business opportunity acquired may be currently unprofitable or present other negative factors.

(h) **IMPRACTICABILITY OF EXHAUSTIVE INVESTIGATION.** The Company's limited funds and the lack of full-time management will likely make it impracticable to conduct a complete and exhaustive investigation and analysis of a business opportunity before the Company commits its capital or other resources thereto. Decisions will therefore likely be made without detailed feasibility studies, independent analysis, market surveys and the like which, if the Company had more funds available to it, would be desirable. The Company will be particularly dependent in making decisions upon information provided by the promoter, owner, sponsor, or others associated with the business opportunity seeking the Company's participation. A significant portion of the Company's available funds may be expended for investigative expenses and other expenses related to preliminary aspects of completing an acquisition transaction, whether or not any business opportunity investigated is eventually acquired.

(i) **LACK OF DIVERSIFICATION.** Because of the limited financial resources that the Company has, it is unlikely that the Company will be able to diversify its acquisitions or operations. The Company's probable inability to diversify its activities into more than one area will subject the Company to economic fluctuations within a particular business or industry and therefore increase the risks associated with the Company's operations.

(j) **RELIANCE UPON FINANCIAL STATEMENTS.** The Company generally will require audited financial statements from companies that it proposes to acquire. In cases where no audited financials are available, the Company will have to rely upon interim period unaudited information received from target companies' management that has not been verified by outside auditors. The lack of the type of independent verification which audited financial statements would provide, increases the risk that the Company, in evaluating an acquisition with such a target company, will not have the benefit of full and accurate information about the financial condition and recent interim operating history of the target company. This risk increases the prospect that the acquisition of such a company might prove to be an unfavorable one for the Company or the holders of the Company's securities.

Moreover, the Company will be subject to the reporting provisions of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and thus will be required to furnish certain information about significant acquisitions, including audited financial statements for any business that it acquires. Consequently, acquisition prospects that do not have, or are unable to provide reasonable assurances that they will be able to obtain, the required audited statements would not be considered by the Company to be appropriate for acquisition so long as the reporting requirements of the Exchange Act are applicable. Should the Company, during the time it remains subject to the reporting provisions of the Exchange Act, complete an acquisition of an entity for which audited financial statements prove to be unobtainable, the Company would be exposed to enforcement actions by the Securities and Exchange Commission (the "Commission") and to corresponding administrative sanctions, including permanent injunctions against the Company and its management. The legal and other costs of defending a Commission enforcement action would have material, adverse consequences for the Company and its business. The imposition of administrative sanctions would subject the Company to further adverse consequences. In addition, the lack of audited financial statements would prevent the securities of the Company from becoming eligible for listing on NASDAQ, or on any existing stock exchange.

Moreover, the lack of such financial statements is likely to discourage broker-dealers from becoming or continuing to serve as market makers in the securities of the Company. Without audited financial statements, the Company would almost certainly be unable to offer securities under a registration statement pursuant to the Securities Act of 1933, and the ability of the Company to raise capital would be significantly limited until such financial statements were to become available.

(k) OTHER REGULATION. An acquisition made by the Company may be of a business that is subject to regulation or licensing by federal, state, or local authorities. Compliance with such regulations and licensing can be expected to be a time-consuming, expensive process and may limit other investment opportunities of the Company.

(l) LIMITED PARTICIPATION OF MANAGEMENT. The Company currently has only one individual who is serving as its sole officer and director on a very limited-time basis. The Company is therefore heavily dependent upon the skills, talents, and abilities of the principal shareholders to implement its business plan. See "Management."

(m) LACK OF CONTINUITY IN MANAGEMENT. The Company does not have any employment agreements with its officers and directors, and as a result, there is no assurance they will continue to be associated with the Company in the future. In connection with acquisition of a business opportunity, it is likely the current officers and directors of the Company may resign subject to compliance with Section 14f of the Securities Exchange Act of 1934. A decision to resign will be based upon the identity of the business opportunity and the nature of the transaction, and is likely to occur without the vote or consent of the stockholders of the Company.

(n) NO INDEPENDENT AUDIT COMMITTEE OF BOARD OF DIRECTORS. The Company does not have an independent Audit Committee of its Board of Directors. The entire Board of Directors functions as the Company's Audit Committee. The Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley Act") and rules and regulations adopted by the U.S. Securities and Exchange Commission Rules to implement the Sarbanes-Oxley Act impose certain standards on listed companies relative to the maintenance and operations of Board of Directors Audit Committees, including but not limited to the requirement that Audit Committees be appointed, that membership of such committees comprise only independent directors, that a financial professional be among the membership of such committee and that such committee be afforded an adequate operating budget and be able to employ independent professional advisors. The Sarbanes-Oxley Act also requires that the Audit Committee oversee the work of a company's outside auditors and that the outside auditors be responsible to the Audit Committee. At this time, the Company is not in compliance with the requirements of the Sarbanes-Oxley Act as they relate to independent Board of Directors Audit Committees. The Company believes that under rules and regulations adopted by the U.S. Securities and Exchange Commission to implement these provisions of the Sarbanes-Oxley Act it is not required to comply with its requirements relating to the appointment of an Audit Committee of its Board of Directors and conforming with the enumerated standards and guidelines because the Company is not a "Listed Company" as defined therein. Notwithstanding, the Company may ultimately be determined not to be in compliance therewith and may therefore face penalties and restrictions on its operations until it comes into full compliance. Additionally, the Company's failure to comply with the provisions of the Sarbanes-Oxley Act could preclude it from being listed on NASDAQ or any other stock exchanges until it can show that it is in compliance. The Company's failure to be in compliance with the Sarbanes-Oxley Act could also present an impediment to a potential business combination where the target company intends that the Company apply for listing on NASDAQ or any other applicable stock exchanges.

(o) INDEMNIFICATION OF OFFICERS AND DIRECTORS. Delaware Statutes provide for the indemnification of its directors, officers, employees, and agents, under certain circumstances, against attorney's fees and other expenses incurred by them in any litigation to which they become a party arising from their association with or activities on behalf of the Company. The Company will also bear the expenses of such litigation for any of its directors, officers, employees, or agents, upon such person's promise to repay the Company therefor if it is ultimately determined that any such person shall not have been entitled to indemnification. This indemnification policy could result in substantial expenditures by the Company which it will be unable to recoup.

(p) DEPENDENCE UPON OUTSIDE ADVISORS. To supplement the Company's officers, directors and principal shareholders, the Company may be required to employ accountants, technical experts, appraisers, attorneys, or other consultants or advisors. The selection of any such advisors will be made by the Company without any input from stockholders. Furthermore, it is anticipated that such persons may be engaged on an "as needed" basis without a continuing fiduciary or other obligation to the Company. In the event the Company considers it necessary to hire outside advisors, such persons may be affiliates of the Company, if they are able to provide the required services.

(q) LEVERAGED TRANSACTIONS. There is a possibility that any acquisition of a business opportunity by the Company may be leveraged, i.e., the Company may finance the acquisition of the business opportunity by borrowing against the assets of the business opportunity to be acquired, or against the projected future revenues or profits of the business opportunity. This could increase the Company's exposure to larger losses. A business opportunity acquired through a leveraged transaction is profitable only if it generates enough revenues to cover the related debt and expenses. Failure to make payments on the debt incurred to purchase the business opportunity could result in the loss of a portion or all of the assets acquired. There is no assurance that any business opportunity acquired through a leveraged transaction will generate sufficient revenues to cover the related debt and expenses.

(r) **COMPETITION.** The search for potentially profitable business opportunities is intensely competitive. The Company expects to be at a disadvantage when competing with many firms that have substantially greater financial and management resources and capabilities than the Company. These competitive conditions will exist in any industry in which the Company may become interested.

(s) **NO FORESEEABLE DIVIDENDS.** The Company has not paid dividends on its Common Stock and does not anticipate paying such dividends in the foreseeable future.

(t) **LOSS OF CONTROL BY PRESENT MANAGEMENT AND STOCKHOLDERS.** The Company may consider an acquisition in which the Company would issue as consideration for the business opportunity to be acquired an amount of the Company's authorized but unissued Common Stock that would, upon issuance, represent the great majority of the voting power and equity of the Company. The result of such an acquisition would be that the acquired company's stockholders and management would control the Company, and the Company's board of directors and management could be replaced by persons unknown at this time. Such a merger would result in a greatly reduced percentage of ownership of the Company by its current shareholders.

(u) **RULE 144 SALES.** The majority of the outstanding shares of Common Stock held by present stockholders are "restricted securities" within the meaning of Rule 144 under the Securities Act of 1933, as amended. As restricted shares, these shares may be resold only pursuant to an effective registration statement or under the requirements of Rule 144 or other applicable exemptions from registration under the Act and as required under applicable state securities laws. Rule 144 provides in essence that a person who has held restricted securities for one year may, under certain conditions, sell every three months, in brokerage transactions, a number of shares that does not exceed the greater of 1.0% of a company's outstanding common stock or the average weekly trading volume during the four calendar weeks prior to the sale. There is no limit on the amount of restricted securities that may be sold by a nonaffiliate after the restricted securities have been held by the owner for a period of two years. Nonaffiliate shareholders who have held their shares under Rule 144 for two years are eligible to have freely tradable shares. A sale under Rule 144 or under any other exemption from the Act, if available, or pursuant to subsequent registration of shares of Common Stock of present stockholders, may have a depressive effect upon the price of the Common Stock in any market that may develop. All shares become available for resale (subject to volume limitations for affiliates) under Rule 144, one year after date of purchase subject to applicable volume restrictions under the Rule.

Going Concern Qualification

Our auditors have prepared their report on the audited financial statements contained in this Annual Report on a going concern basis which contemplates the realization of assets and liquidation of liabilities in the ordinary course of business; however, currently such realization of assets and liquidation of liabilities are subject to significant uncertainties.

As shown in the accompanying audited financial statements, as of December 31, 2006 our current liabilities exceed our current assets by \$134,778 and our total liabilities exceed our total assets by \$134,778. These factors, among others, indicate that we may be unable to continue existence. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the we be unable to continue in existence.

The appropriateness by the Company of continuing to use the aforementioned basis of accounting is dependent upon, among other things, the ability to maintain and increase existing credit facilities or raise additional capital.

Results of Operations

Liquidity and Capital Resources

As of December 31, 2006, we had \$0.00 in cash and cash equivalents and a working capital deficit of \$134,778. We used \$55,597 in operating activities for the fiscal year period ended December 31, 2006. For the fiscal year ended December 31, 2005, our operations used \$17,790 in cash. We used more cash in operations in 2006 as compared to 2005, primarily due to an increase due to an increase in professional fees. We received \$0.00 in revenue during the fiscal year ended December 31, 2006.

As a result, the Company will require a cash infusion of at least \$50,000 for the next twelve months. Historically, we have depended on loans from our principal shareholders and their affiliated companies (to provide us with working capital as required. There is no guarantee that such funding will be available when required and there can be no assurance that our stockholders, or any of them, will continue making loans or advances to us in the future.

As of December 31, 2006, we owed \$124,750 in the aggregate to our stockholders, comprising \$124,195 in the form of Convertible Promissory Notes and a shareholder payable of \$555.00.

Twelve Months Ended December 31, 2006 Compared to December 31, 2005

The following table summarizes the results of our operations during the fiscal years ended December 31, 2006 and 2005, respectively, and provides information regarding the dollar and percentage increase or (decrease) from the current 12-month period to the prior 12-month period:

Line Item	12/31/06 (audited)	12/31/05 (audited)	Increase (Decrease)	Percentage Increase (Decrease)
Revenues	\$ 0	\$ 0	\$ 0	0.0%
Net loss	(61,354)	(18,861)	(42,493)	(225.8%)
Operating Expenses	60,404	18,861	41,543	220.3%
Loss per share of common stock	(0.01)	(0.00)	(0.01)	(100.0%)

During the fiscal year ended December 31, 2006, S, G & A expenses increased principally due to an increase in professional fees.

We incurred a net loss of \$61,354 for the fiscal year ended December 31, 2006 as compared with a net loss of \$18,861 for the fiscal year ended December 31, 2005. This increase of \$42,493 was mainly due to a change in our business plan and increased expenditures for professional fees.

Off Balance Sheet Arrangements

We do not have any off balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity or capital expenditures or capital resources that is material to an investor in our securities.

Seasonality

Our operating results are not affected by seasonality.

Inflation

Our business and operating results are not affected in any material way by inflation.

Critical Accounting Policies

The Securities and Exchange Commission issued Financial Reporting Release No. 60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies" suggesting that companies provide additional disclosure and commentary on their most critical accounting policies. In Financial Reporting Release No. 60, the Securities and Exchange Commission has defined the most critical accounting policies as the ones that are most important to the portrayal of a company's financial condition and operating results, and require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. The nature of our business generally does not call for the preparation or use of estimates. Due to the fact that the Company does not have any operating business, we do not believe that we do not have any such critical accounting policies.

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Set forth below are the audited financial statements for the Company for the fiscal years ended December 31, 2006 and 2005, and the reports thereon of Paritz & Co, PA and Amisano Hanson Chartered Accountants.

Certified Public Accountants

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
SMI Products, Inc.
(A Development Stage Company)
Santa Monica, California

We have audited the accompanying balance sheet of SMI Products, Inc. (A Development Stage Company) as of December 31, 2006 and the related statements of operations, changes in stockholders' deficiency and cash flows for the year ended December 31, 2006 and the period from inception (June 17, 1996) to December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of SMI Products, Inc. as of December 31, 2005 were audited by other auditors whose report dated March 22, 2006 expressed an unqualified opinion on those statements.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2006 financial statement referred to above presents fairly, in all material respects, the financial position of SMI Products, Inc. as of December 31, 2006 and the results of its operations and its cash flows for the period from inception (June 17, 1996) to December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered recurring net losses and as of December 31, 2006 its current liabilities and total liabilities exceeded its current assets and total assets by \$134,778. These factors raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders,
SMI Products, Inc.

We have audited the accompanying statements of operations, stockholders' deficiency and cash flows of SMI Products, Inc. for the year ended December 31, 2005 and for the period June 17, 1996 (Date of Inception) to December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these financial statements referred to above present fairly, in all material respects, the results of operations and cash flows of SMI Products, Inc. for the year ended December 31, 2005 and for the period from June 17, 1996 (Date of Inception) to December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements referred to above have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company is in the development stage, and has no established source of revenue and is dependent on its ability to raise capital from shareholders or other sources to sustain operations. These factors, along with other matters as set forth in Note 1, raise substantial doubt that the Company will be able to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

SMI PRODUCTS, INC.
(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2006

1 NATURE AND CONTINUANCE OF OPERATIONS

SMI Products, Inc. (the "Company") was incorporated in the State of Nevada on June 17, 1996. From inception through August 11, 2006 the Company was a development stage company in the business of internet real estate mortgage services. From and after August 11, 2006, the Company ceased its prior business. The Company's business plan now consists of exploring potential targets for a business combination with the Company through the purchase of assets, share purchase or exchange, merger or similar type of transaction

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown, and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At December 31, 2006, the Company has not yet achieved profitable operations, has accumulated losses of \$189,579 since its inception, has a working capital deficiency of \$134,779 and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern, but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances. However, there is no assurance of additional funding being available.

2 SIGNIFICANT ACCOUNTING POLICIES

Uses of estimates in the preparation of financial statements

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of these financial statements necessarily involved the use of estimates, which have been made using careful judgment. Actual results may differ from these estimates.

These financial statements, in management's opinion, have been properly prepared within the framework of the significant accounting policies summarized below.

Development stage company

The Company is a development stage company as defined in Statement of Financial Accounting Standards ("FAS") No. 7.

Income taxes

The Company uses the asset and liability method of accounting for income taxes pursuant to FAS No. 109, "Accounting for Income Taxes". Under the assets and liability method of FAS 109, deferred tax assets and liabilities are recognize for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and loss carryforwards and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled

Basic loss per share

The Company reports basic loss per share in accordance with FAS No. 128, "Earnings per Share". Basic loss per share is computed using the weighted average number of shares outstanding during the year.

Financial instruments

The carrying values of cash and accounts payable approximates fair value because of the short maturity of those instruments. Loans payable also approximates fair value. Unless otherwise notes, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

New accounting standards

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted could have a material effect on the accompanying financial statements.

3 RELATED PARTY TRANSACTIONS

The Company was charged the following amount by former directors and officers of the Company:

	DECEMBER 31		FROM INCEPTION(JUNE 17, 1996)TO DECEMBER 31,
	2006	2005	2006
Organizational costs	\$ -	\$ -	\$ 1,000
Consulting fees	-	-	3,740
	\$ -	\$ -	\$ 4,740

These charges were measured by the exchange amount, which is the amount agreed upon by the transacting parties.

4 LOANS PAYABLE - RELATED PARTIES

At December 31, 2006 the Company was indebted to Fountainhead Capital Partners Limited, a shareholder holding approximately 73.5% of the Company's issued and outstanding common shares, in the amount of \$124,750, comprising (i) six convertible promissory notes aggregating a principal balance of \$92,558 due and payable on August 11, 2007; (ii) a convertible promissory note with a principal balance of \$31,637 due on September 30, 2007, and (iii) a shareholder loan payable of \$555. The principal balance of the convertible promissory notes and all accrued interest thereunder are convertible, in whole or in part, into shares of the Company's common stock at the option of the payee or other holder thereof at any time prior to maturity, upon ten days advance written notice to the Company. The number of shares of the Company's common stock issuable upon such conversion shall be determined by the Board of Directors of the Company based on what it determines the fair market value of the Company is at the time of such conversion. Upon conversion, the notes shall be cancelled and a replacement note in identical terms shall be promptly issued by the maker to the holder thereof to evidence the remaining outstanding principal amounts thereof as of the date of the conversion, if applicable. In the event of a stock split, combination, stock dividend, recapitalization of the Company or similar event, the conversion price and number of shares issuable upon conversion shall be equitable adjusted to reflect the occurrence of such event. The following is a summary of loans payable to related parties:

	DECEMBER 31,	
	2006	2005
Unsecured, bearing interest at 2% per annum, due within one year	\$ 124,195	\$ 69,434

5 DEFERRED TAX ASSETS

Deferred tax assets consist of the following:

	DECEMBER 31,	
	2006	2005
Deferred tax assets:		
Net operating loss carryforwards	\$ 189,579	\$ 128,224
Gross deferred tax assets	\$ 64,457	\$ 33,257
Valuation allowance for deferred tax assets	64,457	33,257
	\$ -	\$ -

The amount taken into income as deferred tax assets must reflect that portion of the income tax loss carryforwards which is more likely than not to be realized from future operations. The Company has chosen to provide an allowance of 100% against all available income tax loss carryforwards, regardless of their time of expiry.

6 INCOME TAXES

No provision for income taxes has been provided in these financial statements due to the net loss. At December 31, 2006, the Company has net operating loss carryforwards, which expire commencing in 2017, totaling approximately \$189,579. The potential tax benefit of these losses, if any, has not been recorded in the financial statements.

7 COMPARATIVE FIGURES

Certain of the December 31, 2005 comparative figures have been reclassified in order to conform to the current year's presentation.

ITEM 8. CHANGES IN AND DISAGREEMENT WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

On October 31, 2006, the Company's Board of Directors decided to engage Paritz & Co., Hackensack, NJ as independent principal accountant and auditor to report on the Company's financial statements for the fiscal year ended December 31, 2006, including performing the required quarterly reviews. In conjunction with the new engagement, the Company has dismissed its former accountant, Amisano Hanson Chartered Accountants, Vancouver, Canada as the Company's principal accountant effective October 31, 2006. Amisano Hanson has served the Company well since 1996. Under Item 304 of Regulation S-K, the reason for the auditor change is dismissal, not resignation nor declining to stand for re-election. During the two most recent fiscal years and the interim period through the date of the dismissal, there were no disagreements with Amisano Hanson on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to Amisano Hanson's satisfaction, would have caused Amisano Hanson to make reference to the subject matter of the disagreements in connection with its reports. During the two most recent fiscal years through the date of dismissal, the reports of Amisano Hanson did not contain any adverse opinion or disclaimer of opinion, or was modified as to uncertainty, audit scope, or accounting principles other than the issuance of a "going concern" opinion with respect to its Reports issued with respect to the Company's financial statements dated December 31, 2005 and December 2004, respectively. On October 31, 2006, the Company approved the engagement of Paritz & Co. as the Company's new independent registered public accounting firm for the fiscal year ending December 31, 2006.

ITEM 8a. CONTROLS AND PROCEDURES.

Within 90 days of the filing of this Form 10-KSB, an evaluation was carried out under the supervision and with the participation of our sole officer and director, of the effectiveness of our disclosure controls and procedures. Disclosure controls and procedures are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, such as this Form 10-KSB, is recorded, processed, summarized and reported within the time period specified in the Securities and Exchange Commission's rules and forms. Based on that evaluation, our sole officer and director concluded that as of December 31, 2006, and as of the date that the evaluation of the effectiveness of our disclosure controls and procedures was completed, our disclosure controls and procedures were effective to satisfy the objectives for which they are intended.

There were no changes in our internal control over financial reporting identified in connection with the evaluation performed that occurred during the fiscal year covered by this report that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

PART III.**ITEM 9. DIRECTORS AND EXECUTIVE OFFICERS, PROMOTERS, AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT**

Set forth below is the name of our sole director and executive officer, his age, all positions and offices that he held with us, the period during which he has served as such, and his business experience during at least the last five years.

Name	Age	Positions Held
Geoffrey	34	CEO,
Alison		President, Treasurer and Secretary since 2006

Geoffrey Alison

Geoffrey Alison has served as a President, Treasurer, Secretary and a director of the Company since August 2006. Mr. Alison has been registered with the National Association of Securities Dealers since 1999 and has worked as a General Securities Principal for various securities firms including Stock USA, Inc (January 1999 - October 2001) and Assent, LLC (November 2001 - August 2004). From September 2004 through the present date, Mr. Alison has been a registered General Securities Principal with ECHOtrade, a Philadelphia Exchange member firm, as a securities trader for his own capital and benefit. From July 2003 through January 2005, he served as Chief Financial Officer, Secretary and a director of Intrac, Inc. (OTCBB:ITRD) and From January 2005 through January 2006, he served as President, Secretary and a director of Cape Coastal Trading Corporation (OTCBB:CCTR). In October, 2002, Mr. Alison co-created Greenvest Industries, Inc. which manufactures pet products under the brand name Happy Tails Pet Beds. Mr. Alison is currently President and CEO of Greenvest Industries, Inc.

Mr. Alison devotes less than 5% of his business time to the affairs of the Company. The time Mr. Alison spends on the business affairs of the Company varies from week to week and is based upon the needs and requirements of the Company.

Audit Committee and Audit Committee Financial Expert

We do not currently have an audit committee financial expert, nor do we have an audit committee. Our entire board of directors, which currently consists of Mr. Alison, handles the functions that would otherwise be handled by an audit committee. We do not currently have the capital resources to pay director fees to a qualified independent expert who would be willing to serve on our board and who would be willing to act as an audit committee financial expert. As our business expands and as we appoint others to our board of directors we expect that we will seek a qualified independent expert to become a member of our board of directors. Before retaining any such expert our board would make a determination as to whether such person is independent.

Section 16(a) Beneficial Ownership Reporting Compliance.

Section 16(a) of the Securities Act of 1934 requires the Company's officers and directors, and greater than 10% stockholders, to file reports of ownership and changes in ownership of its securities with the Securities and Exchange Commission. Copies of the reports are required by SEC regulation to be furnished to the Company. Based on management's review of these reports during the fiscal year ended December 31, 2005, all reports required to be filed were filed on a timely basis.

Code of Ethics

On August 30, 2006, our board of directors adopted a code of ethics that our officers, directors and any person who may perform similar functions is subject to. Currently Mr. Alison is our only officer and our sole director, therefore, he is the only person subject to the Code of Ethics. If we retain additional officers in the future to act as our principal financial officer, principal accounting officer, controller or persons serving similar functions, they would become subject to the Code of Ethics. The Code of Ethics does not indicate the consequences of a breach of the code. If there is a breach, the board of directors would review the facts and circumstances surrounding the breach and take action that it deems appropriate, which action may include dismissal of the employee who breached the code. Currently, since Mr. Alison serves as the sole director and sole officer, he is responsible for reviewing his own conduct under the Code of Ethics and determining what action to take in the event of his own breach of the Code of Ethics.

ITEM 10. EXECUTIVE COMPENSATION.

Our sole officer and director, Geoffrey Alison, does not receive any compensation for the services he renders to the Company, has not received compensation in the past, and is not accruing any compensation pursuant to any agreement with the Company. We currently have no formal written salary arrangement with our sole officer. Mr. Alison may receive a salary or other compensation for services that he provides to the Company in the future. No retirement, pension, profit sharing, stock option or insurance programs or other similar programs have been adopted by the Company for the benefit of the Company's employees.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding beneficial stock ownership as of December 31, 2006 of (i) all persons known to us to be beneficial owners of more than 5% of our outstanding common stock; (ii) each director of our company and our executive officers, and (iii) all of our officers and directors as a group. Each of the persons in the table below has sole voting power and sole dispositive power as to all of the shares shown as beneficially owned by them, except as otherwise indicated.

Name	Number of Shares Beneficially Owned(1)	Percent of Outstanding Shares(1)
Fountainhead Capital Partners Limited c/o Jordans (C.I.) Limited PO Box 456 Portman House Hue Street St Helier Jersey JE4 5RP	5,551,000	73.50%
Geoffrey Alison 5000 Noeline Ave. Encino, CA 91436	0	0.00%
Officers and directors as a group (four persons)	0	0.00%

(1) For the purposes of this table, a person is deemed to have "beneficial ownership" of any shares of capital stock that such person has the right to acquire within 60 days

Edgar Filing: HUBSPOT INC - Form 3

of December 31, 2006. All percentages for common stock are calculated based upon a total of 7,551,000 shares outstanding as of December 31, 2006, plus, in the case of the person for whom the calculation is made, that number of shares of common stock that such person has the right to acquire within 60 days of December 31, 2006.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

As of December 31, 2006, we owed approximately \$125,750 in the aggregate to our stockholders, comprising Convertible Notes in the face amount of \$124,195 and a shareholder payable of \$555.

ITEM 13. EXHIBITS

<u>Exhibit Number</u>	<u>Description</u>
23	Consent of Amisano Hanson Chartered Accountants
31	Certification of Principal Executive Officer and Principal Financial Officer filed pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32	Certification of Principal Executive Officer and Principal Financial Officer furnished pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The aggregate fees billed for professional services rendered by Paritz & Co. for the audit of the annual financial statements and review of the quarterly statements and review of the Company's Quarterly and Annual Reports was \$3,000 for the fiscal year ended December 31, 2006 and Amisano Hanson Chartered Accountants, the Company's former principal accountant's fees for the fiscal year ended December 31, 2005 was \$10,929. The Company had no other audit-related fees.

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
